Congressional Record

PROCEEDINGS AND DEBATES OF THE 100th CONGRESS, FIRST SESSION

HOUSE OF REPRESENTATIVES—*Tuesday, January 6, 1987*

This being the day fixed by the 20th amendment of the Constitution of the United States and Public Law 99-613 for the annual meeting of the Congress of the United States, the Members-elect of the 100th Congress met in their Hall, and, at 12 o'clock noon, were called to order by the Clerk of the House of Representatives, Hon. Benjamin J. Guthrie.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Almighty and most gracious God, may Your blessing be upon this assembly and upon all who see their responsibilities for peace and justice in our Nation and in our world.

At this special moment in our history as a people we are thankful for those good gifts that have enriched our lives and given meaning to us. With hearts appreciative for the years past we pray for this new day and new opportunities of service.

We are grateful for the gifts of family, friends, and colleagues, for the gifts of understanding and tolerance, the gifts of perseverance, commitment and integrity, the gifts of faith and hope and love. O God, may Your spirit visit this place and abide in our hearts and minds.

Teach us, O God, not only to see the distinctiveness of our place in Your world, but allow us also to catch the vision of Your whole created world in ways that strengthen our human bonds, support the needy, comfort the afflicted, and protect the oppressed. May we do such good works that justice will roll down as waters and righteousness as an everflowing stream.

For the good gifts that are the heritage of our land, we offer our thanks and for the days ahead we implore Your benediction upon us. Amen.

The CLERK. Representatives-elect to the 100th Congress, this being the day fixed by the 20th amendment of the Constitution and Public Law 99-613 for the meeting of the 100th Congress and as the law directs, the Clerk of the House has prepared the official roll of the Representatives-elect.

Certificates of election covering the 435 seats in the 100th Congress have been received by the Clerk of the House of Representatives, and the names of those persons whose credentials show that they were regularly elected as Representatives in accordance with the laws of their respective States and of the United States will be called.

Without objection, the Representatives-elect will record their presence by electronic device, and their names will be reported in alphabetical order by States, beginning with the State of Alabama, to determine whether a quorum is present.

There was no objection.

The CLERK. The Chair would also like to state that Representatives-elect who have not picked up their voting ID cards may do so now in the Speaker's lobby.

The call was taken by electronic device, and the following Representatives-elect responded to their names:

□ 1215

The Clerk. The quorum call discloses that 426 Representatives-elect have answered to their names. A quorum is present.

ANNOUNCEMENT BY THE CLERK

The Clerk. The Clerk will state that credentials regular in form have been received showing the election of the Honorable Jaime B. Fuster as Resident Commissioner from the Commonwealth of Puerto Rico for a term of 4 years beginning January 3, 1985; the election of the Honorable Walter E. Fauntroy as Delegate from the District of Columbia; the election of the Honorable Ben Blaz as Delegate from Guam; the election of the Honorable Ron de Lugo as Delegate from the Virgin Islands; and the election of the Honorable Fofo I.F. Sunia as Delegate from American Samoa.

ELECTION OF SPEAKER

The Clerk. The next order of business is the election of the Speaker of the House of Representatives for the 100th Congress.

Nominations are now in order.

The Clerk recognizes the gentleman from Missouri [Mr. Gephardt].

□ 1225

Mr. GEPHARDT. Mr. Clerk, as chairman of the Democratic Caucus, I am directed by the unanimous vote of that caucus to present for election to the office of the Speaker of the House of Representatives for the 100th Congress the name of the Honorable Jim Wright, a Representative-elect from the State of Texas.

The Clerk. The Clerk now recognizes the gentleman from New York [Mr. Kemp].

Mr. KEMP. Mr. Clerk, as chairman of the Republican Conference, I am directed by the unanimous vote of that conference to present for election to the office of the Speaker of the House of Representatives of the 100th Congress the name of the Honorable Robert H. Michel, a Representative-elect from the State of Illinois.

The Clerk. The Honorable Jim Wright, a Representative-elect from the State of Texas, and the Honorable Robert H. Michel, a Representative-elect from the State of Illinois, have been placed in nomination.

Are there further nominations? There being no further nominations, the Clerk will appoint tellers.

The Clerk appoints the gentleman from Illinois [Mr. Annunzio], the gentleman from Minnesota [Mr. Frenzel], the gentlewoman from Colorado [Mrs. Schroeder], and the gentlewoman from Nebraska [Mrs. Smith].

The tellers will come forward and take their seats at the desk in front of the Speaker's rostrum.

The roll will now be called and those responding to their names will indicate by surname the nominee of their choice.

The reading clerk will now call the roll.

The tellers having taken their places, the House proceeded to vote for the Speaker.

The following is the result of the vote:

ANSWERED "PRESENT"—2

Michel
Wright

□ 1310

The CLERK. The tellers agree in their tallies that the total number of votes cast is 429, of which the Honorable JIM WRIGHT of Texas has received 254 and the Honorable ROBERT H. MICHEL of Illinois has received 173 with two voting "present."

Therefore, the Honorable JIM WRIGHT of Texas is duly elected Speaker of the House of Representatives for the 100th Congress, having received a majority of the votes cast.

The Clerk appoints the following committee to escort the Speaker-elect to the chair: the gentleman from Illinois [Mr. MICHEL], the gentleman from Washington [Mr. FOLEY], the gentleman from Mississippi [Mr. LOTT], the gentleman from California [Mr. COELHO], the gentleman from Missouri [Mr. GEPHARDT], the gentleman from New York [Mr. KEMP], the gentleman from Texas [Mr. BROOKS], and the gentleman from Texas [Mr. ARCHER]. Without objection, the Clerk also appoints the distinguished former Speaker, the Honorable Thomas P. O'Neill, Jr., and the former minority leader, the Honorable JOHN J. RHODES, to join the escort committee.

There was no objection.

The CLERK. The committee will retire from the Chamber to escort the Speaker-elect of the House of Representatives to the chair.

The Doorkeeper announced the Speaker-elect of the House of Representatives of the 100th Congress, who was escorted to the chair by the committee of escort.

Mr. MICHEL. Mr. Speaker-elect and my colleagues, it has been customary, with several exceptions, for the vanquished in the contest for Speaker to present the victor to the House. Before doing so, I would like to ask unanimous consent, Mr. Speaker-elect, that I be permitted to personally address the House.

The SPEAKER-ELECT. Without objection.

Mr. MICHEL. With the outgoing Speaker and the minority leader of several years past escorting us into the Chamber, I was reminded of my having lost three similar elections to the distinguished former Speaker, as did JOHN RHODES before me. As you know, the former Speaker was fond of telling the story of how Republican aspirants had a longing on this chair, but that it was the only part of the anatomy that would be on it so far as our Republican side is concerned. And as I read Biblical Scripture, the admonition is that thou shalt not covet.

I have abided by that teaching, but I am afraid it will not diminish my desire to occupy the chair someday.

I want to publicly thank my Republican colleagues for again according me the very high honor of being your candidate for Speaker and, having lost the election in the contest, as preordained by last November's election, of now being your leader in the new Congress.

□ 1320

To our Democratic colleagues on the majority side, may I say that even though we in the minority are in the minority on our side, we intend to play a constructive role in the deliberations of this House and, to be sure, there will be times when partisanship prevails. But I hope there will be more occasions when good sense dictates that we work together in a bipartisan way for the good of our country.

It is very appropriate that we begin this historic 100th Congress on the birthday of one of our truly great Speakers, Sam Rayburn of Texas. Thirty years ago, JIM WRIGHT and BOB MICHEL served with Speaker Rayburn as junior Members of this body. I would hope our new Speaker-elect would want to emulate the manner in which his mentor presided over this House.

As we look back in our history, there were times when the Members knew far less about their incoming Speaker's abilities than we know about our Speaker-elect.

The distinguished gentleman from Texas has served in this body for 32 years, working skillfully and adroitly up through the ranks, so to speak, to become the 47th Member of this body to become its Speaker. He knows this institution inside out. He is familiar with the rules and with their many nuances.

He is, in fact, a product of this House. So I have no other recourse but to personally congratulate the distinguished gentleman from Texas for his notable marks of achievement that brought him to this pinnacle.

Our wish for him is that he rule this House wisely, with a firm and steady hand; that he look with equal favor to his left as well as to his right; and that he will preside with a high standard of fairness and impartiality.

Members of the House, it is my high privilege to present to you the new Speaker of the 100th Congress, the distinguished gentleman from the great State of Texas [Mr. Wright].

The SPEAKER. Let it be observed that the outsize gavel I am presently using is a gift from the Speaker of the Texas House of Representatives, Gib Lewis, who said he had been watching television coverage of the House on C-SPAN and could not understand why we in Congress were using what he called such wimpy, little gavels.

To be presented to this Chamber by my friend, Bob Michel, is as great an honor as I could expect or want. I cannot imagine anyone by whom I would prefer to be presented. Bob, with regard to your expressed aspirations and longing for the Chair, I just want to observe that you have done such a magnificent job as minority leader that I hope you will serve there for a long time to come.

Let me say in seriousness that the gentleman from Illinois, Bob Michel, is an outstanding exemplar of this institution and of the American two-party system. Sometimes he and I have been on opposite sides of political issues, but on other occasions we have worked in collaboration for things that sustain and strengthen this Nation that all of us love.

In the last Congress, the minority leader and I worked together in a completely bipartisan way along with the chairmen and ranking minority members of the committee to perfect legislation designed to combat terrorism and deadly drugs. I know that there will be similar opportunities in the future where the national interest overrides all other considerations and for the purposes of which the Members of this House will abolish the center aisle and work as one.

The vigorous clash of ideas in this forum and the healthy competition between political parties have always been part of the fuel that propels the engines of democracy. Yet, I think all of us know in the final analysis that he serves his party best who serves his country best. He serves his region best who serves his Nation first.

The things we celebrate today are the things that unite us; not the things that divide us. If I might speak two thoughts for all of us, Democrats and Republicans alike, the first would be a word of sincere thanks to the gentleman who served longer continuously in this office as Speaker than any predecessor, who 10 years ago broke from precedent to invite his immediate predecessor as Speaker to escort him down the aisle and to this rostrum, and who today has done that very great personal favor for me at my invitation.

For the grace and charm and wit, for the dedication and the skill that he shared with us these 10 years of his Speakership, for the example of high patriotism that he set and for the lasting inspiration that he leaves, our abiding thanks and abounding best wishes always to Thomas P. O'Neill, Jr.

A second sentiment which we all share today is a heartfelt wish for the President of the United States, for his personal health and well-being, and our earnest hopes and fervent prayers for his speedy recovery and early return, whole and happy, to the joys and challenges of the biggest job on Earth. Mr. President, get well.

Now, if the Members will allow me an intensely personal expression, I am deeply conscious that I did not get here alone. Truly, none of us did. The privilege which I have today is possible only because of the sacrificial gifts of love and time, energy, effort and substance, of encouragement and inspiration on the part of many people.

I want to acknowledge a special debt to the people of the 12th Congressional District of Texas without whose unflagging friendship and support I could not have attained this position.

Particularly, most particularly, to my family. To my wife Betty, who is my constant inspiration, and to my children, Jimmy, Ginger, Kay, and Lisa—thank you for your understanding all these years.

□ 1330

To stand here in this place at this time, by your choice, is a treasure more precious than any material possession and an honor more sublime than royalty. To be Speaker of the U.S. House of Representatives is the highest responsibility that can come to a lawmaker anywhere in the world. It is a gift which only the Members of this House can give. Aware of the greatness of your gift, I offer you the abounding thanks of a full and grateful heart. Aware of the responsibilities it entails, I pledge to do my very best to the end that all of us together may achieve the grand expectations of those who wrote the Constitution 200 years ago, and the contemporary hopes of our fellow Americans who last November elected us and sent us here to attend to the unfinished business of our Nation.

Today we observe a historic occasion. The beginning of this 100th Congress testifies to the durability and vitality of the Constitution of the United States, which now has made us the oldest Republic on Earth. The British Prime Minister, William Gladstone, called our Constitution the most perfect instrument of government ever set down by the hand of man at a given time. The system it put in motion has endured the crushing pressures of change and challenge for two centuries. Bombarded by recurrent social crisis and economic panic, it has remained intact. It survived the shattering experience of the Civil War which spilled our blood and drained our treasure and split our country temporarily in two. It has seen us safely through two major World Wars and cataclysmic international upheavals. And it is fully equal, by God's grace, to the needs of our present time.

We are its custodians. Those men of principle and vision who pend that deed to freedom had in mind a very special place for the Congress. Ours is a creative and dynamic role. We alone can legislate. Only we can appropriate. We are expected to initiate, to innovate, to see the obstacles on the road ahead and chart a path around them for our Nation.

This day, as the gentleman from Illinois already has pointed out, has a special additional significance to me. Today, January 6, marks the 105th anniversary of the birth of my mentor, Speaker Sam Rayburn, who had a sense of reverence for the orderly democratic processes of our institution. After 47 years in this House, he still viewed it with awe. The U.S. Congress, Mr. Rayburn said, is the highest theater anyone plays in upon this Earth today. And yet it is the very nature of our political system that those whom it exalts, it also humbles. Let no man or woman be deluded. Each of us who comes here is the recipient of a great privilege. We are here by the invitation and choice of our fellow citizens. We are ordinary men and women grappling with extraordinary problems. This is the people's House. This is the Nation's town hall. As Thaddeus Stevens once said, "This is not a government of kings and satraps. This is a government of the people, and Congress is the people."

So let us define our relationship with the other coequal branches in this delicately contrived balance of powers as we enter the third century of constitutional government, determined to make it work in our present age.

It will be my duty as your Speaker to defend and uphold the House in all relationships at all times in all places.

Still, we seek not confrontation, but cooperation.

To the Chief Executive, we extend the high respect which is his rightful due. We shall be attentive to his requests and supportive when possible. When he speaks for our Nation in international councils, we want him to succeed. Just as the President cannot legislate nor appropriate, so we cannot negotiate. The two branches need the cooperation of one another if our system is to work. And cooperation is a two-way street.

Just as the Nation does not want an imperial Presidency, neither does it want or need an enfeebled Presidency.

It deserves a Congress that is thoughtful, helpful, creative, neither suppinely submissive nor blindly obstructive.

We present ourselves to the President, therefore, not as a rival center of power but as a partner—not as a junior partner in the business of government, but as a full and equal partner. That is what the Constitution intends. We ask no more. We will settle for no less.

We enter the third century with serious problems. We should not deny them nor pretend they do not exist. But neither should we be hypnotized by them nor let them blind us to the good we can do.

In the past 6 years, this Government has doubled the national debt, added more than all previous generations combined. Unless we make dramatic changes, the public's debt will triple in the short span of this one decade. The American people want better than that. Future generations deserve better than that. We can do better than that.

In the past few years we have witnessed the growth of a staggering trade deficit. It is closing our factories, drying up American jobs, eroding our industrial base, making us dangerously dependent upon foreign countries. Just 4 years ago, we were the world's largest creditor Nation. Today we are the world's largest debtor Nation. We can do better than that, and we must.

For all of America's magnificent history, we have been an upwardly mobile people. Each generation has done a little better than the one before. It has been better educated, better employed, better housed. That is what we have called the American dream. As our country grew, more and ever more of our people entered the mainstream; fewer and ever fewer were denied.

We built for the future and dreamed a dream of a country in which the humblest child, born of the most improvident circumstances, might have as his or her birthright the opportunity to get as good a public education as anyone could get anywhere on Earth, the right to have meaningful work, and the right to have a piece of the action in American society. We have worked toward that goal.

Now we face a new and unaccustomed phenomenon, alien to our experience. The average 30-year old American couple today is finding it harder than their parents, not easier, to buy a new car; harder, not easier, to own a home. The average 45-year-old father and mother find it harder to send their children through college. The gap between the richest and poorest has widened.

Now, that is simply unacceptable. That is retrogression. America is not prepared to go into decline. We are not ready for downward mobility. Our future is not behind us. We can do better than that, and we must.

In these and other concerns—the plight of the family farm, the state of America's banking and credit systems, the need to rehabilitate our aging public infrastructure, our still unsatisfied thirst for true excellence in public education—in all of this let us be mindful above all of the obligation that we owe to future generations. It is their birthright that we hold in trusteeship. Let us so conduct ourselves in this 100th Congress that 200 years from now at the beginning of the 200th Congress, another generation of Americans may look back at this halfway point in this history and be grateful for our stewardship.

The very first act of the first Congress was a law prescribing the oath to be taken by every Speaker, by every President and Vice President, by every Member of the House and the Senate, by all officials of all the States upon entering public office. It is an oath to uphold and defend the Constitution of the United States.

As we individually and collectively take this ancient oath today, let us renew our vows. Let us with gratitude for the privilege that is ours ask Almighty God that He shall grant to each of us a portion of the vision to see the right, the courage to stand for the right, the honesty to admit human error, and the love that binds our Nation and our people together, to the end that we may continue to be not the envy of the world but an inspiration to the world and an instrument of His peace.

Now if the distinguished gentlemen from Mississippi, the dean of the House, the chairman of the Appropriations Committee, Mr. Whitten, will step to the well of the Chamber, I am prepared to take the oath of office.

Mr. Whitten then administered the oath of office to Mr. Wright of Texas.

[Applause, the Members rising.]

SWEARING IN OF MEMBERS

The SPEAKER. According to precedent, the Chair will swear in all Members of the House at this time.

The Members-elect and Delegates-elect and the Resident Commissioner-elect rose, and the Speaker administered the oath of office to them.

The SPEAKER. The gentlemen and gentlewomen are now Members of the 100th Congress of the United States.

□ 1345

The Chair recognizes the gentleman from Missouri [Mr. Gephardt].

MAJORITY LEADER

Mr. GEPHARDT. Mr. Speaker, as chairman of the Democratic Caucus, I have been directed to report to the House that the Democratic Members have selected as majority leader the gentleman from Washington, the Honorable Thomas S. Foley.

MAJORITY WHIP

Mr. GEPHARDT. Mr. Speaker, I have the honor and distinct pleasure to advise the Members of the House that the Democratic Members have selected the gentleman from California, the Honorable Tony Coelho, to act as majority whip for the 100th Congress.

MINORITY LEADER

Mr. KEMP. Mr. Speaker, our congratulations to you.

Mr. Speaker, as chairman of the Republican Conference, I am directed to notify the House that the gentleman from Illinois, the Honorable Robert H. Michel, has been selected by the Republican Members of the House as the minority leader of the House.

MINORITY WHIP

Mr. KEMP. Mr. Speaker, as chairman of the Republican Conference, I am directed by our conference to notify the House officially that the Republican Members have selected as our minority whip the gentleman from Mississippi, the Honorable Trent Lott.

ELECTION OF CLERK OF THE HOUSE, SERGEANT AT ARMS, DOORKEEPER, POSTMASTER, AND CHAPLAIN

Mr. GEPHARDT. Mr. Speaker, I offer a privileged resolution (H. Res. 1) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 1

Resolved, That Donnald K. Anderson, of the State of California, be, and he is hereby, chosen Clerk of the House of Representatives;

That Jack Russ, of the State of Maryland, be, and he is hereby, chosen Sergeant at Arms of the House of Representatives;

That James T. Molloy, of the State of New York, be, and he is hereby, chosen

Doorkeeper of the House of Representatives;

That Robert V. Rota, of the Commonwealth of Pennsylvania, be, and he is hereby, chosen Postmaster of the House of Representatives; and

That Reverend James David Ford, of the Commonwealth of Virginia, be, and he is hereby, chosen Chaplain of the House of Representatives.

□ 1355

Mr. KEMP. Mr. Speaker, I will offer a substitute for the resolution just offered by the gentleman from Missouri [Mr. GEPHARDT], but before offering the substitute, I request that there be a division of the question on the resolution so that we may have a separate vote on the Office of the Chaplain.

The SPEAKER. The question is on agreeing to the portion of the resolution providing for the election of the Chaplain.

That portion of the resolution was agreed to.

SUBSTITUTE AMENDMENT OFFERED BY MR. KEMP

Mr. KEMP. Mr. Speaker, I offer a substitute amendment for the remainder of the resolution.

The Clerk read the substitute amendment, as follows:

Amendment offered by Mr. KEMP as a substitute for the remainder of the resolution offered by the gentleman by Missouri [Mr. GEPHARDT]:

Resolved, That Hyde H. Murray of the State of Maryland be and he is hereby chosen Clerk of the House of Representatives;

That Walter P. Kennedy, of the State of New Jersey, be, and he is hereby, chosen Sergeant at Arms of the House of Representatives;

That William R. Pitts, Jr., of the Commonwealth of Virginia, be, and he is hereby, chosen Doorkeeper of the House of Representatives;

That Ronald W. Lasch, of the Commonwealth of Virginia, be, and he is hereby, chosen Postmaster of the House of Representatives.

The SPEAKER. The question is on the substitute amendment offered by the gentleman from New York [Mr. KEMP].

The substitute amendment was rejected.

The SPEAKER. The question is on the remainder of the resolution offered by the gentleman from Missouri [Mr. GEPHARDT].

The resolution was agreed to.

The SPEAKER. Will the officers elected present themselves in the well of the House?

The officers-elect presented themselves at the bar of the House and took the oath of office.

The SPEAKER. Congratulations.

NOTIFICATION TO SENATE OF ORGANIZATION OF THE HOUSE

Mr. FOLEY. Mr. Speaker, I offer a privileged resolution (H. Res. 2) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 2

Resolved, That the Senate be informed that a quorum of the House of Representatives has assembled, that Jim Wright, a Representative from the State of Texas, has been elected Speaker; and Donnald K. Anderson, a citizen of the State of California, has been elected Clerk of the House of Representatives of the One Hundredth Congress.

The resolution was agreed to.

A motion to reconsider was laid on the table.

COMMITTEE TO NOTIFY THE PRESIDENT OF THE UNITED STATES OF THE ASSEMBLY OF THE CONGRESS

Mr. FOLEY. Mr. Speaker, I offer a privileged resolution (H. Res. 3) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 3

Resolved, That a committee of two Members be appointed by the Speaker on the part of the House of Representatives to join with a committee on the part of the Senate to notify the President of the United States that a quorum of each House has assembled and Congress is ready to receive any communication that he may be pleased to make.

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER. The Chair appoints as members of the committee on the part of the House to join the committee on the part of the Senate to notify the President of the United States that a quorum of each House has been assembled, and that the Congress is ready to receive any communication that he may be pleased to make, the gentleman from Washington [Mr. FOLEY] and the gentleman from Illinois [Mr. MICHEL].

AUTHORIZING THE CLERK TO INFORM THE PRESIDENT OF THE UNITED STATES OF THE ELECTION OF THE SPEAKER AND THE CLERK OF THE HOUSE OF REPRESENTATIVES

Mr. WHITTEN. Mr. Speaker, I offer a privileged resolution (H. Res. 4) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES 4

Resolved, That the Clerk be instructed to inform the President of the United States that the House of Representatives has elected Jim Wright, a Representative from the State of Texas, Speaker; and Donnald K. Anderson, a citizen of the State of California, Clerk of the House of Representatives of the One Hundredth Congress.

The resolution was agreed to.

A motion to reconsider was laid on the table.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed the following resolutions:

S. RES. 1

Resolved. That a committee consisting of two Senators be appointed to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

S. RES. 2

Resolved, That the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

S. RES. 6

Resolved. That the House of Representatives be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

S. RES. 9

Resolved. That the House of Representatives be notified of the election of the Honorable Walter J. Stewart, as Secretary of the Senate.

RULES OF THE HOUSE

Mr. FOLEY. Mr. Speaker, I offer a privileged resolution (H. Res. 5) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 5

Resolved, That the Rules of the House of Representatives of the Ninety-ninth Congress, including all applicable provisions of law and concurrent resolutions adopted pursuant thereto which constituted the Rules of the House at the end of the Ninety-ninth Congress, are hereby adopted as the Rules of the One Hundredth Congress, with the following amendments:

(1) In rule X, amend clause 1(e)(1)(C) by striking out "beginning after 1974" immediately after "five successive Congresses".

(2) In rule X, amend clause 1(r) by striking from the title the words "Science and Technology" and inserting in lieu thereof "Science, Space, and Technology". In rule X, amend clause 3(f) by striking "Science and Technology" and inserting in lieu thereof "Science, Space, and Technology".

(3) In rule X, amend clause 2 by striking paragraph (c) and redesignating paragraph "(d)" as "(c)".

(4) In rule XI, amend clause 4(c) by inserting "(but only on the day after the calendar day on which such Member announces to the House his intention to do so)" immediately after "question of privilege".

(5) In rule XI, amend clause 5(f) by:

(a) redesignating subparagraphs "(3), (4), and (5)" as subparagraphs "(4), (5), and (6)" respectively;

(b) striking out "subparagraph (4)" and inserting in lieu thereof "subparagraph (5)" in subparagraph (4) as so redesignated by paragraph (1) of this amendment; and

(c) striking out subparagraphs (1) and (2) and inserting in lieu thereof the following:

"(f)(1) For continuance of necessary investigations and studies by—

"(A) each standing committee and select committee established by these rules; and

"(B) except as provided in subparagraph (2), each select committee established by resolution;

there shall be paid out of the contingent fund of the House such amounts as may be necessary for the period beginning at noon on January 3 and ending at midnight on March 31 of each year.

"(2) In the case of the first session of a Congress, amounts shall be made available under this paragraph for a select committee established by resolution in the preceding Congress only if—

"(A) a reestablishing resolution for such select committee is introduced in the present Congress; and

"(B) no resolution of the preceding Congress provided for termination of funding of investigations and studies by such select committee at or before the end of the preceding Congress.

"(3) Each committee receiving amounts under this paragraph shall be entitled, for each month in the period specified in subparagraph (1), to 9 per centum (or such lesser per centum as may be determined by the Committee on House Administration) of the total annualized amount made available under expense resolutions for such committee in the preceding session of Congress.".

(6) In rule XIV, amend clause 1 by adding at the end thereof the following new sentence: "Debate may include references to actions taken by the Senate or by committees thereof which are a matter of public record, and to the pendency or sponsorship in the Senate of bills, resolutions and amendments, but may not include other references to individual Members of the Senate, expressions of opinion concerning Senate action, or quotations from Senate proceedings.".

(7) In rule XLIII, amend clause 4 by striking out "$35" and inserting in lieu thereof "$50".

(8) In rule XLIII, amend clause 9 by inserting "age" immediately before "or national origin".

(9) In rule XLVIII, amend clause 7(c)(1) by striking out "paragraph (b)(2)" and inserting in lieu thereof "paragraphs (a) or (b)".

(10) In rule XLVIII, amend clause 1(a) by striking out "sixteen" and inserting in lieu thereof "seventeen".

Mr. FOLEY (during the reading). Mr. Speaker, I ask unanimous consent that the resolution be considered as read and printed in the Record.

The SPEAKER pro tempore (Mr. Gephardt). Is there objection to the request of the gentleman from Washington?

Mr. WALKER. Mr. Speaker, reserving the right to object, I do so to ask the gentleman if the rules package that he is asking that the reading be suspended on is what the Members were previously informed about? There have been no changes in that?

Mr. FOLEY. The gentleman is correct.

Mr. WALKER. Mr. Speaker, I thank the gentleman, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

The SPEAKER pro tempore. The gentleman from Washington [Mr. Foley] is recognized for 1 hour.

Mr. FOLEY. Mr. Speaker, I yield 30 minutes to the gentleman from Mississippi [Mr. Lott], and I yield myself 30 minutes.

Mr. Speaker, at this time I yield such time as he may desire to the gentleman from Texas [Mr. Frost].

Mr. FROST. Mr. Speaker, the recommended rules changes embodied in House Resolution 5 comprise a relatively modest package of changes and additions to the rules of the House and, with one exception, make very small changes in the way we do business in the House of Representatives. At this time, I would like to take a few minutes to briefly summarize these recommended changes.

The first amendment strikes paragraph 2(c) of rule X, and by doing so deletes the current requirement that at the beginning of each Congress representatives of the Committee on Government Operations meet with representatives of other standing committees of the House to discuss and assist in coordinating oversight activities for the new Congress, and for the Committee on Government Operations to publish a report to the House about such oversight activities within 60 days after the Congress convenes.

Because this same oversight information is submitted to the Committee on House Administration as part of each committee's annual budget justifications and is published by the Committee on House Administration with the omnibus committee funding resolution, elimination of this requirement that the Committee on Government Operations must publish this report will not result in any lessening of the responsibilities of the committees of the House to determine at the start of each new Congress what oversight responsibilities they intend to undertake in the coming 2 years. Rather, this amendment to the rules of the House eliminates duplicative publications while at the same time ensures that a published record is available to the public regarding the intentions of the committees of the House in fulfilling their oversight responsibilities.

The second amendment eliminates grandfather language in clause 1(e)(1)(c) of rule X which was incorporated in the rules for those Members who began service on the Budget Committee when it was constituted in August 1974. This amendment is technical in nature and affects no sitting Member of Congress.

The third amendment merely changes the name of the Committee on Science and Technology to the Committee on Science, Space, and Technology by amending clause 1(r) of rule X.

The fourth rules change is to clause 4(c) of rule XI. This rule currently allows any member of the Committee on Rules to call up a rule, joint rule, or order of business resolution reported from the Committee on Rules that has not been called up for consideration within 7 legislative days. Since that rule attaches a privileged status to such reports, the member of the Rules Committee calling it up for consideration is required to be recognized by the Speaker except when matters of equal or higher privilege might be pending.

This rules change would require any member of the Committee on Rules seeking to call up a rule, joint rule, or order of business resolution under the provisions of clause 4(c) of rule XI to have notified the House of his intention on the preceding day. By requiring this notice, the minority will still be entitled to call up pending rules, as will any other member of the committee, but the House will have advance notice of such member's intention and the leadership can schedule the business of the day around that member's intended action.

The fifth rules change expands upon an amendment adopted by the House in the 99th Congress. Two years ago, the House amended clause 5(f) of rule XI to provide for automatic funding for all standing and certain select committees for the first 3 months of the first session of a Congress. This proposed rules change will make that automatic funding mechanism applicable to the first 3 months of the second session of a Congress as well.

This amendment retains the funding entitlement which allows committees to spend for each month of the interim funding period 9-percent of the total annualized amount made available to each committee under the expense resolution for the committees for the preceding session of Congress. However, this amendment goes one step beyond the language adopted 2 years ago by allowing the Committee on House Administration to establish interim funding at a lower percentage without adoption of an expense resolution authorizing such a lower level of funding. This authority would be exercised by the Committee on House Administration if in its determination sufficient funds were not available to support a 9-percent monthly entitlement. This authority could be used by the Committee on House Administration in order to comply with a sequestration order issued under the Balanced Budget and Emergency Deficit Control Act of 1985 or if insufficient funds are available to fund the committees at the 9-percent level.

The sixth rules change is the only proposed change that will significantly alter the way we do business in the House of Representatives. This amendment to rule XIV modifies the practices of the House to allow direct reference to the Senate during House debate.

As Members are aware, Jefferson's Manual prohibits the direct reference to the Senate by a Member of the House of Representatives during debate. Because Jefferson's stands in force in the House like a House rule, this prohibition has led to some very artful attempts to refer to the other body. In those cases when a Member does not make reference to the Senate in an artful and circumlocutious manner, the Chair has the responsibility to admonish that Member to abide by the restrictions embodied in Jefferson's Manual.

The amendment before Members alters the current practice in the House and will allow factual reference to the Senate, its actions, as well as its inactions, bills, resolutions, and amendments, and their Senate sponsors, and to the status of those bills, resolutions, and amendments. The amendment does not, however, allow characterizations of the Senate or its Members, and it does not allow expression of personal opinion about the Senate or its Members.

This amendment preserves and protects the spirit of Jefferson's by recognizing that it would serve no useful purpose in the maintenance of comity between the two Houses to allow the membership of the House to characterize or express personal opinion, either good or bad; but at the same time the amendment does recognize that we live in a modern world where immediacy of information compels us to take note of the actions of our colleagues on the other side of the Capitol. I believe this amendment will allow Members the freedom to make necessary reference to the Senate but will not allow for name-calling, which would lessen the dignity of debate in the House.

The seventh amendment to the rules of the House amends clause 4 of rule XLIII to increase from $35 to $50 or less the fair market value of a gift, not including personal hospitality of an individual, which may be accepted by a Member, officer, or employee of the House in any calendar year, not to be counted toward the aggregate of $100 or more in value which may be accepted, directly or indirectly, from any person—other than a relative—having direct interest in legislation before the Congress or who is a foreign national or agent of a foreign national.

The eighth rules change proposes to amend clause 9, rule XLIII to prohibit discrimination in employment by any Member, officer, or employee of the House on the basis of age, as well as on the basis of race, color, religion, sex, or national origin which are currently expressly prohibited in the rules of the House. In the 99th Congress, amendments were adopted to the Age Discrimination in Employment Act to prohibit any age discrimination in employment. The provisions of that act do not apply to Congress and as a matter of constitutional separation of powers, the House is acting, through this amendment, to establish its own protections against age discrimination through an exercise in rulemaking power.

The ninth amendment is a technical amendment to clause 7(c)(1) of rule XLVIII to clarify what information may be made public by the Permanent Select Committee on Intelligence and the amendment does not in any way restrict, alter, or expand the amount of information that the committee may vote to disclose.

The ninth and final amendment also amends rule XLVIII to increase the size of the Intelligence Committee from 16 to 17 members.

□ 1405

Mr. Speaker, that concludes my explanation of the package of rules amendments embodied in the resolution pending.

Mr. LOTT. Mr. Speaker, I thank the gentleman from Washington [Mr. FOLEY] for yielding me the customary 30 minutes for discussion on the rules package, and I yield myself such time as I may consume.

Mr. Speaker, back in 1965, our former colleague from Missouri, Congressman Bolling, published a book entitled "House Out of Order." In that book he charged that the House was not functioning properly because power was too concentrated in senior committee chairmen and the Rules Committee, neither of which he felt were representative of the American people.

That book helped spark a congressional reform revolution over the next decade. It gave us the Legislative Reorganization Act, the War Powers Resolution, the Budget Act, the committee reform amendments, and numerous King Caucus reforms that further opened the House and dispersed power.

While many of the reforms of that turbulent decade have been beneficial, others have had the opposite effect—particularly those that gave rise to a proliferation of semiautomous subcommittees. As a result, the House is probably more out order today than it was 22 years ago.

The fact is, Mr. Speaker, this House is failing miserably at its three primary responsibilities: policymaking, oversight, and controlling the purse strings. The heart of the policy process in the House, our committee system, has clogged arteries as a result of layers of fatty tissue. Congressional oversight is something that is largely overlooked. And our purse strings are hopelessly tangled in budget and appropriations hoops that dominate our sessions yet still come out days late and dollars short on savings.

Why aren't our authorizing committees doing their jobs? For one thing, they get organized late each Congress and then only work 2 or 3 days a week. When they finally do start reporting bills, they are lucky if their legislation can be squeezed in between budget and appropriations measures. For another thing, our committees—like Gulliver—are hamstrung and tied down by a Lilliputian system of subcommittees and staff, ensuring duplication, conflict, and delays.

What about our constitutional powers of the purse? Despite the landmark Budget Reform Act of 1974, the fact is we are doing a much worse job of budgeting today than we were 22 years ago. Not only do we have bigger deficits, but we still can't get our spending bills enacted on time.

The fact is, Mr. Speaker, last year we did much worse on enacting regular appropriations bills than we did 22 years ago: Whereas in the 89th Congress we at least enacted two appropriation bills prior to the start of the fiscal year in each session, in the 99th Congress we had enacted none by the start of the fiscal new year in either session. And whereas in the 89th Congress all the regular appropriations bills were eventually enacted separately in both sessions, in the 99th Congress only six money bills were separately enacted in the first session; and in the second session, we achieved the ultimate in purse string paralysis: Not one appropriation bill was separately enacted. Instead, we ended up enacting one omnibus money bill that rolled everything into one ball of wax—the largest spending bill in the history of the Republic.

Mr. Speaker, as we approach the commemoration of the 200th anniversary of our Constitution this year, we would do well to examine this sorry state of affairs and vow to restore this House to its proper role under that document. What we are proposing on this side is a "Bicentennial House Restoration Project" that reforms House rules and procedures in such a way as to revitalize the policy, oversight, and budgetary processes of this body.

First, we propose to organize our committees earlier, within 3 legislative days after their election, so we can hit the ground running. Second, we propose more 5-day workweeks so committees can do their policy and oversight jobs properly. Third, we propose to limit committees to no more than six subcommittees, and Members to no more than four subcommittee assignments, and to abolish the joint referral of bills—all to allow for more conscientious legislating and less duplication of effort.

With the reduction of subcommittees and Member assignments, we feel it will be possible to accomplish our other reforms: a 10-percent reduction in committee staffs and the elimination of proxy voting and one-third quorum rules. We should no longer have need for these phantom legislative devices that were found necessary because Members could not attend all their committee and subcommittee meetings and hearings. Abolishing these phantom devices, together with our requirement for equitable party ratios on committees, should help to ensure more conscientious, representative, and accountable legislating at the committee level, and less need to rewrite bills once they reach the floor.

We would also require formal adoption of committee oversight agendas to ensure a more systematic approach to fulfilling that important responsibility of the Congress.

In the area of budget reform, our package calls for a special task force to report back in 3 months its recommendations for improving the budget process.

Also in the area of budget reform, we propose a rule to require a two-thirds vote to consider any waiver of Budget Act rules, and a prohibition against the inclusion of extraneous materials in reconciliation bills.

In the appropriations area, we propose a formula whereby any short-term continuing appropriations of 30 days or less comply with a set formula providing only for the lower of certain amounts; and that long-term continuing appropriations bills conform to the same rules as regular appropriations bills regarding unauthorized and legislative provisions and cost estimates.

We would also require that such long-term bills contain the full text of language to be enacted rather than references to other bills, and that provisions not previously adopted by the House be subject to amendment and not be protected against points of order except by two-thirds vote. If we are going to start legislating in such omnibus bills let's subject them to strict rules and procedures.

Mr. Speaker, we urge the defeat of the previous question on this resolution so that our Republican Leader, Mr. MICHEL, may be recognized to at least offer this "Bicentennial House Restoration Project" of reforms. Defeating the previous question does not necessarily imply support for our package, but it does indicate a willingness to at least debate them for an hour, consider them on their merits, and then have a direct or them before voting on the resolution reported from the Democratic Caucus.

Let's make this 100th Congress a truly historic one by adopting this package of House reforms that will permit this House to once again fully realize its constitutional role and potential.

□ 1415

Now, Mr. Speaker, after the vote on the previous question we are entitled on this side of the aisle to offer a motion to commit with instructions. We will as we have in the past take advantage of that opportunity. There will be a motion offered to commit with instructions. Those instructions would be this: during the 100th Congress, this historic Congress, no bill, joint resolution or amendment shall be reported or considered if it contains any provision to increase marginal tax rates from the 15- and 28-percent rates for individuals or the 24-percent top rates for business as provided for by the Tax Reform Act of 1986, Public Law 99-514, or which reduces or eliminates deductions or credits unless matched dollar for dollar by further reducing tax rates. For the purposes of this paragraph, any provision to delay the effective dates of such rates shall be construed as a tax increase. We should clearly air this issue the first day of this 100th Congress. We should say this first day, in adopting this motion to commit with instructions, that we will not allow for individual tax rate increases beyond what we just passed late last year. The American people are still in doubt as to exactly what was in that tax reform package. They thought they had their rates reduced and to have discussion now which I have been shocked to hear that we might come right back and in less than a year, in fact, in only perhaps weeks, that the House of Representatives, the Congress would presume to consider raising individual tax rates is beyond my comprehension, and the American people need to know on this first day in this first vote that they will not have to worry about that issue.

Others will speak more to this particular point on the motion to commit and also on the rules in a moment.

Following is the proposed House Republican rules package for the 100th Congress:

THE BICENTENNIAL HOUSE RESTORATION PROJECT

Introduction.—As the Nation prepares to commemorate the 200th Anniversary of the Constitution, the new Congress would do well to consider its current condition in the context of the Framers' original intent. While the architects of the Constitution intentionally designed a divided system as a check against the unbridled exercise of power, it is doubtful they ever envisioned the parliamentary paralysis that currently besets the Congress.

The impressive legislative record of the 99th Congress belies this sorry state of affairs; but its roots continue to lurk just beneath the surface, waiting to entangle the 100th Congress in even greater difficulties.

Part of the problem is obviously political—the lack of consensus over how to meet competing and growing demands on relatively diminishing resources. But part of the problem is also the inability of Congress to forge such a consensus in a rational and deliberative fashion. The policy-making process of Congress is virtually in shambles.

The authorizing committees, which should comprise the heart of that process, are rapidly approaching irrelevance—squeezed-out by the budget and appropriations processes, and caught-up in jurisdictional infighting and subcommittee strangulation. Oversight of Federal agencies and programs and the policy changes which should flow from such oversight are either relegated to backburners at the committee level or, if they are reported to the full House, are either not scheduled or are often given inadequate time for debate and the consideration of options under procedures which increasingly limit the participation of individual Members of Congress.

While the budget and appropriations processes increasingly dominate each session of a Congress, they are working less and less as originally intended. Deadlines are ignored, targets missed, rules waived, and regular appropriations bills not enacted. Reconciliation bills, designed to reduce deficits, are chocked-full of spending add-ons and other extraneous matters. Appropriations bills, which are only supposed to fund programs already enacted, are increasingly being used as authorization vehicles as well. Hundreds of programs and projects are renewed from year-to-year in such money bills without prior authorization. And, as a new fiscal year approaches, they are all rolled into a massive, omnibus money bill known as a "continuing resolution" that is a monument to the irresolution of Congress.

The Republican Conference urges that, in the coming historic year, the House embark on a comprehensive, "Bicentennial House Restoration Project." The blueprint follows.

House Restoration Project.—The Bicentennial House Restoration Project consists of three major areas for reform: House organization and scheduling, committee procedures, and the budget-appropriations process.

A. HOUSE ORGANIZATION AND SCHEDULING REFORM

The Problem.—Each new Congress takes roughly three to four months to get organized before it begins to report major bills for consideration. By then, it is Spring and the beginning of the budget season, followed by appropriations and reconciliation. As a result, few authorization bills are considered before the budgetary crunch which continues in the House until late July. The House usually recesses in August, and a good part of September and October are taken wrapping-up appropriations and reconciliation bills. For some reason, second sessions aren't much quicker in getting off the ground, even though the House and its committees are already organized. Some authorizing committees are reluctant to bring certain bills to the floor early due to budgetary and political uncertainties. Many don't mind having their authorization provisions folded into the protective cover of a reconciliation or continuing appropriations bill since these are usually not subject to amendment.

The Solution.—The Restoration Project contains the following proposals for organization and scheduling reform:

House committees would be elected within seven legislative days of the convening of a new Congress, and would be required to hold their organizational meetings not later than three legislative days after their election.

The Speaker would be required to issue a schedule at the beginning of each session that would include target dates for the consideration of specified, major legislation, weeks in which the House would be in session (with full, five-day work weeks assumed unless otherwise indicated), periodic district work periods, and the target date for the adjournment of the session. Moreover, the Speaker would be required to consult with the minority leader in developing each week's legislative schedule.

Measures could not be scheduled under suspension of the rules (a procedure allowing only limited debate and no amendments): (a) except by direction of the committee of jurisdiction or the chairman and ranking minority member; (b) if they exceed $50 million in cost for any year; (c) if they have not been noticed in the Record, with any amendments, at least one day in advance; and (d) if they are constitutional amendments.

B. COMMITTEE REFORM

The Problem.—The House committee system is chaotic and impotent due in large part to the lack of legislative or oversight agendas, a sprawling jungle of semi-autonomous subcommittees (148 in the 99th Congress) and excess staff, overlapping jurisdictions both within and among committees, the referral of the same bills to more than one committee, skewed party ratios that produce unrepresentative bills, and phantom voting devices like proxy voting and one-third quorums necessitated by poor attendance.

The Solution.—The Restoration Project contains the following recommendations for reforming the committee system:

Committees would be required to formally adopt oversight agendas at the beginning of each Congress;

The joint referral of the same bills to more than one committee would be abolished, though sequential and split referrals would be retained subject to time limits and with a principal committee designated by the Speaker;

All committees (except Ethics, which is bipartisan) would be required to reflect the party ratio to the House;

All committees (except Appropriations) would be limited to no more than six subcommittees;

All Members would be limited to no more than four subcommittee assignments;

Proxy voting would be abolished;

Majority quorums would be restored for transacting business; and

The House would adopt an overall committee staff limit with conforming sublimits for each committee; the minority would be entitled to up one-third of the investigative staff; and overall staff would be reduced by 10% from the 99th Congress.

C. BUDGET AND APPROPRIATIONS PROCESS REFORM

The Problem.—The House is preoccupied for a good part of each year with budgetary matters, whether they be the budget resolution, reconciliation, the debt limit increase, or appropriations bills—all to the detriment of the authorization process. This authorization squeeze-out in turn makes the reconciliation, debt or appropriations bills convenient box cars for unrelated legislative programs and provisions that might otherwise not make it out of the station. Partly due to this excess baggage and partly due to the difficulty in forging acceptable fiscal policies, existing budget deadlines and targets are not being met and enforcement rules are being waived with increasing frequency.

The Solution.—The Restoration Project contains the following proposals for budget and appropriations process reform:

A Special House Task Force on Budget Process Review would be created to report back by March 31, 1987, on whether the budget process should be continued, modified, or terminated. Any bill or resolution reported by the task force would be privileged for consideration in the House after April 15, 1987, and could be called-up by any Member as privileged after April 20, 1987. The task force is encouraged to meet with Senate counterparts in developing budget process changes.

A point of order would lie against any provision in a reconciliation bill, or amendment thereto, which is not related to achieving the purposes of the directives to House committees contained in the most recently agreed to budget resolution. The Budget Committee (in consultation with CBO) would determine whether the provision is related or not.

All reports from the Committee on Rules on order of business resolutions waiving points of order against bills which violate provisions of the Budget Act must contain an explanation of and justification for such waivers, including a summary or text of any letter received from the Budget Committee regarding such waivers. It would not be in order to consider any resolution waiving any provision of the Budget Act except by a two-thirds vote of the House.

The present restriction on limitation amendments to appropriations bills would be abolished.

Short term continuing appropriations (30-days or less) could only provide spending in the lowest amount of the House- or Senate-passed bills, conference agreements, or previous years spending level, and this provision could only be waived by a two-thirds vote.

Long-term continuing appropriations measures (effective for longer than 30 days) would be required to contain the full text of any language to be enacted, and reports on such CRs would be required to include cost estimates (not currently required). The prohibition against unauthorized and legislative provisions in general appropriations bills would be extended to such long-term continuing appropriations measures. A two-thirds House vote would be required to waive these requirements against, or deny amendment to, a provision in such a continuing not previously agreed to by the House.

SUMMARY BY PARAGRAPH OF REPUBLICAN HOUSE RULES SUBSTITUTE (100TH CONGRESS, JANUARY 6, 1987)

(1) *House Scheduling Reform.*—The Speaker would be required at the beginning of each session to announce a legislative program for the session that would include target dates for the consideration of major legislation, weeks in which the House would be in session (with full, five-day work weeks assumed unless otherwise indicated), district work periods, and the target date for adjournment. The Speaker would also be required to consult with the minority leader in developing each week's legislative program.

(2) *Oversight Reform.*—Committees would be required to formally adopt and submit to the Government Operations Committee by March 1st of the first session their oversight plans for that Congress. The Government Operations Committee, after consultation with the majority and minority leaders, would report the plans to the House by March 15th together with its recommendations, and those of the joint leadership group to assure coordination between committees. The Speaker would be authorized to appoint ad hoc oversight committees for specific tasks from the membership of committees with shared jurisdiction. Committees would be required to include an oversight section in their final activity report at the end of a Congress.

(3) *Multiple Referral of Legislation.*—The joint referral of bills to two or more committees would be abolished, while split and sequential referrals would be retained, subject to time limits and designation by the Speaker of a committee of principal jurisdiction.

(4) *Early Committee Organization.*—Committees must be elected within seven legislative days of the convening of a new Congress and must hold their organization meeting not later than three legislative days after their election.

(5) *Committee Ratios.*—The party ratios on committees would be required to reflect that of the full House (except for Standards of Official Conduct which is bipartisan). The requirement would extend to select and conference committees as well.

(6) *Subcommittee Limits.*—No committee (except appropriations) could have more than six subcommittees, and no Member could have more than four subcommittee assignments.

(7) *Proxy Voting Ban.*—All proxy voting on committees would be prohibited.

(8) *Majority Quorums.*—A majority of the membership of a committee would be required for the transaction of any business.

(9) *Budget Waivers.*—Any report from the Committee on Rules on a resolution waiving any provisions of the Budget Act against any bill would be required to include an explanation and justification of the waiver together with a summary or text of any comments received from the Budget Committee regarding the waiver. It would not be in order to consider any resolution waiving any provision of the Budget Act except by a two-thirds vote of the House.

(10) *Committee Staffing.*—Committee funding resolutions could not be considered until the House has first adopted a resolution from the House Administration Committee setting an overall limit on committee staffing for the session. The minority would be entitled up to one-third of the investigative staff funds, on request. The overall committee staff limit for the 100th Congress could not be more than 90% of the total at the end of the 99th Congress.

(11) *Appropriation Reforms.*—The present restrictions on offering limitation amendments would be abolished. Short-term continuing appropriations (30-days or less) could only provide for the lesser spending amounts and more restrictive authority as provided in either the House or Senate passed bills, the conference agreement, or the previous year's Act, and a two-thirds House vote would be required to waive this requirement. Long-term continuing appropriations measures (more than 30-days) would be required to contain the full text of the provisions to be enacted; the present prohibition on legislative language and unauthorized matters in appropriations measures would be extended to long-term CRs. Points of order and amendments to provisions in long-term CRs not previously agreed to by the House would only be

denied by a two-thirds vote. Cost estimates would be required in reports on long-term CRs. Reports on all general appropriations bills, including long-term CRs would be required to include not only a listing of legislative provisions contained in the measures (as presently required), but of all unauthorized activities being funded by the measure.

(12) *Reconciliation Limitation.*—It would not be in order to report in a reconciliation bill, or consider as an amendment thereto, a provision which is not related to a committee's reconciliation instructions to either reduce spending or raise revenues. Determination would be made by the Budget Committee in consultation with the Congressional Budget Office.

(13) *Suspension of the Rules.*—Measures could not be considered under the suspension of the rules procedure except by direction of the committee(s) of jurisdiction or on the request of the chairman and ranking minority member of such committee(s). No measure could be considered under suspension which authorizes or appropriates more than $50 million for any fiscal year. Notice of any suspension must be placed in the Congressional Record at least one day in advance of its consideration together with the text of any amendment to be offered to it. No constitutional amendment could be considered under suspension.

(14) *Budget Process Sunset Review.*—A Special Task Force on Budget Process review would be appointed by the Speaker composed of 15 members, not more than eight of whom would be from the same political party, with the chairman named by the Speaker. The purpose of the task force would be to study and review the operation and effectiveness of the congressional budget process with a view to determining whether it should be continued, modified or terminated. The task force would be authorized and encouraged to hold joint meetings and hearings with representatives of the Senate to ensure maximum cooperation and coordination in considering and developing any modifications in the budget process.

The task force would be required to report back to the House not later than March 31, 1987, its findings and recommendations (by bill or resolution if necessary). Any bill or resolution reported by the task force would be privileged for consideration in the House after April 15, 1987, and could be called-up as privileged by any Member after April 20, 1987. It would be considered in the Committee of the Whole and subject to amendment under the five-minute rule.

The task force would cease to exist after April 30, 1987.

H. RES. 5

An Amendment in the Nature of a Substitute Offered by Mr. Lott

Strike all after the resolving clause and insert in lieu thereof the following:

"That the Rules of the House of Representatives of the Ninety-ninth Congress, including all applicable provisions of law and concurrent resolutions adopted pursuant thereto which constituted the rules of the House at the end of the Ninety-ninth Congress, be, and they are hereby, adopted as the Rules of the House of Representatives of the One Hundredth Congress, with the following amendments included as part thereof, to wit:

"HOUSE SCHEDULING REFORM"

"(1) In Rule I, add the following new clause:

"10. (a) At the beginning of each session of the Congress the Speaker shall, after consultation with the minority leader and the chairmen of the committees of the House, announce a legislative program for the session which shall include: (1) target dates for the consideration of specified major budgetary, authorization and appropriations bills; (2) an indication of those weeks during which the House will be in session (which, unless otherwise indicated, shall be assumed to be full, five-day work weeks for the conduct of committee and House floor business); (3) those weeks set aside for district work periods (which shall be scheduled at periodic intervals), holidays, and other recesses; and (4) the target date for the adjournment of that session.

"(b) The Speaker shall ensure that the minority leader is fully consulted in developing the legislative program for the House each week.".

"OVERSIGHT REFORM"

"(2)(a) In Rule X, clause 2(c) is amended to read as follows:

"(c)(1) Not later than March 1 in the first session of a Congress each standing committee of the House shall, in a meeting which is open to the public and with a quorum present, adopt and submit to the Committee on Government Operations its oversight plans for that Congress. In developing such plans each committee shall, to the maximum extent feasible—

"(A) consult with other committees of the House which have jurisdiction over the same or related laws, programs, or agencies within its jurisdiction with the objective of assuring that such laws, programs, or agencies are reviewed in the same Congress and that there is maximum coordination between such committees in the conduct of such reviews; and such plans shall include an explanation of what steps have been and will be taken to assure such coordination and cooperation;

"(B) give priority consideration to including in its plans the review of those laws, programs, or agencies operating under permanent budget authority or permanent statutory authority; and

"(C) have a view toward insuring that all significant laws, programs, or agencies within its jurisdiction are subject to review at least once every ten years.

"(2) Not later than March 15 in the first session of a Congress, after consultation with the Speaker, the majority leader, and the minority leader, the Committee on Government Operations shall report to the House the oversight plans submitted by each committee together with any recommendations which it, or the House leadership group referred to above, may make to assure the most effective coordination of such plans and otherwise achieve the objectives of this clause.".

"(b) In Rule X, clause 2 is amended by adding the following new paragraph:

"(e) The Speaker, with the approval of the House, may appoint special ad hoc oversight committees for the purpose of reviewing specific matters within the jurisdiction of two or more standing committees.".

"(c) In Rule XI, clause 1(d) is amended to read as follows:

"(d)(1) Each committee shall submit to the House not later than January 2 of each odd-numbered year, a report on the activities of that committee under this rule and Rule X during the Congress ending on January 3 of such year.

"(2) Such report shall include separate sections summarizing the legislative and oversight activities of that committee during that Congress.

"(3) The oversight section of such report shall include a summary of the oversight plans submitted by the committee pursuant to clause 2(c) of Rule X, a summary of the actions taken and recommendations made with respect to each such plan, and a summary of any additional oversight activities undertaken by that committee, and any recommendation made or actions taken thereon.".

"MULTIPLE REFERRAL OF LEGISLATION"

"(3) In Rule X, clause 5(c), is amended to read as follows:

"(c) In carrying out paragraphs (a) and (b) with respect to any matter, the Speaker shall initially refer the matter to one committee which he shall designate as the committee of principal jurisdiction; but, he may also refer the matter to one or more additional committees, for consideration in sequence (subject to appropriate time limitations), either on its initial referral or after the matter has been reported by the committee of principal jurisdiction; or refer portions of the matter to one or more additional committees (reflecting different subjects and jurisdictions) for the exclusive consideration of such portion or portions; or refer the matter to a special ad hoc committee appointed by the Speaker, with the approval of the House, from the members of the committees having legislative jurisdiction, for the specific purpose of considering that matter and reporting to the House thereon; or make such other provisions as may be considered appropriate.".

"COMMITTEE ELECTIONS AND ORGANIZATION"

"(4) In Rule X, clause 6(a)(1), the first sentence is amended to read as follows: "The standing committees specified in clause 1 shall be elected by the House within seven legislative days after the commencement of each Congress, from nominations submitted by the respective party caucuses, and said committees shall hold their organizational meetings not later than three legislative days after their election.".

"COMMITTEE RATIOS"

"(5)(a) In Rule X, clause 6(a) is amended by adding at the end thereof the following new subparagraph:

"(3) The membership of each committee (and each subcommittee, task force, or subunit thereof), shall reflect the ratio of majority to minority party Members of the House at the beginning of the Congress. This subparagraph shall not apply to the Committee on Standards of Official Conduct which shall be constituted as provided for in subparagraph (2). For the purpose of this clause, the Resident Commissioner from Puerto Rico and the Delegates to the House shall not be counted in determining the party ratio of the House and the committees on which they serve.".

"(b) In Rule X, clause 6(f) is amended by inserting after the first sentence the following: "The membership of each such select committee (and of any subcommittee, task force or subunit thereof), and of each such conference committee, shall reflect the ratio of the majority to minority party Members of the House at the time of its appointment.".

"SUBCOMMITTEE LIMITS"

"(6) In Rule X, clause 6(d) is amended to read as follows:

"(d)(1) Each standing committee of the House (except the Committee on the Budget) that has more than twenty members, shall establish at least four subcommittees; but, in no event shall any standing committee (except the Committee on Appropriations) establish more than six subcommittees.

"(2) No Member may serve at any one time as a member of more than four subcommittees of committees of the House.

"(3) For the purposes of this paragraph, the term 'subcommittee' includes any panel, task force, special subcommittee, or any subunit of a standing committee, or any select committee, which is established for a period of longer than six months in any Congress.".

"PROXY VOTING BAN"

"(7) In Rule XI, clause 2(f) is amended to read as follows:

"(f) No vote by any member of any committee or subcommittee with respect to any measure or matter may be cast by proxy.".

"MAJORITY QUORUMS"

"(8) In Rule XI, clause 2(h)(2) is amended to read as follows:

"(2) A majority of the members of each committee or subcommittee shall constitute a quorum for the transaction of any business, including the markup of legislation.".

"BUDGET WAIVERS"

"(9) In Rule XI, clause 4 is amended by adding at the end thereof the following new paragraph:

"(e)(1) Whenever the Committee on Rules reports a resolution providing a special order of business for the consideration of any measure and such resolution waives points of order against the measure matter for failure to comply with any provision of the Congressional Budget Act of 1974, as amended, the report accompanying such resolution shall include an explanation of, and justification for, the waiver, and a summary (or the full text) of any comments received by the committee from the chairman of the Committee on the Budget regarding the waiver.

(2) It shall not be in order, except by a vote of not less than two-thirds of the Members voting, to consider any rule or order from the Committee on Rules which waives any of the provisions of the Congressional Budget Act of 1974, as amended.".

"COMMITTEE STAFFING"

"(10) In Rule XI, clause 5 is amended by inserting the following new paragraph (a), and by redesignating existing paragraphs accordingly:

"(a)(1) It shall not be in order in the House to consider any primary expense resolution until the Committee on House Administration has reported, and the House has adopted, a resolution establishing an overall ceiling for House committee staff personnel for that year.

"(2) In developing any primary expense resolution, the Committee on House Administration shall specify in the resolution the number of staff positions authorized by the resolution. The committee shall verify in the report accompanying any such primary expense resolution that the number of staff positions authorized by such resolution is in conformity with the overall ceiling on such positions established by the House.

"(3) In no event shall the total number of additional staff positions authorized by all such primary expense resolutions, taken together with the number of staff positions authorized by clause 6 of this rule (providing for professional and clerical staff), exceed the ceiling established by the House for that year.

"(4) In allocating staff positions pursuant to the overall ceiling established by the House, the committee shall take into account the past and anticipated legislative and oversight activities of each committee.

"(5) In any supplemental expense resolution, the committee shall specify the number of additional staff positions, if any, authorized by such resolution, and shall indicate in the report accompanying any such resolution whether the additional staff positions are in conformity with or exceed the overall ceiling established by the House.

"(6) It shall not be in order in the House to consider any supplemental expense resolution authorizing additional staff positions in excess of the overall ceiling established by the House except by a vote of two-thirds of the Members voting, a quorum being present.

"(7) It shall not be in order in the House to consider any primary or supplemental expense resolution for a committee unless the report on such resolution includes a statement verifying that the committee has adopted and complied with a committee rule entitling the minority party on such committee, upon the request of a majority of such minority, to not less than one-third of the funds provided for committee staff pursuant to each primary or supplemental expense resolution.

"(8) For the purposes of the One-hundredth Congress, the overall ceiling for committee staff in a resolution reported by the committee pursuant to subparagraph (1), or contained in any amendment thereto, shall not exceed 90 percentum of the total committee staff personnel employed at the end of the Ninety-ninth Congress.".

"APPROPRIATION REFORMS"

"(11)(a) In Rule XXI, clause 2 is amended by striking the second sentence of paragraph (c) and paragraph (d) in its entirety, and by inserting the following new paragraph (d):

"(d)(1) For the purposes of House Rules, a 'general appropriation bill' shall include any bill or joint resolution making continuing appropriations for the Federal government in a fiscal year for a period in excess of thirty days, and any such measure shall include the fulll text of the language proposed to be enacted (as opposed to mere references to other bills which have been reported or passed by either House, or agreed to by a committee of conference).

"(2) The provisions of clause 2(1)(3)(B) of Rule XI shall apply to any 'general appropriation bill' as defined in subparagraph (1).

"(3) For the purposes of this clause, all points of order shall be considered as having been reserved against any general appropriation bill at the time it was reported.".

(b) In Rule XXI, clause 2 is amended by inserting the after subparagraph (d) the following new subparagraph:

"(e) It shall not be in order to consider any bill or joint resolution making continuing appropriations for a period of thirty days or less unless such measure only provides appropriations in the lesser amount and under the more restrictive authority of the pertinent appropriations measure: as passed by the House; as passed by the Senate; agreed to by a committee of conference; or enacted for the preceding fiscal year.".

(c) In Rule XXI, clause 3 is amended by striking the period at the end thereof, inserting in lieu thereof a comma, and adding the following: "and shall contain a list of all appropriations contained in the bill for any expenditure not previously authorized by law.".

(d) In Rule XI, clause 2(l)(3)(B) is amended by striking "(other than continuing appropriations)" and inserting in lieu thereof "(other than continuing appropriations, except as provided by clause 2(d) of Rule XXI)".

(e) In Rule XI, clause 4(b) is amended by adding at the end thereof the following: "It shall not be in order, except by a vote of not less than two-thirds of the Members voting, to consider any rule or order from the Committee on Rules which waives the provisions of clause 2(e) of Rule XXI against the consideration of any short-term, continuing appropriations measure as defined therein; or which waives the provisions of clause 2 of Rule XXI against, or denies amendment to, any provision in a long-term, continuing appropriation measure (as defined by clause 2(d) of Rule XXI) if said provision has not been previously considered and agreed to by the House.".

"RECONCILIATION LIMITATION"

"(12) In Rule XXI, add the following new clause:

"8.(a) No provision shall be reported in the House in any reconciliation bill pursuant to the most recently agreed to concurrent resolution on the budget, or be in order as an amendment thereto in the House or Committee of the Whole, which is not related to achieving the purposes of the directives to House committees contained in such concurrent resolution.

"(b) Nothing in this clause shall be construed to prevent the consideration of any provision in a reconciliation bill, or any amendment thereto, which achieves savings greater than those directed of a committee and which conforms to paragraph (c) of this clause, or to prevent the consideration of motions to strike made in order by the Committee on Rules to achieve the purposes of the directives.

"(c) For the purposes of this clause, a provision shall be considered related to achieving the purposes of directives contained in the most recently agreed to concurrent resolution on the budget if it is estimated by the House Committee on the Budget, in consultation with the Congressional Budget Office, to effectuate or implement a reduction in budget authority or in new spending authority described in section 401(c)(2)(C) of the Congressional Budget Act, or to raise revenues, or both, and, in the case of an amendment, if it is within (in whole or in part) the jurisdiction of any committee instructed in the concurrent resolution.

"(d) The point of order provided for by this clause shall not apply to Senate amendments or to conference reports.

"(e) For the purposes of this clause, all points of order shall be considered as having been reserved against a reconciliation bill at the time it was reported.".

"SUSPENSION OF THE RULES"

"(13) In Rule XXVII, clause 1 is amended by inserting after "1." the designation "(a)", and by inserting after paragraph (a) the following new paragraphs:

"(b) It shall not be in order to entertain a motion to suspend the rules to consider any measure or matter unless by direction of the committee or committees of jurisdiction over the measure or matter, or unless a written request is filed with the Speaker by the chairman and ranking minority member of the committee or committees having jurisdiction over the measure or matter, asking for its consideration under suspension of the rules.

"(c) A motion to suspend the rules to consider any measure or matter shall not be in order if the measure or matter would enact or authorize the enactment of new budget authority or new spending authority in excess of $50,000,000 for any fiscal year; nor shall it be in order to entertain a motion to suspend the rules to consider any joint resolution which proposes to amend the Constitution.

"(d) It shall not be in order to entertain a motion to suspend the rules to consider any measure or matter unless written notice is placed in the Congressional Record of its scheduled consideration at least one legislative day prior to its consideration, and such notification shall include the numerical designation of the measure or matter, its short title, and the text of any amendments to be offered thereto, and the date on which the measure or matter is scheduled to be considered.".

"BUDGET PROCESS SUNSET REVIEW"

"(14)(a) There is hereby established in the House of Representatives a Special Task Force on Budget Process Review (hereinafter referred to as the "task force").

"(b) The task force is authorized and directed to study and review the operation and effectiveness of the congressional budget process and its impact on the operations of the House with a view to determining whether such process should be continued in its present form, modified, or terminated. Such study shall included, but shall not be limited to, the following matters—

"(I) the success of the budget process in achieving the goals of the Congressional Budget Act of 1974;

"(II) the impact of the budget process on the authorization and appropriations processes in the House;

"(III) the success of the budget process in meeting the deficit reduction goals of the Balanced Budget and Emergency Deficit Control Act of 1985;

"(IV) the effectiveness of the various enforcement mechanisms in the budget process; and

"(V) the impact of the budget process on relations between the House, the Senate, and the Executive Branch.

"(c) The task force shall be composed of 15 Members of the House who shall be appointed by the Speaker, not more than eight of whom shall be from the same political party, and one of whom he shall designate as chairman.

"(d)(I) For the purposes of carrying out this paragraph the task force is authorized to hold hearings, and sit and act at such times and places within the Nation's Capital, whether the House is in session or has recessed.

"(II) The task force is authorized and encouraged to hold joint meetings and hearings with representatives of the Senate to ensure maximum cooperation and consultation in considering and developing any modifications in the budget process.

"(e) In carrying out its functions under this paragraph the task force is authorized to appoint not more than three staff not currently employed by the House Representatives (one of whom shall be assigned to the service of the minority members). The task force shall otherwise utilize existing House personnel who shall be made available to the task force upon request.

"(f)(I) The task force is authorized and directed to report to the House (by bill or resolution if it is deemed appropriate) as soon as practicable during the present Congress but not later than March 31, 1987, the results of its study and review together with its recommendations as to whether the congressional budget process should be continued in its present form, in modified form, or should be terminated.

"(II) Any bill or resolution reported by the task force shall be privileged for consideration in the House after April 15, 1987, and may be called up for consideration by any Member of the House after April 20, 1987, if the House has not previously moved to its consideration. Consideration shall be in the Committee of the Whole and the bill or resolution shall be subject to amendment under the five-minute rule.

"(g) The task force shall cease to exist on April 30, 1987.".

Mr. LOTT. Mr. Speaker, first I would like to yield 3 minutes to the distinguished gentleman from Pennsylvania who wished to speak on a particular point in the rules reform package.

Mr. GEKAS. I thank the gentleman.

Mr. Speaker, the package of rules that has been presented by the majority preserves, as I understand it, it preserves for yet another term the poisonous practice of proxy voting in committee. It is poisonous. Every single Member of the Congress knows that. And what is news to many Members of the Congress or could be news is that the American public understands what this proxy voting is all about. They know more than we believe that they know, that the business of the Congress, the actual gut of what we accomplish in the Congress of the United States is accomplished on the committee level and in the subcommittee level. They also knew very well that what happens on the floor of the House of Representatives following the work of the committees is simply a final formality, replete with dramatics and theatrics that we put together in order to reemphasize what has already been done in committee. Therefore the American public knows full well that the business of the American public is accomplished when it is accomplished at the subcommittee and committee level. That is why it is extremely important that there be no proxy voting.

Can you imagine, to have a vital subject such as taxation, or foreign policy, or crime control, or constitutional change, or anything of that magnitude and some even more stupendously important than those that I have outlined, to be able to be voted in or voted down by virtue of a chairman sitting there in subcommittee and voting his colleagues by a written vote without knowing in the final analysis how they really would be voting on that occasion. That is what is the poisonous practice of proxy which we must eliminate.

Yet this package of rules that we are asked to adopt by the majority preserves that practice and preserves it because the majority knows it serves its interests best to preserve it. I say that we must vote down the previous question and allow a substitute package to prevail which will eliminate the practice of proxy voting. I say to you a "pox" on your proxy; it is time to eliminate it and to allow the individual district of the Member who speaks for that district in that subcommittee to cast the single most important vote that has to be initiated at the outset of any piece of legislation.

That is why as the majority should take pride in the fact that we recognize this evil of proxy voting and are willing to stake our reputations, and our voting records, and our prestige, and our districts, and our own honor in order to eliminate proxy voting.

I thank the gentleman for yielding.

Mr. LOTT. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. GRADISON].

Mr. GRADISON. I thank the gentleman for yielding time to me.

Mr. Speaker, this Congress faces a tough job in trying to reduce the Federal deficit to the Gramm-Rudman-Hollings target of $108 billion for fiscal year 1988. We must cut the deficit by more than $65 billion, compared with the $38 billion reduction we needed to make last year at this time.

As a result, some Democrats are proposing to help meet the target by raising taxes. You, Mr. Speaker, suggested delaying the reduction in the top tax rate for individuals to 28 percent which is scheduled for next year. Others are talking about import fees and value-added taxes.

Increasing taxes to cut the deficit should be a last resort, not a means of dodging our responsibility to trim Government spending. Raising income taxes also would constitute an unforgivable breach of faith with the American people, who were promised tax reform, not higher taxes.

With good reason, the public also would question whether, in the long run, such higher taxes were being used to reduce the deficit. After all, this House has a history of spending every tax dollar that becomes available and then some. Would higher taxes be used to perpetuate unnecessary programs? Would higher taxes threaten economic growth?

Let's jettison the tax hike idea right now, and show the public that we have the courage to give priority to reducing the deficit the proper way—by cutting the fat from the Federal Government.

Mr. LOTT. Mr. Speaker, I yield 2 minutes to the gentleman from New Hampshire [Mr. GREGG].

Mr. GREGG. I thank the gentleman.

Mr. Speaker, today we are going to take up one of the most important matters that this Congress may address in its entire term of office here. It is perfectly appropriate that we should take it up at this point at the opening day of the 100th Congress because this Congress represents a milestone in American history. For 200 years this country has functioned under a form of government which, if you will recall, arose out of a collection of individuals outraged at taxtion without representation. It arose out of the fact that the English Parliament passed the Stamp Act, which forced the American people at that time to pay a tax which they did not think was due and which they did not think was owing and which they had no part in choosing.

Today we have the opportunity to reaffirm the values which form this Government by stating once again our opposition to taxation, by reestablishing our commitment to our belief that when we passed that tax law last year which said we would reduce the rates of all Americans as to what taxes they were going to pay, that we are going to stand by that commitment. We will say to the American people that that ink is dry and that we will not change it. I think it is unfortunate that the new leadership of this House has chosen to seek a path of considering the reversal of that great decision which we made last year, of raising taxes on the American people. That is not a choice that the American people wanted when this country was formed, and it is not a choice which the American people want today. We should stand by the law which we passed last year. We should continue the rates at their lower level and under no circumstances should we give in to the concept that the American people should be taxed more.

□ 1430

That is where we should be addressing the problem.

Mr. LOTT. Mr. Speaker, I yield 3 minutes to the gentlewoman from Illinois [Mrs. MARTIN].

Mrs. MARTIN of Illinois. Mr. Speaker, on a day when Members, both old and new, are suffused with joy and have a strong feeling of brotherhood toward fellow Members of both parties and are generally being thrilled at being sworn in, before they get sworn at tomorrow, it is probably foolish to bring up a discussion of the Rules.

Rules discussions are generally esoteric, and yet, what we do today on these votes is really going to define what we do the rest of the year. So with small chance of success, I would still ask any Members who might be listening to look at suggestions given by the minority that I think would have a positive, nonpartisan effect on what we do around here in the House.

I refer the Members specifically to two. One is the suspension of the rules when it concerns reconciliation limitation. Whomever the majority may be, Democratic or Republican, are finding it increasingly impossible to say no to other Members and other committee chairmen who wish to use the reconciliation bill as a vehicle for whatever could not pass in other ways and will provide, in their view, a car in which they can put some new passengers.

All this does is simply say that the reconciliation vehicle is what the Budget Act said it should be. It is there to cut spending, or to raise revenues, but it is not there to add on new programs and new costs to the Federal Government.

This would be an asset to whomever is in the majority because then they would have a rule they could depend on so that they would have backup when they wish to say no. I have seen budget chairmen and former budget chairmen impossibly muddled by other subcommittee chairmen and other chairmen, and find themselves ultimately with a reconciliation bill that they full well know is well beyond what it should be.

More importantly, within the same Republican document is something that I would hope could be added to the Democratic document, even if the Republican document would not pass. That is a budget process sunset review.

The Speaker would appoint eight members of one party, seven of another, to see what has happened to the budget process. As a member of that committee, and one who must be slightly masochistic because I enjoy the process, it is obvious that it is not working. The House does not meet the time limits; the House does not meet its schedule; the House does not meet the goals, and we find Members increasingly frustrated.

We have arguments between the Appropriations Committees and the authorizing committees. We know the budget process is affecting those arguments, and in the end, all we have left is the lack of comity, rather than the fullness of results.

What we are asking for is that we review this process and make the changes needed so we all benefit.

Mr. LOTT. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois [Mr. MADIGAN].

Mr. MADIGAN. Mr. Speaker, at the outset, if I may, just piggybacking on the remarks of the gentleman from Ohio [Mr. GRADISON] and the gentlewoman from Illinois [Mrs. MARTIN], in speaking about some of the remarks that have been made earlier by our newly elected Speaker, I want to say that the remarks that we had made today are certainly not intended in any way to be an embarrassment to him.

But with regard to any proposed changes in the tax bill, let me say at the outset that I did not vote for the tax bill, but even having not voted for it, I do not believe that it should be changed. I do not think that it should be changed in the 100th Congress for two very good reasons.

The first of those, Mr. Speaker, I think should be very obvious to everyone. We cannot be changing the Tax Code of the United States every year or two because no business or individual can possibly plan for anything under those kinds of circumstances.

The second is less obvious, Mr. Speaker, and deals with this institution, of which we are Members. It is too easy for this body to meet its budget responsibilities by directing one committee of the House of Representatives to meet our target by producing new revenue. That is very difficult many times for the members of that committee to do, and at a given point in time, it may be impossible. Thus, our failure as an institution appears to be their failure as a committee, and that is very unfair, in my judgment, to the members of that committee, but the process by which we would do that, by which we duck our responsibilities to have a responsible budget is unfair to the country as a whole.

We can do away with those kinds of problems by doing away with that procedure by voting with the distinguished minority whip on the rules changes that he would want to make today. For those reasons, I would urge every Member of this institution, regardless of his or her affiliation, to look closely at this and support the motion of the gentleman from Mississippi [Mr. LOTT].

I thank the gentleman for yielding.

Mr. LOTT. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I am afraid that opening day is very often one of those days when we do a lot of serious business that no one takes seriously. However, in this particular instance, I hope the Members will take seriously the action that is being brought before us by the minority whip.

We should, first of all, defeat the previous question so that we bring a real rules reform package to the floor, discuss it, and hopefully adopt it.

More than that, we ought to make a commitment to the commitment that we made last year. The motion to commit by the gentleman from Mississippi [Mr. LOTT] will, in fact, enforce our commitment to the American people last year with regard to taxes.

We made a commitment; now we ought to stick to it. The problem is that the American people are now hearing mixed signals about that commitment on tax reform. Some in Congress are calling for increased taxes. Some would have us renege on last year's promises.

Today we can state clearly our intent. We can say clearly that the rules of the House will prohibit any action taken to raise taxes.

Last year, at the end of the Congress, some of us, in anticipation of exactly the scenario we now find ourselves in, put a resolution in that would have asked this Congress not to raise taxes. One hundred and thirty-five Members, on a bipartisan basis, signed onto that resolution. The language we have before us today is that resolution now adopted in a way that would have the rules of the House reflect that particular kind of promise.

It is almost the exact language of what we said in that resolution last year.

Mr. Speaker, I would urge this House to protect last year's tax reform. I would urge this House to go on record saying that we are not going to raise taxes for America's working families. I would urge this House, as its first substantive action, to say flatly, no new taxes. I would urge this House to adopt the motion to commit by the gentleman from Mississippi [Mr. Lott], and also to defeat the previous question.

Mr. LOTT. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. Mack].

Mr. MACK. Mr. Speaker, it is hard to believe that last October, one of the messages that we tried to get out before the election was that, in fact, there was a strong feeling that was coming from the Democrats in the House that there was a need to change the tax package that had just been passed.

We had warned that there was going to be an attempt to increase the tax rates from 15 and 28 to some higher level. I had gone so far as to say that specifically what was going to be done was to freeze the tax rates in 1988 at the level that they are in 1987.

We had warnings from the gentleman from Illinois [Mr. Rostenkowski]. We have had warnings and recent warnings from the Speaker of the House. We have had warnings from the chairman of the Committee on the Budget in the other body.

All these statements imply that there are insufficient revenues flowing into the Federal coffers. Let me indicate to you the estimate for 1988. Total revenue is $916 billion. That is an increase of 1988 over 1987 of $75 billion. No tax increase, just the growth in the Nation alone produces $75 billion in new revenues.

What is being told by those who are making the statements that we ought to freeze the rates is, again, there is not enough money for the Federal Government.

I say to each of the Members of the Congress, those of you specifically who signed the pledge—and there were some 92 of you that did that—and the 135 who signed the resolution, or agreed to support the resolution, you cannot back down now. This is the first opportunity that the 100th Congress has to make its statement about what its objectives are as far as controlling expenditures and raising taxes.

□ 1540

If we do not stop it now, those who say that the Federal Government does not have enough money or does not have enough revenue will want to reach into your pocket one more time.

So, Mr. Speaker, I urge the adoption of the motion to commit.

The SPEAKER pro tempore (Mr. Gephardt). The gentleman from Mississippi [Mr. Lott] has 4 minutes remaining.

Mr. LOTT. Mr. Speaker, I yield 1 minute to the gentlewoman from Connecticut [Mrs. Johnson].

Mrs. JOHNSON of Connecticut. Mr. Speaker, I urge my colleagues to vote no on ordering the previous question and to support the motion to commit with instructions.

Toward the end of the last session many Members of this House, Democrats and Republicans, stood around on this floor and lamented how poorly this body runs, how inefficiently it operates, and how hampered we are by our own process in addressing the Nation's interests. So I implore the Members to vote no on ordering the previous question so that the Republican proposal to restructure our process can be fully debated.

It is high time that we reschedule ourselves into a 5-day work week like our constitutents. It is high time that we eliminate the overlapping jurisdictions and the multiple referrals that prevent the Congress from addressing those issues on which the vitality of our economy and the quality of our lives and the quality of the future for our children truly depend. It is high time that we eliminate proxy voting, and that we guarantee that the Members who enjoy the privilege of serving in this body are accountable for their actions.

Mr. LAGOMARSINO. Mr. Speaker, I urge a "no" vote on the previous question. A "no" vote will open up the procedure and allow consideration of our proposed reform package, the bicentennial House restoration project.

A "yes" vote is a vote to continue doing business the same old way. That's not what this new Congress should be doing in the year of our bicentennial. Last year's session was a procedural nightmare, an exercise in parlimentary paralysis. We passed none of our regular appropriations bills. We missed virtually every one of our budget deadlines.

In the face of the record, how can we go back to business as usual? If this motion succeeds, we will not even be allowed to debate any changes. Should we open the 100th Congress by closing our minds?

The bicentennial restoration project will restore orderly procedure in the House. It will break us free of the encrusted barnacles that have built up, layer by layer, on our committee apparatus. It will make the operation of the House more open, more efficient, and more responsive to the people.

What does the bicentennial restoration project do? It attacks the problems that burden the present operation of the House in three ways: First, by House organization and scheduling reform. It calls on the leadership to set reasonable deadlines and work schedules, and to meet those deadlines. Second, committee reform. It cuts through the tangle of subcommittees which has overgrown the House and ensures a fair shake to the minority. Third, budget and appropriation reform. This area was surely the sore spot in last year's legislative record. It would appear our authorizing committees may rapidly be approaching irrelevance, with policy decisions routinely enacted in continuing resolutions devised by appropriations staffers. I don't think the appropriations chairmen relish this task; it has been forced upon them by our own dalliance and by the pressure of time.

Mr. Speaker, there are many other things that need to be addressed in the operations of this, the people's house. More than our own reform package even covers. But the very first step, here on this first day of the 100th Congress, is to be allowed to discuss changes. A "yes" vote on the previous question forecloses that possibility absolutely—and with it, the possibility for making this a better and more productive Congress. I hope the Members on both sides will acknowledge this need, vote "no" on the previous question, and allow free and open debate to begin.

If not, then I would urge Members to directly address one of the key issues of this session—by recommitting the rules to committee with instructions to disallow any increase in the new, lower tax rates for individual and corporations which we enacted last year. It's the least of the resolutions we can make in this new year.

Mr. LOTT. Mr. Speaker, may I inquire, does the gentleman on the other side have any requests for time or any remarks that he wishes to make?

Mr. FROST. Mr. Speaker, I wish to advise the minority that the majority will, of course, reserve its right to close the debate. We have no other requests for time.

Mr. LOTT. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. Armey].

Mr. ARMEY. Mr. Speaker, I thank the gentleman for yielding this time to me.

Mr. Speaker, I have completed the service of one term in this House. Having been in Washington now for 2 years, I have heard a lot of very impressive speeches, I have heard some things I have liked and some things I have been very impressed with, but I have also heard and read some very ludicrous things. Probably the most ludicrous thing that sticks out in my mind is the contention from the Washington Post that the American Government is underfunded, that the National Government is underfunded.

That is just plain silly, Mr. Speaker. The problem is that the Federal Government that we have is too big, it is intrusive in our lives, and it takes too much of our money. The truth of the matter is that the American citizen is overtaxed.

We promised the citizens of this country tax relief in the last Congress. It was not an easy vote for most of us. Many of us felt that we had to give up too much to get the reductions in rates that we granted the American taxpayers. But at this time, Mr. Speaker, we cannot afford to go back on that promise and raise the taxes to our American taxpayers.

Mr. LOTT. Mr. Speaker, for the balance of the time that we have, I wish to yield myself such time as I may consume to wrap this up.

I would just like to emphasize that we are very serious about the reform package we have offered today. We think this would help the institution. It is not offered in any kind of partisan vein. We would like to make the House work, and it has serious problems.

With regard to our motion to commit, I would like to emphasize to my colleagues that this motion is a vote that can definitely clear the air for the American people on whether or not there will be an effort to increase individual tax rates in the 100th Congress. If the motion to commit is passed or if it is accepted by this House, we will put this issue to rest. But I want to emphasize that if you, in the alternative, vote "no" on the motion to recommit, you are saying that you want to have the opportunity to have a tax increase in rates for individuals.

Mr. Speaker, it is very clear, and we felt that this is an issue that should be brought up on this first day and resolved once and for all.

Mr. Speaker, I have no further requests for time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume, and I will just address the House briefly.

The Democratic Caucus and its caucus committee have worked very carefully to improve and upgrade the rules. We have a carefully considered package that is presented to the Members. I am going to urge, of course, a "yes" vote on the previous question and a "no" vote on the motion to commit.

I would like to make one observation. My friends on the minority side have presented their own package. They have argued against gimmickry. They have said that things should be done in a straightforward manner, and then, on the other hand, they are offering a motion to commit which contains the ultimate gimmick, trying to write substantive tax law into the rules of the House.

It is clear or it should be clear to everyone that this motion to commit should be rejected so that we will have the opportunity to deal with substantive legislation dealing with taxes on a yes-or-no, up-or-down basis later in the session in the normal course of business.

Mr. Speaker, I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LOTT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 236, nays 168, not voting 30, as follows:

□ 1500

The Clerk announced the following pair:

On this vote:

Mr. Annunzio for, with Mr. Clinger against.

Mr. BENNETT and Mr. RODINO changed their votes from "nay" to "yea."

Mr. HARRIS changed his vote from "present" to "yea."

So the previous question was ordered.

The result of the vote was announced as above recorded.

MOTION TO COMMIT OFFERED BY MR. LOTT

Mr. LOTT. Mr. Speaker, I offer a motion to commit.

The SPEAKER pro tempore (Mr. GEPHARDT). The Clerk will report the motion to commit.

The Clerk read as follows:

Mr. Lott moves to commit the resolution H. Res. 5 to a select committee to be appointed by the Speaker on the same day this motion is adopted, and to be composed of five members, not more than three of whom shall be from the same political party, and one of whom the Speaker shall designate as chairman, with instructions to report back to the same House within one legislative day with only the following amendment:

At the end of the resolution, and the following new paragraph:

(11) In Rule XXI, clause 5 is amended by adding at the end thereof the following:

"(c) During the One Hundredth Congress, no bill, joint resolution, or amendment shall be reported or considered if it contains any provision to increase marginal tax rates from the 15 to 28 per centum rates for individuals or the 34 per centum top rate for businesses as provided for by the Tax Reform Act of 1986 (Public Law 99-514), or which reduces or eliminates deductions or credits unless matched dollar for dollar by further reducing tax rates. For the purposes of this paragraph, any provision to delay the effective dates of such rates shall be construed as a tax increase.".

Mr. LOTT (during the reading). Mr. Speaker, I ask unanimous consent that the motion to commit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there object to the request of the gentleman from Mississippi?

□ 1515

Mr. WALKER. Reserving the right to object, Mr. Speaker, before we dispense with the reading, I wish the gentleman would explain to us what is in his motion.

Mr. FROST. Point of order, Mr. Speaker.

Mr. WALKER. Mr. Speaker, I am reserving the right to object and simply asking for an explanation, as is typical House procedure, of what is in the resolution.

The SPEAKER pro tempore. The gentleman reserves the right to object.

Mr. WALKER. Mr. Speaker, I reserve the right to object, and yield to the gentleman from Mississippi [Mr. LOTT] to explain briefly what the motion is that we have before the House.

Mr. LOTT. I thank the gentleman for yielding.

Mr. Speaker, that is why I did ask unanimous consent for us to suspend the reading, so that the Members would know what they are about to vote on.

The SPEAKER pro tempore. Regular order is demanded. Is there objection to dispensing with the reading?

Mr. WALKER. Reserving the right to object, Mr. Speaker, I yield to the gentleman from Mississippi to explain what is in the motion.

The SPEAKER pro tempore. Does the gentleman object?

Mr. LOTT. Mr. Speaker, this is the motion to instruct which would say that there could not be tax-rate increases this year.

The SPEAKER pro tempore. Does the gentleman object?

Mr. WALKER. Mr. Speaker, I withdraw my reservation.

Mr. LOTT. Mr. Speaker, I withdraw my unanimous-consent request.

The SPEAKER pro tempore. The Clerk will conclude the reading of the motion.

The Clerk concluded the reading of the motion.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to commit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to commit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. LOTT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 175, nays 240, not voting 13, as follows:

□ 1535

Mr. TOWNS and Mr. LEHMAN of California changed their votes from "yea" to "nay."

Mr. GINGRICH changed his vote from "nay" to "yea."

So the motion to commit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. GEPHARDT). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 245, nays 172, not voting 11, as follows:

Mr. WATKINS changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks concerning the adoption of the rules just passed.

The SPEAKER pro tempore (Mr. GEPHARDT). Is there objection to the request of the gentleman from Washington?

There was no objection.

PROVIDING FOR CONSIDERATION ON TOMORROW OR ANY DAY THEREAFTER OF A RESOLUTION CREATING A SELECT COMMITTEE TO INVESTIGATE COVERT ARMS DEALS WITH IRAN

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that it shall be in order on Wednesday, January 7, 1987, or any day thereafter to consider in the House a resolution introduced today by myself, on my behalf and on behalf of Mr. MICHEL of Illinois, Mr. HAMILTON of Indiana and Mr. CHENEY of Wyoming, creating a select committee to investigate covert arms deals with Iran, if offered by me, and that the resolution be debatable for not to exceed 1 hour, equally divided and controlled by Representative FOLEY and Representative MICHEL of Illinois and that the previous question shall be considered as ordered on the resolution to final adoption without intervening motion.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

COMPENSATION OF CERTAIN MINORITY EMPLOYEES

Mr. MICHEL. Mr. Speaker, I offer a resolution (H. Res. 6) and ask unanimous consent for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read the resolution as follows:

H. RES. 6

Resolved, That pursuant to the Legislative Pay Act of 1929, as amended, the six minority employees authorized therein shall be the following named persons, effective January 3, 1987, until otherwise ordered by the House, to-wit: William R. Pitts, Junior, Walter P. Kennedy, Hyde H. Murray, Ronald W. Lasch, C. Jay Pierson, and Dave Gribbin, each to receive gross compensation pursuant to the provisions of House Resolution 119, Ninety-fifth Congress, as enacted into permanent law by section 115 of Public Law 95-94.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

HOUR OF MEETING OF HOUSE OF REPRESENTATIVES

Mr. FROST. Mr. Speaker, I offer a privileged resolution (H. Res. 7) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 7

Resolved, That until otherwise ordered the hour of daily meeting of the House shall be 12 o'clock meridian until January 20, 1987; and that from January 21, 1987, until May 1, 1987, the hour of daily meeting of the House shall be 12 o'clock meridian on Mondays and Tuesdays, 2 o'clock post meridiem on Wednesdays, and 11 o'clock ante meridiem on all other days of the week; and that from May 16, 1987, until the end of the first session, the hour of daily meeting of the House shall be 12 o'clock meridian on Mondays and Tuesdays and 10 o'clock ante meridiem on all other days of the week.

The resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING THE SPEAKER OR HIS DEPUTY TO ADMINISTER OATH OF OFFICE TO THE HONORABLE JOSEPH E. BRENNAN AT PORTLAND, ME

Mr. FOLEY. Mr. Speaker, I offer a resolution (H. Res. 8) and I ask unanimous consent for its immediate consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington.

There was no objection.

The Clerk read the resolution, as follows:

H. Res. 8

Whereas Joseph E. Brennan, a Representative-elect from the State of Maine, from the First District thereof, has been unable to appear in person to be sworn as a Member of the House, and there being no contest or question as to his election: Therefore be it

Resolved, That the Speaker, or deputy named by him, be, and he is hereby, authorized to administer the oath of office to the Honorable Joseph E. Brennan at Portland, Maine, on or after January 9, 1987, and that the said oath be accepted and received by the House as the oath of office of the said Joseph E. Brennan.

The resolution was agreed to.

A motion to reconsider was laid on the table.

REPORT OF COMMITTEE TO NOTIFY THE PRESIDENT OF THE UNITED STATES OF THE ASSEMBLY OF CONGRESS

Mr. FOLEY. Mr. Speaker, your committee appointed on the part of the House to join a like committee on the part of the Senate to notify the President of the United States that a quorum of each House has been assembled and is ready to receive any communication that he may be pleased to make has performed that duty. The President asked us to report that he will be pleased to deliver his message at 9 p.m. on January 27, 1987, to a joint session of the two Houses.

JOINT SESSION OF THE CONGRESS—STATE OF THE UNION MESSAGE

Mr. FOLEY. Mr. Speaker, I offer a privileged concurrent resolution (H. Con. Res. 1) and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the concurrent resolution.

The Clerk read the concurrent resolution, as follows:

H. Con. Res. 1

Resolved by the House of Representatives (the Senate concurring), That the two Houses of Congress shall assemble in the Hall of the House of Representatives on Tuesday, January 27, 1987, at 9 o'clock post meridiem, for the purpose of receiving such communication as the President of the United States shall be pleased to make to them.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ELECTION OF MEMBERS TO CERTAIN STANDING COMMITTEES OF THE HOUSE

Mr. GEPHARDT. Mr. Speaker, I offer a privileged resolution (H. Res. 9) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 9

Resolved, That the following named Members, Resident Commissioner, and Delegates, be, and they are hereby, elected to the following standing committees of the House of Representatives:

Committee on Appropriations: Jamie L. Whitten, Mississippi, Chairman; Edward P. Boland, Massachusetts; William H. Natcher, Kentucky; Neal Smith, Iowa; Sidney R. Yates, Illinois; David R. Obey, Wisconsin; Edward R. Roybal, California; Louis Stokes, Ohio; Tom Bevill, Alabama; Bill Chappell, Jr., Florida; Bill Alexander, Arkansas; John P. Murtha, Pennsylvania; Bob Traxler, Michigan; Joseph D. Early, Massachusetts; Charles Wilson, Texas; Lindy (Mrs. Hale) Boggs, Louisiana; Norman D. Dicks, Washington; Matthew F. McHugh, New York; William Lehman, Florida; Martin Olav Sabo, Minnesota; Julian C. Dixon, California; Vic Fazio, California; W.G. Hefner, North Carolina; Les AuCoin, Oregon; Daniel K. Akaka, Hawaii; Wes Watkins, Oklahoma; William H. Gray III, Pennsylvania; Bernard J. Dwyer, New Jersey; William Hill Boner, Tennessee; Steny H. Hoyer, Maryland; Bob Carr, Michigan; Robert J. Mrazek, New York; Richard J. Durbin, Illinois; Ronald D. Coleman, Texas; Alan B. Mollohan, West Virginia.

Committee on the Budget: William H. Gray III, Pennsylvania, Chairman; Thomas S. Foley, Washington; Mike Lowry, Washington; Butler Derrick, South Carolina; George Miller, California; Pat Williams, Montana; Howard Wolpe, Michigan; Martin Frost, Texas; Vic Fazio, California; Marty Russo, Illinois; Ed Jenkins, Georgia; Marvin Leath, Texas; Charles E. Schumer, New York; Barbara Boxer, California; Buddy MacKay, Florida; Jim Slattery, Kansas; Chester G. Atkins, Massachusetts; James Oberstar, Minnesota; Frank Guarini, New Jersey; Richard Durbin, Illinois; Mike Espy, Mississippi.

Committee on Foreign Affairs: Dante B. Fascell, Florida, Chairman; Lee H. Hamilton, Indiana; Gus Yatron, Pennsylvania; Stephen J. Solarz, New York; Don Bonker, Washington; Gerry E. Studds, Massachusetts; Dan Mica, Florida; Howard Wolpe, Michigan; George W. Crockett, Jr., Michigan; Sam Gejdenson, Connecticut; Mervyn M. Dymally, California; Tom Lantos, California; Peter H. Kostmayer, Pennsylvania; Robert G. Torricelli, New Jersey; Lawrence J. Smith, Florida; Howard L. Berman, California; Mel Levine, California; Edward F. Feighan, Ohio; Ted Weiss, New York; Gary L. Ackerman, New York; Buddy MacKay, Florida; Morris K. Udall, Arizona; Chester Atkins, Massachusetts; James Clarke, North Carolina; Jaime Fuster, Puerto Rico; James Bilbray, Nevada.

Committee on Public Works and Transportation: James J. Howard, New Jersey, Chairman; Glenn M. Anderson, California; Robert A. Roe, New Jersey; Norman Y. Mineta, California; James L. Oberstar, Minnesota; Henry J. Nowak, New York; Nick Joe Rahall II, West Virginia; Douglas Applegate, Ohio; Ron de Lugo, Virgin Islands; Gus Savage, Illinois; Fofo I.F. Sunia, American Somoa; Douglas Bosco, California; Robert A. Borski, Pennsylvania; Joe Kolter, Pennsylvania; Tim Valentine, North Carolina; Edolphus Towns, New York; William O. Lipinski, Illinois; J. Roy Rowland, Georgia; Rober E. Wise, Jr., West Virginia; Kenneth J. Gray, Illinois; Peter J. Visclosky, Indiana; James A. Traficant, Jr., Ohio; Jim Chapman, Texas; Martin Lancaster, North Carolina; Louise Slaughter, New York; John Lewis, Georgia; Peter DeFazio, Oregon; Benjamin Cardin, Maryland; Bill Grant, Florida; David Skaggs, Colorado; James Hayes, Louisiana.

Committee on Rules: Claude Pepper, Florida, Chairman; Joe Moakley, Massachusetts; Butler Derrick, South Carolina; Anthony C. Beilenson, California; Martin Frost, Texas; David E. Bonior, Michigan; Tony P. Hall, Ohio; Alan Wheat, Missouri; Sala Burton, California (when sworn).

Committee on Ways and Means: Dan Rostenkowski, Illinois, Chairman; Sam Gibbons, Florida; J.J. Pickle, Texas; Charles B. Rangel, New York; Fortney H. Stark, California; Andrew Jacobs, Jr., Indiana; Harold E. Ford, Tennessee; Ed Jenkins, Georgia;

Richard A. Gephardt, Missouri; Thomas J. Downey, New York; Frank Guarini, New Jersey; Marty Russo, Illinois; Donald J. Pease, Ohio; Robert T. Matsui, California; Beryl Anthony, Jr. Arkansas; Ronnie G. Flippo, Alabama; Byron L. Dorgan, North Dakota; Barbara B. Kennelly, Connecticut; Brian J. Donnelly, Massachusetts; William J. Coyne, Pennsylvania; Michael A. Andrews, Texas; Sander Levin, Michigan; Jim Moody, Wisconsin.

Mr. GEPHARDT (during the reading). Mr. Speaker, I ask unanimous consent that the resolution be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. AUCOIN). Is there objection to the request of the gentleman from Missouri?

There was no objection.

The SPEAKER pro tempore. The gentleman from Missouri [Mr. GEPHARDT] is recognized for 1 hour.

Mr. GEPHARDT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would simply say that by direction of the Democratic Caucus, this resolution contains the names of the Members that we wish to nominate for the Committee on Appropriations, the Committee on the Budget, the Committee on Foreign Affairs, the Committee on Public Works and Transportation, the Committee on Ways and Means, and the Committee on Rules. I would ask that the resolution be agreed to.

The SPEAKER pro tempore. The question is on the resolution offered by the gentleman from Missouri [Mr. GEPHARDT].

The resolution was agreed to.

A motion to reconsider was laid on the table.

ELECTION OF MEMBERS TO CERTAIN STANDING COMMITTEES OF THE HOUSE

Mr. MICHEL. Mr. Speaker, I offer a privileged resolution (H. Res. 10) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 10

Resolved. That the following named Members, be, and they are hereby, elected to the following standing committees of the House of Representatives:

Committee on Foreign Affairs: William Broomfield, Michigan; Benjamin Gilman, New York; Robert Lagomarsino, California; James Leach, Iowa; Toby Roth, Wisconsin; Olympia Snowe, Maine; Henry Hyde, Illinois; Gerald Solomon, New York; Doug Bereuter, Nebraska; Bob Dornan, California; Chris Smith, New Jersey; Connie Mack, Florida; Michael DeWine, Ohio; Dan Burton, Indiana; vacancy; vacancy; vacancy.

Committee on House Administration: Bill Frenzel, Minnesota; Bill Dickinson, Alabama; Bob Badham, California; Newt Gingrich, Georgia; Bill Thomas, California; Barbara Vucanovich, Nevada; Pat Roberts, Kansas.

Committee on Public Works and Transportation: John Paul Hammerschmidt, Arkansas; Bud Shuster, Pennsylvania; Arlan Stangeland, Minnesota; Newt Gingrich, Georgia; Bill Clinger, Pennsylvania; Guy Molinari, New York; Clay Shaw, Florida; Bob McEwen, Ohio; Thomas Petri, Wisconsin; Don Sundquist, Tennessee; Nancy Johnson, Connecticut; Ron Packard, California; Sherwood Boehlert, New York; Tom DeLay, Texas; Sonny Callahan, Alabama; Dean Gallo, New Jersey; Helen Bentley, Maryland; Jim Lightfoot, Iowa; John Rowland, Connecticut; vacancy.

Committee on Rules: Jimmy Quillen, Tennessee; Delbert Latta, Ohio; Trent Lott, Mississippi; Gene Taylor, Missouri.

Mr. MICHEL (during the reading). Mr. Speaker, I ask unanimous consent that the resolution be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. GEPHARDT). Is there objection to the request of the gentleman from Illinois?

There was no objection.

The SPEAKER pro tempore. The gentleman from Illinois [Mr. MICHEL] is recognize for 1 hour.

Mr. MICHEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I might proceed for one moment for the purpose of advising the Members of the House that on our side of the aisle, we are making temporary appointments to the Committee on Foreign Affairs, Committee on House Administration, Committee on Public Works and Transportation, and the Committee on Rules that we might be able to facilitate any legislation coming up during the course of this week prior to our having made the kind of decisions in our committee on committees that would fill out the full complement of the various committees; standing and select committees of the House of Representatives.

The SPEAKER pro tempore. The question is on the resolution offered by the gentleman from Illinois [Mr. MICHEL].

The resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING THE SPEAKER TO DECLARE A RECESS ON TUESDAY, JANUARY 27, 1987

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that on Tuesday, January 27, 1987, it may be in order for the Speaker to declare a recess at any time subject to the call of the Chair.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

ADJOURNMENT OF THE HOUSE FROM THURSDAY, JANUARY 8, 1987, TO TUESDAY, JANUARY 20, 1987

Mr. FOLEY. Mr. Speaker, I offer a privileged concurrent resolution (H. Con. Res. 2) and ask for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 2

Resolved by the House of Representatives (the Senate concurring), That when the House adjourns on Thursday, January 8, 1987, pursuant to a motion made by the majority leader, or his designee, in accordance with this resolution, it stand ajourned until 12 o'clock meridian on Tuesday, January 20, 1987, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House, after consultation with the minority leader of the House, shall notify the Members of the House to reassemble whenever, in his opinion, the public interest shall warrant it.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would like to insert in the RECORD an announcement from the Speaker concerning the introduction and referral of bills, floor privileges, recognition for unanimous-consent requests, and recognition for 1-minute speeches and special orders.

The Speaker's announced instructions to the Doorkeeper and Sergeant at Arms in the 98th Congress on January 25, 1983, and in the 99th Congress on January 21, 1986, regarding strict enforcement of rule XXXII—specifying those persons having the privileges of the floor during sessions of the House, will be applied during the 100th Congress.

ANNOUNCEMENT BY THE SPEAKER, JANUARY 25, 1983

The SPEAKER. The Chair wishes to make the following announcement concerning privileges of the floor for House staff during the 98th Congress.

Rule XXXII strictly limits those persons to whom the privileges of the floor during sessions of the House are extended, and that rule prohibits the Chair from entertaining requests for suspension or waiver of that rule. As reiterated as recently as August 22, 1974, by Speaker Albert under the principle stated in Deschler's Procedure, chapter 4, section 3.4, the rule strictly limits the number of committee staff permitted on the floor at one time during the consideration of measures reported from their committees. This permission does not extend to Members' personal staff except when a Member has an amendment actually pending during the 5-minute rule. To this end, the Chair requests all Members and committee staff to cooperate to assure that not more than the proper number of staff are on the floor, and then only during the actual consideration of measures reported from their committees.

The Chair will again extend this admonition to all properly admitted majority and minority staff by insisting that their presence on the floor, including the areas behind the rail, be restricted to those periods during which their supervisors have specifically requested their presence. The Chair stated this policy in the 97th Congress, and an increasing number of Members have insisted on strict enforcement of the rule. The Chair has consulted with and has the concurrence of the minority leader with respect to this policy and has directed the Doorkeeper and the Sergeant at Arms to assure proper enforcement of the rule.

ANNOUNCEMENT BY THE SPEAKER, JANUARY 21, 1986

The **SPEAKER**. The Chair desires to make the following announcement concerning privileges of the floor for House staff during the 2d session of the 99th Congress.

Rule XXXII strictly limits those persons to whom the privileges of the floor during sessions of the House are extended, and that rule prohibits the Chair from entertaining requests for suspension or waiver of that rule. As reiterated by the Chair on January 25, 1983, and January 3, 1985, and as stated in chapter 4, section 3.4 of Procedure in the House of Representatives, the rule strictly limits the number of committee staff on the floor at one time during the consideration of measures reported from their committees. This permission does not extend to Members' personal staff except when a Member's amendment is actually pending during the 5-minute rule. It also does not extend to personal staff of Members who are sponsors of pending bills or who are engaging in special orders. The Chair requests the cooperation of all Members and committee staff to assure that only the proper number of staff are on the floor, and then only during the consideration of measures reported from their committees.

The Chair is making this statement and reiterating this policy because of concerns expressed by many Members about the number of committee staff on the floor during the last weeks of the first session.

The Chair will institute the following procedure for the remainder of the 99th Congress. The Chair requests each chairman, and each ranking minority member, to submit to the Doorkeeper a list of staff who are to be allowed on the floor during the consideration of a measure reported by their committee. Each staff person should exchange his or her ID for a "committee staff" badge which is to be worn while on the floor. The Chair has consulted with the minority leader and will continue to consult with him. The Chair has furthermore directed the Doorkeeper and the Sergeant at Arms to assure proper enforcement of rule XXXII.

The Speaker's guidelines announced during the 98th Congress on March 3, 1983, regarding unanimous-consent requests for committees to sit during the 5-minute rule will continue to apply during the 100th Congress.

ANNOUNCEMENT BY THE SPEAKER MARCH 3, 1983

The **SPEAKER**. The Chair announces that he will recognize Members to make requests for committees to sit during the 5-minute rule only at certain times during the legislative day. While the precedents indicate that such requests when pending are not votes requiring the presence of a quorum, the Chair wishes to avoid the need for a call of the House pending such requests but at the same time to assure predictability as to when he will accord recognition. Therefore, the Speaker intends to set up the following guidelines:

First, as has been established by precedent, permission to sit shall require unanimous consent if the permission pertains to a day for which the program has not been announced. Thus, prior to the announcement of the legislative program for the following week, only one objection would be required to prevent a committee from sitting. Following the announcement by the majority leader, or his designee, of the program for the next week, the Chair would entertain requests for committees to sit during that following week and 10 objections would then be required. The Chair wants it to be clearly understood that the first available opportunity in the House following the announcement of the program is an appropriate time for considering requests pertaining to the following week if the announcement comes before the completion of all legislative business.

Second, the Chair will not entertain requests on days when all votes on legislative matters have been postponed to a later date; however, the Chair will accept requests for committee hearings to be held later in the week if the request has the concurrence of the ranking minority member of the committee or subcommittee.

Third, on days when legislative business is to be conducted, and when rollcall votes are in order on legislation, the Chair will recognize during the 1-minute speech period at the beginning of the day for requests that committees sit provided that the Chair has been notified and has received assurance that the minority leader, or his designee, has been notified at 5 minutes before the request is to be entertained.

Fourth, the Chair will bestow recognition at times during the legislative day other than during the 1-minute period only when he is assured that the ranking minority member of the committee or subcommittee involved supports the request for the hearings or meeting.

Requests that have been objected to by 10 or more Members pursuant to clause 2(i) of rule XI may not be renewed on the same day unless the Chair is assured that the objections have been withdrawn.

The Chair will in no instance entertain requests after the legislative business of the day has been concluded; that is, after leaves of absence have been laid down or unanimous consent requests from the majority and minority tables have been entertained at the end of the day.

The Chair would also announce that the Speaker's statement in the 98th Congress on January 3, 1983, regarding signing of bills and resolutions, his determination of committee jurisdiction on a joint or sequential basis, and regarding the Speaker's discretionary authority to refer nongermaine Senate amendments to House bills to the committees of appropriate jurisdiction, will continue to apply in the 100th Congress.

ANNOUNCEMENT BY THE SPEAKER JANUARY 3, 1983

The **SPEAKER**. The Chair would like to make a statement concerning the introduction and reference of bills and resolutions.

As Members are aware, they have the privilege today of introducing bills. Heretofore on the opening day of a new Congress, several hundred bills have been introduced. It will be readily apparent to all Members that it may be a physical impossibility for the Speaker to examine each bill for reference today. The Chair will do his best to refer as many bills as possible, but he will ask the indulgence of Members if he is unable to refer all the bills that may be introduced. Those bills which are not referred and do not appear in the RECORD as of today will be included in the next day's RECORD and printed with a date as of today.

The Chair has advised all officers and employees of the House that are involved in the processing of bills that every bill, resolution, memorial, petition, or other material that is placed in the hopper must bear the signature of a Member. Where a bill or resolution is jointly sponsored, the signature must be that of the Member first named thereon. The bill clerk is instructed to return to the Member any bill which appears in the hopper without an original signature. This procedure was inaugurated in the 92d Congress. It has worked well, and the Chair thinks that it is essential to continue this practice to insure the integrity of the process by which legislation is introduced in the House.

The Chair also desires to announce that pursuant to the authority granted him in rule X, clause 5, he will continue the practice of basing sequential referral of bills and resolutions on the subject matter contained in any amendment recommended by the committee or committees first reporting, as well as upon the matter in the original text of the bill or resolution.

The Chair will also exercise his authority in particular situations to designate a primary committee among those to whom a bill may be jointly referred and may impose time limits on committees having a secondary interest following the report of the primary committee.

The Chair intends to use his referral authority in a manner which will maintain the flow of legislation to the floor and thus enhance the ability of the House to complete its legislative schedule within the time limits fixed by law and the rules of this body.

With respect to Senate amendments, the Chair will continue judiciously to exercise his authority including his referral authority under rule XXIV to insure that major new proposals contained in Senate amendments, which are not germane to the original House measure, receive consideration by the committee with subject-matter jurisdiction in the House.

Also, the Speaker's statement in the 98th Congress on January 25, 1984, with respect to recognition for unanimous-consent requests for the consideration of bills and resolutions will apply during the 100th Congress, as will the Speaker's policy for recognition for "1-minute speeches" and special orders, alternating between both sides of the aisle, announced on August 8, 1984, and implemented on September 5, 1984.

ANNOUNCEMENT BY THE SPEAKER RELATING TO SPECIAL ORDERS AND 1-MINUTE SPEECHES AUGUST 18, 1984

The **SPEAKER**. After consultation with and concurrence by the minority leader, the Chair announces that he will institute a new policy of recognition for "1-minute" speeches and for special order requests. Beginning September 5, the Chair will alternate recognition for 1-minute speeches between majority and minority Members, in the order in which they seek recognition in the well under present practice from the Chair's right to the Chair's left, with possible exceptions for Members of the leadership and Members having business requests. The Chair, of course, reserves the right to limit 1-minute speeches to a certain period of time or to a special place in the program on any given day, with notice to the leadership.

With respect to recognition for "special order speeches" at the end of legislative business of the day, the Chair will recognize first those Members who wish to address the House for 5 minutes or less, alternating between majority and minority members, otherwise in the order in which those permissions were granted by the House. Thereafter, the Chair will recognize those Members who wish to address the House for longer than 5 minutes up to 1 hour, alternating between majority and minority members in the order in which those permissions were granted by the House.

Thus all Members can continue to obtain permissions to address the House in the same ways as are presently utilized, either by requests made by the acting majority and minority leaders at the end of the day through their respective Cloak Rooms or by individual requests agreed to on the floor for that day or for a future day. For the request to be entertained, it should state "permission to address the House at the conclusion of legislative business, consistent with the Speaker's announced policy of recognition". Thus, Members should be on notice that a special order for more than 5 minutes, although agreed to at a prior time, may be preceded by a series of special orders of 5 minutes or less, or by a longer special order of a Member of the other party.

Further refinements of this policy based upon experience may be announced by the Chair in the future after consultation with the minority leader.

The Chair would like to make a statement concerning the introduction and reference of bills and resolutions.

As Members are aware, if they have been sworn, they have the privilege today of introducing bills. If there is a large number of bills introduced, it will be readily apparent to all Members that it may be a physical impossibility for the Speaker to examine each bill for reference today. The Chair will do his best to refer as many bills as possible, but he will ask the indulgence of Members if he is unable to refer all the bills that may be introduced. Those bills which are not referred and do not appear in the RECORD as of today will be included in the next day's RECORD and printed with a date as of today.

The Chair has advised all officers and employees of the House that are involved in the processing of bills that every bill, resolution, memorial, petition, or other material that is placed in the hopper must bear the signature of a Member. Where a bill or resolution is jointly sponsored, the signature must be that of the Member first named thereon. The bill clerk is instructed to return to the Member any bill which appears in the hopper without an original signature. This procedure was inaugurated in the 92d Congress. It has worked well, and the Chair thinks that it is essential to continue this practice to ensure the integrity of the process by which legislation is introduced in the House.

The Chair also desires to announce that pursuant to authority conferred upon him in clause 5, rule x, the sequential referral of any bills and resolutions in the 100th Congress from a committee initially reporting thereon to a second or subsequent committee will be based upon the subject matter contained in any amendment recommended by a reporting committee, as well as upon the original text of the bill or resolution, or in certain cases, in lieu of the original text.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, DC,
January 5, 1987.

Hon. THOMAS P. O'NEILL, Jr.,
The Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Prusuant to the permission granted in Clause 5, Rule III of the Rules of the U.S. House of Representatives, I have the honor to transmit sealed envelopes received from the White House as follows:

1. At 10:50 a.m. on Tuesday, December 16, 1986 and said to contain a special message from the President in accordance with the Impoundment Control Act of 1974, including Section 1014 (2 U.S.C. 685(a)); and

(2) At 12:10 p.m. on Monday, January 5, 1987 and said to contain a special message from the President in accordance with the Impoundment Control Act of 1974, including Section 1014 (2 U.S.C. 685(a)).

With kind regards, I am,

Sincerely,

BENJAMIN J. GUTHRIE,
Clerk, House of Representatives.

REPORT ON DEFERRALS OF BUDGET AUTHORITY AND REVISED DEFERRALS OF BUDGET AUTHORITY—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES—(H. DOC. NO. 100-5)

The SPEAKER pro tempore (Mr. GEPHARDT) laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed:

(For message, see proceedings of the Senate of today, January 6, 1987.)

NEW RESCISSIONS AND DEFERRALS UNDER THE IMPOUNDMENT CONTROL ACT OF 1974—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES—(H. DOC. NO. 100-6)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed:

(For message, see proceedings of the Senate of today, January 6, 1987.)

PROPOSED BUDGET OF THE PRESIDENT, FISCAL YEAR 1987—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES—(H. DOC. NO. 100-11)

The SPEAKER pro tempore laid before the House the following communication from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed, and the accompanying communication containing recommendations for executive, legislative, and judicial salaries was also referred to the Committee on Post Office and Civil Service and ordered printed as part 2 of that House Document.

(For message, see proceedings of the Senate of today, January 6, 1987.)

☐ 1610

APPOINTMENT OF MEMBER OF THE JUDICIARY TO ADMINISTER OATH TO THE HONORABLE JOSEPH E. BRENNAN AT PORTLAND, ME

The SPEAKER pro tempore (Mr. GEPHARDT). Pursuant to the authority of House Resolution 8, 100th Congress, the Chair announces on behalf of the Speaker that the Speaker has appointed the Honorable Frank M. Coffin, circuit judge, First Judicial Circuit, U.S. Court of Appeals, to administer the oath of office to the Honorable Joseph E. Brennan.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair wishes to announce that in the case an adjournment resolution or an amendment to an adjournment resolution comes from the Senate during the 1-minute speeches, it will be considered at that time.

INTRODUCTION OF BALANCED BUDGET AMENDMENT LEGISLATION TO 100TH CONGRESS, 1ST SESSION

(Mr. WYLIE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WYLIE. Mr. Speaker, during the recent holiday season, my wife and I were blessed to spend much of our time with family members including our two wonderful young grandchildren. As these two beautiful girls played with their "pa-pa," I couldn't help but wonder what kind of future this Congress will leave for them. It is this legacy that prompts me to introduce legislation amending our Constitution to require Federal spending not exceed revenues except in time of war or economic necessity as declared by Congress.

Today, the enormous Federal deficit remains the overriding issue of concern on the minds of most Americans. Yet this public outcry has largely been ignored by Congress, which annually succumbs to the pressures to increase spending.

Despite the best intentions of the Gramm-Rudman deficit reduction law, there appears no end in sight to growing Federal spending.

That is why we need a constitutional prohibition on spending to curb Congress' appetite. Only by a constitutional amendment will we live within our means. My legislation is quite simple. It would amend the Congressional Budget Act of 1974 and the Budget and Accounting Act of 1921, to provide that Federal expenditures not exceed Federal revenues, except in time of war or economic necessity declared by Congress. The declaration by Congress would require a two-thirds affirmative vote.

Thirty-two States have already taken action to call for a constitutional convention in order to require a balanced budget. However, I do not feel we in Congress should abdicate our authority in this manner, simply because we lack the political courage and fortitude to take action. It is becoming increaingly clear that we need this constitutional restraint to correct our failing budget process.

It is easy to continue spending money we don't have. But this unlimited credit comes at a price that far exceeds any unsury law limits in our country. This debt is not being financed out of our own pockets but rather, from the financial futures of our children and grandchildren.

This picture for the future is indeed troubling.

But we, as Members of the historic 100th Congress, have the opportunity to alter this bleak scenario and pass truly historic legislation to see that our debts are not financed out of the future of our children and grandchildren.

A TRIBUTE TO JACKIE A. STRANGE ON THE OCCASION OF HER RETIREMENT FROM THE POSTAL SERVICE

(Mr. HUBBARD asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. HUBBARD. Mr. Speaker, on this the first day of the 100th Congress it's a pleasure for me to pay tribute to my friend Jackie Anderson Strange, who retired last Friday, January 2, as Deputy Postmaster General of the United States.

Jackie Strange, a native of Georgia and, I'm proud to say, a former Kentuckian, has been praised by postal officials across the United States.

Postmaster General Preston R. Tisch said recently:

> In leaving active duty, Jackie Strange will be altering a relationship with this organization that is of more than 40 years standing; she is refocusing a distinguished professional career that has been marked by levels of integrity, dedication and commitment of the highest order.
>
> Mrs. Strange's stewardship as the chief operating officer for the U.S. Postal Service, one of the nation's largest, most effective regulated businesses, has been skillful, dynamic and productive.

A career employee who entered the postal system in 1946, Jackie Strange has held numerous managerial positions, including district manager, Assistant Postmaster General for Procurement and Supply and Southern Regional Postmaster General. As Deputy Postmaster General, she is second in command in the Postal Service and one of the highest ranking women in Government.

My wife Carol and I are privileged to be among the hundreds attending a retirement dinner in Jackie Strange's honor tonight at the Washington Hilton Hotel.

Congratulations and best wishes to the highest ranking woman ever to serve the U.S. Postal System—Jackie Anderson Strange.

A TRIBUTE TO THE CLEVELAND BROWNS ON THEIR SUPER BOWL QUEST

(Ms. OAKAR asked and was given permission to address the House for 1 minute.)

Ms. OAKAR. Mr. Speaker, as we all know, we live in the greatest country in the world, and one of the great things about our country is that we have a great love for professional sports.

I am from a town, Cleveland, OH, that is very, very exciting. It is a wonderful town in and of itself, but the morale of the town has just been tremendously lifted because the Cleveland Browns are on their way to the Super Bowl. It means an awful lot to my hometown and, I think to all sports lovers in this great country of ours. Healthy competition among cities and among areas is good for the soul, and it is surely good for my hometown of Cleveland.

So right on Browns, we are proud of you.

Mr. GEKAS. Mr. Speaker, will the gentlewoman yield?

Ms. OAKAR. I am happy to yield to the gentleman from Pennsylvania.

Mr. GEKAS. For the remaining portion of the gentlewoman's time, I wish she would accord just as much of her greetings to the Penn State National Champions as she has to the Cleveland Browns.

Ms. OAKAR. I love Penn State. My mother was born in Pennsylvania.

Mr. GEKAS. There you go.

Ms. OAKAR. I have no problem with Penn State. But I am speaking now about the Cleveland Browns and professional sports, and we are really proud of the Cleveland Browns.

□ 1620

THE PRESIDENT: FAR FROM A LAMEDUCK—AN AMERICAN EAGLE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania [Mr. GEKAS] is recognized for 5 minutes.

Mr. GEKAS. Mr. Speaker, this day would not be complete if we were not to individually and collectively extend our best wishes to the President of the United States who is at this moment convalescing and recuperating from surgery and conducting the business of this country notwithstanding the trauma of those surgical procedures.

This is a further indication of the strength and will of this particular President who has led us now in 6 tumultuous years and has, just as the letter issued by him and recorded in the minutes of the CONGRESSIONAL RECORD of today, outlining the advances this country has made on the economic front, on the strengthening of our defenses, on the opportunities for our young, on the new economies that are bringing new employment and a new stability to our Nation. These are the handiwork of Ronald Reagan, the President of the United States.

I want to record my support here, now, today, for the President and to tell him in no uncertain terms that there are many of us in the Congress and outside the Congress, American citizens all, who want to see him continue his personal leadership and personal struggle for the advancement of our Nation for the remaining 2 years of his incumbency.

To those who would say that Ronald Reagan is a lameduck and who, for personal or political reasons, want to see the Presidency weakened, I say that despite your ill wishes or lack of foresight, we will not permit this Presidency nor the aegis of the President himself to be weakened in the remaining 2 years.

It was said that because he no longer has a Senate led by people of his own party and that the minority in the House of Representatives is only as capable of producing legislation as the Democratic majority will permit it to do so, nevertheless, we want the President to know that we will not abandon him; that we will support his endeavors; that we want his Presidency to succeed and it will succeed.

Far from being a lameduck, Mr. President, you are the leader of this Nation, the leader of the free world; not a bird of a feather of a lameduck but rather the American eagle leading our Nation to further greatness, to further strength, to further opportunity for every citizen in the greatest country that the world has ever developed.

NICK BUCCI: AN AUTHENTIC HERO

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. FISH] is recognized for 5 minutes.

Mr. FISH. Mr. Speaker, acts of apparent bravery and heroism often are the result of unavoidable circumstance. True heroism, however, is reflected by the selfless who choose the needs of others over their own.

Such heroism was exemplified by a constituent of mine during the Dupont Plaza Hotel fire on New Year's Eve in San Juan, PR. Nick Bucci, a fitness center operator and body builder from Newburgh, NY, had to decide between his own safety and the safety of the other hotel guests on that disastrous night in San Juan.

Nick and his wife, Bonnie, who is 6 months pregnant, were vacationing at the Dupont Plaza Hotel on the night of the fire. The couple were in their room when the fire started. Unable to get to the lower floors, Nick and Bonnie made their way to the penthouse. Nick hoisted himself from the balcony onto the roof. He then lifted his wife Bonnie up to safety.

Evacuation helicopters then began to arrive. Nick had the option to save himself immediately. He could have left with his wife on the first helicopter. He chose to stay. Nick pulled 70 people up from the penthouse to the waiting helicopters on the roof. Without Nick's assistance, many people would not have had the strength to save themselves, and, no doubt, the death toll would have been higher.

On this tragic New Year's Eve, Nick Bucci, a man with options, made the right and heroic decision. His bravery was not the result of circumstance. It was the genuine article.

Mr. GILMAN. Mr. Speaker, I rise in support of my colleague from the mid-Hudson Valley of New York [Mr. FISH] and commend him for calling to the attention of this body the rare, courageous acts of Nick Bucci.

For those of us from Nick's home county of Orange County, we were not surprised by his unselfish act of bravery. For years, he has been known in his home town of Newburgh and throughout the surrounding communities as an outstanding athlete, a successful businessman, and a well-respected community leader. Nick's initiative and determination in the face of crisis, leading him to save at least a dozen people from the Dupont Plaza Hotel inferno—including his own pregnant wife—were no surprise to his friends and neighbors who know him.

It has been said that a hero is an ordinary individual who, when faced with a crisis, responds in an extraordinary fashion. Nick Bucci certainly qualifies as a hero in risking his life and limb to help others. However, it is only due to a lifetime of concern for physical fitness and for a value being placed on human life that Nick Bucci was equipped and ready when this crisis came.

One of my own constituents, 18-year-old Lisa Abt of Middletown, was among those who were saved from this fiery disaster. We join with her in expressing our gratitude to Nick Bucci and the others like him who gave no regard to their own safety and put the lives of others ahead of their own.

Mr. Speaker, Nick Bucci is worthy of the praise of this entire body and I invite you to join with me in this commendation.

H. R. 22—THE BIENNIAL BUDGETING ACT OF 1987

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. PANETTA] is recognized for 5 minutes.

Mr. PANETTA. Mr. Speaker, in recent years our work on the Federal budget has come to dominate the congressional agenda. We begin the debate on spending cuts, tax changes, the impact of deficits on the economy, and the political implications of budget votes within hours of our arrival in the House Chamber for the beginning of the new session, and these issues monopolize our time and energy through the spring, summer, and fall, pushing aside other issues of national importance.

Also, because we begin the budget debate so quickly we get virtually no chance to do any serious thinking about what our long-term goals for the Federal budget should be and the best path to achieve those goals. We start making basic decisions on taxes and spending before our greatest resources on the budget—House committees—get a chance to hold hearings and debate policy alternatives.

This failure to do the proper budget groundwork results at the end of the year in the crisis of continuing resolutions—huge spending bills which must be passed to avoid a Government shutdown; 1986 marked the 10th straight year Congress failed to complete its budget work on time—1976 was the last year we passed all of our appropriations bills before the start of the fiscal year. Our record last year: none of the 13 regular appropriation bills were enacted before October 1.

This deterioration of the budget process paints an embarrassing picture of the Congress and the Federal Government for the rest of the country, to say nothing of the implications for spending policy. Who believes we are really doing a good job of debating spending issues when we are faced with a $600 billion bill passed in the last-minutes of the congressional session?

Yes; there are some spending and tax issues we need to debate on a yearly basis. But why not clear the budget underbrush by placing that 90 to 95 percent of the budget which does not change dramatically on a 2-year appropriations track? This would leave us more time to focus on the real issues, allow Federal agencies to plan, and set the stage for a more orderly budget process at the end of each congressional session.

The bill RALPH REGULA and I are introducing today would place Congress on a 2-year schedule for all budget action.

First introduced in 1977, the Biennial Budgeting Act proposes that the first year of each congressional term be devoted to formal oversight of programs and agencies, to the reporting by the Budget Committees of a budget resolution, and the reporting by the legislative committees of all authorizing legislation. Early in the second year authorization bills and a budget resolution would be passed, making way for consideration of biennial appropriation bills, which would be adopted before the beginning of the 2-year fiscal period.

This approach would yield three basic benefits: More oversight by Congress of existing programs, more time for thoughtful planning of a new budget, and more time to consider nonbudgetary matters. It would take us away from the stop-and-go funding we now engage in, where too many decisions result from last-minute panic instead of proper planning and extended debate.

Specifically, the bill would provide for the following schedule.

FIRST YEAR

The committees of each House would spend the first 6 months of the first session conducting oversight hearings on existing programs and policies. Following these hearings, the authorizing committees would have another 6 months to report out new legislation. The Budget Committees would report out a concurrent budget resolution by November 30, which would allow legislative committees time to incorporate guidelines in the resolution into their work.

SECOND YEAR

Each House would devote itself to working on new authorizing legislation, with a deadline of March 10 for passage of these measures. March 31 is set as the deadline for passage of a budget resolution covering the next 2 fiscal years, after which 2-year appropriation bills would be considered. By April 15, the Appropriations Committees are to report out their bills. Under the act action on appropriation bills is to be completed by the seventh day after Labor Day.

SUPPORT FOR 2-YEAR BUDGET

Support for a 2-year budget schedule has increased in recent years. The Packard Commission—the President's blue ribbon commission on defense management—report stated that "a two-year appropriation for defense would stop the yearlong chaos of budget making that we now have." Senator PETE DOMENICI of the Senate Budget Committee recently expressed support for a 2-year cycle in testimony before a Senate Committee, Defense Secretary Caspar Weinberger has said that biennial defense budgeting would save "a tremendous amount of time and resources," and former Congressional Budget Office Director Alice Rivlin continues to be strong advocate of the idea. In the summer 1986 issue of the Brookings Review, Ms. Rivlin outlined the following advantages of a 2-year budget.

> The managers of federal programs and the recipients of Federal grants could plan programs more effectively if they could assume funding for a longer period. They could spend more time managing and less time preparing and defending budgets and adjusting to funding changes. And Congress, relieved of annual budget battles, could devote more attention to long-run issues and more careful oversight of Federal programs. . . . It is time to move the whole process to a two-year schedule.

At the end of the 98th Congress the House Rules Committee Task Force on the Budget Process considered the 2-year budget as one of its four major budget process reform options. In the task force report a first step toward 2-year budgeting was recommended: 2-year authorizations. The Committee on Rules report on the bill that evolved from the task force, H.R. 5247 (Rept. 98–1152), also recognized the need for this first step, stating that:

> Extending the duration of authorizations (making them multiyear) would certainly reduce the time spent on authorization legislation in hearings, markup, floor debate and conference, and would increase the likelihood that authorizations will be in place before the House should begin consideration of appropriation bills. There is no doubt that requiring all annual authorizations to be extended to multiyear authorizations would help resolve some timetable difficulties.

The committee report also encouraged studies of the feasibility of placing some annually financed programs on a 2-year appropriation cycle.

I am pleased that the idea of a 2-year budget is attracting more attention and I hope Congress will take a close look at the advantages of a biennial timetable during its 100th session. Yes; it is always difficult to focus on the budget process while the debate rages over how to reduce the budget deficit, but if we do not search for ways to improve the process we will simply be sentencing Congress to a repeat of the budget chaos that has characterized recent years.

Again, under the current system there is simply too little time to investigate which Federal programs are working and which are not, what tax policy makes sense, and too little thought is given to long-term budget strategy. We need to revamp our current timetable so that Congress can debate what the responsibilities of Government should be, what programs are needed to carry out those responsibilities, and how we are going to pay for those programs.

The yearly scramble to assemble a deficit reduction plan which can pass has eclipsed virtually all efforts at formulating a rational budget path for the coming decade. With $180 billion deficits staring us in the face we do not, frankly, have the luxury of continuing our ad hoc approach to the budget. It is essential that we conduct oversight of Federal programs and try to devise a budget path which will reduce deficits and keep essential Government programs effective. Without a 2-year budget process the chances of fulfilling these responsibilities are, in my opinion, slim.

I hope Members will take a close look at my 2-year budget bill and I look forward to discussing the concept with my colleagues in the coming months.

H.R. 22

A bill to amend the Congressional Budget Act of 1974 to provide for a two-year budgeting cycle, to provide for separate and timely consideration each of authorizing legislation, budget resolutions, and appropriations, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Biennial Budgeting Act of 1987".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress hereby finds and declares that the present annual budgeting process of the Congress—

(1) allows too little time for the fulfillment by the Congress of its legislative oversight responsibilities;

(2) allows too little time for the review and consideration by the Congress of authorizing legislation, of budget resolutions, and of appropriation bills; and

(3) allows too little time for the evaluation of costly and complicated Federal programs and consequently contributes to the unrestrained growth of the Federal budget.

(b) PURPOSE.—It is the purpose and intent of the Congress in this Act to establish a more thorough and timely process for the enactment of the Federal budget by—

(1) establishing a two-year cycle for the adoption of the budget;

(2) providing clearly allocated time for the holding of oversight hearings by the several committees of each House in order to review the various programs and agencies of the Federal Government; and

(3) requiring that consideration of authorizing legislation, of the budget, and of appropriation bills and resolutions be separate and distinct, thus allowing full evaluation of the need for and the merits and costs of the various programs and agencies of the Federal Government.

SEC. 3. ESTABLISHMENT OF TWO-YEAR CYCLE FOR CONGRESSIONAL BUDGET PROCESS.

Section 300 of the Congressional Budget Act of 1974 is amended to read as follows:

"TIMETABLE

"SEC. 300. The timetable with respect to the congressional budget process for any Congress (beginning with the One Hundredth and first Congress) is as follows:

"First Session

"On or before:	Action to be completed:
January 3	President submits current services budget.
15th day after Congress meets.	President submits his budget for 2-fiscal-year period beginning in succeeding calendar year (the 2-fiscal-year budget period). All committees begin oversight hearings with respect to 2-fiscal-year budget period.
June 30	Committees complete oversight hearings and submit their reports thereon.
July 1	All committees begin legislative work for 2-fiscal-year budget period.
October 31	Committees and joint committees submit reports to Budget Committee with respect to 2-fiscal-year budget period.
November 10	Congressional Budget Office submits report to Budget Committee with respect to 2-fiscal-year budget period.
November 30	Budget Committees in both Houses report first concurrent resolution on budget for 2-fiscal-year budget period.
December 31	Committees report bills and resolutions authorizing new budget authority and providing new spending authority for 2-fiscal-year budget period.

Second Session

"On or before:	Action to be completed:
January 3	President submits current services budget.
15th day after Congress meets.	President submits revised budget for 2-fiscal-year budget period.
March 10	Congress completes action on bills and resolutions authorizing new budget authority and providing new spending authority for 2-fiscal-year budget period.
March 31	Congress completes action on concurrent resolution on budget for 2-fiscal-year budget period.
April 15	Appropriations Committee reports bills and resolutions providing new budget authority for 2-fiscal-year budget period.
7th day after Labor Day.	Congress completes action on bills and resolutions providing new budget authority and new entitlement authority for 2-fiscal-year budget period.
September 25	Congress completes action on reconciliation bill or resolution, or both, implementing concurrent resolution.
October 1	2-fiscal-year budget period begins.

SEC. 4. OVERSIGHT ACTIVITIES.

(a) Oversight Activities.—Title III of the Congressional Budget Act of 1974 is amended by adding at the end thereof the following new section:

"OVERSIGHT ACTIVITIES OF COMMITTEES

"Sec. 312. During the period beginning on the 15th day after the Congress meets in each odd-numbered year and ending June 30 of such year, each standing committee of the House of Representatives and the Senate shall review and study the application, administration, execution, and effectiveness of those laws (or parts of laws) the subject matter of which is within the jurisdiction of that committee and the organization and operation of the Federal agencies and entities having responsibilities in or for the administration and execution thereof, in order to determine whether such laws and the programs thereunder are being implemented and carried out in accordance with the intent of the Congress and whether such programs should be continued, curtailed, or eliminated. In addition, each such committee (during such period) shall review and study any conditions or circumstances which may indicate the necessity or desirability of enacting new or additional legislation within the jurisdiction of that committee (whether or not any bill or resolution had been introduced with respect thereto). The findings and determinations made by each such committee as a result of its oversight activities under the preceding provisions of this section in any year shall be reported to the House of Representatives or the Senate no later than June 30 of such year, and shall constitute the basis for such committee's legislative work with respect to the 2-fiscal-year budget period beginning on October 1 in the succeeding year.".

(b) Conforming Amendment.—The table of contents in section 1(b) of the Congressional Budget and Impoundment Control Act of 1974 is amended by adding after the item relating to section 311 the following new item:

"Sec. 312. Oversight activities of committees.".

SEC. 5. CONFORMING AMENDMENTS TO CONGRESSIONAL BUDGET ACT.

(a) Section 2(2) of the Congressional Budget and Impoundment Control Act of 1974 is amended by striking out "each year" and inserting in lieu thereof "biennially".

(b) Section 3 of such Act is amended by adding at the end thereof the following new paragraph:

(11) The term '2-fiscal-year budget period' means the period of 2 complete fiscal years beginning on October 1 in any even-numbered year.".

(c)(1) Section 202(f)(1) of such Act is amended—

(A) by striking out "February 15 of each year" and inserting in lieu thereof "November 10 of each odd-numbered year"; and

(B) By striking out "October 1 of that year" and inserting in lieu thereof "October 1 of the succeeding year".

(2) Section 202(f)(3) of such Act is amended to read as follows:

"(3) On or before January 15 of each even-numbered year, the Director, after consultation with the appropriate committeees of the House of Representatives and Senate, shall submit to the Congress a report listing (A) all programs and activities funded during the 2-fiscal-year budget period ending September 30 of that calendar year for which authorizations for appropriations have not been enacted for that period, and (B) all programs and activities for which authorizations for appropriations have been enacted for such period, but for which no authorizations for appropriations have been enacted for the 2-fiscal-year budget period beginning October 1 of that calendar year.".

(d)(1) Section 301(a) of such Act is amended by striking out "April 15 of each year" in the first sentence and inserting in lieu thereof "March 31 of each even-numbered year".

(2) Section 301(d) of such Act is amended by striking out "February 25 of each year" and inserting in lieu thereof "October 31 of each odd-numbered year".

(3) Section 301(e) of such Act is amended—

(A) by striking out "fiscal year" in the first sentence and inserting in lieu thereof "2-fiscal-year budget period"; and

(B) by striking out "such fiscal year" and "such period" in paragraph (6) and inserting in lieu thereof "the first fiscal year of such 2-fiscal-year budget period" and "such 5-year period", respectively.

(e)(1) Section 307 of such Act is amended to read as follows:

"APPROPRIATION BILLS

"(a) Except as provided in subsection (b), all bills and resolutions containing appropriations or otherwise provided budget authority for any 2-fiscal-year budget period shall be reported in the House of Representatives and Senate no later than April 15 of the year in which such period begins.

"(b) If the Committee on Appropriations of the House of Representatives or the Senate determines that changes in circumstances with the passage of time require a waiver of subsection (a) with respect to any bill or resolution providing supplemental appropriations or otherwise providing budget authority for any period, such committee may report, and the House or Senate may consider and adopt, a resolution waiving the application of such subsection in the case of such bill or resolution.".

(2) The table of contents in section 1(b) of such Act is amended by striking out "all appropriation bills to be completed by June 10" in the item relating to section 307 and inserting in lieu thereof "appropriation bills".

(f) Section 308 of such Act is amended—

(1) by striking out "such fiscal year" in paragraph (1)(A) of subsection (a) and inserting in lieu thereof "such 2-fiscal-year budget period"; and

(2) by striking out "such fiscal year" and "such period" (each place it appears) in subsection (c) and inserting in lieu thereof "the first fiscal year of such 2-fiscal-year budget period" and "such 5-year period", respectively.

(g) Section 309 of such Act is amended by inserting "of each even-numbered year" after "July" and by striking out "annual".

(h) Section 310 of such Act is amended—

(1) by striking out "June 15 of each year" in subsection (f)(1) and inserting in lieu thereof "September 25 of each even-numbered year";

(2) by striking out "(1) In General.—" in subsection (f)(1); and

(3) by striking out paragraph (2) of such subsection (f).

(i) Section 401(b)(1) of such Act is amended by striking out "the fiscal year which begins during the calendar year in which" and inserting in lieu thereof "the first 2-fiscal-year budget period which begins after".

(j)(1) Section 402 of such Act is amended—

(A) in the heading by inserting "; REQUIRED REPORTING DATE" after "AUTHORITY"; and

(B) by adding at the end thereof the following new subsection:

"(b) Required Reporting Date.—The Congress shall complete action on all bills and resolutions directly or indirectly authorizing the enactment of new budget authority for a 2-fiscal-year budget period no later than March 10 preceding the beginning of such period.".

(2) The table of contents in section 1(b) of such Act is amended in the item relating to section 402 by inserting "; required reporting date" after "authority".

(k) Section 904(a) of such Act is amended by inserting "(as enacted or as amended by the Biennial Budgeting Act of 1987)" after "and IV" in the matter preceding paragraph (1).

(l) The following sections of such Act are amended by striking out "fiscal year" each place it appears and inserting in lieu thereof "2-fiscal-year budget period": 3(1); (4)(A), (4)(B), and (4)(C); 202(f)(1); 301(a)(1), (b)(3), and (d) (first sentence; 302(c) and (f); 303 (a)(1), (a)(2), (a)(3), (a)(4), (a)(5), (b); 304(a); 307(a); 308(a)(1) (before subparagraph (A)), (a)(1)(A), (b)(1), and (c); 309 (first sentence); 310(a) (first sentence), (a)(1)(A), (a)(1)(C), (a)(1)(D), (d), and (f); 311 (a), (b), and (c); 401 (a) and (b)(2); and 402(a).

(m) The following sections of such Act are amended by striking out "such year" each place it appears and inserting in lieu thereof "such period": 3(1); and 303(a) (after paragraph (5)).

SEC. 6. AMENDMENTS TO BUDGET PROCESS PROVISIONS OF TITLE 31 OF THE UNITED STATES CODE.

(a) So much of section 1105(a) of title 31 of the United States Code as precedes paragraph (1) thereof is amended to read as follows:

"(a) The President shall transmit to the Congress, during the first 15 days of the first session of each Congress beginning with the One-hundred and first Congress the budget for the 2-fiscal-year budget period (as defined in paragraph (11) of section 3 of the Congressional Budget Act of 1974) beginning on October 1 of the succeeding calendar year. The budget so transmitted shall include a tentative budget for each of the two fiscal years in such period, shall contain the President's budget message together with summary data and text and supporting detail, and shall set forth in such form and detail as the President may determine (with respect to each such fiscal year) the following:".

(b) Section 1105(a)(5) of title 31 of the United States Code is amended by striking out "the fiscal year for which the budget is submitted and the 4 fiscal years after that year" and inserting in lieu thereof "each such fiscal year and the 3 fiscal years after the second such year".

(c) Section 1105(a)(6) of title 31 of the United States Code is amended by striking out "the fiscal year for which the budget is submitted and the 4 fiscal years after that year" and inserting in lieu thereof "each such fiscal year and the 3 fiscal years after the second year".

(d) Section 1105(a)(9) of title 31 of the United States Code is amended by striking out "ensuing fiscal year for which the budget is submitted" and inserting in lieu thereof "2-fiscal-year budget period involved".

(e) Section 1105(a)(12) of title 31 of the United States Code is amended—

(1) by striking out "fiscal year" in subparagraph (A) and inserting in lieu thereof "2-fiscal-year budget period"; and

(2) by striking out "each of the 4 fiscal years after that year" and inserting in lieu thereof "each of the 3 fiscal years after such period".

(f) Section 1105(a)(13) of title 31 of the United States Code is amended by striking out "fiscal year" and inserting in lieu thereof "2-fiscal-year budget period".

(g) Section 1105(a)(14) of title 31 of the United States Code is amended by striking out "that year" and inserting in lieu thereof "the 2-fiscal-year budget period".

(h) Section 1105(a) of title 31 of the United States Code is further amended by adding at the end thereof (after and below paragraph (24)) the following new sentences: "During the first 15 days of the second session of each such Congress the President shall transmit to the Congress any revisions he may desire to make in the budget transmitted in the first session of that Congress. In applying the succeeding provisions of this section with respect to any budget transmitted to the Congress for a 2-fiscal-year budget period, the term 'ensuing fiscal year' shall be deemed to read 'first year of the 2-fiscal-year budget period involved', and other references to fiscal years shall be deemed to be references to the 2-fiscal-year budget periods in which the years involved respectively fall.".

SEC. 7. EFFECTIVE DATE.

Except as specifically otherwise indicated, the amendments made by this Act shall become effective on the first day of the first session of the One-hundred and first Congress.

MY ADVICE TO THE PRIVILEGED ORDERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 5 minutes.

Mr. GONZALEZ. Mr. Speaker, today I have introduced the 1987 House and Community Development Act and it represents the efforts of a subcommittee, the largest subcommittee in the whole Congress within the Banking Committee, the full chairman of the Committee on Banking, the Honorable FERNAND ST GERMAIN, is cosponsoring with me on this occasion.

Since 1981, I have introduced what in the last two Congresses has been identified as H.R. 1. The reason for the concern of the shelter, the housing and the community needs of our Nation are easy to perceive once one has a chance to hear the witnesses throughout the country as we have in the subcommittee. We have had constant and sustained and most comprehensive hearings, not only in Washington, but in every one of the single, main, rural, sectional, and urban areas of our country. From the dense East in New York, Philadelphia, in such areas as far away as Los Angeles, and in between we have visited every single urban area in our sections of our country since 1981.

We have been into the rural sections from the eastern seashore, where the States of Virginia, Maryland, and Delaware meet. It has been very clear to us that we have a shelter crisis in our country. As far as our communities are concerned, whether they are rural or urban, we have a major crisis. We have very, very, I believe, negligently, allowed what is in high-faulting terms called the infrastructure of our cities. The water systems, the sewage systems, the streets, to crumble around our very ears, at a time when the Federal commitment for this type of activity has been diminished if not totally abdicated by this administration. In housing, the House of Representatives has risen to its responsibility.

□ 1630

Last year we passed out not once, but three times, the basic reauthorization legislation only to see it languish and die in the Senate under the steady drumfire opposition of the leadership then at the time and also the administration's unceasing opposition to housing programs; so that this reintroduction represents what we consider to be the minimal trying needs of our Nation in the way of shelter and community development programs.

I know in my heart of hearts that our society is going to have to pay a heavy societal price in the way of social disorder for the neglect that we have allowed to accumulate just within the last 6 years; so we must rise to the occasion, no matter how demoralizing the past might have been.

It is with a deep sense of the discharge of a serious obligation that we have reintroduced this legislation, or rather introduced it this first day of the session.

I am attaching to it and ask that it appear in the RECORD, a summary of the legislation and a schedule of obligation and authorization that we are requesting.

Mr. Speaker, today I am introducing a bill entitled "The Housing and Community Development Act of 1987" which would reauthorize the assisted housing programs administered by the Department of Housing and Urban Development [HUD] and the Farmers Home Administration [FmHA] as well as reauthorizing the Community Development Block Grant Program, the Urban Development Action Grant Program and other programs administered by HUD and FmHA. In addition, this bill would authorize $350 million in emergency assistance for homeless people and would set forth a structure of long-term assistance to provide on a more permanent basis decent, safe, and affordable housing for people with no shelter.

As the Members are aware, the House in the last session passed our housing authorization bill, H.R. 1, on four separate occasions but the Senate under Republican leadership did not deem it important enough to address the housing needs of our Nation. My effort this year as contained in this bill is built on the structure of H.R. 1 of last year. It not only reauthorizes and sets funding levels for numerous HUD and FmHA programs that provide housing for low-income people but it sets forth major changes in the operations and administration of these assisted Housing and Community Development Block Grant Programs. This bill does contain authorization levels that are somewhat above the levels that were maintained in last year's authorization bill and I believe it necessary and important to set forth the minimal level of assistance that I believe is necessary for the Congress to address itself to this year.

None of us could walk the streets of our communities this winter without seeing numerous people attempting to shelter themselves against the elements without a place to call their home. It is tragic that this administration and the past Congress have demonstrated little concern toward the housing needs of low-income people, especially when we have today in every community in this country homeless people wandering our streets like some Third World nation. This bill begins the attmept to address our housing needs and I invite my colleagues on both sides of the aisle to join me in support of these efforts and in support of my subcommittee's effort to pass as quickly as possible the major housing and homeless legislation.

Mr. Speaker, I am inserting as part of my remarks a short summary of my introduced bill and a table containing the program levels set forth in the bill.

SHORT SUMMARY OF H.R. 4, HOUSING AND COMMUNITY DEVELOPMENT ACT OF 1987

H.R. 4, the proposed Housing and Community Development Act of 1987, introduced by Housing Subcommittee Chairman Gonzalez on January 6, 1987, contains a findings and purpose section and seven titles.

TITLE I—SHELTER ASSISTANCE FOR THE HOMELESS AND DISPLACED

Title I contains the authorization of shelter programs for the homeless. The bill authorizes $200 million in fiscal year (FY) 1988 for the Emergency Food Distribution and Shelter Program for the homeless (FEMA); $50 million in FY 1988 for a Second Stage Housing Demonstration program for the homeless to enable non-profit organizations to develop and operate housing and supportive services for the homeless; and $100 million for an Emergency Shelter Grant Program to provide grants to states, units of local government, and to private nonprofit organizations to provide specific essential services for the homeless.

TITLE II—HOUSING ASSISTANCE

Title II contains authorization and program amendments for the federally assisted low-income housing programs and provides for FY 1988 approximately $11.9 billion in budget authority which will assist approximately 105,500 new subsidized housing units, including 10,000 public housing and 2,000 Indian housing units, 12,000 Sec. 8/202 elderly and handicapped units, 75,000 Sec. 8 regular existing units, and 6,500 Sec. 8 moderate rehabilitation units.

The bill also authorizes for FY 1988: $1.6 billion in public housing operating subsidies; $15 million for public housing child care grants; $150 million for the Housing Development Grant Program (HODAG); $75 million for the Rental Rehabilitation Program; $75 million for a Multifamily Preservation Improvement Fund; $10 million for the Congregate Services Program; $10 million for the HUD/HHS Demonstration Program; and $620 million for Sec. 202 elderly loans.

TITLE III—RURAL HOUSING

Title III contains authorization and extensions for the Farmers Home Administration (FmHA) rural housing programs and provides an overall total for insured and guaranteed loans during FY 1988 of $3.238 billion to assist approximately 86,777 units, including $1.7 billion for Sec. 502 subsidized homeownership loans, $20 million for Sec. 514 farmworker rental housing loans, $1.5 billion for Sec. 515 low income and elderly subsidized rental housing loans, $1 million for Sec. 524 Site loans, and $17 million for Sec. 504 home repair loans. Additional authorizations include: $1 million for Sec. 509 construction defects payments, $13 million for Sec. 504 repair grants, $11 million for Sec. 516 farmworker rental housing grants, $8 million for Sec. 523 Mutual and Self-Help Grants, $216 million for Sec. 521 Rental Assistance Payments and $5 million for Sec. 533 Housing Preservation Grants.

TITLE IV—MORTGAGE INSURANCE AND SECONDARY MORTGAGE MARKET PROGRAMS

Title IV extends the FHA Mortgage Insurance programs and the federal flood and crime insurance programs for one year, and permanently extends the Home Mortgage Disclosure Act. The bill contains program amendments for the mortgage insurance and secondary mortgage market programs.

The bill provides a cap of 3.8 percent for certain FHA mortgage premiums; prohibits user fees for FNMA and FHLMC as well as a cap on the GNMA mortgage-backed securities fee; provides $100 billion for the FHA insurance commitment for FY 1988; prohibits the use of FHA single family mortgage insurance by investors; provides mortgage insurance and refinancing insurance for hospitals, nursing homes, intermediate care facilities, and board and care homes; increases to not more than 20% of the aggregate number of FHA mortgages HUD's authority to insure adjustable rate single family mortgages (ARMS); establishes a home equity conversion mortgage insurance demonstration program; provides for at least one FHA processing office in each state and includes additional amendments for insurance programs.

TITLE V—COMMUNITY DEVELOPMENT AND MISCELLANEOUS PROGRAMS

Title V authorizes for FY 1988: $3.4 billion for the Community Development Block Grant Program including $60 million for the Secretary's Discretionary Fund; $300 million for the Urban Development Action Grant Program; extends the Sec. 312 Rehabilitation Loan program for FY 1988; $15 million for the Urban Homesteading Program; $150 million for the Sec. 108 loan guarantee limits; $19 million for the Neighborhood Reinvestment Corporation; $10 million for the Fair Housing Initiatives Program; $6 million for housing counseling; $20 million for HUD research; $38 million for Flood Insurance Studies and Surveys; and $10 million for the Neighborhood Development Demonstration Program. The bill amends the UDAG project selection criteria and prohibits the use of UDAG grants for business relocations.

TITLE VI—NEHEMIAH HOUSING OPPORTUNITY GRANTS

Title VI authorizes the Nehemiah Housing Opportunity Grants program at $150 million for FY 1988. This program is designed to assist in providing families with single family housing in certain depressed areas of the United States.

TITLE VII—ENTERPRISE ZONE DEVELOPMENT

Title VII provides for Enterprise Zone Development by authorizing HUD to designate 100 areas nationwide (33 of which are to be in rural areas) as enterprise zones in order to stimulate investment and job creation in urban and rural areas.

---

[1] Approp. Conference provides $200 million in new budget authority and $44 million in sec. 8 recaptures to be used either for public housing new construction or rehabilitation of obsolete projects. These funds will make available approx. 4,500 reconstructed public housing units.

[2] Budget authority for H.R. 4 and fiscal year 1987 Appropriations represents the use of capital grant funding for public housing development and modernization while fiscal year 1986 Appro. after sequestration is done through long-term financing.

[3] Approp. Conference estimates an additional $175 million from fiscal year 1986 carryovers to be available for use in fiscal year 1987.

[4] Budget authority estimates by CBO reflect all activity in the account, including repayments; fiscal year 1987 HUD Approp. bill for sec. 202 budget authority level is estimated by HUD (CBO estimates unavailable.)

[5] Fiscal year 1987 HUD Conference funds the Neighborhood Development Demo. program at $2 million from CDBG funds.

[6] There is minimal direct correlation between the budget authority level and the program level in a given year. Budget authority amounts primarily constitute the estimated appropriations necessary for prior years obligations, including interest credit subsidies and rental assistance payments. The fiscal year 1987 Appropriation provides an additional $642 million budget authority for FmHA loan asset sales which is not reflected in the chart. The fiscal year 1988 budget authority level does not include the impact of net new loans in fiscal year 1988.

[7] In billions.

CONSTITUTIONAL AMENDMENTS TO PROVIDE FOR DIRECT ELECTION OF PRESIDENT AND SINGLE 6-YEAR TERM

The SPEAKER pro tempore. (Mr. HUBBARD). Under a previous order of the House, the gentleman from Texas [Mr. BROOKS] is recognized for 5 minutes.

Mr. BROOKS. Mr. Speaker, today I am introducing two resolutions proposing amendments to the Constitution. The amendments would provide a single 6-year term for the President and Vice President and would call for the direct popular election of those officials.

It is very possible that the pressure and distraction imposed on a President by a campaign for reelection adversely affects his ability to govern effectively. In order to correct this problem, the first proposed constitutional amendment that I am sponsoring would allow our Chief Executive to concentrate solely on the job he or she was elected to do—govern our Nation—by specifying that the President shall serve a single, 6-year term. Rather than worrying about how decisions made early in his or her term will affect reelection possibilities, or attempting to score political points in order to enhance those opportunities, future Presidents under a single 6-year term will be able to pursue their agenda and to seek to put their goals into action.

The other proposed amendment would provide for the direct election of the President. The current electoral college framework, providing for all of a State's electoral votes to go to the leading candidate, runs counter to the principle of equal representation that underlies our democratic form of government. Further, the electoral college carries with it the ever present danger that at some point we will elect an individual as President who failed to gain a majority of the popular vote.

Direct election is the only way we elect all of our other public officials in this country. It is the one system that is consistent with our democratic principles.

Under my amendment, a candidate receiving at least 40 percent of the popular vote would be elected. If no candidate received 40 percent, a runoff election would be held between the highest finishers. The latter provision would discourage minor candidates and would ensure that the victorious candidate had received a true mandate from the voters.

Mr. Speaker, there is no more appropriate time than this bicentennial year of our Constitution to examine these provisions relating to the Office of President and to consider amending them to reinforce the democratic underpinnings of the Office of Chief Executive. In doing so, we will go into our third century of constitutional government with a Presidency that is able to govern effectively.

INTRODUCTION OF H.R. 2, SURFACE TRANSPORTATION AND UNIFORM RELOCATION ASSISTANCE ACT OF 1987

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. ANDERSON] is recognized for 5 minutes.

Mr. ANDERSON. Mr. Speaker, I am pleased today to be introducing the Surface Transportation and Uniform Relocation Assistance Act of 1987, which is being designated as H.R. 2. It is our intention to bring this legislation to the floor for consideration and passage quickly, perhaps as soon as this Thursday, January 8.

Obviously, such swift consideration represents a departure from the way that the Public Works and Transportation Committee, and the House leadership, would ordinarily move legislation of this significance. But it is for that very reason; that this bill is so significant, that the determination has been made to expedite its passage.

The legislation I am introducing, and which we will soon have before us, is virtually identical to titles I-IV of

H.R. 3129 from the 99th Congress, which passed the House on August 15 by a vote of 345 to 34. Modifications have been restricted to date changes that reflect the passage of time since last August, the elimination of provisions which were enacted as part of other legislation during the 99th Congress, technical and conforming changes and the excision of a single provision so that current law will be retained pertaining to the uniform application of just compensation. But for those adjustments, H.R. 2 will be identical to titles I-IV of the legislation which was passed by this body by a 10-to-1 margin 5 months ago.

Mr. Speaker, the Federal highway, highway safety, and public transit trust-funded programs have expired. No new money for any of these programs has been released since October 1. While States have been able to obligate funds authorized in previous years, those too are growing scarce. As of December 30, the total backlog in the highway program was less than $4.4 billion, with much of this only available for obligation in categories that the States deem to be of low priority. For example, though States were prepared to obligate over $800 million of Federal-aid primary funds in the just-concluded first quarter of fiscal year 1987, it is thought they were able to actually obligate only about $274 million.

According to the American Association of State Highway and Transportation Officials, each month's delay in enactment of this legislation will increase the number of highway projects delayed into the next fiscal year. Even if enacted by February 1, 424 projects valued at $683.7 million will be delayed. If enactment slips to March 1, 767 projects around the country, valued at $1.19 billion, will be postponed until next year, and the corresponding figures for a May 1 enactment rise to 1,500 projects costing over $2.3 billion.

When work is delayed costs increase, and I would hope that each of our colleagues considers that factor; that since these highway projects must be built eventually, delays increase costs and so give our taxpayers less bang for their user-fee bucks.

No less worthy of consideration is the fact that delays cost jobs. The Commerce Department estimates that 60 jobs, direct and indirect, are created for each $1 million of highway construction. So, according to the Highway Users Federation for Safety and Mobility, a failure to pass this bill until May 1 could cost 138,000 jobs.

Of course, the transit capital trust-funded program is also being delayed, and this too could result in employment dislocation. Each $100 million in transit capital funding equates to about 7,600 jobs, and so delays in that sector could have a devastating impact. According to the American Public Transit Association, some transit industry suppliers have indicated that they may begin layoffs by March in the absence of this legislation. And, as with highways, delays in passing this bill will hold up much-needed work and freeze local funds that are available to match the Federal moneys, and so are now being unused.

Finally, no price tag can be attached to the lives that may be lost because of delays in funding our highway safety programs.

Mr. Speaker, the bill being introduced today is not unfamiliar to many of our colleagues. As I have indicated, it is virtually identical to titles I-IV of H.R. 3129, from the 99th Congress, which passed by a 10-to-1 margin. It enjoys the bipartisan support of both, our committee leadership and the leadership of the House.

Mr. Speaker, because there is only a limited supply of this bill available in committee print form, I am attaching a copy, along with a section-by-section analysis, so that all our colleagues may completely familiarize themselves with the generalities and specifics of the legislation.

SECTION-BY-SECTION ANALYSIS, SURFACE TRANSPORTATION AND UNIFORM RELOCATION ASSISTANCE ACT OF 1987

TITLE I—FEDERAL-AID HIGHWAY ACT OF 1987

Section 101

Short Title

Provides that title I of the bill may be cited as the "Federal-Aid Highway Act of 1987."

Section 102

Approval of Interstate Cost Estimate and Extension of Interstate Program

Approves the use of the apportionment factors contained in revised table 5 of the Committee Print 100-1 of the House Committee on Public Works and Transportation to apportion the Interstate construction funds authorized for fiscal year 1988 and requires the Secretary of Transportation to transmit an estimate of the remaining cost to complete the Interstate system within ten days subsequent to January 2, 1989, to the Congress to apportion Interstate construction funds authorized for fiscal years 1991, 1992 and 1993.

Section 103

Interstate Substitute Program

Directs the Secretary to apportion funds authorized for highway and transit projects substituted for withdrawn Interstate System projects under section 103(e)(4) of title 23, United States Code, for fiscal year 1987 on the basis of factors contained in Committee Print 100-2.

Amends section 103(e)(4) of title 23, United States Code, to increase the period of availability for Interstate substitute funds from two years to four years. Subsection (b) also requires the Secretary to transmit to the Congress proposed apportionment factors for highway and transit substitute projects, representing 75 percent of authorization in the case of highways and 50 percent in the case of transit, as soon as practicable after January 2, 1987.

The distribution of substitute highway and transit funds is continued through fiscal year 1991 with substitute highway project funds distributed with twenty-five percent of the funds available in a fiscal year for substitute highway projects allocated at the discretion of the Secretary. The remaining seventy-five percent of the substitute highway funds is apportioned on the basis of estimates of the cost to complete substitute highway projects prepared by the Secretary and approved by the Congress.

The distribution of substitute transit funds provides for fifty percent of the funds available in a fiscal year for substitute transit projects to be allocated at the discretion of the Secretary. The remaining fifty percent of the substitute transit funds are apportioned on the basis of the estimates of the cost to complete substitute transit projects prepared by the Secretary and approved by the Congress.

The Secretary will use the apportionment factors contained in Committee Print 100-2 of the House Committee on Public Works and Transportation to apportion funds made available for Interstate substitute projects for fiscal year 1987. A revised cost estimate would be submitted to the Congress as soon as practicable after January 2, 1987 for approval by the Congress to apportion Interstate substitute project funds made available for fiscal years 1988, 1989, 1990, and 1991 subject to changes in state estimates in the division of funds between substitute highway and transit projects, subject to amounts made available in prior fiscal years and subject to reapportionment of funds for one year of funds which lapse after three years.

Provides authorization levels for the Interstate transfer highway and transit program. Funds authorized under this program for transit projects are appropriated, an action which is required for non-contract authority programs. This subsection also would amend current law by authorization of "such sums as may be necessary" through fiscal year 1991 in order to accommodate funding levels that may occur as a result of state changes in the division of funds between substitute highway and transit projects. For Interstate transfer highway projects, this section authorizes $825 million, out of the Highway Trust Fund (other than the Mass Transit Account), for each of the fiscal years 1986 through 1991.

Would add $100 million to the unobligated balance of current state entitlements under the Interstate transfer transit program as a one-time compromise measure to help offset anticipated future inflation in transit construction costs. To avoid biasing future decisions with respect to state changes in the division of funds between substitute highway and transit projects, these additional sums are intended solely for the benefit of current state transit transfer programs as they are contained in Committee Print 100-2 and in the amounts derived by application of the apportionment factors therein.

Would also eliminate the deadline in current law for having substitute projects under construction or under contract for construction and treats certain non-Federal expenditures in the past on a substitute highway in Portland, Oregon, as the non-Federal share of highway transfer funds that may be spent on that highway in the future.

Makes a series of technical conforming amendments to section 103(c) of title 23, United States Code.

Section 104

Interstate Authorizations

Reduces and extends the authorizations for Interstate construction by $3.0 billion for fiscal year 1988 and $3.3 billion for each of the fiscal years 1989 through 1992 and authorizes $2.0 billion for fiscal year 1993. Interstate construction funds are available for obligation one year prior to the fiscal year for which authorized. The Interstate construction funds are authorized through fiscal year 1993 at levels which will provide the states sufficient funds to complete the System.

Section 105

Obligation Limitation

Subsection (a) of this section provides a limitation of $12.6 billion for each of the fiscal years 1988 through 1991 on obligations for Federal-aid highway and highway safety construction programs.

Subsection (b) provides for the exclusion of obligation constraints for emergency relief projects; for minimum allocations; for bridge projects on Federal dams; for bridge projects under section 147 of the Surface Transportation Assistance Act of 1978, as amended; for the Woodrow Wilson Bridge located in the District of Columbia, Maryland, and Virginia; for a demonstration project in Altoona, Pennsylvania on Route 220; for a demonstration project in Illinois demonstrating the benefits of constructing usable segments of high-volume facilities; for Union Station; for a railroad-highway relocation project in Carbondale, Illinois; for motor carrier safety grants under section 404 of the Surface Transportation Assistance Act of 1982; for grants to states providing systematic inspection and service of protection devices at ConRail crossings; for highway demonstration projects provided in the Federal-Aid Highway Act of 1986; for a study of the bridge formula; for a feasibility study in California utilizing a highway electrification system as a source of energy for highway vehicles; for a study to determine the cost-effectiveness of upgrading Route 219 in Pennsylvania and New York to Interstate standards; and for a feasibility study for constructing a bypass highway around Sebastopol, California.

Subsection (c) would distribute obligational authority among the states each fiscal year on the relative basis of each state's share of apportioned and allocated Federal-aid highway and highway safety construction programs for the fiscal year.

Subsection (d) limits the total first quarter obligations to twenty-five percent and limits each state's first quarter obligations to thirty-five percent of its share of the annual obligation limitation for fiscal years 1988 through 1991.

Subsection (e) continues the priorities in existing law for the August 1 redistribution of unused obligation authority for fiscal years 1988 through 1991 with equal priority being given on the one hand to those states with large unobligated balances and on the other to those states which are receiving reduced apportionments as a result of the Federal-Aid Highway Act of 1981, or the STAA of 1982.

Subsection (f) is intended to address the problem of the states which have accumulated a significant backlog of unobligated apportionments or allocations for a variety of reasons, and are unable to eliminate that backlog by virtue of the fact that obligational authority is distributed to a state each year on the basis of funds apportioned or allocated to that state in that year; in essence, with obligational authority being distributed only on the basis of new funding, the backlog is perpetuated. Subsection (f) would allow each state that uses up its obligational authority in a fiscal year as well as any obligational authority redistributed to it on August 1, to obligate an additional 10 percent of its backlogged Federal-aid funds, provided that the total of such additional amounts nationwide does not exceed 5 percent of all backlogged funds.

Subsection (g) is a conforming amendment to assure that funds allocated under the minimum allocation program do not affect the distribution of annual obligation authority.

Section 106

Authorizations

Provides authorizations to be made available in fiscal years 1987, 1988, 1989, 1990, and 1991 for various Federal-aid highway programs out of the Highway Trust Fund (other than the Mass Transit Account).

For the Interstate 4R program $2.830 billion per fiscal year for each of the fiscal years 1988, 1989, 1990, 1991 and 1992.

For the primary system $2.305 billion per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990 and 1991.

For the secondary system $600 million per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990 and 1991.

For the urban system $750 million per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990 and 1991.

For Indian reservation roads $90 milion per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990 and 1991.

For forest highways $57.5 million for each of the fiscal years 1987 and 1988, $57.2 million for each of the fiscal years 1989 and 1990 and $60 million for fiscal year 1991.

For public lands highways $20 million per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990, and 1991.

The House bill authorizes $45 million per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990, and 1991 for parkways and park highways. The entire cost of any parkway or park highway on the Federal-aid system shall be paid out of the Highway Trust Fund. Any parkway or park highway not on the Federal-aid system shall be paid from the general funds of the Treasury. Annual appropriations are limited to $45 million regardless of the source of the funds.

The House bill provides for the continuation of the Disadvantaged Business Enterprise Program for fiscal years 1987, 1988, 1989, 1990 and 1991, and adds women to the rebuttable presumption of being disadvantaged. Each State shall annually survey and compile a list of small business concerns.

Section 107

Apportionment—Interstate 4R and Primary Formulas

The House bill changes the Interstate 4R formula from one which apportions funds 55 percent on the basis of Interstate land miles and 45 percent on the basis of Interstate vehicle miles traveled (with no state receiving less than ½ percent of the total amounts apportioned) to a formula which apportions funds 50 percent on the basis of Interstate vehicle miles traveled, 25 percent on the basis of gasoline consumption, and 25 percent on the basis of diesel fuel consumption.

The House bill also continues through 1991 the formula in existing law for distribution of Federal-aid primary funds.

Section 108

Elimination of Roadside Obstacles

The House bill amends the definition of construction as used in title 23 to include the removal of roadside obstacles. Under existing law, obstacle removal is generally authorized in connection with, or as an ancillary feature of, general highway construction. This amendment would allow states to use Federal-aid funds to remove roadside obstacles as a discrete Federal-aid project. This change is not intended to affect the application of section 123 of title 23, United States Code, regarding the relocation of utility facilities. However, where a state elects to carry out a discrete project for the removal of metal or plastic pipelines, relocation of adjoining pipe and appurtenances, to the extent necessary for continued pipeline utilization, should be considered within the purview of this definition.

In many areas of the country, roadside mailboxes have been installed that present a clear hazard to the motoring public. Tests have shown that some single and multiple mailbox installations are not safe. The United States Postal Service should work in concert with the Secretary and the states to address this serious problem. The American Association of State Highway and Transportation Officials has published a guide on erecting mailboxes on highways which offers great promise in addressing this roadside obstacle problem.

Section 109

Contracting for Engineering and Design Services

The House bill brings procurement of engineering and design services for Federal-aid highway projects into conformity with Title IX of the Federal Property and Administrative Services Act of 1949, which requires qualifications-based selection of these services when they are procured by Federal agencies for any project except Federal-aid highway projects, as they are not direct Federal procurements. Under the bill, the Federal selection procedures or equivalent state qualifications-based selection requirements for selecting firms for programs management, construction management, feasibility studies, preliminary engineering, design, architectural, engineering, surveying, mapping, or related services, shall apply to such contracts awarded or administered by recipients of funds authorized by the bill.

Section 110

Limitations Concerning South Africa on Awards of Contracts

This section amends section 112(b) of title 23, United States Code, for the letting of Federal-aid highway construction project contracts. This subparagraph will allow for the establishment of limitations on the awarding of contracts concerning South Africa under specific conditions. A state or local governmental body which received Federal funds will be permitted to prohibit or restrict the awarding of contracts to businesses which conduct business in South Africa. Competitive bid procedures will continue to be required for the awarding of project contracts. However, if the lowest bidder does not comply wiht the terms and conditions put forth by the state or local government, the next lowest bidder who complies with these terms will be awarded the contract. Any contract limitations established by the state or local government may be enforced only after an agreement has been reached with the Secretary. This agreement will ensure that any increase in project costs which results from state or local contract requirements will be absorbed by the state or local government. This section permits states and local governments the flexibility to enact laws restricting or prohibiting the awarding of contracts to businesses which conduct business in South Africa. No additional costs will be incurred by the Federal government if such laws are enacted.

Section 111

Standardized Contract Clause Concerning Site Conditions

The bill would amend section 112 of title 23, United States Code, to direct the Secretary of Transportation to issue regulations establishing and requiring a standardized contract clause in all Federal-aid highway contracts. The standardized contract clause would provide for the equitable adjustment of contract terms in each of the following situations:

1. In situations where site conditions differ from those specified in the contract.
2. In situations where work has been suspended by order of the state (other than a suspension of work caused by the fault of the contractor or by weather).
3. In situations where there are material changes in the scope of work specified in the contract.

The purpose is to address the serious problems stemming from the lack of consistency in general conditions clauses in Federal-aid highway contracts. When a contractor successfully bids on highway construction work, he or she expects to be compensated for the necessary work to be performed. It is generally assumed that the documents initially developed for the project cover all matters which may arise on the job. However, this is not always the case. Contractors will often experience differing site conditions, suspensions of work, and material changes in the scope of work to be performed. And all too often, the contract between the contractor and the state will not contain provisions providing for equitable adjustments concerning these changed conditions.

This has proven to be very frustrating and costly for the contractor. Today there is no uniformity in procedures or remedy available to a contractor seeking an adjustment in price or a contract time extension for a Federal-aid highway contract. Current claim litigation is too costly, last too long and leads to different decisions depending on the state involved.

The bill would seek to redress this situation by directing the Secretary of Transportation to issue regulations providing for standardized contract clauses concerning different site conditions, suspensions of work, and material changes in the scope of work. As a result, two things will be achieved. Each state will be required to have fair and equitable provisions governing changed conditions. In addition, there will be uniformity among the states, thereby eliminating much of the frustration being experienced by contractors who must deal currently with the nonuniform and disparate procedures of the fifty states.

It is the intent of the Committee that the regulations be issued as expeditiously as possible, and that the Secretary consult with the states and the contractors in the promulgation of such regulations. The regulations should address three basic areas: (1) differing site conditions; (2) suspension of work; and (3) material changes in the scope of work.

First, the regulations should address differing site conditions. One of the primary problems faced by a highway contractor is differing site conditions. In preparing his or her bid, the contractor must often rely on the information provided by the state highway agency with respect to such things as the quantity of cut or fill, the percentage of removal, location of structures and their placement and similar items. Once the job commences, the contractor may find that the actual work is much greater than the original estimate. Less than one-half of the states have differing site condition clauses in their specifications.

It is the intent of the Committee that the regulations to be promulgated by the Secretary provide for a standard contract clause with respect to (1) subsurface or latent physical conditions at the site differing materially from those indicated in the contract, and (2) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided in the contract.

Moreover, the Committee expects that the standardized contract clause would contain the common elements of existing changed condition clauses. For example, some of the common elements are as follows: (A) the "discovery" of alleged conditions must be "reported" so that suitable evaluations of the undisturbed site may be undertaken; (B) where the evaluation discloses a bona fide change in the character of the work to be performed, adjustment to the contract terms may be provided; (C) no adjustment will be provided if the site is disturbed (by contract operations) prior to the evaluation of the site conditions; and (D) no adjustment will be provided if "changed condition" are asserted after final payment.

The purpose of the changed conditions clause is to take at least some of the gamble on subsurface conditions out of the bidding. Bidders will not need to increase their bid in order to cover the risk of unknown conditions. They will not have any "disasters" on account of unknown conditions. Nor will they have any "windfalls". The government will benefit from more accurate bidding, without inflation for risks which may not materialize. It will pay for different subsurface work only when it is encountered and was not indicated in the project documents and/or specifications.

Second, the regulations must address suspensions in work ordered by the state. Delays or suspensions of work can be very costly to a contractor. Quite often these increased costs are not currently reimbursable in most state highway contracts.

These delays or suspensions are not the fault of the contractor seeking reimbursement for the costs. They may be the result of another contractor's failure to perform, failure of a utility to properly relocate its facilities, lack of sufficient state personnel to supervise the job, and for other reasons.

In order to address this problem, the bill directs the Secretary to issue regulations providing for a standardized contract clause governing delays or suspensions of work. Of course, relief would not be provided where the delay or suspension was caused by the fault or negligence of the contractor (or any of its subcontractors) or by the weather. The Committee expects that the standardized clause would require the contractor to notify the state of the claim within a specified time.

And third, the regulations should address material changes in the scope of work to be performed. Most highways contracts provide for the negotiation of price when major changes are made in a job. A problem arises when the change affects other parts of the work but the contractor only receives compensation for the work actually performed under the change order. Typically, a contractor expects a certain level of productivity of a job which is factored into the bid price. A change of work may substantially alter the productivity on the entire job. The Committee intends that an equitable adjustment be made in the entire contract price, not just an adjustment for the extra work. An example of the situation described can occur when utility relocations are in excess of that called for in the plans. This is not only extra work but slows down other parts of the job as well. Under the Committee proposal, the state will negotiate a price for the extra work and examine the entire contract to determine how it is affected. If a material effect exists, the contractor would be entitled to an equitable adjustment in the total contract price.

The bill does not represent some new or unique concept. The standardized contract provisions being proposed are currently contained in all direct Federal contracts. The proposed legislation would merely make those same contract clauses and requirements also apply to Federal-aid highway contracts administered by the states.

In addition to providing for contract uniformity, it is the hope and expectation of the Committee that the standardized contract clauses will reduce contract prices and decrease the overall cost of Federal-aid road construction. This is because the contingency amounts now included in bid prices as a hedge against the inherent risks a contractor takes when he or she bids a job without such contracts clauses would no longer be necessary.

The Committee also wants to note that any dispute between a state highway agency and a contractor would involve a state contract, and that states courts would retain jurisdiction, as they do now in resolving disputes over contract provisions required by Federal statute.

Section 112

Convict Produced Materials

The bill amends section 114(b) of title 23, United States Code, which prohibits the use of convict labor on highway construction projects, to permit the use of materials produced by convict labor only at prison facilities producing convict-made materials for Federal-aid construction projects prior to July 1, 1985. A qualified prison facility is limited to the production levels for Federal-aid construction projects during the 12-month period prior to July 1, 1985.

The bill also provides several technical and conforming amendments to other provisions of law to limit convict produced materials on Federal-aid highway construction projects.

Section 113

Signs Identifying Funding Sources

The bill requires states that erect signs on projects without direct Federal funding showing the source of funding to erect signs on all Federal-aid projects displaying the source and amounts of funds. The section is intended to require those states that have adopted innovative funding strategies using a mixture of funds to provide the public with a factual statement of the funding sources. It is not intended to require those states that do not have a practice of erecting signs at construction sites to begin such a practice.

Section 114

Advanced Construction

The bill deletes a restriction in section 115 of title 23, United States Code, which limits Federal payment for interest on bonds issued in connection with any advance construction Interstate project under construction on January 1, 1983, and substitutes in lieu thereof a provision to permit Federal reimbursement for bond interest in connection with any advance construction Interstate or primary project on which the proceeds of bonds were used or will be used, subject to certain limitations. The bill also allows states to secure approval of advance construction primary projects without having exhausted all primary apportionments.

Currently, the dollar value of advance construction projects that may be approved for the various categories of assistance is limited to a state's unobligated balances and anticipated apportionments for the individual categories. The bill would increase this dollar volume for the individual categories by an amount equivalent to a state's current year apportionment. Advance construction approvals create no obligation of the Federal government.

Section 115

Interstate Discretionary Funds

The bill amends section 118(b)(2) of title 23, United States Code, to revise the priority for the availability of Interstate construction discretionary funds. The Secretary shall prioritize the allocation of these funds first, for high cost projects which are on segments not open to traffic and to high cost projects for construction of high occupancy vehicle (HOV) lanes and other lanes on the Harbor Freeway in Los Angeles County, California; second, for projects which are high cost in relation to a state's apportionment; and third, for conversion of advance construction Interstate projects. The State of California would be eligible for the receipt of Interstate construction discretionary funds for the construction of high occupancy vehicle and other lanes on the Harbor Freeway, although the state may not have obligated all of its Interstate construction apportionments.

Under existing law, Interstate construction apportionments are available for obligation for two years, after which time any unobligated funds lapse to the discretionary fund. Subsection (a) would allow a state to reduce the period of availability of its apportioned Interstate construction funds from two years to one year.

The bill amends the Interstate 4R discretionary program by setting aside $200 million annually from the Interstate 4R authorization for discretionary projects. In selecting projects for funding, the Secretary shall give priority consideration to projects costing more than $10 million on high-volume urban routes or high truck-volume rural routes. The Secretary is also directed to consider how a state has used apportioned Interstate 4R funds in the past to determine to what extent the state merits discretionary funding currently in that the Secretary should not look too favorably upon the request of a state that has used excessive amounts of the Interstate 4R funds to construct new routes which have been designated under 139(b) of title 23, United States Code. However, the Secretary is directed not to consider whether a state has used or intends to use any of its apportioned Interstate 4R funds on routes designated under section 139(a) of title 23, United States Code, or whether it intends to exercise its unconditional right to transfer 20 percent of its 4R funds to primary as authorized by the reported bill.

Under existing law, Interstate 4R apportionments are available for obligation for four years, after which time any unobligated funds lapse to the Interstate 4R discretionary fund. Subsection (c) would reduce this period of availability from four years to three years.

Section 116

Flexibility of Use of Highway Funds

This provision will grant Puerto Rico a similar degree of flexibility as that accorded the State of Alaska. This flexibility will allow Puerto Rico to use funds from the different program categories to suit its particular highway needs and priorities, allowing the Commonwealth of Puerto Rico to expand and upgrade its infrastructure in order to attain stateside levels. This type flexibility would permit Puerto Rico to advance such projects as the new access road in San Lorenzo.

Section 117

Interstate-Primary Program

Present law, under section 105 of the Surface Transportation Assistance Act of 1978, permits a state to transfer any part of its Interstate 4R apportionment to its primary apportionment if a state certifies and the Secretary accepts the state's certification that the amounts to be transferred are in excess of the state's Interstate 4R needs. Many states desiring such a transfer have experienced difficulty showing that the amounts to be transferred are in excess of the state's Interstate 4R needs; and thus, the transfers have not occurred.

The Committee believes the enactment of policies which will require the states to invest sufficient funds for the preservation and improvement of the 42,500-mile National System of Interstate and Defense Highways is absolutely essential. However, the Committee also understands the needs in many states for new construction and reconstruction of primary highways, particularly important connectors to the Interstate System. Thus, the Committee bill includes a provision to permit states to transfer up to 20 percent of their Interstate 4R funds each year to primary projects unconditionally. The provision also permits these funds to be used at the same 90 percent Federal matching share as for Interstate projects, except where law provides for a higher matching share. Any state desiring to transfer more than 20 percent, however, must continue to justify the transfer as under existing law. The Committee believes the additional flexibility authorized by this section will permit states to make important investments on priority projects such as the Fall Line Freeway connecting Columbus, Macon and Augusta, Georgia, the Florence to Myrtle Beach connector in South Carolina, the Rice Road Interchange access road on Route 219 in New York, and the FAP 410 corridor in southern Illinois.

The bill also codifies and makes technical amendments to a provision in existing law authorizing a state to use Interstate 4R funds on Interstate toll roads if it signs an agreement that the road will become free to the public upon the collection of sufficient tolls to liquidate the outstanding debt at the time the agreement was signed and establish a sinking fund for operations and maintenance. If the road is not freed in accordance with the agreement, all Federal funds spent on the road must be repaid to the Treasury.

Section 118

Federal Share Payable

This section of the House bill would amend section 120(d) of title 23, United States Code, adding to the projects and activities eligible for 100 percent Federal financing of the cost of construction to include the installation of traffic signs, highway lights, guardrails, and impact attenuators. These devices are reported by the Federal Highway Administration to be among the most safety cost-effective improvements that may be made to a highway. The Committee believes this preferential match will lead to greater safety on the Nation's highways.

The Committee strongly urges the Secretary to include Federal Highway Administration's Highway Safety Program Standard 13, and resultant FHWA procedures, as safety priorities in traffic control device programs undertaken in conjunction with the states and their political subdivisions. This program, which calls for each state and its political subdivision to have a traffic control devices program, includes an inventory and periodic review of existing devices, as well as a maintenance schedule adequate to ensure proper operations and timely repair of control devices. Such a schedule would require daytime and nighttime inspections.

AASHTO's "Highway Design and Operational Practices Related to Highway Safety" provides additional support for Standard 13, because it emphasizes the benefits to be derived from a good traffic control operational review to detect problems as they develop, as well as the need to maintain a high level of service on the highway facility.

In addition, the Federal Highway Administration's "Traffic Control Devices Handbook" recommends an inventory and dating procedure that complies with the standard established when the Committee wrote the National Highway Safety Act of 1966.

The Committee requests that the Secretary make the inventory results available to the Committee in order that the Committee may properly assess the need for future legislation regarding traffic control devices.

The FHWA issues an Annual Report on Highway Safety Improvement Programs which includes a listing of highway safety equipment that has proved to be particularly cost-effective. Impact attenuators are among the type of equipment that has consistently demonstrated a high benefit/cost ratio and so they have consequently been added to the items eligible for 100 percent Federal funding under section 120(d) of title 23. The Committee intends the term "impact attenuator" to mean crash cushions that have been accepted by the Federal Highway Administration.

Subsection (b) amends the listing of priority primary routes which are eligible for a Federal funding match of at least 95 percent (rather than the 75 percent applicable to conventional primary projects), if a state elects to use its primary funds on such routes. The listing of priority primary routes appears in Committee Print 100-3.

Subsection (c) amends section 120 of title 23, United States Code, to allow a state to set the Federal match for Federal-aid projects on the Great River Road at not greater than 95 percent, but not less than 75 percent.

Subsection (d) is intended to provide incentives to the states to use coal ash in their highway construction projects. The ash produced by coal-burning electric generating plants and other users of coal has a well-established record of successful use in highway construction. Fly ash has been used in pozzolanic and cement stabilized roadbases, cement stabilized subbases, as a mineral filler in asphalt paving, in grouting and for soil stabilization. Bottom ash and/or boiler slag (collectively termed power plant aggregates) have been used in pozzolanic and cement stabilized roadbases and as aggregate in asphalt paving. Ample data exists supporting the technical feasibility of using coal ash in paving applications.

The utility industry produces tens of millions of tons of ash each year. Only about 20 percent is used at present. The remainder is disposed of as a waste.

Thus, promoting the reuse of power plant ash will conserve energy and reduce costs. The production of power plant ash requires essentially no energy—it is a by-product of the generation of electricity. In addition to reducing energy costs, the use of coal ash in transportation construction projects around the country appears, from comparative bid prices, to yield significant cost savings. Moreover, increased use of coal ash will reduce disposal costs for utilities generating ash and thereby produce cost savings for consumers as well.

Section 119

Emergency Relief

The bill adds a new subsection (d) to section 125 of title 23 which makes the territories eligible for emergency relief assistance. Subsection (b) imposes a $5 million annual limitation on emergency relief funding for the territories. The amendments are made retroactive to April 15, 1983, to cover a recent disaster.

The bill also increases the limit on emergency relief grants for each state for each disaster from $30 million to $50 million and increases the limit to $100 million for each state for each disaster occurring in calendar 1986. The bill would also allow the Secretary to reimburse the State of Utah from emergency relief funds to compensate for its use of Interstate 4R funds to repair I-80 which was damaged by flooding of the Great Salt Lake in 1983 in an amount not to exceed $30 million. The reimbursed funds shall only be available for Interstate 4R projects.

Section 120

Vehicle Weight Limitations

The bill provides for two classes of vehicles, a temporary modification of the bridge formula contained in section 127 of title 23, United States Code, so called because it prescribes limitations on axle loadings to prevent undue concentration of weight within overall gross vehicle weight limitations, thus preventing harm to bridges on the Interstate System.

Existing law provides that two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each, providing the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more. This in effect requires 36 feet between the second and fifth axles on the conventional 18-wheel, five-axle, tractor-semitrailer combination common to the trucking industry. Because of ambiguities in interpretation of the bridge formula since its enactment in the mid-1970's, tank trucks have been acquired and placed in service which, while complying with overall gross vehicle weights, inadvertently would trigger the bridge formula prohibitions when loaded to capacity.

This situation was called to the Committee's attention because of tighter enforcement policies which have been pursued by the Federal Highway administration. In view of the relatively small number of such vehicles, the Committee believes a temporary modification of this requirement—terminating on September 1, 1988—to provide for 30 feet between the axles in question is altogether reasonable. Much the same can be said of freight containers widely used in intermodal transport by truck and ocean-going vehicles. Shorter containers, which occasion the use of vehicles with lesser spacing between the second and fifth axles of five axle vehicles, are in widespread use but are in the process of being phased out in favor of longer containers which will occasion the use of longer trailers which eventually will meet the bridge formula requirements. The Committee has concluded that fairness dictates the inclusion of these vehicles as well.

The bill also provides the definition of ocean container incorporated by reference in the statutory language:

An article of transport equipment:

(a) of a permanent character and accordingly strong enough to be suitable for repeated use;

(b) specially designed to facilitate the carriage of goods by one or more modes of transport, without intermediate reloading;

(c) fitted with devices permitting its ready handling, particularly its transfer from one mode of transport to another;

(d) so designed as to be easy to fill and empty;

(e) having an internal volume of 35.3 ft^3 or more.

The term "freight container" includes neither vehicles nor conventional packing.

Section 121

Tolls

This bill amends section 129(e) of title 23, United States Code, to permit the collection of tolls on Interstate 75, Alligator Alley, in the State of Florida, to be used for repayment of costs incurred by the state and liquidation of indebtedness incurred to finance any cost associated with a feature of the project as recommended by the final environmental impact statement or any revision thereof which the Secretary determines is ineligible for Interstate construction funding.

Section 122

Highway Beautification

Subsection (a)(1) establishes a new program for the control of outdoor advertising which changes the existing program in a number of ways. The changes in current law are as follows:

New section 131(b) strengthens the enforcement provisions and takes away some of the discretion the Secretary now has to not impose sanctions. If a state fails to exercise effective control, the Secretary must reduce that state's Federal-aid highway apportionment by at least 5%, but not more than 10%. The penalty is "mandatory" in the sense that the Secretary no longer will have broad authority to suspend the imposition of the penalty based on a finding of public interest. The Secretary retains the discretion to determine what constitutes a failure to exercise effective control within the guidelines of this section.

The definition of "effective control" (new section 131(c)) is changed by the addition of a new class of exempt signs—"Farm produce signs." This is a limited exclusion to provide an opportunity to farmers to erect on or off premise signs which advertise the sale of their own agricultural products to the public. Such signs are to be "seasonal" or "temporary", and should be allowed only at about the time that the agricultural products being advertised for sale are harvested. A farmer could also advertise a "pick your own" operation.

Also added to subsection (c) are four new provisions: (1) All states must have an annual inventory or permit system (new section 131(c)(2)); (2) The states must ensure that unlawful signs, or signs for which just compensation has been paid, are removed within 90 days (new section 131(c)(3)). This section is intended to result in the expeditious removal of signs which no longer have a right to remain in place. The provision is intended to encourage states that have excessively cumbersome procedures which allow such signs to remain in place for months to develop more efficient methods of operation; (3) The states are required to prohibit clearance of vegetation in front of signs except in conformance with guidelines to be issued by the Secretary (new section 131(c)(4)). Current practice by the Department of Transportation allows too much discretion to the states. Such guidelines should establish procedures for undertaking vegetation control, requirements for landscaping or other aesthetic improvements as a condition of vegetation control, sign owner's assumption of the costs of such vegetation control and landscaping improvements, requirements to maintain safety and traffic flow during the period of such vegetation control and landscaping improvements, and requirements to carry out such control and improvements under the direct supervision of the state or a qualified landscape architect and pursuant to plans and specifications approved by the state. It is intended that vegetation control and landscaping improvement projects shall not detract from the aesthetic qualities of the right-of-way; (4) The states may not allow nonconforming signs to be expanded or to be changed so as to enhance their visibility or useful life. Ordinary maintenance of nonconforming signs may continue, although the current practice of allowing virtually new signs to be erected over a period of years should stop.

The House provision would generally prohibit the erection of any new signs in a commercial or industrial area after July 1, 1987 (new section 131(d)). Current law allows signs to be erected and maintained in zoned and unzoned commercial and industrial areas, in conformance with an agreement between the Secretary and each state. These agreements limit the size, lighting and spacing of permitted signs and define what consitutes an unzoned commercial or industrial area. In order to be allowed, a sign must actually have been in existence before July 1, 1987. Any signs which are erected after July 1, 1987, are excluded from the requirement to receive just compensation. This makes clear that a state need not pay compensation for signs erected after July 1, 1987, even if the state were not to come into compliance until well after July 1, 1987. Further, for highways added to the primary system after July 1, 1987, only signs erected before July 1, 1987, must be compensated upon removal. In spite of the general prohibition on the erection of new signs in commercial and industrial areas *after* July 1, 1987, if a lawful sign which was in existence before July 1, 1987, and located in a commercial or industrial area is removed without compensation. The new sign would still have to comply with the agreement between the state and the Secretary. The trade-off can be accomplished on a statewide or more localized basis, as a state wishes. Trades cannot be made between states. Finally, subsection (d) is amended to prohibit new unzoned commercial and industrial areas from being recognized after July 1, 1987. "Unzoned commercial and industrial areas," for purposes of the Highway Beautification Act are defined in agreements between the Secretary and each state. Only unzoned areas already being used for outdoor advertising will be recognized after July 1, 1987.

Subsection (e) is amended to terminate the requirement to remove nonconforming signs. After October 1, 1988, the decision to remove nonconforming signs would be entirely a state matter. In spite of this subsection, the Secretary should require the removal of signs which were erected in violation of the new requirements added by this Act. Otherwise, a state would be rewarded for being slow about coming into compliance. Thus, for example, signs erected in commercial and industrial areas after July 1, 1987, (except pursuant to new section 131(d)(2)(C) would have to be removed, even if the complying state law were not passed until after July 1, 1987.

Subsection (g) is amended to allow the Secretary and the individual states to agree on a Federal share for just compensation which is less than the current 75%, and to limit the use of salvage material from signs removed with compensation.

Subsection (h) is amended to strengthen to control of signs on Federal lands. Each Federal land owning agency must issue regulations that impose controls at least as stringent as those imposed by the state in which the Federal land is located. Indian reservation lands of the independent Indian Nations would be entirely exempt from the Highway Beautification Act. Each Federal agency must issue implementing procedures within 12 months of the enactment of this section.

To fund the program, the states could use up to ¼ of 1 percent of the total of their Interstate 4R and primary funds for outdoor advertising control. Funds are not authorized to be expended for actions not required or permitted by section 131. For example, Federal funds would not be available to participate in the cost of acquiring any signs erected in commercial and industrial areas on or after July 1, 1987.

The bill strikes the current provision, now numbered section 131(q), as to the restudy of tourist oriented signs. This study was completed long ago, and need not be done again.

The amendments to section 131 would generally become effective on October 1, 1988 (subsection (a)(3)). However, the "Interim Amendments" (subsection (b) of the House Bill), make the provisions dealing with farm produce signs, signs in commercial and industrial areas, funding, and control of signs on Federal lands effective immediately (as spelled out in the Interim Amendments).

Section 123

Bridge Program

The bill increases the amounts set aside for the discretionary bridge program through fiscal year 1991, to carry out section 144(g)(2) of title 23, United States Code, from $200 million to $250 million.

Also the bill would amend section 144(h) of title 23, United States Code, by eliminating from applicability of the General Bridge Act the requirement of Coast Guard Bridge permits for bridges over water which are navigable waters of the United States solely because they are subject to tidal influence. The amendment would exclude applicability of the General Bridge Act for those bridges over waters which are used by recreational boating, fishing, and other small vessels with a length of 21 feet or less.

The bill would modify the rquirement for the Secretary to submit a bridge report to the Congress each year and substitute a requirement that it be submitted biennially along with the Highway Conditions and Performance Report.

The bill amends section 144 of title 23, United States Code, to allow the State of Arkansas to apply for assistance for construction of a highway bridge to replace ferryboat service being provided for motor vehicles on January 3, 1983. The Federal share payable for the construction of any such project is 80 percent. The remaining total costs of deficient bridges in the State of Arkansas will be reduced by the total cost of any highway bridges constructed in the state for replacement of ferryboat service. This adjustment is necessary to preclude diversion of bridge funds from other states.

The provision of law which set in place investment criteria for administering discretionary bridge funds, section 161 of the Surface Transportation Assistance Act of 1982, also contained a provision grandfathering discretionary bridges already eligible for funding under the discretionary program. The Committee intended, as reflected in the Committee's report accompanying the House-passed version of the 1982 Act, that the Acosta Bridge in Jacksonville, Florida, be one such grandfathered bridge. Unfortunately, the Administration has taken a different view.

The bill clarifies that the Acosta Bridge is to be treated as a grandfathered bridge and shall be funded to completion using discretionary bridge funds.

Section 124

Minimum Allocation

The bill allows states to expend one-half percent of their minimum allocation funds (section 157) on transportation planning in urban areas (section 134) and allows states to expend one and one-half percent of their minimum allocation funds (section 157) on research and planning (section 307). The bill also provides that any Federal-aid highway funds withheld for noncompliance of the national maximum speed limit or for noncompliance of the national minimum drinking age laws or any other provision of law shall be treated as having been apportioned in such year to the states in order to determine the amounts allocated under section 157 of title 23, United States Code (minimum allocation), and extends the life of the minimum allocation program permanently.

Section 125

National Bridge Inspection Program

The bill amends chapter 1 of title 23, United States Code, to replace an outdated section and add a new section 151 (National Bridge Inspection Program). The Secretary, in consultation with state highway departments and knowledgeable private organizations and individuals, is required to establish national bridge inspection standards for the proper safety inspection and evaluation of all highway bridges. The Secretary shall establish inspection standards that at a minimum specify the method by which inspections shall be carried out, establish a maximum time period between inspections, establish bridge inspector qualifications, require written bridge inspection reports and inventories for all highway bridges, and establish a national certification procedure for highway bridge inspectors. In cooperation with the state highway departments, the Secretary shall develop a training program to provide assistance to government highway bridge inspectors. The training program shall be revised periodically to take into account new and improved bridge inspection techniques. Federal-aid highway funds under section 104(a), section 307(a) and section 144 of title 23, United States Code, may be used to carry out the national bridge inspection program.

The National Society of Professional Engineers through its National Institute for Certification in Engineering Technologies (NICET) has in place six certification programs for highway engineering technicians that were developed in cooperation with FHWA and AASHTO. A new NICET certification program entitled, "Bridge Safety Inspection", which is in the final stages of development, could serve as a valuable foundation for public and private sector initiatives.

This NICET Bridge Safety Inspection certification is job task specific and nationally applicable with a significant written examination component that can be used to determine specific training needs.

The bill also provides two conforming amendments to chapter 1 of title 23, United States Code, to add section 151 to the analysis for chapter 1 of such title and to amend section 116 to shift requirements under the new bridge inspection program to this section.

Section 126

Income from Rights-of-way

This section provides that the net income a state receives after September 30, 1987, from the use, lease, or sale of right-of-way airspace acquired using Federal assistance from the Highway Trust Fund (other than the Mass Transit Account) shall be used for projects under chapter 1 of title 23, United States Code.

Section 127

Strategic Highway Research Program

This section amends section 307 of title 23, United States Code, to establish a strategic highway research program. The Secretary, in consultation with state highway and transportation officials, shall establish a program to carry out research development and technology transfer activities strategically important to the national highway transportation system. The Secretary shall make grants, enter into cooperative agreements, and make advance payments to carry out the strategic highway research program. Federal-aid highway funds are set aside for fiscal years 1987 through 1991, not to exceed ¼ of one percent of the funds authorized for the Federal-aid highway systems, and the Interstate highway transfer program, the bridge replacement and rehabilitation program, the elimination of hazards of railroad-highway crossings under section 203 of the Highway Safety Act of 1973, and the elimination of hazards under section 152 of title 23, United States Code. Interstate construction and 4R funds set aside for the strategic highway research program are available on October 1 of the fiscal year preceding the fiscal year for which such sums are authorized. The strategic highway research program funds are available for the fiscal year in which they are made available and a period of three years following the fiscal year for which funds are made available.

Section 128

Wildflowers

This section would require that not less than one-fourth of one percent of Federal-aid funds expended by a state in any fiscal year for landscaping be expended for the planting of native wildflower seeds and seedlings. The requirements of this section may be waived if wildflowers cannot be grown satisfactorily or planting areas are limited.

Section 129

Technical Amendments

Subsection (a) of this section contains a series of purely technical amendments to the Surface Transportation Assistance Act of 1982 (STAA). Paragraph (1) corrects a reference to title 23 in the Surface Transportation Assistance Act of 1982. Paragraph (2) changes the second section 126 of the STAA (Bicycle Transportation) to section 126A to avoid having duplicative section numbers. Paragraph (3) strikes out "(a)" the first place it appears in section 133 of the STAA (Vehicle Weight, Length, and Width Limitations) as there is no subsection (b) to section 133. Paragraph (F4) corrects the reading of section 163 of the STAA (Use of High Occupancy Vehicle Lanes). Paragraph (5) is a technical amendment to section 165 of the STAA. Paragraph (6) treats boat haulers and automobile carriers equally under section 411(d) of the STAA.

Subsection (b) contains a series of purely technical amendments to title 23, United States Code. Paragraph (1) updates the analysis for chapter 1 of title 23 relating to sections 127 (Vehicle Weight Limitations) and 146 (Carpool and Vanpool Projects). Paragraph (2) is a technical amendment to correct a phrase and properly reference the definition for a "forest road or trail" under section 101(a). Paragraph (3) strikes out a redundant provision of section 120(f) of title 23 providing a 100% Federal match for emergency relief projects on Federal lands highways. Paragraph (4) contains a change to the first sentence of section 122 of title 23 (Payments to States for bond retirement) to conform to a change in the same sentence made by the STAA. Paragraph (5) amends section 125 of title 23 (Emergency relief) to eliminate inappropriate references to a Federal-aid program structure contained in the Senate-passed version of the STAA which was dropped in conference. Paragraph (6) adds language to section 144 of title 23 (Bridge replacement and rehabilitation) restoring provisions inadvertently omitted to provide a normal 4-year period of availability for apportioned bridge funds with provision for reapportionment of funds not obligated within the period of availability. Paragraph (7) amends section 204(b) of title 23 (Federal lands highways program) to add mention of the Secretary of Transportation inadvertently omitted in the second sentence.

Subsection (c)(1) amends section 104 of the Marine Protection, Research and Sanctuaries Act of 1972 (as added by section 424 of the STAA) to add the phrase "to ———", which was inadvertently omitted.

Subsection c(2) would correct an error in the Commercial Motor Vehicle Safety Act of 1986. Subsection (d) would codify section 111 of the STAA (Vending Machine) in title 23 and eliminate a cutoff date of October 1, 1983, inadvertently included in section 111 which imposes a time restriction on the placement of vending machines in rest and recreation areas in rights-of-way of the Interstate System.

Subsection (e) would amend Pub. L. 98-229 to permit the State of Maryland to transfer up to $100 million of its Interstate construction funds to rehabiliate the Jones-Falls Expressway in Baltimore, subject to certain conditions, rather than exactly $100 million as provided by existing law.

Subsection (f) is a technical amendment to exempt the construction of park roads or parkways from the application of section 303(c) of title 49 and section 138 of title 23, United States Code.

Subsection (g) repeals several outdated provisions of title 23, including section 211 (relating to timber access road hearings), 213 (relating to Rama Road), 219 (relating to safer off-system roads), and 322 (relating to demonstration project-rail crossings), and two other provisions of law, section 119 of the Federal-Aid Highway Amendments of 1974 (relating to bikeway demonstration program) and section 141 of the Federal-Aid Highway Act of 1978 (relating to bicycle program).

Subsection (h) updates references of the Federal-aid highway systems in section 123 of title 23, United States Code.

Subsection (i) provides a technical exception to section 111 of title 23, United States Code, for State Police Barracks in Quincy, Massachusetts.

Section 130

BUY AMERICA

This section reinstates cement under the Buy America provision of the Surface Transportation Assistance Act of 1982 as regards all foreign cement porduced in North America.

This section also increases the domestic content requirement from 50 percent to 85 percent for rolling stock acquired under the Urban Mass Transportation Act and increases the bid price differential for foreign manufacturers from 10 percent to 25 percent. However, the 85 percent domestic content requirement does not apply to procurements made pursuant to contracts entered into before January 6, 1987.

The Committee has taken this action because of its concern that there is existing overcapacity in the rolling stock manufacturing industry. Further entrants into this market would exacerbate the problem of overcapacity and lead to a loss of further jobs in the domestic rolling stock industry. The Committee also notes that foreign countries with rolling stock manufacturers typically have domestic preference requirements which exclude American manufacturers from selling in those countries.

Section 131

Implementation of Certain Orders

This section provides that in implementing any sequestration order issued by the President (pursuant to Pub. L. 99-177) which specifies a percentage reduction in funding for the Federal-aid highway, mass transit and highway safety programs, the Secretary of Transportation shall apply such percentage reduction equally to each highway, mass transit and highway safety program or project for which budget authority is provided by this Act or amendment, notwithstanding the identification in the program and financing schedule contained in Appendix to the Budget of the United States Government.

Section 132

Project Eligibility

Subsection (a) provides that a project on the Interstate System in Boston, Massachusetts, for the depression of the Central Artery and construction of the Third Harbor Tunnel consisting of four lanes is deemed to be eligible for construction with Interestate construction funds. The cost to complete such project shall be included in the 1985 Interstate Cost Estimate and any other ICE submitted to the Congress by the Secretary.

Subsection (b) provides that prior to the apportionment of Interstate construction funds in fiscal years 1987, 1988, and 1989, the Governor of Massachusetts and the Secretary may mutually agree on an obligation schedule for the project and transfer the balance of funds that would otherwise be apportioned to Massachusetts to Interstate construction discretionary fund.

Section 133

Park and Ride Lots

This section authorizes Federal participation in the construction of four park and ride facilities and direct access connectors between such facilities and HOV lanes being constructed on Interstate 95 in the vicinity of Fort Lauderdale, Florida. Federal participation in the cost of the park and ride and related facilities would be limited to $84 million, which is a reduction of about $20 million in the estimated Federal cost of the facilities as reflected in the approved 1985 Interstate Cost Estimate. This reduced cost of $84 million would be included in any further ICE. The State of Florida is authorized to use Interstate 4R funds to cover any cost of the facilities in excess of $84 million.

Section 134

Planning Design and Construction

This section provides that the State of Arkansas may use Interstate System funds apportioned to it for the planning, design and construction of U.S. 71 in Arkansas from I-40 to the Missouri line as a four-lane facility. Since Arkansas is one of several states to have received the minimum one-half of one percent of Interstate System authorizations provided by law, the effect of this provision is to place this project on an equal footing with Interstate 4R work in use of the State's apportionment.

Section 135

Transfer of Interstate Lanes

Subsection (a) provides that the costs included in the 1985 Interstate Cost Estimate for high occupancy vehicle (HOV) lanes on the Harbor Freeway in Los Angeles County, California, are to remain eligible for Interstate construction funds that the cost to complete such HOV lanes are to be included in any future Interstate Cost Estimate (ICE) unless such lanes are transferred under subsection (c).

Subsection (b) authorizes the transfer of amounts included in the Interstate Cost Estimate for HOV lanes on the Harbor Freeway to a substitute transit project for construction of a fixed guideway system on or adjacent to the Harbor Freeway.

Subsection (c) provides that upon the approval of any substitute transit project, funding for such fixed guideway project shall come from general revenues of the Treasury in a sum equal to the Federal share included in the latest ICE approved by Congress for the HOV lanes on the Harbor Freeway.

Subsection (d) extends the deadline of September 30, 1986, for substitute projects to be under construction or under contract for construction three years in the case of a transfer of the HOV lanes authorized under subsection (b). In order to comply with the required deadline extension, sufficient Federal funds must be available for the substitute transit project.

Subsection (e) requires the administration of the transfer of the HOV lanes on the Harbor Freeway under the provision of section 103(e)(4) of title 23, United States Code, except that the requirement of Secretarial approval of any withdrawals and substitute projects by September 30, 1983, do not apply, the prohibition against withdrawal of certain statutory designated segments do not apply, and the Federal Highway Administration is required to administer this section. The Federal share of the substitute project shall be as provided by section 120(c) of title 23, United States Code.

Subsection (f) defines the eligible Interstate lanes subject to transfer under this section.

Section 136

Modification of Interstate Transfer Concept Plans

Subsection (a) allows the Governor of the State of Maryland to request modifications to their Interstate substitution concept plan with respect to the withdrawal of Interstate Route I-83 in the city of Baltimore. The State of Maryland may include a substitute highway project in the concept plan to complete the National Freeway in Western Maryland. The State of Maryland may further modify the concept plan to include substitute projects that serve the urbanized area from which the Interstate route has been withdrawn.

Subsection (b) allows the State of Connecticut to request modifications to their Interstate substitution concept plan to include substitute highway and mass transit projects to serve the transportation needs of the urbanized area from which the Interstate route has been withdrawn.

Subsection (c) allows the Governor of Massachusetts to request modifications to Massachusetts' Interstate substitution concept plan to include a primary system segment in the vicinity of Acton, Concord, Lincoln and Lexington, Massachusetts, and other substitute highway and transit projects serving the area from which the interstate route was withdrawn as the Governor may request.

Subsection (d) requires the Secretary to approve a request for modifications of the Interstate transfer concept plans upon the request of the Governor of the State of Maryland, Connecticut or Massachusetts under subsection (a), (b), or (c) provided the request for modifications is submitted to the Secretary prior to September 30, 1987, and the modifications do not increase the amount of funds available to the Secretary to incur obligations from the Federal share of substitute projects under the transfer concept plan.

Subsection (e) provides that the modifications to the transfer concept plans for the States of Maryland, Connecticut or Massachusetts, upon approval, shall be deemed to have met the September 30, 1983, deadline for approval of substitute projects.

Section 137

Payback

Under section 103(e)(7) of title 23, United States Code, in any case where the withdrawal of an Interstate route under section 103(e)(4) of title 23 occurred after November 6, 1978, the state under certain circumstances is required to pay back to the Federal government an amount equivalent to the amount of Federal funds expended on the route for right-of-way acquisition. The amount paid back is then recredited to the unobligated balance of the state's Interstate construction apportionment.

With the withdrawal of I-478 in New York, commonly known as the Westway project, the State of New York zeroed out its costs to complete the Interstate System. Section 138 provides that any amounts repaid on account of I-478 expenditures are to be recredited to the state's primary apportionment, rather than its Interstate construction apportionment which the state by law would be prohibited from using and which eventually would lapse.

Section 138

Expenditure of Funds in Virgin Islands

This section would prohibit the expenditure of Federal highway funds under project agreements approved after January 1, 1986, for the planning, design and construction of a highway in Charlotte Amalie, Virgin Islands, extending eastward from the Windward Passage Hotel paralleling the existing waterfront and requiring extensive landfill along the waterfront.

Subsection (b) requires the Secretary, in cooperation with the Virgin Island Department of Public Works, to review existing studies to determine the most feasible alternatives to the construction of the highway and report to Congress within 180 days on the results of the review.

Section 139

Exemption from Right-of-Way Restriction

This section authorizes the continued operation of a duty-free liquor store currently owned by Can-Am Warehouse Company, located in part on the right-of-way of Interstate Route 94 in Michigan and in the vicinity of the interchange of I-94 and Michigan State Route 25, in Port Huron area. Expansion and renovation of the Blue Water Bridge Plaza have brought the facility under the provisions of section 111 of title 23, United States Code, which prohibits certain commercial establishments on right-of-way on the Interstate System, creating the need for this amendment to permit continued operation of the facility. This provision does not affect any lease arrangement between the Can-Am Warehouse company and the Michigan Department of Transportation.

Section 140

Donation of Lands

This section provides that the value of any lands that are donated or dedicated to the State of California for the construction or relocation of State Route 73 between I-405 and I-5 in Orange County shall be credited toward the non-Federal share of such project. The remainder shall be credited to the non-Federal share of other projects in five California counties.

It is anticipated that the Route 73 realignment and extension may be constructed in phases. It is therefore the intent of the Committee that any excess credit accumulated as result of the donation of the right-of-way for initial phases of the project be applied to other projects in the region only after determination by the California Transportation Commission that the value of the right-of-way donation satisfies the non-Federal share of the full Route 73 project.

A project such as this one can have considerable impact on the municipalities benefitting from the transportation improvements provided. The Committee therefore believes that such municipalities, including certain cities located along the coast line, should have their views with respect to project alignment and design taken into account through the environmental assessment process, consistent with the fundamental objectives of the highway project.

Section 141

Shirley Highway Traffic Restrictions

This provision continues the demonstration project authorized in Public Law 98-205, as it concerns Shirley Highway by continuing the HOV restrictions from the hours of 6-9 a.m. Northbound, and 3:30-6:00 p.m., Southbound, Monday through Friday. Further, this provision mandates the use of these HOV lanes at all times by motorcycles.

Section 142

Railroad Relocation Demonstration Program

This section extends the authorizations for railroad-highway crossing demonstration projects for fiscal years 1987 through 1991 with "such sums as may be necessary." Also, there is made available out of the Highway Trust Fund (other than the Mass Transit Account) contract authority not to exceed $5 million for fiscal year 1987, for acquisition of rights-of-way, construction of a temporary bypass, the initial construction to depress rail lines for the railroad relocation demonstration project in Carbondale, Illinois. The funds made available for this project shall remain available until expended and shall not be subject to any obligation ceiling.

Section 143

Maintenance of Certain Railroad-Highway Crossings

This section provides for a demonstration project in the Northeast for the systematic inspection and service of protective devices at railroad-highway crossings over which the Consolidated Rail Corporation operates. The term "protective devices" as used in this section is to mean crossings with either flashing light signals or automatic gates or both. The demonstration project is to reimburse the Consolidated Rail Corporation for 50 percent of the cost it incurs for the inspection and servicing of such protective devices. Funds to carry out this section are authorized based on the relative railroad-highway crossings over which ConRail operates rail vehicles and the number of crossings with protective devices within each state. The successful implementation of this demonstration project will provide important data for the section 213 study and could serve as a model for the railroad-highway crossing program after the existing section 203 funds expire at the end of fiscal year 1991.

Each of the states which participate in this demonstration project under this section shall report to DOT by June 30, 1991, the results of such projects and the effectiveness of such projects in improving the safety at railroad-highway crossings. The Secretary shall submit a report to the Congress no later than September 30, 1991, of the same nature.

There is authorized to be appropriated to the Secretary to carry out this section $4.5 million per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990 and 1991, out of the Highway Trust Fund (other than the Mass Transit Account).

Section 144

Projects

Subsection (a) describes projects authorized under this section.

Paragraph (1) authorizes the demonstration of the manner in which design and construction of a highway project in Passaic County, New Jersey, can be accelerated using procedures adopted to carry out section 141 of the Federal-Aid Highway Act of 1976 and established pursuant to section 129 of the Surface Transportation Assistance Act of 1982. The Committee intends that this project be carried out on Route 21 in Passaic County, New Jersey. The final report on the project should explain the time savings, give a description of the procedures used to accelerate design and construction, indicate how the techniques differed from those used on the project authorized by section 141 of the Federal-Aid Highway Act of 1976, and provide an analysis of the costs and benefits of the accelerated completion.

The Committee intends and expects the project to be completed within a construction schedule which will result in cost and time savings. In order to insure the immediate construction of this badly-needed project, this project need not comply with Federal-aid highway project procedures which have been established administratively. Also, in order to accomplish the objectives of the demonstration project, all procedures and regulations not founded on statutory requirements are subject to waiver if considered to be in the public interest. In line with the Council on Environmental Quality (CEQ) guidelines and in an effort to streamline the environmental processing, a short and concise EIS shall be developed with the assistance of Federal Highway Administration environmental specialists.

Paragraph (2) authorizes a highway project in Brick Township, New Jersey, to demonstrate methods of improving traffic operations and reducing accidents at a high volume rotary intersection and a highway project on a route connecting to another rotary intersection in Wall Township, New Jersey.

Paragraph (3) authorizes a highway project on Route 219 in the vicinity of Johnstown, Pennsylvania, to demonstrate methods by which such project enhances highway safety and economic development in an area of high unemployment. Additional authorizations are provided under subsection (d).

Paragraph (4) authorizes a highway project to demonstrate the economic growth and development benefits of widening and improving traffic signalization of a heavily traveled segment of the Federal-aid urban system connecting a community college and a large commercial center in the City of Fort Smith, Arkansas.

Paragraph (5) authorizes a project to demonstrate the economic and safety benefits of constructing a grade separation between a railroad line and a highway at 21st Street in Moorhead, Minnesota, and of reconstructing two deteriorated segments of Route 2, where it passed through Fosston and Bagley, Minnesota.

Paragraph (6) authorizes a project to demonstrate methods of improving traffic flow on State Highway 22 between Interstate Route 75 and U.S. Route 127 in Northern Kentucky.

Paragraph (7) authorizes a demonstration project in the vicinity of the Ontario International Airport in San Bernardino County, California, to demonstrate methods of improving highway access to an airport projected to incur a substantial increase in traffic.

Paragraph (8) authorizes a project to allow for the comparison of various advanced delineation techniques to close a gap on Route 220, which runs between Altoona and Tyrone Borough in Blair County, Pennsylvania.

Paragraph (9) authorizes preliminary engineering, design, and initial right-of-way acquisition and relocation activities for a 3-mile extensions of limited access highways connecting to the northern and southern termini of I-49 in Lafayette and Shreveport, Louisiana.

Paragraph (10) authorizes preliminary engineering and design of a highway project to demonstrate the most cost-effective method of improving Interstate access for passengers and cargo moving to and from the Port of Miami, Florida.

Paragraph (11)(A) authorizes preliminary engineering, design, right-of-way acquisition, relocation activities and initial construction in connection with a project to demonstrate methods of improving highway safety and accelerating reconstruction of a two-lane segment of U.S. 71 between its junction with I-40 and I-540 in the vicinity of Fort Smith, Arkansas, and the boundary between the States of Arkansas and Missouri as a four-lane facility.

Paragraph (11)(B) authorizes preliminary engineering, design, right-of-way acquisition, relocation activities and initial construction in connection with a project to demonstrate methods of improving highway safety and accelerating reconstruction of a two-line segment of U.S. 71 between the boundary between the States of Arkansas and Missouri and the vicinity of Carthage, Missouri, as a four-lane facility.

Paragraph (12) authorizes a highway project in the vicinity of Sanford, Florida, to demonstrate methods of reducing costs and expediting construction of an interchange in the vicinity of Route 46A and an Interstate route by contracting with a private business to design and construct the project.

Paragraph (13) authorizes a project in the vicinity of San Jose and Santa Clara, California, to demonstrate a unified method of reducing traffic congestion where a highway intersects with two other highways in a railroad crossing in a one-quarter-mile segment.

Paragraph (14) authorizes a demonstration project in the vicinity of the C&O Canal in the District of Columbia for the purpose of substantially improving vehicle access at a major traffic generator without decreasing the efficiency of a Federal-aid primary highway. Georgetown University would dedicate at least 2.5 acres of land as a scenic easement.

Paragraph (15) authorizes a highway grade separation project on a route on the Federal-aid urban system in the vicinity of Compton, California to demonstrate methods of relieving traffic congestion and enhancing economic development.

Paragraph (16) authorizes a highway project to demonstrate methods by which construction of a grade separation for a railroad crossing of a primary highway, enhances urban redevelopment and the effectiveness of a planned transportation center in Modesto, California.

Paragraph (17) authorizes the Secretary to provide for preliminary engineering, design, utility relocation, land acquisition and initial construction in connection with a highway project for construction of two additional lanes on a two-lane, 106-mile highway on the Federal-aid primary system which begins in the vicinity of Columbia, Missouri, and ends in the vicinity of Lancaster, Missouri. This project will demonstrate methods of improving highway safety, reducing traffic congestion and encouraging economic development.

Paragraph (18) authorizes a highway project to demonstrate the advantages of joint development and use of air rights in the construction of a deck over a depressed portion of I-93 in East Milton, Massachusetts.

Paragraph (19) authorizes a highway project in the vicinity of Fairhope and Foley, Alabama, to demonstrate methods of accelerating the widening of a high volume segment of a primary highway necessary for rapid evacuation of individuals during emergency weather conditions.

Paragraph (20) authorizes a highway project in Campbell County, Kentucky, to demonstrate the economic benefits to a port facility, industrial complex, and foreign trade zone, and methods of enhancing highway safety, by reconstruction of a two-lane segment of Kentucky Route 9 connecting Interstate 75 with a port facility as a four-lane highway.

Paragraph (21) authorizes a highway project to demonstrate the safety benefits of providing additional and improved vehicular passing opportunities on, adding truck climbing lanes to, and straightening a 50-mile segment to Route 20, in Jo Daviess and Stephenson Counties, Illinois.

Paragraph (22) authorizes a highway project to eliminate an at-grade rail-highway crossing on Basin Street in Allentown, Pennsylvania, and to replace it with a separate crossing. Currently, 26 trains a day cross Basin Street, a major thoroughfare traveled by over 20,000 cars daily. The project shall be carried out in such a way as to reduce traffic delays for both rail and motor vehicle traffic and to minimize the impact on the surrounding urban environment.

Paragraph (23) authorizes a highway project to demonstrate methods of improving safety on Highway 86 in Riverside County, California, designated as a priority primary route.

Paragraph (24) authorizes improvements to Fuhrman Boulevard, an access road which parallels Lake Erie along the outer harbor in the City of Buffalo. This project is designed to demonstrate methods of stimulating the reuse of Buffalo's waterfront by construction of a new connector off Buffalo's central business district and will foster new regional recreational, residential and commercial development.

Paragraph (25) authorizes a highway project to replace a ramp which provides access to an industrial area in Cleveland, Ohio, to demonstrate the relationship between infrastructure improvement and economic vitality.

Paragraph (26) directs the Secretary to carry out a project for the construction of a bridge to cross the Tennessee River in Lauderdale and Colbert Counties, Alabama, in the vicinity of Patton Island between O'Neal Bridge and Wilson Dam, for the purpose of demonstrating methods of improving highway transportation and enhancing economic development.

Paragraph (27) authorizes a highway project to upgrade an east-west state route between Port Clinton and Toledo, Ohio, for the purpose of demonstrating methods of improving traffic flow between a recreational area and a metropolitan area.

Paragraph (28) authorizes three highway projects in Chicago, Illinois: (A) to rehabilitate a drawbridge over the north branch of the Chicago River and realign an adjacent intersection which will demonstrate the latest innovative bridge repair techniques on a bascule bridge; (B) to remove and replace an existing bridge on Lake Shore Drive in the Jackson Park Historic District and the Midway Plaissance with a new bridge in the same location and to widen the approach road to such bridge which will demonstrate the historic recreation of a national register bridge and replacement of a deteriorated bridge; and (C) to carry out a highway project between Chicago Avenue and Clayburn Avenue to divest a bridge over Goose Island which will demonstrate methods of reducing municipal and Federal burdens for rehabilitation and maintenance of a surplus highway facility.

Paragraph (29) directs the Secretary to carry out two highway projects for the widening and resurfacing of Northline Road and Ecorse Road in Wayne County, Michigan, to demonstrate the contributions which such improvements can provide in terms of safety and economic vitality in a depressed area characterized by both industrial and residential activity.

Paragraph (30) authorizes seven highway projects in Cook County, Illinois: (A) to carry out a highway project which demonstrates methods of utilizing a low cost alternative to reconstruction of a one-mile segment of an east-west road between Nagel and Oak Park Avenues, Chicago, Illinois, which is deficient due to soil conditions; (B) to construct three parking facilities adjacent to the Rock Island commuter rail lines in Southwest Chicago, Illinois, which will demonstrate the effectiveness of construction of parking facilities in relieving on street parking congestion and unsafe parking practices; (C) to carry out a highway project in Oak Lawn, Illinois, which demonstrates methods of improving highway safety by widening and resurfacing a four-lane major arterial with lane widths which are less than minimum state and Federal standards; (D) to carry out a highway project which demonstrates methods of improving highway safety and access to a segment of the Interstate System by reconstruction of a congested major arterial in Calumet Park and Blue Island, Illinois; (E) to construct the first level of a two level addition to an existing park and ride facility in the vicinity of Cumberland Station on the O'Hare Rapid Transit Line, Chicago, Illinois, which will demonstrate methods of reducing commuter traffic and traffic congestion and increasing utilization of available capacity on a rapid transit line; (F) to carry out a highway project to demonstrate the benefits of utilizing precast, prefabricated concrete structural segments in the reconstruction of an elevated road on Western Boulevard in the southwestern portion of Chicago, Illinois, in order to minimize traffic disruption during the reconstruction; and (G) to carry out a highway project for the construction of two park/ride lots at sites where future stations are to be located on the Southwest Rapid Transit Line in Chicago, Illinois, and to which buses now provide mass transit service. Such project shall be carried out before the beginning of service on such rapid transit line in order to demonstrate methods of facilitating the transfer of passengers between different modes of transportation and of establishing ridership before the opening of a rapid transit line.

Paragraph (31) authorizes a highway project on a north-south route on the Federal-aid primary system in Kansas City, Missouri, to demonstrate methods by which construction of the first and southern-most phase of a 5-phase highway project will facilitate construction of the full 5-phase project.

Paragraph (32) authorizes the upgrading of a two-lane primary highway in Kentucky, Route 461, as a major access highway to South Fork River and Recreation Area and to upgrade the existing traffic corridor which includes Interstate 75 and Route 27. This project will demonstrate methods of improving highway safety and traffic congestion problems and methods of improving access to a natural river and recreation area.

Paragraph (33) authorizes the construction of an interchange between a highway on the Interstate System, I-35, and a county highway in the vicinity of Pine City, Minnesota, to demonstrate methods of enhancing economic development and improving highway safety and traffic flow.

Paragraph (34) authorizes the reconstruction of a two-lane bridge across the Salinas River in Paso Robles, California, to demonstrate methods of enhancing highway safety and economic development.

Paragraph (35) authorizes the widening and renovation of the Sunrise Highway from Wheeler Road to Veterans Memorial Highway in the Town of Islip, Suffolk County, New York, to demonstrate techniques to accelerate upgrading of an existing highway to freeway standards with minimum disruption of traffic.

Paragraph (36) authorizes the construction of two highway projects in the State of Connecticut. The State shall use the latest construction techniques in reconstructing Old Turnpike Road in the vicinity of Southington and modify the horizontal and vertical alignment of Main Street south of Kent Center to demonstrate methods of solving safety and flooding problems.

Paragraph (37) authorizes a highway project to construct a bridge across the Toms River in the Township of Dover, New Jersey, to demonstrate methods of reducing traffic congestion on an existing bridge and facilitating the redevelopment of the central business district in the Township of Dover, New Jersey.

Paragraph (38) authorizes a highway project in Los Angeles County, California, to demonstrate methods of improving vehicular circulation related to the intermodal transportation of port related traffic and to alleviate congestion caused by increased port activities.

Paragraph (39) authorizes preliminary engineering and design for a highway project on the Southern Expressway in Allegheny County, Pennsylvania, to demonstrate methods of improving economic development and airport terminal placement.

Paragraph (40) authorizes a highway project in Steuben County, New York, to demonstrate the extent to which the economy of an industrialized high unemployment area can be improved by completion of key elements of a modern, grade-separated access controlled highway which serves the area.

Paragraph (41)(A) authorizes a highway project in Sonoma County, California, to demonstrate the extent to which traffic congestion is relieved by reconstruction of State Route 12 between Santa Rosa and Petaluma.

Paragraph (41)(B) authorizes the acquisition of right-of-way for the construction of high occupancy vehicle lanes adjacent to State Route 101 between San Rafael and Healdsburg, California, to demonstrate the extent to which traffic congestion is relieved on State Route 101.

Paragraph (42) authorizes the reconstruction of an access road to Voyageurs National Park, Minnesota, to demonstrate methods of enhancing use of a national park and reducing traffic congestion.

Paragraph (43) authorizes a highway project for replacing an existing functionally obsolete bridge across the Savannah River in Savannah, Georgia, with a modern, high-level structure to demonstrate methods of improving safety and the free flow of both vehicular and waterborne traffic, including traffic related to national defense.

Paragraph (44) authorizes a highway project to construct a two-lane highway between the Township of New Sewickly, Pennsylvania, and the Borough of Conway, Pennsylvania, to demonstrate methods of accommodating increasing truck traffic and improving highway safety.

Paragraph (45) authorizes a highway project to upgrade a 1.3 mile access road to the Johnstown Flood National Memorial in the vicinity of Croyle Township, Pennsylvania, to demonstrate methods of improving public access to a flood memorial.

Paragraph (46) authorizes a highway project in Lawrence, Massachusetts, for the construction of a service road which provides access between Massachusetts Avenue and Merrimack Street substantially along an alignment located between the Shawsheen River and an Interstate route to demonstrate methods of enhancing the benefits of an economic rehabilitation project under construction by construction of a service road.

Paragraph (47) authorizes four highway projects in Baton Rouge, Louisiana: (A) to demonstrate the benefits of reducing traffic in the immediate vicinity of a split-diamond interchange which connects an east-west highway on the Interstate System, two 4-lane highways not on the Interstate System, and a 2-lane highway not on the Interstate System by providing a direct exit lane from the Interstate System; (B) to demonstrate the benefits of reducing traffic congestion in the immediate vicinity of a convergence of an east-west highway and a north-south highway on the Interstate System by construction of an additional lane; (C) to study the most cost-effective methods of reducing traffic congestion in the immediate vicinity of (i) a diamond interchange which connects an east-west highway on the Interstate System and 4-lane highway not on the Interstate System, and (ii) a nearby intersection of such 4-lane highway and a 2-lane service road; (D) to demonstrate the efficacy of reducing traffic congestion and improving traffic flow in the immediate vicinity of a highway on the Interstate System to connect such highway to a metropolitan airport terminal access road by construction of a direct access off-ramp link.

Paragraph (48) authorizes a highway project in Minden, Louisiana, to demonstrate methods of enhancing economic development by construction of a frontage road which provides Minden, Louisiana, alternative access to a highway immediately connecting to a highway on the Interstate System.

Paragraph (49) authorizes a project for research, development and implementation of a computerized transportation management system to assist the City of Anaheim, California, and adjoining jurisdictions in managing highway traffic congestion caused in part by an Interstate route passing through an area of concentrated population and commercial development to demonstrate the usefulness of such a system in reducing traffic congestion.

Paragraph (50) authorizes a highway project connecting the Isle of Palms, South Carolina, to the mainland to demonstrate the reduction in traffic congestion, improved emergency preparedness, and increased accessibility to a sea island by construction of a high-level fixed span bridge over a high-volume intracoastal waterway segment.

Paragraph (51) authorizes a highway project to demonstrate methods of improving highway safety by making improvements to a road providing direct access from the Fort Campbell Military Reservation to the City of Clarksville, Tennessee.

Paragraph (52) authorizes a highway project to reconstruction and rehabilitate a highway between Shenandoah and Clarinda, Iowa, to demonstrate methods by which improved highway transportation in an economically depressed rural area will increase economic activity in the rural area.

Paragraph (53) authorizes a highway project to expand a highway which connects with an Interstate route in the vicinity of Oceanside, California, with another Interstate route in the vicinity of Escondido, California, to demonstrate methods of reducing traffic congestion and accidents.

Paragraph (54) authorizes a highway project for preliminary engineering and design to construct a bypass highway to connect an east-west Interstate route in St. Charles County, Missouri, with the Interstate beltway around St. Louis, Missouri, to demonstrate methods of alleviating traffic congestion, especially commuter traffic congestion.

Paragraph (55) authorizes a highway project for construction of four grade separations on a four-lane bypass route in the vicinity of Jonesboro, Arkansas, to demonstrate methods of improving highway safety.

Paragraph (56) authorizes the construction of three highway projects in Illinois: (A) to reconstruct a segment of approximately 1.4 miles of a state route connecting to an Interstate route in the vicinity of Mt. Vernon, Illinois, to demonstrate methods of improving highway safety; (B) to upgrade a principal route through the village of Evansville, Illinois, to demonstrate methods of improving traffic flow; and (C) to improve a road leading to landmark in the vicinity of Alto Pass, Union County, Illinois, to demonstrate the methods of improving access to such a landmark and of enhancing tourism.

Paragraph (57) authorizes a highway project between Concord, California, and West Pittsburgh, California, to demonstrate methods of improving highway safety and traffic flow by lowering the grade of, realigning, and widening an existing highway on the Federal-aid primary system.

Paragraph (58) authorizes a highway project in Atlanta, Georgia, to demonstrate methods of improving highway safety and reducing traffic accidents by reconstruction of a 3.8 mile segment of Peachtree Industrial Boulevard between Interstate Route I-285 and the fork of Georgia State Route 141 as a 6-lane controlled access freeway with one-way frontage roads in each direction.

Paragraph (59) authorizes a highway project to reconstruct a highway on the Federal-aid primary system between Open Fork Road and Road Fork of Big Creek Road in Pike County, Kentucky, to demonstrate methods of improving highway safety in a mountainous area.

Paragraph (60) authorizes a highway project to demonstrate the economic growth and development benefits of reconstructing a segment of road in Madison County, Illinois, which serves a high-growth industrial area.

Paragraph (61) authorizes a highway project to extend a highway on the Appalachian development highway system between River View in Erwin, Tennessee, and Sam's Gap on the North Carolina-Tennessee border to demonstrate methods of improving transportation in a mountainous area.

Paragraph (62) authorizes a highway project for the construction of a parkway connecting to an Interstate route, in accordance with the recommendations to the New River Parkway Authority, in the vicinity of New River, West Virginia, to demonstrate the benefits to recreation, tourism, and industrial, economic and community development.

Paragraph (63) authorizes a highway project for the construction of approximately 30 miles of a two-lane road on the Federal-aid primary system between Kitanning and Brookville, Pennsylvania, to demonstrate cost-effective methods of improving rural highways to accommodate wider and longer trucks.

Paragraph (64) authorizes preliminary engineering and design for the construction of a highway connecting Aurora-Hoyt Lakes and Silver Bay, Minnesota, to demonstrate methods of reducing traffic congestion in and around a recreational area.

Paragraph (65) authorizes preliminary engineering and design for the reconstruction of the Chelyan Bridge in Kanawha County, West Virginia, to demonstrate methods of improving traffic flow in a rural area.

Paragraph (66) authorizes the construction of a road on an east-west Federal-aid primary route which connects Manteo and Whalebone, North Carolina, and traverses Roanoke Sound to demonstrate methods of improving tourism, commercial enterprise, and water and highway transportation.

Paragraph (67) authorizes the construction of a controlled access freeway which connects Interstate Route I-55 in the vicinity of Morton, Illinois, to demonstrate methods of improving highway safety and reducing traffic congestion.

Paragraph (68) authorizes the construction of an interchange which connects Interstate route I-80 and Sparks Boulevard in the City of Sparks, Nevada, to demonstrate methods of improving economic development and diversification, and eliminating traffic and highway safety hazards.

Paragraph (69) authorizes the Secretary to make a grant for construction of a ground access highway project to the Burbank-Glendale-Pasadena airport, California, to the airport authority to demonstrate methods of coordinating construction of ground access to an airport and construction of terminal and parking facilities at such airport.

Paragraph (70) authorizes preliminary engineering and design for a highway project to increase the capacity of a tunnel in the vicinity of an airport serving El Segundo, California, to demonstrate methods of mitigating increased traffic congestion which is projected to result from completion of a segment of the Interstate System.

Paragraph (71) authorizes preliminary engineering and design, environmental analysis, and implementation of environmental mitigation measures for a highway project to demonstrate methods of improving access to, and alleviating congestion on the Nimitz Freeway and its access roads, including access roads from Oakland International Airport and Alameda Island, California.

Paragraph (72) authorizes the construction of a north-south limited access trafficway of approximately 4 miles in length which will connect an east-west Interstate route to a reservoir and a university research park to demonstrate methods of reducing traffic congestion and facilitating the usage by motorists on the Interstate System of recreational facilities.

Paragraph (73) authorizes a highway project to relocate and reconstruction a 3.5-mile segment of U.S. traffic route 119 from the vicinity of the Uniontown Bypass at Chadville, Pennsylvania, to Pennsylvania Legislative Route 26082 in the vicinity of Fairchance, Pennsylvania, to demonstrate methods of enhancing the development of a major industrial site.

Paragraph (74) authorizes the construction of an interchange on an Interstate route which will provide access to Chambersburg, Pennsylvania, to demonstrate improved access and traffic congestion relief in the area.

Paragraph (75) authorizes the construction of an overpass over Interstate 10 in the vicinity of Beaumont, Texas, which will relieve traffic congestion on I-10 and provide direct access between the central business district and the west section of the City.

Paragraph (76) authorizes a highway project for construction of an access road from County Road 413 in St. Louis County, Minnesota, to a recreational complex on the Bois Forte Chippewa Reservation to demonstrate methods of providing jobs and enhancing economic development in a severely and chronically depressed area.

Paragraph (77) authorizes site selection, environmental studies, design and engineering for replacement or expansion of a bridge connecting Gloucester County with York County and the cities of Newport News and Hampton, Virginia, for the purpose of demonstrating methods of facilitating the resolution of Federal intra-governmental conflicts.

Paragraph (78) authorizes a highway project in Arcola, Texas, to demonstrate methods by which construction of a grade separation project between the intersection of two highways, State Highway 6 and Farm-to-Market Road 521, and a railroad crossing Missouri Pacific Railroad, improves traffic flow and highway safety at the intersection of these two important hurricane evacuation routes.

Paragraph (79) authorizes the completion of the construction of a previously authorized railroad-highway relocation project in Hammond, Indiana, to demonstrate methods of eliminating railroad-highway grade crossings. The Secretary shall reimburse the City of Hammond, Indiana, for any non-Federal funds used to advance any part of the railroad highway relocation project prior to the receipt of Federal funds.

Paragraph (80) authorizes a project for the relocation of the terminus of the Lockport Expressway (I-990) two miles from its present location at North French Road and construct an interchange at its new terminus at Millersport Highway in Erie County, New York, to demonstrate methods of enhancing highway safety and reducing traffic congestion and delays at the terminus of an Interstate route.

Paragraph (81) authorizes the remaining design work for a highway project for construction of a grade separation on a route on the Federal-aid primary system in the vicinty of Tampa, Florida, to demonstrate methods of relieving motor vehicle congestion resulting from the transportation of freight to and from areas for the transshipment of waterborne commerce.

Subsection (b) requires the Secretary to furnish Congress reports on the projects carried out under this section.

Subsection (c) provides authorizations for the demonstration projects contained in section 146.

Subsection (d) authorizes an additional $16 million in fiscal year 1987 through 1991 out of the general funds of the Treasury, to carry out the highway project on Route 219 in Johnstown, Pennsylvania, authorized by subsection (a)(3) to demonstrate methods of enhancing safety and economic development in areas of high unemployment.

Subsection (e) provides contract authority for the projects authorized in section 146 (except for subsection (d)) and also provides that the Federal share of project costs shall be 100 percent.

Section 145

Cumberland Gap National Historical Park, Virginia

This section provides that parkway funds shall be available to upgrade from 2 lanes to 4 lanes a highway providing access to the Cumberland Gap National Historical park in Virginia.

Section 146

Delaware River Bridges

This section incorporates the provisions of H.R. 4408, as introduced March 26, 1986, with changes to subsection (c). This section would allow the Delaware River Joint Toll Bridge Commission (Commission) to continue tolls on the existing Delaware Water Gap Bridge on I-80 and to impose tolls on the uncompleted bridge under construction on I-78. The section would also amend the Interstate Compact between the States of New Jersey and Pennsylvania to allow the Commission to use the tolls collected on its toll bridges for expenses of any of the bridges under its jurisdiction.

It is the Committee's intent that the provisions of this section be construed consistently with the interpretations in the letter of the Department of Transportation dated June 18, 1986. Most importantly, if there is any conflict between the language in the first four subsections and the language in the last subsection dealing with the changes to the Interstate Compact, the provisions in the first four subsections control.

Subsection (c) was revised from the language in H.R. 4408 to emphasize that nothing in the section is intended to give the Commission a special status under the General Bridge Act of 1906, the Act of August 21, 1935, and the General Bridge Act of 1946 (see generally, 33 United States Code Secs. 491-533). Specifically, 33 United States Code 526 provides that the Secretary of Transportation may prescribe "reasonable rates" for passage over bridges between states. As long as this provision applies generally to other Interstate bridges, it is the Committee's intent that it apply to the Commission's bridges as well. This subsection is not, however, intended to create a new or independent role of review and approval by any Federal agency. If the general review statutes were modified, this section should be read consistently with those other revisions.

Section 147

Highway Designation

Directs that a portion of a highway in Oklahoma be designated as "United States Highway 377."

Section 148

Bridge Naming

This section requires that the bridge crossing the Mississippi River on I-80 near Le Clare, Iowa, be designated as the "Fred Schwengel Bridge." Any reference to the bridge in law, map, regulation, document or record of the United States shall be referenced as the "Fred Schwengel Bridge."

Section 149

Study of Apportionment Formulas

This section requires the Secretary of Transportation to conduct a study of the apportionment and allocation of Federal financial assistance made available to the states out of the Highway Trust Fund (other than the Mass Transit Account) for substitute highway and transit projects under the Interstate transfer provision, the Federal-aid primary system, the Federal-aid secondary system, the Interstate System, the Interstate System reconstruction, bridge rehabilitation and replacement, hazard elimination, minimum allocation, and the railroad crossing program. Such study is to determine whether such funds are being apportioned and allocated equitably, taking into account relative needs of the states and relative amount of taxes generated within each state and paid into the Highway Trust Fund for highway purposes.

Section 150

Bridge Formula and Motor Vehicle Study

This section requires the Transportation Research Board of the National Academy of Sciences to submit to Congress a report on the effects of the bridge formula contained in section 127 of title 23, United States Code, specifying axle loading and axle spacings necessary to protect Interstate highway bridges within the overall gross vehicle weight prescribed by law. The report is to include assessment of costs and benefits of existing law as well as alternative means of achieving the same purposes, in terms of costs and benefits to business, governments and the general public. The Committee intends that the study focus particularly on the problems of compliance associated with short-wheelbase vehicles used for heavy hauling in such industries as construction and solid waste collection; this is a transportation activity in which configuration of longer vehicles with additional axles does not appear feasible in view of the need for vehicles to maneuver through relatively narrow streets. The study also should take into account the types, and their load-bearing characteristics, of most bridges found on the Interstate System. This provision does not modify either the bridge formula in existing law or the provision of section 127 grandfathering in all axle loadings on groups of two or more consecutive axles which states determine to have been lawful on the date of enactment of the Federal-Aid Highway Amendments of 1974.

Section 151

Study of Highway Bridges Which Cross Rail Lines

This section requires the Secretary of Transportation to conduct a comprehensive study and investigation of improvement and maintenance needs for highway bridges which cross Amtrak rail lines, principally in the Northeast corridor, and determine who is responsible for the repair and maintenance of the so-called "orphan" highway bridges. There are approximately 213 bridges for which neither Amtrak nor the states claim responsibility. Not later than thirty months after the date of enactment, the Secretary shall submit a report to Congress on the results of the study along with recommendations on how these needs can be addressed on a long-term and continuing basis in a cost-effective manner.

Section 152

Parking for Handicapped Persons

The Committee finds that handicapped motorists have experienced enormous difficulty in traveling among the states. Handicapped motorists who are allowed by law to use specially designated handicapped parking spaces in the state in which they reside are sometimes denied the same privilege in other states. The refusal of certain states to recognize the handicapped parking symbols of other states often results in large fines for handicapped motorists traveling outside of their state of residence.

The problems of non-reciprocity of handicapped parking symbols is particularly acute in states which experience a large influx of senior citizens in winter. Handicapped motorists who live near the border of a state also find it difficult to go to work, to the store, or to other places of business without serious difficulty. The Committee believes that if an individual is considered handicapped in one state, he or she should also be considered handicapped in any other state.

This section requires the Secretary of Transportation to study any problems encountered by handicapped persons in parking motor vehicles and whether or not each state should establish parking privileges for handicapped persons and grant to nonresidents of the state the same such parking privileges as are granted to residents. The Secretary is required to complete the study within 180 days of the enactment of this Act and report to Congress the results of the study on this matter.

If the Secretary determines that states should establish parking privileges for handicapped persons and grant to nonresidents of the state the same parking privilege as are granted to residents, the Secretary would be required to develop a model state law that would solve the deficiencies of current state handicapped parking laws.

In developing the uniform state law, the Secretary is required to consider the advantages of our commonly-found elements of handicapped parking laws which, if used in a uniform state law, would make it easier to ensure handicapped parking privileges reciprocity.

To encourage states to enact handicapped parking laws similar or identical to the uniform law drafted by the Secretary, the Secretary shall provide a copy of the uniform state law to each state and to Congress.

The Secretary shall annually report to Congress on the extent to which each state has adopted the proposed uniform state law. If state efforts to adopt the uniform state law are inadequate, the Committee may consider additional actions to resolve the inadequacies in state handicapped parking laws.

Section 153

Feasibility Study of Using Highway Electrification Systems

Since 1979, the Committee has followed the development work ongoing on Santa Barbara, California's Electric Bus Project. The Committee notes with approval the cooperation and funding that Santa Barbara, the California Department of Transportation (Caltrans), and UMTA have each provided this project, which to date has focused only on the transit application of roadway powered electrification.

In order to complement and build upon this existing program, this section directs the Secretary to participate in an effort coordinated by Caltrans to determine if a stronger automobile/highway orientation to this technology exists. Funding of $2,910,000 is provided for this effort.

Given the significant local contribution provided to date by both Santa Barbara and the State of California, and, given the broad, national benefit of this research effort, the Committee directs the Secretary to refrain from any and all efforts aimed at either requiring additional local matching funds for the activities listed in subsection (a) or imposing any grant conditions other than those contained in subsection (b). While the Committee has chosen not to require a local match, it firmly believes that the funding authorized under subsection (c) will serve as a nucleus of funding for a larger, overall program attracting contributions from other public agencies and the private sector.

It is the Committee's intent that the activities funded under this section extend from highway electrification to the related technology of highway automation. In addition to the construction of test facilities and land acquisition, funds authorized under this section may be used for engineering, design, development, testing, research, planning and economic studies.

Caltrans, as the designate recipient, will have lead responsibility on the effort. In making such a designation, the Committee assumes that Caltrans will collaborate with various other public and private sector representatives which have been participating in this development effort to date. The Committee expects Caltrans to take maximum advantage of this prior work, which continues under funding through the Santa Barbara project, by contracting with public and private agencies with expertise in these technologies for execution of the principal parts of this research and development effort. In view of current plans to utilize the Institute of Transportation Studies, University of California (UC/ITS), in developing the test facility and completing the Santa Barbara project, the Committee urges that collaboration with UC/ITS to be continued in execution of these efforts.

The Committee intends that the report on the results of this research effort called for under subsection (b)(2), include an examination of the long-term social and economic impact of highway electrification and automation technologies as applied on a large scale. Such an examination focusing on the Southern California region, prepared by the Southern California Association of Governments (SCAG), would be responsive to this requirement.

Section 154

Cost Effectiveness Study of Highway Upgrading

This section authorizes $1 million for a study to determine the cost-effectiveness of upgrading Route 219 in Pennsylvania and the 28-mile segment from Springville to Salamanca in New York to Interstate standards, the feasibility of partial finacing with toll revenues, of using reclaimed strip mining lands for the projects, and avoiding encroachment on sensitive environmental areas. The Secretary is directed to submit a report to Congress on the results of the study along with any recommendations within one year of the date of enactment.

Section 155

Bridge Management Study

This section directs the Secretary to conduct an investigation and study to determine whether the states should be required to establish comprehensive bridge management programs to assist in the development of priorities for bridge improvements. With the capability to establish priorities and anticipate workload, a state can effectively plan and budget for its bridge program. The Secretary shall submit a report to Congress on the results of the bridge management study together with any recommendations, not later than 180 days after the date of enactment of this Act.

Section 156

State Maintenance Program Study

This section directs the Secretary to enter into appropriate arrangements with the National Academy of Sciences to conduct a complete investigation of the appropriateness of establishing minimum Federal guidelines for maintenance of the Federal-aid primary, secondary, and urban systems similar to those established for the Interstate System. The Secretary shall report to Congress the results of the investigation and study along with any recommendations, not later than 18 months after entering into such arrangements.

Section 157

Highway Feasibility Study

This section authorizes the Secretary to carry out a study of the feasibility and necessity for constructing to appropriate standards a proposed highway along a route from Shreveport, Louisiana, to Texarkana, Fort Smith, and Fayetteville, Arkansas, and Carthage and Kansas City, Missouri. The results of the study shall be submitted to Congress not later than one year after the date of enactment of this Act and the study shall update the previous feasibility study conducted under section 143(b) of the Federal-Aid Highway Act of 1973.

Section 158

California Feasibility Study

This section directs the Secretary to study the feasibility and necessity of constructing a bypass highway around Sebestopol, California. The results of such study shall be submitted to Congress within 9 months and shall contain the Secretary's recommendations with respect to the location and design of such highway.

Section 159

New York Feasibility Study

This section directs the Secretary to study the feasibility and necessity of constructing a major inland highway route or alternative to New York Route 5 to connect Buffalo's central business district with the Southtowns. The Secretary is directed to submit a report to Congress on the results of the study along with any recommendations within one year of the date of enactment.

Section 160

Prohibition on Widening Certain Routes Through Historic District

This section prohibits the use of Federal funds for a highway project in or near the historic district in Hudson, Ohio, unless approved by the village council of Hudson, Ohio.

Section 161

Urban High Density Program

Technical modification to an urban high density highway project in Indiana. Provides no additional budget authority.

Section 162

Ferry Boat Service

Authorizes a ferry boat service study to study the feasibility of service on the Missouri River between Springfield, South Dakota, and Niobrara, Nebraska.

TITLE II—HIGHWAY SAFETY ACT OF 1987

Section 201

Short Title

This section provides that this title may be cited as the "Highway Safety Act of 1987."

Section 202

Highway Safety

This section provides authorization for appropriations out of the Highway Trust Fund for highway safety activities administered by the Federal Highway Administration and the National Highway Traffic Safety Administration.

Subsection (a)(1) provides authorizations for bridge replacement and rehabilitation of $1.755 billion per fiscal year for each of fiscal years 1987-1991. Under subsection (a)(2), projects for the elimination of hazards under section 152 of title 23, United States Code, are authorized at $170 million annually for FY 1987-1991.

Subsection (a)(3) provides authorizations for carrying out the highway safety programs under section 402 of title 23, United States Code, by the National Highway Traffic Safety Administration, in the amount of $123 million annually for FY 1988-1991.

Subsection (a)(4) provides authorizations for carrying out section 403 of title 23, United States Code, by the National Highway Traffic Safety Administration, in the amount of $33 million annually for FY 1987-1991.

Subsection (a)(5) provides authorizations for carrying out section 402 of title 23, United States Code, by the Federal Highway administration, in the amount of $10 million annually for FY 1987-1991.

Subsection (a)(6) provides authorizations for carrying out sections 307(a) and 403 of title 23, United States Code, by the Federal Highway Administration, in the amount of $10 million annually for FY 1987-1991.

Subsection (b) provides authorizations for carrying out section 402 of title 23, United States Code, by the National Highway Traffic Safety Administration, in the amount of $123 million for FY 1987; requires the obligation of not less than $20 million of such authorizations for the purpose of enforcing the national maximum speed limit; and extends until September 30, 1987 the requirement that each State spend not less than 8 percent of the amounts apportioned to it, for programs concerning the use of child restraint systems in motor vehicles.

Subsection (c)(1) requires the obligation of not less than $20 million annually out of the funds authorized for section 402 of title 23, United States Code, for FY 1988-1991, for the purpose of enforcing the national maximum speed limit.

Subsection (c)(2) requires each State to expend not less than 2 percent of the amount apportioned to it under section 402 of title 23, United States Code, for FY 1988-1991, for programs to encourage the use of safety belts by occupants of motor vehicles.

Subsection (d) limits the obligations for highway safety programs carried out by the National Highway Traffic Safety Administration under section 402 of title 23, United States Code, to $126,000,000 for each of fiscal years 1987-1991, and the obligations for highway safety programs carried out by the Federal Highway Administration under such section to $10 million for each of fiscal years 1987-1991.

Section 203

55 MPH Speed Limit

Subsection (a)(1) amends section 154(f) of title 23, United States Code, to establish a weighted formula for determining the compliance of the States with the national maximum speed limit. The formula assigns a weight to the percentage of vehicles in a State travelling in three speed ranges—above 55 but not above 60 mph, above 60 but not above 65 mph, and above 65 mph. It further distinguishes between limit access highway and other 55 mph highways by assigning a higher weight to the percentages of vehicles exceeding 55 mph on the other highways. The compliance score for a State is determined by adding the weighted value for limited access highways to the weighted value for other highways and dividing by 100.

The subsection further provides that if a State's compliance score exceeds 625, the Secretary shall reduce the State's apportionment of Federal-aid highway funds under each of sections 104(b)(1), 104(b)(2), and 104(b)(6) of title 23 in an aggregate amount of not less than 2.5 percent but not more than 5 percent of the amount to be apportioned for the following fiscal year, and not less than 5 percent but not more than 10 percent in the case of subsequent fiscal years.

The subsection further amends section 154(f) to define "55 mph highway" to include any undivided highway with a speed limit of 50 mph on the Federal-aid primary system in a State in which the statutory State maximum speed limit is 50 mph.

Subsection (3) provides that the amendments to section 154(f) apply with respect to compliance data collected after September 30, 1986, and reductions in apportionments based on such data.

Subsection (4) provides that in the case of any State for which apportionments are or have been withheld on the basis of data collected before the effective date of the amendments, the Secretary shall make the apportionment if data collected during the first fiscal year after the amendments are in effect show that the State is in compliance with section 154(f). The subsection further provides that the program shall be administered through the National Highway Traffic Safety Administration and that the amendments shall take effect not later than October 1, 1987.

Section 204

Alcohol Traffic Safety Programs

This section amends the eligibility requirements for an alcohol traffic safety grant under section 408 of title 23, United States Code, to permit states which do not meet the full criteria for basic grants to obtain modified basic grants under certain circumstances.

Subsection (a) adds two new subsections to section 408(e). Under new subsection (4), a State which is unable to suspend licenses with sufficient promptness would be eligible for a modified grant if the Secretary determines that the State is suspending licenses within 120 days of the citation and is making reasonable progress in further reducing the time before suspension. Under new subsection (5), a State which does not in all cases suspend a driver's license for intoxication, and which would therefore not qualify for a basic grant, may receive a modified grant if the Secretary determines that the State permits such drivers to retain their licenses only upon a showing of hardship, only to the degree necessary to relieve the hardship, and only in numbers not exceeding 20 percent of first offenders and 15 percent of repeat offenders.

Subsection (b) limits the amount of such modified grant to 20 percent of the amount apportioned to an eligible State for Fiscal Year 1983 under section 402 of title 23, United States Code.

Subsection (c) provides that the sums authorized for the Alcohol Traffic Safety Program shall be available until expended.

Subsection (d) provides for a series of conforming amendments.

Subsection (e) provides for a demonstration of certain drug and alcohol testing technology.

Section 205

School Bus Safety Measures

This section directs the Secretary to commission the National Academy of Sciences to conduct a study to determine the most effective means of protecting children who are transported in school buses and to report its findings and recommendations to the Secretary and to the Congress.

Five million dollars is authorized to be set aside, at the Secretary's discretion, for each of fiscal years 1989, 1990, and 1991 for grants to States that implement the school bus safety measures found by the Secretary, upon review of the Academy's findings and recommendations, to be the most effective in protecting the safety of children in or around school buses.

Section 206

Standards for Splash and Spray Suppression Devices

This section amends section 404 of the Surface Transportation Assistance Act of 1982 by providing that the Secretary shall not issue regulations on the performance and installation of splash and spray suppressant devices until the Secretary determines, after testing, that available technology can substantially improve the visibility of drivers and that the standards will protect the public from an unreasonable risk of death or injury caused by splash and spray from trucks.

The section also requires that the Secretary determine that there exist three or more unaffiliated manufacturers of devices meeting the standards to be established.

Section 207

Use of Reports as Evidence

This section prohibits the introduction into evidence of any priority listing of roadside or railroad-highway crossing hazards prepared pursuant to section 152 of title 23, United States Code (hazard elimination), and section 203 of the Highway Safety Act of 1973 (Railroad-Highway Crossing). This is to encourage greater accuracy and completeness in the compilation of such lists, by preventing these lists from being used in any judicial proceeding, thereby improving their quality as a basis for programming.

Section 208

Emergency Call Boxes

This section authorizes the use of hazard elimination funds under section 152 of title 23, United States Code, for the installation or replacement of emergency call boxes.

Section 209

Railroad-Highway Crossing Authorizations

This section provides authorizations of $140 million per year for each of the fiscal years 1987-1991 to carry out projects for the elimination of hazards at railroad-highway crossings under section 203 of the Federal-Aid Highway Act of 1973.

Section 210

National Driver Register Amendments

Subsection (a) of this section provides for a twelve-month extension for the Secretary to promulgate procedures for the orderly transition from the currently used recordkeeping system of motor vehicle driving records of individuals to the National Driver Register system. The Secretary is required to publish a notice of a proposed rulemaking six months prior to promulgation of the final rule.

Subsection (b) amends section 207 of the National Driver Register Act of 1982. It extends the implementation of the pilot test program by twelve months, requires the pilot program to be in operation within sixteen months after the pilot states are selected and requires a report to the Congress on the pilot test program within six months after the end of the program. The final report on the program, documenting the extent and level of participation in the Register and reporting on its effectiveness, shall be submitted not later than three years after the establishment of a fully electronic Register system.

Section 211

Highway Safety Program Amendments

This section amends section 402 of title 23, United States Code, in several respects. Subsection (a) changes "standards" to "guidelines" to allow more flexibility in State highway safety programs.

Subsection (b) deletes a provision for the waiver of standards.

Subsection (c) deletes paragraph (b)(1)(D), thereby eliminating the requirement that a State have a comprehensive driver training program as a condition for a grant under section 402.

Subsection (d) amends subsection (j) to direct the Secretary, through rulemaking and in consultation with the States, to determine those programs most effective in reducing accidents, injuries, and deaths. Only those programs meeting the criteria established under the rulemaking would be eligible to receive Federal funds under the section.

Section 212

Highway Safety Education and Information

This section amends section 209 of the Highway Safety Act of 1978 to direct the Secretary to conduct a national media campaign to inform the public of techniques, methods, and practices to reduce the number and severity of highway accidents. The Secretary is to begin this campaign not later than 180 days after the submission of reports on the pilot projects carried out under subsection (b) of section 209.

The section further provides that funds authorized by section 209 are not subject to obligation limitations and that such funds may not be used for any program conducted as part of the implementation of Federal Motor Vehicle Safety Standard No. 208.

Section 213

Railroad-Highway Crossing Needs Study

This section authorizes the Secretary, in consultation with the Association of American Railroads and the American Association of State Highway and Transportation Officials, to conduct a comprehensive study and investigation of national railroad-highway crossing improvement and maintenance needs. Not later than 30 months after the date of enactment, the Secretary shall submit a report to Congress on the results of the study along with recommendations on how those needs can best be addressed on a long-term and continuing basis in a cost-effective manner.

Section 214

Older Driver Study

This section directs the Secretary to commission the National Academy of Sciences to conduct a comprehensive study and investigation of problems which may lessen the safety and mobility of older drivers and to examine means of addressing these problems. The Academy is to report its findings to the Secretary and the Congress not later than 24 months after the date of enactment of the Act.

Subsection (d) directs the Secretary to develop a pilot program of highway safety improvements to enhance the safety and mobility of older drivers, and instructs the Secretary to encourage the States to carry out the pilot program with highway safety improvement funds. The Secretary shall report to Congress on the effectiveness of such program not later than three years after the date of enactment of the Act.

Section 215

Recission of Contract Authority

This section provides that $148 million of unobligated contract authority available for airport development and planning pursuant to section 505(a) of the Airport and Airway Improvement Act of 1982 is rescinded. This recission does not reduce the balance in the Airport and Airway Trust Fund.

TITLE III—FEDERAL MASS TRANSPORTATION ACT

Section 301

Short Title

This section provides that this title may be cited as the "Federal Mass Transportation Act of 1987."

Section 302

Letters of Intent; Multi-Year Contracts

Section 302(a) would amend section 3(a)(4) of the UMT Act to provide multi-year contract authority for certain long-term projects. The existing "letter of intent" concept would be deleted and replaced by a "multi-year contract" concept, but the procedural process would remain essentially the same as under current law. Thirty days advance notice of any such contract to the Committee on Public Works and Transportation of the House and the Committee on Banking, Housing, and Urban affairs of the Senate would continue to be required. Moreover, as under existing law, the amount stipulated in a multi-year contract to carry out a fixed guideway project must be sufficient to complete an operable segment. As under current law, an operable segment for the purpose of this section may be greater or lesser than a minimal operable segment defined in a project Environmental Impact Statement drafted pursuant to the National Environmental Policy Act. Should additional funds become available for a project, it may be committed as an addition to an operable segment. In addition, the amounts that may be made subject to a multi-year contract by the Secretary under this section for projects authorized by section 21(a)(2)(C) (i), (ii) (iii) or (iv) cannot exceed the total available authorizations made available therein, less an amount reasonably estimated by the Secretary to be necessary for grants under section 3 which are not covered by multi-year contracts or letters of intent which have been entered into before the date of enactment. Other commitments for funding which have been made prior to May 9, 1984, contingent upon subsequent, and as of that date, unmet preconditions, shall not be considered as committing funds when the Secretary determines under this section the amounts available for multi-year contracts.

The significant change under this section is that the Secretary would be able to enter into multi-year contracts that would obligate funds for fiscal year 1987, subject to the requirements specified herein and the obligation limitation contained in section 320(c), and take the first step in obligating funds from future year authorizations, subject to further Congressional review and approval, and subject to the amount so specified under section 320(b) for each fiscal year. Obligation of funds for fiscal year 1988 and future fiscal years is subject to annual Congressional review and approval of the Secretary's actions under section 303. Such a contract shall not be subject to any future availability of funds (except for the limitation relating to the amounts necessary to cover projects other than those covered by multi-year contracts, approved allocations under section 303 for fiscal year 1987 and subsequent fiscal years, the anti-deficiency provision in the Transit Account of the Highway Trust Fund, or any obligation limitation other than as set forth in section 21(a)(2)(F)).

In years other than FY 1987, funds are not available to finance grants and loans until the process provided for under section 3(i)(3) is completed with the enactment of a public law. Annually it is the clear intent of the Committee regarding multi-year contracts that funds can be obligated for a fiscal year only to the extent authorized for such fiscal year.

Section 302(b) provides for a series of conforming amendments to section 3(a) of the Urban Mass Transportation Act.

Section 302(c) would provide that this section shall take effect October 1, 1986, and shall not affect any letter of intent issued before that date.

Section 303

Annual Congressional Approval

Section 303 provides for an annual process that, except for FY 1987, must be undertaken before certain funds authorized by section 3 of the UMT Act may be made available. Within 30 days of enactment, and by January 20 of each year thereafter, the Secretary shall submit to the House Committee on Public Works and Transportation and the Senate Committee on Banking, Housing, and Urban Affairs a proposal recommending the amount under section 21(a)(2)(C)(iv) that should be made available for bus and bus-related activities, rail modernization, and the construction and extension of fixed guideway systems. Included in this transmittal shall be recommendations on amounts to be distributed among applicants for rail modernizations and fixed guideway construction and extension projects. The Secretary's transmittal must reflect any multi-year contracts entered into under section 3(a)(4) of the UMT Act, and for new starts and extensions, must be consistent with criteria established by section 305.

No funds may be made available under section 3 unless Congress acts upon, and the President approves, legislation relating to the Secretary's proposal. The legislation may allocate funds in a manner identical to that recommended by the Secretary, or may revise in any manner the distribution which was submitted.

Upon approval by law of the funding allocation passed by Congress, the Secretary shall make the legislated amounts available for the fiscal year approved and in a manner consistent with such law.

Section 304

Advance Construction

Section 304 would provide advance construction approval authority to the Secretary under sections 3 and 9 of the UMT Act and section 103(e)(4) of title 23, United States Code. This would be similar to the advance construction authority now available under the Federal highway program. Currently, applicants for UMTA capital assistance cannot be reimbursed by the Department for costs incurred on a project before the project is approved by the Secretary or before the Secretary permits the recipient to incur costs.

Section 304(a) would amend section 3 of the UMT ACT to permit applicants to be reimbursed for the Federal share of costs incurred locally on a project if the Secretary approves the project before costs are incurred and the project complies with all relevant Federal requirements. In addition, eligible costs may include interest earned and payable on local bonds if the proceeds of such issuances were applied to the project. To be eligible for reimbursement, such interest costs may not exceed the excess of the cost of the project at the time Federal reimbursement is sought over the project's actual costs.

Under section 304(a), the Secretary's advance construction approval does not mean that Federal funds must eventually be applied against the project. Rather, it means that local costs incurred remain eligible for Federal reimbursement if the Secretary decides to fund the project.

Section 304(b) would provide similar advance construction approval authority to the Secretary for the section 9 formula grant program. Under this section, the recipient must first have obligated all of its section 9 apportioned funds before it may seek advance construction approval for capital projects. In addition, the Secretary may grant construction approval only if an authorization is in effect for the future fiscal year at issue, and the advance construction authority granted may not exceed the recipient's expected apportionment under that future fiscal year. Costs eligible for reimbursement under this section include bond interest costs incurred in connection with the project, subject to the same limitations applicable under section 3 provisions.

Section 305

New Fixed Guideway Criteria

Section 305 amends section 3 of the UMT Act by adding a new subsection (k) relating to new fixed guideway or new extension projects.

Requests for Federal funding for new fixed guideway projects—or new extensions to existing systems—will be subject to careful evaluation by the Secretary and the Congress. Because it is expected that requests for funding of such projects will greatly surpass amounts available, it is essential that reasonable criteria be utilized to evaluate which of the projects are most deserving of Federal investment. Once determined, those projects should receive funding. Those new fixed guideways or extensions which are recommended for funding should be those, based on the results of alternatives analysis and preliminary engineering, which best contribute to the achievement of program goals, are cost-effective relative to other projects, and are supported by an acceptable degree of financial commitment from sources other than the UMT Act, including evidence of stable and dependable funding sources to construct, maintain and operate the proposed project, together with the remainder of the transit system in the urbanized area.

In determining a project's transportation cost-effectiveness, effectiveness measures should include but need not be limited to both the potential to attract new transit riders and the potential for reducing the travel time of existing riders. Moreover, a project's cost should include reasonable estimates of operating and maintenance costs in addition to total capital expenditures. Cost-effectiveness should be measured with respect to a future base condition. That base condition should correspond to the optional utilization of existing transit and highway facilities through reasonable and practical low-cost transit service, traffic engineering and other improvements.

The Committee believes that the project evaluation process should encourage maximum contributions from State and local as well as private sources. The Committee believes that the utilization of benefit assessment districts should be encouraged by these criteria, as such districts provide an assured base on private capital. The Committee also acknowledges the benefits of incorporating existing infrastructure as a technique of reducing costs and improving the cost-effectiveness of section 3 capital investments.

The Committee recognizes that a project is developed essentially in five sequential phases: system planning, alternatives analysis, preliminary engineering, final design and construction. With respect to commitments of section 3 funds, a project should be reviewed under the new starts criteria and may be selected for advancement at the conclusion of alternative analysis. The Committee expects that a low-rated project will not be advanced into preliminary engineering through a commitment of Section 3 funds, although preliminary engineering may be carried out with Section 9, or other funds at local discretion. All projects will be reviewed and rated according to the criteria at the completion of preliminary engineering. A decision to allow an agency to proceed with preliminary engineering does not indicate any commitment by the Federal Government with respect to construction. It is possible that an area may spend Federal funds or other funds for preliminary engineering and yet not be chosen for a final funding commitment due to their low rating compared to other projects or the limited availability of funding.

The Committee directs UMTA not to approve multi-year contracts or grants for fixed guideway projects when the Federal share of a project would exceed the uncommitted balance under the new start portion of the discretionary program. The uncommitted balance is considered that amount of funding currently authorized, less existing letters of intent, full-funding contracts, multi-year contracts and grant obligations. Any such commitment which has been predicated upon some subsequent and as yet unmet conditions shall not be considered as a commitment of funds when determining the amounts available for grant or multi-year contract purposes. At such time as the recipient has come into compliance with the preconditions, the commitment should be honored by UMTA when practicable.

With respect to the degree of non-Federal financing, the Committee recognizes that a number of cities will be competing for a limited amount of funding. Thus, the willingness of an area to request a smaller share of the cost of a project under this section may be taken into consideration. In addition, to differentiate among closely competing projects, the Department should consider factors relating to an area's ability to have stable and reliable sources of funds to maintain and operate the proposed system once it is built.

The guidelines developed by the Secretary should directly take into account the economic development effects of the project and the opportunity for joint development of project components, a concept the Committee believes Federal policy should encourage. They should also take into account other factors, such as the degree of community and local government support, participation of disadvantaged business enterprises, and other specific program and related social goals.

Section 306

Authorization of Appropriations for Interstate Substitution Program

Section 306 would provide authorization levels for the Interstate transfer-transit program. Once funds under this program are appropriated, an action which is required for this non-contract authority program, half are made available on the basis of a formula and half are available at the discretion of the Secretary. The formula funds may be made available only after Congress has approved the Interstate substitute cost estimate. This section would extend the program for fiscal years 1987, 1988, 1989, 1990 and 1991, and authorizes appropriations of "such sums as may be necessary" in order to accommodate funding level changes that may occur with respect to state changes in the division of funds between substitute highway and transit projects.

Section 307

Rates for Elderly and Handicapped Persons

Section 307 would permit New York City to continue to use its preferential fare system for elderly and handicapped persons which incorporates a free return ride upon payment of a generally applicable full fare in lieu of complying with the half-fare requirement in section 5(m) of the UMT Act, provided such system is available for use by all elderly and handicapped persons after 120 days after enactment.

Section 308

Financial Planning

Section 308 amends Section 8(a) of the UMT Act by providing that the local planning process shall include an analysis and development of long-term financial plans for regional urban mass transit improvements and the revenue available from current and potential sources to implement such improvements.

Section 309

Block Grant Program Amendments

Section 309(a) provides for added flexibility in the UMTA grant submittal and approval process, consistent with the original intent of the Section 9 program to facilitate the flow of formula funds. Specific language is added to section 9(e) which explicitly allows for the approval of grants for a partial program of projects.

The Committee recognizes that various types of transit capital projects as well as operating assistance projects may not necessarily be developed and finalized for submission simultaneously in a single grant request. The Committee wishes to ensure that funding for projects that are otherwise ready to proceed will not be delayed because another project contained in the required program of projects may not be ready for approval.

Section 309(b) permits the use of the additional amounts above the fiscal year 1985 levels of revenues generated from the sale of advertising and concessions by mass transportation properties to be credited toward the non-Federal share for capital or operating assistance. Each recipient of funds under Section 9 shall submit an annual report to the Secretary on the revenues derived from the sale of advertising and concessions.

Section 309(c) permits small urbanized areas with populations of two hundred thousand or less to use capital assistance funds apportioned under section 9 for operating assistance. In other words, no operating assistance cap would be applicable to these areas. This new flexibility for small urbanized areas is effective in fiscal years beginning after September 30, 1986.

Section 309(d) would extend through fiscal year 1991 the provision authorized under section 9(1) of the UMT Act, which permits section 9 recipients to trade in 3 dollars of that portion of their section 9 apportionment that can only be used for capital expenses for 2 dollars of operating assistance.

Section 309(d)(1) would amend section 9(1) to restrict the ability of a recipient to use the trade-in provision in any fiscal year in which it receives a section 3 discretionary capital grant. Under section 309(d)(1), a recipient which receives a section 3 grant could only carry out a section 9(1) transfer if the section 3 grant was for emergency repairs, made pursuant to a letter of intent or full funding contract which predates the enactment of section 309(d)(1), or is for a project which has a high priority on the plan prepared by the Secretary for allocation of section 3 funds in the year the transfer occurs. Section 309(d)(1) provides further that any recipient of funds which carried out such a transfer of funds in fiscal year 1983, and which received Federal assistance under section 1139(b) of the Omnibus Budget Reconciliation Act of 1981, which provided transition assistance for operators of commuter rail operations previously provided by the Consolidated Rail Corporation, shall continue to be eligible to transfer under this section. Such a recipient would be restricted in the percentage of the total available section 3 funds it may receive in any year in which it utilizes the transfer, to the percentage it received in fiscal year 1983.

Section 309(d)(2) would extend the transfer option through fiscal year 1991 and amend the existing requirement for recipients which avail themselves of the trade-in provision to certify that they will not need to use and will not use capital assistance for operating assistance in fiscal year 1985. Under section 309(d)(2) recipients would certify that they would not need to use capital assistance for operating assistance after fiscal year 1991.

Section 309 (d)(3) would limit the uses of the discretionary funds that the Secretary receives as a result of the trade-in provision to capital bus and bus-related activities.

Similarly, section 309(d)(4) would amend section 3(a) of the UMT Act to restrict a recipient's ability to receive a section 3 grant in a fiscal year in which it carries out a transfer under section 9(1). If a recipient has carried out a section 9(1) transfer, it could only receive a section 3 grant for emergency repairs, made pursuant to a letter of intent or full funding contract which predates the enactment of section 309(d)(4), or for a project which has a high priority on the plan prepared by the Secretary for allocation of section 3 funds in the year the transfer occurs. Any recipient which utilizes the transfer and remains eligible for section 3 funding in the same year for a project which the secretary deems to be of high priority, must agree that the Federal share of the project for which section 3 funding is received shall be reduced by the amount of capital assistance transferred under section 309 of this Act.

Section 309(e) expands the flexibility of the program by allowing a governor to transfer amounts appropriated for urbanized areas of less than 200,000, to any urbanized or non-urbanized area in the State upon approval of responsible local elected officials and publicly owned operators of mass transportation services in each area to which the funding was originally appropriated. However, this subsection permits a transfer without the approval of such officials and operators if no approvable grant application is pending within 90 days of the time such amounts would lapse.

Section 309(f) includes a requirement that formal notice of the apportionment of section 9 and section 18 formula funds be published by UMTA not later than 10 days following the date on which such funds are appropriated or the start of each fiscal year, whichever is later, subject to the enactment of appropriations. The new timing requirement is being included to provide UMTA grantees with as much notice as is possible regarding funding levels in order to facilitate budgeting and programming, and, ultimately, to improve the flow of UMTA funds.

Section 309 (g) and (h) provide technical and conforming amendments.

Section 310

University Transportation Centers

Section 310 would increase contract authority to fund the university transportation centers program authorized under section 11(b) of the Urban Mass Transportation Act. For each fiscal year from fiscal year 1987 through fiscal year 1991, section 310 would provide $5,000,000 from the Mass Transit Account of the Highway Trust Fund and $5,000,000 from the Highway Trust Fund other than from the Mass Transit Account. These amounts would not be subject to any obligation limitations.

Section 310 also amends section 11(b) to provide more explicit criteria which a recipient of funds must meet. Further, it establishes a national advisory council to coordinate research carried out by grant recipients, to disseminate results of the research, to act as a clearing-house between grant recipients and the transportation industry, and to review and evaluate programs carried out by grant recipients.

Section 311

Sole Source Procurements

Section 311 is intended to enhance the ability of section 9 grant recipients to operate in an efficient manner by permitting the procurement of associated capital maintenance items by contracting directly with the original manufacturer or supplier of the item to be replaced without prior Secretarial approval if the recipient first certifies to the Secretary that the manufacturer or supplier is the only source of the item, and that the price is no higher than that paid for such item by like customers.

Section 312

Procurement of Engineering and Design Service

Section 312 brings procurement of engineering and design services for mass transit projects into conformity with Title IX of the Federal Property and Administrative Services Act of 1949, which requires qualifications-based selection of these services when they are procured by Federal agencies for any project except grant-in-aid projects, as they are not direct Federal procurements. Under the new section, the Federal selection procedures or equivalent State qualifications-based selection requirements for selecting firms for program management, construction management, feasibility studies, preliminary engineering, design, architectural, engineering, surveying, mapping, or related services, shall apply to such contracts awarded or administered by recipients of funds authorized by this Act.

Section 313

Limitations Regarding South Africa

Section 313 amends section 12(b) of the Urban Mass Transportation Act of 1964, relating to limitations on contract awards. This amendment will allow for the establishment of limitations on the awarding of contracts concerning South Africa under specific conditions. Any recipient of a grant under this Act will be permitted to prohibit or restrict the awarding of contracts to businesses which conduct business in South Africa. Competitive bid procedures will continue to be required for the awarding of project contracts. However, if the lowest bidder does not comply with the terms and conditions put forth by the recipient of a grant under this Act, the next lowest bidder who complies with these terms will be awarded the contract. Any contract limitations established by the recipient of a grant may be enforced only after an agreement has been reached with the Secretary. This agreement will ensure that any increase in project costs which results from the contract requirements established by the recipient of a grant will be absorbed by the grant recipient. This section permits grant recipients the flexibility to enact laws restricting or prohibiting the awarding of contracts to businesses which conduct business in South Africa. No additional costs will be insured by the Federal Government if such laws are enacted.

Section 314

Bus Remanufacturing and Overhauling of Rolling Stock

Section 314(a) amends the definition of construction in section 12(c) of the UMT Act to make clear that a bus remanufacturing project which extends the economic life of a bus eight years or more is eligible for capital assistance under the UMT Act.

Section 314(a) also amends the definition of construction in section 12(c) of the UMT Act to clarify that overhauls of transit rolling stock are eligible for capital assistance under the UMT Act, including the section 3 and section 9 programs, even though the overhauls do not extend the useful life of the rolling stock.

Section 314(b) expands the coverage of "associated capital maintenance items" under section 9 for rolling stock by reducing the minimum value of related equipment and materials from 1 percent to ½ percent of the current fair market value of the rolling stock for which the equipment and materials are to be used. The definition is also expanded to include a project for the reconstruction (by the grant recipient's employers or by contract) of any equipment and materials that would otherwise qualify as an "associated capital maintenance item" after construction.

Section 314(c) would mandate an 80 percent Federal match for any capital project carried out under section 9.

Section 314(d) brings the maintenance requirements of section 3 into line with the stronger mandatory maintenance requirements of section 9.

Section 314(e) provides technical and conforming amendments.

Section 315

Limitation on Private Enterprise Participation

Section 315 clarifies that the UMT Act is not to be interpreted in a manner to allow the Secretary to impose specific requirements on grant recipients and transit service providers respecting levels of competitive bidding or private enterprise participation they must achieve in the provision of mass transit services and functions. This section also clarifies that the UMT Act shall not be construed in a manner to infringe on the rights of recipients to determine the extent and amount of mass transit services and functions to be carried out by private enterprise. Local decision makers and not the Secretary shall decide who the service or function provider will be and the extent and amount of mass transit services and functions that will be carried out by the private sector. While grant applicants are expected to involve the private sector in the development of their programs and projects, the Committee believes such decisions are best made at the State and local level and should not be influenced or determined by specific Federal requirements.

The Committee intends that the private sector will retain the opportunity that continues in force under sections 3, 8, and 9 of the UMT Act to participate "to the maximum extent feasible."

Section 316

Bus Testing Facility

The Committee believes that when Federal funds are used in the procurement of a bus, the bus model should have first been tested to ensure that it will be able to withstand the rigors of transit service.

Only new model buses must be tested. A new model bus is meant to mean the first ten buses off the production line that are built for delivery to a U.S. transit authority and: (1) are of a new design that has not been used in transit service before, or (2) a modified bus, i.e., one which has been used in transit service in the U.S., but is now being produced with a distinctly different component or components.

The Committee believes that a bus testing facility shall be established by renovating a facility in Altoona, Pennsylvania which was constructed, in part with Federal funds, to train rail personnel.

The Secretary shall enter into a contract with a qualified person to operate and maintain the facility. The person operating the facility will collect fees to operate and maintain the facility with the Secretary approving the rates charged.

The Urban Mass Transportation Administration shall establish guidelines for the facility using the Urban Mass Transportation Administration report "UMTA-IT-06-0219-09-1-First Article Transit Bus Testing Plan" as their guideline.

Section 317

Audits of Bus Purchases

This section would amend section 12 to require an independent pre-award and post delivery audit for any grant for the purchase of transit rolling stock use to carry passengers in revenue service to assure compliance with Federal motor vehicle safety standards, Buy American requirements, and adherence to bid specifications requirements.

In providing for independent pre-award audit of a vehicle's compliance with safety requirements, Buy American and bid specifications, it is the Committee's intent that rolling stock produced for other transit agencies and records of transactions involving that rolling stock be sufficient for these audits.

Section 318

Protection of Private Contracting Rights

Section 318 of the House bill is a clarifying amendment to section 13(c) of the UMT Act. It provides that the labor protection arrangements under section 13(c) may not restrict or limit the rights of the recipient of UMTA assistance to enter into a contract or other arrangements for the provision of mass transportation services by private entities.

Section 319

Federal Share for Elderly and Handicapped Projects

The Committee continues to believe that recipients should be encouraged to provide service that is accessible to the elderly and the handicapped. This section provides for a 95 percent Federal share for those capital projects funded with Federal assistance under Section 3, 9, or 18, which are not required by Federal law.

Section 320

Authorizations

Section 320 would provide authorizations through fiscal year 1991 to carry out various provisions of the Urban Mass Transportation Act. In addition, this section would provide limitations on the available contract authority for specific activities within the section 3 discretionary grant program as well as limitations for section 8 planning activities, section 16(b) activities to meet the special transportation needs of elderly and handicapped persons, and section 4(i) activities to implement innovative methods and techniques.

Section 320(a) would provide authorizations from the general fund, to carry out sections 9 and 18, of $2,100 million for fiscal year 1987, $2,150 million for fiscal year 1988, $2,200 million for fiscal year 1989, $2.250 million for fiscal year 1990, and $2,300 million for fiscal year 1991.

For fiscal year 1987, section 320(b) would make available a minimum of $100,000,000 for section 3 bus and bus-related activities; $405,000,000 for section 3 rail modernization projects; $405,000,000 for section 3 new start and extension projects; $100,000,000 for general section 3 activities; $45,000,000 for section 8 planning activities; and a total of $35,000,000 for section 16(b) and section 4(i) activities. For each of the fiscal years 1988, 1989, 1990 and 1991, section 320(b) would make available a minimum of $170,000,000 for section 3 bus and bus-related activities; $680,000,000 for section 3 rail modernization projects; $680,000,000 for section 3 new start and extension projects; $170,000,000 for general section 3 activities; $50,000,000 for section 8 planning activities; and a total of $40,000,000 for section 16(b) and section 4(i) activities. These authorizations would be funded from the Mass Transit Account of the Highway Trust Fund. It is the Committee's intent that the amount of contract authority provided for the authorizations contained in this subsection not exceed the amounts specified for each fiscal year.

Section 320(c) would stipulate that funds made available from the Mass Transit Account would remain available until expended. It would also stipulate that the maximum amount of contract authority obligated by the Secretary from the Mass Transit Account, except for obligations under sectios 9A and 11(b), cannot exceed $995 million for FY 1987 and $1,795 million for each of the fiscal years 1988, 1989, 1990, and 1991. The maximum limitation set forth in section 320(c) would exceed the minimum level set forth in section 320(b) by $5,000,000 in each fiscal year 1988, 1989, 1990 and 1991. The difference between these amounts would enable the Secretary to draw down on current unobligated balances.

For research, training and administration, section 320(d) would authorize from the general fund $50 million for each fiscal year 1987, 1988, 1989, 1990 and 1991.

Sections 320 (e) and (f) provide technical and conforming amendments.

Section 321

Project Management Oversight

Section 321 authorizes up to one-half of one percent of the annual authorizations for section 3 discretionary programs, section 9 and section 18 formula funds, and funds appropriated to construct major public transportation projects substituted for Interstate segments pursuant to section 103(e)(4) of title 23, United States Code, to be made available to UMTA to contract directly with independent consultants to provide construction management oversight on project construction.

This section would allow the Secretary to use grant program funds to contract directly for construction management oversight on these major capital projects. Such contracts could be for individual projects or for groups of projects, as the Secretary deems appropriate. They would be funded by ½ of 1% of the funds available under each of the following programs: Sec 3, 9, 18 and interstate substitute, with a 100% Federal share. In addition to having a direct reporting relationship with the consultant performing construction management oversight as under the current arrangement, UMTA would have a direct contractual relationship with the consultant. This should allay fears that the construction management oversight process may be compromised by involving the recipient.

Section 322

Bicycle Facilities

Section 322 makes eligible and provides for a 90 percent Federal share for bicycle transit projects to be funded under Section 4, 9, or 18 of the UMT Act. Projects which are used to provide access for bicycles to mass transit facilities, provide shelters and parking facilities for bicycles in or around mass transit facilities, or to install racks or other equipment for transporting bicycles on mass transit vehicles.

Section 323

Transit Technical Amendments

Section 323 would make several technical amendments to the Urban Mass Transportation Act and the Surface Transportation Assistance Act of 1982.

Section 323(a)(1) would correct a typographical error by substituting "approval" for "approach" in section 5(h)(1) of the UMT Act.

Section 323(3)(2) would correct another typographical error by substituting "section" for "action" in section 5(j)(1) of the UMT Act.

Section 323(a)(3) extends a provision applicable to section 5 funds to section 9 funds.

Section 323(a)(4) would correct section 9(1)(3) of the UMT Act by substituting "1984" for "1983", and thereby removing a requirement for the Secretary to consider a non-existent apportionment under section 9.

Section 323(a)(5) would designate a second section 16(c) in the UMT Act as section 16(d).

Section 323(a)(6) would remove an unnecessary "; and" in section 17(d) of the UMT Act.

Finally, section 323(b) would remove an unnecessary "(a)" in section 303 in the Surface Transportation Assistance Act of 1982.

Section 324

Los Angeles Metro Rail Project

This section would direct the Secretary to enter into a multi-year contract with the Southern California Rapid Transit District for funding to completion the Minimum Operable Segment-1, and to complete the locally preferred Minimum Operable Segment-2 alternative of the Downtown Los Angeles to the San Fernando Valley Metro Rail Project. The contract shall include at least $110 million in fiscal year 1987 and at least $190 million in each of fiscal years 1988, 1989, 1990, and 1991. It is the Committee's intent that this section, in and of itself, does not provide contract authority in excess of the amounts specified in section 320(b), and further, that effective for fiscal year 1988, the obligation of funds in any fiscal year is contingent upon their approval each year under section 303 of this Act.

Section 325

Transit Bridge Lanes Project

This section would direct the Secretary to enter into a multi-year contract with the Mississippi River Bridge Authority of the Louisiana Department of Transportation and Development for funding to completion transit lanes on the Greater New Orleans Bridge No. 2. The contract shall include $18,750,000 in fiscal year 1988. It is the Committee's intent that this section, in and of itself, does not provide contract authority in excess of the amounts specified in section 320(b), and further, that effective for fiscal year 1988, the obligation of funds is contingent upon their approval under Section 303 of this Act.

Section 326

Increased Operating Assistance During Construction of Interstate Project

Section 326 allows the Fort Lauderdale and Miami, Florida, urbanized areas to exceed the amount of the Section 9 apportionments which they would otherwise be entitled to use for operating assistance beginning in fiscal year 1988 by a total of $4.4 million annually during those fiscal years in which onsite construction is being carried out on I-95 in Dade, Broward and Palm Beach Counties. This increased operating assistance may only be used to operate commuter rail service, the need for which will be enhanced during periods of construction on the Interstate segment.

Section 327

Feasibility Study

This section authorizes the Secretary to make a grant to study the feasibility of constructing and operating an electric trolley bus line using technology being developed for the Santa Barbara transit system.

Section 328

Feasibility Study—Abandoned Trolley Service

This section directs the Secretary to conduct a study, in cooperation with the City of Philadelphia, on the feasibility of restoring light rail trolley service to corridors on which that service had previously been provided but subsequently abandoned. The feasibility study shall be completed within one year from the date of enactment.

Section 329

Comprehensive Transit Plan

This section directs the Secretary, in cooperation with the Virgin Island Department of Public Works, to analyze and study the mass transit needs of the Virgin Islands and develop a comprehensive mass transit plan which is to be transmitted to the Congress not later than one year after date of enactment of the Act.

Section 330

Bus Carrier Certificates for Recipients of Governmental Assistance

Section 330 amends subsections 10922(c) (1) and (3) of title 49, United States Code. The intent is to clarify entry policy for interstate motor carriers of passengers.

Subsection 330(a) amends subsection 10922(c)(1) by revising that subsection so as to clarify the entry tests to be used by the Interstate Commerce Commission (Commission) for interstate motor carriers of passengers. The tests are set forth in subparagraphs (A) through (D) of section 10922(c)(1).

Section 10922(c)(1)(A) establishes the entry test for regular route operations for persons (as defined in title 49), including private recipients of governmental assistance (as defined in subsection 10922(c)(1)(F)(ii)). The entry test is that the person or private recipients must be fit and that issuance of the certificate is consistent with the public interest.

Section 10922(c)(1)(B)(i) establishes the entry test for charter and special operations for private recipients of governmental assistance. The test is identical to the test in subsection (c)(1)(A).

Section 10922(c)(1)(B)(ii) establishes the entry test for charter and special operations for persons other than private recipients of governmental assistance. The test is fitness, only. The burden of proof for fitness is upon the applicant.

Section 10922(c)(1)(C) establishes the **entry test for charter and special operations for public recipients of governmental assistance (as defined in section** 10922(c)(1)(F)(i)). There are two entry tests. One is for interstate service within the area in which mass transportation services are provided. Here, the test is fitness only. The burden of proof for fitness is on the applicant. The second test is for interstate service beyond the area in which mass transportation services are provided. The second test is a two-prong test. First, the applicant must be fit, willing and able. And second there must not be any persons who are providing or who are willing and able to provide the service sought to be performed by the public recipient. The new test for public recipients of governmental assistance is meant to preclude them from acquiring interstate charter rights beyond the areas in which they provide mass transportation services. Under the new test, they will be able to secure charter authority only if no person or private recipient is providing the service or is willing and able to provide the proposed service. In almost every circumstance, this will preclude the public recipient from securing new interstate charter authority. This provision in no way alters any requirements imposed upon a public recipient by the Urban Mass Transportation Act or any regulations issued pursuant thereto.

Section 10922(c)(1)(D) establishes the entry test for public recipients of governmental assistance for regular route authority. The test is fitness and that issuance of the certificate is consistent with the public interest. The burden of proof for fitness is on the applicant. The burden of proof on the public interest test is on the person objecting to the issuance of the certificate.

Section 10922(c)(1)(E) defines a public recipient as a person. This is done to assure that where States and municipalities operate or seek to operate a bus service they are covered by the necessary provisions of Title 49. Although it is clear that most public boards and public corporations are subject to the pertinent provision of Title 49, there is some question as to whether States or subdivisions thereof are. This is meant to resolve the issue.

It should be noted here that subsection 12(f) of the Urban Mass Transportation Act provides a process whereby a State or subdivision thereof may be granted an exemption from regulation by the Interstate Commerce Commission for mass transportation services. The new entry provisions do not change the availability of that exemption.

Section 10922(c)(1)(F) denies private recipients and public recipients of governmental assistance.

Section 330(b) amends section 10922(c)(3) of title 49, United States Code. It does so in two ways. First, it adds a new subparagraph (E) to section 10922(c)(3). Subparagraph (E) requires the Commission to consider a new criterion in reaching a determination of public interest. This criterion is the amount and extent of governmental financial assistance that has been given or will be given to the applicant for the purchase or operation of buses. It is, of course, only relevant where a public interest determination is required to be made by the Commission, and its major use will be where an applicant is a private recipient of governmental assistance.

The new provision simply adds another factor to the public interest criteria which must be considered by the Commission in conjunction with other public interest criteria already mandated.

Subsection (b) also adds language that pertains solely to applications by public recipients of governmental financial assistance for interstate regular route service pursuant to new subparagraph (D) of section 10922(c)(1). This permits the Commission to consider the status of a protestant in this type of application proceeding. It is meant to afford such protestants extra consideration where a public recipient's proposed operation will competitively infringe upon the existing operations of a person or private recipient of governmental assistance. Here again, it is only one factor for consideration, and it, in and of itself, should not be determinative of the outcome of the application proceeding.

Subsection (c) is a conforming amendment.

Section 331

Utilization Requirement for Certificates Authorizing Interstate Bus Operations

Section 331 amends section 10922(c) (2) of title 49, United States Code. This amendment requires that a condition be attached to all certificates that are issued by the Interstate Commerce Commission (Commission) which authorize intrastate regular route bus operations. The condition limits the authority of the bus carrier to provide intrastate service on only those routes over which the bus carrier is conducting interstate operations.

The Bus Regulatory Reform Act of 1982 conferred authority upon the Commission to issue intrastate operation rights for regular route service to interstate bus carriers, provided the service was to be provided on the bus carrier's authorized interstate regular routes. The purpose of conferring that authority upon the Commission was to eliminate State "closed door" policies and to prevent any reimposition of those policies. The "closed door" policy imposed costly restrictions upon the carriers and impaired service to bus patrons. Plainly, it was not in the public interest.

The power conferred upon the Commission is limited, that is, the Commission may not grant intrastate operating authority where there is no interstate nexus. Consequently, it can only be used to allow intrastate operations on an interstate route on which the carriers have or will have authority to provide interstate service. Moreover, the interstate service must be a substantial bona fide interstate service and it must involve acutal service in more than one State.

Thus, it should now be clear to the Commission that its authority to grant intrastate operating rights is restricted to those situations where the bus carrier has or intends to provide substantial interstate service. Where a carrier has already acquired intrastate authority, it must be conducting actual interstate service on the route. Any carrier that does not provide interstate service on the route in question should not be able to retain the Commission-conferred intrastate authority, but it should be required to obtain the intrastate authority from the appropriate State.

The Commission in determining whether or not the new condition is met must find that there is in fact substantial interstate service on the route; however, the interstate and intrastate service need not be identical nor must they be provided in the same vehicle. Finally, there must be actual interstate service in more than one State.

The preemptive authority in the Bus Regulatory Reform Act was given to the Commission so as to eliminate existing wasteful restrictions imposed upon the carriers and the public. If a carrier desires to provide only intrastate service on a route, it must seek that authority from the appropriate State. If a carrier is providing only intrastate service on a route, it must hold the requisite authority from the State in which the route in question is located.

Finally, the Committee with this amendment intends to clarify the intent of section 10922(c)(2) as enacted. The Commission does have the power to grant intrastate authority and it should continue to do so, but it should do so only where it is consistent with Congressional intent.

TITLE IV—UNIFORM RELOCATION ACT AMENDMENTS OF 1987

Section 401

Short Title

Provides this title may be cited as the "Uniform Relocation Act Amendments of 1987."

Section 402

Definitions

402(a)

Eliminates references in the definition of a Federal agency to the National Capital Housing Authority and the District of Columbia Redevelopment Land Agency. These entities are included in the new definition of "State Agency", as having power of eminent domain. The definition is also amended to include any person with the Federal power of eminent domain.

402(b)

Adds to the definition of "State Agency" any entity that has State power of eminent domain. This brings under the Act the displacing activities of private development corporations and public utilities where displacement occurs as a result of a federally funded program or project.

Limits the applicability of the Act by defining the term "Federal financial assistance" to exclude programs involving a mortgage interest subsidy to a person which is used to purchase a private residence.

402(d)

Amends the definition of a "displaced person" to include certain persons, businesses and farm operations displaced by activities other than acquisition—namely rehabilitation, demolition and other displacing activities prescribed by the Lead Agency, which would entitle such persons to major benefits under the Act.

Comparable Replacement Dwelling

402(e)

"Comparable replacement dwelling" means any dwelling that is decent, safe and sanitary; adequate in size to accommodate the occupants; functionally equivalent and substantially the same as the acquired dwelling with respect to the number of rooms and living space; within the financial means of the displaced person; in an area not subject to unreasonable adverse conditions; and in a location generally not less desirable than the displaced person's dwelling with respect to public utilities, facilities, services and the displaced person's place of employment.

Displacing Agency

402(e)

"Displacing agency" includes Federal and state agencies with the power of eminent domain. The definition also covers projects advanced by private parties without the power of eminent domain if the project is undertaken pursuant to a Federal or Federally-assisted program or project and results in a person's permanent displacement.

Lead Agency

402(e)

The Department of Transportation is the agency designated to promulgate uniform rules implementing the Act that every Federal agency must follow.

Appraisal

402(e)

"Appraisal" is defined to mean a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion of value of an adequately described property as to a certain date, supported by relevant market information.

Business

101(7)(D)

Corrects a technical oversight to insure that all displaced businesses, to include outdoor advertising displays, may receive the additional moving or relocation benefits authorized by this bill under section 202 of the Act.

Section 403

Certification

Allows heads of Federal agencies to discharge their responsibilities under the Act by accepting a certification from a state agency that it will perform such responsibilities in accordance with State laws, regulations, directives and standards which will accomplish the purpose and effect of the Act and regulations issued thereunder. Prior to accepting a certification, the Federal agency must provide interested parties with an opportunity for public review and comment and consult with interested local governments. Further, the head of the lead agency, in coordination with the other Federal agencies whose programs are subject to the Act, is required to monitor and review the enforcement and compliance of any state agency certification accepted under this section and to report to Congress thereon on a biennial basis.

Paragraph (4) authorizes the Federal agency to withdraw its approval of the state certification, in whole or in part, if the state agency fails to comply with its certification or state law.

Section 404

Declaration of Findings and Policy

Provisions of existing law which establish the Act's policy to provide for fair and equitable treatment for persons displaced as a result of Federal or Federally-assisted programs or projects so that they don't suffer disproportionate injuries or hardship is retained essentially unchanged. The bill adds a subsection of congressional findings declaring that displacement can be caused by a number of activities, including rehabilitation, demolition, code enforcement as well as acquisition; that relocation policies must assure fair, uniform and equitable treatment by Federal, state and local agencies of all affected persons and assure equal treatment of persons in essentially similar circumstances; and that minimizing the adverse impact displacements have on businesses is essential to maintaining the social and economic wellbeing of communities. The bill includes additional policy statements promoting minimization of waste, fraud and mismanagement and a reduction in unnecessary administrative costs borne by states and state agencies. Also, the bill intends that activities under the Act to improve the conditions of the poor be coordinated with existing housing programs.

Section 405

Moving and Related Expenses

The House bill makes four changes in section 202. First, the bills adds a new provision to provide additional compensation for reasonable expenses, up to $10,000, necessary to reestablish a farm operation, non-profit organization or small business at its new site.

Second, the bill eliminates the specific fixed moving costs schedule for tenants and homeowners (up to $300 moving cost, $200 dislocation allowance to cover incidental moving expenses) which could be chosen in lieu of actual moving expenses, and substitutes an unspecified moving expense and dislocation allowance to be determined according to a schedule established by the lead agency.

Third, the bill raises the $10,000 ceiling in existing law on the amount a displaced business, non-profit organization or farm operation may receive in lieu of itemized expenses for moving and other expenses (property loss and searching expenses) to $20,000, and the minimum amount is lowered from $2,500 to $1,000.

Finally, the bill deletes the requirement that the amount paid in lieu of itemized expenses under this section must be equal to the average annual net earning of a business or farm operation in favor of criteria to be established in lead agency regulations subject to the same limits. Also eliminated is the prohibition against payment if relocation can occur without loss of patronage or if they are part of an enterprise having at least one other business establishment not being acquired.

Section 406

Replacement Housing for Homeowners

Raises the ceiling on relocation payments for comparable replacement housing from $15,000 to $22,500 and changes the formula to be used to compute the mortgage interest differential payment. The provision would also require that the displaced person purchase and occupy a new dwelling within one year after final payment for the acquired dwelling or the date on which he was provided referrals to replacement housing, whichever is later.

Section 407

Replacement Housing for Tenants and Certain Others

Increases the current $4,000 payment ceiling to $6,000 for comparable rental units and maintains the period of rental subsidy at four years. In addition, the bill explicitly requires that a payment to a low-income displaced person take into account that person's income. Further, the displacing agency may make a rental subsidy available in monthly installment payments. Finally, the bill eliminates the requirement to match any amount of rental subsidy over $2,000 applied to a downpayment on a replacement dwelling and restricts the amount of the payment to what an owner occupant could have received if he had qualified as a displaced homeowner under section 203.

Section 408

Relocation Planning, Assistance Coordination and Advisory Services

Requires the displacing agency to prepare a relocation analysis at an early stage in the planning of a program or project in order to recognize and resolve problems associated with displacement. The relocation plan should be designed to minimize and adverse impacts on displaced persons as well as to expedite program or project advancement and completion.

Existing law is amended to include farm operations among the businesses for which information on alternative locations must be provided; to require that an agency provide a displaced person with a reasonable opportunity to relocate to a comparable replacement dwelling except in the case of a disaster or emergency; and to provide technical assistance to persons applying for assistance under other Federal or state programs.

Subsection (e) would require that when two or more Federal agencies are providing assistance to a geographically or functionally related activity, the agencies agree on a cognizant agency whose procedures will apply to such activities. If the agencies cannot agree, then the lead agency shall designate a cognizant agency.

Subsection (f) authorizes advisory services for re-renters excluded from the definition of a "displaced person" under section 101(6).

Section 409

Housing Replacement by Federal Agency as Last Resort

The bill amends 206(a) to require that the lead agency shall promulgate a regulation to the effect that this section may not be used to exceed the new payment ceilings under sections 203 and 204, except on a case-by-case basis, for good cause.

The bill retains essentially unchanged the assurances that a person shall not be required to move from his dwelling unless comparable replacement housing is available to that person.

Section 410

Assurances

Section 210 of existing law, which prohibits Federal payments for a project unless the recipient provides adequate assurances of compliance with the Act, is amended to conform to the use of the newly defined term "displacing agency."

Section 411

Federal Share of Costs

Section 211(a) is amended to delete outdated language establishing coverage under the Act for projects undertaken before July 1972. "State Agency" is amended to read "displacing agency" to conform with the amendment made under 101(11).

Section 211(b) is an amendment to expand the present prohibition on duplication of compensation occurring when a displaced person receives payments under state law which serve essentially the same purpose as those provided under the Act.

Section 412

Duties of Lead Agency and Salvage Operations

Requires the lead agency to: (1) issue uniform, government-wide regulations for use by all Federal agencies in administering the Act; (2) coordinate, with the assistance of other Federal agencies, relocation activities under Title II of the Act with Federal and federally assisted housing programs; (3) monitor, in coordination with other Federal agencies, the implementation and enforcement of the Act, and report to Congress on any major issues or problems associated with the Act; and (4) perform other duties that pertain to the purposes of the Act.

The bill retains with some modification a feature of existing law authorizing an appeals procedure for a person aggrieved by a determination as to his eligibility, the amount of a payment, or other factors under this Act.

The Commonwealth of Massachusetts is required to assist and coordinate the salvage operations and reconstruction of the Great House in City Square, Charlestown, Massachusetts, during depression and reconstruction of the Central Artery.

Section 413

Payments Under Other Laws

Provides that a relocation payment received under this Act shall count in determining a person's eligibility under any Federal law providing low-income housing assistance.

Section 414

Transfer of Surplus Property

Provides that the amount to be paid to GSA by a state after it disposes of surplus property transferred to the state by the Federal Government for the purpose of providing replacement housing required by this title will reflect only the net amounts received for such property, rather than all amounts as is currently the case.

Section 415

Repeals

Sections 214, 217 and 219 of the Act are repealed.

Section 416

Uniform Policy on Real Property

Incorporates a new provision under section 301(2) requiring the head of the lead agency to promulgate procedures under which acquiring agencies may forego an appraisal for acquisition or the donation of low-value property.

Further amends section 301 to define an uneconomic remnant of property as one with little or no value or utility to the owner which is left alter the partial acquisition of his property for a Federal or federally assisted project. The bill maintains the requirement that the head of the agency offer to acquire such an uneconomic remnant so that the owner or occupant would be eligible for the full benefits under that Act.

Adds a new paragraph (10) to section 301, to allow donations under the Act.

Section 417

Assurances

Makes a conforming amendments to section 305 substituting the terms "acquiring agency" for the term "State Agency." An "acquiring agency" is defined as an agency with state eminent domain authority and a state agency or person who does not have such authority to the extent provided by the lead agency by regulation.

Section 418

Effective Date

Section 213 of the Act regarding the duties of the lead agency takes effect on the date of enactment of this Act, and the remainder of the Act takes effect 24 months from the date of enactment.

[Committee Print]
January 2, 1987
[Showing H.R. 2 to be introduced on January 6, 1987]

H.R. 2

A bill to authorize funds for construction of highways, for highway safety programs, and for mass transportation programs, to expand and improve the relocation assistance program, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Surface Transportation and Uniform Relocation Assistance Act of 1987".

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents.
Sec. 2. Secretary defined.

TITLE I—FEDERAL-AID HIGHWAY ACT OF 1987

Sec. 101. Short title.
Sec. 102. Approval of interstate cost estimate and extension of interstate program.
Sec. 103. Approval of cost estimate and authorization of appropriations for Interstate substitute projects.
Sec. 104. Authorizations of appropriations for Interstate System construction.
Sec. 105. Obligation ceiling.
Sec. 106. Authorization of appropriations.
Sec. 107. Interstate 4R and primary formulas.
Sec. 108. Elimination of roadside obstacles.
Sec. 109. Contracting for engineering and design services.
Sec. 110. Limitations concerning South Africa on awards of contracts.
Sec. 111. Standardized contract clause concerning site conditions.
Sec. 112. Convict produced materials.
Sec. 113. Signs identifying funding sources.
Sec. 114. Advanced construction.
Sec. 115. Interstate discretionary funds.
Sec. 116. Flexibility of use of highway funds.
Sec. 117. Interstate 4R program.
Sec. 118. Federal share.
Sec. 119. Emergency relief.
Sec. 120. Tank trucks.
Sec. 121. Extension of tolls to finance certain ineligible construction expenses.
Sec. 122. Highway beautification.
Sec. 123. Bridge program.
Sec. 124. Minimum allocation.
Sec. 125. National bridge inspection program.
Sec. 126. Income from airspace rights-of-way.
Sec. 127. Strategic highway research program.
Sec. 128. Planting of native wildflowers.
Sec. 129. Highway technical amendments.
Sec. 130. Buy America.
Sec. 131. Implementation of certain orders.
Sec. 132. Project eligibility.
Sec. 133. Eligibility of park and ride facilities.
Sec. 134. Planning, design, and construction.
Sec. 135. Transfer of interstate lanes.
Sec. 136. Modification of interstate transfer concept plans.
Sec. 137. Payback of right-of-way expenses.
Sec. 138. Expenditure of Federal highway funds in Virgin Islands.

Sec. 139. Exemption from right-of-way restriction.
Sec. 140. Donation of lands.
Sec. 141. Shirley Highway traffic restrictions.
Sec. 142. Railroad relocation demonstration program.
Sec. 143. Maintenance of certain railroad-highway crossings.
Sec. 144. Demonstration projects.
Sec. 145. Cumberland Gap National Historical Park, Virginia.
Sec. 146. Delaware River bridges.
Sec. 147. Highway designation.
Sec. 148. Bridge naming.
Sec. 149. Study of apportionment formulas.
Sec. 150. Bridge formula study.
Sec. 151. Study of highway bridges which cross rail lines.
Sec. 152. Parking for handicapped persons.
Sec. 153. Feasibility study of using highway electrification systems.
Sec. 154. Cost effectiveness study of highway upgrading.
Sec. 155. Bridge management study.
Sec. 156. State maintenance program study.
Sec. 157. Highway feasibility study.
Sec. 158. California feasibility study.
Sec. 159. New York feasibility study.
Sec. 160. Limitation on widening certain routes through historic district.
Sec. 161. Urban high density program.
Sec. 162. Ferry boat service.

TITLE II—HIGHWAY SAFETY ACT OF 1987

Sec. 201. Short title.
Sec. 202. Highway safety.
Sec. 203. 55 mph speed limit.
Sec. 204. Alcohol traffic safety programs.
Sec. 205. School bus safety measures.
Sec. 206. Standards for splash and spray suppressant devices.
Sec. 207. Use of certain reports as evidence.
Sec. 208. Emergency call boxes.
Sec. 209. Railroad-highway crossings authorizations.
Sec. 210. National driver registration amendments.
Sec. 211. Highway safety program amendments.
Sec. 212. Highway safety education and information.
Sec. 213. Railroad-highway crossing needs.
Sec. 214. Older driver study.
Sec. 215. Rescission of contract authority.

TITLE III—FEDERAL MASS TRANSPORTATION ACT OF 1987

Sec. 301. Short title.
Sec. 302. Letters of intent; multi-year contracts.
Sec. 303. Approval of funding levels and allocations of funds.
Sec. 304. Advance construction.
Sec. 305. Criteria for new starts.
Sec. 306. Authorization of appropriations for substitute projects.
Sec. 307. Rates for elderly and handicapped persons.
Sec. 308. Long-term financial planning.
Sec. 309. Block grant program amendments.
Sec. 310. University transportation centers.
Sec. 311. Sole source procurements.
Sec. 312. Contracting for engineering and design services.
Sec. 313. Limitations concerning South Africa on awards of contracts.
Sec. 314. Bus remanufacturing and overhauling of rolling stock.
Sec. 315. Limitation on private enterprise participation.
Sec. 316. Bus testing.
Sec. 317. Preaward and postdelivery audit of bus purchases.
Sec. 318. Protection of private contracting rights.
Sec. 319. Federal share for elderly and handicapped projects.
Sec. 320. Authorization for appropriations.
Sec. 321. Construction management oversight.
Sec. 322. Bicycle facilities.
Sec. 323. Transit technical amendments.
Sec. 324. Multi-year contract for metro rail project.
Sec. 325. Multi-year contract for transit bridge lanes.
Sec. 326. Increased operating assistance during construction of interstate project.
Sec. 327. Feasibility study.
Sec. 328. Feasibility study of abandoned trolley service.
Sec. 329. Comprehensive transit plan for the Virgin Islands.
Sec. 330. Bus carrier certificates for recipients of governmental assistance.
Sec. 331. Utilization requirement for certificates authorizing intrastate bus operations.

TITLE IV—UNIFORM RELOCATION ACT AMENDMENTS OF 1987

Sec. 401. Short title.
Sec. 402. Definitions.
Sec. 403. Certification.
Sec. 404. Declaration of findings and policy.
Sec. 405. Moving and related expenses.
Sec. 406. Replacement housing for homeowner.
Sec. 407. Replacement housing for tenants and certain others.
Sec. 408. Relocation planning, assistance coordination, and advisory services.
Sec. 409. Housing replacement by Federal agency as last resort.
Sec. 410. Assurances.
Sec. 411. Federal share of costs.
Sec. 412. Duties of lead agency; salvage operation.
Sec. 413. Payments under other laws.
Sec. 414. Transfer of surplus property.
Sec. 415. Repeals.
Sec. 416. Uniform policy on real property acquisition practices.
Sec. 417. Assurances.
Sec. 418. Effective date.

SEC. 2. SECRETARY DEFINED.

As used in this Act, the term "Secretary" means the Secretary of Transportation.

TITLE I—FEDERAL-AID HIGHWAY ACT OF 1987

SEC. 101. SHORT TITLE.

This title may be cited as the "Federal-Aid Highway Act of 1987".

SEC. 102. APPROVAL OF INTERSTATE COST ESTIMATE AND EXTENSION OF INTERSTATE PROGRAM.

(a) FISCAL YEAR 1988.—The Secretary shall apportion for fiscal year 1988 the sums authorized to be appropriated for such year by section 108(b) of the Federal-Aid Highway Act of 1956 for expenditure on the National System of Interstate and Defense Highways, using the apportionment factors contained in revised table 5 of the committee print numbered 100-1 of the Committee on Public Works and Transportation of the House of Representatives.

(b) EXTENSION OF INTERSTATE PROGRAM THROUGH FICSAL YEAR 1993.—

(1) EXTENSION OF ICE APPROVAL PROCESS.—Section 104(b)(5)(A) of title 23, United States Code, is amended by inserting after "September 30, 1990." the following: "The Secretary shall make a revised estimate of the cost of completing the then designated Interstate System after taking into account all previous apportionments made under this section in the same manner as stated above, and transmit the same to the Senate and the House of Representatives within ten days subsequent to January 2, 1989. Upon the approval by Congress, the Secretary shall use the Federal share of such approved estimates in making apportionments for the fiscal years 1991, 1992, and 1993.".

(2) CONFORMING AMENDMENT.—The second paragraph of section 101(b) of such title is amended (A) by striking out "thirty-four years'" and inserting in lieu thereof "thirty-seven years' ", and (B) by striking out "1990" and inserting in lieu thereof "1993".

SEC. 103. APPROVAL OF COST ESTIMATE AND AUTHORIZATION OF APPROPRIATIONS FOR INTERSTATE SUBSTITUTE PROJECTS.

(a) FISCAL YEAR 1987.—The Secretary shall apportion for fiscal year 1987 the sums to be apportioned for such year under section 103(e)(4) of title 23, United States Code, for expenditure on substitute highway and transit projects, using the apportionment factors contained in the committee print numbered 100-2 of the Committee on Public Works and Transportation of the House of Representatives.

(b) AUTHORIZATION OF APPROPRIATIONS; PERIOD OF AVAILABILITY OF APPORTIONED FUNDS; EXTENSION OF SUBSTITUTE ICE APPROVAL PROCESS.—Section 103(e)(4) of title 23, United States Code, is amended to read as follows:

"(4) INTERSTATE SUBSTITUTE PROGRAM.—

"(A) WITHDRAWAL OF APPROVAL.—Upon the joint request of a State Governor and the local governments concerned, the Secretary may withdraw his approval of any route or portion thereof on the Interstate System which was selected and approved in accordance with this title, if he determines that such route or portion thereof is not essential to completion of a unified and connected Interstate System and if he receives assurances that the State does not intend to construct a toll road in the traffic corridor which would be served by the route or portion thereof.

"(B) SUBSTITUTE PROJECTS.—When the Secretary withdraws his approval under this paragraph, a sum equal to the Federal share of the cost to complete the withdrawn route or portion thereof, as that cost is included in the latest Interstate System cost estimate approved by Congress, or up to and including the 1983 interstate cost estimate, whichever is earlier, subject to increase or decrease, as determined by the Secretary based on changes in construction costs of the withdrawn route or portion thereof as of the date of approval of each substitute project under this paragraph, or the date of approval of the 1983 interstate cost estimate, whichever is earlier, shall be available to the Secretary to incur obligations for the Federal share of either public mass transit projects involving the construction of fixed rail facilities or the purchase of passenger equipment including rolling stock, for any mode of mass transit, or both, or projects authorized under any highway assistance program under this section; or both, which will serve the area or areas from which the interstate route or portion thereof was withdrawn, which are selected by the responsible local officials of the area or areas to be served, and which are selected by the Governor or the Governors of the State or the States in which the withdrawn route was located if the withdrawn route was not within an urbanized area or did not pass through and connect urbanized areas, and which are submitted by the Governors of the States in which the withdrawn route was located.

"(C) DEADLINE FOR APPROVAL AND WITHDRAWAL.—Substitute projects under this paragraph may not be approved by the Secretary under this paragraph after September 30, 1983, and the Secretary shall not approve any withdrawal of a route under this paragraph after such date; except that (i) with respect to any route which on the date of the enactment of the Federal-Aid Highway Act of 1978 was under judicial injunction prohibiting its construction, the Secretary may approve substitute projects and withdrawals on such route until September 30, 1986; and (ii) with respect to any route which on May 12, 1982, was under judicial injunction prohibiting its construction, the Secretary may approve substitute projects and withdrawals on such route until September 30, 1985.

"(D) PROJECT APPROVAL; FEDERAL SHARE.—Approval by the Secretary of the plans, specifications, and estimates for a substitute project shall be deemed to be a contractual obligation of the Federal Government. The Federal share of each substitute project shall not exceed 85 percent of the cost thereof.

"(E) AVAILABILITY OF FUNDS FOR SUBSTITUTE PROJECTS.—

"(i) TIME PERIOD.—The sums apportioned and the sums allocated under this paragraph for public mass transit projects shall remain available for the fiscal year for which apportioned or allocated, as the case may be, and for the three succeeding fiscal years. The sums apportioned and the sums allocated under this paragraph for projects under any highway assistance program shall remain available for the fiscal year for which apportioned or allocated, as the case may be, and for the three succeeding fiscal years.

"(ii) REAPPORTIONMENT.—Any sums which are apportioned or allocated to a State for a fiscal year and are unobligated (other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a substitute project which has been submitted by the State to the Secretary for approval) at the end of the second fiscal year succeeding such fiscal year shall be apportioned or allocated, as the case may be, among those States which have obligated all sums (other than such an amount) apportioned or allocated, as the case may be, to them for such second succeeding fiscal year. Such reapportionments shall be in accordance with the latest approved estimate of the cost of completing substitute projects, and such reallocations shall be at the discretion of the Secretary.

"(F) ADMINISTRATION OF TRANSIT FUNDS.—The sums obligated for mass transit projects under this paragraph shall become part of, and be administered through, the Urban Mass Transportation Fund.

"(G) AUTHORIZATION OF APPROPRIATIONS FOR HIGHWAY PROJECTS.—For the fiscal year ending September 30, 1983, $257,000,000 shall be available out of the Highway Trust Fund for expenditure at the discretion of the Secretary for projects under highway assistance programs. There shall be available, out of the Highway Trust Fund (other than the Mass Transit Account), to the Secretary for expenditure under this paragraph for projects under highway assistance programs $700,000,000 per fiscal year for each of fiscal years 1984 and 1985, $693,825,000 for fiscal year 1986, and $825,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

"(H) DISTRIBUTION OF SUBSTITUTE HIGHWAY FUNDS.—

"(i) BETWEEN DISCRETIONARY AND APPORTIONED PROGRAMS.—Twenty-five percent of the funds made available by subparagraph (G) for each of fiscal years 1984, 1985, 1986, 1987, 1988, 1989, 1990, and 1991 for substitute highway projects under this paragraph shall be distributed at the discretion of the Secretary. The remaining 75 percent of such funds shall be apportioned in accordance with cost estimates approved by Congress.

"(ii) FY 1984 APPORTIONMENT.—The Secretary shall make an estimate of the cost of completing substitute highway projects under this paragraph and transmit the same to the Senate and the House of Representatives as soon as practicable after the date of enactment of the Highway Improvement Act of 1982. Upon approval of such cost estimate by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute highway projects for fiscal year 1984.

"(iii) FY 1985, 1986, AND 1987 APPORTIONMENTS.—The Secretary shall make a revised estimate of the cost of completing substitute highway projects under this paragraph and transmit the same to the Senate and the House of Representatives within ten days subsequent to January 2, 1984, and upon approval by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute highway projects for fiscal years 1985, 1986, and 1987.

"(iv) FY 1988, 1989, 1990, AND 1991 APPORTIONMENTS.—The Secretary shall make a revised estimate of the cost of completing substitute highway projects under this paragraph and transmit the same to the Senate and the House of Representatives as soon as practicable after the date of the enactment of the Federal-Aid Highway Act of 1987. Upon approval by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute highway projects for fiscal year 1988. Subject to changes in State estimates in the division of funds between substitute highway and transit projects, subject to amounts made available in prior fiscal years, and subject to the availability and reapportionment of funds under subparagraph (E), the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute highway projects for fiscal years 1989, 1990, and 1991.

"(I) AUTHORIZATION OF APPROPRIATIONS FOR TRANSIT PROJECTS.—There are authorized to be appropriated for liquidation of obligations incurred for substitute transit projects under this paragraph the sums provided in section 4(g) of the Urban Mass Transportation Act of 1964.

"(J) DISTRIBUTION OF SUBSTITUTE TRANSIT FUNDS.—

"(i) BETWEEN DISCRETIONARY AND APPORTIONED PROGRAMS.—Fifty percent of the funds appropriated for each fiscal year beginning after September 30, 1983, for carrying out substitute transit projects under this paragraph shall be distributed at the discretion of the Secretary. The remaining 50 percent of such funds shall be apportioned in accordance with cost estimates approved by Congress.

"(ii) FY 1984 APPORTIONMENT.—The Secretary shall make an estimate of the cost of completing substitute transit projects under this paragraph and transmit the same to the Senate and the House of Representatives as soon as practicable after the date of the enactment of the Highway Improvement Act of 1982. Upon approval of such cost estimate by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute transit projects for fiscal year 1984.

"(iii) FY 1985, 1986, AND 1987 APPORTIONMENTS.—The Secretary shall make a revised estimate of the cost of completing substitute transit projects under this paragraph and transmit the same to the Senate and the House of Representatives within ten days subsequent to January 2, 1984, and upon approval by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute transit projects for fiscal years 1985, 1986, and 1987.

"(iv) FY 1988, 1989, 1990, AND 1991 APPORTIONMENTS.—The Secretary shall make a revised estimate of the cost of completing substitute transit projects under this paragraph and transmit the same to the Senate and the House of Representatives as soon as practicable after the date of the enactment of the Federal-Aid Highway Act of 1987. Upon approval by Congress, the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute transit projects for fiscal year 1988. Subject to changes in State estimates in the division of funds between substitute highway and transit projects, subject to amounts made available in prior fiscal years, and subject to the availability and reapportionment of funds under subparagraph (E), the Secretary shall use the Federal share of such approved estimate in making apportionments for substitute transit projects for fiscal years 1989, 1990, and 1991.

"(K) REDUCTION OF INTERSTATE APPORTIONMENT.—

"(i) IN GENERAL.—Unobligated apportionments for the Interstate System in any State where a withdrawal is approved under this paragraph shall, on the date of such approval, be reduced in the proportion that the Federal share of the cost of the withdrawn route or portion thereof bears to the Federal share of the total cost of all interstate routes in that State as reflected in the latest cost estimate approved by the Congress.

"(ii) EXCEPTION.—In any State where the withdrawal of an interstate route or portion thereof has been approved under this section prior to the date of the enactment of the Federal-Aid Highway Act of 1976, the unobligated apportionments for the Interstate System in that State on such date of enactment shall be reduced in the proportion that the Federal share of the cost to complete such route or portion thereof, as shown in the latest cost estimate approved by Congress prior to such approval of withdrawal, bears to the Federal share of the cost of all interstate routes in that State, as shown in such cost estimate; except that the amount of such proportional reduction shall be credited with the amount of any reduction in such State's Interstate apportionment which was attributable to the Federal share of any substitute project approved under this paragraph prior to such date of enactment.

"(L) APPLICABILITY OF UMTA.—

"(i) SUPPLEMENTARY FUNDS.—Funds available for expenditure to carry out the purposes of this paragraph shall be supplementary to and not in substitution for funds authorized and available for obligation pursuant to the Urban Mass Transportation Act of 1964.

"(ii) Labor protection.—The provisions of section 3(e)(4) of the Urban Mass Transportation Act of 1964 shall apply in carrying out this paragraph.

"(M) Limitation on interstate designations.—After the date of the enactment of the Federal-Aid Highway Act of 1978, the Secretary may not designate any mileage as part of the Interstate System pursuant to this paragraph or under any other provision of law. The preceding sentence shall not apply to a designation made under section 139 of this title.

"(N) Open to traffic requirement.—After September 30, 1979, the Secretary shall not withdraw his approval under this paragraph of any route or portion thereof on the Interstate System open to traffic before the date of the proposed withdrawal. Any withdrawal of approval of any such route or portion thereof before September 30, 1979, is hereby determined to be authorized by this paragraph.

"(O) Limitation on substitution for statutorily designated routes.—Any route or segment which was statutorily designated after March 7, 1978, to be on the Interstate System shall not be eligible for withdrawal or substitution under this subsection.".

(c) Additional Amount for Substitute Transit Projects.—

(1) Authorization.—In addition to the total amount available to the Secretary under section 103(e)(4)(B) of title 23, United States Code, there is authorized to be appropriated to the Secretary for fiscal years beginning after September 30, 1986, $100,000,000 to incur obligations under such section for the Federal share of either public mass transit projects, or the purchase of passenger equipment, described in such section.

(2) Limitation on obligations.—Any funds appropriated pursuant to paragraph (1) may only be obligated for projects substituted for any segment of an interstate route the approval of which is withdrawn under section 103(e)(4) of such title before January 1, 1986.

(3) Apportionment factors.—Notwithstanding section 103(e)(4) of such title, funds appropriated pursuant to paragraph (1) shall be made available in accordance with the apportionment factors contained in the committee print numbered 100-2 of the Committee on Public Works and Transportation of the House of Representatives.

(d) Contract Deadline for Substitute Projects.—

(1) Elimination.—Subsection (e) of section 107 of the Federal-Aid Highway Act of 1978 (23 U.S.C. 103 note) is amended—

(A) in the first sentence by striking out "and all Interstate substitute projects pursuant to subsection (e)(4) of section 103 of title 23, United States Code (for which the Secretary finds that sufficient Federal funds are available)"; and

(B) in the second sentence by striking out "and in the case" and all that follows through the period at the end of such subsection and inserting in lieu thereof a period.

(2) Effective date.—The amendments made by paragraph (1) shall take effect September 29, 1986.

(e) Inclusion of Certain Costs as Non-Federal Share.—If the State of Oregon completes construction of a segment of an east-west highway which segment connects 158th Avenue and Cornelius Pass Road in Washington County, Oregon, with funds made available under section 103(e)(4) of title 23, United States Code, the Secretary shall include as part of the non-Federal share of the cost of construction of such segment all funds expended by private land developers after January 1, 1980, on construction of such segment.

(f) Conforming Amendments.—(1) Section 103(e) of title 23, United States Code, is amended—

(A) by inserting "Interstate System.—" before "(1) The Interstate";

(B) in paragraph (1) by inserting "Designation; mileage limitation.—" before "The Interstate";

(C) in paragraph (2) by inserting "Modifications.—" before "In addition";

(D) in paragraph (3) by inserting "Additional mileage for improved efficiency.—" before "In addition";

(E) in paragraph (5) by inserting "Limitation on refunds for withdrawals before November 6, 1978.—" before "Notwithstanding" and by striking out "; and" at the end of such paragraph and inserting in lieu thereof a period;

(F) in paragraph (6) by inserting "Limitation on refunds for withdrawals on and after November 6, 1978.—" before "Notwithstanding" and by striking out the semicolon at the end of such paragraph and inserting in lieu thereof a period;

(G) in paragraph (7) by inserting "Additional limitation on refunds.—" before "In any" and by striking out "; and" at the end of such paragraph and inserting in lieu thereof a period;

(H) in paragraph (8) by inserting "Protection of property rights.—" before "Nothing";

(I) in paragraph (9) by inserting "Limitation on funding of modified mileage projects.—" before "Interstate mileage";

(J) by indenting paragraph (1) and aligning such paragraph and paragraphs (2), (3), (5), (6), (7), (8), and (9) with paragraph (4) of such section, as amended by subsection (b) of this section; and

(K) by aligning subparagraphs (A) and (B) of paragraphs (5) and (6) with subparagraph (A) of such paragraph (4).

(2) Section 107(c)(2) of the Highway Improvement Act of 1982 (23 U.S.C. 103 note) is amended—

(A) by striking out "the second sentence" and inserting in lieu thereof "subparagraph (B)"; and

(B) by striking out "such sentence" and inserting in lieu thereof "such subparagraph".

SEC. 104. AUTHORIZATION OF APPROPRIATIONS FOR INTERSTATE SYSTEM CONSTRUCTION.

The first sentence of subsection (b) of section 108 of the Federal-Aid Highway Act of 1956 is amended by striking out "and" after "September 30, 1987," and all that follows through the period at the end of such sentence and inserting in lieu thereof the following: ", the additional sum of $3,000,000,000 for the fiscal year ending September 30, 1988, the additional sum of $3,300,000,000 for the fiscal year ending September 30, 1989, the additional sum of $3,300,000,000 for the fiscal year ending September 30, 1990, the additional sum of $3,300,000,000 for the fiscal year ending September 30, 1991, the additional sum of $3,300,000,000 for the fiscal year ending September 30, 1992, and the additional sum of $2,000,000,000 for the fiscal year ending September 30, 1993.".

SEC. 105. OBLIGATION CEILING.

(a) General Limitation.—Notwithstanding any other provision of law (other than subsection (f) of this section), the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed—

(1) $12,600,000,000 for fiscal year 1988;

(2) $12,600,000,000 for fiscal year 1989;

(3) $12,600,000,000 for fiscal year 1990; and

(4) $12,600,000,000 for fiscal year 1991.

(b) Exceptions.—The limitations under subsection (a) shall not apply to obligations—

(1) under section 125 of title 23, United States Code;

(2) under section 157 of such title;

(3) under section 320 of such title;

(4) under section 147 of the Surface Transportation Assistance Act of 1978;

(5) under section 9 of the Federal-Aid Highway Act of 1981;

(6) under sections 131(b) and 131(j) of the Surface Transportation Assistance Act of 1982;

(7) under section 118 of the National Visitor Center Facilities Act of 1968;

(8) under section 163(p)(2) of the Federal-Aid Highway Act of 1973;

(9) under section 404 of the Surface Transportation Assistance Act of 1982; and

(10) under sections 143, 144, 150, 153, 154, and 158 of this Act.

No obligation constraints shall be placed upon any ongoing emergency project carried out under section 125 of title 23, United States Code, or section 147 of the Surface Transportation Assistance Act of 1978.

(c) Distribution of Obligation Authority.—For each of fiscal years 1988, 1989, 1990, and 1991 the Secretary shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(d) Limitation on Obligation Authority.—During the period October 1 through December 31 of each of fiscal years 1988, 1989, 1990, and 1991, no State shall obligate more than 35 percent of the amount distributed to such State under subsection (c) for such fiscal year, and the total of all State obligations during such period shall not exceed 25 percent of the total amount distributed to all States under such subsection for such fiscal year.

(e) Redistribution of Unused Obligation Authority.—Notwithstanding subsections (c) and (d), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1 of each of fiscal years 1988, 1989, 1990, and 1991, revise a distribution of the funds made available under subsection (c) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate

amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses and Federal lands highways programs.

(f) Additional Obligation Authority.—

(1) In general.—Subject to paragraph (2), a State which after August 1 and on or before September 30 of fiscal year 1988, 1989, 1990, or 1991 obligates the amount distributed to such State in such fiscal year under subsections (c) and (e) may obligate for Federal-aid highways and highway safety construction on or before September 30 of such fiscal year an additional amount not to exceed 10 percent of the aggregate amount of funds apportioned or allocated to such State—

(A) under sections 104, 144, and 152 of title 23, United States Code,

(B) for highway assistance projects under section 103(e)(4) of such title, and

(C) under section 203 of the Highway Safety Act of 1973,

which are not obligated on the date such State completes obligation of the amount so distributed.

(2) Limitation on additional obligation authority.—During the period August 2 through September 30 of each of fiscal years 1988, 1989, 1990, and 1991, the aggregate amount which may be obligated by all States pursuant to paragraph (1) shall not exceed 5 percent of the aggregate amount of funds apportioned or allocated to all States—

(A) under sections 104, 144, and 152 of title 23, United States Code,

(B) for highway assistance projects under section 103(e)(4) of such title, and

(C) under section 203 of the Highway Safety Act of 1973,

which would not be obligated in such fiscal year if the total amount of obligational authority provided by subsection (a) for such fiscal year were utilized.

(3) Limitation on applicability.—Paragraph (1) shall not apply to any State which on or after August 1 of fiscal year 1988, 1989, 1990, or 1991, as the case may be, has the amount distributed to such State under subsection (c) for such fiscal year reduced under subsection (e)(2).

(g) Conforming Amendment.—Section 157(b) of title 23, United States Code, is amended by striking out the period at the end of the last sentence and inserting in lieu thereof "and section 105(c) of the Federal-Aid Highway Act of 1987.".

SEC. 106. AUTHORIZATION OF APPROPRIATIONS.

(a) From the Highway Trust Fund.—For the purpose of carrying out the provisions of title 23, United States Code, the following sums are hereby authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) Interstate 4R program.—For resurfacing, restoring, rehabilitating, and reconstructing the National System of Interstate and Defense Highways $2,830,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, 1991, and 1992.

(2) Federal-aid primary system.—For the Federal-aid primary system in rural areas, including the extensions of the Federal-aid primary system in urban areas, and the priority primary routes $2,305,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(3) Federal-aid secondary system.—For the Federal-aid secondary system in rural areas $600,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(4) Federal-aid urban system.—For the Federal-aid urban system $750,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(5) Indian reservation roads.—For Indian reservation roads $90,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(6) Forest highways.—For forest highways $57,500,000 per fiscal year for each of fiscal years 1987 and 1988, $57,185,000 per fiscal year for each of fiscal years 1989 and 1990, and $60,000,000 for fiscal year 1991.

(7) Public lands highways.—For public lands highways $20,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(b) Parkways and Park Highways.—

(1) In general.—For the purpose of carrying out the provisions of title 23, United States Code, there is hereby authorized to be appropriated for parkways and park highways $45,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(2) Payment of cost.—The entire cost of any parkway or park highway on any Federal-aid system paid under the authorization contained in this subsection shall be paid from the Highway Trust Fund (other than the Mass Transit Account).

(c) Disadvantaged Business Enterprises.—

(1) General rule.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amounts authorized to be appropriated under this Act shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals. The term "socially and economically disadvantaged individuals" has the meaning such term has under section 8(d) of the Small Business Act (15 U.S.C. section 637(d)) and relevant subcontracting regulations promulgated pursuant thereto; except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(2) Annual listing of disadvantaged business enterprises.—Each State shall annually survey and compile a list of the small business concerns referred to in paragraph (1) and the location of such concerns in the State.

SEC. 107. INTERSTATE 4R AND PRIMARY FORMULAS.

(a) Revision of 4R Formula.—Section 104(b)(5)(B) of title 23, United States Code, is amended to read as follows:

"(B) For resurfacing, restoring, rehabilitating, and reconstructing the Interstate System:

"50 percent in the ratio that vehicle miles traveled on lanes on the interstate routes designated under sections 103 and 139(c) of this title (other than those on toll roads not subject to a Secretarial agreement provided for in section 105 of the Federal-Aid Highway Act of 1978) in each State bears to the total of all such vehicle miles in all States; 25 percent in the ratio that gasoline used by motor vehicles on highways in such State bears to the total of gasoline used by motor vehicles on highways in all States; and 25 percent in the ratio that diesel fuel used by motor vehicles on highways in such State bears to the total of diesel fuel used by motor vehicles on highways in all States.

The Secretary shall establish such rules and regulations as may be necessary to carry out this subparagraph.".

(b) Extension of Primary Formula.—Section 108 of the Highway Improvement Act of 1982 (23 U.S.C. 104 note) is amended by striking out "and 1986" each place it appears and inserting in lieu thereof "1986, 1987, 1988, 1989, 1990, and 1991".

SEC. 108. ELIMINATION OF ROADSIDE OBSTACLES.

The second undesignated paragraph of section 101(a) of title 23, United States Code, relating to the definition of construction, is amended by inserting after "grade crossings," the following: "elimination of roadside obstacles,".

SEC. 109. CONTRACTING FOR ENGINEERING AND DESIGN SERVICES.

(a) In General.—Section 112(b) of title 23, United States Code, is amended by striking out "Construction" and inserting in lieu thereof "(1) In general.—Subject to paragraphs (2) and (3), construction" and by adding at the end thereof the following new paragraph:

"(2) Contracting for engineering and design services.—Each contract for program management, construction management, feasibility studies, preliminary engineering, design, engineering, surveying, mapping, or architectural related services with respect to a project subject to the provisions of subsection (a) of this section shall be awarded in the same manner as a contract for architectural and engineering services is negotiated under title IX of the Federal Property and Administrative Services Act of 1949 or equivalent State qualifications-based requirements.".

(b) Conforming Amendments.—Such section is further amended—

(1) by inserting "Bidding Requirements.—" after "(b)"; and

(2) by indenting paragraph (1), as designated by subsection (a) of this section, and aligning such paragraph with paragraph (2), as added by such subsection.

SEC. 110. LIMITATIONS CONCERNING SOUTH AFRICA ON AWARDS OF CONTRACTS.

Section 112(b) of title 23, United States Code, is further amended by adding at the end thereof the following new paragraph:

"(3) Limitations concerning South Africa on awards of contracts.—A State or local governmental body that is a recipient of Federal funds under this title may prohibit or otherwise limit the award of contracts by including in its contracts terms and conditions related to the contractor's business in South Africa in accordance with a State or local law if the State or local governmental body first enters into an agreement with the Secretary that any costs incurred as a result of such prohibition or limitation which are in excess of the costs that would otherwise have been incurred with respect to such project under this title will not, for purposes of this title, be considered to be a cost of such project.".

SEC. 111. STANDARDIZED CONTRACT CLAUSE CONCERNING SITE CONDITIONS.

Section 112 of title 23, United States Code, is amended by redesignating subsection (e), and any references thereto, as subsection (f), and by inserting after subsection (d) the following new subsection:

"(e) Standardized Contract Clause Concerning Site Conditions.—The Secretary shall issue regulations establishing and requiring, for inclusion in each contract entered into with respect to any project approved under section 106 of this title—

"(1) a standardized contract clause concerning each of the following conditions:

"(A) site conditions differing from those specified in the contract;

"(B) suspensions of work ordered by the State (other than a suspension of work caused by the fault of the contractor or by weather); and

"(C) material changes in the scope of work specified in the contract; and

"(2) equitable adjustment of contract terms to take into account such conditions.".

SEC. 112. CONVICT PRODUCED MATERIALS.

(a) In General.—Subsection (b) of section 114 of title 23, United States Code, is amended to read as follows:

"(b) Convict Labor and Convict Produced Materials.—

"(1) Limitation on convict labor.—Convict labor shall not be used in construction of highways or portions of highways located on a Federal-aid system unless it is labor performed by convicts who are on parole, supervised release, or probation.

"(2) Limitation on convict produced materials.—Materials produced by convict labor may only be used in such construction—

"(A) if such materials are produced by convicts who are on parole, supervised release, or probation from a prison; or

"(B) if such materials are produced by convicts in a qualified prison facility and the amount of such materials produced in such facility for use in such construction during any 12-month period does not exceed the amount of such materials produced in such facility for use in such construction during the 12-month period ending July 1, 1985.

"(3) Qualified prison facility defined.—As used in this subsection, 'qualified prison facility' means any prison facility in which convicts, during the 12-month period ending July 1, 1985, produced materials for use in construction of highways or portions of highways located on a Federal-aid system.".

(b) Conforming Amendments.—(1) Subsection (a) of such section is amended by inserting "Construction Work In General.—" before "The construction of".

(2) Section 202 of the Departments of Commerce, Justice, State, the Judiciary, and Related Agencies Appropriation Act, 1985 is hereby repealed.

(3) Section 1761(d) of title 18, United States Code, is hereby repealed.

SEC. 113. SIGNS IDENTIFYING FUNDING SOURCES.

Section 114(a) of title 23, United States Code, is further amended by adding at the end thereof the following new sentence: "If a State has a practice of erecting on projects under actual construction without Federal-aid highway assistance signs which indicate the source or sources of any funds used to carry out such projects, such State shall erect on all projects under actual construction with any funds made available out of the Highway Trust Fund signs which are visible to highway users and which indicate each governmental source of funds being used to carry out such federally assisted projects and the amount of funds being made available by each such source.".

SEC. 114. ADVANCED CONSTRUCTION.

(a) Limitation.—Paragraph (2) of section 115(a) of title 23, United States Code, is amended to read as follows:

"(2) Limitation.—The aggregate amount of funds which the Secretary is authorized to pay to a State with respect to highway substitute projects, projects on a Federal-aid system, or bridge projects under applications approved under this section shall not, at any time during a fiscal year, exceed an amount equal to—

"(A) two times the aggregate amount of funds apportioned or allocated to the State for expenditure under section 103(e)(4), 104, or 144 of this title, as the case may be, in such fiscal year; plus

"(B) the aggregate amount of funds apportioned or allocated to the State for expenditure under such section which, on the last day of the preceding fiscal year, have not been obligated and remain available for obligation by such State; plus

"(C) the aggregate amount which the Secretary determines, by using the most recent apportionment or allocation factors, would be apportioned or allocated to the State for expenditure under such section in each succeeding fiscal year for which funds are authorized to be appropriated to carry out such section; less

"(D) the aggregate amount of funds apportioned or allocated to the State for expenditure under such section which have been obligated in such fiscal year.".

(b) Primary System Projects.—

(1) In general.—Section 115(b)(1) of such title, is amended—

(A) by inserting before "Interstate System" each place it appears "Federal-aid primary or"; and

(B) by inserting after "Interstate System" the second place it appears ", as the case may be".

(2) Exemption of funds.—Section 115(a)(1) of such title is amended—

(A) by inserting "and Federal-aid primary funds" after "Interstate funds"; and

(B) by inserting "or a Federal-aid primary system project funded under section 104(b)(1) of this title or section 108 of the Highway Improvement Act of 1982" after "104(b)(5) of this title".

(c) Removal of Limitation on Bond Interest.—Section 115(b)(2) of such title is amended by striking out "under construction on January 1, 1983, on the Interstate System" and inserting in lieu thereof "constructed before, on, or after January 1, 1983, on the Federal-aid primary or Interstate System".

(d) Conforming Amendments.—Section 115 of such title is amended—

(1) in subsection (a) by inserting "Authorization of Payment.—" after "(a)";

(2) in subsection (a)(1) by striking out "When" and inserting in lieu thereof "Requirements.—Subject to paragraph (2), when";

(3) in subsection (a) by indenting paragraph (1) and aligning such paragraph with paragraph (2), as amended by subsection (a) of this section;

(4) in subsection (a)(1) by aligning subparagraphs (A) and (B) with subparagraphs (A), (B), (C), and (D) of such paragraph (2); and

(5) in subsection (b)(1) by striking out "When" and inserting in lieu thereof "Subject to subsection (a)(2), when".

SEC. 115. INTERSTATE DISCRETIONARY FUNDS.

(a) Construction Funds; Additional Priority Project.—Paragraph (2) of section 118(b) of title 23, United States Code, is amended to read as follows:

"(2) Interstate construction funds.—

"(A) Period of availability.—Except as otherwise provided in this subsection, sums apportioned for the Interstate System in any State shall remain available for expenditure in that State until the end of the fiscal year for which authorized. Upon request of the State, the Secretary shall reduce the period of availability of such sums by one fiscal year.

"(B) Discretionary projects.—Sums not obligated within the time period prescribed by subparagraph (A) shall lapse and be made available by the Secretary for projects on the Interstate System (other than projects for which sums are apportioned under section 104(b)(5)(B)) in accordance with the following priorities:

"(i) First, for—

"(I) high cost projects which directly contribute to the completion of a segment of the Interstate System which is not open to traffic; and

"(II) high cost projects for construction of high occupancy vehicle lanes and other lanes on any highway in Los Angeles County, California, designated as a part of the Interstate System by section 140 of the Federal-Aid Highway Act of 1978 and the costs of construction of which are included in the interstate cost estimate for 1985.

"(ii) Second, for projects of high cost in relation to a State's apportionment.

"(iii) Third, for projects with respect to which the Secretary may make payments under section 115 of this title.

"(C) Limitation on states eligible for discretionary funds.—Sums may only be made available under this paragraph in any State in a fiscal year if—

"(i)(I) the Secretary determines that the State has obligated all of its apportionments under section 104(b)(5)(A) of this title other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a project on the Interstate System which has been submitted by the State to the Secretary for approval; or

"(II) the State certifies to the Secretary that the State will obligate before August 1 of the fiscal year all of its apportionments under section 104(b)(5)(A) other than such an insufficient amount; and

"(ii) the applicant for a project with respect to which the Secretary may not make payments under section 115 of this title is willing and able to—

"(I) apply the funds to a ready-to-commence project, and

"(II) in the case of construction work, begin work within 90 days of obligation.

"(D) Exception to limitation.—The Secretary may make funds available to the State of California for construction of high occupancy vehicle and other lanes described in subparagraph (B)(i)(II) whether or not such State has met the requirements of clause (i) of subparagraph (C).

"(E) Limitation on secretary's discretion.—If, within 365 days after any sums become available for obligation under this paragraph, the Secretary does not make such sums available for first priority projects under subparagraph (B)(i) of this paragraph, the Secretary shall make such sums available for carrying out second and third priority projects under subparagraph (B) of this paragraph.

"(F) Period of availability of discretionary funds.—Sums made available pursuant to this paragraph shall remain available until expended.".

(b) Set Aside of 4R Funds for 4R Discretionary Projects.—Section 118(c) of such title is amended by inserting "Set Asides for Interstate Discretionary Projects.—" after "(c)", by inserting "(1) Set aside for construction projects.—" before "Before", and by adding at the end thereof the following new paragraph:

"(2) SET ASIDE FOR 4R PROJECTS.—Before any apportionment is made under section 104(b)(5)(B) of this title, the Secretary shall set aside $200,000,000 for obligation by the Secretary in accordance with subsection (b)(3) of this section.".

(c) LIMITATIONS ON STATES AND PROJECTS ELIGIBLE FOR 4R DISCRETIONARY FUNDS.—Paragraph (3) of section 118(b) of such title is amended to read as follows:

"(3) INTERSTATE 4R FUNDS.—

"(A) PERIOD OF AVAILABILITY.—Any amount apportioned to a State for the Interstate System under section 104(b)(5)(B) of this title shall continue to be available for expenditure in that State for a period of one year after the close of the fiscal year for which such sums are authorized.

"(B) DISCRETIONARY PROJECTS.—Sums not obligated within the time period prescribed by subparagraph (A) shall lapse and be made available by the Secretary for projects for resurfacing, restoring, rehabilitating, and reconstructing any route or portion thereof on the Interstate System (other than any highway designated as a part of the Interstate System under section 139 and any toll road on the Interstate System not subject to an agreement under section 105 of the Federal-Aid Highway Act of 1978). Such funds shall be made available by the Secretary to any other State applying for such funds, if the Secretary determines that—

"(i) the State has obligated all of its apportionments under section 104(b)(5)(B) other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a project for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System which has been submitted by such State to the Secretary for approval; and

"(ii) the applicant is willing and able to (I) obligate the funds within one year of the date the funds are made available, (II) apply them to a ready-to-commence project, and (III) in the case of construction work, begin work within 90 days of obligation.

"(C) PRIORITY CONSIDERATION FOR CERTAIN PROJECTS.—In selecting projects to fund under subparagraph (B), the Secretary shall give priority consideration to any project the cost of which exceeds $10,000,000 on any high volume route in an urban area or a high truck-volume route in a rural area.

"(D) FACTORS TO CONSIDER IN SELECTION OF RECIPIENTS.—In selecting States to receive funds under subparagraph (B) in a fiscal year, the Secretary shall—

"(i) consider whether a State has obligated in such fiscal year and the two preceding fiscal years any funds apportioned to the State under section 104(b)(5)(B) of this title (other than funds transferred by the State under section 119(f)(2)) for projects on a segment of the Interstate System designated under section 139(b) of this title and, if so, the amount of such funds;

"(ii) not consider whether a State has transferred funds under section 119(f)(2) of this title in such fiscal year and the two preceding fiscal years; and

"(iii) not consider whether a State has obligated in such fiscal year and two preceding fiscal years any funds apportioned under section 104(b)(5)(B) of this title for projects on a segment of the Interstate System designated under section 139(a) of this title.

"(E) PERIOD OF AVAILABILITY OF DISCRETIONARY FUNDS.—Sums made available pursuant to this paragraph shall remain available until expended.".

(d) CONFORMING AMENDMENTS.—(1) The matter preceding the first colon in section 104(b) of such title is amended by inserting after "subsection (a) of this section" the following: "and the set asides authorized by subsection (f) of this section and sections 118(c) and 307(d) of this title".

(2) Section 118(b) of such title is amended—

(A) in paragraph (1) by inserting "PERIODS OF AVAILABILITY OF FUNDS; DISCRETIONARY PROJECTS.—" before "(1)";

(B) in paragraph (1) by inserting "PERIOD OF AVAILABILITY OF NON-INTERSTATE FUNDS.—" before "Sums";

(C) in paragraph (4) by inserting "OBLIGATION AS EQUIVALENT TO EXPENDITURES; EFFECT OF RELEASE OF FUNDS.—" before "Sums"; and

(D) by indenting paragraph (1) and aligning such paragraph and paragraph (4) with paragraph (2), as amended by subsection (a) of this section.

(3) Section 118(c) of such title is further amended by indenting paragraph (1), as designated by subsection (b) of this section, and aligning such paragraph with paragraph (2), as added by such subsection (b).

(e) TREATMENT OF UNUSED RIGHT-OF-WAY.—Section 118(b) of title 23, United States Code, is amended by adding at the end the following:

"(5) TREATMENT OF UNUSED RIGHT-OF-WAY.—Notwithstanding any other provision of law, the value of unused right-of-way acquired under section 104(b)(5)(A) or section 118(b)(2) of this title in the State of Arizona may be credited to the unobligated balance of funds apportioned to the State under section 104(b)(5)(B) if requested by the State and approved by the Secretary.".

SEC. 116. FLEXIBILITY OF USE OF HIGHWAY FUNDS.

Section 118(f) of title 23, United States Code (relating to availability of sums apportioned to the State of Alaska), is amended by inserting "and the Commonwealth of Puerto Rico" after "the State of Alaska".

SEC. 117. INTERSTATE 4R PROGRAM.

(a) IN GENERAL.—Section 119 of title 23, United States Code, is amended by adding at the end thereof the following new subsections:

"(e) TOLL ROAD AGREEMENTS.—The Secretary may approve a project pursuant to subsection (a) on a toll road only if an agreement satisfactory to the Secretary has been reached with the State highway department and each public authority with jurisdiction over such toll road prior to the approval of such project that the toll road will become free to the public upon the collection of tolls sufficient to liquidate the cost of the toll road or any bonds outstanding at the time constituting a valid lien against it, and the cost of maintenance and operation and debt service during the period of toll collections. Such agreement shall contain a provision requiring that if, for any reason, a toll road receiving Federal assistance under this section does not become free to the public upon collection of sufficient tolls as specified in the first sentence of this subsection, Federal funds used for projects on such toll road pursuant to this subsection shall be repaid to the Federal Treasury. Any agreement entered into under section 105 of the Federal-Aid Highway Act of 1978 before the date of the enactment of this subsection shall be treated as an agreement entered into under this subsection.

"(f) TRANSFER OF FUNDS FOR PRIMARY SYSTEM PROJECTS.—

"(1) UPON CERTIFICATION ACCEPTANCE.—If a State certifies to the Secretary that any part of the sums apportioned to the State under 104(b)(5)(B) of this title are in excess of the needs of the State for resurfacing, restoring, rehabilitating, or reconstructing Interstate System routes and the Secretary accepts such certification, the State may transfer such excess part to its apportionment under section 104(b)(1).

"(2) UNCONDITIONAL.—Notwithstanding paragraph (1), a State may transfer to its apportionment under section 104(b)(1) of this title—

"(A) in fiscal year 1987, an amount not to exceed 20 percent of the funds apportioned to the State under section 104(b)(5)(B) which are not obligated at the time of the transfer; and

"(B) in any fiscal year thereafter, an amount equal to 20 percent of the funds apportioned to the State under section 104(b)(5)(B) for such fiscal year.

The Federal share for a project carried out with funds transferred under this paragraph shall be that set forth in section 120(c) of this title, except that the Federal share for a project on a priority primary route designated in the committee print referred to in section 120(k) shall be that set forth in section 120(k).".

(b) CONFORMING AMENDMENTS.—(1) Section 119(a) of such title is amended by striking out "section 105 of the Federal-Aid Highway Act of 1978" and inserting in lieu thereof "subsection (e)".

(2) Section 105 of the Federal-Aid Highway Act of 1978 is amended by striking out all that follows the first sentence.

SEC. 118. FEDERAL SHARE.

(a) CERTAIN HIGHWAY SAFETY CONSTRUCTION PROJECTS.—Section 120(d) of title 23, United States Code, is amended by inserting after "vanpooling" the following: "or for installation of traffic signs, highway lights, guardrails, or impact attenuators".

(b) PRIORITY PRIMARY PROJECTS.—Section 120 of such title is amended by redesignating the second subsection (i) and subsections (j) and (k) (and any reference thereto) as subsections (j), (k), and (l), respectively, and in subsection (k) as so redesignated by striking out "97-61" and inserting in lieu thereof "100-3".

(c) GREAT RIVER ROAD.—Section 120 of such title is amended—

(1) in subsection (k), as redesignated by subsection (b), by striking out ", 148, and 155," and inserting in lieu thereof "and 155"; and

(2) by adding at the end thereof the following new subsection:

"(m) GREAT RIVER ROAD PROJECTS.—Notwithstanding any other provision of this section, this title, or any other law, in any case where a State elects to use funds apportioned to it for any Federal-aid system for any project under section 148 of this title, the Federal share payable on account of such project shall be 95 percent of the cost thereof; except that if a State requests that the Federal share payable on account of such project be a percentage of the cost of such project which is less than 95 percent but not less than 75 percent, such percentage shall be the Federal share payable on account of such project.".

(d) INCENTIVE PROGRAM FOR THE USE OF COAL ASH.—

(1) CONGRESSIONAL FINDINGS.—The Congress hereby finds and declares (A) that it is in the national interest to encourage and promote utilization by the States of materi-

als which are produced from coal ash in highway and bridge construction projects under title 23, United States Code, and (B) that the use of such materials in such projects conserves energy, encourages resource recovery, and reduces the cost of such projects.

(2) Increased federal share.—Notwithstanding sections 119, 120, and 144 of title 23, United States Code, in each of fiscal years 1987, 1988, 1989, 1990, and 1991, the percentage specified in such sections as the Federal share of the cost payable on account of any highway or bridge construction project in which materials produced from coal ash are used in significant amounts shall be increased by adding 5 percent to such percentage; except that in no case shall the Federal share payable on account of any project exceed 95 percent of the cost of such project as a result of increasing such Federal share under this subsection.

SEC. 119. EMERGENCY RELIEF.

(a) Obligation Ceiling.—Section 125(b) of title 23, United States Code, is amended by striking out "$30,000,000" and all that follows through "1985) in any State." and inserting in lieu thereof "$50,000,000 ($55,000,000 with respect to natural disasters and catastrophic failures occurring in calendar year 1985 or $100,000,000 with respect to natural disasters and catastrophic failures occurring in calendar year 1986) in any State.".

(b) Territories.—

(1) Treated as states.—Section 125 of title 23, United States Code, is amended by adding at the end thereof the following new subsection:

"(d) Treatment of Territories.—For purposes of this section, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands shall be considered to be States and parts of the United States, and the chief executive officer of each such territory shall be considered to be a Governor of a State.".

(2) Limitation on obligations.—The first sentence of subsection (b) of such section 125 is amended by inserting "(1)" before "obligations" and by inserting before the period at the end the following: ", and (2) the total obligations for projects under this section in any fiscal year in the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands shall not exceed $5,000,000".

(3) Effective date.—The amendments made by paragraphs (1) and (2) shall take effect April 15, 1983.

(c) Eligible Project.—A project to repair or reconstruct any portion of an interstate route in the vicinity of Salt Lake City, Utah, which was damaged by flooding of the Great Salt Lake that occurred in 1983 shall be eligible for assistance under section 125 of title 23, United States Code, and the Secretary is authorized to reimburse, with funds made available under such section, the State of Utah for any work carried out on such project. Funds reimbursed to such State pursuant to this subsection shall be treated as if such funds are apportioned to such State under section 104(b)(5)(B) of title 23, United States Code.

SEC. 120. TANK TRUCKS.

(a) Exception to General Vehicle Weight Rule.—The second sentence of subsection (a) of section 127 of title 23, United States Code (relating to vehicle weight limitations for the Interstate system), is amended—

(1) by inserting "(1)" before "is thirty-six feet or more";

(2) by inserting after "thirty-six feet or more" the following: ", or (2) in the case of a motor vehicle hauling any tank trailer, dump trailer) or ocean transport container before September 1, 1988, is 30 feet or more; and

(3) by inserting after "except in the case of the overall gross weight of any group of two or more consecutive axles" the following: "on any vehicle (other than a vehicle comprised of a motor vehicle hauling any tank trailer or ocean transport container or dump trailer on or after September 1, 1988)".

(b) Ocean Transport Container Defined.—Such section 127 is amended by adding at the end thereof the following new subsection:

"(c) Ocean Transport Container Defined.—For purposes of this section, the term 'ocean transport container' has the meaning given the term 'freight container' by the International Standards Organization in Series 1, Freight Containers, 3rd Edition (reference number IS0668-1979(E)) as in effect on the date of the enactment of this subsection.".

(c) Conforming Amendments.—Such section is further amended—

(1) in subsection (a) by inserting "In General.—" before "No funds"; and

(2) in subsection (b) by inserting "Reasonable Access.—" before "No State".

SEC. 121. EXTENSION OF TOLLS TO FINANCE CERTAIN INELIGIBLE CONSTRUCTION EXPENSES.

(a) In General.—Section 129(e) of title 23, United States Code, is amended by striking out the semicolon at the end of paragraph (1) and inserting in lieu thereof the following: ", except for such indebtedness as may be incurred to finance any cost associated with a feature of the project on the toll road in which the Secretary does not permit Federal participation with funds apportioned under section 104(b)(5)(A) of this title and which is recommended to be included as a part of the project by the final environmental impact statement with respect to such project;".

(b) Conforming Amendments.—Such section is further amended—

(1) in paragraph (2) by inserting "(A)" after "applied to", by inserting "(i)" after "only", and by striking out "toll road and" and inserting in lieu thereof "toll road, (ii) any indebtedness incurred to finance any cost of such a feature, and (iii) any funds advanced by the State to finance any cost of such a feature, and (B)"; and

(2) by striking out the period at the end thereof and inserting in lieu thereof "and repay all such indebtedness and funds advanced.".

SEC. 122. HIGHWAY BEAUTIFICATION.

(a) New Program.—

(1) General rules.—Section 131 of title 23, United States Code, as amended by subsections (b) and (c) of this section, is amended by striking out subsections (a) through (q) and inserting in lieu thereof the following:

"(a) Findings.—The Congress hereby finds and declares that the erection and maintenance of outdoor advertising signs, displays, and devices in areas adjacent to the Interstate System and the Federal-aid primary system should be controlled in order to protect the public investment in such highways, to promote the safety and recreational value of public travel, and to preserve natural beauty.

"(b) Reduction in Apportionments.—Federal-aid highway funds apportioned on or after January 1, 1968, to any State which the Secretary determines has not made provision for effective control of the erection and maintenance along the Interstate System and the Federal-aid primary system of outdoor advertising signs, displays, and devices which are within 660 feet of the nearest edge of the right-of-way and visible from the main traveled way of such system, and Federal-aid highway funds apportioned on or after January 1, 1975, or after the expiration of the next regular session of the State legislature, whichever is later, to any State which the Secretary determines has not made provision for effective control of the erection and maintenance along the Interstate System and the Federal-aid primary system of those additional outdoor advertising signs, displays, and devices which are more than 660 feet off the nearest edge of the right-of-way, located outside of urban areas, visible from the main traveled way of such system, and erected with the purpose of their message being read from such main traveled way shall be reduced by such amount as the Secretary determines appropriate but not less than 5 percent, and not more than 10 percent, of the amounts which would otherwise be apportioned to such State under section 104 of this title, until such time as such State shall provide for such effective control. Any amount which is withheld from apportionment to any State under this subsection shall be reapportioned to the other States.

"(c) Effective Control.—

"(1) General rule.—Effective control means that such signs, displays, or devices after January 1, 1968, if located within 660 feet of the right-of-way, and on or after July 1, 1975, or after expiration of the next regular session of the State legislature, whichever is later, if located beyond 660 feet of the right-of-way, located outside of urban areas, visible from the main traveled way of such system, and erected with the purpose of their message being read from such main traveled way, shall, pursuant to this section, be limited to—

"(A) directional and official signs and notices which signs and notices shall include, but not be limited to, signs and notices pertaining to natural wonders, scenic and historical attractions, which are required or authorized by law, which shall conform to national standards hereby authorized to be promulgated by the Secretary under this section, which standards shall contain provisions concerning lighting, size, number, and spacing of signs, and such other requirements as may be appropriate to implement this section;

"(B) signs, displays, and devices advertising the sale or lease of property upon which they are located;

"(C) signs, displays, and devices, including those which may be changed at reasonable intervals by electronic process or by remote control, advertising activities conducted on the property on which they are located;

"(D) signs lawfully in existence on October 22, 1965, determined by the State, subject to the approval of the Secretary, to be landmark signs, including signs on farm structures or natural surfaces, of historic or artistic significance the preservation of which would be consistent with the purposes of this section;

"(E) signs, displays, and devices advertising the distribution by nonprofit organizations of free coffee to individuals traveling on the Interstate System or the Federal-aid primary system; and

"(F) temporary or seasonal signs, displays, and devices advertising locations at which consumers may harvest and purchase agricultural commodities from farmers producing such commodities which signs, displays, and devices do not exceed 150 square feet.

For the purposes of this subsection, the term 'free coffee' shall include coffee for which a donation may be made, but is not required.

"(2) ANNUAL INVENTORY.—As part of effective control, each State shall maintain an annual inventory of all outdoor advertising signs, displays, and devices required to be controlled pursuant to this section. Such inventory shall identify all such signs which are illegal, which are nonconforming, and which are conforming under State law. An inventory shall not be required in States which the Secretary determines have a permit and enforcement system which requires a permit for all lawful signs required to be controlled by this section and has the capability of promptly identifying all unlawful signs.

"(3) REMOVAL DATE.—As part of effective control, each State shall assure that signs, displays, and devices required to be removed by this section shall be removed within 90 days of—

"(A) if not entitled to receive just compensation pursuant to this section, the date upon which they become unlawful or October 1, 1988, whichever is later; or

"(B) if entitled to receive just compensation pursuant to this section, the date upon which such compensation is paid.

"(4) EFFECT OF UNLAWFUL ALTERATIONS.—Except as provided under guidelines issued by the Secretary, no State, as part of effective control, may allow or undertake any vegetation removal or other alteration of the highway right-of-way if the purpose of such removal or alteration is improving the visibility of any outdoor advertising sign, display, or device located outside the right-of-way. If the owner of a sign, display, or device undertakes or has undertaken vegetation removal or other alteration of the right-of-way not in accordance with such guidelines, the sign, display, or device shall, for purposes of this section, be treated as unlawful as of the date of such removal or alteration.

"(5) LIMITATION ON PERMITTING.—As part of effective control, no State may permit any person to modify any outdoor advertising sign, display, or device which does not conform with this subsection or subsection (d) of this section to improve its visibility or its useful life. Nothing in this paragraph shall be construed to prevent the owner of a sign, display, or device or a person employed by such owner from performing routine maintenance of such sign, display, or device.

"(d) COMMERCIAL AND INDUSTRIAL AREAS.—

"(1) GENERAL RULE.—In order to promote the reasonable, orderly, and effective display of outdoor advertising while remaining consistent with the purposes of this section, signs, displays, and devices whose size, lighting, and spacing, consistent with customary use is determined by agreement between the several States and the Secretary may be erected and maintained within 660 feet of the nearest edge of the right-of-way within areas adjacent to the Interstate System and Federal-aid primary system which are zoned industrial or commercial under the authority of State law, or in unzoned commercial or industrial areas as may be determined by agreement between the several States and the Secretary. The States shall have full authority under their own zoning laws to zone areas for commercial or industrial purposes, and the actions of the States in this regard will be accepted for the purposes of this section. Whenever a bona fide State, county, or local zoning authority has made a determination of customary use, such determination will be accepted in lieu of controls by agreements in the zoned commercial or industrial areas within the geographical jurisdiction of such authority. Nothing in this subsection shall apply to signs, displays, and devices referred to in subparagraphs (B) and (C) of subsection (c)(1) of this section.

"(2) LIMITATION ON NEW SIGNS.—

"(A) GENERAL RULE.—Subject to the provisions of this paragraph, after July 1, 1987, no new sign, display, or device may be erected pursuant to the authority of this subsection.

"(B) APPLICABILITY OF JUST COMPENSATION REQUIREMENTS.—Except as provided in subparagraph (C), any sign, display, or device lawfully erected under State law after July 1, 1987, shall not be subject to the provisions of subsection (g), relating to just compensation.

"(C) EXCEPTION.—A State may permit a person, at his or her option, to erect in such State a sign, display, or device in accordance with the requirements of paragraph (1) upon removal without payment of just compensation under subsection (g) of a sign, display, or device lawfully erected under this subsection; except that the total number of signs, displays, and devices erected and maintained under this subsection shall not exceed the number of signs, displays, and devices lawfully erected before July 1, 1987, pursuant to the authority of this subsection in such State and in existence on July 1, 1987.

"(3) LIMITATION ON UNZONED COMMERCIAL AREAS.—After July 1, 1987, no area which on such date is not designated as an unzoned commercial or industrial area for purposes of paragraph (1) may be established in such State for purposes of paragraph (1).

"(e) LIMITATION ON REMOVALS.—The Secretary shall not require a State to remove any sign, display, or device lawfully erected which does not conform to this section. Nothing in this subsection shall prevent a State from removing any sign, display, or device.

"(f) PUBLIC INTEREST SIGNS.—The Secretary shall, in consultation with the States, provide within the rights-of-way for areas at appropriate distances from interchanges on the Interstate System, on which signs, displays, the devices giving specific information in the interest of the traveling public may be erected and maintained. The Secretary may also, in consultation with the States, provide within the rights-of-way of the Federal-aid primary system for areas in which signs, displays, and devices giving specific information in the interest of the traveling public may be erected and maintained. Such signs shall conform to national standard to be promulgated by the Secretary.

"(g) JUST COMPENSATION.—

"(1) GENERAL RULE.—Just compensation shall be paid upon the removal of any outdoor advertising sign, display, or device lawfully erected under State law and not permitted under subsection (c) of this section, whether or not removed pursuant to or because of this section. The Federal share of such compensation shall be 75 percent or such lesser percentage as may be agreed upon by the Secretary and the State. Such compensation shall be paid for the following:

"(A) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device.

"(B) The taking from the owner of the real property on which the sign, display, or device is located, of the right to erect and maintain such signs, displays, and devices thereon.

"(2) LIMITATION ON USE OF MATERIALS.—A sign, display, or device acquired with funds made available pursuant to this section may be disposed of by sale or other means to a private party only if the State receives satisfactory written assurances that the material out of which such sign, display, or device is constructed will not be used to construct or reconstruct an outdoor advertising sign, display, or device.

"(h) PUBLIC LANDS.—

"(1) GENERAL RULE.—All public lands or reservations of the United States (other than lands held in trust for Indian nations, reservations, or allotted tribal members) which are adjacent to any portion of the Interstate System and the Federal-aid primary system shall be controlled in accordance with the provisions of this section and the national standards promulgated by the Secretary.

"(2) REGULATIONS.—No outdoor advertising sign, display, or device shall be permitted on land owned or controlled by the United States (other than lands held in trust for Indian nations, reservations, or allotted tribal members), unless such sign, display, or device conforms to regulations issued by the Federal agency with jurisdiction over, or responsibility for, such land. Such regulations shall be at least as stringent as the requirements of this section and the requirements of the State in which the land is located. The regulations required by this paragraph shall be developed in consultation with the Secretary of Transportation and shall be promulgated within 12 months after the date of the enactment of the Federal-Aid Highway Act of 1987.

"(i) REST AREAS.—In order to provide information in the specific interest of the traveling public, and State highway departments are authorized to maintain maps and to permit information directories and advertising pamphlets to be made available at safety rest areas. Subject to the approval of the Secretary, a State may also establish information centers at safety rest areas and other travel information systems within the rights-of-way for the purpose of informing the public of places of interest within the State and providing such other information as a State may consider desirable. The Federal share of the cost of establishing such a information center or travel information system shall be that which is provided in section 120 for a highway project on that Federal-aid system to be served by such center or system.

"(j) BONUS PAYMENTS.—Any State highway department which has, under this section as in effect on June 30, 1965, entered into an agreement with the Secretary to control the erection and maintenance of outdoor advertising signs, displays, and devices in areas adjacent to the Interstate System shall be entitled to receive the bonus payments as set forth in the agreement, but no such State highway department shall be entitled to such payments unless the State maintains the control required under such agreement. Permission by a State to erect and maintain information displays which may be changed at reasonable intervals by electronic process or remote control and which provide public service information or advertising activities conducted on the property on which they are located shall not be considered a breach of such agreement or the control required thereunder. Such payments shall be paid only from appropriations made available to carry out this section. The provisions of this subsection shall not be construed to exempt any State from controlling outdoor advertising as otherwise provided in this section.

"(k) Stricter State Laws.—Subject to compliance with subsection (g) of this section for the payment of just compensation, nothing in this section shall prohibit a State from establishing standards imposing stricter limitations with respect to signs, displays, and devices on the Federal-aid highway systems than those established under this section.

"(l) Procedures.—Not less than 60 days before making a final determination to withhold funds from a State under subsection (b) of this section, or to do so under subsection (b) of section 136, or with respect to failing to agree as to the size, lighting, and spacing of signs, displays, and devices or as to unzoned commercial or industrial areas which signs, displays, and devices may be erected and maintained under subsection (d) of this section, or with respect to failure to approve under subsection (g) of section 136, the Secretary shall give written notice to the State of his proposed determination and a statement of the reasons therefor, and during such period shall give the State an opportunity for a hearing on such determination. Following such hearing, the Secretary shall issue a written order setting forth his final determination and shall furnish a copy of such order to the State. Within 45 days of receipt of such order, the State may appeal such order to any United States district court for such State, and upon the filing of such appeal, such order shall be stayed until final judgment has been entered on such appeal. Summons may be served at any place in the United States. The court shall have jurisdiction to affirm the determination of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the United States court of appeals for the circuit in which the State is located and to the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code. If any part of an apportionment to a State is withheld by the Secretary under subsection (b) of this section or subsection (b) of section 136, the amount so withheld shall not be reapportioned to the other States as long as a suit brought by such State under this subsection is pending. Such amount shall remain available for apportionment in accordance with the final judgment and this subsection. Funds withheld from apportionment and subsequently apportioned or reapportioned under this section shall be available for expenditure for three fiscal years after the date of such apportionment or reapportionment, as the case may be.

"(m) Funding.—A State may use to carry out this section in any fiscal year beginning after September 30, 1988, not to exceed ¼ of 1 percent of—

"(1) funds apportioned in such fiscal year to such State for the Federal-aid primary system under section 104(b)(1) of this title or section 108 of the Surface Transportation Assistance Act of 1982; and

"(2) funds apportioned in such fiscal year to such State for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System under section 104(b)(5)(B) of this title.

"(n) Retention of Directional Signs.—The Secretary may approve the request of a State to permit retention in specific areas defined by such State of directional signs, displays, and devices lawfully erected under State law in force at the time of their erection which do not conform to the requirements of subsection (c)—

"(1) where such signs, displays, and devices are in existence on the date of the enactment of subsection (o) of this section as this section was in effect on the day before the date of the enactment of the Federal-Aid Highway Act of 1987; and

"(2) where the State demonstrates that such signs, displays, and devices—

"(A) provide directional information about goods and services in the interest of the traveling public; and

"(B) are such that removal would work a substantial economic hardship in such defined area.

"(o) Directional Information Program.—

"(1) Development assistance.—During the implementation of State laws enacted to comply with this section, the Secretary shall encourage and assist the States to develop sign controls and programs which will assure that necessary directional information about facilities providing goods and services in the interest of the traveling public will continue to be available to motorists. To this end, the Secretary shall restudy and revise as appropriate existing standards for directional signs authorized under subsections (c)(1)(A) and (f) to develop signs which are functional and esthetically compatible with their surroundings. The Secretary shall employ the resources of other Federal departments and agencies, including the National Endowment for the Arts, and employ maximum participation of private industry in the development of standards and systems of signs developed for those purposes.

"(2) Deferral of removal.—Among other things, the Secretary shall encourage States to adopt programs to assure that removal of signs providing necessary directional information, which also were providing directional information on June 1, 1972, about facilities in the interest of the traveling public, be deferred until all nonconforming signs are removed.".

(2) Effective date.—The amendments made by paragraph (1) of this subsection shall take effect October 1, 1988; except that the regulations required by subsection (h)(2) of section 131, as added by such paragraph (1), shall be promulgated within 12 months after the date of the enactment of this Act.

(b) Interim Amendments.—

(1) Limitation on new commercial zone signs.—Section 131(d) of title 23, United States Code, is amended by inserting "(1)" before "In order to promote" and by adding at the end thereof the following new paragraphs:

"(2)(A) Subject to the provisions of this paragraph, after July 1, 1987, no new sign, display, or device may be erected pursuant to the authority of this subsection.

"(B) Except as provided in subparagraph (C), any sign, display, or device lawfully erected under State law after July 1, 1987, shall not be subject to the provisions of subsection (g), relating to just compensation.

"(C) A State may permit a person, at his or her option, to erect in such State a sign, display, or device in accordance with the requirements of paragraph (1) upon removal without payment of just compensation under subsection (g) of a sign, display, or device lawfully erected under this subsection; except that the total number of signs, displays, and devices erected and maintained under this subsection shall not exceed the number of signs, displays, and devices lawfully erected before July 1, 1987, pursuant to the authority of this subsection in such State and in existence on July 1, 1987.

"(3) After July 1, 1987, no area which on such date is not designated as an unzoned commercial or industrial area for purposes of paragraph (1) may be established in such State for purposes of paragraph (1).".

(2) Funding.—Section 131(m) of title 23, United States Code, is amended to read as follows:

"(m) A State may use to carry out this section in any fiscal year beginning after September 30, 1986, not to exceed ¼ of 1 percent of—

"(1) funds apportioned in such fiscal year to such State for the Federal-aid primary system under section 104(b)(1) of this title or section 108 of the Surface Transportation Assistance Act of 1982; and

"(2) funds apportioned in such fiscal year to such State for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System under section 104(b)(5)(B) of this title.".

(3) Farm produce signs.—Section 131(c) of such title is amended by striking out "and" at the end of clause (4) and by striking out the period at the end of such section and inserting in lieu thereof the following: ", and (6) temporary or seasonal signs, displays, and devices advertising locations at which consumers may harvest and purchase agricultural commodities from farmers producing such commodities which signs, displays, and devices do not exceed 150 square feet.".

(4) Federal share.—Section 131(g) of such title is amended by inserting after "75 per centum" the following: "or such lesser percentage as may be agreed upon by the Secretary and the State".

SEC. 123. BRIDGE PROGRAM.

(a) Discretionary Program.—Section 144(g) of title 23, United States Code, is amended to read as follows:

"(g) Set Asides.—

"(1) Discretionary bridge program.—Of the amount authorized per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991 by section 202 of the Highway Safety Act of 1987, all but $250,000,000 per fiscal year shall be apportioned as provided in subsection (e) of this section. $250,000,000 per fiscal year of the amount authorized for each of such fiscal years shall be available for obligation on the date of each such apportionment in the same manner and to the same extent as the sums apportioned on such date, except that the obligation of such $250,000,000 shall be at the discretion of the Secretary.

"(2) Eligible discretionary projects.—Amounts made available by paragraph (1) for obligation at the discretion of the Secretary may be obligated only—

"(A) for a project for a highway bridge the replacement or rehabilitation cost of which is more than $10,000,000, and

"(B) for a project for a highway bridge the replacement or rehabilitation cost of which is less than $10,000,000 if such cost is at least twice the amount apportioned to the State in which such bridge is located under subsection (e) for the fiscal year in which application is made for a grant for such bridge.

"(3) Off-system bridges.—Not less than 15 percent nor more than 35 percent of the amount apportioned to each State in each of fiscal years 1987, 1988, 1989, 1990, and 1991, shall be expended for projects to replace or rehabilitate highway bridges located on public roads, other than those on a Federal-aid system. The Secretary after consultation with the State and local officials may, with respect to a State, reduce the requirement for expenditure for bridges not on a Federal-aid system when the Secretary determines that such State has inadequate needs to justify such expenditure.".

(b) Applicability of the General Bridge Act of 1948.— Section 144(h) of such title is amended—

(1) by striking out "which are not subject to the ebb and flow of the tide, and" and inserting in lieu thereof "(1)"; and

(2) by striking out the period at the end thereof and inserting in lieu thereof ", and (2) which are (a) not tidal, or (b) if tidal, used only by recreational boating, fishing, and other small vessels less than 21 feet in length.".

(c) Inventories and Reports.—Section 144(i) of such title is amended to read as follows:

"(i) Inventories and Reports.—The Secretary shall—

"(1) report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives on projects approved under this section;

"(2) annually revise the current inventories authorized by subsections (b) and (c) of this section;

"(3) report to such committees on such inventories; and

"(4) report to such committees such recommendations as the Secretary may have for improvements of the program authorized by this section.

Such reports shall be submitted to such committees biennially at the same time as the report required by section 307(e) of this title is submitted to Congress.".

(d) Bridges to Replace Certain Ferryboat Services.—

(1) In general.—Section 144 of such title is amended by redesignating subsection (m), and any references thereto, as subsection (n) and by inserting after subsection (l) the following new subsection:

"(m) Bridges to Replace Ferryboat Service.—Notwithstanding any other provision of this section or any other law, upon application of the State of Arkansas for assistance for construction of a highway bridge to replace ferryboat service which was being provided in such State for motor vehicles on January 3, 1983, the Secretary may approve under this section a project for such construction at a Federal share payable of 80 percent of the cost thereof.".

(2) Conforming modification of apportionment formula.—Subsection (e) of such section is amended by inserting after the third sentence the following new sentence: "For purposes of the preceding sentence, the total cost of deficient bridges in the State of Arkansas and in all States shall be reduced by the total cost of any highway bridges constructed under subsection (m), relating to replacement of ferryboat service.".

(e) Discretionary Bridge Criteria.—Section 161 of the Highway Improvement Act of 1982 (23 U.S.C. 144 note) is amended by inserting before the period at the end of the second sentence ", including a bridge replacement of which was partially funded under the Supplemental Appropriations Act, 1983 (97 Stat. 341)".

SEC. 124. MINIMUM ALLOCATION.

(a) Planning as a Fundable Item; Treatment of Withheld Apportionments.—Section 157 of title 23, United States Code, is amended by redesignating subsection (c), and any references thereto, as subsection (e) and by inserting after subsection (b) the following new subsections:

"(c) Limitation on Planning Expenditures.—One-half of one percent of amounts allocated to each State under this section in any fiscal year may be available for expenditure for the purpose of carrying out the requirements of section 134 of this title (relating to transportation planning). One and one-half percent of the amounts allocated to each State under this section in any fiscal year may be available for expenditure for the purpose of carrying out activities referred to in subsection (c) of section 307 of this title (relating to transportation planning and research).

"(d) Treatment of Withheld Apportionments.—For purposes of subsection (a), any funds which, but for section 154(f) or 158(a) of this title or any other provision of law under which Federal-aid highway funds are withheld from apportionment, would be apportioned to a State in a fiscal year under a section referred to in subsection (a) shall be treated as being apportioned in such year.".

(b) Extension of Program.—

(1) In general.—Subsection (a) of section 157 of title 23, United States Code, is amended by striking out "September 30, 1984, September 30, 1985, and September 30, 1986," and inserting in lieu thereof "on or after September 30, 1984,".

(2) Authorization of appropriations.—Subsection (e) of such section 157, as redesignated by subsection (a) of this section, is amended by striking out "September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986" and inserting in lieu thereof "on or after September 30, 1983".

SEC. 125. NATIONAL BRIDGE INSPECTION PROGRAM.

(a) In General.—Chapter 1 of title 23, United States Code, is amended by striking out section 151 (relating to pavement marking demonstration program) and inserting in lieu thereof the following:

"§ 151. National bridge inspection program

"(a) National Bridge Inspection Standards.—The Secretary, in consultation with the State highway departments and interested and knowledgeable private organizations and individuals, shall establish national bridge inspection standards for the proper safety inspection and evaluation of all highway bridges.

"(b) Minimum Requirements of Inspection Standards.—The standards established under subsection (a) shall, at a minimum—

"(1) specify, in detail, the method by which such inspections shall be carried out by the States;

"(2) establish the maximum time period between inspections;

"(3) establish the qualification for those charged with carrying out the inspections;

"(4) require each State to maintain and make available to the Secretary upon request—

"(A) written reports on the results of highway bridge inspections together with notations of any action taken pursuant to the findings of such inspections; and

"(B) current inventory data for all highway bridges reflecting the findings of the most recent highway bridge inspections conducted; and

"(5) establish a procedure for national certification of highway bridge inspectors.

"(c) Training Program for Bridge Inspectors.—The Secretary, in cooperation with the State highway departments, shall establish a program designed to train appropriate governmental employees to carry out highway bridge inspections. Such training program shall be revised from time to time to take into account new and improved techniques.

"(d) Availability of Funds.—To carry out this section, the Secretary may use funds made available pursuant to the provisions of section 104(a), section 307(a), and section 144 of this title.".

(b) Conforming Amendments.—(1) The analysis for chapter 1 of such title is amended by striking out the item relating to section 151 and inserting in lieu thereof the following:

"151. National bridge inspection program.".

(2) Section 116 of such title (relating to highway maintenance) is amended by striking out subsections (d) and (e).

SEC. 126. INCOME FROM AIRSPACE RIGHTS-OF-WAY.

(a) Requirement.—Chapter 1 of title 23, United States Code, is amended by striking out section 156 (relating to highways crossing Federal projects) and inserting in lieu thereof the following:

"§ 156. Income from airspace rights-of-way

"Net income received by any State after September 30, 1987, from the use, lease, or sale of any airspace associated with any project carried out before, on, or after the date of the enactment of the Federal-Aid Highway Act of 1987 in whole or in part with Federal assistance made available from the Highway Trust Fund (other than the Mass Transit Account) shall be used by such State to carry out projects eligible for Federal assistance under this chapter.".

(b) Conforming Amendment.—The analysis for such chapter is amended by striking out the item relating to section 156 and inserting in lieu thereof the following:

"156. Income from airspace rights-of-way.".

SEC. 127. STRATEGIC HIGHWAY RESEARCH PROGRAM.

Section 307 of title 23, United States Code (relating to research and planning), is amended by redesignating subsections (d) and (e) (and any references thereto) as subsections (e) and (f), respectively, and by inserting after subsection (c) the following new subsection:

"(d) Strategic Highway Research Program.—

"(1) Establishment.—The Secretary, in consultation with the American Association of State Highway and Transportation Officials, shall carry out such research, development, and technology transfer activities as the Secretary determines to be strategically important to the national highway transportation system.

"(2) Cooperative agreements.—The Secretary may make grants to, and enter into cooperative agreements with, the American Association of State Highway and Transportation Officials and the National Academy of Sciences to carry out such activities under this subsection as the Secretary determines are appropriate. Advance payments may be made as necessary to carry out such cooperative agreements.

"(3) Period of availability.—Funds set aside to carry out this subsection shall remain available for the fiscal year in which such funds are made available and the three succeeding fiscal years.

"(4) Set aside.—As soon as practicable after the date of the enactment of the Federal-Aid Highway Act of 1987 in fiscal year 1987 and on October 1 of each of fiscal years 1988, 1989, 1990, and 1991, the Secretary shall set aside to carry out this subsection not to exceed ¼ of 1 percent of the funds authorized to be appropriated for such fiscal year for the Federal-aid systems, for highway assistance programs under section 103(e)(4) of this title, for bridge replacement and rehabilitation under section 144 of this title, for elimination of hazards under section 152 of this title, and for elimination of hazards of railway-highway crossings under section 203 of the Highway Safety Act of 1973. In the case of funds authorized for apportionment on the Interstate System, the Secretary shall set aside that portion of such funds (subject to the overall limitation of ¼ of 1 percent) in the year next preceding the fiscal year for which such funds are authorized for such System.".

SEC. 128. PLANTING OF NATIVE WILDFLOWERS.

Section 319 of title 23, United States Code, is amended by inserting "(a) Landscape and Roadside Development.—" before "The Secretary" and by adding at the end thereof the following new subsection:

"(b) Planting of Native Wildflowers.—Notwithstanding any other provision of law, not less than ¼ of 1 percent of the funds expended under landscaping contracts under this title in any State in any fiscal year beginning after the date of the enactment of this subsection shall be used for the planting of native wildflower seeds and seedlings. The requirements of this subsection may be waived by the Secretary if the State certifies that such native wildflowers or seedlings cannot be grown satisfactorily or planting areas are limited.".

SEC. 129. HIGHWAY TECHNICAL AMENDMENTS.

(a) Surface Transportation Assistance Act of 1982.—(1) The third sentence of section 108(d) of the Surface Transportation Assistance Act of 1982 is amended by striking out "this title," and inserting in lieu thereof "title 23, United States Code,".

(2) The second section 126 of such Act (relating to bicycle transportation) is amended by striking out "Sec. 126." and inserting in lieu thereof "Sec. 126A.".

(3) Section 133 of such Act is amended by striking out "(a)" the first place it appears.

(4) The first sentence of section 163 of such Act is amended to read as follows: "Notwithstanding any other provision of this Act or any other law, no funds apportioned or allocated to a State for Federal-aid highways shall be obligated for a project for constructing, resurfacing, restoring, rehabilitating, or reconstructing a Federal-aid highway which has a lane designated as a carpool lane unless the use of such lane includes use by motorcycles.".

(5) Section 165(b) of such Act is amended by inserting "or" after the semicolon at the end of clause (3).

(6) Section 411(d) of such Act (relating to length limitations) is amended by inserting "and boat" after "automobile".

(b) Title 23.—(1) The analysis for chapter 1 of title 23, United States Code, is amended (A) in the item relating to section 127 by striking out "and width", and (B) by striking out the item relating to section 146 and inserting in lieu thereof:

"146. Carpool and vanpool projects.".

(2) The fifth undesignated paragraph of section 101(a) of such title is amended by striking out "forest or trail" and inserting in lieu thereof "forest road or trail". The thirteenth undesignated paragraph of such section (relating to the definition of "park road") is amended by inserting before the period at the end thereof "and that is owned by the United States".

(3) The first sentence of section 120(f) of such title is amended by striking out ": *Provided,*" and all that follows through the period at the end of such sentence and inserting in lieu thereof a period.

(4) The first sentence of section 122 of such title is amended by inserting "or for substitute highway projects approved under section 103(e)(4) of this title" before "and the retirement".

(5)(A) Subsection (b) of section 125 of such title is amended by striking out "the Interstate System, the Primary System, and on any routes functionally classified as arterials or major collectors" each place it appears and inserting in lieu thereof "the Federal-aid highway systems, including the Interstate System".

(B) Subsection (c) of such section is amended by striking out "routes functionally classified as arterials or major collectors" and inserting in lieu thereof "on any of the Federal-aid highway systems".

(6) Subsection (e) of section 144 of such title is amended by adding at the end thereof the following: "Funds apportioned under this section shall be available for expenditure for the same period as funds apportioned for projects on the Federal-aid primary system under this title. Any funds not obligated at the expiration of such period shall be reapportioned by the Secretary to the other States in accordance with this subsection.".

(7) The second sentence of section 204(b) of such title is amended by inserting "the Secretary or" before "the Secretary of the Interior".

(c) Miscellaneous.—(1) Section 104(i)(4)(D) of the Marine Protection, Research, and Sanctuaries Act of 1972, as added by section 424 of the Surface Transportation Assistance Act of 1982, is amended by inserting "to ______" after "grant a permit".

(2) Section 12019(5) of the Commercial Motor Vehicle Safety Act of 1986 is amended by striking out "and" and by inserting "or" before "semitrailer operated".

(d) Vending Machines.—Section 111 of title 23, United States Code, is amended by inserting "(a) In General.—" before "All agreements" and by adding at the end thereof the following new subsection:

"(b) Vending Machines.—Notwithstanding subsection (a), any State may permit the placement of vending machines in rest and recreation areas, and in safety rest areas, constructed or located on rights-of-way of the Interstate System in such State. Such vending machines may only dispense such food, drink, and other articles as the State highway department determines are appropriate and desirable. Such vending machines may only be operated by the State. In permitting the placement of vending machines, the State shall give priority to vending machines which are operated through the State licensing agency designated pursuant to section 2(a)(5) of the Act of June 20, 1936, commonly known as the 'Randolph-Sheppard Act' (20 U.S.C. 107a(a)(5)). The costs of installation, operation, and maintenance of vending machines shall not be eligible for Federal assistance under this title.".

(e) Maryland Interstate Transfer.—Section 7 of the Act entitled "An Act to apportion certain funds for construction of the National System of Interstate and Defense Highways for fiscal year 1985 and to increase the amount authorized to be expended for emergency relief under title 23, United States Code, and for other purposes", approved March 9, 1984 (98 Stat. 55-56), is amended—

(1) in the first sentence by inserting "not to exceed" before "$100,000,000";

(2) in the second sentence by striking out "$100,000,000" and inserting in lieu thereof "an amount equal to the amount of such funds"; and

(3) in the third sentence by striking out "$100,000,000" and inserting in lieu thereof "an amount equal to the amount of funds transferred under this section".

(f) Park Roads.—(1) Section 303(c) of title 49, United States Code, is amended by inserting before "requiring the use" the following: "(other than any project for a park road or parkway under section 204 of title 23)".

(2) The third sentence of section 138 of title 23, United States Code, is amended by inserting before "which requires" the following: "(other than any project for a park road or parkway under section 204 of this title)".

(g) Repeal of Outdated Provisions.—

(1) Title 23.—The following sections of title 23, United States Code, and the items in the analysis for chapters 2 and 3 of such title relating to such sections are repealed: 211 (relating to timber access road hearings), 213 (relating to Rama Road), 219 (relating to safer off-system roads), and 322 (relating to demonstration project—rail crossings).

(2) Other highway laws.—Section 119 of the Federal-Aid Highway Amendments of 1974 (relating to bikeway demonstration program) and section 141 of the Federal-Aid Highway Act of 1978 (relating to bicycle program) are repealed.

(h) Relocation of Utility Facilities.—Section 123(a) of title 23, United States Code, is amended by striking out "the Federal-aid primary or secondary" and all that follows through "urban areas," and inserting in lieu thereof "any Federal-aid system,".

(i) State Police Barracks.—Notwithstanding any of the provisions of section 111 of title 23, United States Code, the Commonwealth of Massachusetts is authorized to construct a State Police Barracks, including customary access and egress on State owned property, at the intersection of I-93 and route 3 in Quincy, Massachusetts.

SEC. 130. BUY AMERICA.

(a) Limitation on the Use of Certain Foreign Cement.—Section 165(a) of the Surface Transportation Assistance Act of 1982 is amended by inserting before the period at the end thereof the following: "and unless none of the finished cement and cement clinker used in such project is produced or manufactured in any foreign country".

(b) Rolling Stock Exception.—

(1) Increase in domestic content percentage.—Section 165(b)(3) of such Act is amended by striking out "50" and inserting in lieu thereof "85".

(2) Limitation on application.—The amendment made by paragraph (1) shall not apply to procurements made pursuant to contracts entered into before January 6, 1987.

(c) Increase in Project Cost Exception.—Paragraph (4) of section 165(b) of such Act is amended by striking "10 per centum" and all that follows through the period at the end of such section and inserting in lieu thereof "25 percent.".

SEC. 131. IMPLEMENTATION OF CERTAIN ORDERS.

In implementing any order issued by the President which provides for or requires a percentage reduction in new budget authority, unobligated balances, obligated balances, new loan guarantee commitments, new direct loan obligations, spending authority, or obligation limitations for the Federal-aid highway, mass transit and highway safety programs and with respect to which the budget account activity as identified in the program and financing schedule contained in the Appendix to the Budget of the United States Government for such programs includes more than one specific highway, mass transit, or highway safety program or project for which budget authority is provided by this Act or an amendment made by this Act, the Secretary shall apply the percentage reduction equally to each such specific program or project.

SEC. 132. PROJECT ELIGIBILITY.

(a) Project Description.—Notwithstanding any other provision of law, policy, and regulation and any interpretation thereof, construction of the alternative for any interstate route which is recommended in any final environmental impact statement (1) submitted by the State of Massachusetts in September 1983, and (2) approved by the Secretary thereafter, shall be eligible for funds authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and is included as an eligible project in the 1985 interstate cost estimate, and the costs of such construction shall be included in any future interstate cost estimate. Subject to the approval of the Secretary of such impact statement, the Secretary shall enter into project agreements consistent with the provisions of title 23 of the United States Code for construction of such project.

(b) Apportionment Adjustment.—

(1) Agreement.—Upon agreement of the Secretary and the Governor of the State of Massachusetts, the Secretary shall reduce the amount of funds to be apportioned to such State under section 104(b)(5)(A) of title 23, United States Code, in each of fiscal years 1987, 1988, and 1989 to an amount sufficient to meet the obligation schedule which the Secretary and such Governor establish for construction of the project described in subsection (a) for such fiscal year.

(2) Availability of funds for discretionary projects.—Upon making any reduction under paragraph (1) in the amount of funds apportioned to the State of Massachusetts under such section in such fiscal year, the Secretary shall make available for projects in accordance with section 118(b)(2) of such title an amount equal to the amount of such reduction.

SEC. 133. ELIGIBILITY OF PARK AND RIDE FACILITIES.

(a) Eligibility for Interstate Construction Funds.—Notwithstanding any other provision of law, policy, and regulation and any interpretation thereof, construction in the vicinity of Fort Lauderdale, Florida, of 4 park and ride facilities and direct access connectors between such facilities and high occupancy vehicle lanes being constructed on a north-south interstate route which connects Miami and Jacksonville, Florida, shall be eligible for funds (not to exceed $84,000,000) authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and is included as an eligible project in the 1985 interstate cost estimate, and the cost of such construction not to exceed $84,000,000 shall be included in any future interstate cost estimate. The Secretary shall enter into project agreements consistent with the provisions of title 23 of the United States Code for construction of such facilities and connectors.

(b) Size of Facilities.—The size of each park and ride facility constructed pursuant to subsection (a) shall be sufficient to accommodate commuter demand anticipated 20 years after the date on which construction of such facility is approved.

(c) Eligibility for 4R Funding.—Notwithstanding any other provision of law, if construction of the facilities and direct access connectors described in subsection (a) costs more than $84,000,000, the State of Florida may use funds apportioned to it under section 104(b)(5)(B) of title 23, United States Code, to complete construction of such facilities and connectors.

SEC. 134. PLANNING, DESIGN, AND CONSTRUCTION.

Notwithstanding any other provision of law, the State of Arkansas may use funds apportioned to it under section 104(b)(5)(A) of title 23, United States Code, for the planning, design, and construction from Interstate Route I-40 to the boundary between Arkansas and Missouri of a two-lane north-south highway which is on the Federal-aid primary system in Arkansas and passes through an urbanized area.

SEC. 135. TRANSFER OF INTERSTATE LANES.

(a) Eligibility of Interstate Lane Project.—Any project to construct eligible interstate lanes, as defined in subsection (f), shall be eligible for funds authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and shall be included as an eligible project in any future interstate cost estimate unless the costs of such project are made not eligible for such funds by subsection (c).

(b) Approval of Substitute Transit Project.—Notwithstanding any other provision of law, upon the joint request of the Governor of the State of California and the local governments concerned, the Secretary may approve a substitute transit project for construction of a fixed guideway system in lieu of construction of any eligible interstate lanes if such substitute project is in or adjacent to the proposed right-of-way for such lanes.

(c) Eligibility for Federal Assistance.—Upon approval of any substitute transit project under subsection (b), the costs of construction of the eligible interstate lanes for which such project is substituted shall not be eligible for funds authorized under section 108(b) of the Federal-Aid Highway Act of 1956 and a sum equal to the Federal share of such costs, as included in the latest interstate cost estimate approved by Congress, shall be available to the Secretary to incur obligations under section 103(e)(4) of title 23, United States Code, for the Federal share of the costs of such substitute project.

(d) Limitation on Eligibility.—By September 30, 1989, any substitute transit project approved under subsection (b) (for which the Secretary finds that sufficient Federal funds are available) must be under contract for construction or construction must have commenced. If any such substitute transit project is not under contract for construction or construction has not commenced by such date, then immediately after such date, the Secretary shall withdraw approval of such project and no funds shall be appropriated under the authority of section 103(e)(4) of title 23, United States Code, for any such project.

(e) Administrative Provisions.—

(1) Status of substitute transit projects.—A substitute transit project approved under subsection (b) shall be deemed to be a substitute transit project for purposes of section 103(e)(4) of title 23, United States Code (other than subparagraphs (C) and (O)), except that the Federal share for such project shall be the Federal share applicable to the construction of the eligible interstate lanes for which such project is substituted.

(2) Reduction of unobligated interstate apportionments.—Unobligated apportionments for the Interstate System in the State of California shall, on the date of approval of a substitute transit project under subsection (b), be reduced in the proportion that the Federal share of the costs of the construction of the eligible interstate lanes for which such project is substituted bears to the Federal share of the total cost of all interstate routes in that State as reflected in the latest cost estimate approved by Congress.

(3) Administration through FHWA.—The Secretary shall administer this section through the Federal Highway Administration.

(f) Eligible Interstate Lanes Defined.—For purposes of this section, the term "eligible interstate lanes" means any high occupancy vehicle lanes and other lanes—

(1) which are to be constructed on any highway in Los Angeles County, California, designated as a part of the National System of Interstate and Defense Highways by section 140 of the Federal-Aid Highway Act of 1978, and

(2) the costs of construction of which are included in the interstate cost estimate for 1985.

SEC. 136. MODIFICATION OF INTERSTATE TRANSFER CONCEPT PLANS.

(a) Request for Modification by Maryland.—The Governor of the State of Maryland may request a modification of the transfer concept plan approved with respect to withdrawal of a portion of a north-south interstate route in such State and withdrawal of an interstate route which is a spur of a north-south interstate route in such State under section 103(e)(4) of title 23, United States Code—

(1) to include a substitute highway project to upgrade an 18-mile segment on the Federal-aid primary system in the vicinity of Cumberland, Maryland, and

(2) to include such substitute highway and mass transit projects which meet the requirements of such section (other than subparagraph (C)) as such Governor may request.

(b) Request for Modification by Connecticut.—The Governor of the State of Connecticut may request a modification of any transfer concept plan approved with respect to withdrawal of a portion of any interstate route in such State under section 103(e)(4) of title 23, United States Code, to include such substitute highway and mass transit projects which meet the requirements of such section (other than subparagraph (C)) as such Governor may request.

(c) Request for Modification by Massachusetts.—The Governor of the State of Massachusetts may request a modification of any transfer concept plan approved with respect to withdrawal of a portion of any interstate route in such State under section 103(e)(4) of title 23, United States Code—

(1) to include substitute highway projects to upgrade a segment on the Federal-aid pri-

mary system in the vicinity of Acton, Concord, Lincoln, and Lexington, Massachusetts, and

(2) to include such substitute highway and mass transit projects which meet the requirements of such section (other than subparagraph (C)) as such Governor may request.

(d) CRITERIA FOR APPROVAL.—Notwithstanding section 103(e)(4) of title 23, United States Code, the Secretary shall approve a modification under subsection (a), (b), or (c) if the Governor of the State of Maryland, Connecticut, or Massachusetts, as the case may be—

(1) submits a request for such modification to the Secretary before September 30, 1987; and

(2) such modification will not result in any increase in the amount of funds available to the Secretary to incur obligations for the Federal share of substitute projects under the transfer concept plan.

(e) EFFECT OF APPROVAL.—Upon approval of a modification under this section, substitute projects described in such modification for inclusion in the transfer concept plan shall be deemed to meet the requirements of subparagraph (C) of section 103(e)(4) of title 23, United States Code.

SEC. 137. PAYBACK OF RIGHT-OF-WAY EXPENSES.

(a) EFFECT OF REPAYMENT.—Upon repayment by the State of New York to the Treasurer of the United States of an amount as determined by the Secretary to be equal to the amount of Federal funds expended to acquire property for the portion of I-478 which was withdrawn from the Interstate System in accordance with the provisions of section 103(e)(4) of title 23, United States Code, the State of New York shall be absolved of any further responsibility for repayment and will be deemed to have fully met all of the repayment requirements of section 103(e)(7) of such title.

(b) USE OF REPAID FUNDS.—The amount repaid to the United States under this section shall be deposited to the credit of the appropriation for "Federal-Aid Highway (Trust Fund)". Such repayment shall be credited to the unprogrammed balance of funds apportioned to the State of New York in accordance with section 104(b)(1) of title 23, United States Code. The amount so credited shall be in addition to all other funds then apportioned to such State and shall be available for expenditure in accordance with the provisions of such title.

SEC. 138. EXPENDITURE OF FEDERAL HIGHWAY FUNDS IN VIRGIN ISLANDS.

(a) LIMITATION.—

(1) IN GENERAL.—Notwithstanding any other provision of law and subject to paragraph (2), no Federal funds shall be expended for the planning, design, and construction of any highway which extends eastward from the vicinity of the Windward Passage Hotel on the western fringe of Charlotte Amalie, Virgin Islands, and a segment of which parallels the existing Charlotte Amalie waterfront and requires extensive landfill along the waterfront.

(2) EXCEPTION.—Federal funds may be expended under a project agreement entered into before January 1, 1986, for planning and design of a highway described in paragraph (1).

(b) FEASIBLE ALTERNATIVES.—

(1) REVIEW.—The Secretary, in cooperation with the Virgin Islands Department of Public Works, shall review existing studies relating to traffic congestion in and around Charlotte Amalie, Virgin Islands, for the purpose of determining feasible alternatives to construction of a highway described in subsection (a) which will reduce traffic congestion in and around Charlotte Amalie.

(2) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall report to Congress on the results of the review under this subsection.

SEC. 139. EXEMPTION FROM RIGHT-OF-WAY RESTRICTION.

A facility located in part on the right-of-way of Interstate Route I-94 in Michigan and in the vicinity of the interchange of I-94 and Michigan State Route 25 is hereby exempt from the restrictions contained in section 111 of title 23, United States Code, prohibiting certain commercial establishments on rights-of-way of the Interstate System. Such exemption shall be for the purpose of permitting the Michigan Department of Transportation to enter into a lease agreement allowing the use of such facility for the sale of only those articles which are for export and for consumption outside the United States.

SEC. 140. DONATION OF LANDS.

(a) MARKET VALUE OF DONATED LANDS AS PROJECT COSTS.—Notwithstanding any other provision of law, the fair market value of any lands which have been or in the future are donated or dedicated to the State of California and which are necessary for the right-of-way for relocation and construction of California State Route 73 in Orange County, California, from its interchange with Interstate Route I-405 to its interchange with Interstate Route I-5—

(1) shall be included as a part of the cost of such relocation and construction project, and

(2) shall be credited first toward payment of the non-Federal share of the cost of such relocation and construction project.

(b) CREDIT FOR EXCESS VALUE OF DONATED LANDS ABOVE PROJECT COSTS.—If the fair market value of the lands referred to in subsection (a) exceeds the non-Federal share of the relocation and construction project referred to in subsection (a), then the excess amount, upon the request of the State of California, shall be credited toward the non-Federal share of the cost of any other project on the Federal-aid system in Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties, California.

(c) RECORDED IRREVOCABLE OFFER OF DONATION TREATED AS DONATION.—To further the purposes of this section and section 323 of title 23, United States Code, any recorded irrevocable offer of dedication or donation of property within the right-of-way for the project referred to in subsection (a) shall be considered as part of the State right-of-way acquisition for purposes of this section if such offer is irrevocable and effective no later than such time as the State of California requests final reimbursement for the Federal share.

(d) LIMITATION.—In no case shall the amount of Federal-aid reimbursement to the State of California on account of the relocation and construction project referred to in subsection (a) exceed the actual cost to the State for such project.

SEC. 141. SHIRLEY HIGHWAY TRAFFIC RESTRICTIONS.

(a) EXPRESS LANES.—

(1) RUSH HOUR RESTRICTIONS.—The State of Virginia and the District of Columbia shall prohibit the use of the Shirley Highway express lanes by a vehicle other than a bus, an emergency vehicle, a vehicle carrying four or more persons, and a motorcycle—

(A) on northbound lanes, during the hours of 6 o'clock ante meridiem to 9 o'clock ante meridiem on Monday through Friday, exclusive of holidays, and

(B) on southbound lanes, during the hours of 3:30 o'clock post meridiem to 6 o'clock post meridiem on Monday through Friday, exclusive of holidays.

The State of Virginia and the District of Columbia may not prohibit the use of such lanes during such hours by a bus, an emergency vehicle, a vehicle carrying four or more persons, or a motorcycle.

(2) USE OF EXPRESS LANES AT OTHER TIMES.—The State of Virginia and the District of Columbia may not prohibit the use of the Shirley Highway express lanes during hours other than the hours described in paragraph (1) by a vehicle which is not also prohibited from using the other lanes of the Shirley Highway.

(b) DEFINITIONS.—For purposes of this section—

(1) EMERGENCY VEHICLE.—The term "emergency vehicle" includes a public utility vehicle on legitimate emergency business.

(2) MOTORCYCLE.—The term "motorcycle" means a motor vehicle designed to travel on not more than three wheels in contact with the ground.

(3) SHIRLEY HIGHWAY EXPRESS LANES.—The term "Shirley Highway express lanes" means the high occupancy vehicle lanes on Interstate Route I-395 in the District of Columbia and Virginia and on Interstate Route I-95 from its intersection with Interstate Route I-395 to Woodbridge, Virginia.

(c) ENFORCEMENT.—The Secretary shall withhold 1 percent of the amount required to be apportioned to the State of Virginia or to the District of Columbia under sections 104 and 144 of title 23, United States Code, on the first day of the fiscal year succeeding any fiscal year in which the State of Virginia or the District of Columbia, as the case may be, is in violation of any provision of this section.

(d) EFFECTIVE DATE.—This section shall take effect on the date of the enactment of this section.

SEC. 142. RAILROAD RELOCATION DEMONSTRATION PROGRAM.

Section 163(p) of the Federal-Aid Highway Act of 1973 (23 U.S.C. 130 note) is amended—

(1) by inserting "(1)" after "(p)";

(2) by inserting "and such sums as may be necessary for the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, September 30, 1990, and September 30, 1991," after "September 30, 1986,"; and

(3) by adding at the end thereof the following new paragraph:

"(2) There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), not to exceed $5,000,000 for fiscal year 1987, for acquisition of rights-of-way, construction of a temporary bypass, and initial construction to depress rail lines for the project described in the second sentence of subsection (d) of this section. Funds authorized by this paragraph shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of the project for which such funds are authorized shall be determined under this section and such funds shall remain available until expended and shall not be subject to any obligation limitation.".

SEC. 143. MAINTENANCE OF CERTAIN RAILROAD-HIGHWAY CROSSINGS.

(a) Grants for Demonstration Programs.—The Secretary shall make a grant to each State which has located within its boundaries a railroad-highway crossing over which the Consolidated Rail Corporation operates rail vehicles to carry out a demonstration program of providing systematic inspection and service of protective devices at such crossings.

(b) Purpose of Grants.—Any demonstration program carried out under this section shall reimburse the Consolidated Rail Corporation for 50 percent of the cost of inspecting and servicing protective devices at railroad-highway crossings in such State over which such corporation operates rail vehicles.

(c) Apportionment of Funds.—Sums made available to carry out this section shall be apportioned among those States which have located within their boundaries railroad-highway crossings over which the Consolidated Rail Corporation operates rail vehicles in the ratio that the number of such crossings with protective devices in each such State bears to the total number of such crossings with protective devices in all such States.

(d) Amount of Grant; Federal Share.—The amount of a grant made to a State under this section shall be equal to the amount of funds apportioned to such State under this section in any fiscal year and shall be available to pay 50 percent of the costs incurred by such State in developing and conducting its demonstration program in such fiscal year.

(e) Reports.—Each State conducting a demonstration program under this section shall report to the Secretary not later than June 30, 1991, on the results of such program and the effectiveness of such program in improving safety at railroad-highway crossings. The Secretary shall submit a report to Congress not later than September 30, 1991, on the results of demonstration programs carried out under this section and the effectiveness of such programs in improving safety at railroad-highway crossings.

(f) Authorization of Appropriations.—There is authorized to be appropriated to the Secretary to carry out the provisions of this section, out of the Highway Trust Fund (other than the Mass Transit Account), $4,500,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(g) Applicability of Title 23.—Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of a demonstration program under this section shall be determined in accordance with the provisions of subsection (d) of this section, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 144. DEMONSTRATION PROJECTS.

(a) Project Descriptions.—

(1) Passaic county, new jersey.—The Secretary shall utilize the procedures adopted to carry out the demonstration project under section 141 of the Federal-Aid Highway Act of 1976 and the methods for processing highway projects required to be established by section 129 of the Surface Transportation Assistance Act of 1982 to accelerate design and construction of a highway project which completes a gap on the Federal-aid primary system in an urban area along the Passaic River in Passaic County, New Jersey, and for which most of the right-of-way has been acquired.

(2) Brick township, new jersey.—The Secretary shall carry out a highway project to demonstrate methods of improving traffic operations and reducing accidents (A) at a high-volume rotary intersection in Brick Township, New Jersey, and (B) on a route connecting such intersection with another high-volume rotary intersection in Wall Township, New Jersey.

(3) Johnstown, pennsylvania.—The Secretary shall carry out a demonstration project in the vicinity of Johnstown, Pennsylvania, for the purpose of demonstrating methods by which a highway construction project on a segment of the Federal-aid primary system will enhance highway safety and economic development in an area of high unemployment.

(4) Fort smith, arkansas.—The Secretary shall carry out a highway project to demonstrate the economic growth and development benefits of widening a segment of the Federal-aid urban system connecting a community college and a large commercial center in the vicinity of Fort Smith, Arkansas, and of improving traffic signalization on such segment.

(5) Minnesota.—The Secretary shall carry out a demonstration project on the Federal-aid urban system for the purpose of demonstrating the economic and safety benefits of constructing a grade separation between a railroad line and a highway in the vicinity of Moorhead, Minnesota, and of reconstructing two deteriorated segments of a major east-west highway on the Federal-aid primary system in the vicinities of Fosston and Bagley, Minnesota.

(6) Dry ridge, kentucky.—The Secretary shall carry out a highway project to demonstrate methods of improving traffic flow and safety on a portion of a Kentucky State highway which connects an interstate route in the vicinity of Dry Ridge, Kentucky, with a highway on the Federal-aid primary system in the vicinity of Owenton, Kentucky.

(7) San bernardino county, california.—The Secretary shall carry out a demonstration project in the vicinity of the Ontario International Airport in San Bernardino County, California, for the purpose of demonstrating methods of improving highway access to an airport which is projected to incur a substantial increase in air service.

(8) Altoona, pennsylvania.—The Secretary shall carry out a highway project to close a gap of approximately 12 miles in a multilane limited access road connecting the city of Altoona to the borough of Tyrone in Blair County, Pennsylvania, for the purpose of demonstrating state of the art delineation technology. For comparison purposes, the highway section to be constructed shall connect a highway section constructed with current delineation technology and an older highway section constructed with traditional delineation technology. The project shall demonstrate the latest horizontal and vertical delineation techniques and utilize innovative techniques in highway delineation treatments to improve traffic control and highway safety. All delineation elements shall be designed to provide the optimum life-cycle costs, thereby maximizing the highway safety benefits and minimizing future maintenance costs. The Secretary shall provide necessary technical assistance in the design and construction of the project. Upon completion of the project, the highway shall be added to the Federal-aid primary system.

(9) Louisiana.—

(A) Lafayette.—The Secretary is authorized to carry out a highway project to demonstrate the benefits to traffic flow and transportation of labor and materials by construction of a highway to provide limited continuous access between an interstate route and a highway on the Federal-aid primary system in Lafayette, Louisiana.

(B) Shreveport.—The Secretary is authorized to carry out a highway project which will demonstrate methods of reducing traffic congestion in the central business district of Shreveport, Louisiana, improving access to such district, providing highway continuity, and satisfying national defense requirements by connecting an interstate route with another interstate route which serves as a bypass around such city.

(10) Miami, florida.—The Secretary is authorized to carry out a highway project which will demonstrate the most cost effective method of improving interstate motor vehicle access for passengers and cargo moving to and from the port of Miami, Florida.

(11) Arkansas-missouri.—

(A) Bella vista, arkansas.—The Secretary is authorized to carry out a highway project in the State of Arkansas on a segment of a north-south highway on the Federal-aid primary system from the vicinity of the junction of Interstate Routes I-40 and I-540 to the boundary between the States of Arkansas and Missouri in the vicinity of Bella Vista, Arkansas, for the purpose of demonstrating methods of improving highway safety and of accelerating highway construction. Such project shall increase the number of lanes on such segment from two to four.

(B) Carthage, missouri.—The Secretary is authorized to carry out a highway project on a segment of a north-south highway on the Federal-aid primary system from the vicinity of Carthage, Missouri, to the boundary between the States of Arkansas and Missouri in the vicinity of Noel, Missouri, for the purpose of demonstrating methods of improving highway safety and accelerating highway construction. Such project shall increase the number of lanes on such segment from two to four.

(C) Design features; technical assistance.—The projects authorized by subparagraphs (A) and (B) of this paragraph shall also demonstrate the latest high-type geometric design features and new advances in highway traffic control and safety hardware. All design elements, including the highway pavement, shall be designed to provide the best life-cycle costs, thereby minimizing future maintenance costs. The Secretary shall provide necessary technical assistance in the design and construction of such projects.

(12) Sanford, florida.—The Secretary shall carry out a highway project to demonstrate methods of reducing costs and expediting construction of an interchange in the vicinity of Sanford, Florida, and the intersection of route 46A and an interstate route by contracting with a private business to design and construct such project.

(13) San jose, california.—The Secretary is authorized to carry out a demonstration project in the vicinity of San Jose and Santa Clara, California, for the purpose of demonstrating a unified method of reducing traffic congestion on a Federal-aid urban highway which is the result of the intersection of such highway with two other Federal-aid urban highways and a railroad crossing in a one-quarter mile segment of such highway.

(14) District of Columbia.—

(A) Project description.—The Secretary shall carry out a demonstration project in the vicinity of the C&O Canal in the District of Columbia for the purpose of substantially improving motor vehicle access at a major traffic generator without decreasing the efficiency of a Federal-aid primary highway. The Secretary shall enter into such arrangements as may be necessary to carry out such project with the Secretary of the Interior.

(B) Limitation.—No Federal assistance shall be provided to carry out the demonstration project under this paragraph until private sources dedicate at least 2.5 acres of land as a scenic easement for project purposes.

(15) Compton, California.—The Secretary shall carry out a highway project for construction of a grade separation on a route on the Federal-aid urban system in Compton, California, for the purpose of demonstrating methods of relieving traffic congestion and enhancing economic development.

(16) Modesto, California.—The Secretary shall carry out a highway project to demonstrate methods by which construction of a grade separation for a railroad crossing of a highway on the Federal-aid primary system enhances urban redevelopment and the effectiveness of a planned transportation center in Modesto, California.

(17) Columbia, Missouri.—The Secretary shall carry out a highway project for construction of two additional lanes on a two-lane 106-mile highway on the Federal-aid primary system which begins in the vicinity of Columbia, Missouri, and ends in the vicinity of Lancaster, Missouri, for the purpose of demonstrating methods of improving highway safety, reducing traffic congestion, and encouraging economic development.

(18) East Milton, Massachusetts.—The Secretary is authorized to carry out a highway project to demonstrate the advantages of joint development and use of air rights in the construction of a deck over a depressed portion of an interstate route in East Milton, Massachusetts.

(19) Fairhope, Alabama.—The Secretary, in cooperation with the State of Alabama, shall carry out a highway project in the vicinity of Fairhope and Foley, Alabama, to demonstrate methods of accelerating the widening of a highway traffic segment of highway on the Federal-aid primary system necessary for the rapid evacuation of individuals during emergency weather conditions.

(20) Wilder, Kentucky.—The Secretary shall carry out a highway project in the vicinity of Wilder in Campbell County, Kentucky, to demonstrate the economic benefits to a port facility, industrial complex, and foreign trade zone and methods of enhancing highway safety by reconstruction of a segment of a highway on the Federal-aid urban system which connects an interstate route with a port facility. Such project shall increase the number of lanes on such highway from two to four and may include realignment of such highway.

(21) Jo Daviess, Illinois.—The Secretary shall carry out a highway project to demonstrate the safety benefits of providing additional and improved vehicular passing opportunities on, adding truck climbing lanes to, and straightening, a 50-mile segment of an east-west highway on the Federal-aid primary system which carries a high volume of traffic in Jo Daviess and Stephenson Counties, Illinois.

(22) Allentown, Pennsylvania.—The Secretary is authorized to carry out a highway project in the city of Allentown, Pennsylvania, for the purpose of demonstrating methods of accelerating construction to eliminate a major rail-highway crossing at grade, reducing traffic delays for both rail and motor vehicle traffic, and minimizing the impact on the surrounding urban environment.

(23) Riverside, California.—The Secretary shall carry out a highway project to demonstrate methods of improving safety on a highway on the Federal-aid primary system in Riverside, California, which is designated as a priority primary route under section 147 of title 23, United States Code, by committee print numbered 100-3 of the Committee on Public Works and Transportation of the House of Representatives.

(24) Buffalo, New York.—The Secretary shall carry out a highway project in Buffalo, New York, for the purpose of demonstrating methods of facilitating redevelopment of a waterfront area by construction of a connector off a highway on the Federal-aid primary system. Upon completion of the project, the connector shall be added to the Federal-aid urban system.

(25) Cleveland, Ohio.—The Secretary shall carry out a highway project to replace a ramp which provides access to an industrial area of Cleveland, Ohio, for the purpose of demonstrating the relationship between infrastructure improvement and economic vitality.

(26) Patton Island, Alabama.—The Secretary shall carry out a highway project to construct a bridge to cross the Tennessee River in Lauderdale and Colbert Counties, Alabama, in the vicinity of Patton Island, Alabama, for the purpose of demonstrating methods of improving highway transportation and enhancing economic development.

(27) Port Clinton, Ohio.—The Secretary shall carry out a highway project to upgrade an east-west State route between Port Clinton and Toledo, Ohio, for the purpose of demonstrating methods of improving traffic flow between a recreational area and a metropolitan area.

(28) Chicago, Illinois.—The Secretary shall carry out the following highway projects in Chicago, Illinois:

(A) A highway project to rehabilitate a drawbridge over the north branch of the Chicago River and realign an adjacent intersection which will demonstrate the use of the latest innovative bridge repair techniques on a bascule bridge.

(B) A highway project to remove and replace an existing bridge on Lake Shore Drive in the Jackson Park Historic Landscape District and the Midway Plaissance with a new bridge in the same location and to widen the approach road to such bridge which will demonstrate the historic recreation of a national register bridge and replacement of a deteriorated bridge.

(C) A highway project between Chicago Avenue and Claybourn Avenue to disinvest a bridge over Goose Island which will demonstrate methods of reducing municipal and Federal burdens for rehabilitation and maintenance of a surplus highway facility.

(29) Wayne County, Michigan.—The Secretary shall carry out two road improvement projects in Wayne County, Michigan, to demonstrate the benefits of enhancing safety and improving economic vitality of a depressed area.

(30) Cook County, Illinois.—

(A) Chicago.—The Secretary shall carry out a highway project which demonstrates methods of utilizing a low cost alternative to reconstruction of a 1 mile segment of an east-west road between Nagle and Oak Park Avenues, Chicago, Illinois, which is deficient due to soil conditions.

(B) Southwest Chicago.—The Secretary shall carry out a highway project to construct three parking facilities adjacent to the Rock Island commuter rail lines in Southwest Chicago, Illinois, which will demonstrate the effectiveness of construction of parking facilities in relieving on-street parking congestion and unsafe parking practices.

(C) Oak Lawn.—The Secretary shall carry out a highway project in Oak Lawn, Illinois, which demonstrates methods of improving highway safety by widening and resurfacing a four-lane major arterial with lane widths which are less than minimum State and Federal standards.

(D) Calumet Park.—The Secretary shall carry out a highway project which demonstrates methods of improving highway safety and access to a segment of the Interstate System by reconstruction of a congested major arterial in Calumet Park and Blue Island, Illinois.

(E) Cumberland Station.—The Secretary shall carry out a highway project to construct the first level of a two level addition to an existing park and ride facility in the vicinity of Cumberland Station on the O'Hare Rapid Transit Line, Chicago, Illinois, which will demonstrate methods of reducing commuter traffic and traffic congestion and increasing utilization of available capacity on a rapid transit line.

(F) Elevated road.—The Secretary shall carry out a highway project to demonstrate the benefits of utilizing precast, prefabricated concrete structural segments in the reconstruction of an elevated road on a major artery in the southwestern portion of Chicago, Illinois, in order to minimize traffic disruption during the reconstruction.

(G) Parking facilities.—The Secretary shall carry out a demonstration project for the construction of two parking lots at sites (i) where future stations are to be located on the Southwest Rapid Transit Line in Chicago, Illinois, and (ii) to which buses now provide mass transit service. Such project shall be carried out before the beginning of service on such rapid transit line in order to demonstrate methods of facilitating the transfer of passengers between different modes of transportation and of establishing ridership before the opening of a rapid transit line.

(31) Kansas City, Missouri.—The Secretary shall carry out a highway project on a north-south route on the Federal-aid primary system in Kansas City, Missouri, to demonstrate methods by which construction of the first and southern-most phase of a 5-phase highway project will facilitate construction of the full 5-phase project. Construction of the 5-phase project—

(A) will connect the northern terminus of another route on the Federal-aid primary system and an east-west interstate route,

(B) will demonstrate the interrelationship between construction of a major urban transportation artery and economic development initiatives in facilitating reinvestment in an urban area experiencing economic decay, and

(C) will demonstrate methods of reducing traffic congestion through construction of a roadway that is compatible with adjacent residential neighborhoods and commercial areas.

(32) Mount Vernon, Kentucky.—The Secretary is authorized to carry out a highway project on a segment of the Federal-aid primary system which connects Interstate Route I-75 in the vicinity of Mount Vernon,

Kentucky, with Kentucky State Route 80 in the vicinity of Shopville, Kentucky, for the purposes of demonstrating methods of improving highway safety and traffic flow and improving access to a national river and recreation area.

(33) PINE CITY, MINNESOTA.—The Secretary is authorized to carry out a highway project in Pine City, Minnesota, to demonstrate methods of enhancing economic development and improving highway safety and traffic flow by construction of an interchange between a highway on the Interstate System and a county State-aid highway.

(34) PASO ROBLES, CALIFORNIA.—The Secretary is authorized to carry out a highway project in the city of Paso Robles, California, to construct a two-lane, east-west bridge which will span the Salinas River, a highway, and a railroad line and will be located south of the existing bridges spanning such river in such city, for the purposes of demonstrating methods of improving highway safety and traffic flow and enhancing economic development.

(35) SUFFOLK COUNTY, NEW YORK.—The Secretary is authorized to carry out a highway project from Wheeler Road to Veterans Memorial Highway in the town of Islip, Suffolk County, New York, for the purpose of demonstrating construction techniques to accelerate upgrading of an existing highway to freeway standards with minimum disruption of traffic.

(36) CONNECTICUT.—

(A) SOUTHINGTON.—The Secretary shall carry out a highway project to demonstrate the latest construction techniques in reconstructing a north-south segment of highway on the Federal-aid urban system in the vicinity of Southington, Connecticut.

(B) KENT CENTER.—The Secretary shall carry out a highway project to change horizontal and vertical alignment of a north-south highway on the Federal-aid primary system south of Kent Center, Connecticut, to demonstrate methods of solving safety and flooding problems.

(37) DOVER TOWNSHIP, NEW JERSEY.—The Secretary is authorized to carry out a highway project to construct a bridge across the Toms River in the township of Dover, New Jersey, for the purpose of demonstrating methods of reducing traffic congestion on an existing bridge and facilitating the redevelopment of the central business district of such township.

(38) LOS ANGELES COUNTY, CALIFORNIA.—The Secretary is authorized to carry out a highway project in Los Angeles County, California, for the purpose of demonstrating methods of improving vehicular circulation related to the intermodal transportation of port-related traffic and alleviating congestion caused by increased port activities.

(39) GREATER PITTSBURGH INTERNATIONAL AIRPORT.—The Secretary shall carry out in the vicinity of the Greater Pittsburgh International Airport a highway project for construction of a highway which is designated as a priority primary route under section 147 of title 23, United States Code, by committee print numbered 100-3 of the Committee on Public Works and Transportation of the House of Representatives to demonstrate methods of improving economic development and airport terminal placement.

(40) STEUBEN COUNTY, NEW YORK.—The Secretary shall carry out a highway project in Steuben County, New York, for the purpose of demonstrating the extent to which the economy of an industrialized high unemployment area can be improved by completion of key elements of a modern, grade-separated access controlled highway which serves such area.

(41) SONOMA AND MARIN COUNTIES, CALIFORNIA.—

(A) SANTA ROSA.—The Secretary shall carry out a highway project for the purpose of demonstrating the extent to which traffic congestion is relieved by reconstruction of a north-south arterial which (i) connects Santa Rosa, California, and Petaluma, California, (ii) is parallel to a major north-south segment of the Federal-aid primary system, and (iii) serves as an alternative for traffic between such cities.

(B) HEALDSBURG.—The Secretary shall carry out a highway project for the purpose of demonstrating the extent to which traffic congestion is relieved on the major north-south segment of the Federal-aid primary system described in subparagraph (A) by construction of high occupancy vehicle lanes along a right-of-way which is parallel to such segment and connects San Rafael, California, and Healdsburg, California.

(42) VOYAGEURS NATIONAL PARK, MINNESOTA.—The Secretary shall carry out a highway project which demonstrates methods of enhancing use of a national park and reducing traffic congestion by reconstruction of an access road to Voyageurs National Park, Minnesota.

(43) SAVANNAH, GEORGIA.—The Secretary, in cooperation with the State of Georgia, shall carry out a highway project for replacing an existing functionally obsolete bridge across the Savannah River in Savannah, Georgia, with a modern, high-level structure for the purpose of demonstrating methods of improving safety and the free flow of both vehicular and waterborne traffic including traffic related to national defense.

(44) NEW SEWICKLY, PENNSYLVANIA.—The Secretary shall carry out a highway project to construct a 2-lane highway between the township of New Sewickly, Pennsylvania, and the borough of Conway, Pennsylvania, for the purpose of demonstrating methods of accommodating increasing truck traffic and improving highway safety.

(45) CROYLE TOWNSHIP, PENNSYLVANIA.—The Secretary shall carry out a highway project to upgrade a 1.3 mile access road to the Johnstown Flood National Memorial in the vicinity of Croyle Township, Pennsylvania, for the purpose of demonstrating methods of improving public access to a flood memorial.

(46) LAWRENCE, MASSACHUSETTS.—The Secretary shall carry out in Lawrence, Massachusetts, a highway project to demonstrate methods of enhancing the benefits of an economic rehabilitation project under construction by construction of a service road which provides access between Massachusetts Avenue and Merrimack Street substantially along an alignment located between the Shawsheen River and an interstate route.

(47) BATON ROUGE, LOUISIANA.—

(A) The Secretary shall carry out a highway project in the vicinity of Baton Rouge, Louisiana, for the purpose of demonstrating the benefits of reducing traffic congestion in the immediate vicinity of a split-diamond interchange which connects an east-west highway on the Interstate System, 2 4-lane highways not on such System, and a 2-lane highway not on such System by providing—

(i) a direct exit lane from the westbound lanes of the highway on such System to one of such 4-lane highways;

(ii) a direct access ramp and acceleration lane from such 4-lane highway to the eastbound lanes of the highway on such System; and

(iii) a direct exit lane from the eastbound lanes of the highway on such System to the other of such 4-lane highways.

(B) The Secretary shall carry out a highway project in the vicinity of Baton Rouge, Louisiana, for the purpose of demonstrating the benefits of reducing traffic congestion in the immediate vicinity of a convergence of an east-west highway on the Interstate System and a north-south highway on such System by construction of an additional ramp lane.

(C) The Secretary shall carry out a highway project in the vicinity of East Baton Rouge, Louisiana, for the purpose of demonstrating the most cost-effective methods of reducing traffic congestion in the immediate vicinity of (i) a diamond interchange which connects an east-west highway on the Interstate System and a 4-lane highway not on such System, and (ii) a nearby intersection of such 4-lane highway and a 2-lane service road.

(D) The Secretary shall carry out a highway project in the vicinity of northeast Baton Rouge, Louisiana, for the purpose of demonstrating the efficacy of reducing traffic congestion and improving traffic flow in the immediate vicinity of a highway on the Interstate System to connect such highway to a metropolitan airport terminal access road by construction of a direct access off-ramp link.

(48) MINDEN, LOUISIANA.—The Secretary shall carry out a highway project for the purpose of demonstrating methods of enhancing economic development by construction of a frontage road which provides Minden, Louisiana, alternative access to a highway immediately connecting to a highway on the Interstate System.

(49) ANAHEIM, CALIFORNIA.—The Secretary shall carry out a project for research, development, and implementation of a computerized transportation management system to assist the city of Anaheim, California, and adjoining jurisdictions in managing highway traffic congestion caused in part by an interstate route passing through an area of concentrated population and commercial development for the purpose of demonstrating the usefulness of such a system in reducing traffic congestion.

(50) ISLE OF PALMS, SOUTH CAROLINA.—The Secretary shall carry out a highway project connecting the Isle of Palms, South Carolina, to the mainland for the purpose of demonstrating the reduction in traffic congestion, improved emergency preparedness, and increased accessibility to a sea island by construction of a high-level fixed span bridge over a high-volume intracoastal waterway segment.

(51) CLARKSVILLE, TENNESSEE.—The Secretary shall carry out a highway project to demonstrate methods of improving highway safety by making improvements to a road providing direct access from the Fort Campbell Military Reservation to the city of Clarksville, Tennessee.

(52) CLARINDA, IOWA.—The Secretary shall carry out a highway project to reconstruct and rehabilitate a highway between Shenandoah and Clarinda, Iowa, for the purpose of demonstrating methods by which improved highway transportation in an economically depressed rural area will increase economic activity in such area.

(53) SAN DIEGO COUNTY, CALIFORNIA.—The Secretary shall carry out a highway project

to expand a highway which connects an interstate route in the vicinity of Oceanside, California, with another interstate route in the vicinity of Escondido, California for the purpose of demonstrating methods of reducing traffic congestion and accidents.

(54) St. Charles County, Missouri.—The Secretary shall carry out a highway project to construct a bypass highway to connect an east-west interstate route in St. Charles County, Missouri, with the interstate beltway around St. Louis, Missouri, for the purpose of demonstrating methods of alleviating traffic congestion, especially commuter traffic congestion.

(55) Jonesboro, Arkansas.—The Secretary shall carry out a highway project for construction of four grade separations on a four-lane bypass route in the vicinity of Jonesboro, Arkansas, for the purpose of demonstrating methods of improving highway safety.

(56) Illinois.—

(A) Mt. Vernon.—The Secretary is authorized to carry out a highway project to reconstruct a segment of approximately 1.4 miles of a State route connecting to an interstate route in the vicinity of Mt. Vernon, Illinois, for the purpose of demonstrating methods of improving highway safety.

(B) Evansville.—The Secretary is authorized to carry out a highway project to upgrade a principal route through the village of Evansville, Illinois, for the purpose of demonstrating methods of improving traffic flow.

(C) Union county.—The Secretary is authorized to carry out a highway project to improve a road leading to a landmark in the vicinity of the city of Alto Pass, Union County, Illinois, for the purpose of demonstrating methods of improving access to such a landmark and of enhancing tourism.

(57) Concord, California.—The Secretary shall carry out a highway project between Concord, California, and West Pittsburg, California, for the purpose of demonstrating methods of improving highway safety and traffic flow by lowering the grade of, realigning, and widening an existing highway on the Federal-aid primary system.

(58) Georgia.—The Secretary shall carry out a highway project which demonstrates methods of improving highway safety and reducing traffic accidents by reconstruction of a 3.8 mile segment of highway between Interstate Route I-285 and the fork of Georgia State Route 141 as a 6-lane controlled access freeway with one-way frontage roads in each direction.

(59) Pike county, Kentucky.—The Secretary shall carry out a highway project to reconstruct a highway on the Federal-aid primary system between Open Fork Road and Road Fork of Big Creek Road in Pike County, Kentucky, for the purpose of demonstrating methods of improving highway safety in a mountainous area.

(60) Madison county, Illinois.—The Secretary shall carry out a highway project to demonstrate the economic growth and development benefits of reconstructing a segment of road in Madison County, Illinois, which serves a high-growth industrial area.

(61) Erwin, Tennessee.—The Secretary shall carry out a highway project to extend, approximately 15 miles, a highway on the Appalachian development highway system between River View in Erwin, Tennessee, and Sam's Gap on the North Carolina-Tennessee border for the purpose of demonstrating methods of improving transportation in a mountainous area.

(62) New river, West Virginia.—The Secretary is authorized to carry out a demonstration project to construct a parkway connecting to an interstate route, in accordance with the recommendations of the New River Parkway Authority, in the vicinity of the New River, West Virginia, for the purpose of demonstrating benefits to recreation, tourism, and industrial, economic, and community development.

(63) Kittanning-Brookville, Pennsylvania.—The Secretary is authorized to carry out a project for reconstruction of approximately 30 miles of a two-lane road on the Federal-aid primary system between Kittanning and Brookville, Pennsylvania, for the purpose of demonstrating cost-effective methods of improving rural highways to accommodate wider and longer trucks.

(64) Aurora-Hoyt Lakes, Minnesota.—The Secretary is authorized to carry out a project for construction of a highway connecting Aurora-Hoyt Lakes and Silver Bay, Minnesota, for the purpose of demonstrating methods of reducing traffic congestion in and around a recreational area.

(65) Kanawha county, West Virginia.—The Secretary shall carry out a highway project which demonstrates methods of improving traffic flow in a rural area by reconstruction of the Chelyan Bridge in Kanawha County, West Virginia.

(66) Roanoke sound, North Carolina.—The Secretary shall carry out a highway project which demonstrates methods of improving tourism, commercial enterprise, and water and highway transportation by construction of a bridge on an east-west Federal-aid primary route which connects Manteo and Whalebone, North Carolina, and traverses Roanoke Sound.

(67) Lincoln, Illinois.—The Secretary shall carry out a highway project which demonstrates methods of improving highway safety and reducing traffic congestion by construction of a controlled access freeway which connects Interstate Route I-55 in the vicinity of Lincoln, Illinois, and Interstate Route I-74 in the vicinity of Morton, Illinois.

(68) Sparks, Nevada.—The Secretary shall carry out a highway project which demonstrates methods of improving economic development and diversification, and eliminating traffic and highway safety hazards by construction in the city of Sparks, Nevada, of an interchange which connects Interstate Route I-80 and Sparks Boulevard.

(69) Burbank-Glendale-Pasadena airport, California.—The Secretary shall carry out a highway project which demonstrates methods of coordinating construction of ground access to an airport and construction of terminal and parking facilities at such airport. The Secretary shall carry out such project at the Burbank-Glendale-Pasadena Airport, California, by making a grant for construction of such ground access to the airport authority for such airport.

(70) El Segundo, California.—The Secretary shall carry out a highway project to increase the capacity of a tunnel in the vicinity of an airport serving El Segundo, California, which will demonstrate methods of mitigating increased traffic congestion which is projected to result from completion of a segment of the Interstate System.

(71) Alameda island, California.—The Secretary shall carry out a highway project to demonstrate methods of improving access to, and alleviating congestion on, a north-south route designated as part of the Interstate System under section 139 of title 23, United States Code, and its access roads, including access roads from Oakland International Airport and Alameda Island, California, to such interstate route.

(72) Douglas county, Kansas.—The Secretary shall carry out a highway project in Douglas County, Kansas, to demonstrate methods of reducing traffic congestion and facilitating the usage by motorists on the Interstate System of recreational facilities by construction of a north-south limited access trafficway of approximately 4 miles in length which will connect an east-west interstate route to a reservoir and a university research park.

(73) Chadville, Pennsylvania.—The Secretary shall carry out a highway project to relocate and reconstruct to 4 lanes a 3.5-mile north-south segment of the Federal-aid primary system from the vicinity of Uniontown Bypass at Chadville, Pennsylvania, to Pennsylvania Legislative Route 26082 in the vicinity of Fairchance, Pennsylvania, which will demonstrate methods of enhancing the development of a major industrial site.

(74) Chambersburg, Pennsylvania.—The Secretary shall carry out a highway project which demonstrates how construction of an interchange on a north-south interstate route will provide access to Chambersburg, Pennsylvania, and relieve traffic congestion on an existing interchange on such interstate route.

(75) Beaumont, Texas.—The Secretary shall carry out a highway project which demonstrates how construction of an overpass over an interstate route in the vicinity of the city of Beaumont, Texas, will relieve traffic congestion on such interstate route and provide direct access between the central business district of such city and another part of such city.

(76) St. Louis county, Minnesota.—The Secretary shall carry out a highway project for the construction of an access road from County Road 413 in St. Louis County, Minnesota, to a recreational complex on the Bois Forte Chippewa Reservation (Vermilion Sector) to demonstrate methods of providing jobs and enhancing economic development in a severely and chronically depressed area.

(77) Gloucester county, Virginia.—The Secretary, in consultation with the Governor of Virginia, the Secretary of Defense, and the Secretary of the Interior, shall carry out site selection and environmental studies and design and engineering for replacement or expansion of a bridge connecting Gloucester County with York County and the cities of Newport News and Hampton, Virginia, for the purpose of demonstrating methods of facilitating the resolution of Federal intra-governmental conflicts.

(78) Arcola, Texas.—The Secretary shall carry out a highway project in Arcola, Texas, which demonstrates methods by which construction of a grade separation project between the intersection of 2 highways and a railroad crossing improves traffic flow and highway safety.

(79) Hammond, Indiana.—The Secretary shall enter into such arrangements as may be necessary to carry out a demonstration project in Hammond, Indiana, for the relocation of railroad lines for the purpose of eliminating railroad-highway grade crossings. If the city of Hammond, Indiana, elects to carry out all or any portion of the demonstration project authorized by this paragraph before the funds authorized to be appropriated to carry out this paragraph are made available, the Secretary shall reimburse with such funds the city for the costs of carrying out such project or portion.

(80) Erie county, New York.—The Secretary is authorized to carry out a highway

project in Erie County, New York, to demonstrate methods of enhancing safety and reducing traffic congestion and delays at the terminus of an interstate route by relocating the terminus of such route.

(81) TAMPA, FLORIDA.—The Secretary is authorized to carry out the remaining design work for a highway project for construction of a grade separation on a route on the Federal-aid primary system in the vicinity of Tampa, Florida, for the purpose of demonstrating methods of improving motor vehicle access between rapidly growing urban areas as well as relieving motor vehicle congestion resulting from the transportation of freight to and from areas for the transshipment of waterborne commerce.

(b) REPORTS.—

(1) IN GENERAL.—Not later than January 31 of calendar years 1988, 1989, 1990, and 1991, the Secretary shall submit to Congress a report on the status of the projects authorized by this section and on the results of any such projects which are completed in the preceding fiscal year.

(2) PASSAIC COUNTY, NEW JERSEY.—Not later than 180 days after completion of the demonstration project under subsection (a)(1), the Secretary shall submit a report to Congress on the results of such project (including the timesavings), along with a description of the procedures used to accelerate design and construction of such project, a summary of the manner in which the techniques used in carrying out such project in an urban area differed from the techniques used in the demonstration project carried out under section 141 of the Federal-Aid Highway Act of 1976 in a rural area, and an analysis of the costs and benefits of the accelerated completion of the project conducted under such paragraph (1).

(3) ALTOONA, PENNSYLVANIA.—Not later than 1 year, 6 years, and 11 years after the completion of the state of the art delineation technology project under subsection (a)(8), the Secretary shall submit reports to the Congress, including but not limited to the results of such project, the effects of using the best delineation technology on safety and other considerations, recommendations for applying the results to other highway projects, and any changes that may be necessary by law to permit further use of such delineation techniques.

(4) ARKANSAS-MISSOURI.—Not later than 1 year, 6 years, and 11 years after the completion of the projects under subsection (a)(11), the Secretary shall submit reports to the Congress, including but not limited to the results of such projects, the effects of using design features and advances described in such paragraph on safety and other considerations, recommendations for applying the results to other highway projects, and any changes that may be necessary by law to permit further use of such features and advances.

(c) AUTHORIZATION OF APPROPRIATIONS FROM HIGHWAY TRUST FUND.—There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account)—

(1) to carry out subsection (a)(1) $5,000,000 for fiscal year 1987; $28,000,000 for fiscal year 1988, $12,000,000 for fiscal year 1989, and $5,000,000 for fiscal year 1990;

(2) to carry out subsection (a)(2) $6,800,000 for fiscal year 1987 and $13,200,000 for fiscal year 1988;

(3) to carry out subsection (a)(3) $12,000,000 for fiscal year 1987;

(4) to carry out subsection (a)(4) $8,500,000 for fiscal year 1987;

(5) to carry out subsection (a)(5) $3,000,000 for fiscal year 1987 and $2,000,000 for fiscal year 1988;

(6) to carry out subsection (a)(6) $1,600,000 for fiscal year 1987, $2,300,000 for fiscal year 1988, and $16,600,000 for fiscal year 1989;

(7) to carry out subsection (a)(7) $4,000,000 for fiscal year 1987, $4,000,000 for fiscal year 1988, $4,000,000 for fiscal year 1989, $17,000,000 for fiscal year 1990, and $9,000,000 for fiscal year 1991;

(8) to carry out subsection (a)(8) $3,000,000 for fiscal year 1987, $8,000,000 for fiscal year 1988, $18,000,000 for fiscal year 1989, $26,000,000 for fiscal year 1990, and $35,000,000 for fiscal year 1991;

(9) to carry out preliminary engineering and design, initial utility relocation, and land acquisition under subsection (a)(9) $6,000,000 for fiscal year 1987, $15,000,000 for fiscal year 1990, and $19,000,000 for fiscal year 1991;

(10) to carry out preliminary engineering and design under subsection (a)(10) $1,300,000 for fiscal year 1987, $4,500,000 for fiscal year 1988, and $4,500,000 for fiscal year 1989;

(11)(A) to carry out preliminary engineering and design, utility relocation, land acquisition, and initial construction under subsection (a)(11)(A) $5,000,000 for fiscal year 1987, $5,000,000 for fiscal year 1988, $10,000,000 for fiscal year 1989, $10,000,000 for fiscal year 1990, and $15,000,000 for fiscal year 1991; and

(B) to carry out preliminary engineering and design, utility relocation, land acquisition, and initial construction under subsection (a)(11)(B) $5,000,000 for fiscal year 1987, $5,000,000 for fiscal year 1988; $10,000,000 for fiscal year 1989, $10,000,000 for fiscal year 1990, and $15,000,000 for fiscal year 1991;

(12) to carry out subsection (a)(12) $200,000 for fiscal year 1987, $200,000 for fiscal year 1988, $6,200,000 for fiscal year 1989, and $7,400,000 for fiscal year 1990;

(13) to carry out subsection (a)(13) $8,000,000 for fiscal year 1987, $8,000,000 for fiscal year 1988, $7,000,000 for fiscal year 1989, and $6,000,000 for fiscal year 1990;

(14) to carry out subsection (a)(14) $2,000,000 for fiscal year 1987 and $6,000,000 for fiscal year 1988;

(15) to carry out subsection (a)(15) $8,500,000 for fiscal year 1987;

(16) to carry out subsection (a)(16) $2,000,000 for fiscal year 1987, $5,000,000 for fiscal year 1989, $5,000,000 for fiscal year 1990, and $2,000,000 for fiscal year 1991;

(17) to carry out preliminary engineering and design, utility relocation, land acquisition, and initial construction under subsection (a)(17) $2,000,000 for fiscal year 1988, $4,000,000 for fiscal year 1989, $4,000,000 for fiscal year 1990, and $2,000,000 for fiscal year 1991;

(18) to carry out subsection (a)(18) $3,500,000, for fiscal year 1987;

(19) to carry out subsection (a)(19) $700,000 for fiscal year 1987, $3,100,000 for fiscal year 1989, $8,000,000 for fiscal year 1990, and $9,200,000 for fiscal year 1991;

(20) to carry out subsection (a)(20) $1,200,000 for fiscal year 1987 and $7,800,000 for fiscal year 1988;

(21) to carry out subsection (a)(21) $5,000,000 for fiscal year 1987;

(22) to carry out subsection (a)(22) $1,000,000 for fiscal year 1987, $2,000,000 for fiscal year 1988, and $3,000,000 for fiscal year 1989;

(23) to carry out subsection (a)(23) $3,000,000 for fiscal year 1987, $3,000,000 for fiscal year 1988, and $3,000,000 for fiscal year 1989;

(24) to carry out subsection (a)(24) $1,500,000 for fiscal year 1987 and $11,000,000 for fiscal year 1988;

(25) to carry out subsection (a)(25) $4,500,000 for fiscal year 1990 and $4,500,000 for fiscal year 1991;

(26) to carry out subsection (a)(26) $4,000,000 for fiscal year 1988, $4,000,000 for fiscal year 1989, $4,000,000 for fiscal year 1990, and $4,000,000 for fiscal year 1991;

(27) to carry out subsection (a)(27) $7,500,000 for fiscal year 1987 and $7,500,000 for fiscal year 1988;

(28)(A) to carry out subsection (a)(28)(A) $6,600,000 for fiscal year 1987;

(B) to carry out subsection (a)(28)(B) $4,500,000 for fiscal year 1987; and

(C) to carry out feasibility studies and preliminary engineering and design under subsection (a)(28)(C) $900,000 for fiscal year 1987;

(29) to carry out subsection (a)(29) $3,900,000 for fiscal year 1987;

(30)(A) to carry out subsection (a)(30)(A) $400,000 for fiscal year 1987;

(B) to carry out subsection (a)(30)(B) $1,435,000 for fiscal year 1987;

(C) to carry out subsection (a)(30)(C) $1,700,000 for fiscal year 1987;

(D) to carry out subsection (a)(30)(D) $1,050,000 for fiscal year 1987;

(E) to carry out subsection (a)(30)(E) $3,500,000 for fiscal year 1987; and

(F) to carry out subsections (a)(30)(F) and (a)(30)(G) $2,000,000 for fiscal year 1987 and $3,000,000 for fiscal year 1989;

(31) to carry out subsection (a)(31) $5,000,000 for fiscal year 1989 and $10,000,000 for fiscal year 1990;

(32) to carry out subsection (a)(32) $3,000,000 for fiscal year 1987, $6,900,000 for fiscal year 1988, and $6,100,000 for fiscal year 1989;

(33) to carry out subsection (a)(33) $2,600,000 for fiscal year 1987;

(34) to carry out subsection (a)(34) $1,100,000 for fiscal year 1987, $1,000,000 for fiscal year 1988, $1,000,000 for fiscal year 1989, and $1,000,000 for fiscal year 1990;

(35) to carry out preliminary engineering and design and initial construction under subsection (a)(35) $9,750,000 for fiscal year 1987;

(36) to carry out subsection (a)(36) $3,850,000 for fiscal year 1987;

(37) to carry out subsection (a)(37) $1,500,000 for fiscal year 1987 and $500,000 for fiscal year 1988;

(38) to carry out subsection (a)(38) $4,000,000 for fiscal year 1987, $11,000,000 for fiscal year 1988, $18,000,000 for fiscal year 1989, $19,000,000 for fiscal year 1990, and $22,000,000 for fiscal year 1991;

(39) to carry out preliminary engineering and design under subsection (a)(39) $5,500,000 for fiscal year 1987;

(40) to carry out subsection (a)(40) $4,500,000 for fiscal year 1990 and $4,500,000 for fiscal year 1991;

(41)(A) to carry out subsection (a)(41)(A) $2,600,000 for fiscal year 1988, $2,600,000 for fiscal year 1989, $2,500,000 for fiscal year 1990, and $2,800,000 for fiscal year 1991; and

(B) to carry out land acquisition under subsection (a)(41)(B) $10,000,000 for fiscal year 1987, $10,000,000 for fiscal year 1988, and $5,000,000 for fiscal year 1989;

(42) to carry out subsection (a)(42) $2,000,000 for fiscal year 1988 and $2,530,000 for fiscal year 1989;

(43) to carry out subsection (a)(43) $10,000,000 for fiscal year 1988, $13,000,000

for fiscal year 1989, $17,000,000 for fiscal year 1990, and $14,000,000 for fiscal year 1991;

(44) to carry out subsection (a)(44) $13,400,000 for fiscal year 1990;

(45) to carry out subsection (a)(45) $720,000 for fiscal year 1987;

(46) to carry out subsection (a)(46) $300,000 for fiscal year 1987, $1,000,000 for fiscal year 1988, and $2,700,000 for fiscal year 1989;

(47) to carry out subsection (a)(47) $7,800,000 for fiscal year 1987 and $6,200,000 for fiscal year 1989;

(48) to carry out subsection (a)(48) $750,000 for fiscal year 1987;

(49) to carry out subsection (a)(49) $500,000 for fiscal year 1987, and $400,000 for fiscal year 1988;

(50) to carry out subsection (a)(50) $5,000,000 for fiscal year 1990 and $5,000,000 for fiscal year 1991;

(51) to carry out subsection (a)(51) $5,000,000 for fiscal year 1988;

(52) to carry out subsection (a)(52) $500,000 for fiscal year 1988, $3,000,000 for fiscal year 1989, $3,000,000 for fiscal year 1990, and $2,500,000 for fiscal year 1991;

(53) to carry out subsection (a)(53) $2,000,000 for fiscal year 1988, $5,000,000 for fiscal year 1989, and $5,000,000 for fiscal year 1990;

(54) to carry out preliminary engineering and design under subsection (a)(54) $5,000,000 for fiscal year 1988 and $8,000,000 for fiscal year 1989;

(55) to carry out subsection (a)(55) $2,500,000 for fiscal year 1987, $3,200,000 for fiscal year 1989, $2,600,000 for fiscal year 1990, and $5,000,000 for fiscal year 1991;

(56)(A) to carry out subsection (a)(56)(A) $1,300,000 for fiscal year 1987;

(B) to carry out subsection (a)(56)(B) $308,000 for fiscal year 1987; and

(C) to carry out subsection (a)(56)(C) $350,000 for fiscal year 1987;

(57) to carry out land acquisition under subsection (a)(57) $5,000,000 for fiscal year 1987;

(58) to carry out subsection (a)(58) $5,000,000 for fiscal year 1987, $5,500,000 for fiscal year 1988, and $9,500,000 for fiscal year 1989;

(59) to carry out subsection (a)(59) $1,000,000 for fiscal year 1989, $7,000,000 for fiscal year 1990, and $7,000,000 for fiscal year 1991;

(60) to carry out subsection (a)(60) $2,200,000 for fiscal year 1987;

(61) to carry out subsection (a)(61) $5,000,000 for fiscal year 1987, $2,000,000 for fiscal year 1988, and $13,000,000 for fiscal year 1989;

(62) to carry out subsection (a)(62) $1,000,000 for fiscal year 1987, $3,000,000 for fiscal year 1988, $9,000,000 for fiscal year 1989, and $4,600,000 for fiscal year 1990;

(63) to carry out subsection (a)(63) $2,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, 1990, and 1991;

(64) to carry out preliminary engineering and design under subsection (a)(64) $1,500,000 for fiscal year 1987;

(65) to carry out preliminary engineering and design under subsection (a)(65) $2,000,000 for fiscal year 1987;

(66) to carry out subsection (a)(66) $1,000,000 for fiscal year 1988, $800,000 for fiscal year 1989, $12,100,000 for fiscal year 1990, and $6,100,000 for fiscal year 1991;

(67) to carry out subsection (a)(67) $7,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991;

(68) to carry out subsection (a)(68) $4,000,000 per fiscal year for each of fiscal years 1987 and 1988;

(69) to carry out subsection (a)(69) $2,000,000 per fiscal year for each of fiscal years 1987 and 1988 and $3,000,000 for fiscal year 1989;

(70) to carry out preliminary engineering and design under subsection (a)(70) $1,500,000 for fiscal year 1987 and $1,500,000 for fiscal year 1988;

(71) to carry out preliminary engineering and design, environmental analysis, and implementation of environmental mitigation measures under subsection (a)(71) $3,000,000 per fiscal year for each of fiscal years 1987, 1988, and 1990;

(72) to carry out subsection (a)(72) $5,000,000 per fiscal year for each of fiscal years 1987 and 1988;

(73) to carry out subsection (a)(73) $2,500,000 per fiscal year for each of fiscal years 1989 and 1990 and $5,000,000 for fiscal year 1991;

(74) to carry out subsection (a)(74) $5,000,000 for fiscal year 1988;

(75) to carry out subsection (a)(75) $6,000,000 for fiscal year 1987;

(76) to carry out subsection (a)(76) $1,000,000 for fiscal year 1987;

(77) to carry out subsection (a)(77) $5,000,000 for fiscal year 1988;

(78) to carry out subsection (a)(78) $2,500,000 per fiscal year for each of fiscal years 1987 and 1988;

(79) to carry out subsection (a)(79) $2,815,000 for fiscal year 1989 and $2,815,000 for fiscal year 1990;

(80) to carry out subsection (a)(80) $2,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991; and

(81) to carry out subsection (a)(81) $400,000 for fiscal year 1987.

(d) Authorization of Appropriations From General Fund.—In addition to amounts authorized by subsection (c), there is authorized to be appropriated to carry out subsection (a)(3) $16,000,000 for fiscal years beginning after September 30, 1987, and ending before October 1, 1991.

(e) Applicability of Title 23.—Funds authorized by this section (other than subsection (d)) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be 100 percent, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 145. CUMBERLAND GAP NATIONAL HISTORICAL PARK, VIRGINIA.

(a) Section 160(a) of the Federal-Aid Highway Act of 1973 (87 Stat. 278) is amended by adding the following new sentences at the end thereof: "After completion of the reconstruction and relocation of Route 25E through the Cumberland Gap National Historical Park (including construction of a tunnel and the approaches thereto), funds available for parkways, notwithstanding the definition of parkways in subsection (a) of section 101, title 23, United States Code, shall be available to finance the cost of upgrading from 2 lanes to 4 lanes a highway providing access from such route through that portion of the Cumberland Gap National Historical Park which lies within the State of Virginia. The project referred to in the preceding sentence shall not delay or affect in any way the reconstruction and relocation of Route 25E (including construction of a tunnel and approaches thereto).".

(b) Subsection (b) of section 160 of such Act is amended by inserting after "rights-of-way" the following: "including approaches in the State of Virginia".

SEC. 146. DELAWARE RIVER BRIDGES.

(a) Repayment of Federal Funds Invested On I-80 Bridge.—

(1) In general.—The Delaware River Joint Toll Bridge Commission (hereinafter in this section referred to as the "Commission"), in conjunction with the State highway agencies of the States of Pennsylvania and New Jersey, shall enter into an agreement with the Secretary to repay to the Treasury of the United States any Federal funds which previously have been obligated or otherwise expended by the Federal Government with respect to the Delaware Water Gap Bridge on I-80. Such repayment shall be credited to the Highway Trust Fund.

(2) Effect of repayment.—Upon such repayment, such States and the Commission shall be free of all restrictions contained in title 23, United States Code, and any regulation or agreement thereunder, with respect to the collection or imposition of tolls or other charges for such bridge or the use thereof.

(b) Agreement to Construct I-78 Toll Bridge.—If the State of Pennsylvania, the State of New Jersey, and the Commission determine to operate the uncompleted bridge under construction in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, on I-78 as a toll bridge, such States, the Commission, and the Secretary shall enter into an agreement with respect to such I-78 bridge project as provided in section 129 of title 23, United States Code, notwithstanding the requirements of section 301 of such title or any existing agreement.

(c) Right of Review by Federal Agencies.—The Commission's authority to fix, charge or collect any fees, rentals, tolls, or other charges shall be as provided in its compact and supplements thereto (including the supplemental agreement described in subsection (e)); except that paragraph (c) of such supplemental agreement shall not be construed to eliminate the necessity for review and approval by any Federal agency, as may be required under applicable Federal law, to determine that the tolls charged by the Commission are reasonable and just consistent with the Commission's responsibilities under such compact and supplements thereto.

(d) Limitations.—

(1) No tolls on existing nontoll bridges.—Nothing in this section shall be construed to grant congressional consent to the imposition of tolls by the Commission on any existing and operating bridge under the Commission's jurisdiction on which tolls were not charged and collected on January 1, 1986.

(2) Nonapplicability to I-895 corridor.—Nothing in this section shall constitute congressional approval to construed any additional toll bridge in the previously designated I-895 corridor.

(e) Supplemental Agreement.—

(1) Consent of congress.—The consent of the Congress is hereby given to the supplemental agreement, described in paragraph (2), concerning the Delaware River Joint Toll Bridge Commission, which agreement has been enacted by the State of Pennsylvania on December 18, 1984, as Act 206, laws of 1984, and by the State of New Jersey on October 21, 1985, as Public Law 1985, chapter 342.

(2) DESCRIPTION OF AGREEMENT.—The agreement referred to in paragraph (1) reads substantially as follows:

"SUPPLEMENTAL AGREEMENT BETWEEN THE COMMONWEALTH OF PENNSYLVANIA AND THE STATE OF NEW JERSEY

"SUPPLEMENTING THE COMPACT OR AGREEMENT ENTITLED 'AGREEMENT BETWEEN THE COMMONWEALTH OF PENNSYLVANIA AND THE STATE OF NEW JERSEY CREATING THE DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION AS A BODY CORPORATE AND POLITIC AND DEFINING ITS POWERS AND DUTIES, AS HERETOFORE AMENDED AND SUPPLEMENTED, TO ESTABLISH THE PURPOSES FOR WHICH THE COMMISSION MAY FIX, CHARGE, AND COLLECT TOLLS, RATES, RENTS, AND OTHER CHARGES FOR THE USE OF COMMISSION FACILITIES AND PROPERTIES'

"The Commonwealth of Pennsylvania and the State of New Jersey do solemnly covenant and agree, each with the other, as follows:

"(a)(1) Notwithstanding any other provision of the compact hereby supplemented, or any provision of law, State or Federal to the contrary, as soon as the existing outstanding bonded indebtedness of the commission shall be refunded, defeased, retired, or otherwise satisfied and thereafter, the commission may fix, charge, and collect tolls, rates, rents, and other charges for the use of any commission facility or property and in addition to any purpose now or heretofore or hereafter authorized for which the revenues from such tolls, rates, rents, or other charges may be applied, the commission is authorized to apply or expend any such revenue for the management, operation, maintenance, betterment, reconstruction, or replacement (A) of the existing nontoll bridges, formerly toll or otherwise, over the Delaware River between the State of New Jersey and the Commonwealth of Pennsylvania heretofore acquired by the commission pursuant to the provisions of the act of the State of New Jersey approved April 1, 1912 (Chapter 297), and all supplements and amendments thereto, and the act of the Commonwealth of Pennsylvania approved May 8, 1919 (Pamphlet Laws 148), and all supplements and amendments thereto, and (B) of all other bridges within the commission's jurisdiction and control. Betterment shall include but not be limited to parking areas for public transportation services and all facilities appurtenant to approved projects.

"(2) The commission may borrow money or otherwise incur indebtedness and provide from time to time for the issuance of its bonds or other obligations for one or more of the purposes authorized in this supplemental agreement. The commission is authorized to pledge its tolls, rates, rents, and other revenues, or any part thereof, as security for the repayment, with interest, of any moneys borrowed by it or advanced to it for any of its authorized purposes, and as security for the satisfaction of any other obligation assumed by it in connection with such loan or advances.

"(3) The authority of the commission to fix, charge, and collect fees, rentals, tolls or any other charges on the bridges within its jurisdiction, including the bridge at the Delaware Water Gap, is confirmed.

"(4) The covenants of the State of New Jersey and the Commonwealth of Pennsylvania as set forth in Article VI of the compact to which this is a supplemental agreement shall be fully applicable to any bonds or other obligations issued or undertaken by the commission. Notwithstanding Article VI or any other provision of the compact, the State of New Jersey and the Commonwealth of Pennsylvania may construct a bridge across the Delaware River in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, within 10 miles of the existing toll bridge at that location. All the rest and remainder of the compact, as amended or supplemented, shall be in full force and effect except to the extent it is inconsistent with this supplemental agreement.

"(b) The commission is authorized to fix, charge, or collect fees, rentals, tolls, or any other charges on the proposed bridge to be constructed in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, in the same manner and to the same extent that it can do so for other toll bridges under its jurisdiction and control: *Provided*, That the United States Government has approved the bridge to be a part of the National System of Interstate and Defense Highways with 90 percent of the cost of construction to be contributed by the United States Government: *And provided further*, That the non-Federal share of such bridge project is contributed by the commission. The commission is further authorized in the same manner and to the same extent that it can do so for all the other toll bridges under its jurisdiction and control to fix, charge, and collect fees, rentals, tolls or any other charges on any other bridge within its jurisdiction and control if such bridge has been constructed in part with Federal funds.

"(c) The consent of Congress to this compact shall constitute Federal approval of the powers herein vested in the commission and shall also constitute authority to the United States Department of Transportation or any successor agency and the intent of Congress to grant and Federal approvals required hereunder to permit the commission to fix, charge, and collect fees, rentals, tolls, or any other charges on the bridges within its jurisdiction to the extent provided in subsections (a) and (b) and this subsection and the compact.

"(d) Notwithstanding the above provisions, the commission shall not fix, charge, or collect fees, rentals, tolls, or any other charges on any of the various bridges formerly toll or otherwise over the Delaware River between the State of New Jersey and the Commonwealth of Pennsylvania heretofore acquired by the commission pursuant to the provisions of the act of the State of New Jersey approved April 1, 1912 (chapter 297), and all supplements and amendments thereto, and the act of the Commonwealth of Pennsylvania approved May 8, 1919 (Pamphlet Laws 148), and all supplements and amendments thereto.

"(e) At any time that the commission shall be free of all outstanding indebtedness, the State of New Jersey and the Commonwealth of Pennsylvania may, by the enactment of substantially similar acts, require the elimination of all tolls, rates, rents, and other charges on all bridges within the commission's jurisdiction and control and, thereafter, all costs and charges in connection with the construction, management, operation, maintenance, and betterment of bridges within the jurisdiction and control of the commission shall be the financial responsibility of the States as provided by law.".

SEC. 147. HIGHWAY DESIGNATION.

The portion of Oklahoma State Route 99 between United States Route 70 and Interstate Route I-44 which portion is on the Federal-aid primary system shall hereafter be designated as "United States Highway 377". Any reference in a law, map, regulation, document, record or other paper of the United States to such highway shall be held to be a reference to "United States Highway 377".

SEC. 148. BRIDGE NAMING.

The bridge crossing the Mississippi River on Interstate Route I-80 near Le Claire, Iowa, shall hereafter be known and designated as the "Fred Schwengel Bridge". Any law, regulation, document, or record of the United States in which such bridge is referred to shall be held to refer to such bridge as the "Fred Schwengel Bridge".

SEC. 149. STUDY OF APPORTIONMENT FORMULAS.

(a) STUDY DESCRIPTION.—The Secretary shall make a full and complete study regarding the apportionment and allocation of Federal financial assistance made available out of the Highway Trust Fund (other than the Mass Transit Account) under sections 103(e)(4), 104(b), 144, 152, and 157 of title 23, United States Code, and section 203 of the Highway Safety Act of 1973 for the purpose of determining whether or not such assistance is being equitably apportioned and allocated among the States, taking into account the relative needs of the States for highway improvements and the estimated tax payments attributable to highway users in each State paid into the Highway Trust Fund (other than the Mass Transit Account).

(b) CONSULTATION.—In conducting the study under this section, the Secretary shall consult with other agencies of the Federal Government and with agencies of State and local governments.

(c) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report on the results of such study to Congress, together with recommendations for legislation for modifying the formulas apportioning and allocating the assistance referred to in subsection (a) to conform to the objectives of such study.

SEC. 150. BRIDGE FORMULA STUDY.

(a) CONTRACT WITH TRANSPORTATION RESEARCH BOARD.—The Secretary shall enter into appropriate arrangements with the Transportation Research Board of the National Academy of Sciences to conduct a comprehensive study of the effects of enforcement of the limitations on vehicle weights imposed by application of the formula contained in section 127(a) of title 23, United States Code.

(b) CONSULTATION WITH CERTAIN TRANSPORTATION INTERESTS.—The Transportation Research Board shall conduct the study under this section only after consulting transportation officials, representatives of the motor truck manufacturing industry, and representatives of the trucking industry (including special permit haulers and users of construction and other vehicles which engage in heavy hauling operations).

(c) REPORT.—

(1) DEADLINE.—Not later than 24 months after the date of the enactment of this Act, the Transportation Research Board shall report to the Secretary and Congress on the results of the study conducted under this section.

(2) CONTENTS.—The report shall include—

(A) an assessment of the potential costs and benefits of enforcing the limitations on vehicle weights imposed by application of the formula contained in section 127(a) of title 23, United States Code,

(B) any recommendations of such Board concerning modifications of such formula, and

(C) an examination of alternative means of regulating truck weights on bridges.

The report shall also identify optimal axle loading and spacing requirements taking into account all costs and benefits to business, government, and the general public.

(d) Authorization of Appropriations.—There is authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) $500,000 for fiscal year 1987 for conducting the study under subsection (a).

(e) Applicability of Title 23.—Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 151. STUDY OF HIGHWAY BRIDGES WHICH CROSS RAIL LINES.

(a) Needs Investigation.—The Secretary shall conduct a comprehensive study and investigation of improvement and maintenance needs for highway bridges which cross rail lines and whose ownership has been disputed. Such study and investigation shall assess—

(1) railroad and highway needs relating to safety, capacity, and mobility and the needs of communities affected by such bridges;

(2) the feasibility of addressing these needs on a comprehensive, national basis; and

(3) the responsibility of railroad and highway authorities in addressing these needs.

(b) Report.—Not later than 30 months after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the Secretary's study and investigation along with recommendations on how the bridge needs referred to in subsection (a) may best be addressed on a long term basis in a cost effective manner.

SEC. 152. PARKING FOR HANDICAPPED PERSONS.

(a) Study.—The Secretary shall conduct a study for the purpose of determining—

(1) any problems encountered by handicapped persons in parking motor vehicles; and

(2) whether or not each State should establish parking privileges for handicapped persons and grant to nonresidents of the State the same parking privileges as are granted to residents.

(b) Report.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under subsection (a).

(c) Development of Proposed Uniform State Law.—

(1) Requirement.—If the Secretary determines under subsection (a) that each State should establish parking privileges for handicapped persons and grant to nonresidents of the State the same parking privileges as are granted to residents, the Secretary shall develop a proposed uniform State law with respect to parking privileges for handicapped persons and submit a copy of the proposed uniform State law to Congress and each State.

(2) Factors to consider.—In developing the proposed uniform State law, the Secretary shall consult with the States and shall consider any advantages—

(A) of ensuring that parking privileges for handicapped persons may be utilized whether a handicapped person is a passenger or a driver;

(B) of the use of the international symbol of access as the exclusive symbol identifying parking zones for handicapped persons and identifying vehicles that may park in such parking zones;

(C) of displaying the international symbol of access on license plates or license plate decals and on identification placards; and

(D) of designing any identification placard so that the placard is easily visible when placed in the interior of any vehicle.

(3) Report.—If a proposed uniform State law with respect to parking privileges for handicapped persons is developed and submitted to Congress under paragraph (1), the Secretary shall report to Congress within 12 months after the date of such submission and each year thereafter on the extent to which each State has adopted the proposed uniform State law.

SEC. 153. FEASIBILITY STUDY OF USING HIGHWAY ELECTRIFICATION SYSTEMS.

(a) Grant Purpose.—The Secretary shall make a grant to the California Department of Transportation for the purpose of determining the feasibility and applicability of utilizing a highway electrification system as a source of energy for highway vehicles. Such grant shall cover the costs of activities necessary to make such determination, including (but not limited to) necessary land acquisition, construction of a test facility, research, planning, analysis, and engineering.

(b) Grant Conditions.—A grant may only be made under this section if the California Department of Transportation agrees—

(1) to conduct, through the test facility to be constructed under such grant, a study to determine the feasibility and applicability of using a highway electrification system as a source of energy for highway vehicles, and

(2) to submit to the Secretary a report on the results of such study not later than three years after the date such construction is completed.

(c) Authorization of Appropriations.—There is authorized to be appropriated to carry out subsection (a) of this section, out of the Highway Trust Fund (other than the Mass Transit Account), $970,000 per fiscal year for each of the fiscal years 1987, 1988, and 1989.

(d) Applicability of Title 23.—Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of acquisition and construction of the test facility described in subsection (a) shall be 100 percent, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 154. COST EFFECTIVENESS STUDY OF HIGHWAY UPGRADING.

(a) Study.—The Secretary shall conduct a study—

(1) to determine the cost-effectiveness of carrying out a project to upgrade Route 219—

(A) between its intersection with Interstate Route I-80 near Dubois, Pennsylvania, and its intersection with the boundary between New York and Pennsylvania near Bradford, Pennsylvania; and

(B) between its intersection with New York Route 242 near Ellicottville, New York, and its intersection with New York Route 17 (Southern Tier Expressway) in Salamanca, New York;

to the geometric and construction standards adopted for the National System of Interstate and Defense Highways;

(2) to determine the feasibility of partially financing such project with toll revenues, of using reclaimed strip mining lands for right-of-way for such project, and of avoiding encroachment upon national and State forests and State game lands in carrying out such project; and

(3) to determine the alignment on which such project should be carried out.

(b) Report.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report to Congress on the results of the study conducted under this section together with any recommendations the Secretary may have concerning the project described in subsection (a).

(c) Authorization of Appropriations.—There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section $1,000,000 for fiscal year 1987.

(d) Applicability of Title 23.—Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of the study under this section shall be 100 percent, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 155. BRIDGE MANAGEMENT STUDY.

(a) Investigation and Study.—The Secretary shall make a full and complete investigation and study of State bridge management programs for the purpose of determining whether or not States participating in the Federal bridge replacement and rehabilitation program under section 144 of title 23, United States Code, need to establish a comprehensive bridge management program.

(b) Report.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the investigation and study conducted under subsection (a) together with recommendations (including legislative and administrative recommendations) concerning State establishment of comprehensive bridge management programs and any minimum requirements of such programs which the Secretary considers appropriate based on the findings of such investigation and study.

SEC. 156. STATE MAINTENANCE PROGRAM STUDY.

(a) Investigation and Study.—The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct a complete investigation of the appropriateness of establishing minimum Federal guidelines for maintenance of the Federal-aid primary, secondary, and urban systems.

(b) Report.—Not later than 18 months after the date the Secretary completes making the arrangements under subsection (a), the National Academy of Sciences shall submit to the Secretary and Congress a report on the results of the investigation and study conducted under subsection (a) together with recommendations (including legislative and administrative recommendations) concerning establishment of minimum Federal guidelines for maintenance of the Federal-aid primary, secondary, and urban systems.

SEC. 157. HIGHWAY FEASIBILITY STUDY.

(a) Study.—The Secretary, in cooperation with the States of Louisiana, Arkansas, and

Missouri, shall study the feasibility and necessity of constructing to appropriate standards a proposed highway along a route from Shreveport, Louisiana, to Texarkana, Fort Smith, and Fayetteville, Arkansas, and Carthage and Kansas City, Missouri. Such study shall update the feasibility study conducted under section 143(6) of the Federal-Aid Highway Act of 1973.

(b) Report.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under this section.

SEC. 158. CALIFORNIA FEASIBILITY STUDY.

(a) Study.—The Secretary shall study the feasibility and necessity of constructing a bypass highway around the city of Sebastopol, California.

(b) Report.—Not later than 9 months after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under this section. Such report shall compare the costs and benefits of constructing the highway referred to in subsection (a) and shall include the recommendations of the Secretary concerning the location of such highway and appropriate design standards for such highway.

(c) Authorization of Appropriation.—There is authorized to be appropriated, out of the Highway Trust Fund (other than the Mass Transit Account), to carry out this section $100,000 for fiscal year 1987.

(d) Applicability of Title 23.—Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code; except that the Federal share of the cost of the study under this section shall be 100 percent, and such funds shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 159. NEW YORK FEASIBILITY STUDY.

(a) Study.—The Secretary shall study the feasibility and necessity of constructing a major highway on an inland route as an alternative to New York Route 5 from the central business district of Buffalo, New York, to the towns immediately south of Buffalo, New York.

(b) Report.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report to Congress on the results of the study conducted under this section together with any recommendations the Secretary may have concerning the project described in subsection (a).

SEC. 160. LIMITATION ON WIDENING CERTAIN ROUTES THROUGH HISTORIC DISTRICT.

None of the funds authorized by this Act or any other Act or any amendment made by this Act may be obligated for a project to widen any State route through the historic district of the village of Hudson, Ohio, or for a project to construct an alternative or bypass route for such a route within 1 mile of such historic district, unless specifically approved by the village council of the village of Hudson, Ohio.

SEC. 161. URBAN HIGH DENSITY PROGRAM.

Of amounts available under the urban high density program, $2,806,675 is rescinded. $2,806,675 shall be made available out of the Highway Trust Fund by the Secretary for reconstruction of an interchange on an urban high density project designated in the State of Indiana in accordance with section 146 of title 23, United States Code (as such section was in effect on August 13, 1973).

SEC. 162. FERRY BOAT SERVICE.

(a) Study.—The Secretary, in consultation with the highway departments of the States of Nebraska and South Dakota, shall conduct a study to determine the feasibility and cost of establishing public ferry boat service on the Missouri River which connects a Federal-aid highway in the vicinity of Niobrara, Nebraska, with a Federal-aid highway in the vicinity of Springfield, South Dakota, and which meets the requirements of section 129(g) of title 23, United States Code.

(b) Report.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report to Congress on the results of the study conducted under this section together with any recommendations the Secretary may have concerning the establishment of the ferry boat service described in subsection (a).

TITLE II—HIGHWAY SAFETY ACT OF 1987

SEC. 201. SHORT TITLE.

This title may be cited as the "Highway Safety Act of 1987".

SEC. 202. HIGHWAY SAFETY.

(a) Authorizations of Appropriations.—The following sums are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) Bridge replacement and rehabilitation.—For bridge replacement and rehabilitation under section 144 of title 23, United States Code, $1,755,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(2) Elimination of hazards.—For projects for elimination of hazards under section 152 of title 23, United States Code, $170,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

(3) NHTSA highway safety programs.—For carrying out section 402 of title 23, United States Code, by the National Highway Traffic Safety Administration $123,000,000 for fiscal years 1988, 1989, 1990, and 1991.

(4) NHTSA highway safety research and development.—For carrying out section 403 of such title by the National Highway Traffic Safety Administration $33,000,000 for fiscal years 1987, 1988, 1989, 1990, and 1991.

(5) FHWA highway safety programs.—For carrying out section 402 of such title by the Federal Highway Administration $10,000,000 for fiscal years 1987, 1988, 1989, 1990, and 1991.

(6) FHWA highway safety research and development.—For carrying out sections 307(a) and 403 of such title by the Federal Highway Administration $10,000,000 per fiscal year for fiscal years 1987, 1988, 1989, 1990, and 1991.

(b) Extension of NHTSA Highway Safety Programs for Fiscal Year 1987.—Section 203(a) of the Surface Transportation Assistance Act of 1982 is amended—

(1) in paragraph (1) by striking out "and" and by inserting before the period at the end of such paragraph ", and $123,000,000 for the fiscal year ending September 30, 1987";

(2) in paragraph (2) by striking out "and" and by inserting "and September 30, 1987" after "1986,"; and

(3) in paragraph (4)(B) by striking out "and September 30, 1986," and inserting in lieu thereof "September 30, 1986, and September 30, 1987,".

(c) Minimum Obligations of NHTSA Highway Safety Authorizations.—

(1) Enforcement of 55 mph speed limit.—Out of the funds authorized to be appropriated under subsection (a)(3) of this section for each of fiscal years 1988, 1989, 1990, and 1991, not less than $20,000,000 per fiscal year shall be obligated under section 402 of title 23, United States Code, for the purpose of enforcing the 55-miles-per-hour speed limit established by section 154 of such title.

(2) Safety belt programs.—Each State shall expend each fiscal year not less than 2 percent of the amount apportioned to it for such fiscal year of the sums authorized by subsection (a)(3) of this section, for programs to encourage the use of safety belts by drivers of, and passengers in, motor vehicles.

(d) Obligation Ceiling for Highway Safety Programs.—Notwithstanding any other provision of law, the total of all obligations for highway safety programs carried out by the National Highway Traffic Safety Administration under section 402 of title 23, United States Code, shall not exceed $126,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991, and the total of all obligations for highway safety programs carried out by the Federal Highway Administration under such section shall not exceed $10,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991.

SEC. 203. 55 MPH SPEED LIMIT.

(a) Weighted Compliance Formula.—

(1) In general.—Section 154(f) of title 23, United States Code, is amended to read as follows:

"(f) Enforcement.—

"(1) Determination of compliance; penalty.—If the compliance score of a State as determined by application of the formula set forth in paragraph (2) to the data submitted by such State pursuant to subsection (e) of this section for any fiscal year exceeds 625, the Secretary shall reduce the State's apportionment of Federal-aid highway funds under each of sections 104(b)(1), 104(b)(2), and 104(b)(6) of this title in an aggregate amount of not less than 2.5 percent but not more than 5 percent, of the amount to be apportioned for the following fiscal year, in the case of the first fiscal year in which the score of such State as so determined exceeds 625, and not less than 5 percent, but not more than 10 percent, in the case of subsequent fiscal years.

"(2) Compliance formula.—For purposes of this section, the formula for determining the compliance score of a State for any fiscal year under this section shall be as follows:

$$\text{State Score} = \frac{X(A+5B+10C)+Y(2D+20E+40F)}{100}$$

"(3) FORMULA FACTORS.—For purposes of the formula in paragraph (2)—

"(A) X equals the percentage of the vehicle miles of travel in a fiscal year in a State on 55 mph highways which occur on limited access highways;

"(B) Y equals 100 minus X;

"(C) A equals the percentage of vehicles traveling in the fiscal year in the State on limited access highways at speeds in excess of 55 miles per hour but not in excess of 60 miles per hour;

"(D) B equals the percentage of vehicles traveling in the fiscal year in the State on limited access highways at speeds in excess of 60 miles per hour but not in excess of 65 miles per hour;

"(E) C equals the percentage of vehicles traveling in the fiscal year in the State on limited access highways at speeds in excess of 65 miles per hour;

"(F) D equals the percentage of vehicles traveling in the fiscal year in the State on 55 mph highways (other than limited access highways) at speeds in excess of 55 miles per hour but not in excess of 60 miles per hour;

"(G) E equals the percentage of vehicles traveling in the fiscal year in the State on such 55 mph highways at speeds in excess of 60 miles per hour but not in excess of 65 miles per hour; and

"(H) F equals the percentage of vehicles traveling in the fiscal year in the State on such 55 mph highways at speeds in excess of 65 miles per hour.

"(4) DEFINITIONS OF TERMS.—For purposes of this section—

"(A) 55 MPH HIGHWAY.—The term '55 mph highway' means—

"(i) any public highway with a speed limit which is posted on or after January 1, 1983, at 55 miles per hour, except that such term does not include any highway on which the posted speed limit has been reduced after such date based on legitimate traffic safety requirements as determined by the Secretary; and

"(ii) any undivided public highway with a speed limit of 50 miles per hour which is on the Federal-aid primary system, and on which access is not fully controlled, in a State in which the statutory State maximum speed limit is 50 miles per hour on public highways on the primary system.

"(B) LIMITED ACCESS HIGHWAY.—The term 'limited access highway' means any divided 55 mph highway or segment on which access is fully controlled.".

(2) CONFORMING AMENDMENTS.—(A) Section 154(e) of such title is amended—

(i) by striking out "public highways with speed limits posted at fifty-five miles per hour" and inserting in lieu thereof "55 mph highways";

(ii) by striking out "which takes into account the variability of speedometer readings and" and inserting in lieu thereof "which take into account"; and

(iii) by adding at the end thereof the following: "Data submitted under this subsection shall be in such form as the Secretary determines by rule is necessary to carry out subsection (f).".

(B) Section 154(h) of such title is amended by striking out "the percentage" and all that follows through "miles per hour" and inserting in lieu thereof "the compliance score for such State".

(3) APPLICABILITY.—The amendments made by paragraphs (1) and (2) shall apply with respect to—

(A) data collected under section 154(e) of title 23, United States Code, after September 30, 1986, and

(B) reductions in apportionments based on such data.

(4) APPORTIONMENT OF CERTAIN WITHHELD FUNDS.—In the case of any State described in section 154(f)(4)(A)(ii) of title 23, United States Code, from which funds are or have been withheld under section 154(f) of such title based on data collected before the effective date of the amendments made by this section, the Secretary shall promptly apportion such funds to such State if the Secretary determines, based on data collected during the first fiscal year in which the amendments made by this section are in effect, that the State is in compliance with such section 154(f).

(b) ADMINISTRATION THROUGH NHTSA.—

(1) IN GENERAL.—Section 154 of such title is amended by adding at the end thereof the following new subsection:

"(i) ADMINISTRATION THROUGH NHTSA.—The Secretary shall carry out this section and section 141(a) of this title through the National Highway Traffic Safety Administration.".

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect as soon as practicable after the date of the enactment of this Act but not later than October 1, 1987.

SEC. 204. ALCOHOL TRAFFIC SAFETY PROGRAMS.

(a) MODIFICATION OF PROMPT SUSPENSION REQUIREMENT FOR BASIC GRANTS.—Section 408(e) of title 23, United States Code, is amended by adding at the end thereof the following new paragraph:

"(4) MODIFIED BASIC GRANTS FOR LESS THAN PROMPT SUSPENSION.—For purposes of this section, a State which would be eligible for a basic grant but for the suspension of drivers' licenses referred to subparagraph (A) of paragraph (1) of this subsection not being made promptly shall be eligible for such a grant if the Secretary, under such regulations as the Secretary may issue, determines that such State is suspending drivers' licenses within 120 days of the determination of probable cause and is making reasonable progress in further reducing the time period between such determination and suspension.

"(5) MODIFIED BASIC GRANTS FOR RESTRICTED LICENSES IN HARDSHIP CASES.—For purposes of this section, a State which does not in all cases suspend drivers' licenses of individuals who are determined, as a result of chemical tests, to be intoxicated or who refuse to submit to such tests but which is otherwise eligible for a basic grant, shall be eligible for such a grant if the Secretary, under such regulations as the Secretary may issue, determines that—

"(A) the only cases in which the State does not suspend the drivers' licenses of such individuals are those cases in which—

"(i) a showing of hardship is made, and

"(ii) the driver's license is restricted in a manner which permits the individual to drive only to the extent necessary to relieve such hardship;

"(B) during any calendar quarter, not more than 20 percent of the total number of such cases involving first offenders results in restricted licenses; and

"(C) during any calendar quarter, not more than 15 percent of the total number of such cases involving repeat offenders results in restricted licenses.".

(b) AMOUNT OF MODIFIED BASIC GRANT.—Section 408(d)(1) of such title is amended—

(1) by inserting "(A) IN GENERAL.—" before "Subject"; and

(2) by adding at the end thereof the following new paragraph:

"(B) MODIFIED BASIC GRANTS.—Subject to subsection (c), the amount of a basic grant made under this section for any fiscal year to any State which is eligible for such a grant under subsection (e)(4) or (e)(5) shall equal 20 percent of the amount apportioned to such State for fiscal year 1983 under section 402 of this title.".

(c) AVAILABILITY OF FUNDS.—Section 408(g) of such title is amended by inserting before the period at the end of the second sentence the following: "and except that sums authorized by this subsection shall remain available until expended".

(d) CONFORMING AMENDMENTS.—(1) Section 408(d) of such title is amended—

(A) by inserting "AMOUNTS OF GRANTS.—" after "(d)";

(B) in paragraph (1) by inserting "BASIC GRANTS.—" after "(1)" the first place it appears;

(C) in paragraph (1) by indenting subparagraph (A), as designated by subsection (b) of this section, and aligning such subparagraph with subparagraph (B) of such paragraph, as added by such subsection;

(D) in paragraph (2) by inserting "SUPPLEMENTAL GRANTS.—" before "Subject to";

(E) in paragraph (3) by inserting "SPECIAL GRANTS.—" before "Subject to"; and

(F) by indenting paragraph (1) and aligning such paragraph and paragraphs (2) and (3) with paragraph (4) of subsection (e), as added by subsection (a) of this section.

(2) Section 408(e) of such title is amended—

(A) by inserting "ELIGIBILITY CRITERIA.—" after "(e)";

(B) in paragraph (1) by inserting "BASIC GRANTS.—" before "For purposes";

(C) in paragraph (2) by inserting "SUPPLEMENTAL GRANTS.—" before "For purposes";

(D) in paragraph (3) by inserting "SPECIAL GRANTS.—" before "For purposes";

(E) by indenting paragraph (1) and aligning such paragraph and paragraphs (2) and (3) with paragraph (4), as added by subsection (a) of this section;

(F) by aligning the subparagraphs of paragraphs (1) and (3) with subparagraph (A) of paragraph (5), as added by such subsection (a); and

(G) by aligning the clauses of subparagraphs (A) and (C) of paragraph (3), including subclauses (I) and (II) of paragraph (3)(A)(ii), with clause (i) of paragraph (5)(A), as added by such subsection (a).

(e) DEMONSTRATION OF CERTAIN DRUG AND ALCOHOL TESTING TECHNOLOGY.—

(1) IN GENERAL.—The Secretary is authorized to test a new drug and alcohol testing technology which measures corneal retinal potential as exhibited in the brain function wave form and to determine the potential for applying such technology in preventing drug and alcohol related traffic deaths.

(2) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall report to Congress on the effectiveness and the potential for application of the technology described in paragraph (1).

SEC. 205. SCHOOLBUS SAFETY MEASURES.

(a) STUDY.—

(1) NATIONAL ACADEMY OF SCIENCES.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall undertake to enter into appropriate arrangements with the National Academy of Sciences to conduct a comprehensive study and investigation of the principal causes of fatalities and injuries to schoolchildren riding in schoolbuses and of the use of seatbelts in

schoolbuses and other measures that may improve the safety of schoolbus transportation. The purpose of the study and investigation is to determine those safety measures that are the most effective in protecting the safety of schoolchildren while boarding, leaving, and riding in schoolbuses.

(2) Report.—In entering into any arrangements with the National Academy of Sciences for conducting the study and investigation under this subsection, the Secretary shall request the National Academy of Sciences to submit, not later than 18 months after date on which such arrangements are completed, to Congress and the Secretary a report on the results of such study and investigation. The report shall contain a list of those safety measures determined by the Academy to be most effective in protecting the safety of schoolchildren while boarding, leaving, and riding in schoolbuses.

(3) Review of report.—Upon receipt of the report under paragraph (2), the Secretary shall review such report for the purpose of determining those safety measures that are the most effective in protecting the safety of schoolchildren while boarding, leaving, and riding in schoolbuses. Not later than 2 months after the date of receipt of such report, the Secretary shall publish in the Federal Register a list of those safety measures which the Secretary determines are the most effective in protecting the safety of such children.

(4) Information.—Upon request of the National Academy of Sciences, the Secretary shall furnish to the Academy any information which the Academy deems necessary for the purpose of conducting the study and investigation under this subsection.

(b) Schoolbus Safety Grant Program.—

(1) Set-aside.—Before apportioning any funds made available to carry out section 402 of title 23, United States Code, for each of fiscal years 1989, 1990, and 1991, the Secretary may set aside an amount not to exceed $5,000,000 for making grants to States to implement those schoolbus safety measures published by the Secretary under subsection (a).

(2) Application.—Any State interested in receiving under this subsection a grant to implement schoolbus safety measures in fiscal year 1989, 1990, or 1991 shall submit to the Secretary an application for such grant. Applications under this subsection shall be submitted at such time and in such form and contain such information as the Secretary may require by regulation.

(3) Limitation.—No State shall receive more than 30 percent of the funds set aside pursuant to this subsection for any fiscal year in grants under this subsection.

SEC. 206. STANDARDS FOR SPLASH AND SPRAY SUPPRESSANT DEVICES.

Section 414 of the Surface Transportation Assistance Act of 1982 (49 U.S.C. 2314) is amended by redesignating subsection (c), and any references thereto, as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) Notwithstanding subsection (b), the Secretary shall not establish final minimum standards with respect to the performance and installation of splash and spray suppression devices for use on truck tractors, semitrailers, or trailers until—

"(1) the Secretary has determined that there is available technology that can (A) substantially reduce splash and spray from truck tractors, semitrailers, and trailers, and (B) substantially improve visibility of drivers, as demonstrated during testing under wind, rain, and wet roadway conditions in actual highway use;

"(2) the Secretary has determined that the standards based on such technology will result in protecting the public from unreasonable risk of death or injury due to accidents resulting from splash and spray from truck tractors, semitrailers, and trailers; and

"(3) the Secretary has determined that there exists 3 or more unaffiliated manufacturers capable of manufacturing devices meeting the standards to be established.".

SEC. 207. USE OF CERTAIN REPORTS AS EVIDENCE.

Notwithstanding any other provision of law, no report, list, schedule, or survey prepared by or for a State pursuant to section 152 of title 23, United States Code, or section 203 of the Highway Safety Act of 1973 shall be admitted as evidence or used in any suit or action for damages arising out of any matter referred to in such report, list, schedule, or survey.

SEC. 208. EMERGENCY CALL BOXES.

Section 101(a) of title 23, United States Code, is amended in the tenth undesignated paragraph (relating to the definition of highway safety improvement project) by inserting after "pavement marking," the following: "installs or replaces emergency motorist-aid call boxes,".

SEC. 209. RAILROAD-HIGHWAY CROSSINGS AUTHORIZATIONS.

The first sentence of section 203(b) of the Highway Safety Act of 1973 is amended by striking out "and" the first place it appears and by striking out the period at the end and inserting in lieu thereof ", and $140,000,000 for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, September 30, 1990, and September 30, 1991.".

SEC. 210. NATIONAL DRIVER REGISTER AMENDMENTS.

(a) 12-Month Extension of Deadline for Final Rules.—Section 203(c)(1) of the National Driver Register Act of 1982 is amended—

(1) by striking out "eighteen months" and inserting in lieu thereof "24 months"; and

(2) by inserting "publish notice of a proposed rulemaking and, within 6 months after the last day of such 24-month period," after "title,".

(b) Pilot Test Program.—Section 207 of such Act is amended—

(1) in subsection (a) by striking out "and implement, within two years after the date of enactment of this title,";

(2) in subsection (b)—

(A) by striking out "and shall, within thirty" and insert in lieu thereof ", within 30"; and

(B) by striking out "select" and inserting in lieu thereof "and shall select, within 12 months after the last day of such 30-month period,";

(3) in subsection (d) by striking out "two years after the date of enactment of this title," and inserting in lieu thereof "16 months after the selection of the four pilot States under subsection (b),"; and

(4) by striking out subsection (f) and inserting in lieu thereof the following:

"(f) Not later than 6 months after the conclusion of the pilot program the Secretary shall submit to Congress a report on such program. Such report shall include—

"(1) an evaluation of the technology utilized in such program;

"(2) an evaluation of such program;

"(3) a projection of accomplishments which would result from the acquisition of electronic transfer equipment and methods by States other than those which participated in such program; and

"(4) any recommendations of the Secretary concerning the desirability of extending the authorization of appropriations for this title beyond fiscal year 1987.".

(c) Report by Secretary.—Section 210 of such Act is amended—

(1) by striking out "the expiration of the four-year period following the date of enactment of this title," and inserting in lieu thereof "3 years after the establishment of a fully electronic Register system under section 203,"; and

(2) by striking out the last sentence.

SEC. 211. HIGHWAY SAFETY PROGRAM AMENDMENTS.

(a) Guidelines.—Section 402 of title 23, United States Code, is amended by striking out "standard" and "standards" each place they appear and inserting in lieu thereof "guideline" and "guidelines", respectively.

(b) Waivers for Experimental Programs.—Subsection (a) of such section is amended by striking out the last sentence.

(c) Elimination of Certain Condition.—Subsection (b)(1) of such section is amended by striking out subparagraph (D), relating to comprehensive driver training programs, and by redesignating subparagraphs (E) and (F) (and any references thereto) as subparagraphs (D) and (E), respectively.

(d) Rulemaking Process.—Subsection (j) of such section is amended to read as follows:

"(j) Rulemaking Process.—The Secretary shall, not later than September 1, 1987, begin a rulemaking process to determine those programs most effective in reducing accidents, injuries, and deaths. Not later than April 1, 1988, the Secretary shall promulgate a final rule establishing those programs determined to be most effective in reducing accidents, injuries, and deaths. If such rule is promulgated by April 1, 1988, then it shall take effect October 1, 1988. If such rule is not promulgated by April 1, 1988, it shall take effect October 1, 1989. After a rule is promulgated in accordance with this subsection, the Secretary may from time to time thereafter revise such rule under a rulemaking process described in the first sentence of this subsection. Any rule under this subsection shall be promulgated taking into account consideration of the States having a major role in establishing programs described in the first sentence of this subsection. When a rule promulgated in accordance with this subsection takes effect, only those programs established by such rule as most effective in reducing accidents, injuries, and deaths shall be eligible to receive Federal financial assistance under this section.".

SEC. 212. HIGHWAY SAFETY EDUCATION AND INFORMATION.

(a) National Highway Safety Campaign.—Subsection (d) of section 209 of the Highway Safety Act of 1978 is amended to read as follows:

"(d) Utilizing those techniques, methods, and practices determined most effective under subsection (b), the Secretary of Transportation shall conduct a national highway safety campaign utilizing the local and national television and radio to educate and inform the public of techniques, methods, and practices to reduce the number and severity of highway accidents. Not later than the 180th day after the date of submission of the first report to Congress required by subsection (b) of this section, the Secretary shall commence the conduct of such campaign.".

(b) Limitation on Obligations.—Subsection (h) of such section is amended by adding at the end thereof the following: "None of the amounts authorized by this subsection shall be available for obligation for any education or information program conducted in connection with the implementation of Federal Motor Vehicle Safety Standard 208 (49 C.F.R. 571.208).".

(c) Obligation Ceiling.—Subsection (i) of such section is amended by inserting before the period at the end the following: "and except that the funds authorized to be appropriated to carry out this section shall not be subject to any obligation limitation".

SEC. 213. RAILROAD-HIGHWAY CROSSING NEEDS.

(a) Study.—The Secretary, in consultation with the Association of American Railroads and the American Association of State Highway and Transportation Officials, shall conduct a comprehensive study and investigation of national railroad-highway crossing improvement and maintenance needs. Such study and investigation shall assess—

(1) railroad and highway needs relating to crossing safety, capacity, and mobility and the needs of communities affected by railroad-highway crossings;

(2) the feasibility of addressing these needs on a corridor or system basis; and

(3) the responsibility of rail and highway authorities in addressing these needs.

In carrying out such study, the Secretary shall consider the progress and the results of the programs and projects conducted before, on, or after the date of the enactment of this Act to improve safety at railroad-highway crossings.

(b) Report.—Not later than 30 months after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the Secretary's study and investigation along with recommendations on how the needs referred to in subsection (a) can best be addressed on a long term and continuing basis in a cost-effective manner. Such report and recommendations shall take into account the results of the programs and projects referred to in subsection (a).

SEC. 214. OLDER DRIVER STUDY.

(a) Contract.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall undertake to enter into appropriate arrangements with the National Academy of Sciences to conduct a comprehensive study and investigation of (1) problems which may inhibit the safety and mobility of older drivers using the Nation's roads, and (2) means of addressing these problems.

(b) Report.—In entering into any arrangement with the National Academy of Sciences for conducting such study and investigation, the Secretary shall request the National Academy of Sciences to report to the Secretary and Congress not later than 24 months after the date of the enactment of this Act on the results of such study and investigation, together with its recommendations.

(c) Availability of Information.—The Secretary shall furnish to such Academy at its request any information which the Academy deems necessary for the purpose of conducting the investigation and study authorized by this section.

(d) Pilot Program.—

(1) Development of program.—The Secretary shall develop, in conjunction with the study carried out under this section, a pilot program of highway safety improvements to enhance the safety and mobility of older drivers. The program shall be designed to apply known technology at sites in rural and urban areas and on different types of highways and to determine the daytime and nighttime effectiveness of such technology.

(2) States encouraged to carry out program.—The Secretary shall encourage the States to carry out the pilot program developed under paragraph (1) with funds available for highway safety improvement projects. In particular, the Secretary shall encourage States with a high percentage of older drivers to give high priority to carrying out the pilot program.

(3) Evaluation and report.—Not later than 3 years after the date of the enactment of this Act, the Secretary shall evaluate the pilot program under this subsection and shall report to Congress on the effectiveness of such program in improving the safety and mobility of older drivers.

SEC. 215. RESCISSION OF CONTRACT AUTHORITY.

$148,000,000 of unobligated contract authority available for airport development and planning pursuant to section 505(a) of the Airport and Airway Improvement Act of 1982 is rescinded. This rescission does not reduce the balance in the Airport and Airway Trust Fund.

TITLE III—FEDERAL MASS TRANSPORTATION ACT OF 1987

SEC. 301. SHORT TITLE.

This title may be cited as the "Federal Mass Transportation Act of 1987".

SEC. 302. LETTERS OF INTENT; MULTI-YEAR CONTRACTS.

(a) General Rule.—Section 3(a)(4) of the Urban Mass Transportation Act of 1964 is amended to read as follows:

"(4) Multi-year contracts.—

"(A) Prenotification of congress.—Subject to the provisions of this paragraph, the Secretary may enter into a multi-year contract with an applicant to carry out a project under this section if, at least 30 days before such contract becomes effective, the Secretary notifies, in writing, the Committee on Public Works and Transportation of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate of such contract and submits a summary and copy of such contract to such committees.

"(B) Limitation on amounts stipulated.—The total amount stipulated for any fiscal year (including any future fiscal year) under all multi-year contracts entered into under this paragraph shall not exceed the amount authorized to be appropriated out of the Mass Transit Account of the Highway Trust Fund to carry out this section for such fiscal year, less an amount reasonably estimated by the Secretary to be necessary for grants under this section which are not covered by a multi-year contract.

"(C) Operable segment.—The amount stipulated in a multi-year contract to carry out a fixed guideway project shall be sufficient to complete an operable segment.

"(D) Applicability of other laws.—Notwithstanding any other provision of law, a multi-year contract entered into under this paragraph shall not be subject to—

"(i) any future availability of funds for obligation, except as provided in subparagraph (B), subsection (i) of this section, and section 9503(e)(4) of the Internal Revenue Code of 1954, and

"(ii) any obligation limitation, except an obligation limitation imposed by section 21(a)(2)(F).".

(b) Conforming Amendments.—Section 3(a) of such Act is amended —

(1) by inserting "Grant and Loan Programs.—" before "(1) The Secretary";

(2) in paragraph (1) by inserting "General authority.—" before "The Secretary is";

(3) in paragraph (3) by inserting "Approved program of projects.—" before "The Secretary";

(4) in paragraph (5) by inserting "Decreased commuter rail service.—" before "The Secretary";

(5) in paragraph (6) by inserting "Labor intensive projects.—" before "In";

(6) by indenting paragraph (1) and aligning such paragraph and paragraphs (3), (5), and (6) with paragraph (4), as amended by subsection (a) of this section; and

(7) by aligning subparagraphs (A), (B), (C), (D), and (E) of paragraph (1) with subparagraph (A) of such paragraph (4).

(c) Effective Date.—The amendments made by subsections (a) and (b) of this section shall take effect on the date of the enactment of this Act and shall not affect any letter of intent issued before such date.

SEC. 303. APPROVAL OF FUNDING LEVELS AND ALLOCATIONS OF FUNDS.

Section 3 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(i) Funding Levels and Allocations of Funds.—

"(1) Submission to congress.—Not later than 30 days after the date of the enactment of this Act and each January 20 thereafter, the Secretary shall prepare and transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate—

"(A) a proposal of the total amount of funds which should be made available under section 21(a)(2)(C)(iv) of this Act to finance for the fiscal year beginning on October 1 of such year grants and loans for each of the following:

"(i) the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities,

"(ii) rail modernization, and

"(iii) construction of new fixed guideway systems and extensions to fixed guideway systems; and

"(B) a proposal of the allocation of the funds to be made available (including any funds proposed to be made available pursuant to clauses (ii) and (iii) of subparagraph (A)) for such fiscal year to finance grants and loans for rail modernization and for construction of new fixed guideway systems and extensions to fixed guideway systems among applicants for such assistance.

"(2) Special provisions.—The proposals submitted under paragraph (1) of this subsection shall reflect multi-year contracts entered into under subsection (a)(4) of this section; amounts stipulated for each fiscal year under full funding contracts executed under such subsection before the date of the enactment of this subsection; and, in the case of projects for which letters of intent have been issued under such subsection before such date of enactment but for which full funding contracts have not been executed before such date, amounts stipulated for each fiscal year under such letters of intent.

"(3) Approval required.—Notwithstanding any other provision of this section, no funds may be made available to finance grants and loans under this section for any fiscal year beginning after September 30, 1987, until a proposal transmitted by the

Secretary under this subsection for such year (including any revisions thereof) is approved by law.

"(4) Effect of approval.—Upon approval by law of a proposal transmitted under this subsection for any fiscal year beginning after September 30, 1987, the Secretary shall make the amount of funds approved under this subsection available for obligation for such fiscal year and shall allocate the funds for such fiscal year in accordance with the allocations approved under this subsection.".

SEC. 304. ADVANCE CONSTRUCTION.

(a) Discretionary Grant Program.—Section 3 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(j) Advance Construction.—

"(1) Approved project.—Upon application of a State or local public body which carries out a project described in this section or a substitute transit project described in section 103(e)(4) of title 23, United States Code, or portion of such a project without the aid of Federal funds in accordance with all procedures and requirements applicable to such a project and upon the Secretary's approval of such application, the Secretary may pay to such applicant the Federal share of the net project costs if, prior to carrying out such project or portion, the Secretary approves the plans and specifications therefor in the same manner as other projects under this section or such section 103(e)(4), as the case may be.

"(2) Bond interest.—

"(A) Eligible cost.—Subject to the provisions of this paragraph, the cost of carrying out a project or portion thereof, the Federal share of which the Secretary is authorized to pay under this subsection, shall include the amount of any interest earned and payable on bonds issued by the State or local public body to the extent that the proceeds of such bonds have actually been expended in carrying out such project or portion.

"(B) Limitation on amount.—In no event shall the amount of interest considered as a cost of carrying out a project or portion thereof under subparagraph (A) be greater than the excess of—

"(i) the amount which would be the estimated cost of carrying out the project or portion if the project or portion were to be carried out at the time the project or portion is converted to a regularly funded project, over

"(ii) the actual cost of carrying out such project or portion (not including such interest).

"(C) Changes in construction cost indices.—The Secretary shall consider changes in construction cost indices in determining the amount under subparagraph (B)(i).".

(b) Block Grant Program.—Section 9 of such Act is amended by adding at the end thereof the following new subsection:

"(p) Advance Construction.—

"(1) Approved project.—When a recipient has obligated all funds apportioned to it under this section and proceeds to carry out any project described in this section (other than a project for operating expenses) or portion of such a project without the aid of Federal funds in accordance with all procedures and all requirements applicable to such a project, except insofar as such procedures and requirements limit a State to carrying out projects with the aid of Federal funds previously apportioned to it, the Secretary, upon application by such recipient and his approval of such application, is authorized to pay to such recipient the Federal share of the costs of carrying out such project or portion when additional funds are apportioned to such recipient under this section if, prior to carrying out such project or portion, the Secretary approves the plans and specifications therefor in the same manner as other projects under this section.

"(2) Limitation on projects.—The Secretary may not approve an application under this subsection unless an authorization for this section is in effect for the fiscal year for which the application is sought beyond the currently authorized funds for such recipient. No application may be approved under this subsection which will exceed—

"(A) the recipient's expected apportionment under this section if the total amount of funds authorized to be appropriated to carry out this section for such fiscal year were so appropriated, less

"(B) the maximum amount of such apportionment which could be made available for projects for operating expenses under this section.

"(3) Bond interest.—

"(A) Eligible cost.—Subject to the provisions of this paragraph, the cost of carrying out a project or portion thereof, the Federal share of which the Secretary is authorized to pay under this subsection, shall include the amount of any interest earned and payable on bonds issued by the recipient to the extent that the proceeds of such bonds have actually been expended in carrying out such project or portion.

"(B) Limitation on amount.—In no event shall the amount of interest considered as a cost of carrying out a project or portion under subparagraph (A) be greater than the excess of—

"(i) the amount which would be the estimated cost of carrying out the project or portion if the project or portion were to be carried out at the time the project or portion is converted to a regularly funded project, over

"(ii) the actual cost of carrying out such project or portion (not including such interest).

"(C) Changes in construction cost indices.—The Secretary shall consider changes in construction cost indices in determining the amount under subparagraph (B)(i).".

SEC. 305. CRITERIA FOR NEW STARTS.

(a) General Rule.—Section 3 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(k) Criteria For New Starts.—No grant or loan for construction of a new fixed guideway system or extension of any fixed guideway system may be made under this section unless the Secretary determines that the proposed project—

"(1) is based on the results of an alternatives analysis and preliminary engineering,

"(2) is cost-effective, and

"(3) is supported by an acceptable degree of local financial commitment, including evidence of stable and dependable funding sources to construct, maintain, and operate the system or extension.

In making grants and loans under this section, the Secretary may also consider such other factors as the Secretary deems appropriate. The Secretary shall issue guidelines that set forth the means by which the Secretary will evaluate cost-effectiveness, results of alternatives analysis, and degree of local financial commitment.".

(b) Limitation on Applicability.—The amendment made by subsection (a) of this section shall not apply to any project for which a letter of intent has been issued under section 3(a)(4) of the Urban Mass Transportation Act of 1964 before the date of the enactment of this Act.

SEC. 306. AUTHORIZATION OF APPROPRIATIONS FOR SUBSTITUTE PROJECTS.

Section 4(g) of the Urban Mass Transportation Act of 1964 is amended to read as follows:

"(g) Authorization of Appropriations For Substitute Projects.—There are authorized to be appropriated—

"(1) not to exceed $600,000,000 for fiscal year 1982,

"(2) not to exceed $365,000,000 for fiscal year 1983,

"(3) not to exceed $380,000,000 for fiscal year 1984,

"(4) not to exceed $390,000,000 for fiscal year 1985,

"(5) not to exceed $400,000,000 for fiscal year 1986, and

"(6) such sums as may be necessary for fiscal years 1987, 1988, 1989, 1990, and 1991, to carry out public transportation projects substituted for Interstate segments withdrawn under section 103(e)(4) of title 23, United States Code.".

SEC. 307. RATES FOR ELDERLY AND HANDICAPPED PERSONS.

(a) Exception to General Rule.—Section 5(m) of the Urban Mass Transportation Act of 1964 is amended by striking out "The" and inserting in lieu thereof "(1) In general.—Except as provided in paragraph (2) of this subsection, the" and by adding at the end thereof the following new paragraph:

"(2) Exception.—An applicant whose existing fare collection system does not reasonably permit the collection of half fares may continue to use a preferential fare system for elderly and handicapped persons which was in effect on or before November 26, 1974, and which incorporates the offering of a free return ride upon payment of the generally applicable full fare, except that such a system may be used after the 120th day following the date of the enactment of this paragraph only if such system is available for use by all elderly and handicapped persons.".

(b) Conforming amendments.—Such section is further amended—

(1) by inserting "Rates for Elderly and Handicapped Persons.—" after "(m)"; and

(2) by indenting paragraph (1), as designated by subsection (a) of this section, and aligning such paragraph with paragraph (2), as added by such subsection.

SEC. 308. LONG-TERM FINANCIAL PLANNING.

Section 8(a) of the Urban Mass Transportation Act of 1964 is amended by inserting before the period at the end of the third sentence the following: "and development of long-term financial plans for regional urban mass transit improvements and the revenue available from current and potential sources to implement such improvements".

SEC. 309. BLOCK GRANT PROGRAM AMENDMENTS.

(a) Funding of Partial Programs of Projects.—Section 9(e)(2) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new sentence: "A grant may be made under this section to carry out, in whole or in part, a program of projects.".

(b) Transit Advertising Revenues.—

(1) Exclusion from operating revenues.—Section 9(k)(1) of such Act is amended by inserting after the third sentence the following new sentence: "For purposes of the preceding sentence, 'revenues from the operation of a public mass transportation system' shall not include the amount of any

revenues derived by such system from the sale of advertising and concessions which is in excess of the amount of such revenues derived by such system from the sale of advertising and concessions in fiscal year 1985.".

(2) Annual report.—Section 9(e) of such Act is amended by adding at the end thereof the following new paragraph:

"(4) Annual report to secretary.—Each recipient (including any person receiving funds from a Governor under this section) shall submit to the Secretary annually a report on the revenues such recipient derives from the sale of advertising and concessions.".

(c) Removal of Operating Assistance Limitation for Small Urbanized Areas.—

(1) In general.—Section 9(k)(2) of such Act is amended to read as follows:

"(2) Limitations on amount of operating assistance.—The amount of funds apportioned under this section which may be used for operating assistance shall not exceed—

"(A) with respect to an urbanized area with a population of 1,000,000 or more, 80 percent of the amount of funds apportioned for fiscal year 1982 under paragraphs (1)(A), (2)(A), and (3)(A) of section 5(a) of this Act to such area; and

"(B) with respect to an urbanized area with a population of 200,000 or more and less than 1,000,000, 90 percent of funds so apportioned to such area.".

(2) Conforming amendments.—Section 9(l)(1)(A) of such Act is amended—

(A) by inserting "of funds apportioned under this section to an urbanized area with a population of 200,000 or more" after "any recipient"; and

(B) by striking out the last sentence.

(3) Applicability.—The amendments made by paragraphs (1) and (2) shall apply to fiscal years beginning after September 30, 1986.

(d) Trade-In for Operating Assistance.—

(1) Limitation on general rule.—Section 9(l) of such Act is amended by striking out paragraph (4) and inserting in lieu thereof the following:

"(4) Trade-in for operating assistance.—Any recipient of a grant under section 3 of this Act in any fiscal year beginning after September 30, 1986, may not carry out a transfer under this subsection in such fiscal year, unless—

"(A) the grant under section 3 is—

"(i) for emergency repairs, as determined by the Secretary;

"(ii) made pursuant to a letter of intent issued, or full funding contract executed, under section 3(a)(4) of this Act before the date of enactment of this subparagraph; or

"(iii) for a project which has a high priority on the plan prepared by the Secretary for allocation of resources under section 3 of this Act for such fiscal year and for an amount which has been reduced in accordance with section 3(a)(7) of this Act; or

"(B) such recipient received Federal assistance under section 1139(b) of the Omnibus Budget Reconciliation Act of 1981 and carried out a transfer under this subsection in the fiscal year ending September 30, 1983, and the percentage of the funds appropriated to carry out section 3 of this Act which such recipient will receive in grants under such section 3 in such fiscal year beginning after September 30, 1986, will not exceed the percentage of the funds appropriated to carry out such section 3 which such recipient received in grants under such section 3 in the fiscal year ending September 30, 1983.".

(2) Extension of trade-in program.—Such section 9(l) is further amended—

(A) in paragraph (1)(A) by striking out "and 1984" and inserting in lieu thereof ", 1984, 1987, 1988, 1989, 1990, and 1991"; and

(B) in paragraph (2)(B) by striking out "three-year" and by striking out "1985" and inserting in lieu thereof "1992".

(3) Limitation on discretionary grants.—Section 9(l)(3) of such Act is amended—

(A) by inserting before the period at the end of the first sentence "for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities"; and

(B) in the last sentence by striking out "discretionary construction grants" and inserting in lieu thereof "such discretionary grants".

(4) Conforming amendment to section 3.—Section 3(a) of such Act is amended by adding at the end thereof the following new paragraphs:

"(7) Limitation on eligibility of recipients using section 9 trade-in.—Except as provided in paragraph (8) of this subsection, any recipient which carries out a transfer under section 9(l) of this Act for a fiscal year beginning after September 30, 1986, may not receive a grant under this section in such fiscal year, unless such grant is—

"(A) for emergency repairs, as determined by the Secretary;

"(B) made pursuant to a letter of intent issued, or full funding contract executed, under paragraph (4) of this subsection before the date of enactment of this subparagraph; or

"(C) for a project which has a high priority on the plan prepared by the Secretary for allocation of resources under this section for such fiscal year;

and unless, in the case of projects referred to in subparagraph (C), such recipient agrees with the Secretary that the amount of the Federal grants for such projects, as determined under section 4(a) of this Act, shall be reduced in the aggregate by an amount equal to the amount of the capital assistance transferred under such transfer.

"(8) Percentage of funds limitation.—Any recipient which—

"(A) carries out a transfer under section 9(l) of this Act for any fiscal year beginning after September 30, 1986,

"(B) received Federal assistance under section 1139(b) of the Omnibus Budget Reconciliation Act of 1981, and

"(C) carried out a transfer under section 9(l) of this Act in the fiscal year ending September 30, 1983,

may not receive in grants under this section in such fiscal year beginning after September 30, 1986, a percentage of the funds made available to carry out this section in such fiscal year greater than the percentage of funds appropriated to carry out this section which such recipient received in grants under this section in the fiscal year ending September 30, 1983.".

(e) Apportionments With Respect to Small Urbanized Areas.—

(1) Availability to governors.—Section 9(m)(2) of such Act is amended to read as follows:

"(2) Small urbanized areas.—Sums apportioned under subsection (d) with respect to any urbanized area with a population of less than 200,000 shall be made available to the Governor for expenditure in such area.".

(2) Transfers.—Section 9(n)(1) of such Act is amended to read as follows:

"(n) Transfers of Funds.—

"(1) Small urbanized areas.—The Governor may transfer an amount apportioned under subsection (d) for expenditure in an urbanized area of less than 200,000 population to supplement funds apportioned to the State under section 18(a) of this Act or to supplement funds apportioned to other urbanized areas within the State. The Governor may make such transfers only after approval by responsible local elected officials and publicly owned operators of mass transportation services in each area with respect to which the funding was originally apportioned pursuant to subsection (d); except that, if the period of availability under subsection (o) of the funds proposed to be transferred will end within 90 days, the Governor may make such transfer without such approval if no approvable grant application is pending under this section for any project in such area. The Governor may transfer an amount of the State's apportionment under section 18(a) to supplement funds apportioned for expenditure in the State under subsection (d). Amounts transferred shall be subject to the capital and operating assistance limitations applicable to the original apportionments of such amounts.".

(3) Conforming amendment.—Subsection (d) of section 9 of such Act is amended by striking out "which urbanized areas" and inserting in lieu thereof "which an urbanized area".

(f) Date of Apportionment.—Section 9 of such Act is further amended by adding at the end thereof the following new subsection:

"(q) Date of Apportionment.—Funds appropriated to carry out this section for any fiscal year shall be apportioned in accordance with the provisions of this section not later than the tenth day following the date on which such funds are appropriated or October 1 of such fiscal year, whichever is later.".

(g) Technical Amendments.—(1) Section 9(e) of such Act is amended by adding at the end thereof the following new paragraph:

"(5) Acceptance of certification.—No grant shall be made under this section to any recipient in any fiscal year unless the Secretary has accepted a certification for such fiscal year submitted by such person pursuant to this subsection.".

(2) Section 9(g) of such Act is amended by striking out paragraph (4).

(h) Conforming Amendments.—

(1) Section 9(e).—Section 9(e) of such Act is amended—

(A) by inserting "Grant Requirements.—" before "(1) The provisions";

(B) in paragraph (1) by inserting "Applicable provisions.—" before "The provisions";

(C) in paragraph (2) by inserting "Program of projects.—" before "To receive";

(D) in paragraph (3) by inserting "Annual certification.—" before "Each recipient";

(E) by indenting paragraph (1) and aligning such paragraph and paragraphs (2) and (3) with paragraph (4), as added to such section by subsection (b)(2) of this section; and

(F) by aligning subparagraphs (A), (B), (C), (D), (E), (F), (G), and (H) of paragraph (3) with subparagraph (A) of section 9(k)(2), as amended by subsection (c)(1) of this section.

(2) Section 9(k).—Section 9(k) of such Act is amended—

(A) by inserting "Federal Share.—" after "(k)";

(B) by inserting "In general.—" after "(1)"; and

(C) by indenting paragraph (1) and aligning such paragraph with paragraph (2), as amended by subsection (c)(1) of this section.

(3) Section 9(l).—Section 9(l) of such Act is amended—

(A) by inserting "Trade-In Program.—" before "(1)(A) Notwithstanding";

(B) in paragraph (1) by inserting "In general.—" before "(A) Notwithstanding";

(C) in paragraph (1)(A) by inserting "Authorization; limitation.—" before "Notwithstanding";

(D) in paragraph (1)(B) by inserting "Trade-in of section 5 capital apportionment.—" before "Notwithstanding any";

(E) in paragraph (2) by inserting "Certification.—" before "Any recipient";

(F) in paragraph (3) by inserting "Set-aside for discretionary grants.—" before "Whenever";

(G) by indenting paragraph (1) and aligning such paragraph and paragraphs (2) and (3) with paragraph (4), as amended by subsection (d)(1) of this section; and

(H) by aligning the subparagraphs of paragraphs (1) and (2) with subparagraph (B) of such paragraph (4).

(4) Section 9(m).—Section 9(m) of such Act is amended—

(A) by inserting "Recipients of Apportionments.—" before "(1) The Governor";

(B) in paragraph (1) by inserting "In general.—" before "The Governor"; and

(C) by indenting paragraph (1) and aligning such paragraph with (2), as amended by subsection (e)(1) of this section.

(5) Section 9(n).—Section 9(n) of such Act is amended—

(A) in paragraph (2) by inserting "Large urbanized areas.—" before "A designated"; and

(B) by aligning paragraph (2) with paragraph (1), as amended by subsection (e)(2) of this section.

SEC. 310. UNIVERSITY TRANSPORTATION CENTERS.

(a) Grant Program; National Advisory Council.—Section 11(b) of the Urban Mass Transportation Act of 1964 is amended to read as follows:

"(b) University Transportation Centers.—

"(1) Grants for establishment and operation.—In addition to grants authorized by subsection (a) of this section, the Secretary shall make grants to one or more nonprofit institutions of higher learning to establish and operate one regional transportation center in each of the ten Federal regions which comprise the Standard Federal Regional Boundary System.

"(2) Responsibilities.—The responsibilities of each transportation center established under this subsection shall include, but not be limited to, the conduct of infrastructure research concerning transportation and research and training concerning transportation of passengers and property and the interpretation, publication, and dissemination of the results of such research. The responsibilities of one of such centers may include research on the testing of new model buses.

"(3) Application.—Any nonprofit institution of higher learning interested in receiving a grant under this subsection shall submit to the Secretary an application in such form and containing such information as the Secretary may require by regulation.

"(4) Selection criteria.—The Secretary shall select recipients of grants under this subsection on the basis of the following criteria:

"(A) The regional transportation center shall be located in a State which is representative of the needs of the Federal region for improved transportation services and facilities.

"(B) The demonstrated research and extension resources available to the grant recipient for carrying out this subsection.

"(C) The capability of the grant recipient to provide leadership in making national and regional contributions to the solution of both long-range and immediate transportation problems.

"(D) The grant recipient shall have an established transportation program or programs encompassing several modes of transportation.

"(E) The grant recipient shall have a demonstrated commitment to supporting ongoing transportation research programs with regularly budgeted institutional funds of at least $200,000 per year.

"(F) The grant recipient shall have a demonstrated ability to disseminate results of transportation research and educational programs through a statewide or regionwide continuing education program.

"(G) The projects which the grant recipient proposes to carry out under the grant.

"(5) Maintenance of effort.—No grant may be made under this section in any fiscal year unless the recipient of such grant enters into such agreements with the Secretary as the Secretary may require to ensure that such recipient will maintain its aggregate expenditures from all other sources for establishing and operating a regional transportation center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding the date of enactment of this subsection.

"(6) Federal share.—The Federal share of a grant under this subsection shall be 50 percent of the costs of establishing and operating the regional transportation center and related research activities carried out by the grant recipient.

"(7) National advisory council.—

"(A) Establishment; functions.—The Secretary shall establish in the Department of Transportation a national advisory council to coordinate the research and training to be carried out by the grant recipients, to disseminate the results of such research, to act as a clearinghouse between such centers and the transportation industry, and to review and evaluate programs carried out by such centers.

"(B) Members.—The council shall be composed of the directors of the regional transportation centers and 19 other members appointed by the Secretary as follows:

"(i) Six officers of the Department of Transportation one of whom represents the Office of the Secretary, one of whom represents the Federal Highway Administration, one of whom represents the Urban Mass Transportation Administration, one of whom represents the National Highway Traffic Safety Administration, one of whom represents the Research and Special Programs Administration, and one of whom represents the Federal Railroad Administration.

"(ii) Five representatives of State and local governments.

"(iii) Eight representatives of the transportation industry and organizations of employees in such industry.

A vacancy in the membership of the council shall be filled in the manner in which the original appointment was made.

"(C) Term of office; pay; chairman.—Each of the members appointed by the Secretary shall serve for a term of 5 years. Members of the council shall serve without pay. The chairman of the council shall be designated by the Secretary.

"(D) Meetings.—The council shall meet at least annually and at such other times as the chairman may designate.

"(E) Agency information.—Subject to subchapter II of chapter 5 of title 5, United States Code, the council may secure directly from any department or agency of the United States information necessary to enable it to carry out this subsection. Upon request of the Chairman of the council, the head of such department or agency shall furnish such information to the council.

"(F) Termination date inapplicable.—Section 14 of the Federal Advisory Committee Act shall not apply to the council.

"(8) Administration through office of secretary.—Administrative responsibility for carrying out this subsection shall be in the Office of the Secretary.

"(9) Allocation of funds.—The Secretary shall allocate funds made available to carry out this subsection equitably among the Federal regions.

"(10) Technology transfer set-aside.—Not less than 5 percent of the funds made available to carry out this subsection for any fiscal year shall be available to carry out technology transfer activities.".

(b) Authorizations for Appropriations; Contract Authority.—Section 21 of such Act is amended by adding at the end thereof the following new subsection:

"(c) University Transportation Centers.—

"(1) Amount of funds.—There shall be available to the Secretary to carry out section 11(b) of this Act for each of fiscal years 1987, 1988, 1989, 1990, and 1991 $5,000,000 out of the Highway Trust Fund (other than the Mass Transit Account) and $5,000,000 out of such Mass Transit Account.

"(2) Contract authority.—Notwithstanding any other provision of law, approval by the Secretary of a grant with funds made available by paragraph (1) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project.

"(3) Exemption from obligation ceiling.—Funds made available out of the Mass Transit Account of the Highway Trust Fund by this subsection shall not be subject to any obligation limitation.

"(4) Period of availability.—Funds made available by this subsection shall remain available until expended.".

(c) Conforming Amendment.—Section 11(a) of such Act is amended by inserting "Grant Program.—" before "The Secretary".

SEC. 311. SOLE SOURCE PROCUREMENTS.

(a) General Rule.—Section 12(b) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new paragraph:

"(3) Sole source procurement contracts.—Any recipient of a grant under section 9 of this Act who is procuring an associated capital maintenance item under section 9(j) of this Act may, without receiving prior approval of the Secretary, contract directly with the original manufacturer or supplier of the item to be replaced if such recipient first certifies in writing to the Secretary—

"(A) that such manufacturer or supplier is the only source for such item; and

"(B) that the price of such item is no higher than the price paid for such item by like customers.".

(b) Conforming Amendments.—Such section is further amended—

(1) by inserting "Contract Requirement s." before "(1) All contracts";

(2) by inserting "Noncompetitive bid contracts.—" before "All contracts";

(3) by inserting "Rolling stock acquisition contracts.—" before "In lieu of"; and

(4) by indenting paragraph (1) and aligning paragraphs (1) and (2) with paragraph (3), as added by subsection (a) of this section.

SEC. 312. CONTRACTING FOR ENGINEERING AND DESIGN SERVICES.

Section 12(b) of the Urban Mass Transportation Act of 1964 is further amended by adding at the end thereof the following new paragraph:

"(4) Contracting for engineering and design services.—Each contract for program management, construction management, feasibility studies, preliminary engineering, design, engineering, surveying, mapping, or architectural related services with respect to a project for which a loan or grant is made under this Act shall be awarded in the same manner as a contract for architectural and engineering services is negotiated under title IX of the Federal Property and Administrative Services Act of 1949 or equivalent State qualifications-based requirements.".

SEC. 313. LIMITATION CONCERNING SOUTH AFRICA ON AWARDS OF CONTRACTS.

Section 12(b) of the Urban Mass Transportation Act of 1964 is further amended by adding at the end thereof the following new paragraph:

"(5) Limitations concerning South Africa on awards of contracts.—A recipient of a grant under this Act may prohibit or otherwise limit the award of contracts with respect to a project under this Act by including in its contracts terms and conditions related to the contractor's business in South Africa in accordance with a State or local law if such recipient first enters into an agreement with the Secretary that any costs incurred as a result of such prohibition or limitation which are in excess of the costs that would otherwise have been incurred with respect to such project under this Act will not, for purposes of this Act, be considered to be a cost of such project.".

SEC. 314. BUS REMANUFACTURING AND OVERHAULING OF ROLLING STOCK.

(a) Inclusion in Definition of Construction.—Section 12(c)(1) of the Urban Mass Transportation Act of 1964 is amended by inserting "(A)" after "such term also means" and by inserting before the semicolon at the end thereof the following: ", (B) any bus remanufacturing project which extends the economic life of a bus 8 years or more, and (C) any project for the overhaul of rolling stock (whether or not such overhaul increases the useful life of the rolling stock)".

(b) Expansion of Associated Capital Maintenance Items.—

(1) Inclusion of less expensive items.—(1) The second sentence of section 9(j) of such Act is amended by striking out "1 per centum" and inserting in lieu thereof "one-half of one percent".

(2) Inclusion of certain reconstructed items.—Section 9(j) of such Act is further amended by inserting "Eligible Activities.—" after "(j)", by inserting "(1) In general.—" before "Grants", and by adding at the end the following new paragraph:

"(2) Inclusion of certain reconstructed items.—A project for the reconstruction (whether by employees of the grant recipient or by contract) of any equipment and materials each of which, after reconstruction, will have a fair market value no less than one half of 1 percent of the current fair market value of rolling stock comparable to the rolling stock for which the equipment and materials are to be used shall be considered a project for construction of an associated capital maintenance item under this section.".

(c) Federal Share of Construction Projects.—The first sentence of section 9(k)(1) of such Act is amended by striking out "shall not exceed" the first place it appears and inserting in lieu thereof "shall be".

(d) Maintenance Requirement.—Section 3(a)(2)(A) of such Act is amended to read as follows:

"(2) Limitations on assistance.—

"(A) Minimum qualifications of applicants.—No grant or loan shall be provided under this section unless the Secretary determines that the applicant—

"(i) has or will have the legal, financial, and technical capacity to carry out the proposed project;

"(ii) has or will have satisfactory continuing control, through operation or lease or otherwise, over the use of the facilities and the equipment; and

"(iii) has or will have sufficient capability to maintain the facilities and equipment, and will maintain, such facilities and equipment.".

(e) Conforming Amendments.—(1) Section 9(j) of such Act is further amended by indenting paragraph (1), as designated by subsection (b)(2) of this section, and aligning such paragraph (1) with paragraph (2), as added to such section by subsection (b)(2).

(2) The first sentence of section 9(k)(1) of such Act is further amended by striking out "(including capital maintenance items)" and inserting in lieu thereof "(including any project for the acquisition or construction of an associated capital maintenance item)".

(3) Section 3(a)(2) of such Act is amended—

(A) by inserting "Limitations on property acquisition loans.—" after "(B)";

(B) by inserting "Limitation on payment for operating expenses and procurements.—" after "(C)"; and

(C) by aligning subparagraphs (B) and (C) with subparagraph (A), as amended by subsection (a) of this section.

SEC. 315. LIMITATION ON PRIVATE ENTERPRISE PARTICIPATION.

(a) In General.—Section 12(d) of the Urban Mass Transportation Act of 1964 is amended by inserting "(1) Limitation on regulation of rates.—" before "None" and by adding at the end thereof the following new paragraph:

"(2) Limitation on private enterprise participation.—None of the provisions of this Act shall be construed to authorize the Secretary to prescribe a specific level of private enterprise or competitive bid participation in the provision of mass transportation services and the conduct of mass transportation functions. None of the provisions of this Act shall be construed to infringe on the rights of the recipients of Federal financial assistance under this Act to determine the extent and amount of mass transportation services and functions to be carried out by private enterprise.".

(b) Conforming Amendments.—(1) Section 9(e) of such Act is amended by inserting "12(d)," after "12(c),".

(2) Section 12(d) of such Act is further amended—

(A) by inserting "Limitations on Construction of Act.—" after "(d)"; and

(B) by indenting paragraph (1), as designated by subsection (a), and aligning such paragraph with paragraph (2) of such section, as added by such subsection.

SEC. 316. BUS TESTING.

(a) Requirement.—Section 12 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(h) Bus Testing.—

"(1) Requirement.—No funds appropriated or made available pursuant to this Act after September 30, 1989, may be obligated or expended for the acquisition of a new bus model unless a bus of such model has been tested at a facility established under section 316(b) of the Federal Mass Transportation Act of 1987.

"(2) New bus model defined.—As used in this subsection, the term 'new bus model' means a bus model which has not been used in mass transportation service in the United States before the date of production of such model or a bus model which has been used in such service but which is being produced with a major change in configuration or components.".

(b) Bus Testing Facility.—

(1) Establishment.—The Secretary shall establish a facility for testing new bus models for maintainability, reliability, safety, performance, structural integrity, fuel economy, and noise. Such facility shall be established by renovation of a facility constructed with Federal assistance for the purpose of training rail personnel.

(2) Operation.—The Secretary shall enter into a contract with a qualified person to operate and maintain the facility established under paragraph (1) for testing new bus models for maintainability, reliability, safety, performance, structural integrity, fuel economy, and noise. Such contract may provide for the testing of rail cars and other vehicles at such facility.

(3) Collection of fees.—Under the contract entered into under paragraph (2), the person operating and maintaining the facility shall establish and collect fees for the testing of vehicles at the facility. Such fees shall be subject to the approval of the Secretary.

(4) New bus model defined.—For purposes of this subsection, the term "new bus model" has the meaning such term has under section 12(h)(2) of the Urban Mass Transportation Act of 1964.

(5) Funding.—There shall be available to the Secretary out of the Mass Transit Account of the Highway Trust Fund for establishment of the facility under paragraph (1) $200,000 for fiscal year 1987 and $3,000,000 for fiscal year 1988. Funds made available by this paragraph shall remain available until expended and shall not be subject to any obligation limitation.

SEC. 317. PREAWARD AND POSTDELIVERY AUDIT OF BUS PURCHASES.

Section 12 of the Urban Mass Transportation Act of 1964 is further amended by adding at the end thereof the following new subsection:

"(i) Preaward and Postdelivery Audit of Bus Purchases.—For the purpose of assuring compliance with Federal motor vehicle safety requirements, the requirements of section 165 of the Surface Transportation Assistance Act of 1982 (relating to purchases of American products), and bid specifications requirements of recipients of grants under this Act, the Administrator shall issue regulations requiring a preaward and postdelivery audit with respect to any grant under this Act for the purchase of buses and other rolling stock. For the purposes of such audit, manufacturer certification shall not be sufficient, and independent inspections and auditing shall be required.".

SEC. 318. PROTECTION OF PRIVATE CONTRACTING RIGHTS.

Section 13(c) of the Urban Mass Transportation Act of 1964 is amended by inserting after the third sentence the following new sentence: "Such arrangements may not restrict or limit the rights of the recipient of such assistance to enter into a contract or other arrangements for the provision of mass transportation services by private entities.".

SEC. 319. FEDERAL SHARE FOR ELDERLY AND HANDICAPPED PROJECTS.

Section 16 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(e) Increased Federal Share of Certain Nonrequired Projects.—Notwithstanding any other provision of this Act, the Federal share under sections 3, 9, and 18 of this Act for each capital improvement project which enhances the accessibility for elderly and handicapped persons to public transportation service and which is not required by Federal law (including any other provision of this Act) shall be 95 percent of the net project cost of such project.".

SEC. 320. AUTHORIZATION OF APPROPRIATIONS.

(a) Sections 9 and 18.—Section 21(a)(1) of the Urban Mass Transportation Act of 1964 is amended by striking out "and" after "1985," and by inserting after "1986," the following: "$2,100,000,000 for the fiscal year ending September 30, 1987, $2,150,000,000 for the fiscal year ending September 30, 1988, $2,200,000,000 for the fiscal year ending September 30, 1989, $2,250,000,000 for the fiscal year ending September 30, 1990, and $2,300,000,000 for the fiscal year ending September 30, 1991,".

(b) Sections 3, 4(i), 8, and 16(b).—Section 21(a)(2) of such Act is amended by redesignating subparagraph (C) (and any references thereto) as subparagraph (D) and by inserting after subparagraph (B) the following new subparagraph:

"(C) Authorizations from mass transit account.—

"(i) Buses under section 3.—There shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to finance grants and loans under section 3 of this Act for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities not less than $100,000,000 for fiscal year 1987 and $170,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.

"(ii) Rail modernization under section 3.—There shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to finance grants and loans under section 3 of this Act for rail modernization not less than $405,000,000 for fiscal year 1987 and $680,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.

"(iii) New construction under section 3.—There shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to finance grants and loans under section 3 of this Act for construction of new fixed guideway systems and extensions to fixed guideway systems not less than $405,000,000 for fiscal year 1987 and $680,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.

"(iv) General section 3.—In addition to amounts made available by the preceding clauses of this subparagraph, there shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to finance grants and loans under section 3 of this Act not less than $100,000,000 for fiscal year 1987 and $170,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.

"(v) Section 8.—There shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to carry out section 8 of this Act not less than $45,000,000 for fiscal year 1987 and $50,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.

"(vi) Sections 4(i) and 16(b).—There shall be available for obligation from the Mass Transit Account of the Highway Trust Fund to carry out sections 4(i) and 16(b) of this Act not less than $35,000,000 for fiscal year 1987 and $40,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.".

(c) Period of Availability; Obligation Ceiling.—Section 21(a)(2) of such Act is further amended by adding at the end thereof the following new subparagraphs:

"(E) Period of availability.—Funds made available by this paragraph shall remain available until expended.

"(F) Obligation ceiling.—Notwithstanding any other provisions of law, the total of all obligations under the Urban Mass Transportation Act of 1964 (other than sections 9A and 11(b)) from the Mass Transit Account of the Highway Trust Fund shall not exceed $995,000,000 for fiscal year 1987 and $1,795,000,000 per fiscal year for each of fiscal years 1988, 1989, 1990, and 1991.".

(d) Sections 6, 10, 11(a), 12(a), and 20.—Section 21(b) of such Act is amended by striking out "and" after "1984," and by striking out the period at the end of the first sentence and inserting in lieu thereof ", and $50,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, September 30, 1990, and September 30, 1991.".

(e) Removal of Limitation on the Source of Funding for Innovative Management Grants.—Section 4(i) of such Act is amended by striking out ", using sums available pursuant to section 4(c)(3)(A) of this section,".

(f) Conforming Amendments.—(1) Section 16(b) of such Act is amended by striking out the last sentence.

(2) Section 21(a)(2)(D) of such Act (as redesignated by subsection (b) of this subsection) is amended by striking out "and (B)" and inserting in lieu thereof ", (B), and (C)".

(3) Section 21(a)(4) of such Act is amended by striking out "and 1986" and inserting in lieu thereof "1986, 1987, 1988, 1989, 1990, and 1991".

(4) Section 21(a) of such Act is amended—

(A) by inserting "In General.—" before "(1) There is";

(B) in paragraph (1) by inserting "Sections 9 and 18.—" before "There is";

(C) in paragraph (2) by inserting "Sections 3, 4(i), 8, and 16(b).—" before "(A) There";

(D) in paragraph (2)(A) by inserting "Fiscal year 1983.—" before "There";

(E) in paragraph (2)(B) by inserting "Fiscal years 1984 and 1985.—" before "There";

(F) in paragraph (2)(D), as redesignated by subsection (b) of this section, by inserting "Contract Authority.—" before "Notwithstanding";

(G) in paragraph (3) by inserting "1983 set-aside for section 18.—" before "In";

(H) in paragraph (4) by inserting "Set-aside for section 18.—" before "In";

(I) in paragraph (5) by inserting "Set-aside for section 8.—" before "Of";

(J) by indenting paragraph (1) and aligning such paragraph and paragraphs (2), (3), (4), and (5) with paragraph (1) of subsection (c) of section 21 of such Act, as added by section 310(b) of this Act; and

(K) by aligning subparagraphs (A), (B), and (D) of paragraph (2) with subparagraph (C), as inserted in such section 21 by subsection (b) of this section.

SEC. 321. CONSTRUCTION MANAGEMENT OVERSIGHT.

(a) In General.—The Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following:

"SEC. 23. CONSTRUCTION MANAGEMENT OVERSIGHT.

"(a) Authority to Use Funds.—Beginning October 1, 1987, the Secretary may use not to exceed ½ of 1 percent of—

"(1) the funds made available for any fiscal year by section 21(a)(2)(C) to carry out section 3 to contract with any person to oversee the construction of any major project under section 3;

"(2) the funds appropriated for any fiscal year pursuant to section 21(a)(1) to carry out section 9 to contract with any person to oversee the construction of any major project under section 9;

"(3) the funds appropriated for any fiscal year pursuant to section 21(a)(1) to carry out section 18 to contract with any person to oversee the construction of any major project under section 18; and

"(4) the funds appropriated for any fiscal year pursuant to section 4(g) to contract with any person to oversee the construction of any major public transportation project substituted for an Interstate segment withdrawn under section 103(e)(4) of title 23, United States Code.

"(b) Federal Share.—Any contract entered into under subsection (a) shall provide for the payment by the Secretary of 100 percent of the cost of carrying out the contract.".

(b) Conforming Amendments.—(1) Section 9(a) of such Act is amended by inserting after "section 21(a) of this Act" in paragraphs (1) and (2) the following: "and not used under section 23(a)(2)".

(2) Section 21(a)(4) of such Act is amended by inserting after "subsection" the following: "and not used under section 23(a)(3)".

SEC. 322. BICYCLE FACILITIES.

The Urban Mass Transportation Act of 1964 is further amended by adding at the end thereof the following new section:

"SEC. 24. BICYCLE FACILITIES.

"(a) Eligibility.—For purposes of this Act, a project to provide access for bicycles to mass transportation facilities, to provide shelters and parking facilities for bicycles in or around mass transportation facilities, or to install racks or other equipment for transporting bicycles on mass transportation vehicles shall be deemed to be a construction project eligible for assistance under sections 4, 9, and 18 of this Act.

"(b) Federal Share.—Notwithstanding sections 4(a), 9(k), and 18(e), the Federal share under this Act for any project to provide access for bicycles to mass transportation facilities, to provide shelters and parking facilities for bicycles in or around mass transportation facilities, or to install racks or other equipment for transporting bicycles on mass transportation vehicles shall be 90 percent of the cost of such project.".

SEC. 323. TRANSIT TECHNICAL AMENDMENTS.

(a) URBAN MASS TRANSPORTATION ACT.—(1) Section 5(h)(1) of the Urban Mass Transportation Act of 1964 is amended by striking out "approach" and inserting in lieu thereof "approval".

(2) Section 5(j)(1) of such Act is amended by striking out "action" and inserting in lieu thereof "section".

(3) Section 5(n)(2) of such Act is amended by inserting "and section 9" after "this section".

(4) Section 9(l)(3) of such Act is amended by striking out "1983" and inserting in lieu thereof "1984".

(5) Section 16 of such Act is amended by redesignating the second subsection (c) as subsection (d).

(6) Section 17(d)(4) of such Act is amended by striking out "; and".

(b) SURFACE TRANSPORTATION ASSISTANCE ACT OF 1982.—Section 303 of the Surface Transportation Assistance Act of 1982 is amended by striking out "(a)" the first place it appears.

SEC. 324. MULTI-YEAR CONTRACT FOR METRO RAIL PROJECT.

Notwithstanding any other provision of law, not later than the 90th day after the publication of the final environmental impact statement prepared as a result of alignment changes necessary to avoid tunneling through the methane risk areas identified in the task force report of the city of Los Angeles dated June 10, 1985, the Secretary shall issue a project record of decision and enter into a multi-year contract under section 3 of the Urban Mass Transportation Act of 1964, as amended by this Act, with the Southern California Rapid Transit District to complete Minimum Operable Segment-1 and to complete the locally preferred Minimum Operable Segment-2 alternative of the Downtown Los Angeles to the San Fernando Valley Metro Rail Project. Notwithstanding any other provision of law, such contract shall include at least $110,000,000 in fiscal year 1987 and $190,000,000 in each of fiscal years 1988, 1989, 1990, and 1991. Notwithstanding any other provision of law, the final environmental impact statement for Minimum Operable Segment-2 shall be completed, approved by the Secretary, and filed with the Environmental Protection Agency not later than July 31, 1987.

SEC. 325. MULTI-YEAR CONTRACT FOR TRANSIT BRIDGE LANES.

Notwithstanding any other provision of law, the Secretary shall enter into a multi-year contract under section 3 of the Urban Mass Transportation Act of 1964, as amended by this Act, with the Mississippi River Bridge Authority of the Louisiana Department of Transportation and Development to complete transit lanes on the Greater New Orleans Bridge No. 2. Notwithstanding any other provision of law, such contract shall include $18,750,000 in fiscal year 1988.

SEC. 326. INCREASED OPERATING ASSISTANCE DURING CONSTRUCTION OF INTERSTATE PROJECT.

Upon request of the State of Florida and the designated recipients under section 9 of the Urban Mass Transportation Act of 1964 for the urbanized areas of Fort Lauderdale and Miami, Florida, the amount of funds apportioned after September 30, 1987, under such section with respect to such urbanized areas which may otherwise be used for operating assistance under such section shall be increased by $4,400,000 for each fiscal year in which onsite construction is being carried out on a 40-mile segment of Interstate Route I-95 in Dade, Broward, and Palm Beach Counties, Florida. The increased operating assistance may only be used for commuter rail service provided as a maintenance-of-traffic measure during the period in which the construction is being carried out.

SEC. 327. FEASIBILITY STUDY.

Section 314(a) of the Surface Transportation Assistance Act of 1982 is amended to read as follows:

"SEC. 314. (a) Upon request of a local public body eligible to receive a grant under the Urban Mass Transportation Act of 1964, the Secretary of Transportation shall make a grant to such public body to conduct a feasibility study to examine the possibility of constructing and operating an electric bus line with the advanced and environmentally sound electric bus technology that is being developed in the State of California for the Santa Barbara transit system.".

SEC. 328. FEASIBILITY STUDY OF ABANDONED TROLLEY SERVICE.

(a) STUDY.—The Secretary, in cooperation with the city of Philadelphia, Pennsylvania, shall conduct a study of the feasibility of restoring trolley service to corridors on which trolley service has been abandoned in such city.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under subsection (a).

SEC. 329. COMPREHENSIVE TRANSIT PLAN FOR THE VIRGIN ISLANDS.

(a) STUDY.—The Secretary, in cooperation with the Virgin Islands Department of Public Works, shall study and analyze the mass transportation needs of the Virgin Islands for the purpose of developing a comprehensive mass transportation plan for the Virgin Islands.

(b) REPORT AND PLAN.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study and analysis conducted under subsection (a) together with a copy of the mass transportation plan which the Secretary recommends for the Virgin Islands.

SEC. 330. BUS CARRIER CERTIFICATES FOR RECIPIENTS OF GOVERNMENTAL ASSISTANCE.

(a) GENERAL RULE FOR NEW ENTRANTS.—Section 10922(c)(1) of title 49, United States Code, is amended to read as follows:

"(c) MOTOR COMMON CARRIERS OF PASSENGERS.—

"(1) INTERSTATE TRANSPORTATION.—

"(A) REGULAR-ROUTE TRANSPORTATION.—The Commission shall issue a certificate to a person (including any private recipient of governmental assistance) authorizing that person to provide regular-route transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title as a motor common carrier of passengers if the Commission finds that the person is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this subtitle and regulations of the Commission, unless the Commission finds, on the basis of evidence presented by any person objecting to the issuance of the certificate, that the transportation to be authorized by the certificate is not consistent with the public interest.

"(B) SPECIAL AND CHARTER TRANSPORTATION.—

"(i) PRIVATE RECIPIENTS OF ASSISTANCE.—The Commission shall issue a certificate to a private recipient of governmental assistance authorizing that recipient to provide special or charter transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title as a motor common carrier of passengers if the Commission finds that the recipient is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this subtitle and regulations of the Commission, unless the Commission finds, on the basis of evidence presented by any person objecting to the issuance of the certificate, that the transportation to be authorized by the certificate is not consistent with the public interest.

"(ii) OTHER PERSONS.—The Commission shall issue a certificate to a person (other than a private recipient of governmental assistance) authorizing that person to provide special or charter transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title as a motor common carrier of passengers if the Commission finds that the person is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this subtitle and regulations of the Commission.

"(C) PUBLIC RECIPIENTS FOR CHARTER TRANSPORTATION.—The Commission shall issue a certificate to a public recipient of governmental assistance authorizing that recipient to provide special or charter transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title as a motor common carrier of passengers if the Commission finds that—

"(i) the recipient is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this subtitle and regulations of the Commission; and

"(ii)(I) no motor common carrier of passengers (other than a motor common carrier of passengers which is a public recipient of governmental assistance) is providing, or is willing and able to provide, the transportation to be authorized by the certificate; or

"(II) the transportation to be authorized by the certificate is to be provided entirely in the area in which the public recipient provides regularly scheduled mass transportation services.

"(D) PUBLIC RECIPIENTS FOR REGULAR-ROUTE TRANSPORTATION.—The Commission shall issue a certificate to a public recipient of governmental assistance authorizing that recipient to provide regular-route transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title as a motor common carrier of passengers if the Commission finds that the recipient is fit, willing, and able to provide the transportation to be authorized by the certificate and to comply with this subtitle and regulations of the Commission, unless the Commission finds, on the basis of evidence presented by any person objecting to the issuance of the certificate, that the transportation to be authorized by the certificate is not consistent with the public interest.

"(E) TREATMENT OF CERTAIN PUBLIC RECIPIENTS.—Subject to provisions of section 12(f) of the Urban Mass Transportation Act of 1964, any public recipient of governmental assistance which is providing or seeking to provide transportation of passengers subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title shall, for purposes of this subtitle, be treated as a person which is providing or seeking to provide transportation of passengers subject to such jurisdiction.

"(F) Definitions.—In this subsection—

"(i) Public recipient of governmental assistance.—The term 'public recipient of governmental assistance' means—

"(I) any State,

"(II) any municipality or other political subdivision of a State,

"(III) any public agency or instrumentality of one or more States and municipalities and political subdivisions of a State,

"(IV) any Indian tribe,

"(V) any corporation, board, or other person owned or controlled by any entity described in subclause (I), (II), (III), or (IV), and

"(VI) any corporation, board, or other person owned by, controlled by, or under common control with, any entity described in subclause (I), (II), (III), (IV), or (V),

which before, on, or after the date of the enactment of this paragraph received governmental financial assistance for the purchase or operation of any bus.

"(ii) Private recipient of governmental assistance.—The term 'private recipient of governmental assistance' means any person (other than a person described in clause (i)) who before, on, or after the date of the enactment of this paragraph received governmental financial assistance in the form of a subsidy for the purchase, lease, or operation of any bus.".

(b) Public Interest Finding.—Section 10922(c)(3) of title 49, United States Code, is amended by striking out "and" at the end of subparagraph (C), by striking out the period at the end of subparagraph (D) and inserting in lieu thereof "; and", and by adding at the end thereof the following new subparagraph:

"(E) the amount and extent of governmental financial assistance which the applicant for the certificate received before, on, or after the date of the enactment of this subparagraph for the purchase or operation of buses.

In addition, in making any finding relating to public interest under paragraph (1)(D) of this subsection, the Commission shall consider whether or not the person objecting to issuance of the certificate is a motor common carrier of passengers which is providing, or is willing and able to provide, the transportation to be authorized by the certificate.".

(c) Conforming Amendment.—Section 10922(c)(3) of title 49, United States Code, is amended by striking out "(1)(A)" and inserting in lieu thereof "(1)".

SEC. 331. UTILIZATION REQUIREMENT FOR CERTIFICATES AUTHORIZING INTRASTATE BUS OPERATIONS.

(a) General Rule.—Section 10922(c)(2) of title 49, United States Code, is amended by adding at the end thereof the following new subparagraph:

"(J) Limitation on intrastate certificates.—Each certificate issued under this paragraph to provide intrastate transportation of passengers on any route shall be subject to a condition which limits the authority of the carrier to provide intrastate transportation service under the certificate only if the carrier provides regularly scheduled interstate transportation service on the route.".

(b) Retroactive Applicability.—The amendment made by subsection (a) shall apply to any certificate issued under section 10922(c)(2) of title 49, United States Code, before, on, or after the date of the enactment of this Act.

TITLE IV—UNIFORM RELOCATION ACT AMENDMENTS OF 1987

SEC. 401. SHORT TITLE.

This title may be cited as the "Uniform Relocation Act Amendments of 1987".

SEC. 402. DEFINITIONS.

(a) Federal Agency Defined.—Section 101(1) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (hereinafter in this title referred to as the "Uniform Act") (42 U.S.C. 4601(1)) is amended to read as follows:

"(1) The term 'Federal agency' means any department, agency, or instrumentality in the executive branch of the Government, any wholly owned Government corporation, the Architect of the Capitol, the Federal Reserve banks and branches thereof, and any person who has the authority to acquire property by eminent domain under Federal law.".

(b) State Agency Defined.—Section 101(3) of the Uniform Act (42 U.S.C. 4601(3)) is amended to read as follows:

"(3) The term 'State agency' means any department, agency, or instrumentality of a State or of a political subdivision of a State, any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States, and any person who has the authority to acquire property by eminent domain under State law.".

(c) Interest Reduction Payments as Federal Financial Assistance.—Section 101(4) of the Uniform Act (42 U.S.C. 4601(4)) is amended by inserting ", any interest reduction payment to an individual in connection with the purchase and occupancy of a residence by that individual," after "insurance".

(d) Displaced Person Defined.—Section 101(6) of the Uniform Act (42 U.S.C. 4601(6)) is amended to read as follows:

"(6) The term 'displaced person' means—

"(A) any person who moves from real property, or moves his personal property from real property—

"(i) as a direct result of a written notice of intent to acquire or the acquisition of such real property in whole or in part for a program or project undertaken by a Federal agency or with Federal financial assistance, or

"(ii) as a direct result of rehabilitation, demolition, or such other displacing activity as the lead agency may prescribe, under a program or project undertaken by a Federal agency or with Federal financial assistance in any case in which the person is a residential tenant and the head of the displacing agency determines that such displacement is permanent; and

"(B) solely for the purposes of sections 202 (a) and (c) and 205 of this title, any person who moves from real property, or moves his personal property from real property—

"(i) on which such person conducts a business or farm operation, as a direct result of a written notice of intent to acquire or the acquisition of such real property in whole or in part for a program or project undertaken by a Federal agency or with Federal financial assistance; or

"(ii) on which such person conducts a small business or a farm operation or a business defined by section 101(7)(D), as a direct result of rehabilitation, demolition, or such other displacing activity as the lead agency may prescribe, under a program or project undertaken by a Federal agency or with Federal financial assistance where the head of the displacing agency determines that such displacement is permanent.

Such term does not include a person who has been determined, according to criteria established by the head of the lead agency, to be either in unlawful occupancy of the displacement dwelling or to have occupied such dwelling for the purpose of obtaining assistance under this Act. Such term also does not include, in any case in which the displacing agency acquires property for a program or project, any person (other than a person who was an occupant of such property at the time it was acquired) who occupies such property on a rental basis for a short term or a period subject to termination when the property is needed for the program or project.".

(e) Comparable Replacement Dwelling, Displacing Agency, Lead Agency, and Appraisal Defined.—Section 101 of the Uniform Act (42 U.S.C. 4601) is amended by adding at the end thereof the following new paragraphs:

"(10) The term 'comparable replacement dwelling' means any dwelling that is (A) decent, safe, and sanitary; (B) adequate in size to accommodate the occupants; (C) within the financial means of the displaced person; (D) functionally equivalent and substantially the same as the replacement dwelling with respect to number of rooms and living space; (E) in an area not subject to unreasonable adverse environmental conditions; and (F) in a location generally not less desirable than the location of the displaced person's dwelling with respect to public utilities, facilities, services, and the displaced person's place of employment.

"(11) The term 'displacing agency' means any Federal agency carrying out a program or project, and any State, State agency, or person carrying out a program or project with Federal financial assistance, which causes a person to be a displaced person.

"(12) The term 'lead agency' means the Department of Transportation.

"(13) The term 'appraisal' means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion of defined value of an adequately described property as of a specific date, supported by the presentation and analysis of relevant market information.".

(f) Conforming Amendment.—Section 101(7)(D) of the Uniform Act (42 U.S.C. 4601(7)(D)) is amended by striking out "(a)" after "202".

SEC. 403. CERTIFICATION.

Title I of the Uniform Act is amended by adding at the end thereof the following new section:

"CERTIFICATION

"Sec. 103. (a)(1) Notwithstanding sections 210 and 305 of this Act, the head of a Federal agency may discharge any of his responsibilities under this Act, by accepting a certification by a State agency that it will perform such responsibility if the head of such Federal agency finds that such responsibility will be performed in accordance with State laws, regulations, directives, and standards which will accomplish the purpose and effect of this Act. Prior to accepting a certification under the preceding sentence, the head of the Federal agency shall provide interested parties with an opportunity for public review and comment and shall consult with interested local general purpose governments.

"(2) The head of the lead agency shall issue guidelines and regulations to carry out this section.

"(3) The head of the lead agency shall, in coordination with other Federal agencies, monitor from time to time, and report biennially to the Congress on, State agency implementation of this section. A State agency shall make available any information required for such purpose.

"(4) After consultation with the head of the lead agency, the head of a Federal agency may rescind his acceptance of any certification under this section, in whole or in part, if the State agency fails to comply with such certification or with State law.

"(b) The head of a Federal agency may withhold his approval of any Federal financial assistance to or contract or cooperative agreement with any displacing agency found to have failed to comply with any certification under this section or with a State law.".

SEC. 404. DECLARATION OF FINDINGS AND POLICY.

Section 201 of the Uniform Act (42 U.S.C 4621) is amended to read as follows:

"DECLARATION OF FINDINGS AND POLICY

"Sec. 201. (a) The Congress finds and declares that—

"(1) displacement as a direct result of programs or projects undertaken by a Federal agency or with Federal financial assistance is caused by a number of activities, including rehabilitation, demolition, code enforcement, and acquisition;

"(2) relocation assistance policies must provide for fair, uniform, and equitable treatment of all affected persons;

"(3) the displacement of businesses often results in their closure;

"(4) minimizing the adverse impact of displacement of businesses is essential to maintaining the economic and social well-being of communities; and

"(5) implementation of this Act has resulted in burdensome, inefficient, and inconsistent compliance requirements and procedures which will be improved by establishing a lead agency and allowing for State certification and implementation.

"(b) This title establishes a uniform policy for the fair and equitable treatment of persons displaced as a direct result of programs or projects undertaken by a Federal agency or with Federal financial assistance. The primary purpose of this title is to ensure that such persons shall not suffer disproportionate injuries as a result of programs and projects designed for the benefit of the public as a whole and to minimize the hardship of displacement on such persons.

"(c) It is the intent of Congress that—

"(1) Federal agencies shall carry out this title in a manner which minimizes waste, fraud, and mismanagement and reduces unnecessary administrative costs borne by States and State agencies in providing relocation assistance;

"(2) uniform procedures for the administration of relocation assistance shall, to the maximum extent feasible, assure that the unique circumstances of any displaced person are taken into account and that persons in essentially similar circumstances are accorded equal treatment under this Act; and

"(3) the improvement of housing conditions of economically disadvantaged persons under this title shall be undertaken, to the maximum extent feasible, in coordination with existing Federal, State, and local governmental programs for accomplishing such goals.".

SEC. 405. MOVING AND RELATED EXPENSES.

(a) Business Reestablishment Expenses.—Section 202(a) of the Uniform Act (42 U.S.C. 4622(a)) is amended—

(1) by striking out the matter preceding paragraph (1) and inserting in lieu thereof the following:

"(a) Whenever a program or project to be undertaken by a displacing agency will result in the displacement of any person, the head of the displacing agency shall provide for the payment to the displaced person of—";

(2) by striking out "and" at the end of paragraph (2);

(3) by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; and"; and

(4) by adding at the end thereof the following:

"(4) actual reasonable expenses necessary to reestablish a displaced farm, nonprofit organization, or small business at its new site, but not to exceed $10,000.".

(b) Alternative Residential Allowance.—Section 202(b) of the Uniform Act (42 U.S.C. 4622(b)) is amended by striking out all that follows "may receive" and inserting in lieu thereof "an expense and dislocation allowance, which shall be determined according to a schedule established by the head of the lead agency.".

(c) Alternative Business Allowance.—Section 202(c) of the Uniform Act (42 U.S.C. 4622(c)) is amended to read as follows:

"(c) Any displaced person eligible for payments under subsection (a) of this section who is displaced from the person's place of business or farm operation and who is eligible under criteria established by the head of the lead agency may elect to accept the payment authorized by this subsection in lieu of the payment authorized by subsection (a) of this section. Such payment shall consist of a fixed payment in an amount to be determined according to criteria established by the head of the lead agency, except that such payment shall not be less than $1,000 nor more than $20,000.".

SEC. 406. REPLACEMENT HOUSING FOR HOMEOWNER.

Section 203(a) of the Uniform Act (42 U.S.C. 4623(a)) is amended—

(1) by striking out "Federal" in the portion of paragraph (1) preceding subparagraph (A) and inserting in lieu thereof "displacing";

(2) by striking out "$15,000" and inserting in lieu thereof, "$22,500";

(3) by striking out "acquired by" and all that follows through "market" in paragraph (1)(A) and inserting in lieu thereof "acquired by the displacing agency, equals the reasonable cost of a comparable replacement dwelling";

(4) by striking out paragraph (1)(B) and inserting in lieu thereof the following:

"(B) The amount, if any, which will compensate such displaced person for any increased interest costs and other debt service costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of such dwelling."; and

(5) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) The additional payment authorized by this section shall be made only to a displaced person who purchases and occupies a decent, safe, and sanitary replacement dwelling within one year after the date on which such person receives final payment from the displacing agency for the acquired dwelling or the date on which the displacing agency's obligation under section 205(c)(3) of this Act is met, whichever is later, except that the displacing agency may extend such period for good cause. If such period is extended, the payment under this section shall be based on the costs of relocating the person to a comparable replacement dwelling within one year of such date.".

SEC. 407. REPLACEMENT HOUSING FOR TENANTS AND CERTAIN OTHERS.

Section 204 of the Uniform Act (42 U.S.C. 4624) is amended to read as follows:

"REPLACEMENT HOUSING FOR TENANTS AND CERTAIN OTHERS

"Sec. 204. (a) In addition to amounts otherwise authorized by this title, the head of a displacing agency shall make a payment to or for any displaced person displaced from any dwelling not eligible to receive a payment under section 203 which dwelling was actually and lawfully occupied by such displaced person for not less than ninety days immediately prior to (1) the initiation of negotiations for acquisition of such dwelling, or (2) in any case in which displacement is not a direct result of acquisition, such other event as the head of the lead agency shall prescribe. Such payment shall consist of the amount necessary to enable such person to lease or rent for a period not to exceed four years, a comparable replacement dwelling, but not to exceed $6,000. At the discretion of the head of the displacing agency, a payment under this subsection may be made in periodic installments. Computation of a payment under this subsection to a low-income displaced person for a comparable replacement dwelling shall take into account such person's income.

"(b) Any person eligible for a payment under subsection (a) of this section may elect to apply such payment to a down payment on, and other incidental expenses pursuant to, the purchase of a decent, safe, and sanitary replacement dwelling. Any such person may, at the discretion of the head of the displacing agency, be eligible under this subsection for the maximum payment allowed under subsection (a), except that, in the case of a displaced homeowner who has occupied the displacement dwelling for at least ninety days but not more than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of such dwelling, such payment shall not exceed the payment such person would otherwise have received under section 203(a) of this Act had the person occupied the displacement dwelling for one hundred and eighty days immediately prior to the initiation of such negotiations.".

SEC. 408. RELOCATION PLANNING, ASSISTANCE COORDINATION, AND ADVISORY SERVICES.

Section 205 of the Uniform Act (42 U.S.C. 4625) is amended to read as follows:

"RELOCATION PLANNING, ASSISTANCE COORDINATION, AND ADVISORY SERVICES

"Sec. 205. (a) At an early stage in the planning of a program or project undertaken by a Federal agency or with Federal financial assistance and before the commencement of any actions which will cause displacements, a relocation analysis shall be developed by the displacing agency to assist it in the recognition and successful resolution of those problems associated with the displacements of individuals, families, businesses and farm operations in order to minimize adverse impacts on displaced persons and to expedite program or project advancement and completion.

"(b) The head of any displacing agency shall ensure that the relocation assistance advisory services described in subsection (c) of this section are made available to all persons displaced by such agency. If such agency head determines that any person occupying property immediately adjacent to the property where the displacing activity occurs is caused substantial economic injury as a result thereof, the agency head may make available to such person such advisory services.

"(c) Each relocation assistance advisory program required by subsection (b) of this section shall include such measures, facilities, or services as may be necessary or appropriate in order to—

"(1) determine, and make timely recommendations on, the needs and preferences, if any, of displaced persons for relocation assistance;

"(2) provide current and continuing information on the availability, sales prices, and rental charges of comparable replacement dwellings for displaced homeowners and tenants and suitable locations for businesses and farm operations;

"(3) assure that a person shall not be required to move from a dwelling unless the person has had a reasonable opportunity to relocate to a comparable replacement dwelling, except in the case of—

"(A) a major disaster as defined in section 102(2) of the Disaster Relief Act of 1974;

"(B) a national emergency declared by the President; or

"(C) any other emergency which requires the person to move immediately from the dwelling because continued occupancy of such dwelling by such person constitutes a substantial danger to the health or safety of such person;

"(4) assist a person displaced from a business or farm operation in obtaining and becoming established in a suitable replacement location;

"(5) supply (A) information concerning other Federal and State programs which may be of assistance to displaced persons, and (B) technical assistance to such persons in applying for assistance under such programs; and

"(6) provide other advisory services to displaced persons in order to minimize hardships to such persons in adjusting to relocation.

"(d) The head of a displacing agency shall coordinate the relocation activities performed by such agency with other Federal, State, or local governmental actions in the community which could affect the efficient and effective delivery of relocation assistance and related services.

"(e) Whenever two or more Federal agencies provide financial assistance to a displacing agency other than a Federal agency, to implement functionally or geographically related activities which will result in the displacement of a person, the heads of such Federal agencies may agree that the procedures of one of such agencies shall be utilized to implement this title with respect to such activities. If such agreement cannot be reached, then the head of the lead agency shall designate one of such agencies as the agency whose procedures shall be utilized to implement this title with respect to such activities. Such related activities shall constitute a single program or project for purposes of this Act.

"(f) Notwithstanding section 101(6) of this Act, in any case in which a displacing agency acquires property for a program or project, any person who occupies such property on a rental basis for a short term or a period subject to termination when the property is needed for the program or project shall be eligible for advisory services to the extent determined by the displacing agency.".

SEC. 409. HOUSING REPLACEMENT BY FEDERAL AGENCY AS LAST RESORT.

Section 206 of the Uniform Act (42 U.S.C. 4626) is amended to read as follows:

"HOUSING REPLACEMENT BY FEDERAL AGENCY AS LAST RESORT

"SEC. 206. (a) If a program or project undertaken by a Federal agency or with Federal financial assistance cannot proceed on a timely basis because comparable replacement dwellings are not available, and the head of the displacing agency determines that such dwellings cannot otherwise be made available, the head of the displacing agency may take such action as is necessary or appropriate to provide such dwellings by use of funds authorized for such project. The head of the displacing agency may use this section to exceed the maximum amounts which may be paid under sections 203 and 204 on a case-by-case basis for good cause as determined in accordance with such regulations as the head of the lead agency shall issue.

"(b) No person shall be required to move from his dwelling on account of any program or project undertaken by a Federal agency or with Federal financial assistance, unless the head of the displacing agency is satisfied that comparable replacement housing is available to such person.".

SEC. 410. ASSURANCES.

Section 210 of the Uniform Act (42 U.S.C. 4630) is amended by striking out "State agency" the first place it appears and inserting in lieu thereof "displacing agency (other than a Federal agency)", by striking out "State agency" the second place it appears and inserting in lieu thereof "displacing agency", and by striking out "decent, safe, and sanitary" in paragraph (3) and inserting in lieu thereof "comparable".

SEC. 411. FEDERAL SHARE OF COSTS.

(a) GENERAL RULE.—Section 211(a) of the Uniform Act (42 U.S.C. 4631(a)) is amended to read as follows:

"(a) The cost to a displacing agency of providing payments and assistance pursuant to titles II and III shall be included as part of the cost of a program or project undertaken by a Federal agency or with Federal financial assistance. A displacing agency, other than a Federal agency, shall be eligible for Federal financial assistance with respect to such payments and assistance in the same manner and to the same extent as other program or project costs.".

(b) LIMITATION.—Section 211(b) of the Uniform Act (42 U.S.C. 4631(b)) is amended to read as follows:

"(b) No payment or assistance under title II or III of this Act shall be required or included as a program or project cost under this section, if the displaced person receives a payment required by State law which is determined by the head of the lead agency to have substantially the same purpose and effect as such payment under this section.".

SEC. 412. DUTIES OF LEAD AGENCY; SALVAGE OPERATION.

(a) DUTIES OF LEAD AGENCY.—Section 213 of the Uniform Act (42 U.S.C. 4633) is amended to read as follows:

"DUTIES OF LEAD AGENCY

"SEC. 213. (a) The head of the lead agency shall—

"(1) develop, publish, and issue, with the active participation of other Federal agencies responsible for funding relocation and acquisition actions, and in coordination with State and local governments, such regulations as may be necessary to carry out this Act;

"(2) ensure that relocation assistance activities under this Act are coordinated with low-income housing assistance programs or projects by a Federal agency or a State or State agency with Federal financial assistance;

"(3) monitor, in coordination with other Federal agencies, the implementation and enforcement of this Act and report to the Congress, as appropriate, on any major issues or problems with respect to any policy or other provision of this Act; and

"(4) perform such other duties as may be provided by law as relate to the purposes of this Act.

"(b) The head of the lead agency is authorized to establish such regulations and procedures as he may determine to be necessary to assure—

"(1) that the payments and assistance authorized by this Act shall be administered in a manner which is fair and reasonable and as uniform as practicable;

"(2) that a displaced person who makes proper application for a payment authorized for such person by this title shall be paid promptly after a move or, in hardship cases, be paid in advance; and

"(3) that any aggrieved person may have his application reviewed by the head of the Federal agency having authority over the applicable program or project or, in the case of a program or project receiving Federal financial assistance, by the State agency having authority over such program or project or the Federal agency having authority over such program or project if there is no such State agency.".

(b) SALVAGE OPERATION.—Notwithstanding any other provision of law, the Commonwealth of Massachusetts is required to assist and coordinate the salvaging of the foundation and associated structures of the historic Great House in City Square, Charlestown, Massachusetts; to store the salvaged material during the suppression and reconstruction of the interstate at Charlestown, Massachusetts; and to assist and coordinate the incorporation of the Great House's foundation and related structures into the reconstruction of City Square at Charlestown, Massachusetts.

SEC. 413. PAYMENTS UNDER OTHER LAWS.

Section 216 of the Uniform Act (42 U.S.C. 4636) is amended by inserting after "Federal law" the following: "(except for any Federal law providing low-income housing assistance)".

SEC. 414. TRANSFER OF SURPLUS PROPERTY.

Section 218 of the Uniform Act (42 U.S.C. 4638) is amended by inserting "net" after "all".

SEC. 415. REPEALS.

Sections 214, 217, and 219 of the Uniform Act (42 U.S.C. 4634 and 4637) are hereby repealed.

SEC. 416. UNIFORM POLICY ON REAL PROPERTY ACQUISITION PRACTICES.

(a) WAIVER OF APPRAISAL.—Section 301(2) of the Uniform Act (42 U.S.C. 4651(2)) is amended by inserting the following before the period at the end thereof: ", except that the head of the lead agency may prescribe a procedure to waive the appraisal in cases involving the acquisition by sale or donation of property with a low fair market value".

(b) Acquisition of Uneconomic Remnant.—Section 301(9) of the Uniform Act (42 U.S.C. 4651 (9)) is amended to read as follows:

"(9) If the acquisition of only a portion of a property would leave the owner with an uneconomic remnant, the head of the Federal agency concerned shall offer to acquire that remnant. For the purposes of this Act, an uneconomic remnant is a parcel of real property in which the owner is left with an interest after the partial acquisition of the owner's property and which the head of the Federal agency concerned has determined has little or no value or utility to the owner.".

(c) Section 301 of the Uniform Act (42 U.S.C. 4651) is amended by adding at the end thereof the following new paragraph:

"(10) A person whose real property is being acquired in accordance with this title may, after the person has been fully informed of his right to receive just compensation for such property, donate such property, any part thereof, any interest therein, or any compensation paid therefor to a Federal agency, as such person shall determine.".

SEC. 417. ASSURANCES.

Section 305 of the Uniform Act (42 U.S.C. 4655) is amended by inserting "(a)" after "Sec. 305.", by striking out "a State agency" the first place it appears and inserting in lieu thereof "an acquiring agency", by striking out "State agency" the second place it appears and inserting in lieu thereof "acquiring agency", and by adding at the end thereof the following new subsection:

"(b) For purposes of this section, the term 'acquiring agency' means—

"(1) a State agency (as defined in section 101(3)) which has the authority to acquire property by eminent domain under State law, and

"(2) a State agency or person which does not have such authority, to the extent provided by the head of the lead agency by regulation.".

SEC. 418. EFFECTIVE DATE.

This title and the amendments made by this title shall take effect 2 years after the date of enactment of this Act, except that the amendment made by section 412 of this title (to the extent such amendment prescribes authority to develop, publish, and issue rules and regulations) shall take effect on the date of enactment of this Act.

OUR BURGEONING DEFICIT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. Dannemeyer] is recognized for 60 minutes.

Mr. DANNEMEYER. Mr. Speaker, probably the one issue that will occupy the agenda of the House and the Senate almost during the entire length of the ensuing 100th Congress will be what to do about the burgeoning deficit, the growth in the national debt, the increased cost of annual interest expense, and from the political standpoint to establish accountability in the process for who is responsible for this fiscal mess in which we now find ourselves. It is on this subject that I would like to speak for a period of time this afternoon.

I note with interest, at least the press reported during the course of the time when Congress was in recess that our Speaker-elect, the gentleman from Texas [Mr. Wright], was considering an option to rescind the reductions in tax rates which the last Congress approved. Members will recall that by an act of Congress last year the maximum tax rate in 1987 will be reduced from 50 to 39.5 and in 1988 it is projected to drop to 28 percent as a maximum rate.

The Speaker has indicated that he may want to give consideration to rescinding these reductions and in his eloquent way this is not a tax increase; that is, the rescission of a reduction is not a tax increase. If he keeps saying it often enough, maybe you will get to the point where you believe it.

I mention this because it illustrates the contrast between the two philosophies that are struggling to govern the House of Representatives and the Senate of the United States; namely, in struggling to reduce the growth of this debt balloon which every day, every minute, every second is getting bigger and bigger.

Do we do it by raising taxes or do we do it by cutting spending or a combination of both and which party, if there is any difference, is projecting which direction the Nation should go?

In preparing for this special order this afternoon, I asked my staff to prepare an analysis of what has happened to the 5 budget years for which President Reagan is responsible in terms of recommending a budget to the House and the Senate and then what has been the response of Congress to this recommendation of the President in terms of spending, because among the movements that will take place in the political forum, one will hear these comments: "Well, we are in this fiscal problem because this President is not responsible in his fiscal policies."

On the other side, people will say, "Well, it's the Congress."

And in the House they will say it is the Senate, and in the Senate they will say it is the House and, of course, the Democrats in the House will blame the Republicans and the Republicans will blame the Democrats.

Where in the world does a citizen of America try to figure out and establish accountability in the process, in the political process, so that the citizens of this country can take what action they deem appropriate, if any, regarding the fiscal mess we now find ourselves in?

In making this analysis, I asked my staff to prepare this assessment of what has happened to the President's request. I find in those 5 years for which this President is responsible, 1982, 1983, 1984, 1985, and 1986, that the following has been the result of what this President has recommended:

In 1982, President Reagan recommended that Congress spend $695.8 billion. Congress spent $745.7 billion.

In 1983, the President recommended that Congress spend $757.6 billion. The actual outlays were $808.3 billion.

In 1984, the President recommended that Congress spend $848.5 billion. Congress actually ended up spending $851.8 billion.

In 1985, the President recommended that Congress appropriate $925.5 billion. The actual outlays came to $946 billion.

Then in 1986, the President recommended that Congress spend $973.7 billion, and the actual outlays were $989.8 billion.

The data indicates quite clearly that in each of the years that this President has made a recommendation that Congress has appropriated more than what the President has recommended.

What is even more interesting is to break down the totals of the recommendations between certain categories, because I think these categories are of interest to the American people. For example, national defense and Medicare and Social Security, the interest on the debt, and then for the purpose of this analysis today I have put all of their recommendations into a category called other. In other words, those six categories, national defense, Medicare, Social Security, net interest and other—or five categories, excuse me, represent the total of all Federal spending during the fiscal year.

In this instance it is interesting to contrast what has happened in those categories. For example, in the 5 fiscal years to which I have made reference, 1982 through 1986, President Reagan has recommended for defense that Congress appropriate $1,213 billion over 5 years. During that 5 years, Congress has appropriated $1,148.5 billion. In other words, Congress has appropriated $64.2 billion less over that 5-year span for defense than the President has asked for.

In the area of Medicare, the President has requested over that 5-year span that Congress spend $298.7 billion. Congress responded by appropriating $292.7 billion, or $6 billion less than what the President asked for.

In Social Security, the President asked that Congress appropriate in that 5-year span $904.1 billion and Congress appropriated $892.3 billion, or $11.8 billion less than the President asked for.

In the category of net interest, the President asked for the Congress to appropriate $557 billion. Congress appropriated $550.4 billion. Congress appropriated $6.6 billion less than the President asked for.

In the fifth category, this is where I think it begins to get interesting, because over this 5-year span President Reagan asked Congress to appropriate $1.228 trillion, and Congress responded by appropriating $1.457.4 trillion, or $229.4 billion more than the President asked for.

Now, shortly in my comments I will get into a better identification of what is included within the category of "other," my fifth category, so that Members will have an opportunity for a better understanding of what is included in that category where the President has requested a certain level of spending and over the course of the last 5 fiscal years Congress has exceeded that request by some $229.4 billion.

Now, what does this tell us, really? What it says, very candidly and very simply, is that the people of America can change Presidents every year for the balance of this century if they choose to do that, and it is not going to have much of an impact on spending in the U.S. Government.

□ 1645

The reason I say that is because the agency or the entity that is responsible for the spending level of the Nation, of the U.S. Government, is not the President of the United States, able as he may be. Presidents propose, and Congresses dispose.

The relevance of this figure that is in this category of "other" over the past 5 fiscal years is—I will repeat it—Congress has spent $229.4 billion more than the President asked be spent.

Now bear in mind that when Congress in a particular year appropriates more than the President asks be spent, that merely establishes the level of spending from which we start for the next year, because once the spending system gets to be a part of the spending stream, it is almost impossible to dislodge it.

So in that figure of $229.4 billion, an effort should be made to find out how much of that excess spending over what the President asked be spent over the course of the 5 years is involved in this projected deficit that we saw in fiscal year 1986 that closed last September 30, where the deficit was close to $200 billion, and how much will that be in the projected deficit for the coming fiscal year that the President has asked or projected be set as $173.2 billion.

In other words, in the projection of the deficit for the next fiscal year, 1988, which begins October 1 of this year, how much of that $229.4 billion, if it had not become a part of the spending stream of the U.S. Government, would or could have been a reduction in the deficit that we will experience in each of the fiscal years that we have served here plus as many years in the future that we can project?

In making that analysis, I would like to go back to 1983, because I think that year, fiscal year 1983, because it indicates quite clearly when the system began to distort so dramatically in terms of the Reagan Presidency with respect to fiscal policy.

In that year, which bear in mind was the second budget cycle that this President Reagan submitted his full budget request to Congress, in the category of "other" for that year the President requested $195.1 billion. Congress actually appropriated that year $285.3 billion, an increase in that one category of some $90 billion beyond what the President asked be spent.

Now if you take that figure of $195.1 billion for fiscal year 1983 and you extrapolate by adding to it for each of the ensuing 3 fiscal years an amount to represent inflation, which I would estimate over that span would be roughly 12 to 15 percent, you would find that had we followed the recommendations of this President for spending totals relating to "other" in fiscal year 1983 and the ensuing years that the spending level in those programs for fiscal year 1986 would have been about $215 billion, whereas in fact we spent $312 billion in that year.

My point is that you can extrapolate, I think, on a reasonable basis that approximately $100 billion of the annual deficit which we had in 1986 and which we will have in the current fiscal year of 1987, and that we will have in the ensuing years so long as we have deficits, about $100 billion of that results directly from excess spending by the Congress of the United States over and beyond what this President has aked be spent.

Now that is not the total elimination of the deficit, but it is a pretty good whack at it. In other words, if we could reduce the deficit by $100 billion in fiscal year 1987, we would borrow just that much less money, and we would be just that much closer to balancing the budget of the U.S. Government.

Well, then Members may ask, "Well, what do you include within the category of "other?" I would like to show the Members, item by item, how in response to the President's request in fiscal year 1983 that we spend for the category of "other" $195.1 billion, that we ended up spending $285 billion, or some $90 billion more.

These are the items that are included within the category of "other," not all of them but most of them, making up that category of some $90 billion more:

Item 270 in the budget process, energy, the President requested $4.2 billion; Congress appropriated $9.4 billion, an increase of $5.2 billion.

Category 300, natural resources and environment, the President requested $9.9 billion; Congress appropriated $12.7 billion, an increase of $2.8 billion.

Category 350, agriculture, the President requested $4.5 billion; Congress appropriated $22.9 billion, an increase of $18.4 billion more than the President asked for.

Category 370, commerce and housing credit, the President asked for $1.6 billion; Congress appropriated $6.7 billion, an increase of $5.1 billion.

Category 400, transportation, the President requested $19.6 billion; Congress appropriated $21.3 billion, an increase of $1.7 billion.

Category 500, education, training, employment, and social services, the President requested $21.6 billion; the outlays were $26.6 billion, an increase of over $5 billion beyond what the President asked for.

Category 550, health, less Medicare, the President asked for $22.7 billion; Congress appropriated $28.6 billion, an increase of $5.9 billion.

Category 600, income security, less Social Security, the President asked for $88.2 billion; Congress appropriated—now get this $122.6 billion, an increase of some $34.4 billion.

And then finally, item 950, undistributed offsetting receipts, the President requested $43.5 billion, and actually there were $34 billion coming in, so there is a reduction there of the deficit of some $9.5 billion.

These are not the entire identification of all the items that comprise "other," but I have read to the Members' attention here the major ones. These total whereby Congress appropriated $90 billion more than the President asked for.

In this political dialog that will take place between the President and the Congress, the figures indicate quite clearly, aside from the politics of the issue, that President Reagan has been most responsible in recommending a spending program for the budget of the U.S. Government that is consistent with the public interest in terms of balancing the budget far beyond what the Congress has been able to accomplish.

In other words, when the Congress as a body appropriates $229.4 billion more over 5 years in the category of "other" beyond what the President has asked for, can there really be any question in the minds of anybody in this country who is responsible for this fiscal mess in which we find ourselves?

□ 1655

I noticed today when the Speaker, Mr. WRIGHT, gave his eloquent statement to the Members relating to the issues facing the country, when he talked about the deficit Mr. WRIGHT used the term, and I made a note of this so I could reflect it accurately, that Government had produced the deficit, Government. Well, that is true. Government has produced the deficit because we are all a part of the Government of the United States serving in the White House or in the Senate or in the House of Representatives.

But the truth of the matter is, Mr. Speaker, that within the confines and identification of the Government of the United States there is an executive branch that spends the money and there is the Congress of the United States that appropriates the money and I and the other 433 Members of this House who have voting rights in this House are responsible for this fiscal mess that we are in because we are the body that controls the level of spending in the U.S. Government, not the President of the United States.

In case Members are interested as to who in the Congress of the United States, particularly the House or the Senate, is responsible for this level of spending, I would like to bring to the Members' attention one of the compilations that are produced here in Washington by various organizations. This one purports to reflect the voting status of each Member serving in the House of Representatives and the U.S. Senate in the year 1985. The National Taxpayers produces this publication. Once a year it produces an analysis which indicates where each Member of the House and the Senate stands in terms of responsibility or accountability for the level of spending in this country.

The National Taxpayers Union, in considering votes for 1985, analyzed 211 House rollcall votes and 207 Senate rollcall votes. Each of those votes were related to a proposal to increase spending, to raise taxes, to lower taxes, an amendment to cut spending or an amendment to add spending. In other words, this analysis purports to show accountability for Members of the House for the year 1985 of where the Members of the House stand relating to accountability on who is responsible for this level of spending. With respect to these 211 House rollcall votes which were selected, the National Taxpayers divided each of us into one of 4 categories. The higher the percentage ratings, the better the Member was in terms of voting taxpayers' interests. In other words, the higher percentage number you received, the more concerned you are for voting for the interest of taxpayers, of reducing spending; and, conversely, the lower the number that you received, the more the Member is inclined to be in favor of voting additional money for the various special interests that receive all of the Federal spending that goes on in this country. They divided all of the Members into 4 categories: good, if you had 61 percent or more; fair, 47 to 60 percent; average, 32 to 46 percent; and big spender was 31 percent or less.

In this analysis, they listed 38 Members of the House in 1985 who had the worst scores in terms of representing taxpayers' interests here in the House, and they had an analysis which indicated those with the 36 best scores in terms of representing and voting for taxpayers' interests.

I want to make clear to my colleagues in the House that in this analysis—it is just one of many that are available here in Washington—there is not effort to impugn the integrity or the honesty or ability of any Member who is rated. That is a given fact, that a Member has just as much integrity whether their rating is low or high, and I want to make that clear. All this indicates is that each of us has a record in terms of accountability for establishing the spending level that exists in this country so the people of America can determine in this dialog that I indicated in the beginning of our remarks that will take place over the next 2 years of the 100th Congress, who truly is accountable for this fiscal mess we are in.

I would like to read those with the worst scores; that is, with the worst rating that are in the category of big spenders here in the Congress of the United States. Wilson of Texas with 18 percent, Pepper of Florida with 18 percent, Murtha of Pennsylvania with 18 percent, Bustamante of Texas with 19 percent, Alexander of Arkansas with 20 percent, Frost of Texas with 20 percent, Mollohan of West Virginia with 20 percent, Ortiz of Texas with 20 percent, Chappell of Florida with 21 percent, Hoyer of Maryland with 22 percent, Aspin of Wisconsin for 22 percent, Dowdy of Mississippi with 23 percent, Fazio of California with 23 percent, Price of Illinois with 23 percent, Hatcher of Georgia with 23 percent, Long of Louisiania with 23 percent, Boggs of Louisiana with 24 percent, Stratton of New York with 24 percent, Gonzalez of Texas with 24 percent, Brooks of Texas with 25 percent, Wright of Texas with 25 percent, Bevill of Alabama with 25 percent, de la Garza of Texas with 25 percent, Rose of North Carolina with 25 percent, Dixon of California with 25 percent, Manton of New York with 25 percent, Coleman of Texas with 26 percent, Fascell of Florida with 26 percent, Dicks of Washington with 26 percent, Whitten of Mississippi with 26 percent, Biaggi of New York with 26 percent, Lipinski of Illinois with 26 percent, Rahall of West Virginia with 26 percent, Hefner of North Carolina with 26 percent, Natcher of Kentucky with 26 percent, Whitley of North Carolina with 26 percent, Udall of Arizona with 26 percent, and Roe of New Jersey with 26 percent.

I will say again each of the Members of the House of Representatives who voted on fiscal matters in 1985 are recorded in this analysis State by State. The worst scores that I have described are the 38 Members that I have just read.

In the assessment of the National Taxpayers Union, the best scores are 36 enumerated as follows: Sensenbrenner of Wisconsin with 80 percent, Smith of New Hampshire, 76 percent, Crane of Illinois, 76 percent, Dreier of California, 75 percent, Archer of Texas, 74 percent, Tauke of Iowa, 74 percent, Walker of Pennsylvania, 74 percent, Lungren of California, 73 percent, Smith of Oregon, 73 percent, Gregg of New Hampshire, 72 percent, Shumway of California, 72 percent, Armey of Texas, 72 percent, Dannemeyer of California, 72 percent, Brown of Colorado, 72 percent, DeLay of Texas, 72 percent, Frenzel of Minnesota, 71 percent, Zschau of California, 71 percent, Hansen of Utah, 70 percent, Stump of Arizona, 70 percent, Barton of Texas, 70 percent, Nielson of Utah, 69 percent, Swindall of Georgia, 69 percent, Moorhead of California, 69 percent, Solomon of New York, 69 percent, Mack of Florida, 69 percent, Bartlett of Texas, 68 percent, Roberts of Kansas, 68 percent, Cheney of Wyoming, 68 percent, Craig of Idaho, 68 percent, Miller of Washington, 67 percent, Fields of Texas, 67 percent, Hiler of Indiana, 67 percent, Leach of Iowa, 66 percent, Hartnett of South Carolina, 66 percent, Porter of Illinois, 66 percent, and Burton of Indiana, 66 percent.

Again I will observe to my colleagues that each of the Members who served in the first year of the 99th Congress, 1985, their record is in this analysis. I have merely read those with the best scores in the assignment of the National Taxpayers Union, 36 of them, and those 39 with the worst scores.

□ 1705

This does not mean to say that you won't find Republicans that are big spenders or Democrats who are voting for taxpayers; because that certainly is the case; but in the assessment of this organization, the 38 with the worst scores, the biggest spenders, are all Democrats and the 36th with the best scores, those voting for taxpayers have the best scores, totaling the numbers that I have indicated.

If persons in this country are interested in how their Member from their district voted on particular issues, they can contact the National Taxpayers Union at 325 Pennsylvania Avenue, Washington, DC 20003, and I am sure they will provide you with information as to where their Member stands on that issue.

I think it is relevant, because with this debt bubble growing bigger all the time, this Member has been privileged to serve in the Congress for the last 8 years, beginning my ninth year here. Based on the sense of what I have seen come out of the Congress the last session, the 95th, the 94th, and the 93d and the 92d, over that 8-year span; at least here in the House of Representatives the sense of the body has been to candidly increase this debt bubble almost with each month that passes.

In other words, we do not have a sense, in the House, to reduce the debt bubble or at least stop its getting bigger, and that is a tragic thing for all of us, particularly when you reflect on the comment of our Speaker, and I will refer to it again, in his opening comments when he said: "It is a tragedy in America today when a 30-year-old couple has a more difficult time to buy their own home or an automobile than their parents did when they entered the family formation stage in their life," and that is true.

What the Speaker said is, we must do better than that. We commend that, because we must do better, but the reality of the matter is, the gentleman who made that comment, Mr. WRIGHT of Texas, our Speaker, is one of the biggest spenders in the House of Representatives. In 1985 he had a rating of 25 percent. You cannot have it both ways. You cannot be for curbing runaway spending and at the same time voting to keep it going. You have got to make a choice.

In this debate that is going to take place over the next 2 years of the 100th Congress, which I think will encompass most of the time of all of us; namely, who is responsible for this level of spending.

I think the people of the country should seriously reflect on what their Member of Congress is doing in terms of accountability and the voting process for keeping this runaway debt-creation process going. If there is any salvation for any of this, for our children and our grandchildren and our great-grandchildren of saving this Nation from what inevitably is an economic debacle that we are starting right in the face, if we are honest with ourselves, because if we do not develop the tendency in this body to lessen the pressure for the building of this debt bubble, every month that goes by that debt bubble gets bigger and we run the risk that it is going to explode.

If that debt bubble explodes, the consequences to the economy of America and to the Western World are absolutely profound, because it will have fulfilled one of the prognostications of that great patron saint of the competing economic system in the world today; namely, Marxism, Karl Marx wrote on an occasion that, ultimately the capitalist system will collapse on its own head because the capitalists will fight over who gets to sell the rope with which they will hang themselves.

We in America are faced with a very practical dilemma, because each of us serving in the House—there isn't a day that goes by when someone interested in continuing the money spending spree does not stand outside that door, lobbying Members of Congress when they come on to the floor of the House for a vote; or we do not get a delegation in our office saying to you, or this Member of Congress: "You've got to keep spending going for this program or that program," in some cases speaking in a metaphor, that the Republic will collapse if we don't keep certain programs going.

We all know what that pressure is. The tragedy of the country is in terms of developing the consensus for reducing this debt bubble is the taxpayers of America who are paying the bill, and absolute cynical analysis of it is all in part, since we are creating so much debt, the unborn kids that are not around to protest for themselves, that are going to be saddled with this debt; they are not here to voice their objection to this debacle that we are placing on their shoulders.

So in the debate that takes place over the next 2 years, I would hope that we will have accountability, by our votes, which I think we will; and the people of this country can evaluate each of us, Democrat or Republican; and from this Member's perspective, I believe the people of this country have just about come to the point where frankly, if we want to save our Nation from an economic disaster, we are going to have to throw the rascals out.

And by a rascal, I mean a big spender. If it is a Democrat, throw him out; if it is a Republican, throw him out; and put Members in this Congress who have the sense about them and the courage to say to those people that stand outside that door wanting us to continue this flow of money: "Vote, Congressman, to slowly reduce that deficit bubble before it bursts and destroys the very Nation of which all of us are very proud."

One of the main means by which I think we can reduce that debt bubble, and I would hope that in the ensuing 2 years we will have an opportunity to do it, is to focus our attention on one of the most rapidly rising elements of the whole budget process; namely, interest on the national debt.

In 1982, the President asked $82.6 billion for this category; Congress appropriated $85 billion. Over the course of the 5 years of the Reagan Presidency, the President asked for $557 billion for interest cost expense; Congress appropriated $550.4 billion, a reduction of $6.6 billion, lower than the President's request.

This is not really what you could categorize as one of those items about which we have a great deal of discretion, because if we do not pay the interest on the debt, we will be admitting to the world that we are defaulting, in effect, we are bankrupt so we are stuck with that obligation.

The U.S. Government, in fact in the President's budget request for the coming fiscal year, it is estimated that 10-year T-note rate is 6.6 percent, the 91-day T-bill rate is 5.6 percent. All of us wish that rate could be lower.

When you figure that the national debt is in excess of $2 trillion, and the annual gross interest expense on that debt is a little less than $200 billion, you can extrapolate easily to see that the outstanding interest cost to maintain the national debt is about 9½ percent average.

It is true we are selling some of our debt today, hopefully in the ensuing fiscal year, at 5.6 and 6.6 percent; but the fact of the matter is, in order to sell the debt of the U.S. Government in preceding years, during the Reagan Presidency and even before that in the 1970's, some of the debt had to be marked at 8, 9, 10, 11, 12, and 13 percent. So all of this debt, at varying rates of interest, is figured in the average that I just related.

One of the options that I hope Congress will consider in this 2 years adopting, is one that many of us in the House have talked about from time to time; namely, the necessity of reducing the cost of the interest expense of maintaining the national debt.

□ 1715

Before 1971, the U.S. Government could sell its debt for some 3 percent a year, that could be contrasted with the average cost of maintaining the national debt today of over 9.5 percent. If we restore the system that we had whereby we could sell debt at 3 percent per year and refinance the national debt at that lower interest rate, I believe it is obvious for all of us that we would drive out of the cost of maintaining the cost of the national debt some 6 percent annually. You multiply 6 percent by $2 trillion, and the annual interest cost reduction is about $120 billion. That interest cost reduction, I believe, should be nonpartisan or a bipartisan matter around which we can unite in order to achieve. This Member from California will be frank to admit that when the Congress appropriated $229.4 billion in the category of "other" between 1982 and 1986 that probably illustrates one of the two great philosophical divisions between the two major parties in America. Democrats in the House have a tendency to vote and to sustain and expand social programs which fit into this category of "other"; Republicans, on the other hand, have a tendency to accentuate and support defense programs. All of this is a part of a political mix.

That does not mean to say the Democrats are unconcerned about defense or that the Republicans are unconcerned about social programs, not at all. It just means that in the sense of the direction of the two parties they have a tendency to protect the turf in those areas first and then take care of other matters otherwise.

What I mention this for is that in the area of the reduction of the interest cost expense we should be devoid of those partisan considerations which divide us. On a matter of that magnitude of reducing the cost of the interest expense of maintaining a national debt it is a policy step of major significance but one that we are going to have to discuss sooner rather than later and it is directly resolved in reducing the size of this debt bubble that is staring us all in the face. Restoring honest money to America by backing our currency with gold is a step that we must take in order to reduce the cost of interest expense on the national debt.

It is beneficial to all of us in the country, to the U.S. Government, because the U.S. Government will have achieved one of the biggest steps in reducing the interest cost of maintaining the national debt leading to a balanced budget, and it has significance to the people of the Nation because it means that persons who want to acquire their own homes can look forward to a 5-percent or 6-percent annual interest rate, persons who want to finance a college education can borrow that money at 5 or 6 percent rather than 9 to 11 percent; business people will be able to consider a prime rate of 3 or 4 points lower than what we see today, namely 7.5 percent.

Least of all, or perhaps most of all, depending on your point of view, I will say it again, the U.S. Government would be able to sell its debt at 3 percent, which would, in and of itself, be the most significant step that this country can take in terms of reducing the annual interest cost of maintaining the national debt and in so doing taking a constructive step toward balancing the Federal budget.

Mr. Speaker, I thank you for time this afternoon, and I yield back the balance of my time.

HEALTH BILLS WILL ASSIST IN PREVENTING OCCUPATIONALLY RELATED DEATHS AND DISABLEMENTS

The SPEAKER pro tempore (Mr. HUBBARD). Under a previous order of the House, the gentleman from Pennsylvania [Mr. GAYDOS] is recognized for 60 minutes.

Mr. GAYDOS. Mr. Speaker, it is an unfortunate fact of life that American working men and women, whether they work in a factory, in an office, or in the fields, are at great risk of cancer, heart, and lung disease, and a wide variety of other deadly and disabling diseases and illnesses because they are exposed to the more than 50,000 toxic and hazardous substances and materials being used in the workplace.

It is also an unfortunate fact of life that too many of those American workers, whether in factories, offices, or fields, will be exposed to those substances and that as many as 100,000 will die each year, another 400,000 will become newly disabled each year, and untold numbers will suffer severe illness directly attributable to exposures to those toxic and hazardous substances and materials.

But, since I believe that it is a fact of life that those deaths, disablements, and illnesses can be prevented, I am introducing two important pieces of health legislation—the High Risk Occupational Disease Notification and Prevention Act of 1987 and the Farmworker Health and Safety Act of 1987.

If these bill titles sound familiar, they should. I introduced both bills during the 99th Congress. The High Risk Occupational Disease Notification and Prevention Act creates a program with three primary goals.

First, it is directed to identifying specific worker populations at high risk of diseases resulting from exposures to those toxic and hazardous substances I mentioned a moment ago.

Second, it provides for notifying the individual workers in those identified populations at risk and encouraging them to enter into a program of health surveillance and counseling.

And, finally, I believe it eventually will lead to the prevention and elimination of those diseases and their causes because owners and operators of business in which workers are suffering from these diseases because of exposures to the toxic and hazardous substances will make the kinds of changes necessary to improve working conditions.

What kinds of changes am I talking about? I am talking about the introduction of new and improved engineering systems that will eliminate the chances for exposures to occur. I am talking about the switch to newer and less or nontoxic substances. And, finally, I am talking about the development of new and more easily usable personal safety equipment for individual workers.

The Farmworker Health and Safety Act, too, is aimed at reducing and preventing disease, but its primary focus is on farmworkers engaged in the hand-harvesting of crops. It creates a Federal field sanitation standard that requires farmowners and operators to provide toilets, handwashing facilities, and drinking water in the fields.

Why is this bill even necessary? Quite simply, too many farmworkers are suffering too many incidences of disease and illness related to exposures to pesticides and heat.

Current studies show that farmworkers are 3½ times more likely to suffer from urinary tract infections than the general population; that farmworkers are 3.8 times more likely to develop skin infections from pesticide exposures; that farmworkers are 4.1 times more likely to suffer heat related illnesses, that farmworkers are 11 times more likely to suffer from gastrointestinal and parasitic infections; and that farmworkers are 25 times more likely to suffer from all kinds of pesticide-related disease and illnesses than the general population.

Just making toilets, drinking water, and handwashing facilities available in the fields, at a cost of just a few cents per day per worker, will reduce the extent and intensity of these diseases and illnesses and could, according to many experts in the health professions, prevent them from occurring at all.

Both of these bills go to the heart of the worker health issue. Both bills were the subjects of extensive hearings and intensive review in the last Congress. The High Risk Occupational Disease Notification and Prevention Act, better known as H.R. 1309 in the 99th Congress, was the subject of six hearings by the Subcommittee on Health and Safety before extensive subcommittee markup sessions at which time numerous amendments, including a substitute bill, were considered. It then faced an intensive markup by the full Committee on Education and Labor where, again, many amendments were considered.

The bill I have introduced today, very closely resembles the measure as it was reported by the Committee on Education and Labor. The program remains in the Department of Health and Human Services because it is a health program.

The Risk Assessment Board, the group that will be determining which worker populations are at risk is a nine-member board, consisting of the Assistant Secretary of Health, five Public Health Service career or commissioned officers with particular medical, health, or scientific skills, and three nongovernmental physicians, two of whom must have backgrounds in occupational medicine.

The bill I have introduced still leaves the notification process to the Secretary of Health and Human Services [HHS] and permits the Secretary to certify private industry notification programs, if an individual company desires to operate its own.

The legislation still requires that 10 health centers, which will provide education, training, and technical assistance to personal physicians and other health and social service professionals who serve persons who have been notified that they are in a population at risk, be established initially from among the education resource centers of the National Institute for Occupational Safety and Health [NIOSH], and similar facilities of the National Institutes for Environmental Health Sciences, the National Cancer Institute, and other private and governmental organizations that apply. Further, the bill still calls for at least 50 centers, no fewer than one in each State, to be created within 5 years.

Further, the bill still only requires that employers assume the financial responsibility for providing the health surveillance and counseling for current employees whose exposure occurred while in that employ.

But perhaps the best way to describe the bill is by outlining in simple style what it does and does not do. First, the do's.

First, the bill does provide for identifying worker populations at high risk of disease.

Second, it does require the Secretary of Health and Human Services to individually notify those workers in the identified populations, but permits private employers to seek certification of their own notification programs if they wish to continue them.

Third, it does encourage notified workers to participate in a program of health surveillance and counseling, but does not require worker participation.

Fourth, it does require the establishment of health centers, which already exist, to provide assistance to notified workers, their families and their medical, health, and social service counselors.

Fifth, it does protect notified workers against discrimination on the basis on their being notified.

Sixth, it does provide for more research into the causes of occupational diseases and means of preventing those diseases as well as the development of new and better surveillance procedures and techniques. One change from the previous legislation is that now the Secretary of HHS may make grants to the certified health centers, universities, and other institutions and organizations that meet criteria established by the Secretary.

Seventh, it does provide for a hearing process before the risk assessment board before the board's findings and recommendations are submitted to the Secretary and clarifies the judicial review process.

Eighth, it does provide for the transfer of an employee to a job where there is no exposure if the employee's physician and the company's representative agree. If there is no agreement, the revised bill provides for a third opinion.

And now, the don'ts.

First, it does not duplicate the hazard communication standard promulgated by the Occupational Safety and Health Administration [OSHA]. The OSHA standard provides information about toxic substances only to current workers, not those who retired, changed jobs, or changed their job status. Further, the OSHA standard does not inform a worker of his or her risk of disease as a result of an extended period of exposure or a single high exposure.

Second, it does not create a new bureaucracy. The framework for the Risk Assessment Board exists in the Public Health Service which is already part of the Department of HHS and permits the expertise in occupational disease study already developed by NIOSH, a part of the Centers for Disease Control in HHS, to be more easily utilized.

Third, it does not require a huge outlay of Federal dollars. There is an authorization of $25 million for each of the first 2 years of the program. A previous review by the Congressional Budget Office notes that, even if the program were to receive the full appropriation, only about 60 percent of the money, some $15.8 million, would likely be spent in the first year.

Fourth, it does not require additional burdensome recordkeeping requirements for employers. The only required paperwork from employers is certification to the Secretary of HHS that a program is in place to provide for the testing, evaluation, and health surveillance and counseling for notified employees.

Fifth, it does not add extensive costs for employers. As I mentioned earlier, the only cost for an employer is to provide for the testing, evaluation, and health surveillance and counseling of current workers who have been notified because of an exposure that occurred while working for that employer. The employer may provide those same services to current workers whose exposure occurred while they worked for someone else, but he may pass those costs along to the employee. Further, if an employer already has a notification and health monitoring program in place, there is nothing in the bill that would prevent continuation of the program once certification is secured from the Secretary of HHS.

Sixth, it does not change the rules with regard to workmen's compensation claims or other kinds of liability, and does not guarantee any new rights insofar as either is concerned.

In the final analysis, the High Risk Occupational Disease Notification and Prevention Act of 1987 is a cost-effective, workable program which, when coupled with the Occupational Safety and Health Act of 1970, the Federal Mine Safety and Health Act of 1977, and the Farmworker Health and Safety Act of 1987—which I am also introducing today—completes the cycle for worker health and safety.

The savings to American business in preventing or reducing production losses and by trimming high health insurance premiums as well as other medical and health program costs more than overcomes any costs to employers associated with the program, which are negligible.

As I explained earlier, the Farmworker Health and Safety Act is aimed at both reducing illness and disease among those farmworkers who hand-harvest fruits, vegetables, and other crops, and providing them with the dignity they deserve.

There is no reason why farmworkers should be denied this basic right. No other workers in our society are faced with the same kind of restriction. The real tragedy is that our Secretary of Labor is still delaying action on an OSHA field sanitation standard, waiting to see what kinds of actions the individual States take. At this time, 19 States and territories have a field sanitation standard of sorts, 13 are still working on them, and another 19 have indicated they will be taking no action at all.

The Secretary says he will decide in April if there is a real need for a Federal standard. He says that if a sufficient number of States act, he won't. At the same time, however, he hasn't said what will constitute sufficient State action.

Personally, if there is any single group of workers in this country that are deserving of a national health standard, it is those farmworkers who travel from State to State. Why should they be required to memorize a host of different standards? Because they travel, they should have only one basic standard.

There is one change in the current bill. Under the new legislation, any State that already has a field sanitation standard at least as effective as the Federal standard would be able to keep that standard operational, provided the standard, with any accompanying inspection program, is certified by the Secretary of Labor.

It has been 15 years since the farmworkers began their drive to have in place a field sanitation standard. We cannot and should not wait any longer.

The High Risk Occupational Disease Notification and Prevention Act of 1987 and the Farmworker Health and Safety Act of 1987 are necessary legislation. As I noted, both are cost effective for employers because of ultimate reduced lost time due to illness.

Both programs are cost effective for government as well because a healthy work force helps us as a nation to be more competitive with other nations and reduces the drain on our health care system.

There currently is a big drain on the public health system of social security disability and Medicare to provide for those workers and their families who have died from work-related diseases or are currently disabled.

These two programs will have a positive effect on our economy, our country's ability to compete, and, most importantly, on the men and women to be served by them.

These workers deserve our assistance. I thank those Members who have signed on as original cosponsors and I urge others to join us in winning the war against workplace-caused cancers and other deadly and disabling diseases.

The battle is in our hands. If we fail, we are consigning too many American workers to unreasonable early death and disability. Now is the time to act!

□ 1730

THE AMERICAN CONSTITUTION

The **SPEAKER** pro tempore (Mr. MADIGAN). Under a previous order of the House, the gentleman from Georgia [Mr. GINGRICH] is recognized for 60 minutes.

Mr. GINGRICH. Mr. Speaker, I want to speak on this opening day of the 100th Congress as a former history teacher who also serves on the Bicentennial Commission of the Congress, looking at our own celebration, which may surprise my colleagues, will occur in 2 years. While this is the 100th Congress, that is, in fact, the end of the 200-year cycle. In 1989, we will be celebrating the actual anniversary because Congress, as we know it, first came into being in 1789, rather than in 1787.

However, 1787 is a very historic year. It was the year in which the Founding Fathers, deciding that the Articles of Confederation simply were not working, called a meeting in Philadelphia, a meeting which met in secret for 4 months, presided over by George Washington, and wrote the Constitution of the United States.

They did so because they thought they were at a point in time where America was threatened by concerns that were a function of exactly the kinds of concerns that we have. They were threatened by a currency whose value was in doubt, the Continental currency which became the Articles of Confederation money. It was paper money that was virtually worthless, and just as today we talk about the dollar rising and falling in value in the world market, in the 1780's, American money was declining rapidly in value.

The Founding Fathers were worried because the American economy was not competitive in the world market and there was a real danger that Britain, in many ways the Japan of its day, would kill American jobs and would drive us into a situation in which we were not able to protect American factories and have Americans work in the high-technology jobs of the 1780's.

Finally, the Founding Fathers were driven by a belief that if they did not act, they would find themselves in a position in which foreign governments would interfere in the independence of the 13 independent Colonies.

As we stand here, 200 years later, in what is the longest single success in modern times in terms of self-government, as we stand here on the first day of the 100th Congress, at the beginning of an era of beginning to look now at the third century of freedom and of self-government, we tend to forget what a miracle the American Constitution has been, how unusual this process of everyday folks hiring the people who have power, deciding voluntarily who will speak for them, who will vote for them, who will tax them over time.

It is, as President Reagan said in his first inaugural in 1981, one of the miracles of the modern world that in America, we swap power without violence; that in America, we choose who will decide our fate, voluntarily with the ballot, rather than a battle.

□ 1740

And as we meet today at the beginning of this 100th Congress, it is also appropriate to note that in that tradition this is the anniversary of the 1941 statement of the four freedoms by Franklin Delano Roosevelt. It was on that date in 1941 that President Roosevelt sent to the Congress his message calling for freedom of speech and expression, calling for freedom of worship, and calling for freedom from want and freedom from fear. Those were the values that President Roosevelt believed deeply were the key to America's future, the key to the world's future, for he believed, as the Declaration of Independence suggests, that it is not just the American right to be free, it is the right to be free across the planet; it is not just the American right to speak out, it is a right held by human beings across the planet; it is not just an American right to worship in the church or synagogue of your choice, to worship in the mosque of your choice, it is the right of all human beings across the planet; it is not just the right of Americans to have freedom from want and to seek prosperity, but it is the right of all human beings everywhere; and it is not just the right of Americans to be free from fear, from the fear of a neighboring country invading you, to be free from the fear of secret police, to be free from the fear of a dictator, it is the right of all human beings.

I carry us back on this first day of the 100th Congress to those two great events: 200 years ago, the development of the Constitution, and 46 years ago, the development of the four freedoms by Franklin Roosevelt, to suggest that all of us, liberal and conservative, Democrat and Republican, should take stock of where we are and know that we have a chance to turn the 100th Congress into a historic opportunity, we have a chance for the American people to lead us to that opportunity.

Let me say that all of us who were elected last year, I think, should look with a great deal of concern at those elections. In almost every election in America last year, with only a few exceptions, in almost every election more people did not vote than voted for the winner. In many elections more people did not vote than voted for the winner and the loser. On the average across this country, 39 percent of the American people voted last year, the lowest turnout since 1942 when we were in the middle of a war and many people were not home to vote.

Now, that should cause all of us who are in the business of self-government, all of us who are in the business as politicians, and our staffs and the news media that covers us, to stop and take stock. That means that while 39 percent of the American people thought what we were doing mattered, 61 percent thought that the elections and the candidates and the process were so irrelevant that it did not matter. Oh, we had headlines every day, headlines on Iran, headlines on the budget, headlines on this proposal and that proposal, but the fact is that where it mattered, in the marketplace of human beings, 61 percent, 6 out of every 10 Americans voted "no" on the whole process and said, "It isn't even worth my going down to my local school, to my local voting booth and casting my ballot. It doesn't matter."

Now, I would suggest that that should concern us because it means that as political leaders, as participants in the process of self-government, we are not dealing with problems that people think matter. We could make the argument that everything is going so well that people have no concern. But if you ride on any airplane or any train, if you go into any cafe or stop by any Sunday school or synagogue class, or talk to folks on the street or in any local mall, you will discover that they have many things they worry about. They worry about their jobs and their children. They worry about drugs, they worry about the quality of education, they worry about violence around the planet, and they worry about whether or not they will be healthy and how much being unhealthy will cost them. They worry about what will happen as they grow older. What they will say to you is that nothing the politicians of America were saying mattered.

So I want to take some time today to suggest at the beginning of this 100th Congress that the real way to make it historic is to rethink what we are doing from the ground up, just as the Founding Fathers rethought what they were doing from the ground up, to recognize that virtually all the posturing, almost all the petty politics, and almost all the ideological talk is irrelevant.

Let me suggest why that is true. We live in a world where modern technology allows those who advocate violence and terror to pursue their goals with the same speed and efficiency as those who advocate principles of self-government and freedom. As a result, the forces of tyranny and terrorism threaten the very survival of freedom as we know it.

Let me be very blunt about this as an American, as a Congressman, as a politician, and as a history teacher. We take for granted the security of our country, our neighborhoods, and ourselves, and yet in the history of the world that is crazy. All that stops us from being Afghanistan or Lebanon or Nicaragua is the wisdom and the luck of our parents and our grandparents and 200 years of preparedness. It would not take much for bombs to go off in Washington as they have in Paris, and Paris is hardly a city people think of as being backward. It would not take much for a terrorist to operate in America as they have in West Germany. The process of self-government and of freedom is very fragile. In the age of the jet airplane, of television, and of plastic explosives, the ideologies of tyranny lead people to tear apart that fabric of freedom and self-government and of physical safety. For over 40 years, an alliance of free nations has contained the Soviet empire and curtailed international terrorism.

Now, I have been moved in making this talk, frankly, after reading a very fine book called "The Wise Men," a study of men who were mostly Democrats and mostly, by the standards of conservative Republicans, fairly liberal, but men who after World War II had the courage to think about reality, to change their beliefs, and to do what they thought was necessary to preserve freedom. They created the Free World Alliance, the Marshall Plan, and the North Atlantic Treaty Organization, and they had the courage to defend Korea from communist attack in 1950.

But this Free World Alliance which they left us depends on the United States for military and economic strengths, as well as diplomatic and political leadership. Without a strong America, the Free World Alliance cannot survive. Yet today five dangerous gaps threaten to undermine our Government and our economy and thus our very ability to lead the free world. If these gaps continue to grow, they may lead to the collapse of the Free World Alliance before the end of this century. Let us consider these five gaps which have widened dangerously in recent years.

First, there is an enormous gap between the amount of Government spending we can afford and still have a strong, growing economy and the amount our Government is currently spending. If we raise taxes to close the gap between revenues and outlays, we will crush our economy in the short run. If we continue to borrow the money necessary to finance our Federal deficits, we will crush the economy in the long run and overwhelm our children and grandchildren with debt, inflation, or, in the worst case, both.

Second, there is an increasing gap between America's commitment to competing in the world market and our loss of foreign and domestic markets to foreign competitors. We are suffering from the fundamental problem that America has become less flexible, less innovative, and less competitive. We simply don't produce desirable goods and services as quickly, as efficiently, and as economically as our major competitors.

Third, there is a dramatic gap between the amount of private savings set aside for retirement and health care and the stunning increase in longevity and health care costs. When Franklin Roosevelt proposed Social Security with retirement at age 65, the average American only lived to be 63. Today the average American lives to be 74. In fact, the fastest growing age group in America is those over 85. The rising cost of retirement is compounded by the rising cost of health care. By wiping out epidemics and developing new technologies which allow heroic efforts to maintain life, we have eliminated most of the inexpensive ways in which people die. While we have improved both the quality and length of life these improvements have been reflected in the dramatic increase in the cost of health care.

□ 1750

Fourth, there is a growing gap between the take-home pay standard of living and quality of life Americans want and what they are getting. American real income went up steadily from 1945 to 1965 but has been stagnant for the last 20 years. America is a melting pot fueled by progress and prosperity. If people cannot work toward the opportunities of the American dream, many will turn toward redistributionist policies that will divert resources away from private jobs and economic growth; toward more bureaucracy and more government.

Fifth, there is a large and growing gap in the political, economic, and military policies of the nations which comprise the free world alliance. When free nations refuse to act in the face of terrorism or propose pacifism in response to Soviet aggression, the gap between the effort needed to maintain freedom and safety and the effort we now have becomes tragically clear.

We can no longer afford to simply be an alliance of governments. In an age of global television, telephones, and air travel, we must unavoidably become an alliance of free people, yet we lack the strategy and the structures necessary to sustain an alliance of free people. Indeed, we are only beginning to realize the magnitude of change this shift will require.

Let us face it: If it were not for the Soviet Empire, America could respond to the first four gaps by simply accepting decay and decline as being less challenging than change. After all, Great Britain ranked second and Argentina ranked seventh in standard of living in 1920. Today, Britain ranks 20th, and Argentina 47th. Both are continuing to decline relative to other countries. People can choose bad policies for what they consider overriding cultural, social or political values. People could decide, for example, that they like being able to backpack and they do not want to earn more money. They can decide that they like living in a neighborhood and they do not want a new expressway. They can decide that they would prefer to have a life of leisure or a life in which they never move to get a better job because they want to stay in one place and accept a lower standard of living.

But the problem that our generation has to confront is the reality that an America which refuses to close these gaps may soon become an America that is no longer safe or free. The truth is that the slow, steady increase of the Soviet Empire's military power can only be contained by an America that is economically and militarily competitive. A free world alliance built around a decaying America will soon disappear.

Let me reinforce that. If we were like Britain in 1941, we could hold the line, hoping that an America would save us. But if we grow weak, where is our savior going to come from? From Brazil? Still, I think, 50 to 100 years away from development. From Japan? An island country whose entire size of that is California?

The fact is, and everyone in our generation has to face up to this, there is a Soviet Empire, it is dangerous, and if it is to be contained, if terrorism is to be suppressed, the only people on the planet who are big enough, who are rich enough, and who are strong enough to organize a free-world alliance are the Americans.

If we quit, if we decide we cannot solve our budget deficits, we cannot solve our trade deficit and become competitive, we cannot deal with the problems of retirement and health care, we cannot face up to the need to rethink what we are doing so we reestablish our standard of living, increase the options for our people; we decide we cannot bear the burden of a worldwide alliance of free people, then the absolute reality we have to confront is that we will live in a world that is incredibly dangerous and we will give to our children and grandchildren a world of unbelievable horrors.

Unfortunately, faced with those realities and those five gaps, America today is a country whose proposed new ideas are two or three magnitudes smaller than our problems. Let me be very clear about this.

A magnitude is an enormous jump. The best example I can give is imagine that we in Washington decided to go to Los Angeles by tomorrow night. A distance of approximately 2,500 miles. The only solution to get there by tomorrow night is an airplane. You cannot take a train and get there overnight; you cannot take a car and get there overnight; you cannot walk and get there overnight.

Now, let us suppose that a politician came in who was two magnitudes too small in his proposed solution and he got up and said to the House, "Why don't we take a car and drive for a half-hour and we will be 25 miles west." That would be two magnitudes too small. We want to go 2,500 miles; he or she is offering to get us 25 miles.

Someone else came in and said, "No, no; let's walk west for an hour, we can get 2½ miles." That would be three magnitudes too small, because we are trying to reach, under this hypothetical problem, Los Angeles, 2,500 miles away by tomorrow night.

We would not have to have, in the commonsense, every-day world of real people a committee hearing on whether or not walking west 2½ miles would get us to Los Angeles. We would just say automatically, "That won't work." Nor would we have to have 5 days of committee hearings on the idea of driving west 25 miles to get to Los Angeles. We would all know, as a commonsense matter, that would not work.

Let me suggest to my colleagues and to the country that similarly every idea I have seen in the 8 years I have served in this House to get the budget under control is at least two and sometimes three magnitudes too small. It would be fine if we had a $5 billion deficit; a $10 billion deficit. It is almost irrelevant given the size deficit we have.

The ideas I have heard from those who are protectionist and those who are not about how to deal with the trade deficit are ideas that are two or three magnitudes too small. They just simply do not get the job done. They do not make America competitive again; they do not get us back in the world market. They do not solve the problem of competing with Japan and winning or competing with West Germany and winning.

Similarly, people in this House and in politics in America who run and hide from reality, who say, "Please do not tell me that the No. 1 group growing in America is people over 85 because I do not want to talk about Social Security. Please do not tell me that health care costs are going to go up every year and have under Reagan as they did under Carter, because I do not want to think about the problem."

The solutions we find in this House are not solutions; they are two or three magnitudes too small. Certainly working Americans know that the incomes they are getting are not increasing the way their parents' did. Their options are not increasing the way their parents did, and there are no significant proposals to solve that in this body or in this city.

Finally, watch the Iran Committee, watch the whole process of pursuing the question of a Marine lieutenant colonel, of a Navy admiral, as though that was the problem. The problem in America in terms of Iran and Nicaragua, in terms of the Reagan doctrine, in terms of how we lead the future, is a vastly bigger problem than the question of what did or did not happen on one particular day or another in Geneva or in Tehran or in Tel Aviv.

Trying to close magnitude gaps in the context of a Washington, bureaucratic, governmental debate is a hopeless task. Faced with this challenge and this opportunity, annual budgets and congressional subcommittees are worse than irrelevant; they are positively destructive because they absorb the time, the effort, and the thought that need to be directed to systemic solutions.

Let me say it this way: When the people who ought to be in charge of thinking about, who have been hired by the American people, the Congressmen, the Senators, the President, ought to be thinking about fundamental solutions. We instead spend our days preparing for press conferences over trivia, we spend our nights studying up for hearings over modest matters and we literally have our attention, our staffs and our schedules diverted away from what really matters so that in a sense the urgent drives away the important.

Imagine that George Washington had been convinced that an annual budget mattered more than the Constitutional Convention. Imagine that James Madison had been convinced that his congressional committee in New York mattered more than the Convention in Philadelphia. Imagine that Alexander Hamilton avoided helping write the Federalist Papers because he was busy giving speeches on each week's news events.

The focus on daily detail is fundamentally destructive in a Congress because it is the nature of a Congress to be so cumbersome and so slow and so complicated that in the long run it is only effective to look at big issues.

□ 1800

It takes a Congress so long to make up its mind, and should. We are, after all, bringing in the other 435 Members of the House and 100 Members of the Senate in order to talk about big issues. By the time we have brought this many people, each of them representing a half million citizens, get them in this large room, work through an issue, fight it out, often takes 6, 8 or 10 years. You cannot afford to deal with tiny issues if it is going to take 10 years.

To phrase it differently, elephants can afford a long time to give birth because they give very big births. Mice cannot afford that because they are not around long enough.

This Congress is by nature an elephant. It is big. It is long. It is slow. It is cumbersome. Therefore, it has no focus on big issues because those are the only things that can decide efficiently for the country at large.

Societal challenges require solutions of societalwide scope and magnitude. It is especially appropriate that we begin to develop these solutions in 1987 as we celebrate the bicentennial of the Constitution.

As I mentioned earlier, our Founding Fathers faced a crisis of similar proportion. The Articles of Confederation simply were not working. Government debt was piling up with no end in sight. Our currency was of uncertain value. Our economy was inadequately prepared for international competition. Foreign governments threatened our freedom and our security.

Faced with a societywide challenge and frustrated by several years of tinkering with ineffective results, the Founding Fathers had the courage to face the problems head on and to invent solutions as large as necessary to achieve a prosperous, safe, free America.

Dumas Malone, the great biographer of Thomas Jefferson, once commented that the Founding Fathers were different from modern politicians because they studied the past and thought about the future. We still profit from their courage and their daring efforts; yet if we study the past and think about the future, our generation must have the courage to rethink every assumption and institution we have inherited, and I mean literally every assumption and every institution we have inherited.

The first reform I have proposed in 1987 is to create a Social Security system we can count on which will be prosavings and pro-American jobs in the world market. By shifting our current Social Security system to one based on individual retirement accounts, we would increase private savings and lower interest rates. This notice is a proposal which would guarantee every person 40 years old or older the current Social Security system, but would offer those under 40 a long-term individual retirement savings which would allow them to prepare for their future and which in the very first year would create $84 billion in savings in IRA's. It would lead to a 60-percent increase in savings for America in the first year.

A prosavings policy will help shrink the budget deficit since payment on interest on the Federal debt are now the third biggest item in the Federal budget and a prosavings policy would bring down interest rates.

By shifting the current Social Security payroll tax, which is an antijobs tax applying only to American goods, we would create a pro-American jobs policy that would help our trade deficit by encouraging American exports and discouraging imports; by replacing the FICA current tax with a value-added tax which could be applied to imports and could be rebated on exports.

My point is this. If these five gaps threaten America enough that we can think through and discuss a more stable, more desirable Social Security system, then these gaps are dangerous enough to justify rethinking all of our institutions.

I deliberately chose to talk about a permanent stable Social Security system you could count on because I wanted to make the point that almost all Americans, in my judgment all Americans, are patriotic enough that if they really are worried about their country's future, there are no sacred cows. They are willing to look at anything as long as it is fair, it is out in the open, it is above board, and they know that reasonable precautions will be taken so that no one will be left in the lurch.

Now is the time to rethink our systems based on the tremendous changes underway in the world we live in.

The combined revolutions of science, technology, and management, are transforming productivity, opportunity, and possibility at a speed literally never before seen by humans.

Think of it, 84 years ago man flew for the first time. Today man has stood on the Moon and we take transoceanic supersonic travel for granted.

In 1945 the only computer in the world used vacuum tubes and was the size of a two-story building. Today desktop computers are vastly more powerful and useful than that initial machine, while costing only a tiny fraction as much. Indeed, our original computer's electric bill would buy one of today's minicomputers.

In my lifetime, we have moved from penicillin as a miracle and polio as a dread threat to biotechnologies that promise to transform both health care and agriculture. We are living through a fundamental transformation from an assembly line-industrial society to a scientific-information industrial society. This third wave of change, as Alvin Toffler called it, can be compared only to the rise of agriculture and the industrial revolution. It is truly the third great transition in human history. Yet today, virtually all our major institutions are still locked into the habits, structures, and assumptions of that earlier era.

Our military staffs are shaped more by Moltke's 1843 response to the Prussian railroad than by the reality of worldwide instantaneous global communications and multidimensional cultural, political, military conflicts. Our health care attitudes respond more to the 1910 Flexner report than to the opportunities of biotechnology, expert systems and electronic communications. Our education system is shaped more by the 1843 invention of the Massachusetts public school and the 1890's introduction to America of German graduate schools than by the lifetime learning opportunities of television, videotape, and home computers. Our civil service is in a straitjacket invented with good intentions by the 1880 reforms against the spoils system rather than in a citizen-oriented responsive mode shaped by the information, office equipment, and management revolutions of the last 30 years.

In field after field, our institutions remain resistant to the opportunities of the immediate past, uninterested about the opportunities of the present and uninformed about the opportunities of the future. In 1955, America led the world economically, culturally, politically, and militarily in large part because we were the pioneering institution in making our great transition to a scientific-information-industrial society. For a variety of reasons we lost our leadership in adapting to the new breakthroughs. It is amazing, but true, that if we had changed and learned rapidly enough to maintain our relative leadership we would today be 40 percent richer per person (and our Federal budget would be balanced).

That is, literally, if we were as far ahead of Japan today as we were, in fact, if we were as far ahead of Japan today as we were in 1955, we would in fact be four times as rich as we are.

The fact is that in 1965 the average American bought four times as much with their labor as the Japanese. Today, the Japanese buy as much as or slightly more than we do; so if we had grown at the same rate as Japan from 1965 to 1986, we would be four times as rich as we are today; but one does not have to assume that. Simply imagine that we had maintained a relative position of leadership over Sweden, Germany, South Korea, Taiwan, and Japan, a range of countries, not all in Asia, we would be so much richer per person today that our increased revenue for the Federal Government would balance the Federal budget. We would be 50 percent better educated than we are today and our defenses would be so technologically advanced that the Soviets would not be a serious threat, as indeed in 1955 they were not a serious threat.

An America that met the challenge of our scientific-information-industrial revolution would have more powerful, more flexible, less expensive health care, and educational systems. It would be an America leading the world toward the dream of freedom, prosperity and safety for all.

Our model should be Benjamin Franklin's patience and persistence in proposing a united colonies at the Albany Conventions in 1754, then helping write the Declaration of Independence in 1776 and finally participating in the Constitutional Convention of 1787. For 33 years Franklin worked as printer, writer, scientist, civic activist, businessman, colonial legislator, ambassador, and Founding Father. While none of us can be a Franklin, each of us can learn from him.

Similarly, President Reagan's role has been vital in establishing the base from which a cultural-political movement can grow. From his first nationwide speech in 1964 to his first inaugural in 1981 Ronald Reagan patiently and persistently crisscrossed America on behalf of a safe, secure, prosperous America. All of us who wish to move beyond the welfare state toward an opportunity society stand on Ronald Reagan's shoulders.

When Ronald Reagan took office in 1981, inflation was at 13 percent, interest rates were 22 percent, and our economy was on the verge of collapse. President Reagan pulled us back from the brink of economic disaster. That achievement makes him the most important President since Franklin Roosevelt. However, we cannot expect President Reagan to solve all of our problems during his remaining 2 years in office.

In a free society, no one man can create solutions for a Nation of 250 million people. Each one of us must do our part to invent an opportunity society. While Ronald Reagan is buying us the time to do the job that must be done, it is our generation that must rise to the challenge.

Our solutions must be as large and bold as the problems they are designed to address. Most politicians will back away from large, bold proposals, because they feel the American people are frightened by change. That attitude underestimates the courage and intelligence of the American people. Given adequate information and committed leadership, the American people will support dramatic changes. The American people know, as Franklin Roosevelt taught us, that "We have nothing to fear but fear itself." Indeed, the courage to accept change is the American way of life.

This was driven home to me at a meeting of the American Association of Retired Persons in Cedartown, GA.

I asked the question, "How many of you lived in a house without electricity?" Two-thirds of those attending raised their hands. Think of it. They had experienced other dramatic changes in their personal lives.

From gas lamps to electric lights, to refrigerators and freezers, air conditioners, radio, television, cable, videotape recorders, electric stoves, microwaves, washers and dryers, dish washers, the list is virtually endless and the changes were intensely personal.

Those people in Cedartown, GA, knew that life had changed, that in most ways those changes had been for the better.

The question they were willing to listen to was, what new changes are necessary and how do we Americans make them?

I would suggest that the real dividing in American politics in the next decade will be between those who maintain that we can avoid fundamental change and those who believe that we must totally rethink our welfare state.

I have no argument with those who dislike my proposed solutions and offer their own solutions. There is enough work to be done for all of us to contribute. My argument is with those who will object to my proposals, but have no positive ideas of their own. Their negativism and their nitpicking is part of the problem, not part of the solution.

Let me carry you back to that original discussion of how to get from Washington to Los Angeles in one day. There are many airlines to take. There are many kinds of airplanes to take. One can talk about which of these ways should we get to Los Angeles. That is a reasonable argument at the same level of magnitude, about the same general type of problem; but if somebody says, "I don't want to take your airline, I don't want to take your airplane, I'm going to walk," that is not a solution, and it should not be allowed to get by by pretending it is a solution. That is a cop-out.

When someone says, "I don't want to take your airplane or your airline," and then you say, "Fine. Which one do you want?"

And they say, "Let's not discuss it." That is not a solution.

The argument in American politics, whether between liberals and conservatives and between Republicans and Democrats is an argument basically between those, or should be an argument about how do we get to the right kind of solution, rather than a choice between solutions.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed a concurrent resolution of the following title, in which the concurrence of the House is requested:

S. Con. Res. 1. Concurrent resolution providing for an adjournment of the Senate and the House of Representatives.

☐ 1815

MESSAGE FROM THE SENATE

The **SPEAKER**. The Chair lays before the House the following message from the Senate.

The Clerk read as follows:

S. CON. RES. 1

Resolved by the Senate (the House of Representatives concurring), That when the Senate adjourns on Tuesday, January 6, 1987, Wednesday, January 7, 1987, Thursday, January 8, 1987, or Friday, January 9, 1987, pursuant to a motion made by the majority leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Monday, January 12, 1987, and that when the House of Representatives adjourns on Thursday, January 8, 1987, pursuant to a motion made by the majority leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Tuesday, January 20, 1987, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House, after consultation with the minority leader of the House, shall notify the Members of the House to reassemble whenever, in his opinion, the public interest shall warrant it.

The **SPEAKER**. The question is on the Senate concurrent resolution.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

APPOINTMENT AS MEMBERS OF HOUSE OFFICE BUILDING COMMISSION

The **SPEAKER**. Pursuant to the provisions of 40 United States Code, 175 and 176, the Chair appoints the gentleman from Washington [Mr. FOLEY], and the gentleman from Illinois [Mr. MICHEL], as members of the House Office Building Commission to serve with himself.

The gentleman from Georgia [Mr. GINGRICH] is recognized to complete his special order.

THE AMERICAN CONSTITUTION

Mr. **GINGRICH**. Mr. Speaker, let me take just one moment to congratulate you on what I know is a high honor, and in this House the highest honor we can pay any Member. I look forward to working with you in these coming 2 years.

Mr. Speaker, let me just go on to say that the real question that we face in the 100th Congress, the real question we are going to face in the Presidential races in both parties, is an argument I think between the future and the past, rather than between just the right and the left. It is an argument about whether we need to have solutions large enough to be real, or whether America can be healthy while avoiding the challenge of the five gaps I outline.

Let me move back toward concluding by reminding people about the scale of those gaps: A huge budget deficit at the Federal level, one which threatens in the long run to undermine our currency and to crush our children with enormous debt; an enormous trade deficit, because we are simply not competitive in the world market at the present time, one which threatens to impoverish our country and make us poorer and poorer, year by year, while killing jobs; an enormous difference between the amount of time people used to live, and the amount of time they are going to live in the future. I saw recently that it was estimated that the last baby-boomer would be alive in the year 2069. As people live longer, as more of us live longer, as health care becomes better, we are finding ourselves caught in a trap where we don't save enough while we are productive to take care of ourselves later. When the baby-boom generation starts to retire, that problem will become catastrophic unless we confront it today.

Fourth, a tremendous difference between the American dream our parents went after, the kind of life they expected, the increase in income they hoped for, and where we are. If we are going to have a good, clean environment—and I used to teach environmental studies—that is going to take more resources. If we are going to be able to rebuild our infrastructure of highways and ports and dams, that is going to take real resources. If we are going to be able to make sure that every child gets the best possible education, that is going to take real resources. And if we are not growing economically, if we are not creating the new technology and the new jobs, if we are not competing in the world market, we are not going to have those resources.

Finally, the unavoidable reality that we share this planet with terrorists who would kill us and disrupt our civilization, and with a Soviet empire that would conquer us and eliminate our civilization.

How do we remain prosperous enough to hold ourselves together as a society? How do we adjust to the reality of aging? How do we balance our Federal budget? How do we become competitive in the world market, and do all four of those while maintaining a free-world alliance that contains the Soviet empire?

Those of us who believe that America faces real challenges will find the American people intuitively agree and are hungry for leadership. Those who believe the liberal welfare state can continue on without major changes will find the American people skeptical and disbelieving. The American people know that each generation must earn the right to be free, prosperous, and safe.

Let me make a suggestion to my colleagues. The 61 percent who stayed home knew that in 1986 neither Republicans nor Democrats, neither liberals or conservatives, were talking about the fundamental big issues that will shape the future. The 61 percent who stayed home knew that no one had had the courage yet to break out of the language of Washington, of the mind-set of Washington, of the straitjacket of Washington, and talk candidly about just how much change it would take.

Ronald Reagan, in his first inaugural in 1981, said "We have every right to dream heroic dreams, after all, we are Americans." The President knows that being an American is not a function of color, sex, or nationality. President Reagan knows and most Americans will agree that being an American is a process, a set of principles, and a way of pursuing personal happiness while working together for the common good.

Over the coming weeks, I will offer a series of proposals for fundamental change, change that will affect every aspect of American life, change that will allow us to close these gaps, change that will lead to the kind of opportunity society government in the nineties that will allow us to rebuild and reestablish freedom first for the alliance of freedom, and then for all human beings.

These proposals will be offered in the belief that the overwhelming majority of Americans are ready to face reality, to think through solutions, and to work to maintain the right to dream heroic dreams, and more importantly, the ability to give our children the right to dream heroic dreams.

Let me close with Benjamin Franklin's admonition at the close of the Constitutional Convention. "To get the bad customs of a country changed," he wrote, "and new ones, though better, introduced, it is necessary first to remove the prejudices of the people, enlighten their ignorance, and convince them that their interests will be promoted by the proposed changes, and this is not the work of a day."

In the spirit of 200 years ago, this 100th Congress has the opportunity, an historic opportunity, to begin that process which Benjamin Franklin described to once again reaffirm our right, as President Reagan said, to dream heroic dreams.

GENERAL LEAVE

Mr. GEKAS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the special order of the gentleman from New York [Mr. FISH] on today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

APPOINTMENTS MADE BY THE SPEAKER AFTER SINE DIE ADJOURNMENT

The SPEAKER. Pursuant to the order of the House of October 18, 1986, empowering the Speaker to appoint commissions, boards, and committees authorized by law or by the House, the Speaker did on December 15, pursuant to section 4302 of Public Law 99-570, appoint the Honorable James Shannon of Lawrence, MA, as a member of the National Trust for Drug-Free Youth.

Pursuant to the order of the House of October 18, 1986, empowering the Speaker to appoint commissions, boards, and committees authorized by law or by the House, the Speaker did, pursuant to section 2(b) of Public Law 98-183, on December 15 appoint Ms. Mary Frances Berry of Washington, DC, as a member of the Commission on Civil Rights.

Pursuant to the order of the House of October 18, 1986, empowering the Speaker to appoint commissions, boards, and committees authorized by law or by the House, the Speaker did, pursuant to section 304 of Public Law 99-603, on December 29 appoint the following individuals to serve as members of the Commission on Agricultural workers:

Archbishop Roger Mahony of Los Angeles, CA; and

Ms. Dolores Huerta of Keene, CA.

Pursuant to the order of the House of October 18, 1986, empowering the Speaker to appoint commissions, boards, and committees authorized by law or by the House, the Speaker did, pursuant to section 601 of Public Law 99-603, on December 29 appoint the following individuals to serve as members of the Commission for the Study of Migration and Cooperative Economic Development:

Gov. Toney Anaya of the State of New Mexico;

Mr. Garner J. Cline of McLean, VA; and

Mr. Timothy S. Healy of Washington, DC.

Pursuant to the order of the House of October 18, 1986, empowering the Speaker to appoint commissions, boards, and committees authorized by law or by the House, the Speaker did on December 15, pursuant to section 203 of Public Law 99-660, appoint the gentleman from Georgia [Mr. ROWLAND] as a member of the National Commission to Prevent Infant Mortality on the part of the House.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. GEKAS) to revise and extend their remarks and include extraneous material:)

Mr. DANNEMEYER, for 60 minutes, today.

Mr. GEKAS, for 5 minutes, today.

Mr. FISH, for 5 minutes, today.

Mr. GINGRICH, for 60 minutes, today.

(The following Members (at the request of Mr. HUBBARD) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.

Mr. PANETTA, for 5 minutes, today.

Mr. STARK, for 5 minutes, today.

Mr. GONZALEZ, for 5 minutes, today.

Mr. BROOKS, for 5 minutes, today.

Mr. GAYDOS, for 60 minutes, today.

Mr. GAYDOS, for 60 minutes, on January 7.

(The following Members (at the request of Mr. GINGRICH) to revise and extend their remarks and include extraneous material:)

Mr. GAYDOS, for 60 minutes, on January 20.

Mr. GAYDOS, for 60 minutes, on January 21.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. OBEY, and to include extraneous matter, notwithstanding the fact that it exceeds two pages of the RECORD and is estimated by the Public Printer to cost $1,350.

(The following Members (at the request of Mr. GEKAS) and to include extraneous matter:)

Mr. MCKINNEY in two instances.

Mr. GILMAN in five instances.

Mr. DORNAN of California.

Mr. THOMAS of California.

Mr. GREEN in two instances.

Mr. COURTER in two instances.

Mr. GRADISON.

Mr. SCHULZE.

Mr. Young of Alaska.
Mr. Clinger.
Mr. Coats.
Mr. Daub.
Mr. Shumway in two instances.
Mr. Sensenbrenner.
Mr. Quillen.
Mr. Fields.
Mr. Badham in three instances.
Mr. Lagomarsino.
Mr. Broomfield in two instances.
Mr. Roth in 10 instances.
Mr. McDade in three instances.
Mr. Pursell in two instances.
Mr. Frenzel in five instances.
Mr. Goodling.
Mr. Dreier of California.
Mr. Lent.
Mr. Horton.
Mr. Miller of Ohio in six instances.
Mr. Gallo in two instances.
Mr. Hammerschmidt in two instances.
Mr. Dannemeyer.

(The following Members (at the request of Mr. Hubbard) and to include extraneous matter:)

Mr. Rostenkowski.
Mr. Hoyer in five instances.
Mr. Frank.
Mrs. Lloyd in five instances.
Mr. Ackerman.
Mr. Anderson in 10 instances.
Mr. Gonzalez in 10 instances.
Mr. Hamilton in 10 instances.
Mr. Brown of California in 10 instances.
Mr. Annunzio in six instances.
Mr. Jones of Tennessee in 10 instances.
Mr. Boner of Tennessee in five instances.
Mr. de la Garza in 10 instances.
Mr. Roe.
Mr. Jones of North Carolina.
Mr. Scheuer.
Mr. Fazio.
Mr. Kastenmeier.
Mr. Matsui.
Mr. Stark in three instances.
Mr. Kostmayer.
Mr. Smith of Florida.
Mr. Howard in two instances.
Mr. Kildee in two instances.
Mr. Anthony.
Mr. Swift in two instances.
Mrs. Schroeder in three instances.
Mr. Udall in four instances.
Mr. Boner of Tennessee.
Mr. St Germain in two instances.
Mr. Roybal.
Mr. Mineta in five instances.
Mr. Coelho.
Mr. Beilenson.
Mr. Clay in two instances.
Mr. Biaggi in 20 instances.
Mr. Bryant in six instances.
Mr. Dellums.
Mr. Barnard.
Mr. Leland.
Mr. Clay.
Mr. Weiss in six instances.
Mr. Miller of California.
Mr. Oberstar in four instances.
Mr. Levine of California.
Mr. Obey.
Mr. Lehman of California.
Mrs. Boggs.
Mr. Yatron.
Mr. Brooks.

ADJOURNMENT

Mr. GINGRICH. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 6:25 p.m.), the House adjourned until tomorrow, Wednesday, January 7, 1987, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

1. A letter from the Director, Office of Management and Budget, transmitting a Soil Conservation Service plan for the Lower Des Plaines Tributaries, IL, pursuant to 16 U.S.C. 1005; to the Committee on Agriculture.

2. A letter from the Secretary of Agriculture, transmitting a report on agricultural research, extension, and teaching activities for 1985, pursuant to 7 U.S.C. 3125; to the Committee on Agriculture.

3. A letter from the Assistant Secretary for Health, Department of HHS; Assistant Secretary for Science and Education, Department of Agriculture, transmitting a fourth progress report on the Human Nutrition Research and Information Management [HNRIM] System, covering the period July 1985 through June 1986, pursuant to Public Law 97-98, section 1427; to the Committee on Agriculture.

4. A letter from the Principal Deputy Assistant Secretary of Defense (Comptroller), transmitting a report of the value of property, supplies, and commodities provided by the Berlin Magistrate for the quarter July 1, 1986 through September 30, 1986, pursuant to Public Law 99-190, section 8014 (99 Stat. 1205); to the Committee on Appropriations.

5. A letter from the Comptroller General of the United States, transmitting information concerning the President's first special message for fiscal year 1987 and a review of all impoundments contained in that message, pursuant to 2 U.S.C. 685 (H. Doc. No. 100-08); to the Committee on Appropriations and ordered to be printed.

6. A letter from the Architect of the Capitol, transmitting a report of all expenditures during the period April 1, 1986 through September 30, 1986, from the moneys appropriated to the Architect of the Capitol, pursuant to 40 U.S.C. 162b; to the Committee on Appropriations.

7. A letter from the Director, Office of Management and Budget, transmitting a cumulative report on rescissions and deferrals of budget authority as of December 1, 1986, pursuant to 2 U.S.C. 685(e) (H. Doc. No. 100-10); to the Committee on Appropriations and ordered to be printed.

8. A letter from the Executive Associate Director, Office of Management and Budget, transmitting notification that the appropriation to the Veteran's Administration for "Compensation and Pensions" has been reapportioned on a basis that indicates the necessity for a supplemental estimate of the appropriation, pursuant to 31 U.S.C. 1515(b)(2); to the Committee on Appropriations.

9. A letter from the Secretary of Defense, transmitting a report of a violation of title 31, section 1341(a)(1)(A), by the Department of the Air Force, which prohibits obligation of funds before an appropriation is made unless authorized by law, pursuant to 31 U.S.C. 1351; to the Committee on Appropriations.

10. A letter from the Secretary of Defense, transmitting three reports of violations of title 31, United States Code, section 1517, by the Department of the Navy, which prohibits the obligation or expenditure of funds in excess of an apportionment or a subdivision of an apportionment, pursuant to 31 U.S.C. 1517(b); to the Committee on Appropriations.

11. A letter from the director, the office of Management and Budget, transmitting a cumulative report on rescissions and deferrals of budget authority as of November 1, 1986, pursuant to 2 U.S.C. 685(e) (H.Doc. No. 100-9); to the Committee on Appropriations and ordered to be printed.

12. A letter from the Assistant Secretary of Defense (Comptoller), transmitting a listing of contract award dates for the period January 1, 1987 to February 28, 1987, Pursuant to 10 U.S.C. 139(b); to the Committee on Armed Services.

13. A letter from the Assistant Secretary of Defense (Comptroller), transmitting the selected acquisition reports [SAR's] and SAR summary tables for the quarter ending September 30, 1986, pursuant to 10 U.S.C 139a(b)(1) and (f) (96 Stat. 740); to the Committee on Armed Services.

14. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a listing of supplemental contract award dates for the period November 1, 1986 to December 30, 1986, pursuant to 10 U.S.C. 139(b); to the Comptroller on Armed Services.

15. A letter from the Assistant Secretary of Defense (Comptroller), transmitting notification of the plan to study the conversion to contractor performance of various functions at the Navy activities listed, pursuant to 10 U.S.C. 2304 nt; to the Committee on Armed Services.

16. A letter from the Assistant Secretary of Defense, Force Management and Personnel, Department of Defense, transmitting a report on the audit of the American Red Cross for the year ending June 30, 1986, pursuant to 36 U.S.C. 6; to the Committee on Armed Services.

17. A letter from the Director, Defense Security Assistance Agency, transmitting a copy of the Department of the Air Force's proposed letter(s) of offer to Turkey for defense articles estimated to cost $50 million or more (Transmittal No. 87-08), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

18. A letter from the Director, Defense Security Assistance Agency, transmitting a copy of the Department of the Army's proposed letter(s) of offer to the People's Republic of China for defense articles estimated to cost $50 million or more (Transmittal No. 87-01), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

19. A letter from the Director, Defense Security Assistance Agency, transmitting a copy of the Department of the Navy's proposed letter(s) of offer to Greece for defense articles estimated to cost $50 million or more (Transmittal No. 87-05), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

20. A letter from the Director, Defense Security Assistance Agency, transmitting a copy of the Department of the Air Force's proposed letter(s) of offer to the Federal Republic of Germany for defense articles estimated to cost $50 million or more (Transmittal No. 87-11), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

21. A letter from the Principal Deputy Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the decision to convert to contractor performance the installation support function at Fort Hamilton, NY, pursuant to 10 U.S.C. 2304 nt; to the Committee on Armed Services.

22. A letter from the Principal Deputy Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the decision to convert to contractor performance the commissary shelf stocking function at Fort Bliss, TX, pursuant to 10 U.S.C. 2304 nt; to the Committee on Armed Services.

23. A letter from the Acting Director, Selective Service System, transmitting the Selective Service System's semiannual report; to the Committee on Armed Services.

24. A letter from the Deputy Assistant Secretary of Defense (Comptroller Administration), transmitting notification of the Department of the Air Force's decision to exercise the provision for exclusion of the clause concerning examination of records by the Comptroller General from a proposed contract with the Government of Morocco concerning adaptation and maintenance of petroleum facilities at Mohammedia, pursuant to 10 U.S.C. 2313(c); to the Committee on Armed Services.

25. A letter from the Director, Federal Emergency Management Agency, transmitting the materials for operation of the national defense stockpile for the period October 1985 through March 1986, pursuant to 50 U.S.C. 98h-2(b); to the Committee on Armed Services.

26. A letter from the Secretary of Housing and Urban Development, transmitting the third report on the Rental Rehabilitation Program covering fiscal year 1986, pursuant to 42 U.S.C. 1437o(n) (September 1, 1937, ch. 896, sec. 17(n) (97 Stat. 1206)); to the Committee on Banking, Finance and Urban Affairs.

27. A letter from the Assistant Secretary of the Treasury (Legislative Affairs), transmitting a report on the effects of IMF-imposed stabilization programs on basic human needs in countries to which loans are made by the Fund, pursuant to 22 U.S.C. 286e-9(b); to the Committee on Banking, Finance and Urban Affairs.

28. A letter from the Chairman, Board of Directors, Federal Deposit Insurance Corporation, transmitting the fourth annual report of net worth certificates purchased, pursuant to 12 U.S.C. 1823 nt.; to the Committee on Banking, Finance and Urban Affairs.

29. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-217, "Inheritance and Estate Tax Revision Act of 1986", pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

30. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-218, "D.C. Employees Child Care Facilities Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

31. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-219, "Education in Partnership with Technology Corporation Establishment Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

32. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-220, "D.C. Enterprise Zone Study Commission Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

33. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-221, "D.C. Interior Licensure Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

34. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-222, "State Energy Plans Submission Requirement Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

35. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-223, "D.C. Mental Health Information Act of 1978 Temporary Amendment Act of 1986", pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

36. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-224, "D.C. Legislature Compensation Comparability Amendment Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

37. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 6-225, "Closing of a Segment of G Street, N.W., Adjacent to Squares 565 and 567, S.O. 84-251, Act of 1986", and report, pursuant to D.C. Code sec. 1-233(c)(1); to the Committee on the District of Columbia.

REGULATION OF LOBBYING ACT

In compliance with Public Law 601, 79th Congress, title III, Regulation of Lobbying Act, section 308(b), which provides as follows:

(b) All information required to be filed under the provisions of this section with the Clerk of the House of Representatives and the Secretary of the Senate shall be compiled by said Clerk and Secretary, acting jointly, as soon as practicable after the close of the calendar quarter with respect to which such information is filed and shall be printed in the CONGRESSIONAL RECORD.

The Clerk of the House of Representatives and the Secretary of the Senate jointly submit their report of the compilation required by said law and have included all registrations and quarterly reports received.

REGISTRATIONS

The following registrations were submitted for the third calendar quarter 1986:

(NOTE.—The form used for report is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

	(Mark one square only)			

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:

(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)

(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".

(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:

(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.

(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§ 302(e).

(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).

(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, ☐ place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report.◆

AFFIDAVIT

QUARTERLY REPORTS*

*All alphanumeric characters and monetary amounts refer to receipts and expenditures on page 2, paragraphs D and E of the Quarterly Report Form.

The following quarterly reports were submitted for the third calendar quarter 1986:

(NOTE.—The form used for reporting is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19.......... ◆

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:

(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)

(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".

(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:

(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.

(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§302(e).

(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).

(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, ☐ place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report.◆

AFFIDAVIT

[Omitted in printing]

PAGE 1 ◆

NOTE ON ITEM "D."—(*a*) *In General.* The term "contribution" includes *anything of value.* When an organization or individual uses printed or duplicated matter in a campaign attempting to influence legislation, money received by such organization or individual—for such printed or duplicated matter—is a "contribution." "The term 'contribution' includes a gift, subscription, loan, advance, or deposit of money, or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make a contribution"—Section 302(a) of the Lobbying Act.

(*b*) IF THIS REPORT IS FOR AN EMPLOYER.—(i) *In General.* Item "D" is designed for the reporting of all receipts from which expenditures are made, or will be made, in accordance with legislative interests.

(ii) *Receipts of Business Firms and Individuals.*—A business firm (or individual) which is subject to the Lobbying Act by reason of expenditures which it makes in attempting to influence legislation—but which has no funds to expend except those which are available in the ordinary course of operating a business not connected in any way with the influencing of legislation—will have no receipts to report, even though it does have expenditures to report.

(iii) *Receipts of Multipurpose Organizations.*—Some organizations do not receive any funds which are to be expended solely for the purpose of attempting to influence legislation. Such organizations make such expenditures out of a general fund raised by dues, assessments, or other contributions. The percentage of the general fund which is used for such expenditures indicates the percentage of dues, assessments, or other contributions which may be considered to have been paid for that purpose. Therefore, in reporting receipts, such organizations may specify what that percentage is, and report their dues, assessments, and other contributions on that basis. However, each contributor of $500 or more is to be listed, regardless of whether the contribution was made solely for legislative purposes.

(*c*) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE.—(i) *In General.* In the case of many employees, all receipts will come under Items "D 5" (received for services) and "D 12" (expense money and reimbursements). In the absence of a clear statement to the contrary, it will be presumed that your employer is to reimburse you for all expenditures which you make in connection with legislative interests.

(ii) *Employer as Contributor of $500 or More.*—When your contribution from your employer (in the form of salary, fee, etc.) amounts to $500 or more, it is not necessary to report such contribution under "D 13" and "D 14," since the amount has already been reported under "D 5," and the name of the "employer" has been given under Item "B" on page 1 of this report.

D. RECEIPTS (INCLUDING CONTRIBUTIONS AND LOANS):

Fill in every blank. If the answer to any numbered item is "None," write "None" in the space following the number.

Receipts (other than loans)

1. $..............Dues and assessments
2. $..............Gifts of money or anything of value
3. $..............Printed or duplicated matter received as a gift
4. $..............Receipts from sale of printed or duplicated matter
5. $..............Received for services (e.g., salary, fee, etc.)
6. $..............TOTAL for this Quarter (Add items "1" through "5")
7. $..............Received during previous Quarters of calendar year
8. $..............TOTAL from Jan. 1 through this Quarter (Add "6" and "7")

Loans Received

"The term 'contribution' includes a . . . *loan* . . ."—Sec. 302(a).

9. $..............TOTAL now owed to others on account of loans
10. $..............Borrowed from others during this Quarter
11. $..............Repaid to others during this Quarter

12. $..............."Expense money" and Reimbursements received this Quarter

Contributors of $500 or more
(from Jan. 1 through this Quarter)

13. Have there been such contributors?

Please answer "yes" or "no": ....

14. In the case of each contributor whose contributions (including loans) during the "period" from January 1 through the last days of this Quarter total $500 or more:

Attach hereto plain sheets of paper, approximately the size of this page, tabulate data under the headings "Amount" and "Name and Address of Contributor"; and indicate whether the last day of the period is March 31, June 30, September 30, or December 31. Prepare such tabulation in accordance with the following example:

Amount	*Name and address of Contributor* (*"Period"* from Jan. 1 through.............................., 19.......)
$1,500.00	John Doe, 1621 Blank Bldg., New York, N.Y.
$1,785.00	The Roe Corporation, 2511 Doe Bldg., Chicago, Ill.
$3,285.00	TOTAL

NOTE ON ITEM "E".—(*a*) *In General.* "The term 'expenditure' includes a payment, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure"—Section 302(b) of the Lobbying Act.

(*b*) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE. In the case of many employees, all expenditures will come under telephone and telegraph (Item "E 6") and travel, food, lodging, and entertainment (Item "E 7").

E. EXPENDITURES (INCLUDING LOANS) in connection with legislative interests:

Fill in every blank. If the answer to any numbered item is "None," write "None" in the spaces following the number.

Expenditures (other than loans)

1. $..............Public relations and advertising services
2. $..............Wages, salaries, fees, commissions (other than item "1")
3. $..............Gifts or contributions made during Quarter
4. $..............Printed or duplicated matter, including distribution cost
5. $..............Office overhead (rent, supplies, utilities, etc.)
6. $..............Telephone and telegraph
7. $..............Travel, food, lodging, and entertainment
8. $..............All other expenditures
9. $..............TOTAL for this Quarter (Add "1" through "8")
10. $..............Expended during previous Quarters of calendar year
11. $..............TOTAL from January 1 through this Quarter (Add "9" and "10")

Loans Made to Others

"The term 'expenditure' includes a . . . *loan* . . ."—Sec. 302(b).

12. $..............TOTAL now owed to person filing
13. $..............Lent to others during this Quarter
14. $..............Repayment received during this Quarter

15. Recipients of Expenditures of $10 or More

In the case of expenditures made during this Quarter by, or on behalf of the person filing: Attach plain sheets of paper approximately the size of this page and tabulate data as to expenditures under the following heading: "Amount," "Date or Dates," "Name and Address of Recipient," "Purpose." Prepare such tabulation in accordance with the following example:

Amount	*Date or Dates—Name and Address of Recipient—Purpose*
$1,750.00	7-11: Roe Printing Co., 3214 Blank Ave., St. Louis, Mo.—Printing and mailing circulars on the "Marshbanks Bill."
$2,400.00	7-15, 8-15, 9-15: Britten & Blaten, 3127 Gremlin Bldg., Washington, D.C.—Public relations service at $800.00 per month.
$4,150.00	TOTAL

QUARTERLY REPORTS*

*All alphanumeric characters and monetary amounts refer to receipts and expenditures on page 2, paragraphs D and E of the Quarterly Report Form.

The following reports for the second calendar quarter of 1986 were received too late to be included in the published reports for that quarter:

(NOTE.—The form used for report is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19.......... ◆

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:

(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)

(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".

(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:

(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.

(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§ 302(e).

(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).

(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, ☐ place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report. ◆

AFFIDAVIT

[Omitted in printing]

PAGE 1 ◆

Note on Item "D."—(*a*) *In General.* The term "contribution" includes *anything of value.* When an organization or individual uses printed or duplicated matter in a campaign attempting to influence legislation, money received by such organization or individual—for such printed or duplicated matter—is a "contribution." "The term 'contribution' includes a gift, subscription, loan, advance, or deposit of money, or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make a contribution"—Section 302(a) of the Lobbying Act.

(*b*) If This Report Is for an Employer.—(i) *In General.* Item "D" is designed for the reporting of all receipts from which expenditures are made, or will be made, in accordance with legislative interests.

(ii) *Receipts of Business Firms and Individuals.*—A business firm (or individual) which is subject to the Lobbying Act by reason of expenditures which it makes in attempting to influence legislation—but which has no funds to expend except those which are available in the ordinary course of operating a business not connected in any way with the influencing of legislation—will have no receipts to report, even though it does have expenditures to report.

(iii) *Receipts of Multipurpose Organizations.*—Some organizations do not receive any funds which are to be expended solely for the purpose of attempting to influence legislation. Such organizations make such expenditures out of a general fund raised by dues, assessments, or other contributions. The percentage of the general fund which is used for such expenditures indicates the percentage of dues, assessments, or other contributions which may be considered to have been paid for that purpose. Therefore, in reporting receipts, such organizations may specify what that percentage is, and report their dues, assessments, and other contributions on that basis. However, each contributor of $500 or more is to be listed, regardless of whether the contribution was made solely for legislative purposes.

(*c*) If This Report Is for an Agent or Employee.—(i) *In General.* In the case of many employees, all receipts will come under Items "D 5" (received for services) and "D 12" (expense money and reimbursements). In the absence of a clear statement to the contrary, it will be presumed that your employer is to reimburse you for all expenditures which you make in connection with legislative interests.

(ii) *Employer as Contributor of $500 or More.*—When your contribution from your employer (in the form of salary, fee, etc.) amounts to $500 or more, it is not necessary to report such contribution under "D 13" and "D 14," since the amount has already been reported under "D 5," and the name of the "employer" has been given under Item "B" on page 1 of this report.

D. Receipts (Including Contributions and Loans):

Fill in every blank. If the answer to any numbered item is "None," write "None" in the space following the number.

Receipts (other than loans)

1. $..............Dues and assessments
2. $..............Gifts of money or anything of value
3. $..............Printed or duplicated matter received as a gift
4. $..............Receipts from sale of printed or duplicated matter
5. $..............Received for services (e.g., salary, fee, etc.)
6. $..............Total for this Quarter (Add items "1" through "5")
7. $..............Received during previous Quarters of calendar year
8. $..............Total from Jan. 1 through this Quarter (Add "6" and "7")

Loans Received

"The term 'contribution' includes a . . . *loan* . . ."—Sec. 302(a).

9. $..............Total now owed to others on account of loans
10. $..............Borrowed from others during this Quarter
11. $..............Repaid to others during this Quarter

---

12. $..............."Expense money" and Reimbursements received this Quarter

Contributors of $500 or more
(from Jan. 1 through this Quarter)

13. Have there been such contributors?

Please answer "yes" or "no": ....

14. In the case of each contributor whose contributions (including loans) during the "period" from January 1 through the last days of this Quarter total $500 or more:

Attach hereto plain sheets of paper, approximately the size of this page, tabulate data under the headings "Amount" and "Name and Address of Contributor"; and indicate whether the last day of the period is March 31, June 30, September 30, or December 31. Prepare such tabulation in accordance with the following example:

Amount	*Name and address of Contributor*
	(*"Period"* from Jan. 1 through.............................., 19.......)
$1,500.00	John Doe, 1621 Blank Bldg., New York, N.Y.
$1,785.00	The Roe Corporation, 2511 Doe Bldg., Chicago, Ill.
$3,285.00	Total

Note on Item "E".—(*a*) *In General.* "The term 'expenditure' includes a payment, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure"—Section 302(b) of the Lobbying Act.

(*b*) If This Report Is for an Agent or Employee. In the case of many employees, all expenditures will come under telephone and telegraph (Item "E 6") and travel, food, lodging, and entertainment (Item "E 7").

E. Expenditures (Including Loans) in connection with legislative interests:

Fill in every blank. If the answer to any numbered item is "None," write "None" in the spaces following the number.

Expenditures (other than loans)

1. $..............Public relations and advertising services
2. $..............Wages, salaries, fees, commissions (other than item "1")
3. $..............Gifts or contributions made during Quarter
4. $..............Printed or duplicated matter, including distribution cost
5. $..............Office overhead (rent, supplies, utilities, etc.)
6. $..............Telephone and telegraph
7. $..............Travel, food, lodging, and entertainment
8. $..............All other expenditures
9. $..............Total for this Quarter (Add "1" through "8")
10. $..............Expended during previous Quarters of calendar year
11. $..............Total from January 1 through this Quarter (Add "9" and "10")

Loans Made to Others

"The term 'expenditure' includes a . . . *loan* . . ."—Sec. 302(b).

12. $..............Total now owed to person filing
13. $..............Lent to others during this Quarter
14. $..............Repayment received during this Quarter

15. Recipients of Expenditures of $10 or More

In the case of expenditures made during this Quarter by, or on behalf of the person filing: Attach plain sheets of paper approximately the size of this page and tabulate data as to expenditures under the following heading: "Amount," "Date or Dates," "Name and Address of Recipient," "Purpose." Prepare such tabulation in accordance with the following example:

Amount	*Date or Dates—Name and Address of Recipient—Purpose*
$1,750.00	7-11: Roe Printing Co., 3214 Blank Ave., St. Louis, Mo.—Printing and mailing circulars on the "Marshbanks Bill."
$2,400.00	7-15, 8-15, 9-15: Britten & Blaten, 3127 Gremlin Bldg., Washington, D.C.—Public relations service at $800.00 per month.
$4,150.00	Total

Organization or Individual Filing	Employer/Client	Receipts	Expenditures

SENATE—*Tuesday, January 6, 1987*

The sixth day of January being the day prescribed by House Joint Resolution 755 for the meeting of the 1st session of the 100th Congress, the Senate assembled in its Chamber at the Capitol, at 12 noon.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

***For promotion cometh neither from the East, nor from the West, nor from the South; but God is the judge; He putteth down one and setteth up another*—Psalms 75:6-7.**

Eternal God, Supreme Lord of history and Ruler of the nations, make Your presence felt at this significant hour in the Senate of the United States.

In the light of Your truth from the psalmist, in the spirit of the finest intentions of our founders, and in the context of this consummately critical hour in domestic and world affairs, may this swearing-in ceremony represent the ultimate in statesmanship and political commitment. As the Senators make their sober pledge, may the reality of divine appointment and the trust of the people be pervasive.

We commend to Your gracious care the President and the First Lady. Give to them Your peace and to him rapid and total recovery.

In the name of Him who is truth and justice incarnate. Amen.

CREDENTIALS

The VICE PRESIDENT. The Chair lays before the Senate the credentials of 34 Senators elected to 6-year terms beginning on January 3, 1987, and the credentials of one Senator elected for an unexpired term. All certificates, the Chair is advised, are in the form suggested by the Senate or contain all the essential requirements of the form suggested by the Senate.

If there be no objection, the reading of the 35 certificates will be waived, and they will be printed in full in the RECORD.

The documents ordered to be printed in the RECORD are as follows:

STATE OF NORTH CAROLINA

CERTIFICATE OF ELECTION FOR UNEXPIRED TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Terry Sanford was duly chosen by the qualified electors of the State of North Carolina a Senator for the unexpired term ending at noon on the 3rd day of January, 1987, to fill the vacancy in the representation from said State in the Senate of the United States caused by the death of Senator John East.

Witness: His excellency our governor, and our seal hereto affixed at Raleigh this 21st day of November, in the year of our Lord, 1986.

JAMES G. MARTIN,
Governor.

STATE OF WASHINGTON

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, nineteen hundred and eighty-six, Brock Adams was duly chosen by the qualified electors of the State of Washington a Senator from said state to represent said state in the Senate of the United States for a term of six years, beginning on the third day of January, nineteen hundred and eighty-seven.

In witness whereof, I have hereunto set my hand and caused the Seal of the State of Washington to be affixed at Olympia this 4th of December, A.D., nineteen hundred and eighty-six.

BOOTH GARDNER,
Governor of Washington.

STATE OF MISSOURI

CERTIFICATE OF ELECTION FOR UNITED STATES SENATOR, SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Christopher (Kit) Bond was duly chosen by the qualified electors of the State of Missouri a Senator to represent Missouri in the United States Senate for a term of six years, beginning on the 3rd day of January, 1987.

In testimony whereof, I hereunto set my hand and cause to be affixed the Great Seal of the State of Missouri, in the City of Jefferson, this 5th day of December, 1986.

JOHN ASHCROFT,
Governor.

STATE OF LOUISIANA

ELECTION PROCLAMATION

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, John Breaux was duly chosen by the qualified electors of the State of Louisiana a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 1987.

Witness: His excellency our governor Edwin W. Edwards, and our seal hereto affixed at the City of Baton Rouge this 17th day of November, 1986.

EDWIN W. EDWARDS,
Governor of Louisiana.

STATE OF ARKANSAS

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, 1986, the Honorable Dale Bumpers was duly chosen by the qualified electors of the State of Arkansas as a Senator from said State to represent said State in the Senate of the United States for a term of six years, beginning on the 3rd day of January, 1987, the vote being:

Honorable Dale Bumpers, 433,122; Asa Hutchinson, 262,313; Ralph Forbes, 52.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Arkansas to be affixed at the Capitol in Little Rock on this 20th day of December in the year of our Lord nineteen hundred eighty-six.

BILL CLINTON,
Governor.

STATE OF NORTH DAKOTA

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Kent Conrad was duly chosen by the qualified electors of the State of North Dakota a Senator from said State to represent said State in the Senate of the United States for a term of six years, beginning on the 3rd day of January, 1987.

Witness: His excellency our governor George A. Sinner, and our seal hereto affixed at Bismarck this 19th day of November in the year of our Lord 1986.

GEORGE A. SINNER,
Governor.

STATE OF CALIFORNIA

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Alan Cranston was duly chosen by the qualified electors of the State of California a Senator from said State to represent said State in the Senate of the United States for a term of six years, beginning on the 3rd day of January, 1987.

In witness whereof I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 15th day of December 1986.

GEORGE DEUKMEJIAN,
Governor of California.

STATE OF NEW YORK

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, 1986, Alfonse M. D'Amato was duly chosen by the qualified electors of the State of New York a Senator from said State to represent said State in the Senate of the United States for a term of six years, beginning on the 3rd day of January, 1987.

Witness: His excellency our governor Mario M. Cuomo, and our seal hereto affixed at Albany this sixteenth day of December, in the year nineteen hundred eighty-six.

MARIO M. CUOMO,
Governor.

STATE OF SOUTH DAKOTA

CERTIFICATE OF ELECTION

This is to certify, That on the 4th day of November, nineteen hundred and eighty-six, at a general election, Thomas A. Daschle was duly chosen by the qualified voters of

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

the State of South Dakota to the office of United States Senate for the term of six years, beginning the 3rd day of January, nineteen hundred and eighty-seven.

In witness whereof, We have hereunto set our hands and caused the Seal of the State to be affixed at Pierre, the Capital, this 24th day of November, nineteen hundred and eighty-six.

WILLIAM J. JANKLOW,
Governor.

STATE OF ILLINOIS

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, nineteen hundred and eighty-six, Alan J. Dixon was duly chosen by the qualified electors of the State of Illinois, a Senator from said State, to represent said State in the Senate of the United States for the term of six years, beginning on the third day of January, nineteen hundred and eighty-seven.

Witness: His Excellency our Governor James R. Thompson, and our seal hereto affixed at the city of Springfield this twenty-fourth day of November, in the year of our Lord nineteen hundred and eighty-six.

JAMES R. THOMPSON,
Governor.

STATE OF CONNECTICUT

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, nineteen hundred and eighty-six, Christopher J. Dodd was duly chosen by the qualified electors of the State of Connecticut Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the third day of January, nineteen hundred and eighty-seven.

Witness: His Excellency our Governor, William A. O'Neill and our seal hereto affixed at Hartford, this twenty-sixth day of November, in the year of our Lord nineteen hundred and eighty-six.

WILLIAM A. O'NEILL,
Governor.

STATE OF KANSAS

CERTIFICATE OF ELECTION

To the President of the Senate of the United States:

This is to certify that on the fourth day of November, nineteen hundred eighty-six, Bob Dole was duly chosen by the qualified electors of the State of Kansas a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the third day of January, nineteen hundred eighty-seven.

Witness: The Honorable John Carlin, our Governor, and our seal hereto affixed at Topeka, this twenty-first day of November, in the year of our Lord, nineteen hundred eighty-six.

JOHN CARLIN,
Governor.

COMMONWEALTH OF KENTUCKY

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To all to Whom These Presents Shall Come, Greeting:

Know Ye, That Wendell H. Ford, having been duly certified, that on the 4th day of November, 1986, was duly chosen by the qualified electors of the State of Kentucky a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 1987.

I hereby invest the above named with full power and authority to execute and discharge the duties of the said office according to law. And to have and to hold the same, with all the rights and emoluments thereunto legally appertaining, for and during the term prescribed by law.

In testimony whereof, I have caused these letters to be made patent, and the seal of the Commonwealth to be hereunto affixed. Done at Frankfort, the 24th day of November in the year of our Lord one thousand nine hundred and eighty-six and in the one hundred and 95th year of the Commonwealth.

MARTHA LAYNE COLLINS,
Governor.

STATE OF GEORGIA

CERTIFICATE OF ELECTION FOR SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Wyche Fowler, Jr., was duly chosen by the qualified electors of the State of Georgia a Senator from said State to represent said State in the Senate of the United States for the term of six years, beginning on the 3rd day of January, 1987.

Witness: His excellency, Governor Joe Frank Harris, and our seal hereto affixed at the Capitol, in the City of Atlanta, this 16th day of December, in the year of our Lord 1986.

JOE FRANK HARRIS,
Governor.

STATE OF UTAH

CERTIFICATE OF ELECTION FOR A SIX-YEAR TERM

To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Senator E.J. Jake Garn was duly chosen by the electors of the State of Utah a Senator from Utah to represent Utah in the Senate of the United States for the term of six years, beginning on the third day of January, 1987.

The VICE PRESIDENT. Will the Senate please be in order? The majority leader has been recognized.

Mr. BYRD. Mr. President, may we have order in the Senate?

The VICE PRESIDENT. Senators are asked to take their seats. The Senate will be in order.

The majority leader.

Mr. BYRD. Mr. President, I thank the Chair.

NOTIFICATION TO THE PRESIDENT

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 1) informing the President of the United States that a quorum of each House is assembled.

The VICE PRESIDENT. Without objection, the resolution is considered and agreed to.

The resolution (S. Res. 1) reads as follows:

S. Res. 1

Resolved, That a committee consisting of two Senators be appointed to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

The VICE PRESIDENT. Pursuant to Senate Resolution 1, the Chair appoints the Senator from West Virginia, Mr. Robert C. Byrd, and the Senator from Kansas, Mr. Robert Dole, as members of the committee of the Senate to join the committee of the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

NOTIFICATION TO THE HOUSE

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 2) informing the House of Representatives that a quorum of the Senate is assembled.

The VICE PRESIDENT. Without objection, the resolution is considered and agreed to.

The resolution (S. Res. 2) reads as follows:

S. Res. 2

Resolved, That the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

ELECTION OF THE PRESIDENT PRO TEMPORE OF THE SENATE

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will state the resolution by title.

Mr. BYRD. Mr. President, I ask unanimous consent that the distinguished Senator from South Carolina, Mr. Thurmond, may be added as a cosponsor. I do this at his request.

The VICE PRESIDENT. Without objection, it is so ordered.

The clerk will now state the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 3) to elect John C. Stennis, a Senator from the State of Mississippi, to be President pro tempore of the Senate of the United States.

Mr. THURMOND addressed the Chair.

The VICE PRESIDENT. The Senator from South Carolina.

Mr. THURMOND. Mr. President, I am very pleased to join as a sponsor of this resolution. The Democrats have a majority in the Senate. They are entitled to the President pro tempore. Senator Stennis is a worthy man to fill this position. He is a man of character, a man of ability, a man of dedication, and a man of compassion. I am very proud to have worked with him ever since I have been in the Senate. I feel the Senate is fortunate to have a man like him to be the President pro tempore. I move to second the nomination, as well as being a cosponsor, and move the nomination be closed and he be elected by acclamation.

The VICE PRESIDENT. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to as follows:

S. Res. 3

Resolved, That John C. Stennis, a Senator from the State of Mississippi, be, and he is hereby, elected President of the Senate pro tempore, to hold office during the pleasure of the Senate, in accordance with rule I, paragraph 1, of the Standing Rules of the Senate.

ADMINISTRATION OF OATH TO SENATOR JOHN C. STENNIS AS PRESIDENT PRO TEMPORE OF THE SENATE FOR THE 100TH CONGRESS

The VICE PRESIDENT. The Senator from Mississippi will approach the rostrum. I appoint the Senator from West Virginia, Mr. BYRD; the Senator from Kansas, Mr. DOLE; the Senator from Mississippi, Mr. THAD COCHRAN; and the Senator from South Carolina, Mr. STROM THURMOND, as a committee to escort the President pro tempore of the Senate to the rostrum for the purpose of taking the oath.

The President pro tempore, escorted by Senator BYRD, Senator DOLE, Senator COCHRAN, and Senator THURMOND, advanced to the desk of the Vice President; the oath was administered to him by the Vice President; and he subscribed to the oath in the Official Oath Book.

[Applause, Senators rising.]

The PRESIDENT pro tempore (Mr. STENNIS). Mr. Vice President, and Members of the Senate, the floor is now open for offering resolutions that may be presented by any Member.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. I recognize the Senator from West Virginia.

NOTIFICATION TO THE PRESIDENT

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 4

Resolved, That the President of the United States be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution will be considered and agreed to. [Laughter.]

CONGRATULATIONS TO THE PRESIDENT PRO TEMPORE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. I send a resolution to the desk, and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 5

Resolved, That the Majority Leader and the Minority Leader of the Senate, on behalf of the Senate, congratulate John C. Stennis, a Senator from the State of Mississippi, upon his election as President pro tempore of the United States Senate.

The PRESIDENT pro tempore. We will strictly follow the rule here. [Laughter.]

Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

[Applause, Senators rising.]

The PRESIDENT pro tempore. The Chair recognizes the Senator from West Virginia.

NOTIFICATION TO THE HOUSE OF REPRESENTATIVES OF ELECTION OF A PRESIDENT PRO TEMPORE OF THE SENATE

Mr. BYRD. Mr. President, I send a resolution to the desk and I ask unanimous consent that it be immediately considered.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The resolution will be reported. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 6

Resolved, That the House of Representatives be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

ELECTION OF WALTER J. STEWART AS SECRETARY OF THE SENATE

Mr. BYRD. Mr. President, I send to the desk a resolution and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 7

Resolved, That Walter J. Stewart be, and he is hereby, elected Secretary of the Senate, beginning January 6, 1987.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

ADMINISTRATION OF OATH TO THE SECRETARY OF THE SENATE

The PRESIDENT pro tempore. The Secretary of the Senate will now present himself for the taking of the oath of office.

The Honorable Walter J. Stewart, escorted by the Honorable ROBERT C. BYRD, advanced to the desk of the Vice President; the oath prescribed by law was administered to him by the President pro tempore.

[Applause, Senators rising.]

NOTIFICATION TO THE PRESIDENT

Mr. BYRD. I send to the desk a resolution and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 8

Resolved, That the President of the United States be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

NOTIFICATION TO THE HOUSE OF REPRESENTATIVES OF ELECTION OF SECRETARY OF THE SENATE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I ask unanimous consent for the immediate consideration of the resolution which I now sent to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 9

Resolved, That the House of Representatives be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to as follows:

S. RES. 9

Resolved, That the House of Representatives be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

ELECTION OF HENRY KUUALOHA GIUGNI AS THE SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

Mr. BYRD. Mr. President, I send to the desk a resolution and ask for its immediate consideration.

I offer this resolution on behalf of Mr. INOUYE and myself.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. Res. 10

Resolved, That Henry Kuualoha Giugni, of the State of Hawaii, be, and he is hereby, elected Sergeant at Arms and Doorkeeper of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

ELECTION OF DAVID J. PRATT AS SECRETARY FOR THE MAJORITY OF THE SENATE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia.

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. Res. 11

Resolved, That David J. Pratt be, and he is hereby, elected Secretary for the Majority of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

ELECTION OF HOWARD GREENE AS SECRETARY FOR THE MINORITY OF THE SENATE

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. Res. 12

Resolved, That Howard Greene be, and he is hereby, elected Secretary for the Minority of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

HOUR OF DAILY MEETING

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. Res. 13

Resolved, That the hour of daily meeting of the Senate be 12 o'clock meridian unless otherwise ordered.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

AMENDMENT TO PARAGRAPH 2 AND 3 OF RULE XXV

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I send to the desk a resolution amending rule XXV and I ask for its immediate consideration.

The PRESIDENT pro tempore. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 14) to amend paragraph 2 and 3 of Rule XXV of the Standing Rules of the Senate.

The PRESIDENT pro tempore. Is there any discussion?

Mr. METZENBAUM. Mr. President, would the leader be good enough to tell us what that is?

Mr. BYRD. Yes. This makes it possible for the distinguished Senator from Ohio to be on the Intelligence Committee in due time.

Mr. METZENBAUM. That is a wonderful resolution. [Laughter.]

Mr. HELMS addressed the Chair.

The PRESIDENT pro tempore. The Senator from North Carolina is recognized.

Mr. HELMS. Mr. President, I thank the Chair.

May we have the resolution read?

The PRESIDENT pro tempore. Yes. The clerk will read the resolution.

The legislative clerk read as follows:

S. Res. 14

Resolved, That Rule XXV, paragraph 2, of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Agriculture, Nutrition, and Forestry" and insert in lieu thereof "18";

Strike the figure after "Armed Services" and insert in lieu thereof "20";

Strike the figure after "Banking, Housing, and Urban Affairs" and insert in lieu thereof "18";

Strike the figure after "Commerce, Science, and Transportation" and insert in lieu thereof "20";

Strike the figure after "Energy and Natural Resources" and insert in lieu thereof "19";

Strike the figure after "Environment and Public Works" and insert in lieu thereof "16";

Strike the figure after "Foreign Relations" and insert in lieu thereof "20";

Strike the figure after "Governmental Affairs" and insert in lieu thereof "14";

Strike the figure after "Judiciary" and insert in lieu thereof "14";

Sec. 2. Paragraph 3(a) of rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Budget" and insert in lieu thereof "24";

Strike the figure after "Rules and Administration" and insert in lieu thereof "16";

Strike the figure after "Veterans Affairs" and insert in lieu thereof "11";

Strike the figure after "Small Business" and insert in lieu thereof "18".

Sec. 3. Paragraph 3(c) of Rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Indian Affairs" and insert in lieu therof "8".

The PRESIDENT pro tempore. Are there any other requests?

The Chair hears none.

Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

Mr. BYRD. Mr. President, I answered the distinguished Senator from Ohio facetiously. I intended to correctly answer his question but the distinguished Senator from North Carolina, quite appropriately, asked that the resolution be read. So that is in full explanation of the resolution.

AMENDMENT TO RULE XXV

Mr. BYRD. Mr. President, I send a resolution to the desk dealing with rule XXV, and I ask unanimous consent to proceed to its immediate consideration.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 15) to amend paragraph 4 of rule XXV of the Standing Rules of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution (S. Res. 15) was considered and agreed to as follows:

S. Res. 15

Resolved, That paragraph 4 of Rule XXV is amended by striking all after subparagraph (g) and inserting in lieu thereof the following:

"(h)(1) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on Energy and Natural Resources may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(2) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Rules and Administration may, during the Hundredth Congress, also serve as a member of the Committee on Veterans' Affairs and the Committee on Intelligence so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)3)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(3)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member on the Special Committee on Aging, may, during the Hundredth Congress, also serve as a member of the Committee on the Budget so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3.

"(h)(4) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Agriculture, Nutrition, and Forestry may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on the Judiciary may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(B) A Senator who during the Hundredth Congress serves on the Committee on Armed Services, the Committee on the Judiciary, and the Committee on Labor and Human Resources, and who serves as chairman of a committee listed in paragraph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(6)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition, and Forestry and the Committee on Appropriations may, during the Hundredth Congress, also serve as a member of the Committee on the Judiciary so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(6)(B) A Senator who during the Hundredth Congress serves on the Committee on Agriculture, Nutrition, and Forestry, the Committee on Appropriations, and the Committee on the Judiciary, and who serves as chairman of a committee listed in paragraph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(7) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources and the Committee on the Judiciary may, during the Hundredth Congress, also serves as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(8) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(9) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(10) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing and Urban Affairs and the Committee on Commerce, Science, and Transportation may, during the Hundredth Congress, also serve as a member of the Committee on Finance so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Banking, Housing, and Urban Affairs may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member of the Committee on the Budget, may, during the Hundredth Congress, also serve as a member of the Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraphs 3(a) and 3(b).

"(h)(12) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary and the Committee on Labor and Human Resources may, during the Hundredth Congress, also serve as a member of the Committee on Foreign Relations so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(13) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Commerce, Science and Transportation and the Committee on Foreign Relations and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(14) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Appropriations and the Committee on Environment and Public Works and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2."

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

AMENDMENT TO PARAGRAPH 4 OF RULE XXV OF THE STANDING RULES OF THE SENATE

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution as presented by the distinguished Senator from Kansas.

The legislative clerk read as follows:

A resolution (S. Res. 16) to amend paragraph 4 of rule XXV of the Standing Rules of the Senate.

The resolution (S. Res. 16) was agreed to, as follows:

S. RES. 16

Resolved, That paragraph 4 of Rule XXV is amended by adding at the end of paragraph (h) the following:

"(h)(15) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans' Affairs may, during the Hundredth Congress, serve as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans' Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(16) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(17) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Finance, the Committee on Governmental Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, also serve as a member of the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(18) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Energy and Natural Resources, the Committee on Labor and Human Resources, and the Committee on Small Business may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Energy and Natural Resources, the Committee on Labor and Human Resources, and the Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(19) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Environment and Public Works, the Committee on Energy and Natural Resources, and the Committee on the Budget may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on the Budget, the Committee on Energy and Natural Resources, and the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(20) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Banking, Housing and Urban Affairs and the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(21) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing and Urban Affairs, the Committee on Finance, and the Special Committee on Aging may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subidivision, as a member of more than three committees listed in paragraph 2.

"(h)(22) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works, the Committee on Finance, the Committee on Governmental Affairs, the Select Committee on Intelligence may, during the Hundredth Congress, serve as a member of the Committee on Environment and Public Works, the Committee on Finance, the Committee on Governmental Affairs, and the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(23) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry, the Committee on Appropriations, and the Committee on Government Affairs may, during the Hundredth Congress, serve as a member of the Committee on Agriculture, Nutrition and Forestry, the Committee on Appropriations, and the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(24) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry, the Committee on Foreign Relations, the Committee on the Budget and the Committee on Veterans Affairs may, during the Hundredth Congress, serve as a member of the Select Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(25) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works, the Committee on the Judiciary, and the Committee on Veterans Affairs may, during the Hundredth Congress, serve as a member of the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(26) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on Energy and Natural Resources may, during the Hundredth Congress, serve as a member of the Committee on Armed Services, the Committee on Environment and Public Works, the Committee on Rules and Administration, and the Select Committee on Intelligence so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(27) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services, the Committee on Governmental Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, also serve as a member of the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(28) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Commerce, Science and Transportation, the Committee on Foreign Relations, the Committee on Small Business, and the Special Committee on Aging may, during the Hundredth Congress, serve as a member of the Committee on Commerce, Science and Transportation, the Committee on Foreign Relations, the Committee on Environment and Public Works, the Committee on Small Business, and the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2, or as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(29) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on Environment and Public Works may, during the Hundredth Congress, serve as a member of the Committee on Armed Services, the Committee on Labor and Human Resources, and the Committee on the Judiciary so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(30) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Budget, the Committee on Environment and Public Works, the Commitee on Finance and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Armed Services, the Committee on Environment and Public Works, the Committee on the Budget, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(31) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Finance, the Committee on the Judiciary, the Committee on Labor and Human Resources, the Special Committee on Aging and the Committee on the Budget may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on the Judiciary, the Committee on the Budget, and the Special Committee on Aging so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(32) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on the Budget, and the Committee on Small Business may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on the Budget, and the Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(33) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Banking, Housing and Urban Affairs, the Committee on Small Business, and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Banking, Housing and Urban Affairs, the Committee on Small Business, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(34) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, serve as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(35) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Governmental Affairs, and the Committee on Small Business may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Governmental Affairs, the Committee on Small Business, and the Committee on the Budget so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(36) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Special Committee on Aging and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Committee on Commerce, Science, and Transportation, the Special Committee on Aging, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2, and as a member of more than two committees listed in paragraph 3(a) and 3(b)."

MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES FOR THE 100TH CONGRESS

Mr. BYRD. Mr. President, I sent to the desk a resolution making the majority party appointments to committees and ask unanimous consent for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 17) making majority party appointments to Senate committees for the 100th Congress.

The resolution (S. Res. 17) was agreed to, as follows:

S. RES. 17

Resolved, That the following shall constitute the majority party's membership on the standing committees for the 100th Congress, or until their successors are chosen:

Committee on Agriculture, Nutrition, and Forestry: Mr. Leahy (Chairman), Mr. Zorinsky, Mr. Melcher, Mr. Pryor, Mr. Boren, Mr. Heflin, Mr. Harkin, Mr. Conrad, Mr. Fowler, and Mr. Daschle.

Committee on Appropriations: Mr. Stennis (Chairman), Mr. Byrd, Mr. Proxmire, Mr. Inouye, Mr. Hollings, Mr. Chiles, Mr. Johnston, Mr. Burdick, Mr. Leahy, Mr. Sasser, Mr. DeConcini, Mr. Bumpers, Mr. Lautenberg, Mr. Harkin, Ms. Mikulski, and Mr. Reid.

Committee on Armed Services: Mr. Nunn (Chairman), Mr. Stennis, Mr. Exon, Mr. Levin, Mr. Kennedy, Mr. Bingaman, Mr. Dixon, Mr. Glenn, Mr. Gore, Mr. Wirth, and Mr. Shelby.

Committee on Banking, Housing, and Urban Affairs: Mr. Proxmire (Chairman), Mr. Cranston, Mr. Riegle, Mr. Sarbanes, Mr. Dodd, Mr. Dixon, Mr. Sasser, Mr. Sanford, Mr. Shelby, and Mr. Graham.

Committee on Commerce, Science, and Transportation: Mr. Hollings (Chairman), Mr. Inouye, Mr. Ford, Mr. Riegle, Mr. Exon, Mr. Gore, Mr. Rockefeller, Mr. Bentsen, Mr. Kerry, Mr. Breaux, and Mr. Adams.

Committee on Energy and Natural Resources: Mr. Johnston (Chairman), Mr. Bumpers, Mr. Ford, Mr. Metzenbaum, Mr. Melcher, Mr. Bradley, Mr. Bingaman, Mr. Wirth, Mr. Fowler, and Mr. Conrad.

Committee on Environment and Public Works: Mr. Burdick (Chairman), Mr. Moynihan, Mr. Mitchell, Mr. Baucus, Mr. Lautenberg, Mr. Breaux, Ms. Mikulski, Mr. Reid, and Mr. Graham.

Committee on Finance: Mr. Bentsen (Chairman), Mr. Matsunaga, Mr. Moynihan, Mr. Baucus, Mr. Boren, Mr. Bradley, Mr. Mitchell, Mr. Pryor, Mr. Riegle, Mr. Rockefeller, and Mr. Daschle.

Committee on Foreign Relations: Mr. Pell (Chairman), Mr. Biden, Mr. Sarbanes, Mr. Zorinsky, Mr. Cranston, Mr. Dodd, Mr. Kerry, Mr. Simon, Mr. Sanford, Mr. Adams, and Mr. Moynihan.

Committee on Governmental Affairs: Mr. Glenn (Chairman), Mr. Chiles, Mr. Nunn, Mr. Levin, Mr. Sasser, Mr. Pryor, Mr. Mitchell, and Mr. Bingaman.

Committee on the Judiciary: Mr. Biden (Chairman), Mr. Kennedy, Mr. Byrd, Mr. Metzenbaum, Mr. DeConcini, Mr. Leahy, Mr. Heflin, and Mr. Simon.

Committee on Labor and Human Resources: Mr. Kennedy (Chairman), Mr. Pell, Mr. Metzenbaum, Mr. Matsunaga, Mr. Dodd, Mr. Simon, Mr. Harkin, Mr. Adams, and Ms. Mikulski.

APPOINTMENT OF MINORITY MEMBERS TO SENATE COMMITTEES AND RANKING MEMBERS

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration. Let me indicate what this resolution does.

The PRESIDENT pro tempore. May we have quiet in the Chamber?

The Senator from Kansas.

Mr. DOLE. Mr. President, this is a listing of the minority members of each committee with the ranking members, with the exception of the Committees on Agriculture and Foreign Relations. There will be no ranking members selected on those committees until sometime next week.

The PRESIDENT pro tempore. Is there further discussion?

Mr. LUGAR addressed the Chair.

The PRESIDENT pro tempore. The Senator from Indiana.

Mr. LUGAR. Mr. President, may I inquire of the basis for excluding ranking members on Foreign Relations and Agriculture? I make this request because the members of the Foreign Relations Committee met this morning and seven votes were cast for me to be the ranking member of the committee. There were no votes for other members. In my judgment, clearly I am the ranking member of the committee, subject to appeal to the conference. I would appreciate the inclusion of my name as ranking member of the Foreign Relations Committee.

Mr. DOLE. Mr. President, I would like to make a point that this matter has not yet been determined by the conference. There has been a request for a conference vote by the distinguished Senator from North Carolina which involves not only the Foreign Relations Committee but, as most Senators know, it involves the ranking member on the Agriculture Committee. So until the conference has acted, I would not be able to honor that request.

Mr. LUGAR. Mr. President, may I propound a further inquiry? I presume that the ranking members of other committees are based upon the action of the Republican members of their committees. They must have met at some point and determined that those members should be the ranking members under the rules of our conference. I would simply add that in the Foreign Relations Committee the Republicans have met and seven out of nine have indicated I ought to be ranking member. In my judgment, I ought to be listed as ranking member subject to the ratification of the members of our conference.

Mr. DOLE. Mr. President, if the Senator will yield, I think rather than taking care of the problem, I would ask that the resolution be amended to show the members of the various committees and that no ranking members be designated for any committee. Then we will resolve that entire question in conference.

Mr. LEAHY. Mr. President, will the Senator yield for a question?

Mr. DOLE. I yield.

Mr. LEAHY. Mr. President, the last thing in the world the Senator from Vermont wants to do is to interfere with whatever the Members of the Republican Party would do within their own conference. But because I do have an interest in how we are going to set up the Agriculture Committee, approximately when does the distinguished Senator from Kansas think that that may be resolved?

Mr. DOLE. Soon.

[Laughter.]

Mr. LEAHY. Soon. Then we can get on to taking care of the farm questions soon. I thank the Senator.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia.

Mr. BYRD. Will the distinguished Republican leader yield?

Mr. DOLE. I yield.

Mr. BYRD. Mr. President, will the distinguished Republican leader consider allowing the resolution to be considered which allows the ranking members to be appointed? Mr. CHILES wants to begin hearings tomorrow on the budget. In the final analysis, that is the one thing that keeps this Senate busy. It takes so much of the time of the committee. Would that be agreeable to the distinguished leader?

Mr. DOLE. I am advised that this resolution covers only the A committees. The Budget Committee is not in this resolution.

Mr. BYRD. Very well.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 18) making minority appointments to the Senate committees for the 100th Congress.

The resolution (S. Res. 18) was agreed to as follows:

S. RES. 18

Resolved, That the following shall constitute the minority party's membership on the standing committees for the 100th Congress, or until their successors are chosen:

Committee on Agriculture, Nutrition, and Forestry: Mr. Helms, Mr. Dole, Mr. Lugar, Mr. Cochran, Mr. Boschwitz, Mr. McConnell, Mr. Bond, and Mr. Wilson.

Committee on Appropriations: Mr. Hatfield, Mr. Stevens, Mr. Weicker, Mr. McClure, Mr. Garn, Mr. Cochran, Mr. Kasten, Mr. D'Amato, Mr. Rudman, Mr. Specter, Mr. Domenici, Mr. Grassley, and Mr. Nickles.

Committee on Armed Services: Mr. Warner, Mr. Thurmond, Mr. Humphrey, Mr. Cohen, Mr. Quayle, Mr. Wilson, Mr. Gramm, Mr. Symms, and Mr. McCain.

Committee on Banking, Housing, and Urban Affairs: Mr. Garn, Mr. Heinz, Mr. Armstrong, Mr. D'Amato, Mr. Hecht, Mr. Gramm, Mr. Bond, and Mr. Chafee.

Committee on Commerce, Science, and Transportation: Mr. Danforth, Mr. Packwood, Mrs. Kassebaum, Mr. Pressler, Mr. Stevens, Mr. Kasten, Mr. Trible, Mr. Wilson, and Mr. McCain.

Committee on Energy and Natural Resources: Mr. McClure, Mr. Hatfield, Mr. Weicker, Mr. Domenici, Mr. Wallop, Mr. Murkowski, Mr. Nickles, Mr. Hecht, and Mr. Evans.

Committee on Environment and Public Works: Mr. Stafford, Mr. Chafee, Mr. Simpson, Mr. Symms, Mr. Durenberger, Mr. Warner, and Mr. Pressler.

Committee on Finance: Mr. Packwood, Mr. Dole, Mr. Roth, Mr. Danforth, Mr. Chafee, Mr. Heinz, Mr. Wallop, Mr. Durenberger, and Mr. Armstrong.

Committee on Foreign Relations: Mr. Lugar, Mr. Helms, Mrs. Kassebaum, Mr. Boschwitz, Mr. Pressler, Mr. Murkowski, Mr. Trible, Mr. Evans, and McConnell.

Committee on Governmental Affairs: Mr. Roth, Mr. Stevens, Mr. Cohen, Mr. Rudman, Mr. Heinz, and Mr. Durenberger.

Committee on the Judiciary: Mr. Thurmond, Mr. Hatch, Mr. Simpson, Mr. Grassley, Mr. Specter, and Mr. Humphrey.

Committee on Labor and Human Resources: Mr. Hatch, Mr. Stafford, Mr. Quayle, Mr. Thurmond, Mr. Weicker, Mr. Cochran, and Mr. Humphrey.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The distinguished Senator from West Virginia.

MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES UNDER PARAGRAPHS 3 (A), (B), AND (C) OF RULE XXV

Mr. BYRD. Mr. President, I send to the desk a resolution making majority party appointments to Senate committees under paragraphs 3 (a), (b), and (c) of rule XXV and ask unanimous consent for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 19) making majority party appointments to Senate committees under paragraphs 3 (a), (b), and (c) of Rule XXV.

Mr. CHAFEE. Mr. President, could we hear what that is all about? Are those the so-called B committees?

Mr. DOLE. Yes.

Mr. BYRD. Yes, Mr. President, I answer the Senator's question in the affirmative.

The resolution (S. Res. 19) was agreed to, as follows:

S. RES. 19

Resolved, That the following shall constitute the majority party's membership on the committees named in paragraph 3(a), (b), and (c) of Rule XXV for the 100th Congress, or until their successors are appointed:

Committee on the Budget: Mr. Chiles (Chairman), Mr. Hollings, Mr. Johnston, Mr. Sasser, Mr. Riegle, Mr. Exon, Mr. Lautenberg, Mr. Simon, Mr. Sanford, Mr. Wirth, Mr. Fowler, Mr. Conrad, and Mr. Dodd.

Committee on Rules and Administration: Mr. Ford (Chairman), Mr. Pell, Mr. Byrd, Mr. Inouye, Mr. DeConcini, Mr. Gore, Mr. Moynihan, Mr. Dodd, and Mr. Adams.

Committee on Small Business: Mr. Bumpers (Chairman), Mr. Nunn, Mr. Sasser, Mr. Baucus, Mr. Levin, Mr. Dixon, Mr. Boren, Mr. Harkin, Mr. Kerry, and Ms. Mikulski.

Committee on Veterans' Affairs: Mr. Cranston (Chairman), Mr. Matsunaga, Mr. DeConcini, Mr. Mitchell, Mr. Rockefeller, and Mr. Graham.

Select Committee on Ethics: Mr. Heflin (Chairman), Mr. Pryor, and Mr. Sanford.

Select Committee on Indian Affairs: Mr. Inouye (Chairman), Mr. Melcher, Mr. DeConcini, Mr. Burdick, and Mr. Daschle.

Special Committee on Aging: Mr. Melcher (Chairman), Mr. Glenn, Mr. Chiles, Mr. Pryor, Mr. Bradley, Mr. Burdick, Mr. Johnston, Mr. Breaux, Mr. Shelby, and Mr. Reid.

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

MINORITY PARTY APPOINTMENTS TO SENATE COMMITTEES FOR THE 100TH CONGRESS AND DESIGNATING RANKING MEMBERS OF THOSE COMMITTEES

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration. These are the B committee appointments.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 20) making minority party appointments to Senate committees for the 100th Congress and designating ranking members of those committees.

The resolution (S. Res. 20) was agreed to, as follows:

S. RES. 20

Resolved, That the following shall constitute the minority party's membership on those Senate committees listed below for the 100th Congress, or until their successors are appointed:

Budget: Mr. Domenici (ranking member), Mr. Armstrong, Mrs. Kassebaum, Mr. Boschwitz, Mr. Symms, Mr. Grassley, Mr. Kasten, Mr. Quayle, Mr. Danforth, Mr. Nickles, and Mr. Rudman.

Rules and Administration: Mr. Stevens (ranking member), Mr. Hatfield, Mr. McClure, Mr. Helms, Mr. Warner, Mr. Dole, and Mr. Garn.

Small Business: Mr. Weicker (ranking member), Mr. Boschwitz, Mr. Rudman, Mr. D'Amato, Mr. Kasten, Mr. Pressler, Mr. Wallop, and Mr. Bond.

Veterans Affairs: Mr. Murkowski (ranking member), Mr. Simpson, Mr. Thurmond, Mr. Stafford, and Mr. Specter.

Select Committee on Ethics: Mr. Rudman (ranking member), Mr. Helms, and Mrs. Kassebaum.

Special Committee on Aging: Mr. Heinz (ranking member), Mr. Cohen, Mr. Pressler, Mr. Grassley, Mr. Wilson, Mr. Domenici, Mr. Chafee, Mr. Durenberger, and Mr. Simpson.

Select Committee on Indian Affairs: Mr. Evans (ranking member), Mr. Murkowski, and Mr. McCain.

EXPRESSING THE SENATE'S GRATITUDE FOR THE PRESIDENT'S EXCELLENT HEALTH AND BEST WISHES FOR HIS SPEEDY RECOVERY

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for 2 minutes.

The PRESIDENT pro tempore. Without objection, the Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I am going to send a resolution to the desk on behalf of Mr. DOLE and myself. I ask unanimous consent that the resolution be read in full and that Senators who may wish to insert into the RECORD today statements in support of the resolution may have until the close of business today or until 6 o'clock today, whichever is the later time, to do so.

Mr. WILSON. Mr. President, will the majority leader yield for a question? I did not quite hear the distinguished leader.

Will the desk be open until 6 o'clock also for the introduction of bills?

Mr. BYRD. Mr. President, my request only had to do with the resolution at the desk. I also ask unanimous consent that Senators may have the right to have their names added as cosponsors until 6 o'clock tonight.

May I say to the Senator, there will be a time later today when Senators may make statements for the RECORD.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 21) expressing the Senate's gratitude for the President's excellent health and best wishes for his speedy recovery.

S. RES. 21

Whereas President Ronald Reagan underwent an operation to correct a painful prostate condition at the National Naval Medical Center in Bethesda, Maryland yesterday as well as the removal of four small intestinal growths found during a routine colonoscopic examination;

Whereas all medical reports available at this moment indicate that the President is in excellent health and unfailing good humor; and

Whereas the President has alleviated our concerns and relieved the anxieties of our whole nation by his openness and candor with respect to the medical procedures to be performed and the results following the completion of the medical procedures; Now, therefore, be it

Resolved, That the United States Senate expresses its heartfelt thanks for the continued excellent health of our President and our best wishes for his continued excellent health in the years to come.

SENATE RESOLUTION: SPEEDY RECOVERY FOR THE PRESIDENT

Mr. DOLE. Mr. President, today, President Reagan is reported in "excellent spirits" following his successful surgery at Bethesda Naval Hospital on Monday. Now, I understand it was a so-called "routine operation," but we all know that any trip to the operating room has its share of risks. Therefore, we were pleased to hear the good news from the President's doctors—that the operation "went smoothly" and that there was "nothing out of the ordinary."

So while the President is recovering—and while more tests are in order during his stay at the Navy Hospital—I am pleased to join Senator BYRD in wishing the President a speedy recovery.

The PRESIDENT pro tempore. The resolution is well spelled out and well said. The question is on agreeing to the resolution.

The resolution (S. Res. 21) was agreed to.

COMMENDING COMMUNITY OF CHASE, MD, FOR ITS ASSISTANCE IN AMTRAK TRAIN ACCIDENT

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for not more than 1 minute on a resolution which I am about to submit on behalf of myself and Mr. DOLE.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BYRD. Mr. President, this past Sunday there occurred a tragic Amtrak train accident in Chase, MD, resulting in the deaths of 15 passengers and injuries to at least 170 others. On that day, the people of Chase, MD, reacted immediately in providing aid and comfort to the survivors and rescue workers. It is because of their exemplary actions that I send the following resolutions to the desk and ask for its immediate consideration.

Mr. SARBANES. Mr. President, on Sunday, January 4, a terrible tragedy occurred when Amtrak train No. 94 crashed in Baltimore County, killing 15 passengers and seriously injuring more than 170 others. I am sure my colleagues share my shock and sadness at this catastrophe. The accident—Maryland's worst rail disaster—has caused much grief and suffering, and I extend to the families and friends of those killed my deepest sympathy.

The accident demonstrated anew that catastrophic events often call forth the finest in human qualities. I refer to the courageous and compassionate response of many individuals and organizations to this tragic event. I would especially like to commend the residents of the Harewood Park community, who were among the first to arrive on the scene of the accident to rescue victims. The people of Harewood Park not only helped passengers escape from the train, but also brought them into their homes to keep warm, to await medical help and to use telephones. Their actions in bringing aid and comfort to the train wreck victims were absolutely selfless and an example for all of us. On a day of disaster, the swift and heroic response of the residents of the Harewood Park community provided hope to the survivors of the disaster and brought each of us some solace.

In addition, emergency rescue squads from throughout Baltimore and Harford Counties responded quickly and ably to this sudden crisis in their community. Baltimore County used its disaster assistance plan and had 44 fire and rescue squads and ambulances on the scene. Fire department rescue personnel and paramedics were joined by special teams of surgeons, nurses, and support personnel from the Shock-Trauma Unit at the University of Maryland Hospital.

Within a short time after the accident, the Red Cross in Baltimore opened its offices on North Charles Street to receive blood donations. Over 1,000 Marylanders answered the emergency calls to donate blood on Sunday afternoon—a magnificent spontaneous response.

We in Maryland are proud and grateful to have people with such fine qualities in our society and we salute today all those who assisted in the rescue operation and opened their homes to the injured.

I ask unanimous consent to have printed in the RECORD editorials and articles relating to this tragedy.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Baltimore (MD) Sun, Jan. 6, 1987]

DISASTER ON MARYLAND RAILS

The sympathy of Marylanders goes out to the victims and families of victims in the train disaster near Chase. Normally, the 100-mph gliding of the passenger train out over the Bird River, as though on the water itself, is one of the scenic pleasures of railroading. Seconds before that illusion would greet riders on the Colonial from Washington for Boston, Sunday, terror and horror struck.

Accidents are statistically fated to occur, to be sure, but in modern railway operations they are less acceptable than in other modes of transport. The National Transportation Safety Board investigation must focus on several aspects of a national disaster that undercut confidence in train travel where it is essential, and disrupted transportation on the Eastern Seaboard for days.

One aspect is the performance of the double signal system, automated and human, which failed to stop the Conrail locomotives from lumbering into the path of the Amtrak passenger train. Another is the performance of the engineers of both trains. A third is the adequacy of the control system, among the most modern in America. And lastly is the mingling of high-speed and slow freight trains on the same tracks. Amtrak's safety record over 15 years has been extremely good. Something, or things, went wrong on Sunday. It would be reckless to guess prematurely at what.

A different field of scrutiny must be the emergency rescue effort. The first reaction is reassurance and pride in how well it worked. The Baltimore County Fire Department, which was in charge, and the state emergency medical system organized the care of victims with great efficiency. The police forces and hospitals coped extremely well. A caveat is that most of the 176 or more patients going to hospital emergency rooms were not severely injured. This was not the largest-scale medical emergency the Baltimore region might face, only the largest recently.

The tremendous outpouring of help by residents of the little community along the tracks is evidence of the goodness of the human spirit. Indeed, the location, with good people and good road access on both sides, was a blessing. A few hundred yards north, and some cars would have hurtled into the water, with those remaining on the causeway all but inaccessible to rescue.

The tremendous turnout of blood donors in Washington and Baltimore was another show of people refusing to remain uninvolved. If any improvement to the procedures can be suggested this early, it would be that the Red Cross might profitably have moved mobile blood donation units to hospitals where donors had to be turned away.

Lives of many people have been disrupted, of some shattered, and of at least 15 ended. This was the result of a mistake or mistakes that are not tolerable—not even once. But when disaster did strike without warning in eastern Baltimore county, the community and the state emergency medical system were up to it.

[From the Baltimore (MD) Evening Sun, Jan. 5, 1987]

600 Blood Donors Jam Red Cross HQ

(By Joan Jacobson)

Five hours after the train wreck, the line of blood donors led outside the Red Cross headquarters on North Charles Street and around the corner into the cold night.

Red Cross officials estimated 600 people volunteered to give blood there after they heard about the catastrophic accident yesterday.

Volunteer blood donors began arriving at 4:30 p.m. Within half an hour more than 100 people filled the main room of the blood center and lined down the hall.

Dr. Deborah Douglas, medical director for blood service, said she received a call about the wreck and immediately mobilized Red Cross staff to the regional center, which is usually closed on Sunday afternoons.

Many donors were already waiting at the door when staff members arrived, she said.

By early evening the entire Red Cross staff—including 25 to 30 nurses and 25 volunteers—were at work interviewing donors and taking blood, said Trish Beggarly, a staff nurse who drove in from her home in Bel Air.

Nurses wore street clothes, not having had time to change into their white uniforms. They rushed through the mob of waiting donors, equipping beds with supplies.

Douglas, who has directed the blood service for more than two years, said she had never before seen so many people willing to give blood to meet an emergency.

"It was almost like a party atmosphere," she said. Blood donors refused to leave, even when they were advised to go home because they would have to wait several hours. Many people waited three to four hours before giving blood, said Douglas.

One nurse collected a rubber band from each patient she drew blood from. "She had a bracelet of rubber bands three inches thick," Douglas said.

Many donors dropped what they were doing and went straight to the center.

City police officer Andrea Simmons came from her shift at Northeastern District, still in her police uniform.

She had heard about the wreck while at work, she said. When she arrived home, "I walked in the house and the TV was on and they said the Red Cross needed type O blood." She turned around and drove to the Red Cross.

Debra and Brian Birner of Dundalk drove to the Red Cross with their two small children after seeing ambulances and fire engines drive out of Middle River, where they were eating dinner. When they later realized the ambulances had driven to the wreck, they drove into Baltimore because Debra has type O blood, which was needed.

Douglas said the treatment of injured people will probably deplete Red Cross inventory of blood. Therefore, she said, increased blood donations will be needed for several days.

"Trauma victims can continue to need blood" after the initial accident, she said.

At Franklin Square Hospital in eastern Baltimore County, a hospital spokesman said 1,000 phone calls were taken from people interested in giving blood.

About 100 to 150 actually gave blood by early evening.

The Greater Baltimore Medical Center will accept blood donors by appointment this week. Donors are asked to call 828-GBMC and ask for the blood blank.

Local Residents Opened Homes, Hearts: Some Climbed Into Wreckage; Others Played Piano and Made Sandwiches

(By Eugene L. Meyer and Lisa Leff)

West Twin Rivers, MD., Jan. 5.—Amtrak train riders, traveling at speeds up to 100 miles an hour, get only a fleeting glimpse of this tiny waterfront community near the Gunpowder River on their way north and south.

To the residents, the trains whizzing by day and night form a constant backdrop. Only a metal fence separates the blue-collar community from the tracks.

But in the wake of the train disaster here Sunday, neighbors scaled that barrier to help rescue injured riders. Then, the people of this tiny working-class enclave generously opened their homes and their modest red cinder block community center to scores of dazed and distraught survivors.

Cousins Michael Cooper and Robert Booker climbed the fence and dashed into a burning Amtrak car to help people out. Cooper, 17, rescued a baby who survived. But Booker, 19, watched helplessly as a train traveler died in his arms.

"First, I saw a pair of legs sticking out. I managed to pull some seats out from around him," Booker said. He said he gave the screaming man his shirt to put over his mouth. As he held him, Booker said, the man died.

"I carried a little baby out. It went limp in my arms," said Cooper. "I thought it was dead, but they told me it was okay."

Eleven-year-old Laura Higgins invited passenger Jane Whitney of Philadelphia to use the family phone. "I thought, 'What would I do if I'd been in a train accident?'" the youngster said. "I thought I'd need to use the phone to call my mother." Later, she played a piano to entertain nine survivors who filled her family's small blue cottage two blocks from the wreck site.

"The trains are an integral part of the community," said her mother, Louise Higgins, 39. "The kids play 'What color is the caboose?' and count the number of freight trains." The Higginses even have a pet hermit crab they call "Amtrak."

This Baltimore County subdivision of 85 homes sits at the northern tip of a peninsula where the Bird and Gunpowder rivers meet. It was founded in the 1920s as a working-class summer resort community. During World War II, cottages were winterized for families who came here from Pennsylvania and Virginia to work in the war production plants. When water and sewer service arrived 15 years ago, ramblers and split-levels sprang up.

For years, only one telephone line linked the community to the outside, and even now only one road leads out. Years ago, there was a grocery, later turned into a tavern. Today, there is just one store, in the neighboring community of Harewood Park, and the local elementary school is inconveniently located across the train tracks. There is no grade crossing.

"It's one way in and one way out," said Larry Higgins, Louise's husband and a Coast Guard welder. "It's a small, cut-off community that's quiet. Everybody knows everybody. It's like a family."

Residents are avid boaters, swimmers and crabbers. Last summer, the community chipped in to build a boat launching ramp. Neighbors have back yard beer and crab fests and picnics and parties at the community center.

And seemingly always, there have been the trains.

"I can remember the steam engines," said Frank Melka, 62, who retired from Martin Marietta, the aircraft plant six miles south of town where many residents work. "Your house shook with those steam engines going by." He reminisced near the crash scene today with longtime neighbors Helen Eurice and Carroll Clarke.

Eurice, 66, who moved here from Baltimore when she married in the 1930s, recalled windowsills "full of black cinders all the time from the steam engines."

Said Melka, "We used to visit the man who worked the track [switch] from a tower. There was no accident when he was here." Clarke, 66, said, "The switch was manually operated then. It's computer operated now."

Outside the railroad fence, Barbara and James Borror welcomed 30 survivors into their home. They gave them clothes and let them use their phone to make calls to Australia and to Trinidad and Tobago. They cooked hot dogs and hamburgers to feed the survivors and rescue workers.

"Word got around from neighbor to neighbor," said Eurice, who went to work at the community building. "People just accumulated there. They gathered whatever they had in their refrigerators and just showed up."

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. Res. 22

A resolution (S. Res. 22) commending the community of Chase, Maryland for its assistance to the rescue workers and the survivors of the Amtrak train accident of January 4, 1987.

Whereas a tragic Amtrak train accident occurred in Chase, Maryland, on Sunday, January 4, 1987;

Whereas the impact at nearly 100 miles per hour of the passenger train and a Conrail freight train resulted in the deaths of 15 passengers and injuries to at least 170 others;

Whereas the people of Chase, Maryland, without hesitation mobilized to provide aid and comfort to the injured;

Whereas residents scaled the fence separating them from the railroad tracks and assisted passengers in their escape from the burning wreckage;

Whereas other residents opened their homes to the survivors, providing clothes and allowing phone calls to concerned relatives in such far away places as Australia, Trinidad and Tobago;

Whereas the local community building was immediately transformed into a center providing food and shelter to the passengers and rescue workers; Now, therefore, be it

Resolved: That the United States Senate hereby commends the community of Chase, Maryland, for its spontaneous outpouring of assistance to the rescue workers and the passengers of the ill-fated Amtrak train.

The PRESIDENT pro tempore. If there is no further discussion, the question is on agreeing to the resolution.

The resolution with its preamble, was agreed to.

Mr. BYRD. Mr. President, I have been asked by Senators SARBANES and MIKULSKI to have their names added to the resolution, and I make that request.

The PRESIDENT pro tempore. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, I ask unanimous consent now that the two leaders may proceed for up to 10 minutes each, with statements only.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The Chair now recognizes the two leaders, to proceed for 10 minutes each.

The Senate will be in order.

The Senator from West Virginia.

Mr. BYRD. Mr. President, I hope this time is not coming out of my 10 minutes or that of the distinguished minority leader.

The PRESIDENT pro tempore. The Chair cannot charge the 10 minutes until order is restored, at least to the extent that the speaker can be heard. We are waiting on the Senators who are making the noise, and when we proceed, we will charge the time to the speaker.

The Senator from West Virginia has 10 minutes.

Mr. BYRD. I thank the Presiding Officer.

Mr. President, for the information of all Senators, once the two leaders have made their statements, it will be my intention then to attempt to proceed to get Senate action on the bill that cleans up the Nation's waters and to get action on the resolution that creates a select committee to investigate the Iran-Contra matter. So Senators will be on notice.

Also, there will be at least one rollcall vote, if we can get to it, on the adoption of the select committee resolution.

THE NATION'S BUSINESS

Mr. BYRD. Mr. President, we begin today the process of doing the Nation's business. This is the 100th Congress of the United States, a historic Congress. It is a Congress that by its meeting here today vindicates and affirms the faith of our Founding Fathers that their great experiment in democracy would endure.

We begin the business of the Nation in an uncertain and unsettled time. The Iran misadventure has hurt the Presidency, made a shambles of American foreign policy, and called into question just how our foreign policy is formulated and implemented. More important, the American people are once again asking the question, what is going on in Washington? The current crisis is a crisis of trust. It is a testimony to the profound truth that if you do not trust the American people, then the American people will not trust you.

So our first duty in this new Congress is the restoration of public trust in the formulation of American foreign policy. It is clear that all parties—the President, the Congress, and the American people—want to know how the United States came to be in the position of selling arms to the terrorist nation of Iran and funneling those profits to the Contras in Nicaragua.

It is for that purpose that I am introducing with the Republican leader, Mr. DOLE, legislation to create a bipartisan Senate select committee to investigate all that has happened. The charge of the Senate select committee is to discover the facts, to ascertain if any laws have been broken, and to present its findings in such a way that there will be no lingering doubts in the minds of the American people. That is the charge.

I have every faith that the chairman of the committee, my distinguished colleague, Senator INOUYE, and his distinguished vice-chairman, Mr. RUDMAN, will conduct this investigation in a statesmanlike and bipartisan fashion—at such time as the resolution creating the committee is adopted—keeping in mind that one of the primary goals of this investigation is the restoration of the people's trust in the functioning of their Government; and trust in Government by the people is essential as we begin the 100th Congress.

Clearly, something happened on election day last November. The American people voted for change. And, change they will have. The time of business as usual is over. I believe we Democrats were placed back in the leadership of this Chamber for a very specific reason: To begin the task of fitting political actions and rhetoric to the reality of the world in which we live. The voters are telling us that they want to see a more moderate approach to domestic and foreign policy. They have demonstrated their faith in the importance of checks and balances.

And it is well to remember, as we begin this new Congress, that the tension between the executive branch and the legislative branch of our Government is a legitimate tension; a healthy and creative tension inherent in our democratic process. The Congress is a coequal branch of the Government. Coequal. We are not above the Presidency. We are not below the Presidency. We are the people's voice in a representative democracy.

It is my fervent hope that the White House will see the constitutional process of checks and balances as a healthy, positive process in restoring trust in our Government and in defining America's future. The Congress has the ability to help the President restore credibility to America's foreign policy, if only he will reach out to us. So we extend our hand.

It is my belief, that if the President reaches out to the Congress in strengthening America's arms control negotiating position; if he involves the Congress much more than has been shown up to now, he will then send a message to the Soviet Union that this current crisis will not divide America. We are united behind the President at the negotiating table and support his efforts for a fair and verifiable agreement.

All Americans want a strong America, a secure America, an America that can go to the negotiating table from a position of strength and unity. It is my intention to introduce legislation today, important legislation, to reauthorize the Senate arms control observer group. And, it is my intention, once the Committee on Foreign Relations has completed its work, to bring up for ratification two treaties governing nuclear testing. We must show our commitment to the arms control process. The Congress stands ready to work with the President.

Mr. President, our Nation's strength depends not only on military might, but also, to a large extent, on our ability to manage the Nation's economic affairs. They have not been managed well. Everyone is to blame: The President for sending the Congress budgets that are based on the economic principle of borrow, credit, and debt; the Congress for not resisting the temptation to put off till next year what it should have done last year.

So we are once again, as every Congress has been in the last 5 years, faced with the dilemma of how we deal with the Federal deficit. We have a limited set of options. It is clear that America no longer has any free spins on the wheel of fortune.

Yesterday, the President's Budget Office sent the Congress a budget that for the first time exceeds $1 trillion—a budget with a budget deficit that will be even greater than the official $107.8 billion. It has taken this administration just 5 years to add over $1 trillion to the national debt. If 5 months from now we are united on how we address the deficit, and we have the President on board, we will have made substantial progress. The process of moving the Federal deficit downward is, as we all know, a political process.

As Democrats, we are committed to keeping the budget deficit on a downward glide path. But like the *Voyager*, the experimental plane that flew around the world nonstop, we need two pilots—the Congress and the White House—working together in very cramped quarters. How we keep the deficit gliding down will depend to a large extent on the President's willingness to take the deficit problem out of the shadows of political rhetoric. The American people want the problem solved. They are tired of finger pointing. They want solutions.

I say this with special reference to the young people of America. Year in and year out we have been mortgaging their future by our unwillingness to pay our way. These young people are, as a recent Joint Economic Committee report indicated, heavily in debt from college loans as they begin their productive lives. On top of those debts, which they have assumed to become educated citizens, we are saddling them with an ever increasing national debt. This is wrong and well we know it.

When the day of reckoning comes, and surely it will come if we do not act now, surely these young people will have something to say to us about what we have done to their future. And, what will we say in reply? So I urge the President to work closely with the Congress to address this national problem.

A third great concern of the Congress in the months ahead must be America's continuing trade deficit. Currently, the United States has the dubious distinction of being the world's greatest debtor nation. America's trade imbalance is one of the principal causes.

Just 6 years ago, in 1981, the United States enjoyed a $13 billion surplus in its overall trade in goods and services. At that point, we were still strengthening our position as the world's largest creditor. Last year, we ran a deficit in goods and services exceeding $120 billion, which we financed by borrowing heavily from abroad.

Six years ago, we were the world's greatest exporting nation by far. We no longer lead in the race for world export markets. Both Germany and Japan now export more than the United States under current exchange rates.

In the month of November alone, the United States had a $19.2 billion trade deficit. We compiled a larger trade deficit in a single month than any other country in history has ever run in a year's time.

In addition, continued high interest rates have attracted billions of dollars in foreign investments. Last year alone, the United States borrowed $140 billion from foreign lenders and investors. It is this money and our willingness to go further into debt that has accounted for America's continued economic growth. Missing from current efforts to improve America's economic position is the understanding that we must compete in an interdependent global economy.

My distinguished colleague Senator BRADLEY of New Jersey has rightly stated that "competitiveness" is a "mush" word, a word that means everything and anything depending on who uses it. Clearly he is right for the moment. But the trade deficit numbers are not mush.

They are hard evidence that we are exporting our Nation's jobs and eroding our manufacturing base; we are not exporting the Nation's products.

We must restore balance to our trade account and stop borrowing so heavily from abroad. The trade deficit is only a critical symptom of our economic distress in the international arena. The real problem goes deeper.

As the U.S. economy has become intertwined with the economies of the rest of the world over the last two decades, we have not prepared America to excel in the new world marketplace. So as we proceed during this Congress, we must review not only our trade laws, but also our education and training policies, our science and technology policies and other economic policies from a different vantage point. We must look at creative new ways to make our products more appealing abroad and to open new markets for our exports. We must look at new ways to stop the erosion of our manufacturing and of our basic industries. Only then can we be sure of our national security.

This Congress, the 100th Congress of the United States, will send the President a trade bill.

We will send several pieces of legislation perhaps dealing with comprehensive subjects. Perhaps we ought to think in terms of broadening the debate. We will also be sending other legislation designed to treat the causes, not the symptoms, of our disastrous trade deficit and to promote American products abroad.

Mr. President, there are a great many other issues that confront this Congress. One of the most pressing is the need to reform how we finance our elections.

My distinguished colleague, Mr. BOREN, has worked diligently to keep this important subject before the Senate. Campaign finance reform must be high on our agenda.

Campaign finance reform will be one of my personal priorities. We cannot turn our democracy over to an aristocracy of money. Yet, year by year, we are insidiously chopping away at the very foundation of our democracy; namely, the ability of any citizen to enter the political arena regardless of his or her own economic status or ability to raise money.

Without campaign finance reform we will continue to subject our democratic process to control by the special interests and, more often, to the appearance of improper influence. So it is my hope and my intention that the Senate will move quickly to take up this important piece of business in the early months of the new Congress. As we convene the 100th Congress and celebrate the bicentennial of our Constitution, I believe that this and other steps aimed at restoring confidence in government are especially fitting.

Mr. President, there are a great many issues that will come before this Congress in the months ahead. I have touched on several of these in my opening remarks—our relationship with the President, the need to move forward on arms control, the deficit, the creation of a coherent trade policy, and the great necessity to reform how we finance our elections.

Other issues are also of great importance—repassage of the Clean Water Act, help for the American farmer, the development of a national policy regarding catastrophic illnesses, reauthorization of Federal education programs—and the need for this Congress to look searchingly at the whole question of what tools are used by America in furthering our broad foreign policy objectives.

America must meet the world on the terms that are offered. Terrorism, totalitarianism of the right and the left, and the abuse of human rights requires America to be prepared to use its military power. But must the military card be the only card that America is prepared to play? Or are there other ways—diplomatic and economic—that America with her allies, especially those in Latin America, can achieve our objectives. In months ahead this Congress will surely explore these questions.

Mr. President, this Congress, the 100th Congress of the United States, meets at a time of profound change in our country. We have been elected to guide America in a time when a simpler past gives way to a different and more complex future.

We are crossing the bridge from one America to another. By 1992, 6 years from now, Americans born since 1940 will dominate voting in Presidential elections. The America that we have been elected to lead is fundamentally new. How we define and prepare America under these new conditions will be the measure of our success.

Our task in the immediate, as we begin this historic Congress, is to get on with the business of the Nation with energy and initiative. Our task in the larger order: To lift up our sights and begin the process of defining America's future.

May I say in closing, Mr. President, that I consider it fortunate for me indeed to have as the distinguished leader on the other side of the aisle the illustrious son of the State of Kansas, Mr. Dole. He has served as a majority leader in this body. He has served well, and I am confident that I will have his cooperation as we attempt together to push the program of the Senate forward and to schedule from day to day the measures that are ready for consideration. I know in the very beginning what his tasks will be, having been in that same position myself not too long ago. He will represent his party. He will represent his conscience. He will represent the Nation.

We cannot always agree. There will be times when we will disagree, but disagreeing with my colleague on the other side of the aisle or any of my colleagues is a matter that is never personal and always as I go out of the Chamber, I know that Senator Dole will go out of the same Chamber feeling the same way. We leave the problems and the disagreements here and hopefully they will not be here on the next morning or the next day when we return for our business. Never can these matters of this kind be considered personal.

He is a great legislator. He is very wise. Indeed, I will need his cooperation.

We cannot move this legislation forward by ourselves. We need the cooperation on that side of the aisle.

I appeal to the distinguished minority leader for that cooperation. I hope that as minority leader I gave the distinguished majority leader at that time the cooperation that he needed in order to keep the business of the Senate moving forward. I pledge to him that it will be my intention to move the legislation expeditiously and to utilize the time of the Senate as best can be used and to complete the work of the Senate each day if possible, keeping in mind that the business of the people comes first and, second, that there is such a thing as quality of life. I want to be conscious of every Senator here, of the quality of life of every Senator on both sides of the aisle, the families of Senators, the loved ones of Senators, the health of Senators. I want to be mindful of all these things.

I want to move the business of the Senate forward, and I hope that we can avoid night sessions. I hope we will never have another one, but of course we will. But I hope that we can make those night sessions come as seldom as is possible and I hope that in the final anaylsis we can do our jobs well and complete the work of this first session of the 100th Congress and adjourn sine die at a reasonable time during the latter part of the year, hopefully no later than the first of October.

So having said that, I yield the floor to my very distinguished colleague.

The PRESIDENT pro tempore. The Senator from Kansas is recognized for 10 minutes.

Mr. DOLE. Mr. President, I thank the distinguished Presiding Officer and I want to extend my congratulations to this outstanding Senator from the great State of Mississippi. It is an honor to serve in this body with Senator Stennis for all of us, and I know the new Members will find that to be true in a very short time.

Mr. President, it is a new year and a new Congress, and yes, a new and different Senate. As we open the historic 100th Congress, let me welcome all of my new colleagues, Republicans and Democrats, to this great institution.

I want especially to congratulate the distinguished majority leader, Senator Byrd, who is once again the leader of this body. He has been a tireless and effective leader for his party. Our titles may have changed, as he just indicated, but we still have an obligation to cooperate and try to work together. I would say as far as improving the quality of life of this body, I stand prepared to do all I can to make that happen.

I recall the last year we had a meeting—maybe we can have another one this year, depending on the distinguished majority leader—where we had 70 Senators come to the meeting and talk about the quality of life, and I recall in that meeting the statement by the distinguished Presiding Officer, the distinguished Senator from Mississippi, Senator Stennis, that the leaders were powerless, that the Members in effect dictated what the leaders could and could not do; and he was absolutely correct.

I know one of the greatest frustrations I had, not so great that I wanted to lose it, one of the greatest frustrations I had as a majority leader was trying to accommodate every Senator and still get the work done because we were told, "We cannot vote on Monday," "I have to leave early on Friday," "I don't want to be here on Tuesday," "I would like to leave here Wednesday, but I will be here all day Thursday." That is 1 day. And then you have that 100 times or maybe 98 times. The leaders are generally here. So it does give us an opportunity. I cannot think of a better thing to happen in the 100th Congress than do precisely what the majority leader indicates he wants to do, to stop the all-night sessions. They may be necessary from time to time. I always thought they were necessary on the tax bill so that the staff finally went to sleep, the amendments would stop, and would complete the bill.

But it is a very difficult process, and I want to congratulate the Democrats. They have won the election. They are in the majority, and I congratulate them.

I believe that over the last 6 years, first with the leadership of the distinguished Senator from Tennessee, Senator Howard Baker, and hopefully the past 2 of those 6 years of my leadership and the leadership of other Republicans, we have been able to demonstrate to the American people our willingness to make hard choices. We did not achieve everything we wanted. Sometimes we had our disagreements with the other side; sometimes not.

More often we were able to work it out because again, as the distinguished majority leader has said, 55 to 45 is a majority, but you still need the cooperation of some of the 45.

And we are going to try to provide it—we are going to try to demonstrate it on this first day if we can, to get up a select committee resolution, work it out, pass it, and there will be a rollcall vote; to try to work out some accommodation, if we can, on the clean water bill, to protect the rights of those who have a different view, including the administration and the distinguished majority leader and others on both sides who want to pass the identical legislation we passed last year. So I just suggest that we have an opportunity.

And, again, I know that our distinguished President pro tempore will continue in the fine tradition we have had under his long-time friend and my long-time friend, the distinguished senior Senator from South Carolina, Senator Thurmond, who so ably occupied that office and carried out the responsibilities very well.

I must admit it is going to take a few days to adjust. I found myself this morning wanting to jump up and get order and do all those things leaders do. So, I hope that the distinguished Senator from West Virginia will be patient. We will not adjourn the Senate or anything like that—it might not be a bad idea from time to time, but we will not do that.

As I said to the Senator from West Virginia when I became the leader, there would be no surprises—and I hope I kept my word—I would not come to the Floor in his absence or doing something that would somehow frustrate the efforts of the minority or majority. And that is the kind of working relationship that we will continue to have.

So we will adapt to our new status on this side. We have had our first conference this morning. We had a number of statements by a number of my colleagues, Republicans, and we hope this is only a temporary position we find ourselves in, but that will be determined at a later time.

But now as the majority leader has indicated, we have other responsibilities, and I think we can carry them out. Notwithstanding the executive branch, we have our own responsibilities; notwithstanding our great respect for the President of the United States, we have our responsibilities. We are the people's representatives. We are elected by the people, many of us reelected in 1986. And I would guess that we have enough business to do to occupy nearly every day of this coming year.

I believe we will be judged by the state of the economy; by our relationships with our allies and adversaries; by the quality of life our citizens enjoy; and by the advance of democracy and freedom around the globe. We will be judged as leaders by whether we were willing to make the hard choices. And sometimes the choices are very difficult. Many times we cannot satisfy everyone who may have a particular point of view. But it would seem to me that if we make the hard choices now, we may have a brighter future for Americans down the road.

Certainly the challenges facing this 100th Congress are going to test our mettle day after day after day. Whether it is the budget, whether it is the trade deficit, whether it is the health care, whether it is saving the family farm, arms control, or aid to freedom fighters, the issues are as difficult as they are critical.

With all these policy decisions facing us, the Senate, and the country for that matter, cannot afford to be consumed by the Iranian arms sales affair. And that is the purpose of the select committee, to give the leadership, the distinguished majority leader, Senator BYRD, and myself, the time to carry out our responsibilities to take care of other legislation, and, I believe, the leadership of the distinguished Senator from Hawaii, Senator INOUYE, who I have known since we were back in the hospital together, back in Percy Jones Hospital, in Battle Creek, MI, 40 years ago. So we have known each other a long time. He is a man of outstanding integrity and character and will be totally fair; no doubt about it. And on the Republican side, the distinguished Senator from New Hampshire, Senator RUDMAN, again is an able lawyer and cooperates well with Members on both sides. I believe they have a balance on that select committee at the time that will serve the Nation and serve this body quite well.

But we do want to get on with the work quickly. I hope we can resolve any difference we might have today on the committee resolution.

As the Republican leader in the Senate, as a supporter of the President, and as a citizen, there is no one more committed than I to getting all the facts out. And I would say again today we could start by releasing the report of the Intelligence Committee to let the public know. We should not be afraid to let the public know what has been declassified. It is information that ought to be in the public domain. And again I would urge somehow we might accomplish that in the next few days.

In the long run, while we are in the process of digging up the facts, we should not lose our focus and we should not lose sight of our other responsibilities. We have got all kinds of problems. We always have all kinds of problems. And I hope that we can meet our responsibilities.

I would just say, finally, it is going to take cooperation. As I have indicated earlier, I intend to cooperate with the distinguished majority leader, and he is a distinguished majority leader. I have watched Senator BYRD over the years. I have tried to learn from Senator BYRD over the years. When it comes to the rules, I gave up. There is no one who can match Senator BYRD's knowledge of the rules. And I am not certain how it is going to work. Now that I am the minority leader, he can probably do most anything and I will never know the difference. But we will try to be alert and see what happens.

But I would just say that we ought to make a pledge today—and I am prepared to make that pledge today—while the slate is blank; I mean, there is nothing blocking us today—to write a record of achievement that we in the country can take pride in, not a partisan record, but a record.

There are problems that people demand we address and some we can address. And I think if we do that, it will be a record that we were worthy of the confidence and worthy of being U.S. Senators. And I am certainly pleased to participate in that effort and I do at this time, as I will every day that I am here to cooperate where I can with the majority leader.

We are going to have differences. There are going to be some Senators who may not agree; they may be on this side, they may be on the other side. But where we can, I am not one who likes to sit around and waste time. There are other things you can do with that time. In fact, I have just thought of a few.

REPUBLICAN LEADER OCCUPIES FRONT-ROW DESK

Mr. DOLE. Mr. President, as we meet in the 100th Congress, in anticipation of the Senate's bicentennial, we are more than ever mindful of the long history of this great institution. Most Senators are aware that they are Members of a continuous body that began in 1789; that they sit in this Chamber at desks once used by Henry Clay, Daniel Webster, and John C. Calhoun; that they occupy offices in the Senate Office Building once used by Robert Taft, Harry Truman, and Everett Dirksen; and that they serve on committees which were created in the early 19th century. For my part in the Senate bicentennial, I plan to deliver a series of regular "bicentennial minutes," short statements on significant people, unusual customs, and memorable events that took place in the Senate's life on that particular day.

For instance, I am standing at a desk that traditionally is assigned to the Republican floor leader. It would be a mistake to think that Republican leaders have always sat here, but this tradition is now 50 years old. On January 5, 1937, Charles McNary of Oregon became the first Republican leader to sit at this desk. Previously, it was occupied by a senior Republican, Arthur Capper of Kansas, while Republican Leader McNary sat several seats down on the front row. By contrast, Democratic leaders had been seated front and center on their side of the aisle since 1924. Out of a sense of symmetry, and in recognition of the growing role of the floor leader, the Republican leader moved to the aisle desk at the beginning of the 75th Congress. Senator Capper took the desk at his side. Here, over the next 50 years, have sat each of the Republican floor leaders: Wallace White, Kenneth Wherry, Robert Taft, William Knowland, Everett Dirksen, Hugh Scott, Howard Baker, and myself. I am proud to stand in that company, and to continue that tradition.

The PRESIDENT pro tempore. Would the Senator from West Virginia and others indulge me for just a minute? I was going to ask the Senator from Kentucky to serve now for a time as acting President pro tempore.

Mr. BYRD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. FORD). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. EXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, I object for just a moment. I object.

The PRESIDING OFFICER. Objection is heard. The clerk will continue.

The legislative clerk resumed the call of the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

CLEAN WATER LEGISLATION

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I apologize to the distinguished Senator from Nebraska [Mr. EXON] for objecting to the calling off of the quorum, the reason being Mr. DOLE and I are about ready to proveed with two very important pieces of business, and I would prefer that Senators wait until we get these items out of the way. There will be possibly a rollcall on at least one of them, hopefully, during the day. There will be a time later in the afternoon during which Senators may speak and introduce legislation.

Mr. President, I am about to ask unanimous consent to proceed with a consideration of what will be Senate bill No. 1, a bill to clean up the Nation's water. For the record only, the distinguished Republican leader and I have discussed this. But for the record so that the distinguished Republican leader will be protected as well as anyone else, may I say that under rule XIV, if there is an objection to the consideration of this bill today it would be my plan to adjourn today to go over until tomorrow, then adjourn tomorrow to go over to Thursday, and then adjourn Thursday to go over to Friday. In this way the bill can be forced onto the calendar through the mechanism of rule XIV.

I do not want to bring the Senate in tomorrow for that purpose. The distinguished Republican leader does not want to bring the Senate in tomorrow for that purpose. I believe, in discussing the matter with the distinguished Senator, that we will be able to work out a way whereby we will not have to come in tomorrow for the purpose of advancing the Senate bill dealing with the clean water to the General Calendar. Therefore, I yield to the distinguished Senator from Kansas, [Mr. DOLE] for his reaction.

I, at the moment, will ask unanimous consent. This is a bill which I am about to introduce which carries the same language as was included in the conference report that passed the Senate during the closing days of the 99th Congress to clean up the Nation's water, and the exact same language is included in this bill. I ask unanimous consent that the Senate proceed with the consideration of the bill which I am about to introduce.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DOLE. Mr. President, I thank the distinguished majority leader.

What I would suggest, if it is agreeable, rather than come in and then come in again just to serve that purpose, I will have a substitute. It is, I think, a good clean water bill. It costs less money: Instead of 10 years and $18 billion, it has a 10-year total of about $12-plus billion. In the first couple of years the spending is pretty much the same. It will be $400 million the first year, $500 million the second year, but all the environmental provisions and the regulatory provisions are pretty much identical. I am talking about the cost of projects.

If the distinguished majority leader would agree, I would not object to a unanimous-consent request to put his bill on the calendar if in fact I could make the same request to put the bill that the administration has suggested on the calendar. We would just save that much time.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader. I think he has made an excellent suggestion. It will save the time of the Senate. If the Senate is able to complete action on the resolution creating a select committee on the Iran matter, then as I see it, the Senate would probably not be in tomorrow.

So I ask unanimous consent, Mr. President, that the bill which I send to the desk on behalf of Mr. BURDICK, Mr. STAFFORD, Mr. MITCHELL, and Mr. CHAFEE, be placed on the calendar.

This is with the understanding that Mr. DOLE will have a unanimous-consent request which he will make immediately following my request if it is granted.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Kansas.

Mr. BURDICK. Will the Senator yield?

Mr. DOLE. Mr. President, I would make the same unanimous-consent request for the bill which I now send to the desk dealing with the Clean Water Act be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Again, I want to thank the distinguished Republican leader for his cooperation in resolving this matter which I think is a very amicable way and evenhanded and judicious way.

S. 1—THE WATER QUALITY ACT OF 1987

Mr. BYRD. Mr. President, I am pleased to introduce on behalf of Senators BURDICK, STAFFORD, MITCHELL, and CHAFEE, the Water Quality Act of 1987. This bill is identical to S. 1128, the Water Quality Act of 1986, which was approved unanimously by both the House and the Senate at the end of the 99th Congress and subsequently pocket vetoed by the President.

It is my intention that the Senate act expeditiously on this bill so that it may be returned to its rightful place—the President's desk.

I am not seeking confrontation. This is important and much needed legislation if we are to maintain this Nation's commitment to cleaning up our lakes and waterways. Swift action by the Congress is essential to the effort, because the President's veto has created unnecessary delay and uncertainty in the administration of the Clean Water Program.

For example, this bill provides needed adjustments to statutory compliance deadlines and other requirements under current law. These adjustments are critical to industrial sources that are now technically in violation of key compliance dates because of regulatory delays encountered by the Environmental Protection Agency in issuing certain regulations.

Further delay will also have a devastating impact on municipal wastewater treatment plant construction and State and local plans to comply with mid-1988 secondary treatment requirements—$1.2 billion, or one-half of the funds needed for the 1987 construction season, cannot be released without a new authorization and appropriation.

In my State of West Virginia, this could have the effect of denying local governments up to $151 million in construction grants necessary to begin the work needed to meet the July 1, 1988, compliance deadline. Enforcement action could be taken against those cities failing to meet the requirement, which, in turn, could result in fines and additional costs that local governments cannot afford.

Without authorization from the Congress as provided in this legislation, several new water quality initiatives must be postponed. These include new programs to control toxic pollutants, manage nonpoint sources of pollution, and to establish new water quality plans for the Nation's estuaries.

This legislation also contains a provision that will allow for the remining of abandoned coal mine sites with preexisting discharges. This is designed to encourage coal operators to remine these sites and improve the water quality of the area. This is of great importance to West Virginia where there are many abandoned mine lands and current Federal programs to reclaim these areas are inadequate to ensure a safe and adequate water supply.

Mr. President, this bill was approved with the support of all the Republicans and all the Democrats in the 99th Congress. This is bipartisan legislation. It is not budget-busting. It authorizes $18 billion in aid for wastewater treatment plant construction through fiscal year 1994, with annual amounts limited to $2.4 billion. Given the EPA's own estimate that $109 billion is needed by the year 2000 in order for all communities to be in full compliance with existing law, this is a small price to pay. Most importantly, this legislation includes capitalization for State water pollution control revolving funds. These revolving funds are designed to move States toward financial self-sufficiency for wastewater treatment construction.

As I said at the beginning, this legislation should not be viewed as confrontational. It is a crucial step in achieving one of our national priorities—clean water. And it is in keeping with the budget passed last year by Congress. I hope the President can see his way to join with the bipartisan majority in Congress and support this legislation.

I ask unanimous consent that I may yield to the distinguished Senator, Mr. BURDICK, who is the chief cosponsor of this measure, for a statement which I believe he is going to make, without my losing my right to the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURDICK. Mr. President, I am pleased today to join over 70 of my colleagues in introducing Senate bill 1—the Water Quality Act of 1987.

The legislation will reauthorize one of the Nation's foremost environmental statutes—the Clean Water Act. It is identical to legislation approved by Congress last year but vetoed by the President after the end of the session.

Before proceeding, I would like to take a moment to express my appreciation to Senators CHAFEE, STAFFORD, BENTSEN, and MITCHELL for their tireless and excellent work on this legislation over the past 2 years.

Senator CHAFEE deserves special recognition as the architect of this vital legislation. The high quality of the legislation is largely due to his efforts.

Senator CHAFEE, along with other interested members of the Environment and Public Works Committee, developed this legislation in hearings early in 1985, brought it to the Senate floor in June of that year, and conducted a successful conference with the House in the summer of 1986.

The efforts of these Senators were so successful, that the final conference report was approved unanimously by both the House and Senate.

Unfortunately, President Reagan chose to veto the legislation.

I believe that the President missed a valuable opportunity when he vetoed the Clean Water Act reauthorization several months ago. He missed an opportunity to revise and improve many of our current water quality programs. He missed an opportunity to endorse new programs to address emerging pollution problems. And, he missed an opportunity to demonstrate to the American people that he shares their commitment to a safe environment and clean water.

In introducing this legislation today, we plan to give the President a second chance—another opportunity.

Much of the recent discussion of the bill has focused on a few of the major provisions of the bill. The President has criticized the level of funding for assistance to communities for construction of sewage treatment facilities. New programs to deal with toxic pollutants and pollutants from nonpoint sources have been discussed at length drawing positive comments.

It is important to remember, however, that this legislation includes some 70 provisions. Let me take a moment to briefly review some of these provisions.

The bill provides for management conferences to resolve water problems in estuaries. Some $12 million a year is authorized for the program.

The bill provides a program for the protection of the Chesapeake Bay. Grants to States to address pollution problems are included. Three million dollars per year is authorized for the EPA program office and $10 million is authorized for State grants.

Another provision would assure the continuation of the EPA Grant Lakes Program Office and direct the Office to assess water quality problems in the lakes and coordinate agency activities. An annual authorization of $11 million is provided.

The bill would revise and expand the current requirement for State reporting of lake quality and adds a new section providing for special lakes demonstration projects. An authorization of $30 million is provided for lakes programs with additional funding for demonstration projects.

The bill tightens provisions for waivers from secondary treatment for discharges of municipal sewage to marine waters.

The bill provides Indian tribes with a set aside of one-half of 1 percent of the construction grant fund for construction of sewage treatment works. Tribes are also granted new authority to act as States for the implementation of some programs under the Clean Water Act.

A new authority for administrative civil penalties is added to the law and changes are made to strengthen the civil and criminal penalties provisions of the act.

Finally, the bill provides a specific process for development of regulations governing permitting of municipal stormwater discharges.

Mr. President, I could go on to describe provisions addressing issues such as coal remining, sewage sludge, or the unique problems of communities ranging from San Diego to Boston.

The point to remember is that this legislation is far more than an authorization of sewage treatment grant money. It reaches into virtually every element of our water quality program and it addresses a wide range of water quality problems. Many of these pollution problems will go unchecked if we fail to enact this legislation.

Some of the most capable Members of the Congress have worked long and hard to develop this legislation. The final product has the support of the full spectrum of industry and environmental groups. And, I think it is clear that the American people want us to stand by our commitment to ensure that our rivers, lakes, and streams are of the highest quality.

I urge my colleagues to support this bill and I urge the President to take a second look and join us in supporting clean water and a safe environment.

Thank you, Mr. President.

Mr. MITCHELL. Mr. President, I join Senators BYRD, BURDICK, CHAFEE, STAFFORD, and others in introduction of the Water Quality Act of 1987.

This legislation will extend and strengthen one of our most fundamental environmental protection laws—the Clean Water Act.

Introduction of such a major reauthorization bill is usually a time to speak of the problems the bill will address, the difficult issues to be resolved, and the importance of hearing the views of interested groups as final legislation takes shape.

But the Water Quality Act of 1987 is unusual legislation. During the last Congress, under the leadership of Senators STAFFORD, BENTSEN, and CHAFEE, the Senate held full hearings on clean water issues and passed comprehensive amendments to the act.

The House also passed amendments to reauthorize the act and, in October of last year, both Houses passed, without a dissenting vote, the report of the House/Senate conference committee on the bill.

As we all know, President Reagan vetoed the bill.

I deeply regret the President's action. It was a major setback to our efforts to protect the environment and clean up our rivers, lakes and marine waters. And, it undermined our national commitment to clean water, a commitment which has been unwavering since the Clean Water Act was first passed in 1972.

The legislation we are introducing today is intended to undo the damage done by the President's veto. The bill is identical to the legislation approved by Congress late last year. Its enactment will get our clean water programs back on track and moving forward again.

So, in introducing this legislation today, we do not face the usual questions of defining problems or resolving issues. Rather, we must convince the President that his veto of the clean water legislation was misguided. And, if the President will not join us in support of this vital legislation, we must convince the Members of the House and Senate to override his veto of the bill.

Why should the President change his position and support this bill? And why should my colleagues vote to override a veto? I believe that there are three key reasons: This is good legislation; it is fiscally responsible legislation, and it is backed by the overwhelming support of the American people for clean water.

The Water Quality Act we are introducing today is good, solid, no frills legislation addressing some of our most pressing water pollution problems. Of the many provisions of the bill, several stand out.

The bill provides a new approach to control of toxic pollutants in water. Under the current law EPA is required to establish uniform, minimum controls for toxic pollutants. There is no assurance, however, that these controls will result in a safe level for a particular water body. Although the current law provides general authority for toxics control, this legislation initiates a specific process designed to identify and control these toxic substances.

The legislation requires States to identify waters that do not meet water quality standards due to the discharge of toxic pollutants; to adopt numerical criteria for the pollutants in such waters; and to establish effluent limitations for individual discharges to such water bodies.

This provision is an important addition to our ability to protect water quality and public health from increasing amounts of toxic chemicals.

Another key amendment of the bill provides for State programs to identify and control nonpoint source pollution, such as runoff from city streets and agricultural lands. These nonpoint sources of pollution are thought to cause over half of the remaining water pollution problems.

States will identify waters affected by nonpoint sources of pollution and develop programs to implement best management practices for controlling this pollution. State programs will include a schedule for implementation and will be coordinated with related Federal projects.

Finally, the bill provides State and local governments with a clear statement of future Federal involvement in treatment plant financing and allows them to finalize plans to meet the compliance deadlines established in the law. It provides for a transition from the current grant program to a program providing Federal support for State revolving loan funds. Establishment of loan funds will complete the process of transfer to State control of the municipal treatment construction program.

The second reason to support the bill is that the total funding authorizations are a reasonable and responsible compromise between the costs of the many, badly needed water quality projects and the need to control the Federal deficit.

President Reagan has cited his concern for the total authorization of $18 billion for assisting communities in funding of construction of sewage treatment facilities. The President proposed a funding level of $6 billion, and now seems to think that $12 billion might be acceptable. I believe we need to stick with the $18 billion figure for several reasons.

This amount is small compared to the total cost of needed projects, estimated by the EPA to be about $100 billion.

This authorization is spread over 9 years. The annual authorization for the first 6 years is $2.4 billion.

The annual authorization of $2.4 billion is a sharp drop from previous funding levels of between $4 and $5 billion.

Local communities will pick up a greater share of the costs of these projects. Previous amendments provided for the reduction in the Federal share from 75 percent to 55 percent of project cost. The proposed shift from grants to loans will continue this shift toward State and local funding of project costs.

Of the $18 billion, $8.4 billion will be used to capitalize State revolving loan funds. These State funds will be paid back by communities and will be a long-term investment in water quality facilities.

Finally, this total authorization is consistent with the commitment, made by the administration as part of the 1981 amendments to the Clean Water Act, to support funding at the $2.4 billion level through fiscal year 1991. In return for this long-term funding commitment, Congress agreed to lower annual appropriations, lower the Federal share of project costs, and limit the types of projects eligible for funding.

The third, and perhaps most important, reason the President should support this legislation is it has the overwhelming support of the American people. Both Houses of Congress passed the bill unanimously. Industry and environmental groups support the bill. And polls show that the public favors continued effort to improve water quality by large margins. Final enactment of this legislation is an important step toward carrying out this mandate.

In the budget outline he sent to the Congress recently, the President proposes to increase spending for foreign aid by $2.3 billion to a new record of $19.1 billion. If we can afford that, we can afford to keep America's water clean.

In conclusion, Mr. President, I hope that President Reagan will take another look at this bill. I think he will find that it is solid legislation, that its funding levels are reasonable and responsible, and that it has overwhelming public support.

If, however, the President vetoes the bill, I will do everything I can to convince my colleagues to override it.

Mr. SARBANES. Mr. President, as an original cosponsor, I want to thank my colleagues, Senators Burdick, Stafford, Mitchell, and Chafee for reintroducing today the Water Quality Act, which President Reagan vetoed last year. Following the veto, I indicated that passage of this important legislation early in the session would be one of my highest legislative priorities, and I applaud the members of the Senate Environment and Public Works Committee for their leadership. The clean-up of the Chesapeake Bay is the highest environmental priority in Maryland, and this bill is absolutely essential to that effort.

The Clean Water Act, first passed in 1972, has been an important element of the national effort to clean up our Nation's waterways. In many cases, we are now beginning to see the benefits from the investment made in clean water. Here in the Nation's Capital the water quality of the Potomac River is improving each year thanks to the partnership of the Federal Government, the States, and the District of Columbia. Yet much remains to be done. Many rivers and lakes in this country are still unsafe for drinking, fishing, and recreation.

The bill introduced today contains $52 million over a 4-year period for the Chesapeake Bay clean up effort. As you know, under the able leadership of our former colleague, Senator Charles McC. Mathias, Jr., the Federal Government recognized the critical importance of the Chesapeake Bay, this country's largest and most important tidal estuary. Enactment of this bill would further the goal of cleaning up the bay. It provides $3 million to support the work of the Office of Chesapeake Bay Programs in the Environmental Protection Agency as well as $10 million a year in grants.

In addition, the reauthorization of the Municipal Sewage Treatment Construction Program is a vital part of the multistate effort to improve the water quality of the Chesapeake. Under this bill, funds for treatment plants would still be available on a formula basis and would be recycled as States repaid loans under a revolving fund loan program.

Mr. President, passage of this legislation is an urgent priority, and I urge my colleagues in the Senate to give it the same overwhelming support this year that they did last year.

Mr. FOWLER. Mr. President, as the historic 100th Congress convenes, I am very proud to be a cosponsor of legislation which will reauthorize the Clean Water Act.

I was extremely disappointed last year by President Reagan's veto of the Clean Water Act, which was passed unanimously by both the House and Senate. The Clean Water Act which Congress sent to the President last session was a reasonable and effective measure, one that was a sound balance of our commitment to cleaning up our precious water resources and safeguarding the cities and industries that must help in reaching this critical goal. I believe Mr. Reagan's veto was ill advised and a mistake which we in Congress have a duty to rectify.

In the past decade, we have made great progress in cleaning up our Nation's waterways, and we must continue the steps taken rather than allow the type of pollution before strict controls were enacted. The measures called for in the Clean Water Act are crucial to cities throughout the Nation which are under a federally mandated deadline of July 1, 1988, to upgrade their facilities to secondary treatment standards. The President's veto already has created severe financial problems, not only for cities in Georgia but across the country, requiring slowdowns of many projects and the impending cancellation of others.

Mr. Reagan faulted the measure for what he calls "excessive budgetary levels." However, the President ignored one of the most important provisions of the measure—the mechanism for an orderly phaseout of the Construction Grants Program over the next 4 years in a way that ensures we do not simply walk away from those who have been promised help and who still need it to make sure our water resources are preserved. Municipal and State officials across America are willing to shoulder their part of this responsibility; we at the Federal level cannot abdicate our commitment.

I am heartened by the breadth of support demonstrated last session for reauthorization of the Clean Water Act, and I urge all of my colleagues to once again vote for this measure, which will result in a safer, clearer environment for us and the generations to come.

Mr. LAUTENBERG. Mr. President, I rise in strong support of S. 1, the Clean Water Act Amendments of 1987. This same legislation was unanimously adopted by both the House and Senate at the close of the last Congress. We knew then and we know now that this bill is a significant step forward in protecting this Nation's waterways, and deserves our support.

With its construction grants components, its nonpoint Source Pollution Program, its tightening of toxic discharge controls, and Storm Water Permitting Program, this legislation will do much to address major environmental challenges.

Unfortunately, President Reagan pocket vetoed this legislation. The administration asserted that the bill's authorization for construction grants was excessive. But this claim does not take account of the high costs of sewage treatment construction. It has been estimated that $109 billion is needed to finance such construction throughout the Nation, including $4.5 billion in my State of New Jersey.

Compared to these large needs, the bill before us is no budget buster. It is a rational downpayment on a major national problem. This legislation spreads $18 billion over 9 years for its Construction Grants Program. This sum is gradually allocated. And almost half of it—$8.4 billion—is targeted for State revolving loan funds. Such State loan funds will help create a self-sustaining source of money for States to finance local construction.

A strong Construction Grants Program is essential for economic development across this Nation. If we do not have the sewage treatment facilities to handle the wastes resulting from economic development, we cannot move aggressively forward with such development.

Mr. President, the costs of not enacting this legislation—the harm to our environment, the burdens on our States and localities, and the damage to economic development—far exceed those of this measure.

It is clear that this is a nation committed to the principles embodied in this measure. In the early 1970's, the people of this country made a fundamental decision that they wanted a concerted effort to clean up the Nation's waters—waters that are used for fishing, swimming, recreation, and drinking water.

This decision was made because of our growing awareness of and concern about water pollution. News accounts told us about Lake Erie being "dead," the polluted Cuyahoga River in Ohio so filled with oil and debris that it caught fire, millions of gallons of raw wastewaters being dumped into the country's major rivers, such as the Hudson River, and many fish kills and oil spills.

The Congress responded by passing the Federal Water Pollution Control Act Amendments of 1972. This act established a goal—to restore and maintain the integrity of the Nation's waters—which captured the essence of the Nation's desire for clean water.

Mr. President, during the 13 years this act has been implemented, impressive strides have been made in cleaning up our Nation's waters. But much remains to be done. The Clean Water Act Amendments of 1987 include a number of provisions which address problems which are preventing us from achieving the goal of the Clean Water Act.

Also of great importance is future funding for the construction grants program. Since passage of the Clean Water Act in 1972, Federal, State, and local sources have invested more than $56 billion in municipal wastewater treatment facilities, resulting in the construction or improvement of approximately 3,500 treatment facilities. Properly running sewage treatment facilities are an essential component for cleaning up the Nation's waters. For example, sewage treatment plants in 1983 were removing 65 percent more of the two principle conventional pollutants—suspended solids and biological oxygen demand—than they were a decade earlier.

Yet it is clear that the existing construction grants program is inadequate to meet remaining national needs. According to EPA, eligible construction needs through the year 2000 total $53 billion. Ineligible needs, those needs not eligible for Federal funding under the Clean Water Act, are more than $50 billion. According to estimates, New Jersey alone has $4.5 billion in eligible funding needs. New Jersey only receives approximately $100 million per year in existing Federal construction grant funding. Therefore it is imperative that we implement a new method of financing sewage facilities. A creative framework, which had its origins in New Jersey, is the concept of revolving loans.

The Clean Water Act Amendments of 1987 adopted this concept and will move us closer to the goal of providing an adequate source of stable funding for sewage treatment facilities. S. 1 would authorize $18 billion over 9 years for Federal sewer construction grants and loans. Under the bill, the Federal Government will gradually reduce categorical grants for sewage treatment facilities as it phases in a program of grants for States to capitalize State revolving loan funds.

These funds will provide the capital for municipal wastewater treatment facilities in the future. States can make low or no interest loans available to communities for construction of treatment facilities. As loans are repaid to the State revolving loan funds, the State will be able to loan money to additional communities.

In addition, Mr. President, this bill will help spur the construction of needed sewerage facilities. In the case of municipalities which proceed to begin construction with their own funds, refinancing is permitted from a State revolving loan fund. Presently, most municipalities wait until it is their turn to receive Federal construction grant funding before they begin constructing needed facilities. This refinancing feature of the revolving loan program would eliminate the disincentive for municipalities to move ahead quickly with construction that now exists with the grants program.

Municipalities are facing a 1988 deadline for installing sewage treatment facilities which provide secondary treatment. EPA has threatened to restrict development in municipalities which are not in compliance with the 1988 deadline. New Jersey imposed sewer bans in many municipalities and has warned others that they face such bans if the discharge from their sewage plants will not comply with requirements of the Clean Water Act. The reimbursement provisions in the conference report to S. 1128 should stimulate cities to meet the 1988 deadline.

Under the bill, States will have to enact legislation to give a legal entity of the State the powers prescribed in the act. During consideration of this legislation during the last Congress, the Environmental Pollution Subcommittee agreed that this legal entity can be an existing or new State entity or agency. When the States enact legislation to implement State revolving loan funds, they will have the flexibility to determine how the fund will operate subject to the requirements of this provision of the Clean Water Act.

For example, States would be able to establish loan terms based on the financial needs of municipalities with easier loan terms available to poorer municipalities. States can decide to initiate their loan funds prior to fiscal year 1989, the year they are required to do so. When States enact revolving loan legislation, they can determine whether to begin using their construction grant funds to capitalize their revolving loan funds prior to fiscal year 1989 and if so, under what terms.

Mr. President, I believe that the revolving loan concept contained in the bill will provide a stable source of funding for the construction of sewerage facilities while providing States with the flexibility to minimize the financial burden of these facilities on local municipalities.

The Clean Water Act amendments only slightly revised the allocation formula for construction grants. I would have preferred the Senate approach during the last Congress, which would have provided New Jersey with $15 million more in grant funds. But New Jersey stands to receive approximately the same amount it has been receiving—up to about $100 million this year—in such funds under S. 1. And the State will receive about $650 million over the life of the bill.

S. 1 also includes the Raw Sewage Abatement Act of 1985. This legislation, which I sponsored, limits the discharge of raw sewage by New York City. At the time I introduced this legislation, New York City was the only major municipality in the country which still discharged raw sewage and wastewater into surrounding waters, without preliminary treatment of its wastes. It did so because of the absence of sewage treatment facilities in two major drainage areas in New York City. Two court-ordered deadlines to cease this practice were disregarded by the city.

The provision that I sponsored imposed a cap on raw sewage discharges from the drainage areas in New York City which were without treatment plants, if the city failed to meet the deadlines for achieving advanced preliminary treatment contained in its current consent decree. If these deadlines were met, the cap would be unnecessary because all raw sewage discharges will cease. If the city failed to meet these deadlines, a cap was to be imposed in the drainage area in violation of the decree. It was to stay in effect until the city brought the affected plant on-line and it operated successfully for 6 months.

The imposition of a cap on raw sewage discharges upon a violation of the consent decree in effect said to the city of New York, "You cannot continue to grow without restraint if you cannot treat your wastes."

Upon violation of the cap, the city would be subject to the enforcement provisions in section 309 of the Clean Water Act. These penalties would be in addition to those provided for violation of the consent decree. They include tough civil and criminal penalties, and would enable EPA to seek a temporary or permanent injunction against the city, to bring civil actions against the city, and to initiate criminal prosecution in cases of negligence or falsification of records.

With the changes adopted in the conference report to section 309 of the Clean Water Act, a violation of the cap imposed by this amendment could result in substantial penalties of up to $50,000 a day. A violation stemming from a criminal conviction could lead to imprisonment.

Finally, Mr. President, the legislation states that it is the sense of the Congress that EPA should not extend the deadlines in the city's existing consent decree any further.

I am pleased to note that following my amendment, New York City finally began to comply with court-ordered schedules for construction of its North River and Red Hook sewage facilities. North River is currently on schedule to attain secondary treatment by 1991. Red Hook is on schedule to attain primary treatment by 1989. While Red Hook is on schedule, the fact that it is not operational means that discharge of raw sewage into the East River still continues. This legislation will ensure that New York's facilities stay on present compliance schedules, with no more extensions, and move us toward eliminating the dumping of raw sewage in the waterways of New York and New Jersey.

New Jersey has had its share of water quality problems. But treatment plants in northern New Jersey are all achieving primary treatment, and most of the major plants serving northern New Jersey are achieving secondary treatment, or are under construction to do so.

The New Jersey Department of Environmental Protection has imposed numerous sewer hookup bans in a number of New Jersey municipalities to improve compliance with the Clean Water Act. Several communities may finance the upgrading of their sewage treatment plants to secondary treatment without any Federal or State aid. In some cases, the Department of Environmental Protection in New Jersey required private sector parties to contribute to local efforts to upgrade sewage treatment facilities as the price of securing a sewer hookup permit and proceeding with planned development.

Mr. President, New Jersey and New York do not need to grow at each others' expense. Regional growth is good for both States. By the same token, Mr. President, this growth should be accompanied by appropriate environmental protection. It must not come at the expense of the environment. It must not come at the expense of New Jersey's tourist and commercial and recreational fishing industries.

Mr. President, these provisions in S. 1 will provide strong incentives for New York City to keep complying with its consent decree and bring its sewage treatment plants on line as quickly as possible.

S. 1 contains a number of other provisions which will strengthen this Nation's effort to clean up its water. These include:

Establishing a new program for cleaning up toxic "hot spots"—waters that will not meet water quality goals even after industrial dischargers have installed the best available cleanup technologies required under existing law;

Requiring States to develop plans for combating nonpoint source pollution, such as polluted runoff from city streets and farmland. Conferees agreed on a $400 million authorization to help States implement the plans;

Restricting the use of fundamentally different factor waivers from national discharge standards;

Prohibiting, except in certain narrowly defined circumstances, so-called backsliding, or weakening of cleanup standards when industrial and municipal discharge permits are renewed or reissued;

Establishing a national estuary program to solve pollution problems in interstate estuaries such as Delaware Bay and the Hudson-Raritan estuary;

Requiring EPA to establish toxic contaminant criteria for sewage sludge use and disposal and to establish a public health and environmental protection basis for these criteria;

Authorizing a total of $85 million for lake water quality activities, including demonstration projects at New Jersey's Deal Lake, Belcher Creek, and Greenwood Lake, as well as $15 million for acid mitigation projects;

Retaining the existing law's requirement that discharge permits be renewed every 5 years. The House bill would have extended the permit term to 10 years for certain discharges.

Mr. President, I believe that enactment of the Clean Water Act Amendments of 1987 represents a positive step in the Nation's effort to clean up its water resources, and I urge that we pass this legislation today.

Mr. DURENBERGER. Mr. President, we are today introducing the Water Quality Act of 1987. This is a bill to continue and expand the Nation's Clean Water Act which has since 1972 provided environmental protection for the quality of our lakes, streams, rivers, and estuaries.

This reauthorization of the Clean Water Act has been developed over many years and reflects a blending and compromise of all views including those heard in both Houses, those expressed by members of both parties, views of the Congress and the administration, views of industry and the environmental community. The Senator from Rhode Island, JOHN CHAFEE, has worked diligently for enactment of this legislation in the 98th, 99th, and, now, the 100th Congress. We owe him a great debt. He, as chairman of the Environmental Pollution Subcommittee in the last Congress, worked along with our distinguished chairman of the Environment and Public Works Committee at that time, Senator ROBERT STAFFORD of Vermont, to develop this bill in committee, here on the floor of the Senate and in the conference committee with Members of the House.

It was their effort which brought the conference report on the Water Quality Act of 1986 to the Senate last year where it was approved by a unanimous vote. It was also adopted unanimously by the House of Representatives. Mr. President, around here that is an almost unprecedented level of support for a major piece of legislation like this. The bill we introduce today is that same bill, and whatever parliamentary indignity this bill may suffer over the next few days, we must keep in mind that it was the unceasing effort of these two Members of the Senate which brought us to unanimous support of this fine bill at the end of the last Congress.

The bill adopted by the 99th Congress failed enactment due to a Presidential pocket veto. That was in my view a most unfortunate decision on the part of the President and his advisors. In my view, this legislation already includes much to accommodate the views, both budgetary and of a substantive nature, that were put forth by the administration and its representatives during the legislative process. Indeed, we understand that the administration will be presenting its own bill to reauthorize the Clean Water Act here in the 100th Congress and that the President's bill will be precisely the same as that we have passed, except that the construction grants program will be funded at a level of $12 billion rather than $18 billion over an 8-year period.

So our difference with the President comes down to a matter of budget priorities. I say to the President that the construction grants program has already made its contribution to deficit reduction. In 1981, when this administration came to office, grants to State and local governments to build sewage treatment projects were approximately $5 billion per year. The administration insisted on a greatly reduced program, one that was restructured to eliminate many of the then eligible activities. And after a year of tough debate, a compromise was reached between the Congress and the administration to reduce and restructure the Construction Grants Program. For its part, Congress understood that compromise to include a 10-year commitment to fund the Construction Grants Program at $2.4 billion annually. And that is precisely the level of funding this bill provides.

This bill fulfills the promises made in 1981 when the Construction Grants Program was last reauthorized. One need not rely on my testimony as to the agreement reached between the Congress and the administration back in 1981. The record is replete with references to that commitment. For instance in a committee hearing on the 1985 budget proposal, Mr. William Ruckelshaus, then Administrator of the Environmental Protection Agency, described that agreement in these terms:

> There is an understanding that there is an agreement with the Administration and with the Congress that for 10 years this level of funding, at least, is a commitment. If you will note the difference between what we submitted to the President in terms of our budget and what we are now requesting is somewhat less. We went down to $2.37 billion, and it went back up to $2.4 billion as a result of that commitment. That was something that the Administration puts back into our budget over our submission.

Mr. President, there you have Bill Ruckelshaus proposing a modest cut in the Construction Grants Program and somebody at OMB telling him to take it back up to $2.4 billion because the administration had committed to that level for 10 years. That's a pretty good indication that a clear and solid pledge for funding had been made as part of the 1981 reauthorization. Mr. Ruckelshaus is no longer at EPA, of course. And there have also been changes at OMB. But changes in advisors shouldn't be cause for abandoning commitments.

So it was unfortunate that this bill failed enactment last year. And I urge the President of the United States, in light of the history of this program, to reconsider his decision to withhold his signature from this bill. It is a good bill. It has broad support. It continues a necessary and successful program of the Federal Government. It is a tribute to the two members of our party, Senator CHAFEE and Senator STAFFORD, who had such a large role in bringing it to unanimous approval in both Houses of the last Congress.

Mr. BRADLEY. Mr. President, today, I join my colleagues in reintroducing in the Senate an historic and critical piece of environmental legislation for the Nation and New Jersey, the Clean Water Act. For too long, we have allowed inadequate sewage treatment facilities and other pollutants to threaten our coastlines and our water supplies. This Clean Water Act confirms the continued Federal commitment to local communities everywhere.

New Jersey is known for its miles of beautiful shoreline and lovely beaches. Yet too frequently, our shore communities have had to close their beaches during the summer months because of pollution. Millions of visitors flock to those beaches every year. Beach pollution which has occurred, in part, because of inadequate sewage facilities and, in part from improper disposal of garbage, has endangered public health and tarnished the State's most precious assets. This clean water bill takes an enormous step toward fixing this problem of ocean pollution. This bill specifically prohibits any waiver of requirements for secondary treatment of wastewater in the New York Bight area. The bill closes, once and for all, the site 12 miles from the New Jersey shore where sewage sludge is dumped. The bill prevents the use of the new 106-mile dumpsite by regions and cities outside of the New Jersey-New York area. Most importantly, the clean water bill provides funds to improve antiquated and inadequate local treatment facilities, which overflow during storms or are too small to handle the peak usage during summertime.

This bill represents a tremendous effort—4 years of hard work. Its many provisions will form the basis of a revitalized effort to ensure clean water for our citizens. Since 1981, the Federal appropriations for sewage treatment facilities have been halved while the Federal cost share has dropped from 75 to 55 percent of costs. This bill creates a new $18 billion program which combines grants with an innovative revolving loan program. Other provisions assist in the control of nonpoint pollution—for example water runoff from urban areas—and the cleanup of our lakes and streams.

Mr. President, New Jerseyans greatly value clean water and safe beaches. We recognize the threats to our water supply. We know that tough Federal cleanup standards and environmental regulations are essential but are not sufficient. We know it is a long and costly fight and hard-pressed communities need help in this fight. This bill shows that the Federal Government is not only demanding clean water but it is also willing to help provide the resources to achieve this result. Last fall, President Reagan vetoed this legislation. This action was ill-advised and a mistake. Congress was not then in session, and could not act to override the President's veto. Now we can, and we will.

Mr. MOYNIHAN. Mr. President, I rise on this first day of the 100th Congress as a cosponsor of S. 1, the Clean Water Act Amendments of 1987. It is fitting that this be the first order of business in the new Congress, because at the end of the 99th Congress, Members of the Senate and House voted unanimously to approve the conference report which S. 1 embodies.

When the President allowed the legislation to expire by reason of the so-called pocket veto on November 6, 1986, he placed in jeopardy 14 years of good, hard work. Congress is acting today to finish the task it began with passage of the original Clean Water Act of 1972—to clean up the Nation's waters. The sum of $18 billion authorized by the bill over 8 years will enable the Senate to ameliorate the worst cases of water pollution which threaten our drinking water particularly and our water resources generally. After 4 years, the Construction Grants Program which funds sewers and treatment plants on a 55-percent Federal, 45-percent State basis, will be converted into a revolving loan program, which will be self-sustaining. Therefore, this is not another huge Federal subsidy with no end in sight; rather, it is a targeted effort which ultimately will be self-perpetuating. As such, it leverages Federal funds, providing seed money for the States' own revolving loan pools.

CLEAN WATER IN NEW YORK

If this legislation passes, which we have every confidence it will, New York will receive $268 million annually in Federal grants through 1990, or nearly $1.1 billion of the $18 billion authorized across the Nation. This is the highest annual amount received by any State. California is the next highest recipient at $173 million annually; New Jersey receives $99 million, and Connecticut $30 million.

Without this legislation, a number of New York treatment facilities will be unable to meet the July 1, 1988, deadline mandated under the act for secondary treatment. The office of the attorney general of New York has already begun to notify municipalities which may not be able to meet their compliance schedules.

I need not remind New Yorkers of our dependence on clean water. The striped bass in the Hudson are too contaminated to be eaten safely. Long Island's aquifer which is the drinking water for 3 million people is being depleted and polluted. And under New York City's streets old leaky water mains reluctantly dispurse water to city residents.

Passage of the Clean Water Act Amendments of 1987 must be the cornerstone of our Federal water policy. The 99th Congress passed the Safe Drinking Water Act, which strengthened EPA's capacity to protect and to improve our country's drinking water supplies. The Safe Drinking Water Act contains the Sole Source Aquifer Protection Act, which I first introduced in 1982, designed to protect irreplaceable aquifers such as the one on Long Island. Together with national ground water legislation, which I am also introducing in the 100th Congress, these statutes will provide a comprehensive approach to maintaining and improving our water. We cannot afford to wait until these waters are polluted. It is much more expensive to clean up water—particular ground water—after contamination than to prevent it in the first place.

Mr. President, allow me to review the goals of the Clean Water Act.

GOALS OF 1972 CLEAN WATER ACT

The Federal Water Pollution Control Act was enacted in 1972 with an exuberantly optimistic set of goals. By 1983, the act envisioned clean rivers throughout the Nation; by 1985, it sought to eliminate altogether the discharge of pollutants into our waters.

Two major strategies were embodied in the act to achieve these goals. First, a large Federal grant program was established to help local areas construct sewage treatment plants. According to the Congressional Budget Office, $52 billion—in 1984 dollars—total has been spent by the Federal Government on this Construction Grant Program since 1972.

Second, the act required that all municipal and industrial wastewater be treated before being discharged into waterways, to remove pollutants ranging from organic materials, bacteria, and viruses to toxic chemicals and heavy metals.

Under the act's national pollutant discharge elimination system the Environmental Protection Agency established limits on the maximum allowable discharge of specific pollutants from treatment plants and industrial facilities. These limits were based on available detection and control technologies, and took into account the compliance costs to the regulated community. They are written into permits issued to all such discharging facilities.

Significant progress has been made toward cleaning up the Nation's waters. According to EPA's 1984 national water quality inventory, many of the most severe pollution problems of the 1960's and 1970's have been abated. Moreover, despite substantial growth in the Nation's population, industry, and development, overall water quality remained roughly stable between 1972 and 1982—a major accomplishment. A 1984 study by the Association of State and Interstate Water Pollution Control Administrators found that of 350,000 miles of streams and rivers monitored during this period, water quality improved in 13 percent, stayed the same in 84 percent, and declined in only 3 percent. We have been doing something—several things—right.

The Clean Water Act Amendments of 1986 strengthen and add to our currrent statutes. I will review briefly the most important provisions in these amendments.

CONSTRUCTION GRANTS FOR SEWAGE TREATMENT PLANTS

S. 1 authorizes $18 billion in Federal support over 8 years for the construction grants program, on a 55-percent Federal, 45-percent State basis. This program enables construction and upgrading of sewage treatment plants. The goal is to have all sewage treatment plants achieve secondary treatment by 1988—a process which removes 85 percent of solid and organic matter. In 1989, the revolving fund plan begins, the goal of which is to convert the States' Construction Grants Program into a self-financing program. Such an approach has worked extremely well in Texas and other States. The Governor will have the discretion to apportion grant funds and loan funds in order to meet the particular needs of his or her State. With wise planning, the States should make this transition without any disruption in their current schedules of priority work.

I am pleased that the current allocation formula for construction grants has been left virtually in place. This formula, which is based on the current EPA needs survey, correctly reflects the immediate needs in our urban areas in the Great Lakes and Chesapeake Bay regions. Our older cities place the greatest population pressures on the water systems, which also tend to be the oldest systems. New York receives $268 million annually under this allocation.

NONPOINT SOURCE POLLUTION

This bill provides $400 million to initiate the first national program to control nonpoint source pollution, primarily runoff from agriculture and urban areas. Scientists at EPA have determined that nonpoint source pollution—pollution not from a single pipe or outfall—is a significant contributor to degradation of water quality. This includes runoff contaminated by fertilizers and other chemicals, as well as runoff from city streets which often contains high levels of salts and oils.

As part of this effort, conferees worked diligently with cities and counties as well as with environmental groups to devise a stormwater permit system that would improve water quality without being too costly or too cumbersone for EPA to administer. A recent court decision had ordered EPA to issue permits for virtually all storm sewers, which would have required EPA to issue 50,000 more permits on top of the 65,000 point source permits EPA already issues. This would have diverted EPA personnel efforts from control of toxic contaminants in water to a paper shuffling exercise that would not be result in environmental improvements in most cases. The conference agreed on a provision which would require permits from industrial discharges to storm sewers, and from cities over 250,000 in population where those discharges are significant contributors to pollution.

CLEAN LAKES PROGRAM

S. 1 provides $85 million for a Clean Lakes Program which States can use to clean up silted lakes, and to lime acidified lakes.

ESTUARIES PROGRAM

The bill provides $48 million for an Estuary Research Program, which identifies several estuaries of national importance, including New York and New Jersey Harbor. Under this provision EPA can offer up to $10 million per year on a 50-percent matching basis to States to study and implement cleanup in the New York-New Jersey Harbor area.

BAN ON DUMPING OF SLUDGE IN THE NEW YORK BIGHT

The bill bans, as of December 1987, any additional users from dumping sewage sludge in the New York Bight 12 miles off Sandy Hook, NJ. The bill also restricts the use of the site 106 miles off the coast to those currently using the 12-mile site.

FUNDS FOR BOSTON TREATMENT PLANTS

S. 1 includes $100 million to fund sewage treatment plants in Boston Harbor, assisting Boston in complying with its court ordered directive to stop dumping sludge in the ocean.

GREAT LAKES OFFICE

The conferees agreed to establish a Great Lakes International Coordination Office within EPA to focus on control of toxic pollutants and achievement of goals in the Great Lakes Water Quality Agreement of 1978. The bill also establishes a Great Lakes Research Office with the National Oceanic and Atmospheric Administration to carry out a comprehensive Great Lakes research program, with special attention to sediment control projects.

The Great Lakes office program includes a $11 million annual authorization from 1987 to 1991 for a data base for monitoring and cleanup of the water quality of the lakes, and for priority cleanups of contaminated sediments in five target areas in the Nation, one of which is the Buffalo River in New York.

TOXIC HOTSPOTS

The Clean Water Act Amendments of 1987 establish a new Toxic Hotspot Program which requires EPA and the States to work together to identify toxic hotspots which require special attention and additional controls. EPA has already tentatively identified 34 of these areas which may require more stringent controls than the "best available technology" standard currently mandated by the act. Albany, Rochester, and Syracuse were areas in New York listed by EPA for this priority attention. In addition, the International Joint Commission has identified 42 areas of concern for toxic pollutants in the Great Lakes. These include the Buffalo River, Eighteen Mile Creek, Rochester Embayment, Oswego River, Niagara River and St. Lawrence River in New York. EPA will review the IJC's recommendations in augmenting its toxic hotspot program.

All in all, this is a most worthy bill. I join my chairman, Senator BURDICK, colleagues on the Environment and Public Works Committee, and other cosponsors in urging its immediate consideration and passage. I ask unanimous consent that an appendix listing priority water projects in New York State be printed in the RECORD at this point. I ask, too, that a report summarizing in detail the Great Lakes office and toxic pollutants provisions, prepared by the Northeast-Midwest Institute be printed as an appendix at this point in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

APPENDIX A

ESTIMATE OF FEDERAL CONTRIBUTION TO PRIORITY WATER TREATMENT FACILITIES IN NEW YORK STATE

	Estimated total cost	Estimated Federal share
Project (FY 1987):		
Ft. Covington (St. Lawrence County)	$2,726,000	$1,499,300
Village of Oxford (Chenango County)	4,610,600	2,535,830
Village of Gowanda (Cattaraugus County)	9,700,000	5,335,000
Village of Croghan (Lewis County)	2,700,000	1,485,000
Schuylerville (Washington County)	1,268,500	697,675
Cuba (Allegany County)	2,900,000	1,595,000
Cedar Creek Sewage Plant (Nassau County)	48,000,000	36,000,000
Mamaroneck Sewer District (Westchester County)	8,625,000	4,743,750
Dewey Eastman Tunnel (Monroe County)	24,300,000	13,365,000
City of Gloversville (Fulton County)	6,170,000	3,393,500
Batavia (Genesee County)	28,776,000	15,826,000
Buffalo (Erie County)	5,589,565	3,074,261
South Glens Falls (Saratoga County)	3,500,000	1,925,000
Chautauqua (Chautauqua County)	440,477	310,457
Binghamton (Broome County)	11,831,300	6,507,215
Cheektowaga (Erie County)	872,765	654,564
Cheektowaga (Erie County)	263,050	144,678
Great Neck (Nassau County)	16,277,681	8,952,724
Do	2,990,776	1,644,927
Westchester County (New Rochelle)	650,000	487,000
Greece (Monroe County)	1,043,500	573,925
Rochester (Monroe County)	13,500,000	10,125,000
LeRoy (Genesee County)	437,333	328,000
Owls Head (Brooklyn)	14,816,963	11,112,722
Do	48,588,494	36,441,370
Do	53,119,363	39,839,523
Oakwood Beach (Staten Island)	49,000,000	26,950,000
Do	5,000,000	3,750,000
Project (after 1987):		
Oakwood Beach (Staten Island)	100,000,000	NA
Owls Head (Brooklyn)	87,000,000	NA
Coney Island (Brooklyn)	280,000,000	NA
Bay Park (Nassau County)	53,000,000	NA
Mamaroneck (Westchester County)	116,000,000	NA
Rochester (Monroe County)	27,000,000	NA
Oriskamy Falls (Oneida County)	4,300,000	NA
Stillwater (Saratoga County)	1,300,000	NA
Bolivar (Allegany County)	2,200,000	NA

APPENDIX B

Attached is a detailed summary of the toxic hotspot provisions of the Clean Water Act Amendments, S. 1128 in the 99th Congress, S. 1 in the 100th Congress. Included is a list compiled by EPA in 1982, which EPA will augment under the new Act. EPA may add to its toxic hotspot list based on recommendations by the U.S.-Canadian International Joint Commission, which has identified 42 areas in the Great Lakes in the U.S. and Canada which are badly contaminated.

II. TOXIC HOTSPOTS (S. 1128)

Background

There are two primary approaches to controlling water pollution under the Clean Water Act. The first is to measure the quality of water into which pollutants are being released, to determine which industries are responsible for the pollution, and to require those parties to reduce their discharges by the amount needed to make the water at least "fishable and swimmable." The second is simply to require all industries to reduce their discharges to a predetermined level, based on the best pollution control that is economically achievable. The latter, "best available technology" (BAT) standard has been the exclusive method of regulations thus far, due to the technical difficulty of water-quality based permitting.

However, it has become clear that in certain areas, the water may remain unacceptably contaminated with toxic pollutants even after all the industries have applied BAT. In 1982, the EPA tentatively identified 34 of these areas; the 19 in the Northeast and Midwest are identified below.

Hartford, CT, Gary, IN, Des Moines, IA, Pittsfield, MA, Springfield, MA, Midland/Saginaw, MI, Minneapolis/St. Paul, MN, Passaic, NJ, Albany, NY, Rochester, NY, Syracuse, NY, Canton, OH, Dayton, OH, Lima, OH, Youngstown, OH, Allentown, PA. Philadelphia, PA, Pittsburgh, PA, Scranton, PA.

EPA stressed that the identification was preliminary, stating that "The list was compiled not from water samples but rather through paper and pencil calculations on toxic pollutants that may be present, based upon the industries that discharges to these waterways and the amount of toxic pollutants they discharge."

The United States-Canada International Joint Commission has identified 42 areas of the Great Lakes shoreline in the United States and Canada that are badly contaminated by toxic pollutants. It is possible that some of these areas on the U.S. side may eventually be listed for regulation under the toxic hotspot provision established by the conference report. Attachment 2 provides a list of the locations of the 42 "areas of concern" identified by the IJC, and their sources of contamination.

Conference report

The conference report requires EPA to develop guidelines for use by states in identifying those areas 1) where water quality would remain below the acceptable standard 2) due primarily to toxic pollution from industrial dischargers 3) after those industries had applied to their plants the best available technology for controlling pollution. The states then would have two years to identify the areas within their jurisdictions that fell under the federal guidelines. EPA would be required to identify any toxic hotspots within a state that failed to meet the deadline.

States then would have another two years to develop individual control strategies to further limit pollution from point sources, and an additional three years to bring water quality to the required standard by putting those strategies into effect. EPA would be required to develop and implement control strategies for those states that failed to meet the deadline. The conference report would allow the agency to waive the more stringent point source requirements for no more than five years for industries that could show that 1) the current control technology was the maximum economically feasible for that industry and 2) that it was sufficient to make "reasonable further progress" toward meeting water quality standards.

Part of the problem with water quality based permitting is that EPA has lagged behind in developing criteria that can be used to develop effective water quality standards. The conference report would require EPA to develop those criteria within three years of enactment, and would require states to incorporate them into the water quality standards upon which individual control strategies would be based.

III. GREAT LAKES (S. 1128)

Background

The National Academy of Sciences (NAS) reported last year that the population of the Great Lakes basin was exposed to appreciably more toxic substances than that of the U.S. as a whole, due in part to the consumption of contaminated fish from the area. The report criticized EPA's neglect of the U.S.-Canada Water Quality Agreement, a comprehensive treaty establishing ambitious goals for the elimination of toxic discharges to the Lakes. The NAS critique reflected concerns raised by the General Accounting Office in the latter's 1982 report highlighting the disorganization and underfunding characterizing U.S. Great Lakes programs.

Conference report

The conference report includes a title establishing for the first time a comprehensive U.S. program for the cleanup of the Great Lakes. The amendment provides explicit congressional recognition of the Water Quality Agreement, and designates EPA's Great Lakes National Program Office (GLNPO) as the lead agency responsible for U.S. compliance with the agreement. GLNPO would have to establish a toxics monitoring and surveillance network for the lakes, and to develop and coordinate a multi-agency program for cleanup.

Source: Great Lakes Water Quality Board, 1985 Report to Great Lakes Water Quality, Report to the International Joint Commission (Kingston, Ontario, International Joint Commission 1985), p. 4.

The amendment earmarks $14.5 million for creation within the National Oceanic and Atmospheric Administration of a comprehensive environmental data base for the lakes, so that research gathered painstakingly through dozens of individual projects would be banked for future use. The amendment also earmarks $22 million for a special program to begin the task of cleaning up sediments contaminated by toxic pollutants at the Great Lakes areas of concern identified by the International Joint Commission.

These contaminated sediments are a prime source of the toxics infesting Great Lakes fish, and may be stirred up and released into the water by shipping or dredging activities. Five sites are mentioned specifically for demonstration cleanup to ensure that the program gets off the drawing board and to give Congress a basis for evaluating the agency's progress. The five sites are: Sheboygan Harbor, WI; Saginaw River, MI; Grand Calumet Harbor, IN; Ashtabula River, OH; Buffalo River, NY.

Mr. D'AMATO. Mr. President, I rise today to cosponsor the Clean Water Act Reauthorization being introduced by my colleagues on the Environment Committee. This bill is identical to the Clean Water Act Reauthorization I enthusiastically supported last year. Unfortunately, despite the fact that many of my colleagues and I contacted President Reagan repeatedly, asking him to sign this bill, this legislation was vetoed in November of last year.

It is vital that this legislation be passed quickly. It contains an authorization of $18 billion over 9 years for the EPA construction grants program. It contains an estuaries program important to Long Island Sound, as well as programs to protect the Great Lakes. It also provides new requirements for management of nonpoint sources of pollution, such as runoff from cities and agricultural areas.

Mr. President, this legislation is the result of extensive efforts during the last Congress, and it enjoys support from a wide range of industrial and environmental groups. It passed unanimously in both Houses last year. There is no reason why we should delay swift enactment of this bill. Therefore, I urge my colleagues in the Senate to join in cosponsoring this legislation.

Mr. WEICKER. Mr. President, today I have joined with a large number of my fellow Senators to reintroduce a bill amending and reauthorizing the Clean Water Act. This is the Nation's only comprehensive water control and management law and symbolizes this country's efforts to clean and safeguard our environment for future generations; 1986 saw near unanimous support for this bill, as introduced today, in Congress. Passage of the bill occurred at the end of the 99th Congress and we watched as the President pocket vetoed the bill which represented years of exhaustive work in both Houses of Congress.

I have no doubt, Mr. President, that this bill will be widely supported again and will indeed become law, possibly in the very near future. I strongly support the Clean Water Act and am very disappointed that the administration would not work with Congress, nor recognize the overwhelming support of this act in protecting our Nation's waterways.

Important among the provisions of this bill is the establishment of a National Estuary Program which will create a national effort in the protection and management of our estuarine and near shore marine areas. Intensive studies such as in the Chesapeake Bay and Long Island Sound should lead to answers and practices which will significantly reduce the inputs of pollution into these estuaries and restore these vast natural resources to a more usable and pristine state. The Construction Grants Program is also of vital importance to municipalities in developing wastewater treatment works. The creation of State revolving loan funds shifts future responsibility for construction costs to States and localities. My State of Connecticut has already created a State fund and is fully committed to continued construction and upgrading of water treatment works. This bill also contains important provisions to manage nonpoint source pollution and to strengthen enforcement and permit standards.

Mr. President, the early reintroduction and the very large support for this bill should be a clear signal to the administration that a failure to accept this reauthorization ignores the will of Congress and the concerns of our citizens throughout the Nation. It is my hope that this bill receives quick consideration and passage. Too many years have gone by for us not to reaffirm our commitment to this country's most important environmental act.

Mr. PELL. Mr. President, I am pleased to join in introducing the Clean Water Act in the 100th Congress. I hope that we will be able to expedite its consideration and passage and, once this is done, that the President will sign it into law without delay.

I commend the members of the Senate Environment and Public Works Committee, including the members of the Environmental Pollution Subcommittee, who labored long and hard to fashion this measure in the 99th Congress.

My colleague, the distinguished junior Senator from Rhode Island [Mr. CHAFEE] is one of those who devoted considerable skill and knowledge to fashioning this measure, which makes several changes to enhance our ability to combat water pollution.

This Clean Water Act authorizes $18 billion over 9 years for grants to help communities build wastewater treatment facilities. Unless we reauthorize this measure, construction delays and shutdowns will start to occur as funding runs out.

This measure also includes a new section designed to reduce pollution from so-called nonpoint sources, such as runoff from agricultural land and the pollutants washed by the rain from our city streets into our streams and rivers.

It also includes the creation of a program for cleaning up toxic hot spots—where quality goals will not be met even after polluters have installed the best available cleanup technologies required under existing law.

The bill, by and large, is an improvement and represents a concerted effort to address our Nation's water pollution problems. I must emphasize, however, that those pollution problems have not been resolved and are not going to just fade away without a continuing national effort to address them.

We set the national standard of "fishable, swimable water" and we made the commitment to put Federal taxpayers dollar to work on a long-range, costly, national effort to meet those standards. Communities that believes us then are finding themselves stuck with paying for the improvements now.

We should not lower our standards and we should not stick State and local communities with the total bill. We must not lower our sights to lesser goals by reducing the national standard. Likewise, we should not try to shift the enormous burden of wastewater treatment construction costs to the State and local governments.

When we first passed the Clean Water Act, along with other landmark environment laws, we made it clear that the Federal Government has a definite role in setting national environmental standards and an equally important role in helping to meet those standards. We must not abandon either of those vital roles.

Mr. HEINZ. Mr. President, water quality is among the most pressing problems that communities across the Nation must face. For State and local governments, this is not an easy time. The loss of revenue sharing, reductions in aid to State and local governments generally, and rising costs put our cities and towns into a tight squeeze. Sewage contruction is among the costliest undertakings, and yet it is critically needed if our drinking water is to be protected.

The slowdown in funding under the Clean Water Act, caused first by congressional delay in approving a reauthorization, and then a pocket veto, is endangering the very health of thousands. In Pennsylvania alone, the Environmental Protection Agency estimated our wastewater treatment needs in 1985 at over $2.1 billion. Even under the Clean Water Act, Pennsylvania receives only $96 million per year in Federal assistance. So it is going to be a while before Pennsylvania, or most States for that matter, find themselves fully meeting the need for protection from wastewater.

Nevertheless, the bill which my colleagues and I are introducing today is a fair and effective compromise which provides effective and timely Federal assistance, while assisting local communities to take on increasing responsibility for the protection of our water resources. I am very pleased to be among the 60 or so cosponsors of this measure, which passed both Houses of Congress unanimously.

Specifically, the legislation before us authorizes $18 billion through fiscal 1994 to aid in the construction of sewage treatment. This figure includes $8.4 billion for State revolving loan funds. These funds would help local communities to receive low-interest loans for future sewage construction.

A very important aspect of the bill for my State, and especially for the Susquehanna River and the Chesapeake Bay, is a new program to enhance control of nonpoint source pollution, such as pesticide and agricultural runoff. Nonpoint runoff is responsible for up to 50 percent of our water pollutants.

Equally important is the bill's increased controls on toxic discharges. In addition, estuaries, such as the Delaware River, and lakes, including Lake Erie, will receive increased protection.

Once more, Mr. President, I urge all my colleagues to support this measure, and help to see it enacted in the immediate future. We cannot tolerate a slowdown in construction and enforcement, and yet that is precisely what happens each day that we delay this bill.

Mr. DANFORTH. Mr. President, I am pleased to join as a cosponsor of the Water Quality Act of 1987. I think it appropriate that this bill is to be designated S. 1, since few measures considered by the 100th Congress would have as enduring an impact on our Nation.

S. 1 is identical to legislation vetoed by the President last fall. I do not take that action or the possibility of a second veto lightly. However, I am convinced that these amendments to the Clean Water Act are a responsible and necessary continuation of the Federal Government's commitment to pure, wholesome water throughout our land. Congress must never turn its back on that commitment.

Most immediately, the Water Quality Act would reauthorize the Wastewater Treatment Grants Program at a level of $9.6 billion through 1990. Drawing on Federal funds and their own matching contributions, the States would thereafter be required to establish revolving loan accounts for new construction. Revolving funds will give each State the flexibility to tailor the Construction Grants Program to its needs, and the certainty required for advance planning. Federal funding—amounting to $8.4 billion over fiscal years 1989 through 1994—will ber earmarked for the Revolving Loan Program. In concert with construction grants, these funds should ensure an orderly phaseout of direct Federal payments and allow the States to move forward with long-term strategies for improving water quality.

I am sure that every Member of the Senate has heard from constituents on the need to reauthorize the Wastewater Treatment Grants Program. Washington's inaction has wreaked havoc on construction schedules and planning in Missouri, making compliance with Federal requirements that much more difficult. Prompt passage of the Water Quality Act would bring $67.3 million to Missouri in each of the bill's first 3 years, and resume progress toward clean lakes, rivers, and streams throughout the Nation.

Without detailing the provisions of this legislation, I would mention that the bill addresses one threat to water quality that is particularly prevalent in rural America. Nonpoint pollution, including runoff from city streets, farm land, and mine sites, may account for as much as half of all pollution in our waters. By its very nature, though, nonpoint pollution is more difficult to control and regulate then emissions from pipes and similar "point sources."

Going beyond the Clean Water Act's current focus on municipal sewage and industrial wastes, S. 1 would authorize a new, $400 million program to combat nonpoint pollution. Especially in rural areas, success will depend upon flexibility and popular support. Instead of imposing standards and deadlines at the Federal level, therefore, the bill would initiate new State-Federal partnership. Each State would be required to submit a plan for managing nonpoint pollution to the Environmental Protection Agency, and Federal grants would be available to States whose programs are approved. I believe that nonpoint pollution and the related issue of ground water contamination should and will be addressed by the 100th Congress; the provisions of S. 1 are an excellent place to start.

Passed in 1972, the original Clean Water Act envisioned clean rivers throughout the Nation by 1983, and the elimination of polluting discharges by 1985. Now, almost 15 years later, it is clear that these goals were overly optimistic. Still, the Clean Water Act and other Federal statutes can be credited with a real improvement in the quality of our natural environment and daily life. Many of the most serious water pollution problems of 1972 have been abated, while the decline in overall water quality has been stopped and even reversed.

Mr. President, we should not stray from a course that will lead us to fishable, swimmable waters in every part of the United States. Passage of legislation to reauthorize and improve the programs of the Clean Water Act is an essential step toward that end. I look forward to prompt and favorable action on the Water Quality Act.

Mr. KERRY. Mr. President, I am pleased to rise today as a cosponsor of S. 1, the reauthorization of the Clean Water Act. As my colleagues well know, S. 1 is identical to the conference report that passed the House and Senate unanimously at the end of the 99th Congress and was subsequently vetoed by the President.

The President's veto was a shortsighted and misguided step backward. It has set back the cause of protecting the environment for future generations. The President has clearly abdicated his duty to lead. I am confident, however, that the Congress will today begin the process of showing the administration and the American people that when it comes to protecting the environment, we can speak harmoniously and with conviction.

S. 1 is the result of a great deal of committed work by members of the authorizing committees in both Houses of Congress who fashioned a bill that groups with many divergent interests have enthusiastically endorsed.

In addition to providing construction grant funding to States and localities that have in many cases exhausted their moneys, this legislation will strengthen restrictions on the pollution that is allowed to be discharged into the Nation's waters. Among the new provisions is one that for the first time provides funding and restrictions on so-called nonpoint source pollution which is the result of runoff from farm lands and from city streets.

S. 1 also recognizes that the needs of State and local governments in constructing treatment works has changed. Due to the success of the grants program which has provided more than $50 billion since 1972, the end of the time when the Federal Government provides the bulk of the capital construction costs is in view. S. 1 authorizes the grants program to continue for the next several years before replacing it with seed money for States to create revolving loan funds.

Massachusetts communities have participated in and benefited from the Construction Grants Program and the result has been greatly improved water quality in the commonwealth. But in addition to providing funding for the grants program and amending the discharge restrictions, S. 1 also recognizes some of the special cases that exist in the country that warrant the participation of the Federal Government.

In one case in particular, S. 1 authorizes the appropriation of $100 million to assist in the cleanup of Boston Harbor. While it is a small amount when compared to the $2 billion that it is estimated it will cost to complete the job, it serves as an affirmation of the importance of the cleanup and it will provide some early help to the Massachusetts Water Resources Authority which is the local agency charged with mounting this monumental task. The conferees have responded to the efforts of the Massachusetts delegation who have worked diligently and effectively to demonstrate the unique and severe problems that face Boston Harbor's future. We are indebted to both the Senate and House conferees for their consideration in this matter.

We must be ever vigilant in our efforts to monitor the effectiveness of environmental legislation and this reauthorization reflects the research that we have accumulated in the years since the Clean Water Act was first enacted in 1972. Certainly our unanimous vote in the last Congress indicates that a consensus exists around the need to modify and supplement environmental legislation. I am proud that today we are taking an important step toward advancing our environmental goals. I look forward to Senate floor consideration of S. 1 in the very near future.

The PRESIDING OFFICER. By a previous motion the distinguished Senator from West Virginia regains the floor.

Mr. BYRD. Mr. President, am I still recognized?

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, I do not intend to hold the floor too much longer. But I do want to hold the floor a bit longer for reasons which will become evident.

I ask unanimous consent that I may yield to the distinguished Senator from Rhode Island [Mr. CHAFEE], who wishes to speak on the same matter. He is one of the chief cosponsors of the bill. I ask unanimous consent that I may yield to him for 5 minutes without losing my right to the floor.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Rhode Island.

Mr. CHAFEE. Mr. President, first I want to thank the distinguished majority leader for yielding me 5 minutes.

Second, I want to thank the chairman of our full committee for the fine comments he has made about the work I have done on this particular piece of legislation, the clean water bill, in which I am joining him today as cosponsor, the bill we passed in the conference. It came out of the conference which we had with the House last year where I was privileged to be chairman of the Senate conferees.

That bill, as has been mentioned, passed last October in the Senate by a vote of 96 to 0, and was passed in the House by a vote of 408 to 0.

I was very disappointed when the President chose to pocket-veto the bill. At that time I promised we would be back pushing hard to get the identical bill enacted as soon as Congress reconvened. That is why we are here today—to let the American people know we care about clean water and that we are going to do our best to see that this bill becomes law as soon as possible.

This bill has been 5 years in the making. Failure to move quickly on this legislation will seriously delay the cleanup of our rivers and streams and jeopardize hundreds of projects around the country, including several projects in my State of Rhode Island.

It has been charged that this legislation is "budget-busting." That is simply not the case. Although the $18 billion authorized in the bill exceeds the administration's request, it is within current funding levels and conforms to the budget resolution. Although the $18 billion authorized by this bill may sound like a lot of money, and exceeds the administration request, it is a small sum compared to the estimated $100 billion needed to build all the public facilities required to clean up our waters. The bill is within current funding levels and conforms to the budget resolution.

I might say that there is an estimate that the need is for $100 billion and we are coming in with a bill of $18 billion, $2.4 billion a year, which, I would point out, is less than the 1980 amount which was voted.

In 1981 we arrived at an agreement with the administration to go for 10 years at $2.4 billion each year. When you think that this legislation at times has been as high as $5 billion, or close to that figure, the $2.4 billion is a reduction.

The funding level for construction grants lives up to the commitment made by Congress and the administration to support an annual appropriation of $2.4 billion over the 10-year period of 1981 through 1991. The bill even goes one step further. It phases out the construction grants program and turns over financial responsibility for the construction of wastewater facilities to the States by 1994. It will be over. It will be done with.

This legislation, as has been pointed out, also has a major overhaul under what we call the programmatic division. That is, the changes in the standards for clean water which are very important to improving the water quality of our Nation.

The Water Quality Act of 1987 assures compliance with a strong water quality standards program and provides for greater control of toxic, conventional and nonconventional pollutants. It establishes a new program to control pollution from nonpoint sources. It continues funding of wastewater treatment works at the $2.4 billion level through fiscal year 1991, while establishing a revolving loan fund to ease the transition to full State and local sufficiency.

I would like to take a few minutes to explain in greater detail a few of the key provisions of the bill.

The legislation tightens up several regulatory programs. One such program relates to nonconventional pollutants. Under current law modifications can be sought from strong discharge requirements for so-called nonconventional pollutants, many of which can be highly toxic. In an effort to severely limit the circumstances in which these weaker modifications can be given, the bill allows them for only five specific pollutants. If other pollutants are to be listed for a modification, EPA must go through a special procedure.

The legislation contains provisions which severely limit the opportunities for which discharges can obtain modifications for fundamentally different factors.

The bill also contains provisions continuing the Chesapeake Bay Program; it establishes a Great Lakes Water Quality Program and sets up a new National Estuary Program which provides that management conferences develop control strategies to clean up estuaries. This is especially important to the Narragansett Bay in Rhode Island which suffers from degradation of water quality. Funds are also set-aside for correction of combined sewer overflows which cause serious pollution in the Narragansett and other estuaries around the Nation.

A new Nonpoint Source Pollution Control Program is included in this legislation. The program would authorize $400 million over 4 years for States to develop comprehensive programs to abate such pollution sources as runoff from urban areas and farmlands which are often contaminated with toxic and other pollutants.

The bill beefs up the enforcement provisions of the act by increasing penalties for civil and criminal violations and adds a new authority for the Administrator to assess administrative penalties on violators. The EPA has new authority to assess penalties against unpermitted discharges. We expect the Agency to use this authority aggressively against illegal polluters even if a memorandum of agreement is not concluded with the Secretary of the Army. The corps enforcement record against illegal dumpers is not the strongest, and now EPA would have the authority to move against these polluters.

Compliance dates for industries for which effluent guidelines have not been promulgated have been extended to March 1989, or 3 years from date of promulgation, whichever is sooner. The bill strongly encourages EPA to finalize these guidelines so industries can comply with discharge requirements as soon as possible. Until such guidelines are promulgated, the Agency is expected to proceed under its current policy with respect to noncompliance of dischargers who will not meet the deadline.

A provision establishing a progressive Stormwater Control Program is included in the bill. Although the law now requires EPA to establish discharge requirements for the stormwater point sources, the Agency has been unable to develop a final permit program for these sources. This legislation sets up a program whereby EPA must issue permits for stormwater point source discharges in municipalities with populations over 250,000 within 4 years of enactment. Within 5 years of enactment, permits for stormwater point source discharges are required in cities with populations between 100,000 and 250,000. These discharge requirements are to contain control technology or other techniques to control these discharges. Requirements for stormwater discharges associated with industrial activities are unaffected by this provision. This provision provides the guidance EPA needs to rapidly implement this control program.

The bill contains a provision with respect to antibacksliding on best practicable judgment and water quality-based permits. The thrust of this provision is to generally prohibit affected permittees from weakening their discharge requirements as a result of subsequently promulgated guidelines. Only in very narrow circumstances can backsliding be permitted, and in no event can it be permitted even if, after a discharger leaves a stream, there is an improvement in water quality unless the test antidegradation policy test is met. That test states that water quality may be lowered only if widespread adverse social and economic consequences can be demonstrated through a full intergovernmental review process.

The bill extends the current $2.4 billion annual authorization for title II construction grants for 3 years. In fiscal years 1989 and 1990, the annual authorization for title II would be reduced to $1.2 billion. No further authorizations would be made for title II after fiscal year 1990.

Beginning in fiscal year 1989 and continuing in fiscal year 1990, $1.2 billion a year would be authorized specifically for capitalizing revolving loan funds under a new title VI of the law. Thereafter, the loan fund authorization would gradually be reduced by providing $1.8 billion in fiscal year 1992, $1.2 billion in fiscal year 1993, and $600 million in fiscal year 1994. After 1994, all authorizations for direct Federal contributions would end.

As I mentioned earlier, this approach lives up to the commitment made by Congress and the administration to support an annual appropriation of $2.4 billion over the 10-year period of 1981 through 1991 to meet the needs for construction of wastewater treatment facilities.

A slight change is made to the allotment formula for grants to the States and is identical to the bill approved last year.

The revolving loan fund embodied in this legislation will enable the States to eventually assume full responsibility for construction of wastewater treatment facilities in their jurisdictions.

Mr. President, I would like to conclude by saying this legislation gives us an opportunity to renew our commitment to the national goal of making all of our waters fishable and swimmable. The Water Quality Improvement Act of 1987 strengthens the existing provision of the Clean Water Act and establishes new cleanup programs which will greatly assist us in addressing a new generation of subtle—more devastating—problems posed by toxic pollution, stormwater discharges, nonpoint pollution and contamination of sludges.

I would hope my colleagues will again give this bill a resounding show of support and work with me to pass this legislation as soon as possible so we can continue the job of cleaning up our Nation's waters.

There has been talk of the President vetoing this legislation again. That would be a drastic mistake. This bill is within the agreed upon authorization level of $2.4 billion for wastewater treatment facilities passed by the Senate and the budget resolution. It provides for the orderly phaseout of the Construction Grants Program. And most importantly it gives the American people what has been reflected in public opinion polls conducted across the land—that they want clean water.

At this time, Mr. President, I wish to pay tribute not only to the present chairman of our committee, but also our former chairman, the distinguished Senator from Vermont [Mr. STAFFORD], who has been such a pillar in this effort from the beginning. Also, I would like to pay tribute to several other Senators who have worked so hard on this matter. Especially I would like to mention Senators MOYNIHAN, MITCHELL, and BENTSEN, as well as others, who have participated. I particularly think of those Senators.

I thank the majority leader for yielding.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. I yield to the Senator from Wisconsin without losing my right to the floor.

Mr. KASTEN. Mr. President, as an original cosponsor of the Clean Water Act, I urge that the Senate act decisively and quickly to adopt this critical legislation.

The Clean Water Act is one of the most important pieces of Federal legislation to protect the health and safety of millions of Americans. It is one of the most fundamental Federal laws protecting our Nation's environment. We can not tolerate any delay in adopting the Clean Water Act.

Many critical improvements are made in this legislation over current law. One of the most important new sections provides for comprehensive environmental management of the Great Lakes.

The Great Lakes contain 20 percent of the world's freshwater. Fully 95 percent of our Nation's fresh surface water is contained in these five lakes.

Yet the Federal efforts to manage and protect these tremendous resources are abysmal. Currently, no Federal agency is charged with overseeing the comprehensive environmental resources of the Great Lakes. The result is a bureaucratic maze that has resulted in mismanagement and environmental damage to the lakes.

Toxics contaminate the Great Lakes in each of the eight lake States. This contamination not only threatens wildlife and recreational use of the lakes, it also threatens human health.

For 3 years we have struggled with writing and adopting legislation to correct the abuses of the lakes. On a bypartisan basis, this section is now supported. An identical measure was approved by each House of Congress last year.

The future of the Nation's waters, and particularly the Great Lakes, is too important to delay. I hope this can be the first piece of legislation adopted by the 100th Congress. That milestone would set the tone for environmental and resource protection in the years ahead.

S. 1

(The text of the bill (S. 1), the Water Quality Act of 1987, is as follows:)

S. 1

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS; AMENDMENTS TO FEDERAL WATER POLLUTION CONTROL ACT; DEFINITION OF ADMINISTRATOR.

(a) SHORT TITLE.—This Act may be cited as the "Water Quality Act of 1987".

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents; amendments to Federal Water Pollution Control Act; definition of Administrator.
Sec. 2. Limitation on payments.

TITLE I—AMENDMENTS TO TITLE I

Sec. 101. Authorizations of appropriations.
Sec. 102. Small flows clearinghouse.
Sec. 103. Chesapeake Bay.
Sec. 104. Great Lakes.
Sec. 105. Research on effects of pollutants.

TITLE II—CONSTRUCTION GRANTS AMENDMENTS

Sec. 201. Time limit on resolving certain disputes.
Sec. 202. Federal share.
Sec. 203. Agreement on eligible costs.
Sec. 204. Design/build projects.
Sec. 205. Grant conditions; user charges on low-income residential users.
Sec. 206. Allotment formula.
Sec. 207. Rural set-aside.
Sec. 208. Innovative and alternative projects.
Sec. 209. Regional organization funding.
Sec. 210. Marine CSO's and estuaries.
Sec. 211. Authorization for construction grants.
Sec. 212. State water pollution control revolving funds.
Sec. 213. Improvement projects.

Sec. 214. Chicago tunnel and reservoir project.
Sec. 215. Ad valorem tax dedication.

TITLE III—STANDARDS AND ENFORCEMENTS

Sec. 301. Compliance dates.
Sec. 302. Modification for nonconventional pollutants.
Sec. 303. Discharges into marine waters.
Sec. 304. Filing deadline for treatment works modification.
Sec. 305. Innovative technology compliance deadlines for direct dischargers.
Sec. 306. Fundamentally different factors.
Sec. 307. Coal remining operations.
Sec. 308. Individual control strategies for toxic pollutants.
Sec. 309. Pretreatment standards.
Sec. 310. Inspection and entry.
Sec. 311. Marine sanitation devices.
Sec. 312. Criminal penalties.
Sec. 313. Civil penalties.
Sec. 314. Administrative penalties.
Sec. 315. Clean lakes.
Sec. 316. Management of nonpoint sources of pollution.
Sec. 317. National estuary program.
Sec. 318. Unconsolidated quaternary aquifer.

TITLE IV—PERMITS AND LICENSES

Sec. 401. Stormwater runoff from oil, gas, and mining operations.
Sec. 402. Additional pretreatment of conventional pollutants not required.
Sec. 403. Partial NPDES program.
Sec. 404. Anti-backsliding.
Sec. 405. Municipal and industrial stormwater discharges.
Sec. 406. Sewage sludge.
Sec. 407. Log transfer facilities.

TITLE V—MISCELLANEOUS PROVISIONS

Sec. 501. Audits.
Sec. 502. Commonwealth of the Northern Mariana Islands.
Sec. 503. Agricultural stormwater discharges.
Sec. 504. Protection of interests of United States in citizen suits.
Sec. 505. Judicial review and award of fees.
Sec. 506. Indian tribes.
Sec. 507. Definition of point source.
Sec. 508. Special provisions regarding certain dumping sites.
Sec. 509. Ocean discharge research project.
Sec. 510. San Diego, California.
Sec. 511. Limitation on discharge of raw sewage by New York City.
Sec. 512. Oakwood Beach and Red Hook Projects, New York.
Sec. 513. Boston Harbor and adjacent waters.
Sec. 514. Wastewater reclamation demonstration.
Sec. 515. Des Moines, Iowa.
Sec. 516. Study of de minimis discharges.
Sec. 517. Study of effectiveness of innovative and alternative processes and techniques.
Sec. 518. Study of testing procedures.
Sec. 519. Study of pretreatment of toxic pollutants.
Sec. 520. Studies of water pollution problems in aquifers.
Sec. 521. Great Lakes consumptive use study.
Sec. 522. Sulfide corrosion study.
Sec. 523. Study of rainfall induced infiltration into sewer systems.
Sec. 524. Dam water quality study.
Sec. 525. Study of pollution in Lake Pend Oreille, Idaho.

(c) AMENDMENT OF FEDERAL WATER POLLUTION CONTROL ACT.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Water Pollution Control Act.

(d) DEFINITION.—For purposes of this Act, the term "Administrator" means the Administrator of the Environmental Protection Agency.

SEC. 2. LIMITATION ON PAYMENTS.

No payments may be made under this Act except to the extent provided in advance in appropriation Acts.

TITLE I—AMENDMENTS TO TITLE I

SEC. 101. AUTHORIZATIONS OF APPROPRIATIONS.

(a) RESEARCH AND INVESTIGATIONS.—Section 104(u) is amended—

(1) in clause (1) by striking out "and" after "1975,", after "1980,", and after "1981,", and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and not to exceed $22,770,000 per fiscal year for each of the fiscal years 1986 through 1990,";

(2) in clause (2) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and $3,000,000 per fiscal year for each of the fiscal years 1986 through 1990,"; and

(3) in clause (3) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and $1,500,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(b) GRANTS FOR PROGRAM ADMINISTRATION.—Section 106(a)(2) is amended by inserting after "1982" the following: ", such sums as may be necessary for fiscal years 1983 through 1985, and $75,000,000 per fiscal year for each of the fiscal years 1986 through 1990".

(c) TRAINING GRANTS AND SCHOLARSHIPS.—Section 112(c) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and $7,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(d) AREAWIDE PLANNING.—Section 208(f)(3) is amended by striking out "and" after "1974," and after "1980," and by inserting after "1982" the following: ", and such sums as may be necessary for fiscal years 1983 through 1990".

(e) RURAL CLEAN WATER.—Section 208(j)(9) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "and such sums as may be necessary for fiscal years 1983 through 1990,".

(f) INTERAGENCY AGREEMENTS.—Section 304(k)(3) is amended by inserting after "1983" the following: "and such sums as may be necessary for fiscal years 1984 through 1990".

(g) CLEAN LAKES.—Section 314(c)(2) is amended by striking out "and" after "1981," and by inserting after "1982" the following: ", such sums as may be necessary for fiscal years 1983 through 1985, and $30,000,000 per fiscal year for each of the fiscal years 1986 through 1990".

(h) GENERAL AUTHORIZATION.—Section 517 is amended by striking out "and" after "1981," and by inserting after "1982" the following: ", such sums as may be necessary for fiscal years 1983 through 1985, and $135,000,000 per fiscal year for each of the fiscal years 1986 through 1990".

SEC. 102. SMALL FLOWS CLEARINGHOUSE.

Section 104(q) is amended by adding at the end thereof the following new paragraph:

"(4) SMALL FLOWS CLEARINGHOUSE.—Notwithstanding section 205(d) of this Act, from amounts that are set aside for a fiscal year under section 205(i) of this Act and are not obligated by the end of the 24-month period of availability for such amounts under section 205(d), the Administrator shall make available $1,000,000 or such unobligated amount, whichever is less, to support a national clearinghouse within the Environmental Protection Agency to collect and disseminate information on small flows of sewage and innovative or alternative wastewater treatment processes and techniques, consistent with paragraph (3). This paragraph shall apply with respect to amounts set aside under section 205(i) for which the 24-month period of availability referred to in the preceding sentence ends on or after September 30, 1986.".

SEC. 103. CHESAPEAKE BAY.

Title I is amended by adding at the end the following new section:

"SEC. 117. CHESAPEAKE BAY.

"(a) OFFICE.—The Administrator shall continue the Chesapeake Bay Program and shall establish and maintain in the Environmental Protection Agency an office, division, or branch of Chesapeake Bay Programs to—

"(1) collect and make available, through publications and other appropriate means, information pertaining to the environmental quality of the Chesapeake Bay (hereinafter in this subsection referred to as the 'Bay');

"(2) coordinate Federal and State efforts to improve the water quality of the Bay;

"(3) determine the impact of sediment deposition in the Bay and identify the sources, rates, routes, and distribution patterns of such sediment deposition; and

"(4) determine the impact of natural and man-induced environmental changes on the living resources of the Bay and the relationships among such changes, with particular emphasis placed on the impact of pollutant loadings of nutrients, chlorine, acid precipitation, dissolved oxygen, and toxic pollutants, including organic chemicals and heavy metals, and with special attention given to the impact of such changes on striped bass.

"(b) INTERSTATE DEVELOPMENT PLAN GRANTS.—

"(1) AUTHORITY.—The Administrator shall, at the request of the Governor of a State affected by the interstate management plan developed pursuant to the Chesapeake Bay Program (hereinafter in this section referred to as the 'plan'), make a grant for the purpose of implementing the management mechanisms contained in the plan if such State has, within 1 year after the date of the enactment of this section, approved and committed to implement all or substantially all aspects of the plan. Such grants shall be made subject to such terms and conditions as the Administrator considers appropriate.

"(2) SUBMISSION OF PROPOSAL.—A State or combination of States may elect to avail itself of the benefits of this subsection by submitting to the Administrator a comprehensive proposal to implement management mechanisms contained in the plan which shall include (A) a description of proposed abatement actions which the State or combination of States commits to take within a specified time period to reduce pollution in the Bay and to meet applicable water quality standards, and (B) the estimated cost of the abatement actions proposed to be taken during the next fiscal year. If the Administrator finds that such proposal is consistent with the national policies set forth in section 101(a) of this Act and will contribute to the achievement of the national goals set forth in such section, the Administrator shall approve such proposal and shall finance the costs of implementing segments of such proposal.

"(3) FEDERAL SHARE.—Grants under this subsection shall not exceed 50 percent of the costs of implementing the management mechanisms contained in the plan in any fiscal year and shall be made on condition that non-Federal sources provide the remainder of the cost of implementing the management mechanisms contained in the plan during such fiscal year.

"(4) ADMINISTRATIVE COSTS.—Administrative costs in the form of salaries, overhead, or indirect costs for services provided and charged against programs or projects supported by funds made available under this subsection shall not exceed in any one fiscal year 10 percent of the annual Federal grant made to a State under this subsection.

"(c) REPORTS.—Any State or combination of States that receives a grant under subsection (b) shall, within 18 months after the date of receipt of such grant and biennially thereafter, report to the Administrator on the progress made in implementing the interstate management plan developed pursuant to the Chesapeake Bay Program. The Administrator shall transmit each such report along with the comments of the Administrator on such report to Congress.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated the following sums, to remain available until expended, to carry out the purposes of this section:

"(1) $3,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, to carry out subsection (a); and

"(2) $10,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, for grants to States under subsection (b).".

SEC. 104. GREAT LAKES.

Title I is amended by adding at the end the following new section:

"SEC. 118. GREAT LAKES.

"(a) FINDINGS, PURPOSE, AND DEFINITIONS.—

"(1) FINDINGS.—The Congress finds that—

"(A) the Great Lakes are a valuable national resource, continuously serving the people of the United States and other nations as an important source of food, fresh water, recreation, beauty, and enjoyment;

"(B) the United States should seek to attain the goals embodied in the Great Lakes Water Quality Agreement of 1978 with particular emphasis on goals related to toxic pollutants; and

"(C) the Environmental Protection Agency should take the lead in the effort to meet those goals, working with other Federal agencies and State and local authorities.

"(2) PURPOSE.—It is the purpose of this section to achieve the goals embodied in the Great Lakes Water Quality Agreement of 1978 through improved organization and definition of mission on the part of the Agency, funding of State grants for pollution control in the Great Lakes area, and improved accountability for implementation of such agreement.

"(3) DEFINITIONS.—For purposes of this section, the term—

"(A) 'Agency' means the Environmental Protection Agency;

"(B) 'Great Lakes' means Lake Ontario, Lake Erie, Lake Huron (including Lake St. Clair), Lake Michigan, and Lake Superior, and the connecting channels (Saint Mary's River, Saint Clair River, Detroit River, Niagara River, and Saint Lawrence River to the Canadian Border);

"(C) 'Great Lakes System' means all the streams, rivers, lakes, and other bodies of water within the drainage basin of the Great Lakes;

"(D) 'Program Office' means the Great Lakes National Program Office established by this section; and

"(E) 'Research Office' means the Great Lakes Research Office established by subsection (d).

"(b) GREAT LAKES NATIONAL PROGRAM OFFICE.—The Great Lakes National Program Office (previously established by the Administrator) is hereby established within the Agency. The Program Office shall be headed by a Director who, by reason of management experience and technical expertise relating to the Great Lakes, is highly qualified to direct the development of programs and plans on a variety of Great Lakes issues. The Great Lakes National Program Office shall be located in a Great Lakes State.

"(c) GREAT LAKES MANAGEMENT.—

"(1) FUNCTIONS.—The Program Office shall—

"(A) in cooperation with appropriate Federal, State, tribal, and international agencies, and in accordance with section 101(e) of this Act, develop and implement specific action plans to carry out the responsibilities of the United States under the Great Lakes Water Quality Agreement of 1978;

"(B) establish a Great Lakes system-wide surveillance network to monitor the water quality of the Great Lakes, with specific emphasis on the monitoring of toxic pollutants;

"(C) serve as the liaison with, and provide information to, the Canadian members of the International Joint Commission and the Canadian counterpart to the Agency;

"(D) coordinate actions of the Agency (including actions by headquarters and regional offices thereof) aimed at improving Great Lakes water quality; and

"(E) coordinate actions of the Agency with the actions of other Federal agencies and State and local authorities, so as to ensure the input of those agencies and authorities in developing water quality strategies and obtain the support of those agencies and authorities in achieving the objectives of such agreement.

"(2) 5-YEAR PLAN AND PROGRAM.—The Program Office shall develop, in consultation with the States, a five-year plan and program for reducing the amount of nutrients introduced into the Great Lakes. Such program shall incorporate any management program for reducing nutrient runoff from nonpoint sources established under section 319 of this Act and shall include a program for monitoring nutrient runoff into, and ambient levels in, the Great Lakes.

"(3) 5-YEAR STUDY AND DEMONSTRATION PROJECTS.—The Program Office shall carry out a five-year study and demonstration projects relating to the control and removal of toxic pollutants in the Great Lakes, with emphasis on the removal of toxic pollutants from bottom sediments. In selecting locations for conducting demonstration projects under this paragraph, priority consideration shall be given to projects at the following locations: Saginaw Bay, Michigan; Sheboygan Harbor, Wisconsin; Grand Calumet River, Indiana; Ashtabula River, Ohio; and Buffalo River, New York.

"(4) ADMINISTRATOR'S RESPONSIBILITY.—The Administrator shall ensure that the Program Office enters into agreements with the various organizational elements of the Agency involved in Great Lakes activities and the appropriate State agencies specifically delineating—

"(A) the duties and responsibilities of each such element in the Agency with respect to the Great Lakes;

"(B) the time periods for carrying out such duties and responsibilities; and

"(C) the resources to be committed to such duties and responsibilities.

"(5) BUDGET ITEM.—The Administrator shall, in the Agency's annual budget submission to Congress, include a funding request for the Program Office as a separate budget line item.

"(6) COMPREHENSIVE REPORT.—Within 90 days after the end of each fiscal year, the Administrator shall submit to Congress a comprehensive report which—

"(A) describes the achievements in the preceding fiscal year in implementing the Great Lakes Water Quality Agreement of 1978 and shows by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amounts expended on Great Lakes water quality initiatives in such preceding fiscal year;

"(B) describes the progress made in such preceding fiscal year in implementing the system of surveillance of the water quality in the Great Lakes System, including the monitoring of groundwater and sediment, with particular reference to toxic pollutants;

"(C) describes the long-term prospects for improving the condition of the Great Lakes; and

"(D) provides a comprehensive assessment of the planned efforts to be pursued in the succeeding fiscal year for implementing the Great Lakes Water Quality Agreement of 1978, which assessment shall—

"(i) show by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amount anticipated to be expended on Great Lakes water quality initiatives in the fiscal year to which the assessment relates; and

"(ii) include a report of current programs administered by other Federal agencies which make available resources to the Great Lakes water quality management efforts.

"(d) GREAT LAKES RESEARCH.—

"(1) ESTABLISHMENT OF RESEARCH OFFICE.—There is established within the National Oceanic and Atmospheric Administration the Great Lakes Research Office.

"(2) IDENTIFICATION OF ISSUES.—The Research Office shall identify issues relating to the Great Lakes resources on which research is needed. The Research Office shall submit a report to Congress on such issues before the end of each fiscal year which shall identify any changes in the Great Lakes system with respect to such issues.

"(3) INVENTORY.—The Research Office shall identify and inventory Federal, State, university, and tribal environmental research programs (and, to the extent feasible, those of private organizations and other nations) relating to the Great Lakes system, and shall update that inventory every four years.

"(4) RESEARCH EXCHANGE.—The Research Office shall establish a Great Lakes research exchange for the purpose of facilitating the rapid identification, acquisition, retrieval, dissemination, and use of information concerning research projects which are ongoing or completed and which affect the Great Lakes System.

"(5) RESEARCH PROGRAM.—The Research Office shall develop, in cooperation with the Coordination Office, a comprehensive environmental research program and data base for the Great Lakes system. The data base shall include, but not be limited to, data relating to water quality, fisheries, and biota.

"(6) MONITORING.—The Research Office shall conduct, through the Great Lakes Environmental Research Laboratory, the National Sea Grant College program, other Federal laboratories, and the private sector, appropriate research and monitoring activities which address priority issues and current needs relating to the Great Lakes.

"(7) LOCATION.—The Research Office shall be located in a Great Lakes State.

"(e) RESEARCH AND MANAGEMENT COORDINATION.—

"(1) JOINT PLAN.—Before October 1 of each year, the Program Office and the Research Office shall prepare a joint research plan for the fiscal year which begins in the following calendar year.

"(2) CONTENTS OF PLAN.—Each plan prepared under paragraph (1) shall—

"(A) identify all proposed research dedicated to activities conducted under the Great Lakes Water Quality Agreement of 1978;

"(B) include the Agency's assessment of priorities for research needed to fulfill the terms of such Agreement; and

"(C) identify all proposed research that may be used to develop a comprehensive environmental data base for the Great Lakes System and establish priorities for development of such data base.

"(f) INTERAGENCY COOPERATION.—The head of each department, agency, or other instrumentality of the Federal Government which is engaged in, is concerned with, or has authority over programs relating to research, monitoring, and planning to maintain, enhance, preserve, or rehabilitate the environmental quality and natural resources of the Great Lakes, including the Chief of Engineers of the Army, the Chief of the Soil Conservation Service, the Commandant of the Coast Guard, the Director of the Fish and Wildlife Service, and the Administrator of the National Oceanic and Atmospheric Administration, shall submit an annual report to the Administrator with respect to the activities of that agency or office affecting compliance with the Great Lakes Water Quality Agreement of 1978.

"(g) RELATIONSHIP TO EXISTING FEDERAL AND STATE LAWS AND INTERNATIONAL TREATIES.—Nothing in this section shall be construed to affect the jurisdiction, powers, or prerogatives of any department, agency, or officer of the Federal Government or of any State government, or of any tribe, nor any powers, jurisdiction, or prerogatives of any international body created by treaty with authority relating to the Great Lakes.

"(h) AUTHORIZATIONS OF GREAT LAKES APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section not to exceed $11,000,000 per fiscal year for the fiscal years 1987, 1988, 1989, 1990, and 1991. Of the amounts appropriated each fiscal year—

"(1) 40 percent shall be used by the Great Lakes National Program Office on demonstration projects on the feasibility of controlling and removing toxic pollutants;

"(2) 7 percent shall be used by the Great Lakes National Program Office for the program of nutrient monitoring; and

"(3) 30 percent shall be transferred to the National Oceanic and Atmospheric Administration for use by the Great Lakes Research Office.".

SEC. 105. RESEARCH ON EFFECTS OF POLLUTANTS.

In carrying out the provisions of section 104(a) of the Federal Water Pollution Control Act, the Administrator shall conduct research on the harmful effects on the health and welfare of persons caused by pollutants in water, in conjunction with the United States Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, and other Federal, State, and interstate agencies carrying on such research. Such research shall include, and shall place special emphasis on, the effect that bioaccumulation of these pollutants in aquatic species has upon reducing the value of aquatic commercial and sport industries. Such research shall further study methods to reduce and remove these pollutants from the relevant affected aquatic species so as to restore and enhance these valuable resources.

TITLE II—CONSTRUCTION GRANTS AMENDMENTS

SEC. 201. TIME LIMIT ON RESOLVING CERTAIN DISPUTES.

Section 201 is amended by adding at the end thereof the following new subsection:

"(p) TIME LIMIT ON RESOLVING CERTAIN DISPUTES.—In any case in which a dispute arises with respect to the awarding of a contract for construction of treatment works by a grantee of funds under this title and a party to such dispute files an appeal with the Administrator under this title for resolution of such dispute, the Administrator shall make a final decision on such appeal within 90 days of the filing of such appeal.".

SEC. 202. FEDERAL SHARE.

(a) LIMITATION ON ELIGIBILITY AFTER 1990.—The last sentence of section 202(a)(1) is amended by inserting before the period at the end the following: "for any grant made pursuant to a State obligation which obligation occurred before October 1, 1990".

(b) PROJECTS UNDER JUDICIAL INJUNCTION.—Section 202(a)(1) is amended by adding at the end thereof the following: "Notwithstanding the first sentence of this paragraph, in the case of a project for which an application for a grant under this title has been made to the Administrator before October 1, 1984, and which project is under judicial injunction on such date prohibiting its construction, such project shall be eligible for grants at 75 percent of the cost of construction thereof.".

(c) PROJECTS UNDER JUDICIAL ORDER AND OTHER PROJECTS.—Section 202(a)(1) is amended by adding at the end thereof the following: "Notwithstanding the first sentence of this paragraph, in the case of the Wyoming Valley Sanitary Authority project mandated by judicial order under a proceeding begun prior to October 1, 1984, and a project for wastewater treatment for Altoona, Pennsylvania, such projects shall be eligible for grants at 75 percent of the cost of construction thereof.".

(d) BIODISC EQUIPMENT.—Section 202(a)(3) is amended by adding at the end thereof the following: "In addition, the Administrator is authorized to make a grant to fund all of the costs of the modification or replacement of biodisc equipment (rotating biological contactors) in any publicly owned treatment works if the Administrator finds that such equipment has failed to meet design performance specifications, unless such failure is attributable to negligence on the part of any person, and if such failure has significantly increased capital or operating and maintenance expenditures.".

(e) INNOVATIVE PROCESS.—The activated bio-filter feature of the project for treatment works of the city of Little Falls, Minnesota, shall be deemed to be an innovative wastewater process and technique for purposes of section 202(a)(2) of the Federal Water Pollution Control Act and the amount of any grant under such Act for such feature shall be 85 percent of the cost thereof.

(f) AVAILABILITY OF CERTAIN FUNDS FOR NON-FEDERAL SHARE.—Notwithstanding any other provision of law, Federal assistance made available by the Farmers Home Administration to any political subdivision of a State may be used to provide the non-Federal share of the cost of any construction project carried out under section 201 of the Federal Water Pollution Control Act.

SEC. 203. AGREEMENT ON ELIGIBLE COSTS.

Section 203(a) is amended by inserting "(1)" after "(a)", by designating the last sentence as paragraph (3) and indenting such sentence as a paragraph, and by inserting before paragraph (3) as so designated the following:

"(2) AGREEMENT ON ELIGIBLE COSTS.—

"(A) LIMITATION ON MODIFICATIONS.—Before taking final action on any plans, specifications, and estimates submitted under this subsection after the 60th day following the date of the enactment of the Water Quality Act of 1987, the Administrator shall enter into a written agreement with the applicant which establishes and specifies which items of the proposed project are eligible for Federal payments under this section. The Administrator may not later modify such eligibility determinations unless they are found to have been made in violation of applicable Federal statutes and regulations.

"(B) LIMITATION ON EFFECT.—Eligibility determinations under this paragraph shall not preclude the Administrator from auditing a project pursuant to section 501 of this Act, or other authority, or from withholding or recovering Federal funds for costs which are found to be unreasonable, unsupported by adequate documentation, or otherwise unallowable under applicable Federal cost principles, or which are incurred on a project which fails to meet the design specifications or effluent limitations contained in the grant agreement and permit pursuant to section 402 of this Act for such project.".

SEC. 204. DESIGN/BUILD PROJECTS.

Section 203 is amended by adding at the end the following new subsection:

"(f) DESIGN/BUILD PROJECTS.—

"(1) AGREEMENT.—Consistent with State law, an applicant who proposes to construct waste water treatment works may enter into an agreement with the Administrator under this subsection providing for the preparation of construction plans and specifications and the erection of such treatment works, in lieu of proceeding under the other provisions of this section.

"(2) LIMITATION ON PROJECTS.—Agreements under this subsection shall be limited to projects under an approved facility plan which projects are—

"(A) treatment works that have an estimated total cost of $8,000,000 or less; and

"(B) any of the following types of waste water treatment systems: aerated lagoons, trickling filters, stabilization ponds, land application systems, sand filters, and subsurface disposal systems.

"(3) REQUIRED TERMS.—An agreement entered into under this subsection shall—

"(A) set forth an amount agreed to as the maximum Federal contribution to the project, based upon a competitively bid document of basic design data and applicable standard construction specifications and a determination of the federally eligible costs of the project at the applicable Federal share under section 202 of this Act;

"(B) set forth dates for the start and completion of construction of the treatment works by the applicant and a schedule of payments of the Federal contribution to the project;

"(C) contain assurances by the applicant that (i) engineering and management assistance will be provided to manage the project; (ii) the proposed treatment works will be an operable unit and will meet all the requirements of this title; and (iii) not later than 1 year after the date specified as the date of completion of construction of the treatment works, the treatment works will be operating so as to meet the requirements of any applicable permit for such treatment works under section 402 of this Act;

"(D) require the applicant to obtain a bond from the contractor in an amount determined necessary by the Administrator to protect the Federal interest in the project; and

"(E) contain such other terms and conditions as are necessary to assure compliance with this title (except as provided in paragraph (4) of this subsection).

"(4) LIMITATION ON APPLICATION.—Subsections (a), (b), and (c) of this section shall not apply to grants made pursuant to this subsection.

"(5) RESERVATION TO ASSURE COMPLIANCE.—The Administrator shall reserve a portion of the grant to assure contract compliance until final project approval as defined by the Administrator. If the amount agreed to under paragraph (3)(A) exceeds the cost of designing and constructing the treatment works, the Administrator shall reallot the amount of the excess to the State in which such treatment works are located for the fiscal year in which such audit is completed.

"(6) LIMITATION ON OBLIGATIONS.—The Administrator shall not obligate more than 20 percent of the amount allotted to a State for a fiscal year under section 205 of this Act for grants pursuant to this subsection.

"(7) ALLOWANCE.—The Administrator shall determine an allowance for facilities planning for projects constructed under this subsection in accordance with section 201(l).

"(8) LIMITATION ON FEDERAL CONTRIBUTIONS.—In no event shall the Federal contribution for the cost of preparing construction plans and specifications and the building and erection of treatment works pursuant to this subsection exceed the amount agreed upon under paragraph (3).

"(9) RECOVERY ACTION.—In any case in which the recipient of a grant made pursuant to this subsection does not comply with the terms of the agreement entered into under paragraph (3), the Administrator is authorized to take such action as may be necessary to recover the amount of the Federal contribution to the project.

"(10) PREVENTION OF DOUBLE BENEFITS.—A recipient of a grant made pursuant to this subsection shall not be eligible for any other grants under this title for the same project.".

SEC. 205. GRANT CONDITIONS; USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.

(a) INCLUSION OF PROJECT IN AREAWIDE PLAN.—Section 204(a)(1) is amended to read as follows:

"(1) that any required areawide waste treatment management plan under section 208 of this Act (A) is being implemented for such area and the proposed treatment works are included in such plan, or (B) is being developed for such area and reasonable progress is being made toward its implementation and the proposed treatment works will be included in such plan;".

(b) CONTINUING PLANNING PROCESS.—Section 204(a)(2) is amended to read as follows:

"(2) that (A) the State in which the project is to be located (i) is implementing any required plan under section 303(e) of this Act and the proposed treatment works are in conformity with such plan, or (ii) is developing such a plan and the proposed treatment works will be in conformity with such plan, and (B) such State is in compliance with section 305(b) of this Act;".

(c) USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.—Section 204(b)(1) is amended by adding at the end thereof the following: "A system of user charges which imposes a lower charge for low-income residential users (as defined by the Administrator) shall be deemed to be a user charge system meeting the requirements of clause (A) of this paragraph if the Administrator determines that such system was adopted after public notice and hearing.".

(d) EFFECTIVE DATE.—This section shall take effect on the date of the enactment of this Act, except that the amendments made by subsections (a) and (b) shall take effect on the last day of the two-year period beginning on such date of enactment.

SEC. 206. ALLOTMENT FORMULA.

(a) FORMULA.—

(1) EXTENSION OF EXISTING FORMULA FOR 1986.—Section 205(c)(2) is amended by striking out "and September 30, 1985," and inserting in lieu thereof "September 30, 1985, and September 30, 1986,".

(2) FISCAL YEARS 1987-1990.—Section 205(c) is amended by adding at the end the following new paragraph:

"(3) FISCAL YEARS 1987-1990.—Sums authorized to be appropriated pursuant to section 207 for the fiscal years 1987, 1988, 1989, and 1990 shall be allotted for each such year by the Administrator not later than the 10th day which begins after the date of the enactment of this paragraph. Sums authorized for such fiscal years shall be allotted in accordance with the following table:

"States:

Alabama	.011309
Alaska	.006053
Arizona	.006831
Arkansas	.006616
California	.072333
Colorado	.008090
Connecticut	.012390

Northern Marianas	.000422
Puerto Rico	.013191
Pacific Trust Territories	.001295
Virgin Islands	.000527".

(b) EXTENSION OF MINIMUM ALLOTMENTS.—Section 205(e) is amended by striking out "and 1985" each place it appears and inserting in lieu thereof "1985, 1986, 1987, 1988, 1989, and 1990".

(c) COSTS OF ADMINISTRATION.—Section 205(g)(1) is amended by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1994".

(d) CONTROL OF POLLUTANTS FROM STORM SEWERS.—Section 211(c) is amended by striking out "1985," and inserting in lieu thereof "1990,".

SEC. 207. RURAL SET ASIDE.

(a) INCREASE IN MANDATORY SET ASIDE FOR RURAL STATES.—The first sentence of section 205(h) is amended by striking out "four per centum" and inserting in lieu thereof "a total (as determined by the Governor of the State) of not less than 4 percent nor more than 7½ percent".

(b) INCREASE IN AUTHORIZED SET ASIDE FOR OTHER STATES.—The second sentence of section 205(h) is amended by striking out "four per centum" and inserting in lieu thereof "7½ percent".

SEC. 208. INNOVATIVE AND ALTERNATIVE PROJECTS.

Section 205(i) is amended to read as follows:

"(i) SET-ASIDE FOR INNOVATIVE AND ALTERNATIVE PROJECTS.—Not less than ½ of 1 percent of funds allotted to a State for each of the fiscal years ending September 30, 1979, through September 30, 1990, under subsection (c) of this section shall be expended only for increasing the Federal share of grants for construction of treatment works utilizing innovative processes and techniques pursuant to section 202(a)(2) of this Act. Including the expenditures authorized by the preceding sentence, a total of 2 percent of the funds allotted to a State for each of the fiscal years ending September

30, 1979, and September 30, 1980, and 3 percent of the funds allotted to a State for the fiscal year ending September 30, 1981, under subsection (c) of this section shall be expended only for increasing grants for construction of treatment works pursuant to section 202(a)(2) of this Act. Including the expenditures authorized by the first sentence of this subsection, a total (as determined by the Governor of the State) of not less than 4 percent nor more than 7½ percent of the funds allotted to such State under subsection (c) of this section for each of the fiscal years ending September 30, 1982, through September 30, 1990, shall be expended only for increasing the Federal share of grants for construction of treatment works pursuant to section 202(a)(2) of this Act.".

SEC. 209. REGIONAL ORGANIZATION FUNDING.

Section 205(j)(3) is amended by adding at the end thereof the following: "In giving such priority, the State shall allocate at least 40 percent of the amount granted to such State for a fiscal year under paragraph (2) of this subsection to regional public comprehensive planning organizations in such State and appropriate interstate organizations for the development and implementation of the plan described in this paragraph. In any fiscal year for which the Governor, in consultation with such organizations and with the approval of the Administrator, determines that allocation of at least 40 percent of such amount to such organizations will not result in significant participation by such organizations in water quality management planning and not significantly assist in development and implementation of the plan described in this paragraph and achieving the goals of this Act, the allocation to such organization may be less than 40 percent of such amount.".

SEC. 210. MARINE CSO'S AND ESTUARIES.

Section 205 is amended by adding at the end thereof the following new subsection:

"(l) MARINE ESTUARY RESERVATION.—

"(1) RESERVATION OF FUNDS.—

"(A) GENERAL RULE.—Prior to making allotments among the States under subsection (c) of this section, the Administrator shall reserve funds from sums appropriated pursuant to section 207 for each fiscal year beginning after September 30, 1986.

"(B) FISCAL YEARS 1987 AND 1988.—For each of fiscal years 1987 and 1988 the reservation shall be 1 percent of the sums appropriated pursuant to section 207 for such fiscal year.

"(C) FISCAL YEARS 1989 AND 1990.—For each of fiscal years 1989 and 1990 the reservation shall be 1½ percent of the funds appropriated pursuant to section 207 for such fiscal year.

"(2) USE OF FUNDS.—Of the sums reserved under this subsection, two-thirds shall be available to address water quality problems of marine bays and estuaries subject to lower levels of water quality due to the impacts of discharges from combined storm water and sanitary sewer overflows from adjacent urban complexes, and one-third shall be available for the implementation of section 320 of this Act, relating to the national estuary program.

"(3) PERIOD OF AVAILABILITY.—Sums reserved under this subsection shall be subject to the period of availability for obligation established by subsection (d) of this section.

"(4) TREATMENT OF CERTAIN BODY OF WATER.—For purposes of this section and section 201(n), Newark Bay, New Jersey, and the portion of the Passaic River up to Little Falls, in the vicinity of Beatties Dam, shall be treated as a marine bay and estuary.".

SEC. 211. AUTHORIZATIONS FOR CONSTRUCTION GRANTS.

Section 207 is amended by striking out the period at the end thereof and inserting in lieu thereof the following: "; and for each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988, not to exceed $2,400,000,000; and for each of the fiscal years ending September 30, 1989, and September 30, 1990, not to exceed $1,200,000,000.".

SEC. 212. STATE WATER POLLUTION CONTROL REVOLVING FUNDS.

(a) ESTABLISHMENT OF PROGRAM.—The Act is amended by adding at the end thereof the following new title:

"TITLE VI—STATE WATER POLLUTION CONTROL REVOLVING FUNDS

"SEC. 601. GRANTS TO STATES FOR ESTABLISHMENT OF REVOLVING FUNDS.

"(a) GENERAL AUTHORITY.—Subject to the provisions of this title, the Administrator shall make capitalization grants to each State for the purpose of establishing a water pollution control revolving fund for providing assistance (1) for construction of treatment works (as defined in section 212 of this Act) which are publicly owned, (2) for implementing a management program under section 319, and (3) for developing and implementing a conservation and management plan under section 320.

"(b) SCHEDULE OF GRANT PAYMENTS.—The Administrator and each State shall jointly establish a schedule of payments under which the Administrator will pay to the State the amount of each grant to be made to the State under this title. Such schedule shall be based on the State's intended use plan under section 606(c) of this Act, except that—

"(1) such payments shall be made in quarterly installments, and

"(2) such payments shall be made as expeditiously as possible, but in no event later than the earlier of—

"(A) eight quarters after the date such funds were obligated by the State, or

"(B) twelve quarters after the date such funds were allotted to the State.

"SEC. 602. CAPITALIZATION GRANT AGREEMENTS.

"(a) GENERAL RULE.—To receive a capitalization grant with funds made available under this title and section 205(m) of this Act, a State shall enter into an agreement with the Administrator which shall include but not be limited to the specifications set forth in subsection (b) of this section.

"(b) SPECIFIC REQUIREMENTS.—The Administrator shall enter into an agreement under this section with a State only after the State has established to the satisfaction of the Administrator that—

"(1) the State will accept grant payments with funds to be made available under this title and section 205(m) of this Act in accordance with a payment schedule established jointly by the Administrator under section 601(b) of this Act and will deposit all such payments in the water pollution control revolving fund established by the State in accordance with this title;

"(2) the State will deposit in the fund from State moneys an amount equal to at least 20 percent of the total amount of all capitalization grants which will be made to the State with funds to be made available under this title and section 205(m) of this Act on or before the date on which each quarterly grant payment will be made to the State under this title;

"(3) the State will enter into binding commitments to provide assistance in accordance with the requirements of this title in an amount equal to 120 percent of the amount of each such grant payment within 1 year after the receipt of such grant payment;

"(4) all funds in the fund will be expended in an expeditious and timely manner;

"(5) all funds in the fund as a result of capitalization grants under this title and section 205(m) of this Act will first be used to assure maintenance of progress, as determined by the Governor of the State, toward compliance with enforceable deadlines, goals, and requirements of this Act, including the municipal compliance deadline;

"(6) treatment works eligible under section 603(c)(1) of this Act which will be constructed in whole or in part before fiscal year 1995 with funds directly made available by capitalization grants under this title and section 205(m) of this Act will meet the requirements of, or otherwise be treated (as determined by the Governor of the State) under sections 201(b), 201(g)(1), 201(g)(2), 201(g)(3), 201(g)(5), 201(g)(6), 201(n)(1), 201(o), 204(a)(1), 204(a)(2), 204(b)(1), 204(d)(2), 211, 218, 511(c)(1), and 513 of this Act in the same manner as treatment works constructed with assistance under title II of this Act;

"(7) in addition to complying with the requirements of this title, the State will commit or expend each quarterly grant payment which it will receive under this title in accordance with laws and procedures applicable to the commitment or expenditure of revenues of the State;

"(8) in carrying out the requirements of section 606 of this Act, the State will use accounting, audit, and fiscal procedures conforming to generally accepted government accounting standards;

"(9) the State will require as a condition of making a loan or providing other assistance, as described in section 603(d) of this Act, from the fund that the recipient of such assistance will maintain project accounts in accordance with generally accepted government accounting standards; and

"(10) the State will make annual reports to the Administrator on the actual use of funds in accordance with section 606(d) of this Act.

"SEC. 603. WATER POLLUTION CONTROL REVOLVING LOAN FUNDS.

"(a) REQUIREMENTS FOR OBLIGATION OF GRANT FUNDS.—Before a State may receive a capitalization grant with funds made available under this title and section 205(m) of this Act, the State shall first establish a water pollution control revolving fund which complies with the requirements of this section.

"(b) ADMINISTRATION.—Each State water pollution control revolving fund shall be administered by an instrumentality of the State with such powers and limitations as may be required to operate such fund in accordance with the requirements and objectives of this Act.

"(c) PROJECTS ELIGIBLE FOR ASSISTANCE.—The amounts of funds available to each State water pollution control revolving fund shall be used only for providing financial assistance (1) to any municipality, intermunicipal, interstate, or State agency for construction of publicly owned treatment works (as defined in section 212 of this Act), (2) for the implementation of a management program established under section 319 of this Act, and (3) for development and implementation of a conservation and management plan under section 320 of this Act. The fund shall be established, maintained, and credited with repayments, and the fund balance shall be available in perpetuity for providing such financial assistance.

"(d) TYPES OF ASSISTANCE.—Except as otherwise limited by State law, a water pollution control revolving fund of a State under this section may be used only—

"(1) to make loans, on the condition that—

"(A) such loans are made at or below market interest rates, including interest free loans, at terms not to exceed 20 years;

"(B) annual principal and interest payments will commence not later than 1 year after completion of any project and all loans will be fully amortized not later than 20 years after project completion;

"(C) the recipient of a loan will establish a dedicated source of revenue for repayment of loans; and

"(D) the fund will be credited with all payments of principal and interest on all loans;

"(2) to buy or refinance the debt obligation of municipalities and intermunicipal and interstate agencies within the State at or below market rates, where such debt obligations were incurred after March 7, 1985;

"(3) to guarantee, or purchase insurance for, local obligations where such action would improve credit market access or reduce interest rates;

"(4) as a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by the State if the proceeds of the sale of such bonds will be deposited in the fund;

"(5) to provide loan guarantees for similar revolving funds established by municipalities or intermunicipal agencies;

"(6) to earn interest on fund accounts; and

"(7) for the reasonable costs of administering the fund and conducting activities under this title, except that such amounts shall not exceed 4 percent of all grant awards to such fund under this title.

"(e) LIMITATION TO PREVENT DOUBLE BENEFITS.—If a State makes, from its water pollution revolving fund, a loan which will finance the cost of facility planning and the preparation of plans, specifications, and estimates for construction of publicly owned treatment works, the State shall ensure that if the recipient of such loan receives a grant under section 201(g) of this Act for construction of such treatment works and an allowance under section 201(l)(1) of this Act for non-Federal funds expended for such planning and preparation, such recipient will promptly repay such loan to the extent of such allowance.

"(f) CONSISTENCY WITH PLANNING REQUIREMENTS.—A State may provide financial assistance from its water pollution control revolving fund only with respect to a project which is consistent with plans, if any, developed under sections 205(j), 208, 303(e), 319, and 320 of this Act.

"(g) PRIORITY LIST REQUIREMENT.—The State may provide financial assistance from its water pollution control revolving fund only with respect to a project for construction of a treatment works described in subsection (c)(1) if such project is on the State's priority list under section 216 of this Act. Such assistance may be provided regardless of the rank of such project on such list.

"(h) ELIGIBILITY OF NON-FEDERAL SHARE OF CONSTRUCTION GRANT PROJECTS.—A State water pollution control revolving fund may provide assistance (other than under subsection (d)(1) of this section) to a municipality or intermunicipal or interstate agency with respect to the non-Federal share of the costs of a treatment works project for which such municipality or agency is receiving assistance from the Administrator under any other authority only if such assistance is necessary to allow such project to proceed.

"SEC. 604. ALLOTMENT OF FUNDS.

"(a) FORMULA.—Sums authorized to be appropriated to carry out this section for each of fiscal years 1989 and 1990 shall be allotted by the Administrator in accordance with section 205(c) of this Act.

"(b) RESERVATION OF FUNDS FOR PLANNING.—Each State shall reserve each fiscal year 1 percent of the sums allotted to such State under this section for such fiscal year, or $100,000, whichever amount is greater, to carry out planning under sections 205(j) and 303(e) of this Act.

"(c) ALLOTMENT PERIOD.—

"(1) PERIOD OF AVAILABILITY FOR GRANT AWARD.—Sums allotted to a State under this section for a fiscal year shall be available for obligation by the State during the fiscal year for which sums are authorized and during the following fiscal year.

"(2) REALLOTMENT OF UNOBLIGATED FUNDS.—The amount of any allotment not obligated by the State by the last day of the 2-year period of availability established by paragraph (1) shall be immediately reallotted by the Administrator on the basis of the same ratio as is applicable to sums allotted under title II of this Act for the second fiscal year of such 2-year period. None of the funds reallotted by the Administrator shall be reallotted to any State which has not obligated all sums allotted to such State in the first fiscal year of such 2-year period.

"SEC. 605. CORRECTIVE ACTION.

"(a) NOTIFICATION OF NONCOMPLIANCE.—If the Administrator determines that a State has not complied with its agreement with the Administrator under section 602 of this Act or any other requirement of this title, the Administrator shall notify the State of such noncompliance and the necessary corrective action.

"(b) WITHHOLDING OF PAYMENTS.—If a State does not take corrective action within 60 days after the date a State receives notification of such action under subsection (a), the Administrator shall withhold additional payments to the State until the Administrator is satisfied that the State has taken the necessary corrective action.

"(c) REALLOTMENT OF WITHHELD PAYMENTS.—If the Administrator is not satisfied that adequate corrective actions have been taken by the State within 12 months after the State is notified of such actions under subsection (a), the payments withheld from the State by the Administrator under subsection (b) shall be made available for reallotment in accordance with the most recent formula for allotment of funds under this title.

"SEC. 606. AUDITS, REPORTS, AND FISCAL CONTROLS; INTENDED USE PLAN.

"(a) FISCAL CONTROL AND AUDITING PROCEDURES.—Each State electing to establish a water pollution control revolving fund under this title shall establish fiscal controls and accounting procedures sufficient to assure proper accounting during appropriate accounting periods for—

"(1) payments received by the fund;

"(2) disbursements made by the fund; and

"(3) fund balances at the beginning and end of the accounting period.

"(b) ANNUAL FEDERAL AUDITS.—The Administrator shall, at least on an annual basis, conduct or require each State to have independently conducted reviews and audits as may be deemed necessary or appropriate by the Administrator to carry out the objectives of this section. Audits of the use of funds deposited in the water pollution revolving fund established by such State shall be conducted in accordance with the auditing procedures of the General Accounting Office, including chapter 75 of title 31, United States Code.

"(c) INTENDED USE PLAN.—After providing for public comment and review, each State shall annually prepare a plan identifying the intended uses of the amounts available to its water pollution control revolving fund. Such intended use plan shall include, but not be limited to—

"(1) a list of those projects for construction of publicly owned treatment works on the State's priority list developed pursuant to section 216 of this Act and a list of activities eligible for assistance under sections 319 and 320 of this Act;

"(2) a description of the short- and long-term goals and objectives of its water pollution control revolving fund;

"(3) information on the activities to be supported, including a description of project categories, discharge requirements under titles III and IV of this Act, terms of financial assistance, and communities served;

"(4) assurances and specific proposals for meeting the requirements of paragraphs (3), (4), (5), and (6) of section 602(b) of this Act; and

"(5) the criteria and method established for the distribution of funds.

"(d) ANNUAL REPORT.—Beginning the first fiscal year after the receipt of payments under this title, the State shall provide an annual report to the Administrator describing how the State has met the goals and objectives for the previous fiscal year as identified in the plan prepared for the previous fiscal year pursuant to subsection (c), including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the water pollution control revolving fund.

"(e) ANNUAL FEDERAL OVERSIGHT REVIEW.—The Administrator shall conduct an annual oversight review of each State plan prepared under subsection (c), each State report prepared under subsection (d), and other such materials as are considered necessary and appropriate in carrying out the purposes of this title. After reasonable notice by the Administrator to the State or the recipient of a loan from a water pollution control revolving fund, the State or loan recipient shall make available to the Administrator such records as the Administrator reasonably requires to review and determine compliance with this title.

"(f) APPLICABILITY OF TITLE II PROVISIONS.—Except to the extent provided in this title, the provisions of title II shall not apply to grants under this title.

"SEC. 607. AUTHORIZATION OF APPROPRIATIONS.

"There is authorized to be appropriated to carry out the purposes of this title the following sums:

"(1) $1,200,000,000 per fiscal year for each of fiscal years 1989 and 1990;

"(2) $2,400,000,000 for fiscal year 1991;

"(3) $1,800,000,000 for fiscal year 1992;

"(4) $1,200,000,000 for fiscal year 1993; and

"(5) $600,000,000 for fiscal year 1994.".

(b) State-Option To Use Title II Funds.—Section 205 is amended by adding at the end thereof the following new subsection:

"(m) Discretionary Deposits Into State Water Pollution Control Revolving Funds.—

"(1) From construction grant allotments.—In addition to any amounts deposited in a water pollution control revolving fund established by a State under title VI, upon request of the Governor of such State, the Administrator shall make available to the State for deposit, as capitalization grants, in such fund in any fiscal year beginning after September 30, 1986, such amount of the amounts allotted to such State under this section for such fiscal year as the Governor considers appropriate; except that (A) in fiscal year 1987, such deposit may not exceed 50 percent of the amounts allotted to such State under this section for such fiscal year, and (B) in fiscal year 1988, such deposit may not exceed 75 percent of the amounts allotted to such State under this section for this fiscal year.

"(2) Notice requirement.—The Governor of a State may make a request under paragraph (1) for a deposit into the water pollution control revolving fund of such State—

"(A) in fiscal year 1987 only if no later than 90 days after the date of the enactment of this subsection, and

"(B) in each fiscal year thereafter only if 90 days before the first day of such fiscal year,

the State provides notice of its intent to make such deposit.

"(3) Exception.—Sums reserved under section 205(j) of this Act shall not be available for obligation under this subsection.".

(c) Report to Congress.—Section 516 is amended by adding at the end thereof the following new subsection:

"(g) State Revolving Fund Report.—

"(1) In general.—Not later than February 10, 1990, the Administrator shall submit to Congress a report on the financial status and operations of water pollution control revolving funds established by the States under title VI of this Act. The Administrator shall prepare such report in cooperation with the States, including water pollution control agencies and other water pollution control planning and financing agencies.

"(2) Contents.—The report under this subsection shall also include the following:

"(A) an inventory of the facilities that are in significant noncompliance with the enforceable requirements of this Act;

"(B) an estimate of the cost of construction necessary to bring such facilities into compliance with such requirements;

"(C) an assessment of the availability of sources of funds for financing such needed construction, including an estimate of the amount of funds available for providing assistance for such construction through September 30, 1999, from the water pollution control revolving funds established by the States under title VI of this Act;

"(D) an assessment of the operations, loan portfolio, and loan conditions of such revolving funds;

"(E) an assessment of the effect on user charges of the assistance provided by such revolving funds compared to the assistance provided with funds appropriated pursuant to section 207 of this Act; and

"(F) an assessment of the efficiency of the operation and maintenance of treatment works constructed with assistance provided by such revolving funds compared to the efficiency of the operation and maintenance of treatment works constructed with assistance provided under section 201 of this Act.".

SEC. 213. IMPROVEMENT PROJECTS.

(a) Avalon, California.—The Administrator shall make a grant of $3,000,000 from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of California for fiscal year 1987 to the city of Avalon, California, for improvements to the publicly owned treatment works of such city.

(b) Walker and Smithfield Townships, Pennsylvania.—Out of funds available for grants in the State of Pennsylvania under the third sentence of section 201(g)(1) of the Federal Water Pollution Control Act in fiscal year 1987, the Administrator shall make grants—

(1) to Walker Township, Pennsylvania, for developing a collector system and connecting its wastewater treatment system into the Huntingdon Borough, Pennsylvania, sewage treatment plant, and

(2) to Smithfield Township, Pennsylvania, for rehabilitating and extending its collector system.

(c) Taylor Mill, Kentucky.—Notwithstanding section 201(g)(1) of the Federal Water Pollution Control Act or any other provision of law, the Administrator shall make a grant of $250,000 from funds allotted under section 205 of such Act to the State of Kentucky for fiscal year 1986 to the city of Taylor Mill, Kentucky, for the repair and reconstruction, as necessary, of the publicly owned treatment works of such city.

(d) Nevada County, California.—Out of funds available for grants in the State of California under the third sentence of section 201(g)(1) of the Federal Water Pollution Control Act in fiscal year 1987, the Administrator shall make a grant for the construction of a collection system serving the Glenshire/Devonshire area of Nevada County, California, to deliver waste to the Tahoe-Truckee Sanitary District's regional wastewater treatment facility.

(e) Treatment Works for Wanaque, New Jersey.—In fiscal year 1987 and succeeding fiscal years, the Administrator shall make grants to the Wanaque Valley Regional Sewerage Authority, New Jersey, from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of New Jersey for such fiscal year, for the construction of treatment works with a total treatment capacity of 1,050,000 gallons per day (including a treatment module with a treatment capacity of 350,000 gallons per day). Notwithstanding section 202 of such Act, the Federal share of the cost of construction of such treatment works shall be 75 percent.

(f) Treatment Works for Lena, Illinois.—The Administrator shall make grants to the village of Lena, Illinois, from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of Illinois for fiscal years beginning after September 30, 1986, for the construction of a replacement moving bed filter press for the treatment works of such village. Notwithstanding section 202 of the Federal Water Pollution Control Act, the Federal share of the cost of construction of such project shall be 75 percent.

(g) Priority for Court-Ordered and Other Projects.—The State of Pennsylvania, from funds allotted to it under section 205 of the Federal Water Pollution Control Act, shall give priority for construction of—

(1) the Wyoming Valley Sanitary Authority Secondary Treatment project mandated under Federal court order, regardless of the date of start of construction made pursuant to the court order; and

(2) a project for wastewater treatment for Altoona, Pennsylvania.

SEC. 214. CHICAGO TUNNEL AND RESERVOIR PROJECT.

The Chicago tunnel and reservoir project may receive grants under the last sentence of section 201(g)(1) of the Federal Water Pollution Control Act without regard to the limitation contained in such sentence if the Administrator determines that such project meets the cost-effectiveness requirements of sections 217 and 218 of such Act without any redesign or reconstruction and if the Governor of the affected State demonstrates to the satisfaction of the Administrator the water quality benefits of such project.

SEC. 215. AD VALOREM TAX DEDICATION.

For the purposes of complying with section 204(b)(1) of the Federal Water Pollution Control Act, the ad valorem tax user charge systems of the town of Hampton and the city of Nashua, New Hampshire, shall be deemed to have been dedicated as of December 27, 1977. The Administrator shall review such ad valorem tax user charge systems for compliance with the remaining requirements of such section and related regulations of the Environmental Protection Agency.

TITLE III—STANDARDS AND ENFORCEMENTS

SEC. 301. COMPLIANCE DATES.

(a) Priority Toxic Pollutants.—Section 301(b)(2)(C) is amended by striking out "not later than July 1, 1984," and inserting after "of this paragraph" the following: "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989".

(b) Other Toxic Pollutants.—Section 301(b)(2)(D) is amended by striking out "not later than three years after the date such limitations are established" and inserting in lieu thereof "as expeditiously as practicable, but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989".

(c) Conventional Pollutants.—Section 301(b)(2)(E) is amended by striking "not later than July 1, 1984," and inserting in lieu thereof "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989, compliance with".

(d) Other Pollutants.—Section 301(b)(2)(F) is amended by striking "not" after "subparagraph (A) of this paragraph" and inserting in lieu thereof "as expeditiously as practicable but in no case", and by striking "or not later than July 1, 1984," and all that follows through the end of the sentence and inserting in lieu thereof "and in no case later than March 31, 1989.".

(e) Stricter BPT.—Section 301(b) is amended by adding at the end the following new paragraph:

"(3)(A) for effluent limitations under paragraph (1)(A)(i) of this subsection promulgated after January 1, 1982, and requiring a level of control substantially greater or based on fundamentally different control technology than under permits for an industrial category issued before such date, compliance as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989; and

"(B) for any effluent limitation in accordance with paragraph (1)(A)(i), (2)(A)(i), or (2)(E) of this subsection established only on the basis of section 402(a)(1) in a permit issued after enactment of the Water Quality Act of 1987, compliance as expeditiously as practicable but in no case later than three years after the date such limitations are established, and in no case later than March 31, 1989.".

(f) Deadlines for Regulations for Certain Toxic Pollutants.—The Administrator shall promulgate final regulations establishing effluent limitations in accordance with sections 301(b)(2)(A) and 307(b)(1) of the Federal Water Pollution Control Act for all toxic pollutants referred to in table 1 of Committee Print Numbered 95-30 of the Committee on Public Works and Transportation of the House of Representatives which are discharged from the categories of point sources in accordance with the following table:

Category	Date by which the final regulation shall be promlulgated
Organic chemicals and plastics and synthetic fibers.	December 31, 1986.
Pesticides	December 31, 1986.

SEC. 302. MODIFICATION FOR NONCONVENTIONAL POLLUTANTS.

(a) Listing of Pollutants.—Section 301(g) is amended by redesignating paragraph (2) (and any references thereto) as paragraph (3) and by striking out all that precedes subparagraph (A) of paragraph (1) and inserting in lieu thereof the following:

"(g) Modifications for Certain Nonconventional Pollutants.—

"(1) General authority.—The Administrator, with the concurrence of the State, may modify the requirements of subsection (b)(2)(A) of this section with respect to the discharge from any point source of ammonia, chlorine, color, iron, and total phenols (4AAP) (when determined by the Administrator to be a pollutant covered by subsection (b)(2)(F)) and any other pollutant which the Administrator lists under paragraph (4) of this subsection.

"(2) Requirements for granting modifications.—A modification under this subsection shall be granted only upon a showing by the owner or operator of a point source satisfactory to the Administrator that—".

(b) Procedure for Listing Additional Pollutants; Removal.—Section 301(g) is further amended by adding at the end thereof the following new paragraphs:

"(4) Procedures for listing additional pollutants.—

"(A) General authority.—Upon petition of any person, the Administrator may add any pollutant to the list of pollutants for which modification under this section is authorized (except for pollutants identified pursuant to section 304(a)(4) of this Act, toxic pollutants subject to section 307(a) of this Act, and the thermal component of discharges) in accordance with the provisions of this paragraph.

"(B) Requirements for listing.—

"(i) Sufficient information.—The person petitioning for listing of an additional pollutant under this subsection shall submit to the Administrator sufficient information to make the determinations required by this subparagraph.

"(ii) Toxic criteria determination.—The Administrator shall determine whether or not the pollutant meets the criteria for listing as a toxic pollutant under section 307(a) of this Act.

"(iii) Listing as toxic pollutant.—If the Administrator determines that the pollutant meets the criteria for listing as a toxic pollutant under section 307(a), the Administrator shall list the pollutant as a toxic pollutant under section 307(a).

"(iv) Nonconventional criteria determination.—If the Administrator determines that the pollutant does not meet the criteria for listing as a toxic pollutant under such section and determines that adequate test methods and sufficient data are available to make the determinations required by paragraph (2) of this subsection with respect to the pollutant, the Administrator shall add the pollutant to the list of pollutants specified in paragraph (1) of this subsection for which modifications are authorized under this subsection.

"(C) Requirements for filing of petitions.—A petition for listing of a pollutant under this paragraph—

"(i) must be filed not later than 270 days after the date of promulgation of an applicable effluent guideline under section 304;

"(ii) may be filed before promulgation of such guideline; and

"(iii) may be filed with an application for a modification under paragraph (1) with respect to the discharge of such pollutant.

"(D) Deadline for approval of petition.—A decision to add a pollutant to the list of pollutants for which modifications under this subsection are authorized must be made within 270 days after the date of promulgation of an applicable effluent guideline under section 304.

"(E) Burden of proof.—The burden of proof for making the determinations under subparagraph (B) shall be on the petitioner.

"(5) Removal of pollutants.—The Administrator may remove any pollutant from the list of pollutants for which modifications are authorized under this subsection if the Administrator determines that adequate test methods and sufficient data are no longer available for determining whether or not modifications may be granted with respect to such pollutant under paragraph (2) of this subsection.".

(c) Deadline for Approval of Modifications.—Section 301(j) is amended—

(1) in paragraph (2) by striking out "Any" and inserting in lieu thereof "Subject to paragraph (3) of this section, any"; and

(2) by adding at the end thereof the following new paragraphs:

"(3) Compliance requirements under subsection (g).—

"(A) Effect of filing.—An application for a modification under subsection (g) and a petition for listing of a pollutant as a pollutant for which modifications are authorized under such subsection shall not stay the requirement that the person seeking such modification or listing comply with effluent limitations under this Act for all pollutants not the subject of such application or petition.

"(B) Effect of disapproval.—Disapproval of an application for a modification under subsection (g) shall not stay the requirement that the person seeking such modification comply with all applicable effluent limitations under this Act.

"(4) Deadline for subsection (g) decision.—An application for a modification with respect to a pollutant filed under subsection (g) must be approved or disapproved not later than 365 days after the date of such filing; except that in any case in which a petition for listing such pollutant as a pollutant for which modifications are authorized under such subsection is approved, such application must be approved or disapproved not later than 365 days after the date of approval of such petition.".

(d) Conforming Amendments.—(1) Paragraph (3) of section 301(g), as redesignated by subsection (a) of this section, is amended by inserting "LIMITATION ON AUTHORITY TO APPLY FOR SUBSECTION (c) MODIFICATION.—" before "If an owner" and by aligning such paragraph with paragraph (4) of such section, as added by subsection (b) of this section.

(2) Paragraph (2) of section 301(g) (as designated by subsection (a) of this section) is amended by realigning subparagraphs (A), (B), and (C) with subparagraph (A) of paragraph (4), as added by subsection (b) of this section.

(e) Application.—

(1) General rule.—Except as provided in paragraph (2), the amendments made by this section shall apply to all requests for modifications under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act and shall not have the effect of extending the deadline established in section 301(j)(1)(B) of such Act.

(2) Exception.—The amendments made by this section shall not affect any application for a modification with respect to the discharge of ammonia, chlorine, color, iron, or total phenols (4AAP) under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act; except that the Administrator must approve or disapprove such application not later than 365 days after the date of such enactment.

SEC. 303. DISCHARGES INTO MARINE WATERS.

(a) Consideration of Other Sources of Pollutants.—Section 301(h)(2) is amended by striking out "such modified requirements will not interfere" and inserting in lieu thereof the following: "the discharge of pollutants in accordance with such modified requirements will not interfere, alone or in combination with pollutants from other sources,".

(b) Limitation on Scope of Monitoring.—

(1) General rule.—Section 301(h)(3) is amended by inserting before the semicolon at the end thereof the following: ", and the scope of such monitoring is limited to include only those scientific investigations which are necessary to study the effects of the proposed discharge".

(2) Limitation on applicability.—The amendment made by subsection (b) shall only apply to modifications and renewals of modifications which are tentatively or finally approved after the date of the enactment of this Act.

(c) Urban Area Pretreatment Program.—Section 301(h) is amended by redesignating paragraphs (6) and (7), and any references thereto, as paragraphs (7) and (8), respectively, and by inserting after paragraph (5) the following new paragraph:

"(6) in the case of any treatment works serving a population of 50,000 or more, with respect to any toxic pollutant introduced into such works by an industrial discharger for which pollutant there is no applicable pretreatment requirement in effect, sources introducing waste into such works are in compliance with all applicable pretreatment requirements, the applicant will enforce such requirements, and the applicant has in effect a pretreatment program which, in combination with the treatment of discharges from such works, removes the same amount of such pollutant as would be removed if such works were to apply secondary treatment to discharges and if such works had no pretreatment program with respect to such pollutant;".

(d) Primary Treatment for Effluent.—

(1) General rule.—Section 301(h) is amended by striking out the period at the end of paragraph (8) (as redesignated by subsection (c) of this section) and inserting in lieu thereof a semicolon and by inserting after such paragraph (8) the following new paragraph:

"(9) the applicant at the time such modification becomes effective will be discharging effluent which has received at least primary or equivalent treatment and which meets the criteria established under section 304(a)(1) of this Act after initial mixing in the waters surrounding or adjacent to the point at which such effluent is discharged.".

(2) Primary or equivalent treatment defined.—Such section is further amended by inserting after the second sentence the following new sentence: "For the purposes of paragraph (9), 'primary or equivalent treatment' means treatment by screening, sedimentation, and skimming adequate to remove at least 30 percent of the biological oxygen demanding material and of the suspended solids in the treatment works influent, and disinfection, where appropriate.".

(e) Limitations on Issuance of Permits.—Section 301(h) is further amended by adding at the end thereof the following new sentences: "In order for a permit to be issued under this subsection for the discharge of a pollutant into marine waters, such marine waters must exhibit characteristics assuring that water providing dilution does not contain significant amounts of previously discharged effluent from such treatment works. No permit issued under this subsection shall authorize the discharge of any pollutant into saline estuarine waters which at the time of application do not support a balanced indigenous population of shellfish, fish and wildlife, or allow recreation in and on the waters or which exhibit ambient water quality below applicable water quality standards adopted for the protection of public water supplies, shellfish, fish and wildlife or recreational activities or such other standards necessary to assure support and protection of such uses. The prohibition contained in the preceding sentence shall apply without regard to the presence or absence of a causal relationship between such characteristics and the applicant's current or proposed discharge. Notwithstanding any other provisions of this subsection, no permit may be issued under this subsection for discharge of a pollutant into the New York Bight Apex consisting of the ocean waters of the Atlantic Ocean westward of 73 degrees 30 minutes west longitude and northward of 40 degrees 10 minutes north latitude.".

(f) Application for Ocean Discharge Modification.—Section 301(j)(1)(A) is amended by inserting before the semicolon at the end thereof the following: ", except that a publicly owned treatment works which prior to December 31, 1982, had a contractual arrangement to use a portion of the capacity of an ocean outfall operated by another publicly owned treatment works which has applied for or received modification under subsection (h), may apply for a modification of subsection (h) in its own right not later than 30 days after the date of the enactment of the Water Quality Act of 1987".

(g) Grandfather of Certain Applicants.—The amendments made by subsections (a), (c), (d), and (e) of this section shall not apply to an application for a permit under section 301(h) of the Federal Water Pollution Control Act which has been tentatively or finally approved by the Administrator before the date of the enactment of this Act; except that such amendments shall apply to all renewals of such permits after such date of enactment.

SEC. 304. FILING DEADLINE FOR TREATMENT WORKS MODIFICATION.

(a) Extension.—The second sentence of section 301(i)(1) is amended by striking out "of this subsection." and inserting in lieu thereof "of the Water Quality Act of 1987.".

(b) Applicability.—The amendment made by subsection (a) shall not apply to those treatment works which are subject to a compliance schedule established before the date of the enactment of this Act by a court order or a final administrative order.

SEC. 305. INNOVATIVE TECHNOLOGY COMPLIANCE DEADLINES FOR DIRECT DISCHARGERS.

(a) Extension of Deadline.—Section 301(k) is amended by striking out "July 1, 1987," and inserting in lieu thereof "two years after the date for compliance with such effluent limitation which would otherwise be applicable under such subsection,".

(b) Extension to Conventional Pollutants.—Section 301(k) is amended by inserting "or (b)(2)(E)" after "(b)(2)(A)" each place it appears.

SEC. 306. FUNDAMENTALLY DIFFERENT FACTORS.

(a) General Rule.—Section 301 is amended by adding at the end the following new subsections:

"(n) Fundamentally Different Factors.—

"(1) General rule.—The Administrator, with the concurrence of the State, may establish an alternative requirement under subsection (b)(2) or section 307(b) for a facility that modifies the requirements of national effluent limitation guidelines or categorical pretreatment standards that would otherwise be applicable to such facility, if the owner or operator of such facility demonstrates to the satisfaction of the Administrator that—

"(A) the facility is fundamentally different with respect to the factors (other than cost) specified in section 304(b) or 304(g) and considered by the Administrator in establishing such national effluent limitation guidelines or categorical pretreatment standards;

"(B) the application—

"(i) is based solely on information and supporting data submitted to the Administrator during the rulemaking for establishment of the applicable national effluent limitation guidelines or categorical pretreatment standard specifically raising the factors that are fundamentally different for such facility; or

"(ii) is based on information and supporting data referred to in clause (i) and information and supporting data the applicant did not have a reasonable opportunity to submit during such rulemaking;

"(C) the alternative requirement is no less stringent than justified by the fundamental difference; and

"(D) the alternative requirement will not result in a non-water quality environmental impact which is markedly more adverse than the impact considered by the Administrator in establishing such national effluent limitation guideline or categorical pretreatment standard.

"(2) Time limit for applications.—An application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection must be submitted to the Administrator within 180 days after the date on which such limitation or standard is established or revised, as the case may be.

"(3) Time limit for decision.—The Administrator shall approve or deny by final agency action an application submitted under this subsection within 180 days after the date such application is filed with the Administrator.

"(4) Submission of information.—The Administrator may allow an applicant under this subsection to submit information and supporting data until the earlier of the date the application is approved or denied or the last day that the Administrator has to approve or deny such application.

"(5) Treatment of pending applications.—For the purposes of this subsection, an application for an alternative requirement based on fundamentally different factors which is pending on the date of the enactment of this subsection shall be treated as having been submitted to the Administrator on the 180th day following such date of enactment. The applicant may amend the application to take into account the provisions of this subsection.

"(6) Effect of submission of application.—An application for an alternative requirement under this subsection shall not stay the applicant's obligation to comply with the effluent limitation guideline or categorical pretreatment standard which is the subject of the application.

"(7) Effect of denial.—If an application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection is denied by the Administrator, the applicant must comply with such limitation or standard as established or revised, as the case may be.

"(8) Reports.—Every 6 months after the date of the enactment of this subsection, the Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the status of applications for alternative requirements which modify the requirements of effluent limitations under section 301 or 304 of this Act or any national categorical pretreatment standard under section 307(b) of this Act filed before, on, or after such date of enactment.

"(o) Application Fees.—The Administrator shall prescribe and collect from each applicant fees reflecting the reasonable administrative costs incurred in reviewing and processing applications for modifications submitted to the Administrator pursuant to subsections (c), (g), (i), (k), (m), and (n) of section 301, section 304(d)(4), and section 316(a) of this Act. All amounts collected by the Administrator under this subsection shall be deposited into a special fund of the Treasury entitled 'Water Permits and Related Services' which shall thereafter be available for appropriation to carry out activities of the Environmental Protection Agency for which such fees were collected.".

(b) Conforming Amendment.—Section 301(l) is amended by striking out "The" and inserting in lieu thereof "Other than as provided in subsection (n) of this section, the".

(c) Phosphate Fertilizer Effluent Limitation.—

(1) LIMITATION ON APPLICABILITY.—The effluent limitation established by the Administrator pursuant to section 301(b) of the Federal Water Pollution Control Act for the phosphate subcategory of the fertilizer manufacturing point source category shall not apply to facilities which had commenced construction on or before April 8, 1974, and for which the Administrator is proposing to revise the applicability of such limitations to exclude such facilities.

(2) ISSUANCE OF PERMIT.—As soon as possible after the date of the enactment of this Act, but not later than 180 days after such date of enactment, the Administrator shall issue permits under section 402(a)(1)(B) of the Federal Water Pollution Control Act with respect to the facilities described in paragraph (1). Such permits shall remain in effect until, after such date of enactment, issuance of a permit under effluent guidelines applicable to discharges for the phosphate subcategory.

SEC. 307. COAL REMINING OPERATIONS.

Section 301 is amended by adding at the end thereof the following:

"(p) MODIFIED PERMIT FOR COAL REMINING OPERATIONS.—

"(1) IN GENERAL.—Subject to paragraphs (2) through (4) of this subsection, the Administrator, or the State in any case which the State has an approved permit program under section 402(b), may issue a permit under section 402 which modifies the requirements of subsection (b)(2)(A) of this section with respect to the pH level of any pre-existing discharge, and with respect to pre-existing discharges of iron and manganese from the remined area of any coal remining operation or with respect to the pH level or level of iron or manganese in any pre-existing discharge affected by the remining operation. Such modified requirements shall apply the best available technology economically achievable on a case-by-case basis, using best professional judgment, to set specific numerical effluent limitations in each permit.

"(2) LIMITATIONS.—The Administrator or the State may only issue a permit pursuant to paragraph (1) if the applicant demonstrates to the satisfaction of the Administrator or the State, as the case may be, that the coal remining operation will result in the potential for improved water quality from the remining operation but in no event shall such a permit allow the pH level of any discharge, and in no event shall such a permit allow the discharges of iron and manganese, to exceed the levels being discharged from the remined area before the coal remining operation begins. No discharge from, or affected by, the remining operation shall exceed State water quality standards established under section 303 of this Act.

"(3) DEFINITIONS.—For purposes of this subsection—

"(A) COAL REMINING OPERATION.—The term 'coal remining operation' means a coal mining operation which begins after the date of the enactment of this subsection at a site on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

"(B) REMINED AREA.—The term 'remined area' means only that area of any coal remining operation on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

"(C) PRE-EXISTING DISCHARGE.—The term 'pre-existing discharge' means any discharge at the time of permit application under this subsection.

"(4) APPLICABILITY OF STRIP MINING LAWS.—Nothing in this subsection shall affect the application of the Surface Mining Control and Reclamation Act of 1977 to any coal remining operation, including the application of such Act to suspended solids.".

SEC. 308. INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.

(a) IN GENERAL.—Section 304 is amended by adding at the end thereof the following new subsection:

"(l) INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.—

"(1) STATE LIST OF NAVIGABLE WATERS AND DEVELOPMENT OF STRATEGIES.—Not later than 2 years after the date of the enactment of this subsection, each State shall submit to the Administrator for review, approval, and implementation under this subsection—
